

IMPORTANT NOTICE

IMPORTANT: You must read the following before continuing. The following disclaimer applies to the Base Prospectus attached to this electronic transmission, and you are therefore advised to read this disclaimer carefully before reading, accessing or making any other use of the attached Base Prospectus. In accessing the attached Base Prospectus, you agree to be bound by the following terms and conditions, including any modifications to them any time you receive any information from us as a result of such access.

NOTHING IN THE ATTACHED BASE PROSPECTUS CONSTITUTES AN OFFER OF SECURITIES FOR SALE IN THE UNITED STATES OR ANY OTHER JURISDICTION WHERE IT IS UNLAWFUL TO DO SO. ANY SECURITIES TO BE ISSUED WILL NOT BE REGISTERED UNDER THE U.S. SECURITIES ACT OF 1933 (THE “**SECURITIES ACT**”), OR THE SECURITIES LAWS OF ANY STATE OF THE UNITED STATES OR OTHER JURISDICTION, AND THE SECURITIES MAY NOT BE OFFERED OR SOLD, DIRECTLY OR INDIRECTLY, WITHIN THE UNITED STATES OR TO, OR FOR THE ACCOUNT OR BENEFIT OF, U.S. PERSONS (AS DEFINED IN REGULATION S UNDER THE SECURITIES ACT), EXCEPT PURSUANT TO AN EXEMPTION FROM, OR IN A TRANSACTION NOT SUBJECT TO, THE REGISTRATION REQUIREMENTS OF THE SECURITIES ACT AND APPLICABLE STATE OR LOCAL SECURITIES LAWS.

THE ATTACHED BASE PROSPECTUS MAY NOT BE FORWARDED OR DISTRIBUTED TO ANY OTHER PERSON AND MAY NOT BE REPRODUCED IN ANY MANNER WHATSOEVER AND, IN PARTICULAR, MAY NOT BE FORWARDED TO A U.S. PERSON (AS DEFINED IN REGULATION S UNDER THE SECURITIES ACT), A PERSON IN THE UNITED STATES OR A U.S. ADDRESS. ANY FORWARDING, DISTRIBUTION OR REPRODUCTION OF THIS DOCUMENT IN WHOLE OR IN PART IS UNAUTHORISED. FAILURE TO COMPLY WITH THIS DIRECTIVE MAY RESULT IN A VIOLATION OF THE SECURITIES ACT OR THE APPLICABLE LAWS OF OTHER JURISDICTIONS. IF YOU HAVE GAINED ACCESS TO THIS TRANSMISSION CONTRARY TO ANY OF THE FOREGOING RESTRICTIONS, YOU ARE NOT AUTHORISED TO ACCESS THE ATTACHED BASE PROSPECTUS OR USE IT FOR ANY PURPOSE AND WILL NOT BE ABLE TO PURCHASE ANY OF THE SECURITIES DESCRIBED THEREIN.

Confirmation of your representation: In order to be eligible to view the attached Base Prospectus or make an investment decision with respect to the securities described therein, investors must be (i) “qualified institutional buyers” (as defined in Rule 144A under the Securities Act) that are also “qualified purchasers” as defined in Section 2(A)(51) of the U.S. Investment Company Act of 1940, as amended, or (ii) non-U.S. Persons (as defined in Regulation S under the Securities Act) outside the United States who are not acting for the account or benefit of U.S. Persons. By accessing these materials, you shall be deemed to have represented to us that you (i) are a qualified institutional buyer and a qualified purchaser or (ii) are outside the United States and are not a U.S. Person and are not acting for the account or benefit of a U.S. Person.

The Base Prospectus may only be provided to persons in the United Kingdom in circumstances where Section 21(1) of the Financial Services and Markets Act 2000 does not apply to the Issuer.

The Base Prospectus, prepared pursuant to the Prospectus (Directive 2003/71/EC) Regulations 2005, will be available from the registered office of the Issuer and the website of the Central Bank of Ireland.

This Base Prospectus or information contained therein is not an offer, or an invitation to make offers, to sell, exchange or otherwise transfer securities in the Russian Federation to or for the benefit of any Russian person or entity and does not constitute an advertisement or offering of securities in the Russian Federation within the meaning of Russian securities laws. Information contained in the Base Prospectus is not intended for any persons in the Russian Federation who are not “qualified investors” within the meaning of Article 51.2 of Federal Law No. 39-FZ “On the Securities Market” dated 22 April 1996, as amended (the “**Russian QIs**”) and must not be distributed or circulated into Russia or made available in Russia to any persons who are not Russian QIs, unless and to the extent they are otherwise permitted to access such information under Russian law. The securities described in the attached Base Prospectus have not been and will not be registered in Russia and are not intended for “placement” or “circulation” in Russia (each as defined in Russian securities laws) unless and to the extent otherwise permitted under Russian law.

You are reminded that you are accessing the attached Base Prospectus on the basis that you are a person by whom the attached Base Prospectus may be lawfully accessed in accordance with the laws of the jurisdiction in which you are located and you may not, nor are you authorised to, deliver the attached Base Prospectus to any other person.

The materials relating to the offering do not constitute, and may not be used in connection with, an offer or solicitation in any place where offers or solicitations are not permitted by law. If a jurisdiction requires that the offering be made by a licensed broker or dealer and the underwriters or any affiliate of the underwriters is a licensed broker or dealer in the relevant jurisdiction, the offering shall be deemed to be made by the underwriters or such affiliate on behalf of VEB Finance plc. in such jurisdiction.

The attached Base Prospectus has been sent to you in an electronic form. You are reminded that documents transmitted via this medium may be altered or changed during the process of electronic transmission and, consequently, neither State Corporation “Bank for Development and Foreign Economic Affairs (Vnesheconombank)”, VEB Finance plc., Barclays Bank PLC, BNP Paribas, Citigroup Global Markets Limited, Crédit Agricole Corporate and Investment Bank, Deutsche Bank AG, London Branch, HSBC Bank plc, J.P. Morgan Securities plc, Morgan Stanley & Co. International plc, Société Générale Corporate & Investment Bank or The Royal Bank of Scotland plc, nor any person who controls any of them, nor any director, officer, employee or agent of it or affiliate of any such person accepts any liability or responsibility whatsoever in respect of any difference between the Base Prospectus distributed to you in electronic format and the hard copy version

available to you on request from State Corporation “Bank for Development and Foreign Economic Affairs (Vnesheconombank)”, VEB Finance plc., Barclays Bank PLC, BNP Paribas, Citigroup Global Markets Limited, Crédit Agricole Corporate and Investment Bank, Deutsche Bank AG, London Branch, HSBC Bank plc, J.P. Morgan Securities plc, Morgan Stanley & Co. International plc, Société Générale Corporate & Investment Bank or The Royal Bank of Scotland plc.

U.S.\$30,000,000,000
Programme for the Issuance of Loan Participation Notes

to be issued by, but with limited recourse to,

VEB Finance plc.

for the purpose of financing loans to

State Corporation "Bank for Development and Foreign Economic Affairs (Vnesheconombank)"

Under the programme for the issuance of Loan Participation Notes (the "Programme") described in this base prospectus (the "Base Prospectus"), VEB Finance plc. (the "Issuer") may, subject to compliance with all relevant laws, regulations and directives, from time to time, issue loan participation notes (the "Notes") on the terms set out herein. Each such issuance will be subject to a final terms supplement (each such final terms, the "Final Terms") or a series prospectus (each such series prospectus, a "Series Prospectus") setting out the specific terms of such issuance. This Base Prospectus should be read in conjunction with the relevant Final Terms applicable to such issuance. The aggregate principal amount of Notes outstanding will not at any time exceed U.S.\$30,000,000,000 (or the equivalent in other currencies). Notes will be issued in Series (as defined in "Overview of the Programme") and the purpose of issuing each Series will be to finance either a senior loan (a "Senior Loan") or a subordinated loan (a "Subordinated Loan"), and, together with a Senior Loan, the "Loans" and each a "Loan" to State Corporation "Bank for Development and Foreign Economic Affairs (Vnesheconombank)" ("VEB" or the "Borrower") as borrower, on the terms of either (i) in relation to a Senior Loan, a facility agreement between the Issuer and VEB dated 24 June 2010 as amended by a deed of amendment dated 5 November 2013 (the "Facility Agreement"), as amended and supplemented by a loan supplement to be entered into in respect of each Loan on or before each issue date (the "Issue Date") of the relevant Series (each a "Loan Supplement") and, together with the Facility Agreement, the "Senior Loan Agreement") or (ii) in relation to a Subordinated Loan, a subordinated loan agreement to be entered into between the Issuer and VEB to be dated on or before the Issue Date of the relevant Series (as amended and supplemented from time to time) (the "Subordinated Loan Agreement"), and, in either case, any applicable Swap Agreement or Swap Agreements (each as defined below), as the case may be. In this Base Prospectus, "Loan Agreement" shall mean either (i) a Senior Loan Agreement (in respect of a Senior Loan) or (ii) a Subordinated Loan Agreement (in respect of a Subordinated Loan), as applicable. The relevant Final Terms, or the Series Prospectus, as the case may be, in respect of the issue of any Series of Notes will specify whether a Loan being financed by such Series of Notes is a Senior Loan (such Series of Notes being a "Senior Series") or a Subordinated Loan (such Series of Notes being a "Subordinated Series"). As provided in the Trust Deed (as defined herein), the Issuer will (a) charge, in favour of BNY Mellon Corporate Trustee Services Limited, as trustee (the "Trustee"), by way of a first fixed charge as security for its payment obligations (i) in respect of each Series of Notes; (ii) under the Trust Deed; and (iii) if applicable, under the relevant Swap Agreement or Swap Agreements, as the case may be, certain of its rights and interests under the relevant Loan Agreement and, if applicable, certain of its rights as counterparty under the relevant Swap Agreement or Swap Agreements, as the case may be, and the relevant Account or Accounts (as defined in the relevant Loan Supplement or the Subordinated Loan Agreement, as the case may be) but excluding any Issuer Reserved Rights (as defined in the Trust Deed) (the "Charge") and (b) assign, in favour of the Trustee, certain of its other rights under the Loan Agreement, including rights in respect of any Loan Assignment (as defined below) but excluding any Issuer Reserved Rights and, if applicable, certain of its rights as counterparty under the relevant Swap Agreement or Swap Agreements, as the case may be, in each case for the benefit of the holders of the corresponding Series of Notes (the "Noteholders"), all as more fully described in "Overview of the Programme".

In connection with the payments made in respect of a Series of Notes and the corresponding Loan, the Issuer and any applicable swap counterparty or swap counterparties, as the case may be (each a "Swap Counterparty"), and together the "Swap Counterparties"), may enter into currency exchange transactions under swap documentation (each a "Currency Swap Agreement"), and, together the "Currency Swap Agreements"), and/or into interest rate exchange transactions under swap documentation (each an "Interest Rate Swap Agreement"), and together the "Interest Rate Swap Agreements", and any such Currency Swap Agreement and Interest Rate Swap Agreement, a "Swap Agreement", and, if more than one Swap Agreement, "Swap Agreements"). In these circumstances, the Charge will be held for the benefit of the relevant Swap Counterparties in addition to the Noteholders.

In each case where amounts of principal, interest and additional amounts (if any) are stated to be payable in respect of a Series of Notes, the obligation of the Issuer to make any such payment constitutes an obligation only to account to the Noteholders, on each date upon which such amounts of principal, interest and additional amounts (if any) are due in respect of such Series of Notes, for an amount equivalent to all principal, interest and additional amounts (if any) actually received and retained (net of tax) from VEB by or for the account of the Issuer pursuant to the relevant Loan Agreement, less any amounts in respect of the Issuer Reserved Rights; provided that, for so long as a Swap Agreement is in effect, recourse shall be limited in respect of amounts exchanged pursuant to such Swap Agreement. The Issuer will have no other financial obligation under the Notes. Noteholders will be deemed to have accepted and agreed that they will be relying solely on the credit and financial standing of VEB in respect of the payment obligations of the Issuer under the Notes.

AN INVESTMENT IN THE NOTES INVOLVES A HIGH DEGREE OF RISK. SEE "RISK FACTORS".

THE NOTES AND THE CORRESPONDING LOANS HAVE NOT BEEN, AND WILL NOT BE, REGISTERED UNDER THE U.S. SECURITIES ACT OF 1933 (THE "SECURITIES ACT"), AND, SUBJECT TO CERTAIN EXCEPTIONS, MAY NOT BE OFFERED OR SOLD WITHIN THE UNITED STATES OR TO, OR FOR THE ACCOUNT OR BENEFIT OF, U.S. PERSONS (AS DEFINED IN REGULATION S UNDER THE SECURITIES ACT ("REGULATION S")). THE NOTES MAY BE OFFERED AND SOLD (I) WITHIN THE UNITED STATES TO QUALIFIED INSTITUTIONAL BUYERS ("QIBS"), AS DEFINED IN RULE 144A UNDER THE SECURITIES ACT ("RULE 144A"), THAT ARE ALSO QUALIFIED PURCHASERS ("QPS"), AS DEFINED IN SECTION 2(A)(51) OF THE U.S. INVESTMENT COMPANY ACT OF 1940, AS AMENDED (THE "INVESTMENT COMPANY ACT"), IN RELIANCE ON THE EXEMPTION FROM REGISTRATION PROVIDED BY RULE 144A (THE "RULE 144A NOTES"); AND (II) TO NON-U.S. PERSONS IN OFFSHORE TRANSACTIONS IN RELIANCE ON REGULATION S (THE "REGULATION S NOTES"). THE ISSUER HAS NOT BEEN AND WILL NOT BE REGISTERED UNDER THE INVESTMENT COMPANY ACT. PROSPECTIVE PURCHASERS ARE HEREBY NOTIFIED THAT SELLERS OF THE RULE 144A NOTES MAY BE RELYING ON THE EXEMPTION FROM THE PROVISIONS OF SECTION 5 OF THE SECURITIES ACT PROVIDED BY RULE 144A. FOR A DESCRIPTION OF THESE AND CERTAIN OTHER RESTRICTIONS, SEE "SUBSCRIPTION AND SALE" AND "TRANSFER RESTRICTIONS".

This Base Prospectus or information contained therein is not an offer, or an invitation to make offers, to sell, exchange or otherwise transfer securities in the Russian Federation to or for the benefit of any Russian person or entity and does not constitute an advertisement or offering of securities in the Russian Federation within the meaning of Russian securities laws. Information contained in the Base Prospectus is not intended for any persons in the Russian Federation who are not "qualified investors" within the meaning of Article 51.2 of Federal Law No. 39-FZ "On the Securities Market" dated 22 April 1996, as amended (the "Russian QIs") and must not be distributed or circulated into Russia or made available in Russia to any persons who are not Russian QIs, unless and to the extent they are otherwise permitted to access such information under Russian law. The securities described in the attached Base Prospectus have not been and will not be registered in Russia and are not intended for "placement" or "circulation" in Russia (each as defined in Russian securities laws) unless and to the extent otherwise permitted under Russian law.

The Base Prospectus has been approved by the Central Bank of Ireland, as competent authority under Directive 2003/71/EC, as amended (the "Prospectus Directive"). The Central Bank of Ireland only approves this Base Prospectus as meeting the requirements imposed under Irish and EU law pursuant to the Prospectus Directive. Application will be made to the Irish Stock Exchange (the "Irish Stock Exchange") for Notes issued under the Programme within 12 months of the Base Prospectus to be admitted to the Official List (the "Official List") and trading on its regulated market (the "Main Securities Market"). The Main Securities Market is a regulated market for the purposes of Directive 2004/39/EC. Such approval relates only to the Notes which are to be admitted to trading on the regulated market of the Irish Stock Exchange or other regulated markets for the purposes of Directive 2004/39/EC or which are to be offered to the public in any Member State of the European Economic Area. Copies of documents in relation to the Notes to be issued during the period of 12 months from the date of the Base Prospectus will be filed with the Central Bank of Ireland for the purposes of the Prospectus Directive. Unlisted Notes may also be issued pursuant to the Programme. The relevant Final Terms, or the Series Prospectus, as the case may be, in respect of the issue of any Notes will specify whether or not such Notes will be listed on the Irish Stock Exchange and admitted to trading on the Main Securities Market. Reference in this Base Prospectus to Notes being "listed" (and all related references) shall mean that such Notes have been admitted to trading on the regulated market of the Irish Stock Exchange.

Regulation S Notes of each Series which are sold in an "offshore transaction" within the meaning of Regulation S will initially be represented by interests in one or more global unrestricted Notes in registered form (each a "Regulation S Global Note"), without interest coupons, which will be deposited with a common depository for, and registered in the name of a nominee of, Euroclear Bank SA/NV ("Euroclear") and Clearstream Banking, société anonyme ("Clearstream, Luxembourg") on or about the relevant Issue Date. Beneficial interests in a Regulation S Global Note will be shown on, and transfers thereof will be effected only through records maintained by, Euroclear or Clearstream, Luxembourg. Rule 144A Notes of each Series sold to QIBs that are also QPs, as referred to in, and subject to the transfer restrictions described in, "Subscription and Sale" and "Transfer Restrictions", will initially be represented by interests in one or more global restricted Notes in registered form (each a "Rule 144A Global Note"), and, together with any Regulation S Global Notes, the "Global Notes", without interest coupons, which will be deposited with a custodian for, and registered in the name of a nominee of, The Depository Trust Company ("DTC") on or about the relevant Issue Date. Beneficial interests in a Rule 144A Global Note will be shown on, and transfers thereof will be effected only through, records maintained by DTC and its participants. See "Summary of the Provisions Relating to Notes in Global Form". Individual definitive Notes in registered form will only be available in certain limited circumstances as described herein.

The price and amount of Notes in a Series to be issued under the Programme will be determined by the Issuer, VEB and the relevant Permanent Dealer at the time of issue in accordance with prevailing market conditions. The minimum denominations of any Notes issued under the Programme shall be €100,000 (or its equivalent in any other currency as of the date of issue of the Notes). Notes resold pursuant to Rule 144A will be issued in denominations of U.S.\$200,000 (or its equivalent in other currencies rounded upwards as agreed between the Issuer, VEB and the relevant Permanent Dealers). For defined terms, see "Presentation of Financial and Other Information—Certain Definitions".

The rating of certain Series of Notes to be issued under the Programme may be specified in the applicable Final Terms or the Series Prospectus, as the case may be. Whether or not each credit rating applied for in relation to a Series of Notes will be issued by a credit rating agency established in the European Union and registered under Regulation (EC) No 1060/2009 (the "CRA Regulation") will be disclosed in the applicable Final Terms or the Series Prospectus, as the case may be. Please also refer to "Risk Factors—Risks Relating to the Notes and Trading Market—Ratings of Notes".

The Royal Bank of Scotland

The date of this Base Prospectus is 5 November 2013.

This Base Prospectus comprises a base prospectus for the purposes of Article 5.4 of the Prospectus Directive and for the purpose of giving information with regard to the Issuer, VEB and VEB's consolidated subsidiaries taken as a whole (the "**Group**") which is necessary to enable investors to make an informed assessment of the assets and liabilities, financial position, profit and losses and prospects of the Issuer, VEB and the Group.

Each of the Issuer and VEB accepts responsibility for the information contained in this Base Prospectus. To the best of the knowledge and belief of each of the Issuer and VEB (having taken all reasonable care to ensure that such is the case), the information contained in this Base Prospectus is in accordance with the facts and does not omit anything likely to affect the import of such information. VEB's legal name is State Corporation "Bank for Development and Foreign Economic Affairs (Vnesheconombank)". VEB's registration number is 1077711000102 and the address of its registered office is 9, Prospekt Akademika Sakharova, Moscow, 107996, Russian Federation. The telephone number of the registered office is +7 (495) 721 98 40. The Issuer's legal name is VEB Finance plc. The Issuer is registered in Ireland under registration number 481529 and its registered address is 53 Merrion Square, Dublin 2, Ireland. The Issuer's telephone number is +353 1 614 6240.

This Base Prospectus does not constitute an offer of, or an invitation by or on behalf of, the Issuer, VEB, the Group, the Trustee, any Swap Counterparty, any Agent, the Dealers or the Arrangers (each as defined above, under "*Overview of the Programme*" or "*Terms and Conditions of the Notes*", as applicable) to subscribe for or purchase any of the Notes.

The distribution of this Base Prospectus and the offer or sale of the Notes in certain jurisdictions may be restricted by law. Persons into whose possession this Base Prospectus comes are required by the Issuer, VEB, the Group, the Trustee, any Swap Counterparty, the Agents, the Dealers and the Arrangers to inform themselves about, and to observe, any such restrictions. Further information with regard to restrictions on offers and sales of the Notes and the distribution of this Base Prospectus is set out under "*Subscription and Sale*".

No person is authorised to provide any information or make any representation not contained in this Base Prospectus and any information or representation not contained in this Base Prospectus must not be relied upon as having been authorised by or on behalf of the Issuer, VEB, the Group, the Trustee, any Swap Counterparty, any Agent, any of the Dealers or the Arrangers. The delivery of this Base Prospectus at any time does not imply that the information contained in it is correct as at any time subsequent to its date. The websites of VEB and its subsidiaries do not form any part of the contents of this Base Prospectus.

Neither the delivery of this Base Prospectus nor the offer, sale or delivery of any Note shall in any circumstances create any implication that there has been no adverse change, or any event reasonably likely to involve any adverse change, in the condition (financial or otherwise) of the Issuer, VEB or the Group since the date of this Base Prospectus.

None of the Issuer, VEB, the Group, the Trustee, any Swap Counterparty, any Agent, the Dealers or the Arrangers or any of their respective representatives is making any representation to any offeree or purchaser of the Notes regarding the legality of an investment by such offeree or purchaser under relevant investment or similar laws. This Base Prospectus is not intended to provide the basis of any credit or other evaluation and should not be considered as a recommendation by any of VEB, the Issuer, the Trustee, the Arrangers or the Permanent Dealers that any recipient of this Base Prospectus or any financial statements should purchase the Notes. Each potential purchaser of the Notes should determine for itself the relevance of the information contained in this Base Prospectus and its purchase of Notes should be based upon such investigation as it deems necessary. None of the Arrangers or the Permanent Dealers undertakes to review the financial condition or affairs of VEB or the Issuer during the life of the arrangements contemplated by this Base Prospectus, nor to advise any investor or potential investor in the Notes of any information coming to the attention of any of the Arrangers or Permanent Dealers. Furthermore, each investor should consult with its own advisers as to the legal, tax, business, financial and related aspects of purchase of the Notes.

Prospective purchasers must comply with all laws that apply to them in any place in which they buy, offer or sell any Notes or possess this Base Prospectus. Any consents or approvals that are needed in order to purchase any Notes must be obtained. The Issuer, VEB, the Group, the Trustee, the Agents, the Arrangers and the Dealers are not responsible for compliance with these legal requirements. The appropriate characterisation of any Notes under various legal and investment restrictions, and thus the ability of investors subject to these restrictions to purchase such Notes, is subject to significant interpretative uncertainties. No representation or warranty is made as to whether or the extent to which any Notes constitute a lawful investment for investors whose investment authority is subject to legal restrictions. Such investors should consult their legal advisers regarding such matters.

This Base Prospectus has been filed with and approved by the Central Bank of Ireland as required by the Prospectus (Directive 2003/71/EC) Regulations 2005, as amended (the "**Prospectus Regulations**"). This Base Prospectus, as approved by the Central Bank of Ireland, will be filed with the Companies Registration Office in accordance with Regulation 38(1)(b) of the Prospectus Regulations.

Where the Issuer wishes to issue Notes with a maturity of less than one year, it shall ensure that the Notes are issued in accordance with an exemption granted under section 8(2) of the Central Bank Act, 1971, as amended.

Any investment in Notes does not have the status of a bank deposit and is not within the scope of the deposit protection scheme operated by the Central Bank of Ireland. The Issuer is not and will not be regulated by the Central Bank of Ireland as a result of issuing the Notes.

Under any Currency Swap Agreement, the Issuer will agree to make payments of one currency (the “**Loan Currency**”) (subject to receipt of a corresponding amount thereof in the same currency under the Loan Agreement) against payment by the relevant Swap Counterparty of amounts in a different currency corresponding to the amounts due under the Notes and the Trust Deed from time to time, being the Specified Currency (as set out in the relevant Final Terms or the Series Prospectus, as the case may be). Under any Interest Rate Swap Agreement, the Issuer will agree to make payments calculated on the interest basis set out in the relevant Loan Supplement (the “**Loan Interest Basis**”) against payment by the relevant Swap Counterparty of amounts calculated on the interest basis set out in the relevant Final Terms or the Series Prospectus, as the case may be (the “**Notes Interest Basis**”).

In connection with the issue of any Series of Notes, the Dealer or Dealers (if any) named as the stabilising manager(s) in the relevant Final Terms or the Series Prospectus, as the case may be (the “**Stabilising Manager**”), or persons acting on behalf of the Stabilising Manager, may over-allot Notes or effect transactions with a view to supporting the market price of the Notes at a level higher than that which might otherwise prevail. However, there is no assurance that such Stabilising Manager (or persons acting on behalf of the Stabilising Manager) will undertake such stabilisation actions. Any stabilisation action may begin on or after the date on which adequate public disclosure of the terms of the offer of a Series of Notes is made and, if begun, may be ended at any time, but it must end no later than the earlier of 30 days after the Issue Date of such Series of Notes and 60 days after the date of allotment of such Series of Notes. Any stabilisation action or over-allotment shall be conducted in accordance with all applicable laws and rules.

NO REPRESENTATION OR WARRANTY, EXPRESS OR IMPLIED, IS MADE BY THE TRUSTEE, ANY AGENT, THE DEALERS OR THE ARRANGERS AS TO THE ACCURACY, COMPLETENESS OR VERIFICATION OF THE INFORMATION SET FORTH IN THIS BASE PROSPECTUS, AND NOTHING CONTAINED IN THIS BASE PROSPECTUS IS, OR SHALL BE RELIED UPON AS, A PROMISE OR REPRESENTATION, WHETHER AS TO THE PAST OR THE FUTURE. NONE OF THE DEALERS OR THE ARRANGERS ASSUMES ANY RESPONSIBILITY FOR THE ACCURACY, COMPLETENESS OR VERIFICATION OF THE INFORMATION CONTAINED IN THIS BASE PROSPECTUS, NOR TO THE FULLEST EXTENT PERMITTED BY LAW, DO ANY OF THE DEALERS OR ARRANGERS ACCEPT ANY RESPONSIBILITY FOR THE CONTENTS OF THIS BASE PROSPECTUS OR FOR ANY OTHER STATEMENT MADE OR PURPORTED TO BE MADE BY ANY ARRANGER OR DEALER ON ITS BEHALF IN CONNECTION WITH THE ISSUER, OR VEB, OR THE ISSUE AND OFFERING OF THE NOTES. THE ARRANGERS AND EACH DEALER ACCORDINGLY DISCLAIM ALL AND ANY LIABILITY, WHETHER ARISING IN TORT OR CONTRACT OR OTHERWISE (SAVE AS REFERRED TO ABOVE), WHICH IT MIGHT OTHERWISE HAVE IN RESPECT OF THIS BASE PROSPECTUS OR ANY SUCH STATEMENT.

EACH PERSON CONTEMPLATING MAKING AN INVESTMENT IN ANY NOTES ISSUED UNDER THIS PROGRAMME FROM TIME TO TIME MUST MAKE ITS OWN INVESTIGATION AND ANALYSIS OF THE CREDITWORTHINESS OF THE ISSUER, VEB AND THE GROUP AND ITS OWN DETERMINATION OF THE SUITABILITY OF ANY SUCH INVESTMENT, WITH PARTICULAR REFERENCE TO ITS OWN INVESTMENT OBJECTIVES AND EXPERIENCE AND ANY OTHER FACTORS WHICH MAY BE RELEVANT TO IT IN CONNECTION WITH SUCH INVESTMENT.

THE NOTES HAVE NOT BEEN APPROVED OR DISAPPROVED BY THE U.S. SECURITIES AND EXCHANGE COMMISSION, ANY STATE SECURITIES COMMISSION IN THE UNITED STATES OR ANY OTHER U.S. REGULATORY AUTHORITY, NOR HAVE ANY OF THE FOREGOING AUTHORITIES PASSED UPON OR ENDORSED THE MERITS OF THE NOTES OR THE ACCURACY OR THE ADEQUACY OF THIS BASE PROSPECTUS. ANY REPRESENTATION TO THE CONTRARY IS A CRIMINAL OFFENCE IN THE UNITED STATES.

NOTICE TO NEW HAMPSHIRE RESIDENTS

NEITHER THE FACT THAT A REGISTRATION STATEMENT OR AN APPLICATION FOR A LICENCE HAS BEEN FILED UNDER CHAPTER 421-B OF THE NEW HAMPSHIRE REVISED STATUTES (“RSA 421-B”) WITH THE STATE OF NEW HAMPSHIRE NOR THE FACT THAT A SECURITY IS EFFECTIVELY REGISTERED OR A PERSON IS LICENCED IN THE STATE OF NEW HAMPSHIRE CONSTITUTES A FINDING BY THE SECRETARY OF STATE OF NEW HAMPSHIRE THAT ANY DOCUMENT FILED UNDER RSA 421-B IS TRUE, COMPLETE AND NOT MISLEADING. NEITHER ANY SUCH FACT NOR THE FACT THAT AN EXEMPTION OR EXCEPTION IS AVAILABLE FOR A SECURITY OR A TRANSACTION MEANS THAT THE SECRETARY OF STATE HAS PASSED IN ANY WAY UPON THE MERITS OR QUALIFICATIONS OF, OR RECOMMENDED OR GIVEN APPROVAL TO, ANY PERSON, SECURITY OR TRANSACTION. IT IS UNLAWFUL TO MAKE, OR CAUSE TO BE MADE, TO ANY PROSPECTIVE PURCHASER, CUSTOMER OR CLIENT ANY REPRESENTATION INCONSISTENT WITH THE PROVISIONS OF THIS PARAGRAPH.

ADDITIONAL INFORMATION

Neither the Issuer nor VEB is required to file periodic reports under Section 13 or 15 of the U.S. Securities Exchange Act of 1934, as amended (the “**Exchange Act**”). For so long as either the Issuer or VEB is not a reporting company under Section 13 or 15(d) of the Exchange Act, or exempt from reporting pursuant to Rule 12g3-2(b) thereunder, the Issuer or VEB, as the case may be, will, upon request, furnish to each holder or beneficial owner of Notes that are “restricted securities” (within the meaning of Rule 144(a)(3) under the Securities Act) and to each prospective purchaser thereof designated by such holder or beneficial owner upon request of such holder, beneficial owner or prospective purchaser, in connection with a transfer or proposed transfer of any such Notes pursuant to Rule 144A under the Securities Act or otherwise, the information required to be delivered pursuant to Rule 144A(d)(4) under the Securities Act.

DOCUMENTS INCORPORATED BY REFERENCE

The audited financial statements of the Issuer as at and for the years ended 31 December 2012 and 2011 together with the audit report thereon, have been filed with the Irish Stock Exchange and shall be deemed to be incorporated in, and to form part of, this Base Prospectus and are available at the following links: http://www.rns-pdf.londonstockexchange.com/rns/0188R_-2013-10-21.pdf, and http://www.rns-pdf.londonstockexchange.com/rns/6881R_-2013-10-29.pdf.

FATCA

The U.S. foreign account tax compliance rules (“**FATCA**”) were enacted in 2010 to prevent U.S. tax evasion by requiring foreign banks and investment funds to provide information to the United States Internal Revenue Service (the “**IRS**”) about U.S. customers and investors. This is achieved through a comprehensive information reporting regime that requires foreign financial institutions (such as VEB and the Issuer) to conduct diligence on their account holders and investors to determine whether their accounts are “U.S. accounts”, and either provide detailed information about these U.S. accounts to the IRS or suffer a 30% withholding tax on certain payments. It is possible that FATCA could operate to impose U.S. withholding tax on (i) beginning in 2014, payments to VEB and the Issuer in respect of U.S. securities, including interest and dividends; (ii) beginning in 2017, payments to VEB and the Issuer of gross proceeds from the disposition of such securities; and (iii) beginning no earlier than 2017, (a) certain “pass thru payments” to VEB and the Issuer, if VEB or the Issuer (as the case may be) are not compliant with FATCA or (b) certain “pass thru payments” from the Issuer to certain Noteholders, if the Issuer is FATCA compliant. It is also possible that VEB and the Issuer could incur material costs in implementing information-gathering systems to comply with FATCA. It is currently not possible for VEB to evaluate the potential effect of FATCA.

OVERVIEW OF THE PROGRAMME

The following overview contains basic information about the Notes and Loans and should be read in conjunction with, and is qualified in its entirety by, the information set forth under “Terms and Conditions of the Notes” and “Facility Agreement” appearing elsewhere in this Base Prospectus.

Each transaction will be structured as a Loan by the Issuer to VEB of a sum equivalent to the gross proceeds of an issue of a Series of Notes. The Issuer will issue Notes to Noteholders for the purpose of funding such Loan. Each Series of Notes will be constituted by the principal trust deed between the Trustee and the Issuer dated 24 June 2010 (the “**Principal Trust Deed**”), as amended by a Deed of Amendment between the Trustee and the Issuer dated 25 June 2012 (the “**Deed of Amendment**”), as further supplemented and amended in respect of such Series of Notes by a supplemental trust deed (together, the “**Trust Deed**”), each entered into between the Issuer and the Trustee. Pursuant to the Trust Deed, the Issuer will (i) charge in favour of the Trustee by way of a first fixed charge as security for its payment obligations in respect of each Series of Notes (a) all rights to principal, interest and other amounts payable by VEB under the relevant Loan Agreement; (b) the right to receive all sums which may be payable by VEB under any claim, award or judgment relating to the relevant Loan Agreement; (c) if applicable, all rights to sums payable by any Swap Counterparty under any applicable Swap Agreement; (d) if applicable, the right to receive all sums payable by a Swap Counterparty under any claim, award or judgment relating to the relevant Swap Counterparty, and (e) all rights, title and interest in and to all sums of money now or in the future deposited in an account, or accounts, as the case may be, established for the relevant Series of Notes with the Principal Paying Agent in the name of the Issuer (the “**Account**”, and, together the “**Accounts**”) including interest from time to time earned thereon (but excluding any Issuer Reserved Rights) and (ii) assign certain of its rights under the relevant Loan Agreement (but excluding any Issuer Reserved Rights (as defined in the Trust Deed)) and, if applicable, certain of its rights under any applicable Swap Agreement, to the Trustee for the benefit of the Noteholders.

The Issuer may make a Loan to VEB in a currency and/or with an interest rate different to the Specified Currency and/or the Notes Interest Basis of the relevant Series of Notes. In this case, the Issuer will also enter into one or more Swap Agreements with one or more Swap Counterparties, in connection with such Loan and the corresponding Series of Notes. In these circumstances, the Charge, as described in (i) of the above paragraph, will be held for the benefit of any relevant Swap Counterparty in addition to the Noteholders.

VEB will be obliged to make payments under each Loan to the Issuer in accordance with the terms of the relevant Loan Agreement. VEB will be obliged under the terms of the relevant Loan Agreement to make payments in respect of principal, interest and additional amounts (if any) to the Issuer to the relevant Account. The Issuer will agree in the Trust Deed not to make or consent to any amendment to or any modification or waiver of, or authorise any breach or proposed breach of, the terms of any Loan Agreement or, if applicable, any Swap Agreement(s) unless the Trustee has given its prior written consent. The Issuer will further agree to act at all times in accordance with any instructions of the Trustee from time to time with respect to each Loan Agreement or, if applicable, any Swap Agreement(s). Any material amendments, modifications, waivers or authorisations made with the Trustee’s consent shall be notified to the Noteholders in accordance with, and as more fully described in, “*Terms and Conditions of the Notes—10. Meetings of the Noteholders; Modification of Notes, Trust Deed, Loan Agreement and Swap Agreements; Waiver; Substitution of the Issuer; Appointment/Removal of Trustees*” and “*– 14. Notices*”, and shall be binding on the Noteholders. Formal notice of the security interests created by any Trust Deed will be given to VEB and the Principal Paying Agent who will each be required to acknowledge the same.

Each Series of Notes will be limited recourse obligations and the Issuer will not have any obligation to the Noteholders other than the obligation to account to Noteholders for payments of principal, interest and other amounts, if any, received by it or for its account under the relevant Loan provided that, for so long as a Swap Agreement is in effect, recourse shall be limited in respect of amounts exchanged pursuant to such Swap Agreement (in each case after deduction or withholding and such taxes or duties as may be required to be made by the Issuer by law in respect of or in relation to such sum or in respect of the Notes or the Swap Agreements for which the Issuer has not received a corresponding payment (also after deduction or withholding of such taxes or duties as may be required to be made by the Issuer in respect thereof) either under the Loan Agreement or the Swap Agreements).

In the event that the amount due and payable by the Issuer under such Notes exceeds the sums so received or recovered and retained (net of tax), the right of any person to claim payment of any amount exceeding such sums shall be extinguished, and Noteholders may take no further action to recover such amounts.

NOTES TO BE ISSUED UNDER THE PROGRAMME

Issuer	VEB Finance plc. (formerly, VEB Finance Limited).
VEB (as Borrower)	State Corporation “Bank for Development and Foreign Economic Affairs (Vnesheconombank)”.
Description	Programme for the Issuance of Loan Participation Notes pursuant to which the Issuer may issue Notes.
Programme Size	Up to U.S.\$30,000 million (or its equivalent in other currencies at the date of issue) aggregate principal amount of Notes outstanding at any one time. VEB may increase the amount of the Programme in accordance with the Dealer Agreement (as defined herein).
Arrangers	Barclays Bank PLC, BNP Paribas, Citigroup Global Markets Limited, Crédit Agricole Corporate and Investment Bank, HSBC Bank plc, J.P. Morgan Securities plc, Morgan Stanley & Co. International plc, The Royal Bank of Scotland plc, Deutsche Bank AG, London Branch and Société Générale.
Dealers	Barclays Bank PLC, BNP Paribas, Citigroup Global Markets Limited, Crédit Agricole Corporate and Investment Bank, HSBC Bank plc, J.P. Morgan Securities plc, Morgan Stanley & Co. International plc, Société Générale, Deutsche Bank AG, London Branch and The Royal Bank of Scotland plc.
	Pursuant to the terms of the Dealer Agreement, the Issuer, on VEB’s instructions, may from time to time terminate the appointment of any Dealer under the Programme or appoint additional Dealers either in respect of one or more Series (as defined herein) of Notes or in respect of the whole Programme. References in this Base Prospectus to “Permanent Dealers” are to the persons listed above as Dealers and to such additional persons that are appointed as dealers in respect of the whole Programme (and whose appointment has not been terminated) and references to “Dealers” are to all Permanent Dealers and all persons appointed as dealers in respect of one or more Series of Notes.
Trustee	BNY Mellon Corporate Trustee Services Limited (formerly, BNY Corporate Trustee Services Limited).
Principal Paying Agent	The Bank of New York Mellon, London Branch, unless an alternative principal paying agent is appointed in respect of a Series of Notes. References in this Base Prospectus to “Principal Paying Agent” are to The Bank of New York Mellon, London Branch or such alternative principal paying agent or agents, as the case may be.
Registrar	The Bank of New York Mellon (Luxembourg) S.A., unless an alternative registrar is appointed in respect of a Series of Notes. References in this Base Prospectus to “Registrar” are to The Bank of New York Mellon (Luxembourg) S.A. or such alternative registrar, as the case may be.
Paying Agents	The Bank of New York Mellon, London Branch, The Bank of New York Mellon, New York Branch and The Bank of New York Mellon (Ireland) Limited unless an alternative paying agent is appointed in respect of a Series of Notes. References in this Base Prospectus to

“Paying Agents” are to The Bank of New York, London Branch, The Bank of New York Mellon, New York Branch, The Bank of New York Mellon (Ireland) Limited or such alternative paying agent, as the case may be.

Transfer Agents	The Bank of New York Mellon, London Branch or, in relation to Notes sold pursuant to Rule 144A, The Bank of New York Mellon, New York Branch unless an alternative transfer agent is appointed in respect of a Series of Notes. References in this Base Prospectus to “Transfer Agent” are to The Bank of New York Mellon, London Branch and The Bank of New York Mellon, New York Branch or such alternative transfer agent, as the case may be.
Calculation Agent	The Bank of New York Mellon, London Branch unless an alternative calculation agent is appointed in respect of a Series of Notes. References in this Base Prospectus to “Calculation Agent” are to The Bank of New York Mellon, London Branch or such alternative calculation agent, as the case may be.
Method of Issue.....	The Notes will be issued on a syndicated or non-syndicated basis. The Notes will be issued in series (each a “ Series ”) having one or more issue dates and on terms otherwise identical (or identical other than in respect of the first payment of interest), the Notes of each Series being intended to be interchangeable with all other Notes of that Series. The specific terms of each Series will be set out in the relevant Final Terms, which shall supplement the Terms and Conditions of the Notes or a Series Prospectus which shall either complete or restate the Terms and Conditions of the Notes, as the case may be.
Issue Price of Notes.....	Notes may be issued at their principal amount or at a discount or premium to their principal amount.
Status	Each Series of Notes will constitute the obligation of the Issuer to apply the proceeds from the issue of the Notes solely for financing the corresponding Loan and, if applicable, any corresponding Swap Agreement and to account to the Noteholders for amounts equivalent to sums of principal, interest and additional amounts (if any) actually received and retained (net of tax) by or for the account of the Issuer pursuant to the corresponding Loan and, if applicable, any sums due or receivable from any relevant Swap Counterparty under any corresponding Swap Agreement all as more fully described in “ <i>Terms and Conditions of the Notes—1. Status</i> ”.
Security.....	<p>The Issuer’s payment obligations in respect of each Series of Notes and, if applicable, under any relevant Swap Agreement will be secured by a first fixed charge on:</p> <ul style="list-style-type: none">• all of the Issuer’s rights to principal, interest and other amounts now or hereafter payable under the relevant Loan Agreement and, if applicable, any corresponding Swap Agreement and its right to receive all sums which may be or become payable under any claim, award or judgment relating to such Loan Agreement and, if applicable, any corresponding Swap Agreement; and• all the rights, title and interest in and to all sums of money held now or in the future deposited in an account or accounts, as the case may be, specified in the relevant Supplemental Trust Deed, together with the debt represented thereby (including interest from time to time) pursuant to the Trust Deed.

Assignment of Rights	The Issuer will assign its rights under the relevant Loan Agreement (save for any Issuer Reserved Rights and those rights charged above) and, if applicable, its rights as a counterparty under any corresponding Swap Agreement to the Trustee upon the closing of the offering of the corresponding Series of Notes.
Swap Agreements	The Issuer may enter into one or more Swap Agreements with one or more Swap Counterparties, in connection with a Series of Notes. Under any Currency Swap Agreement(s), the Issuer will agree to make payments in the Loan Currency (subject to receipt of a corresponding amount thereof in the same currency under the Loan Agreement) against payment by the relevant Swap Counterparty of amounts in the Specified Currency (as set out in the relevant Final Terms or the Series Prospectus, as the case may be). Under an Interest Rate Swap Agreement or Interest Rate Swap Agreements, as the case may be, the Issuer will agree to make payments calculated on the Loan Interest Basis against payment by the relevant Swap Counterparty of amounts calculated on the Notes Interest Basis. If one or more of the applicable Swap Agreements is/are terminated early, then VEB will make any further payments due under the Loan Agreement in the Specified Currency and/or calculated on the Notes Interest Basis, as the case may be. Neither the Issuer nor VEB will have the right to repay the Loan or redeem the Notes in such circumstances.
Form	Each Series of Notes will be issued in registered form. The Regulation S Notes and the Rule 144A Notes will be represented by the Regulation S Global Note and the Rule 144A Global Note, respectively, in each case without interest coupons. The Global Notes will be exchangeable for Definitive Notes in the limited circumstances specified in the Global Notes.
Clearing Systems	DTC (in the case of Notes sold pursuant to Rule 144A), Euroclear and Clearstream, Luxembourg (in the case of Notes sold pursuant to Regulation S), and such other clearing system(s) as may be agreed between the Issuer, VEB, the Paying Agents, the Trustee and the relevant Dealer(s).
Initial Delivery of Notes	On or before the issue date for each Series, the Rule 144A Global Notes will be deposited with a custodian for DTC and the Regulation S Global Notes will be deposited with a common depository for Euroclear and Clearstream, Luxembourg. The Rule 144A Notes will be registered in the name of a nominee of DTC, and the Regulation S Notes will be registered in the name of a nominee of Euroclear and Clearstream, Luxembourg, or any other applicable clearing system. Global Notes may also be deposited with any other clearing system or may be delivered outside any clearing system provided that the method of such delivery has been agreed in advance by the Issuer, VEB, the Paying Agents, the Trustee and the relevant Dealer(s). Notes that are to be credited to one or more clearing systems on issue will be registered in the name of a nominee or nominees for such clearing system(s).
Currencies	Subject to compliance with all relevant laws, regulations and directives, Notes may be issued in any currency agreed between the Issuer, VEB and the relevant Dealer(s). Notes will be issued in the Specified Currency (as set out in the relevant Final Terms or the Series Prospectus, as the case may be) that may be different to the Loan Currency, in which case the Issuer will enter into one or more Currency Swap Agreements to exchange amounts received from VEB in the Loan Currency under the Loan Agreement for equivalent amounts due

to Noteholders in the Specified Currency.

Maturities

Subject to compliance with all relevant laws, regulations and directives, any maturity as may be agreed between the Issuer, VEB and the relevant Dealer(s).

Where the Issuer wishes to issue Notes with a maturity of less than one year, it shall ensure that the Notes are issued in full compliance with the conditions set forth in Notice BSD C 01/02 dated 12 November 2002 (as amended from time to time) issued by the Central Bank of Ireland pursuant to section 8(2) of the Central Bank Act, 1971 (as amended) of Ireland, including that the Notes comply with, among other things, the following criteria:

- at the time of issue, the Notes must be backed by assets of at least 100% of the value of the Notes issued;
- at the time of issue, the Notes must be rated at least investment grade by one or more recognised rating agencies;
- the Notes must be issued and transferable in minimum denominations of €300,000 or the foreign currency equivalent;
- the Notes carry the title “Commercial Paper” (unless constituted under the laws of a country other than Ireland and, under those laws, commercial paper carries a different title in which case the Notes must carry such title) and must identify the issuer by name;
- it must be stated explicitly on the face of the Notes and, where applicable, in the contract between the Issuer and the initial investor in the Notes that they are issued in accordance with an exemption granted by the Central Bank of Ireland under Section 8(2) of the Central Bank Act, 1971, inserted by Section 31 of the Central Bank Act, 1989, as amended by Section 70(d) of the Central Bank Act, 1997, each as amended by the Central Bank and Financial Services Authority of Ireland Act, 2004;
- it must be stated explicitly on the face of the Notes and, where applicable, in the contract between the Issuer and the initial investor in the Notes that the investment does not have the status of a bank deposit, is not within the scope of the Deposit Protection Scheme operated by the Central Bank of Ireland and that the Issuer is not regulated by the Central Bank of Ireland arising from the issue of the Notes; and
- any issue of Notes which is guaranteed must carry a statement to the effect that it is guaranteed and identify the guarantor by name.

Denomination

Notes will be in such denominations as may be specified in the relevant Final Terms or the Series Prospectus, as the case may be, save that unless otherwise permitted by the then current laws and regulations (i) Notes which have a maturity of less than one year and in respect of which the issue proceeds are to be accepted by the Issuer in the United Kingdom or whose issue otherwise constitutes a contravention of section 19 of the Financial Services and Markets Act 2000 (the “FSMA”) will have a minimum denomination of £100,000 (or its equivalent in other currencies); (ii) Notes resold pursuant to Rule 144A Note will be issued in denominations of U.S.\$200,000 or its equivalent in other currencies rounded upwards as agreed between the Issuer, VEB

and the relevant Dealer(s) and integral multiples of U.S.\$1,000 in excess thereof; and (iii) the minimum denomination of any Notes shall in any event be €100,000 (or its equivalent in any other currency as at the issue date of the relevant Notes).

Rate of Interest.....	The Notes may be issued on a fixed rate or a floating rate basis. The Notes Interest Basis may be different to the Loan Interest Basis, in which case the Issuer will enter into one or more Interest Rate Swap Agreements to exchange amounts received by VEB calculated on the Loan Interest Basis under the Loan Agreement for equivalent amounts due to the Noteholders calculated on the Notes Interest Basis.
Fixed Rate Notes	Fixed interest will be payable in arrear on the date or dates in each year specified in the relevant Final Terms or the Series Prospectus, as the case may be.
Floating Rate Notes	Floating Rate Notes will bear interest determined separately for each Series as follows: <ul style="list-style-type: none">• on the same basis as the floating rate under a notional interest rate swap transaction in the relevant Specified Currency governed by an agreement incorporating the 2006 ISDA Definitions, as published by the International Swaps and Derivatives Association, Inc.; or• by reference to LIBOR, EURIBOR or MOSPRIME as adjusted for any applicable margin.
Interest Periods and Interest Rates	The length of the interest periods for the Notes and the applicable interest rate may differ from time to time or be constant for any Series. Notes may have a maximum interest rate, a minimum interest rate or both. The use of interest accrual periods permits the Notes to bear interest at different rates in the same interest period. All such information will be set out in the relevant Final Terms or the Series Prospectus, as the case may be.
Redemption	The relevant Final Terms or the Series Prospectus, as the case may be will specify the basis for calculating the redemption amounts payable and whether there will be any Put or Call options.
Issuer's Restrictions and Covenants	So long as any Note remains outstanding, the Issuer will not, without the consent of the Trustee, <i>inter alia</i> , incur any other indebtedness for borrowed moneys, or enter into other transactions or engage in any business (other than transactions contemplated by this Base Prospectus), declare any dividends or have any subsidiaries. See " <i>Terms and Conditions of the Notes—4. Restrictive Covenants</i> ". Furthermore, the Issuer will agree in the Trust Deed not to make or consent to any amendment or modification or waiver of, or authorise any breach or proposed breach of the terms of any Loan Agreement or, if applicable, any Swap Agreement or Swap Agreements, as the case may be, unless the Trustee has given consent.
Redemption by the Issuer at the Option of VEB.....	The Issuer shall redeem the Notes in whole, but not in part, at 100% of their aggregate principal amount plus accrued and unpaid interest and any additional amounts, if any, if VEB elects to repay any Loan in the event it is required to pay additional amounts on account of Russian or Irish withholding taxes in respect of certain payments under the corresponding Loan or payments under the corresponding Notes or in the event that VEB is required to pay additional amounts on account of certain costs incurred by the Issuer pursuant to the relevant Senior Loan

Agreement, or, if applicable, any corresponding Swap Agreement(s).

Put/Call Options	<p>If a call option is specified in the applicable Final Terms or the Series Prospectus, as the case may be (a “Call Option”), following notice from VEB of its intention to repay the relevant Senior Loan, the Issuer may redeem all or part of the relevant Notes on the relevant Repayment Date (as specified in the relevant Senior Loan Agreement) at its principal amount together with accrued and unpaid interest (provided that the Issuer has the corresponding funds from VEB).</p> <p>If a put option is specified in the applicable Final Terms or the Series Prospectus, as the case may be (a “Put Option”), the Issuer shall, at the option of any Noteholder redeem such Note on the relevant Put Settlement Date (as defined in the Facility Agreement) at its principal amount together with accrued and unpaid interest (provided that the Issuer has received the corresponding funds from VEB). To exercise such option a Noteholder must deposit the Note or Notes to be redeemed with any Paying Agent together with a duly completed put redemption notice (“Put Redemption Notice”) in the form obtainable from any of the Paying Agents, not more than 60 but not less than 30 days prior to the Put Settlement Date. No Note so deposited may be withdrawn.</p>
Optional Redemption by the Noteholders upon a Change of Control.....	<p>In the case of a Senior Series only, upon the occurrence of a Change of Control (as defined in “<i>Terms and Conditions of the Notes—6 Redemption and Purchase</i>”), the Notes may be redeemed at the option of a Noteholder at their principal amount together with accrued interest, if any, all as more fully described in the “<i>Terms and Conditions of the Notes</i>”.</p>
Mandatory Redemption	<p>In the case of a Senior Series only, in limited circumstances as more fully described in the relevant Senior Loan Agreement, the Notes may be redeemed by the Issuer in whole, but not in part, on any Interest Payment Date in the case of Floating Rate Notes or in the case of Fixed Rate Notes, at any time upon giving notice to the Trustee, at the principal amount thereof, together with accrued and unpaid interest and all additional amounts, if any, to the date of redemption in the event that it becomes unlawful for (i) the Issuer to allow the relevant Notes to remain outstanding or (ii) the Issuer or VEB to allow the relevant Loan to remain outstanding under the relevant Senior Loan Agreement. In either case, the Loan would be repaid in full.</p>
Redemption Provisions for Subordinated Series.....	<p>Redemption provisions for Subordinated Series will be set out in the relevant Subordinated Loan Agreement.</p>
Issuer Relevant Events	<p>In the case of an Issuer Relevant Event (as defined in the Trust Deed), the Trustee may, subject to the provisions of the Trust Deed, enforce the security created in the Trust Deed in favour of the Noteholders and, if applicable, any relevant Swap Counterparty.</p>
Withholding Tax.....	<p>All payments of principal and interest in respect of each Series of Notes will be made in full without set-off or counterclaim and free and clear of and without deduction for or on account of all taxes, which are or will be imposed, assessed, charged, levied, collected, demanded, withheld or claimed by Ireland or the Russian Federation, or any taxing authority thereof or therein, except as required by law. If any such taxes, duties and other charges are payable, the sum payable by VEB to the Issuer under the relevant Loan Agreement (subject to certain exceptions) will be required to be increased to the extent necessary to ensure that the Noteholders receive the net sum which they would have</p>

received free from any liability in respect of any such deduction or withholding had no such deduction or withholding been made or required to be made. The sole obligation of the Issuer in this respect will be to pay to the Noteholders sums equivalent to the sums received and retained (net of tax) from VEB and, if applicable, any sums due or receivable from any relevant Swap Counterparty under the corresponding Swap Agreement(s).

Further Issues The Issuer may from time to time issue further Notes of any Series on the same terms as existing Notes and such further Notes shall be consolidated and form a single Series with such existing Notes of the same Series. In the event of such further issuance, the relevant Loan will be correspondingly increased.

Listing Application will be made, where specified in the relevant Final Terms or the Series Prospectus, as the case may be, for a Series of Notes to be admitted to the Official List and to trading on the Main Securities Market or the Series of Notes will remain unlisted.

Rating VEB has a rating of “BBB” with a “stable” outlook from Standard & Poor’s Credit Market Services Europe Limited (“**S&P**”), a rating of “Baa1” with a “stable” outlook from Moody’s Investors Service Ltd. (“**Moody’s**”), and a rating of “BBB” with a “stable” outlook from Fitch Ratings CIS Ltd. (“**Fitch**”). Each of S&P, Moody’s and Fitch is established in the European Union and registered under the CRA Regulation. As such, each of S&P, Moody’s and Fitch is included in the list of credit rating agencies published by the European Securities and Markets Authority on its website in accordance with the CRA Regulation.

A Series of Notes issued under the Programme may be rated or unrated. Where a Series of Notes is rated, such rating will not necessarily be the same as the rating assigned to the Programme.

The rating of certain Series of Notes to be issued under the Programme may be specified in the applicable Final Terms or the Series Prospectus, as the case may be. Whether or not each credit rating applied for in relation to a Series of Notes will be issued by a credit rating agency established in the European Union and registered under the CRA Regulation will be disclosed in the applicable Final Terms or the Series Prospectus, as the case may be. See “*Risk Factors—Risks Relating to the Notes and the Trading Market—Ratings of Notes*”.

Assignment of credit ratings to the Notes does not necessarily mean that they are a suitable investment. A rating is not a recommendation to buy, sell or hold securities and may be subject to revision, suspension or withdrawal at any time by the rating organisation. Similar ratings on different types of notes do not necessarily mean the same thing. The ratings do not address the likelihood that the principal on the Notes will be prepaid, paid on an expected final payment date or paid on any particular date before the legal final maturity date of the Notes. The ratings do not address the marketability of the Notes or any market price. Any change in the credit ratings of the Notes or VEB could adversely affect the price that a subsequent purchaser will be willing to pay for the Notes. The significance of each rating should be analysed independently from any other rating.

Governing Law The Notes and any non-contractual obligations arising out of or in connection with them shall be governed by, and construed in

accordance with, English law.

Selling Restrictions	United States, United Kingdom, Ireland, Russian Federation and any other jurisdiction relevant to any Series. See “ <i>Subscription and Sale</i> ”.
ERISA Considerations	A Series of Notes issued under the Programme may be regarded for ERISA purposes as equity interests in a separate entity whose sole asset(s) are the Loan and, if applicable, any corresponding Swap Agreement(s). Accordingly, the Notes should not be acquired by any benefit plan investor, regardless of whether the benefit plan investor is itself subject to ERISA. Each purchaser and/or holder of Notes and each transferee therefore will be deemed to have made certain representations as to its status under ERISA. Potential purchasers should read the sections entitled “ <i>Certain ERISA Considerations</i> ” and “ <i>Transfer Restrictions</i> ”.

THE SENIOR LOAN CORRESPONDING TO EACH SENIOR SERIES OF NOTES

Lender	The Issuer.
Borrower	VEB.
Security and Ranking	No Senior Loan will be secured by any collateral of VEB. Obligations under the Senior Loan will rank at least <i>pari passu</i> with all other unsecured and unsubordinated financial indebtedness of VEB.
Currency	A Loan may be advanced in a different currency to that of the corresponding Series of Notes, in which case the Issuer will enter into one or more Currency Swap Agreements to exchange amounts received from VEB in the Loan Currency under the Loan Agreement for equivalent amounts due to the Noteholders in the Specified Currency.
Loan Interest Basis	Interest will be payable on a fixed or floating rate basis as specified in the relevant Loan Supplement. The Loan may be advanced on a different interest basis to that of the corresponding Series of Notes, in which case the Issuer will enter into one or more Interest Rate Swap Agreements to exchange amounts received by VEB calculated on the Loan Interest Basis under the Loan Agreement for equivalent amounts due to the Noteholders calculated on the Notes Interest Basis.
Redemption of the Option of VEB ..	Each Senior Loan may be prepaid at VEB’s option in whole, but not in part, on any Interest Payment Date in the case of Floating Rate Loans or, at any time, in the case of Fixed Rate Loans at the principal amount thereof, together with accrued and unpaid interest and additional amounts, if any, to the date of repayment, for certain tax reasons or by reason of certain increased costs.
Put/Call Options	<p>If a call option is specified in the applicable Loan Supplement (a “Call Option”) VEB may, at its option, repay the relevant Senior Loan in whole or in part at the Early Redemption Amount (as specified in the relevant Loan Supplement).</p> <p>If a put option is specified in the applicable Loan Supplement (a “Put Option”) following notification from the issuer, VEB shall prepay the relevant Senior Loan (without premium or penalty), to the extent of the Aggregate Principal Amount of the relevant Notes to be properly redeemed in accordance with the Terms and Conditions of the Notes.</p>
Mandatory Repayments	In the event that it becomes unlawful for the Issuer or VEB to fund any Senior Loan or allow such Senior Loan to remain outstanding under the

relevant Senior Loan Agreement or allow the corresponding Senior Series of Notes to remain outstanding, VEB may be required to repay such Senior Loan in full.

Redemption upon a Change of Control.....	Each Senior Loan may be repaid in whole or in part by VEB upon the exercise of the Put Option upon a Change of Control (as defined in “ <i>Terms and Conditions of the Notes—6. Redemption and Purchase</i> ”) by any holder of Notes at the principal amount of the Notes so tendered, together with accrued and unpaid interest and additional amounts, if any.
Certain Restrictions and Covenants	The Issuer will have the benefit of certain covenants made by VEB, including a negative pledge and restrictions on disposals, all as more fully described in the relevant Senior Loan Agreement.
Events of Default.....	In the case of an Event of Default (as defined in the relevant Senior Loan Agreement), the Trustee may, subject as provided in the Trust Deed, require the Issuer to declare all amounts payable under the relevant Senior Loan Agreement to be due and payable.
Use of Proceeds of the Notes	The gross proceeds from each offering of a Senior Series of Notes will be used by the Issuer for the sole purpose of financing the corresponding Senior Loan to VEB or, if applicable, any corresponding Swap Agreement(s). In connection with the receipt of such Senior Loan, VEB will pay an arrangement fee, as reflected in the relevant Final Terms or the Series Prospectus, as the case may be.
Withholding Tax.....	All payments of principal and interest under each Senior Loan will be made in full without set-off or counterclaim and free and clear of and without deduction for or on account of all taxes which are or will be imposed, assessed, charged, levied, collected, demanded, withheld or claimed by Ireland or the Russian Federation, except as required by law. If any such taxes, duties or other charges are payable in respect of the Senior Loan or, if applicable, the corresponding Swap Agreement(s), the sum payable by VEB under the Senior Loan will (subject to certain conditions) be required to be increased to the extent necessary to ensure that the Issuer receives the net sum which it would have received free from any liability in respect of any such deduction or withholding had no such deduction or withholding been made or required to be made.
Governing Law	The Senior Loans and any non-contractual obligations arising out of or in connection with them shall be governed by, and construed in accordance with, English law.

SUBORDINATED LOAN CORRESPONDING TO EACH SUBORDINATED SERIES OF NOTES

The terms of any Subordinated Loan will be as set out in the relevant Subordinated Loan Agreement. A supplement to this Base Prospectus or a prospectus relating to a Series of Notes containing the form of the Subordinated Loan Agreement and, if applicable, any corresponding Swap Agreement(s) will, if required, be published for use in connection with any subsequent issue of any Subordinated Series to be listed on the Irish Stock Exchange.

RISK FACTORS

An investment in the Notes involves a high degree of risk. Investors should carefully consider the following information about these risks, together with the information contained in this Base Prospectus, before they decide to make an investment in the Notes. The actual occurrence of any of the following risks could adversely affect VEB's business, financial condition, results of operations and prospects. In that case, the value of the Notes could also decline and investors could lose all or part of their investment.

The risks and uncertainties discussed below are those that VEB believes are material, but these risks and uncertainties may not be the only ones that VEB faces. Additional risks and uncertainties, including those of which VEB's management is not currently aware or deems immaterial, may also have an adverse effect on VEB's business, financial condition, results of operations and prospects or result in other events that could lead to a decline in the value of the Notes. The order, in which the following risks are presented is not intended to be an indication of the probability of their occurrence or the magnitude of their potential effects.

Risks Related to VEB's Business and Industry

VEB is fully controlled by the Russian Government, which, accordingly, has the ability to require VEB to pursue certain activities that may expose VEB to significant risks and that may not generate profit.

The Russian Government determines the core business areas and principal policies of VEB, which, as at the date of this Base Prospectus, are defined in the 2007 Memorandum. Under the Development Bank Law, although VEB's activities are expected to be commercially viable, the generation of profit is not a primary objective for VEB and VEB may engage in entrepreneurial activities only to the extent such activities help to achieve its defined business and policy objectives.

The Russian Government also has the right to appoint and dismiss the members of VEB's Supervisory Board, who (except for the Chairman of VEB) shall not be employees of VEB. The Chairman of VEB's Supervisory Board is the Prime Minister of the Russian Federation (currently Dmitry Medvedev), whilst the remaining eight members are appointed by the Russian Government and include the Chairman of VEB (currently Vladimir Dmitriev), who is *ex officio* a member of the Supervisory Board and of the Management Board. The Chairman of VEB is appointed by the President of the Russian Federation upon the recommendation of the Prime Minister. The other members of the Management Board are, in turn, appointed by the Supervisory Board based on recommendations of the Chairman of VEB and are VEB employees. Accordingly, the Russian Government has substantial control over VEB's management. Through this control, VEB is, in effect, largely an agent of the Russian Government, although federal, regional and municipal authorities are generally prohibited from intervening in VEB's day-to-day business operations to try to influence the manner in which it realises its purposes.

In addition, pursuant to the Development Bank Law, VEB operates as the principal vehicle for implementing the Russian Government's policies to promote the competitiveness and diversification of the Russian economy through the encouragement of investment in infrastructure projects and foreign trade and the promotion of the development of the Russian SME sector. Such policy objectives of the Russian Government may conflict with the business interests of VEB.

Based on the combination of the Russian Government's control over VEB and VEB's mandate to fulfil State policy objectives, notwithstanding VEB's objective to ensure that its activities are commercially viable, the Russian Government could require VEB to pursue transactions designed to implement policies of the Russian Government, even if such transactions were to involve increased operational risk and diminished or no financial return for VEB. In addition, in exceptional cases, subject to Supervisory Board approval, VEB may participate in investment projects, which may not meet the criteria established by the 2007 Memorandum. If VEB is required to or determines to enter into any such transactions, this could, in any one case or in the aggregate, have a material adverse effect on VEB's business, financial condition, results of operations and prospects.

One of VEB's principal functions is to promote the stability and development of the Russian economy. Although VEB received funding from the Russian Government (principally comprised of funds of the NWF) and the CBR to support these activities, VEB is ultimately at risk for the repayment of the recovery finance it has provided to certain Russian borrowers.

Since October 2008, measures announced by the Russian Government and the CBR to support the liquidity and solvency of Russian banks and to increase the availability of credit to Russian businesses have been implemented largely through VEB. As the main provider of liquidity in the Russian market in 2008 and 2009, VEB provided recovery finance to Russian borrowers and, to the extent not already repaid, VEB bears the risk of non-payment of such recovery finance.

In particular, under the Financial System Support Law, VEB received deposits from the Russian Ministry of Finance (comprised of funds of the NWF) in the aggregate amount of RUB 404,022 million at interest rates from 7.0% to 8.5% per annum. VEB was required to utilise these deposits to extend subordinated loans: to (i) VTB; (ii) Russian Agricultural Bank; and (iii) to other Russian banks, subject to certain financial and rating criteria established in accordance with the Financial System Support Law. As at 30 June 2013, VEB provided subordinated loans to 16 banks in accordance with the Financial System Support Law in an aggregate principal amount of RUB 338,045 million, including the loan to VTB (in the amount of RUB 200,000 million at an original interest rate of 8.0% per annum and maturing on 23 December 2019), the loan to Russian Agricultural Bank (in the amount of RUB 25,000 million at an original interest rate of 8.0% per annum maturing on 23 December 2019) and loans to 14 additional qualifying banks in an aggregate outstanding amount of RUB 113,045 million (at original interest rates ranging from 8.0% to 9.5% per annum with maturities for up to 31 December 2019 and December 2020). See "*Lending Policy and Procedures—Credit Approval and Monitoring*". In accordance with amendments made to the Financial System Support Law adopted on 27 July 2010, the interest rates that VEB charges on these subordinated loans to Russian banks were lowered in 2010 from 8.0% to 6.5% and from 9.5% to 7.5% whilst, at the same time, the interest rates for the matching deposits received from the Russian Ministry of Finance (comprised of funds of the NWF) were lowered from 7.0% to 6.25% and from 8.5% to 7.25%. Under the Financial System Support Law, VEB had the right to receive funding from the Russian Government in the form of deposits in an aggregate amount up to RUB 40,000 million, which VEB had the right to utilise, until 31 December 2011, to extend loans to AHML. As at 30 September 2013, VEB has fully utilised the RUB 40,000 million credit line from the Russian Government and, as required, applied such deposits to extend loans to AHML.

Although, as at the date of this Base Prospectus, loans made or received by VEB under the Financial System Support Law have been fully matched in terms of funding by corresponding Russian Government or CBR deposits, which have terms co-extensive with the related loans, and although all of the back-to-back (recovery) finance loans extended by VEB to Russian corporate borrowers to refinance claims of foreign creditors have been repaid, both the subordinated loans that VEB extended to Russian banks and the loans VEB has extended to AHML remain outstanding as at the date of this Base Prospectus. Consequently, VEB ultimately bears the risk of non-payment by the borrowers in respect of these loans. VEB's obligations to return the matching deposits are not limited in recourse or otherwise conditioned, as a matter of law or contract, on the repayment of the matching loans. Moreover, in the case of the outstanding subordinated loans to Russian banks, due to their subordinated nature, VEB's claims in respect of the payment of principal and interest on such loans rank junior to the claims of other creditors of the relevant borrower, including depositors. In case of insolvency, such borrower's assets will be available to satisfy its obligations under subordinated loans payable to VEB only after the claims of all higher-ranking creditors have been satisfied in full, and the borrower's remaining assets may not be sufficient to satisfy all or any part of VEB's claims.

Any failure by a borrower to repay its loans to VEB under circumstances when the matching deposits were withdrawn or thereafter nevertheless required to be repaid could have a material adverse effect on VEB's business, financial condition, results of operations and prospects.

VEB could be adversely affected if it does not continue to receive funding from the Russian Government and the CBR.

VEB has been principally dependent upon capital and other contributions, loans and deposits from the Russian Government and the CBR for its funding. As at 30 June 2013 and 31 December 2012, 2011 and 2010, funding from the Russian Government, its institutions and the CBR, as a percentage of VEB's total liabilities, represented 40.2%, 41.1%, 44.2% and 52.6%, respectively. Many factors may affect the Russian Government's ability to provide funding to VEB, including (among others) significant declines in gross domestic product (due

to, among other things, depressed oil prices), hyperinflation, an unstable currency, high sovereign debt relative to gross domestic product, widespread tax evasion, corruption and extensive penetration of organised crime into the Russian economy, the growth of “black” and “grey” market economies and political and governmental instability. See “— *Risks Relating to the Russian Federation*”. Accordingly, there can be no assurance that VEB will be able to continue to satisfy all or part of its funding requirements through amounts provided by the Russian Government and the CBR.

To the extent that the Russian Government and the CBR are not willing or able to continue to provide sufficient funding to VEB, VEB may not be able to access alternative sources of funding, such as the international and domestic capital markets or bilateral or syndicated loans, to compensate for any shortfall in funds. See “— *VEB is subject to liquidity risk*”. Accordingly, any reduction in the amount of funding provided to VEB by the Russian Government and the CBR could have a material adverse effect on VEB’s business, financial condition, results of operations and prospects.

VEB is not subject to external banking regulatory oversight by the CBR.

As a state corporation, VEB is not governed by standard Russian commercial banking laws and regulations and is instead subject to laws and regulations specific to it, including, in particular, the Development Bank Law and the 2007 Memorandum. Whilst VEB has established policies and procedures to govern its internal operations largely in accordance with international reporting standards, such as IFRS and the Basel Accord, VEB is not required to be licensed by the CBR and is not subject to banking regulatory oversight by the CBR. Moreover, although VEB believes it operates pursuant to internal rules and guidelines that are largely in line with CBR regulations imposed on commercial banks, VEB is generally not required to comply with licensing regulations, capital adequacy, mandatory ratios, reserve requirements, financial reporting and other corporate governance requirements customarily applicable to Russian or Western commercial banks and similar financial institutions other than those expressly stated in the 2007 Memorandum and, even in these cases, the Supervisory Board has the authority to approve exceptions. See “*Status as a State Corporation and Related Regulatory Environment—VEB’s Objects and Powers*”. VEB is, however, required to comply with applicable securities laws and regulations in its proprietary securities trading operations and VEB’s licences to conduct professional market activities are subject to revocation by the Bank of Russia Financial Markets Service.

Because it is generally not subject to customary regulatory oversight, VEB may conduct its businesses with less transparency than, and without reference to limitations and restrictions customarily imposed on, commercial banks and other financial institutions. In exceptional cases, subject to Supervisory Board approval, VEB may participate in investment projects, which may not meet the criteria established by the 2007 Memorandum. Accordingly, VEB may engage in such activities that are more risky than those ordinarily conducted by commercial banks and other financial institutions, any of which activities, in any one case or in the aggregate, could have a material adverse effect on VEB’s business, financial condition, results of operations and prospects.

The Russian Government may in its sole discretion replace or amend the 2007 Memorandum, or may decide to reorganise or privatise VEB, either of which actions may have a material adverse effect on VEB’s business, financial condition, results of operations and prospects.

The 2007 Memorandum, which was originally due to expire on 27 July 2010, was extended twice on its existing terms by directives of the Russian Government. The latest extension was on 25 July 2013 by Decree 1316-r for an additional three years until July 2016. The Russian Government may, in its sole discretion, replace or amend the 2007 Memorandum at any time, before or after the current stated expiration date. As at the date of this Base Prospectus, VEB is not aware of a proposal having been submitted by the Russian Ministry of Economic Development to amend the 2007 Memorandum or to replace it. If any fundamental changes are introduced to the 2007 Memorandum, however, these could have a material adverse effect on VEB’s business, financial condition, results of operations and prospects.

Investors should be aware that the Russian State Duma is currently considering in its second reading a draft law “On Public Law Companies in the Russian Federation and Amending of Certain Legislative Acts of the Russian Federation” (the “**Public Companies Law**”). The Public Companies Law, if and when adopted, will establish a new form of legal entity, a public law company. Pursuant to the time-table for reorganisation of state corporations approved by the Prime Minister of the Russian Federation in December 2010, VEB is scheduled to be reorganised into a public law company when the Public Companies Law becomes effective. Such reorganisation could restrict future financial and political support for VEB by the Russian Government, change

decision-making processes or subject VEB to different corporate governance procedures or otherwise have a material adverse effect on VEB's business, financial condition, results of operations and prospects.

VEB's lending and investment policies are different from those of a typical commercial bank.

VEB's lending and investment policies are different from those of a typical commercial bank, in that VEB's business activities are generally driven by Russian economic policy as a whole, rather than purely commercial considerations. See "*—VEB is fully controlled by the Russian Government, which, accordingly, has the ability to require VEB to pursue certain activities that may expose VEB to significant risks and that may not generate profit*". As a development bank, VEB does not compete with commercial lending and financial institutions in providing finance to customers; rather, pursuant to the 2007 Memorandum, VEB gives preference to investment projects, such as infrastructure projects and projects focusing on technological and industrial innovation, which are not typically eligible for financing on terms acceptable to commercial banks and other non-specialist market investors. Loans and investments made by VEB often involve relatively large principal amounts, have longer-term maturities, are not secured by liquid collateral and are extended at preferential rates, all of which make these activities relatively high risk and low return. For example, VEB has provided substantial long-term funding for infrastructure projects, such as for a number of infrastructure development projects in connection with the 2014 Winter Olympics and for the construction of the Moscow-St. Petersburg highway. In addition, in exceptional cases, subject to Supervisory Board approval, VEB may participate in investment projects, which may not meet the criteria established by the 2007 Memorandum. It is unlikely that these investments will return any profit in the foreseeable future. The higher-risk and lower-return nature of any such loans, investments or other transactions could, in any one case or in the aggregate, have a material adverse effect on VEB's business, financial condition, results of operations and prospects.

A decline in the value or liquidity of collateral securing VEB's loans may adversely affect VEB's loan portfolio. Moreover, it may be difficult for VEB to enforce its rights in respect of collateral or guarantees provided in its favour under Russian law.

A substantial portion of VEB's loans to corporate customers are secured by collateral, such as shares and other securities, real property, inventory, trade receivables and assigned claims against third parties. Volatile financial markets have resulted, and may continue to result, in declines in the value of such collateral to levels below the respective amounts of the outstanding principal and accrued interest on the loans secured thereby. Although most of the security arrangements put in place in respect of VEB's loans require the posting of additional collateral if loan-to-value ratios are not maintained, in the event that collateral values are significantly impaired, VEB may be required to reclassify the related loans and establish additional allowances for loan impairment. For example, as at 30 June 2013, loans to VEB's three largest borrowers included a group of loans to an associate of VEB in the amount of RUB 146,943 million and comprising 7.6% of total loans to customers, a portion of the proceeds of which was applied to finance such associate's purchase of real estate and other assets from certain borrowers of GLOBEXBANK to permit such borrowers to repay obligations owed by them to GLOBEXBANK in connection with the rehabilitation of GLOBEXBANK to restore its financial viability following the global financial crisis. As at 30 June 2013, VEB recorded allowance for impairment of these loans to its associate in an aggregate amount of RUB 34,980 million.

Any requirement to establish additional provisions in light of declining collateral values or otherwise could have a material adverse effect on VEB's business, financial condition, results of operations and prospects. In addition, as a result of enforcement proceedings following a loan default, VEB may acquire controlling or minority interests in companies, which operate in sectors outside VEB's core business areas and in respect of which VEB has no operational or management expertise. If VEB were unable to liquidate its interests in such companies following foreclosure, the requirement to conduct these businesses or maintain the values of these companies may detract from the ability of VEB's management to focus on VEB's core businesses, which could, in turn, materially adversely affect VEB's business, financial position, results of operations and prospects.

Under Russian law, collateral and guarantees (other than bank guarantees) are considered secondary obligations, which automatically terminate if the secured or guaranteed obligation terminates or becomes void. Moreover, the enforcement of rights in collateral in the Russian Federation may require a court order and, in some cases involving pledges and mortgages, a public sale of the collateral. VEB may, therefore, have difficulty foreclosing on collateral or otherwise enforcing its security interests in the event that its borrowers default on loans. In addition, even if VEB is successful in foreclosing on collateral, it may be difficult for VEB to sell acquired assets at their assessed fair market value or at all as VEB may be unable to find willing buyers or no ready market may otherwise exist for such assets. Any failure to liquidate collateral and realise an amount sufficient to

cover the balances due to VEB may expose VEB to additional losses and require VEB to record additional allowance for impairment and, accordingly, could materially adversely affect VEB's business, financial position, results of operations and prospects.

VEB is not subject to Russian insolvency laws and procedures generally applicable to Russian commercial entities.

Insolvency legislation applicable to banking institutions and other Russian companies generally does not apply to VEB. VEB may be liquidated or wound up only on the basis of a specific law establishing the basis, procedures and timing for liquidation or a winding up and stipulating the process for distribution of any assets. In the event that VEB were unable to pay its debts as and when due, remedies legally available to creditors of Russian banks and corporate entities generally are likely to be unavailable to creditors of VEB. In particular, it is impossible to predict how claims against VEB by the Trustee on behalf of the Noteholders would be resolved in the event of VEB's liquidation or winding up.

VEB is subject to credit risk in respect of its borrowers.

VEB is subject to risks regarding the credit quality of, and the recovery on, loans to customers and amounts due from credit institutions. VEB's total loans have grown from RUB 2,138,028 million as at 31 December 2012 to RUB 2,378,174 million as at 30 June 2013. Continued and improved monitoring of the credit quality of VEB's loan portfolio, and the adequacy of its provisioning levels, is required, and, in particular, as the composition of the portfolio has changed in 2010 to include a higher proportion of development bank loans. Since late 2009, VEB has focused its activities on development bank lending, whilst ceasing to provide recovery finance and reducing its exposure to borrowers who had received recovery finance pursuant to programmes established by VEB under the Financial System Support Law. By their nature, VEB's recovery finance loans tended to be characterised by a higher credit quality than VEB's ordinary course development bank loans. In the course of VEB's development bank activities, VEB gives preference to investment projects, such as infrastructure projects, which are not typically eligible for financing on terms acceptable to commercial banks and other non-specialist market investors. Furthermore, loans and investments made by VEB in the course of its development bank activities often involve relatively large principal amounts, have longer-term maturities, are not secured by liquid collateral and are extended at preferential rates, all of which make these activities of relatively high risk and low return. Accordingly, VEB expects that it may experience some deterioration in the overall credit quality of its loan portfolio as a result of the focusing of its lending activities. See "*Risk Management*".

Allowance for impairment of total loans was RUB 215,317 million, or 9.1% of VEB's total loans, as at 30 June 2013, as compared to RUB 194,165 million, or 9.1% of VEB's total loans, as at 31 December 2012. As at each of 30 June 2013 and 31 December 2012, allowance for impairment of loans included primarily allowance for impairment of loans held by Prominvestbank, Sviaz-Bank and GLOBEXBANK upon VEB's acquisitions of these banking subsidiaries. See "*Description of VEB's Business—Principal Subsidiaries and Associates*". As at 30 June 2013, VEB recorded an allowance for impairment of loans to its three largest borrowers in an aggregate amount of RUB 42,182 million and an allowance for impairment of loans to its next 10 further major borrowers or groups of related borrowers in an aggregate amount of RUB 19,541 million, as compared to allowances of RUB 41,032 million for loans to its three largest borrowers and RUB 15,404 million for loans to its next 10 further major borrowers or groups of related borrowers, respectively, as at 31 December 2012. See "*Certain Statistical Data—Borrower Concentration*".

Few of VEB's customers have extensive credit histories and credit reference agencies are relatively new to the Russian Federation and, accordingly, VEB may be unable to evaluate correctly the current financial condition of existing or prospective borrowers and their long-term financial outlook. Moreover, because VEB generally finances projects which would typically not be eligible for finance by, or otherwise be commercially attractive for, commercial banks, and, because, in exceptional cases, subject to Supervisory Board approval, VEB may participate in investment projects, which may not meet the criteria established by the 2007 Memorandum, many of VEB's loans, investment projects or other transactions, in any one case or in the aggregate, are subject to more significant credit risk, which may expose VEB to additional losses and require VEB to record additional allowance for impairment and, accordingly, could materially adversely affect VEB's business, financial position, results of operations and prospects.

In addition, as more fully discussed below, VEB's loan portfolio is characterised by both borrower and economic sector concentrations. See "*—VEB has made large loans to certain borrowers in specific sectors of the Russian economy. Any continuing effects of the global financial crisis or further deterioration affecting these*

sectors could have a material adverse effect on VEB's business, financial condition, results of operations and prospects".

Changes in the credit quality of VEB's borrowers, or arising from systemic risks in the Russian and global financial systems or in economic sectors in which VEB's loans are concentrated, have reduced, and may continue to reduce, the value of VEB's assets and have increased, and may continue to increase, VEB's loan losses and allowances for loan impairment. In addition, many businesses in the Russian Federation have considerably less operating experience in competitive market conditions than their counterparts in more developed economies and, accordingly, the financial performance of Russian companies is generally more volatile, and the credit quality of Russian companies less predictable, than similar companies doing business in more mature markets and economies. If VEB's borrowers were to experience continued or renewed poor financial performance due to a reversal of recent improvements in the Russian economy or otherwise, or volatility, in certain sectors of the Russian economy, this could adversely affect the credit quality of VEB's loan portfolio. There can be no assurance that VEB's historic level of loan recovery will be maintained in the future. Any need to recognise additional provisions or any increase in loan losses as a result of increased credit risk could have a material adverse effect on VEB's business, financial condition, results of operations and prospects.

VEB has made large loans to certain borrowers in specific sectors of the Russian economy. Any continuing effects of the global financial crisis or further deterioration affecting these borrowers or these sectors could have a material adverse effect on VEB's business, financial condition, results of operations and prospects.

VEB was established (among other reasons) to implement Russian Government policies in, and provide credit and other banking services at preferential interest rates to, certain sectors of the Russian economy. As a result of this objective, VEB's loan portfolio is, from time to time, characterised by concentration in one or more particular economic sectors. As at 30 June 2013, loans outstanding to borrowers in real estate and construction, manufacturing (including heavy machinery and military) and finance comprised 23.0%, 20.6% and 15.7% respectively, of VEB's total loan portfolio. These sectors, some of which were among the most affected by the global financial downturn in 2008 and 2009, may also be adversely affected by any further deterioration in the Russian or international economic and financial environment.

As of 30 June 2013, VEB's loans to private companies comprised RUB 1,552,178 million, or 79.9% of the total loan portfolio.

Moreover, as at 30 June 2013, loans outstanding to VEB's three largest borrowers aggregated RUB 292,137 million and comprised 15.0% of the total loan portfolio and 48.7% of the total equity. As at 30 June 2013, the loans to VEB's three largest borrowers included (i) a group of loans to an associate of VEB, in the amount of RUB 146,943 million and comprising 7.6% of total loans to customers, a portion of the proceeds of which was applied to finance such associate's purchase of real estate and other assets from certain borrowers of GLOBEXBANK to permit such borrowers to repay obligations owed by them to GLOBEXBANK in connection with the rehabilitation of GLOBEXBANK to restore its financial viability following the global financial crisis; (ii) a loan provided to the group of companies of a Russian holding that operates primarily in the metallurgy sector in the amount of RUB 73,042 million and comprising 3.8% of VEB's total loans to customers; and (iii) a loan, provided as part of a development project in the metallurgy sector, in the aggregate amount of RUB 72,152 million and comprising 3.7% of VEB's total loans to customers. See "*Certain Statistical Data and Other Information – Loans to Customers – Borrower Concentration*". As at 30 June 2013, VEB recorded allowance for impairment of these loans to its three largest borrowers in an aggregate amount of RUB 42,182 million, of which RUB 34,980 million was recorded in respect of the loan to an associate to finance the purchase of real estate and other assets from certain borrowers of GLOBEXBANK.

In addition to these loans to VEB's three largest borrowers, VEB has outstanding loans to 10 further major borrowers or groups of related borrowers in the aggregate amount of RUB 379,621 million, or 19.6% of total loans to customers, as at 30 June 2013. For the six months ended 30 June 2013, VEB recorded allowance for impairment of these 10 large loans in a total amount of RUB 19,541 million.

The directed nature of VEB's recovery lending activities may, from time to time, result in VEB having continuing concentrated exposures to particular industries or economic sectors and particular borrowers and, ultimately, could adversely affect the diversity of VEB's overall loan portfolio. As a result of any such concentrations, VEB may experience higher losses in its loan portfolio than would be the case if it had a more diversified portfolio, which could, in turn, have a material adverse effect on VEB's business, financial condition, results of operations and prospects.

VEB has significant off-balance sheet credit related commitments that may lead to potential losses.

VEB issues guarantees, letters of credit, export credit insurance and other similar types of finance as a result of which VEB has significant off-balance sheet credit related commitments that may lead to potential losses. As at 30 June 2013, VEB had issued guarantees amounting to RUB 160,968 million, letters of credit amounting to RUB 25,103 million and other undrawn credit lines and commitments to extend credit amounting to RUB 572,664 million, compared to guarantees amounting to RUB 146,402 million, letters of credit amounting to RUB 71,919 million and other undrawn credit lines and commitments to extend credit amounting to RUB 648,431 million, as at 31 December 2012. As at 30 June 2013, VEB's largest guarantees accounted for 9% of the total off-balance sheet credit-related commitments issued by VEB. All such credit-related commitments are classified as off-balance sheet items in the IFRS Financial Statements. Although VEB has established allowances for its off-balance sheet credit-related commitments, there can be no assurance that these allowances will be sufficient to cover related losses that VEB may potentially incur and, accordingly, any such losses could have a material adverse effect on VEB's business, financial condition, results of operations and prospects.

VEB is subject to liquidity risk.

Although VEB's main sources of liquidity are currently matched in terms of funding by loans or deposits from the CBR or the Russian Government and include a portfolio of marketable securities, there can be no assurance that VEB will continue to have the same level of liquidity as it has in recent years. See "*Certain Statistical Data and Other Information—Securities Portfolio*". Russian banks (including VEB's banking subsidiaries) have experienced a reduction in the availability of affordable finance both in the inter-bank and short-term funding markets, as well as in the longer-term capital markets and syndicated and bilateral lending markets. Further, a number of Russian financial institutions have suffered severe liquidity problems and, in certain cases, the majority shareholders have had to sell their shares to other Russian institutions. These developments could also have a material adverse effect on VEB's business, financial condition, results of operations and prospects.

VEB may be required to, or may choose to, rely on other sources of funding to finance its operations and expected future growth. VEB's reliance on funding from the CBR and the Russian Government has decreased to a certain extent as VEB has obtained funding from alternative sources, such as the international capital markets and bilateral and syndicated loan facilities, and VEB intends to continue to diversify its funding sources. Its ability to do so, including to refinance outstanding debt as it falls due, could, however, be adversely affected by a number of factors, including conditions generally affecting the Russian and global economies and the Russian banking and financial sector. VEB's recourse to other funding sources to finance its current operations and expected future growth may pose additional risks, including increased exposure to liquidity risk arising out of resulting mismatches between the maturities of VEB's assets and liabilities and the possibility that other funding sources may be more expensive and less flexible. In the event that VEB increasingly funds its operations through the international and domestic capital markets and borrowings under bilateral and syndicated loans, either because its existing funding sources become less available or in an effort to reduce its dependence on the Russian Government and the CBR or to lengthen the maturity profile of its funding base, VEB may encounter difficulties in meeting its payment obligations in a timely manner if its assets mature or reprice differently than its liabilities.

There can be no assurance that VEB will continue to be successful in diversifying its funding sources. The recent global financial crisis reduced VEB's access to funding from international markets at commercially acceptable costs. VEB's ability to raise funding from domestic and international markets in amounts sufficient to meet its liquidity needs could be further adversely affected by a number of factors, including a reversal in the recent improvements in the Russian and international economies, financial systems and markets. There can be no assurance that VEB will be able to refinance its existing indebtedness as it matures or replace current funding sources when these expire on terms that are favourable or acceptable to VEB or at all. A failure to refinance outstanding indebtedness or find replacement sources of funds could have a material adverse effect on VEB's business, financial condition, results of operations and prospects.

VEB is subject to interest rate risk.

VEB is exposed to interest rate risk resulting from mismatches between the interest rates on its interest-earning assets and the interest rates on its interest-bearing liabilities. From time to time, the maturities of VEB's assets and liabilities are not balanced and, accordingly, an increase or decrease in interest rates could have an adverse effect on VEB's net interest margin and results of operations. To the extent that VEB's liabilities reprice

substantially more frequently than its assets, if interest rates rise, VEB's interest expense will increase more rapidly than its interest income, which could negatively affect interest margins and result in liquidity problems.

In addition, an increase in interest rates generally raises VEB's funding costs. Such an increase could also generally decrease the market value of fixed rate debt securities, as it did for banks generally in 2008. An increase in interest rates may also reduce overall demand for new loans and increase the risk of customer defaults. General volatility in interest rates may result in a mismatch between VEB's interest-rate sensitive assets and liabilities. Since August 2007, there has been a period of unprecedented high and volatile inter-bank lending rates, which, together with a shortening maturity of deposits, has exacerbated the risk of such mismatch. VEB has incurred, and may continue to incur, additional costs and has been exposed, and may continue to be exposed, to other risks arising from the need to adjust to such asset and liability positions through the use of derivative instruments. Interest rates are sensitive to many factors beyond VEB's control, including the policies of central banks, including the CBR, adverse domestic and international economic conditions and political factors. There can be no assurance that VEB will be able to protect itself from the adverse effects of future interest rate fluctuations. Any fluctuations in market interest rates could lead to a reduction in net interest income and adversely affect VEB's business, financial condition, results of operations and prospects.

In particular, VEB's overall net interest margin remained at the level of 3.4% for each of the six-month periods ended 30 June 2013 and 30 June 2012. This was mainly due to the fact that while the average interest rate of placed funds slightly decreased during the six months ended 30 June 2013, as compared to the six months ended 30 June 2012, and the average interest rate of funds raised grew insignificantly during the six months ended 30 June 2013, as compared to the six months ended 30 June 2012, the overall amount of interest-earning deposited funds grew more substantially (by 15.7%) than the amount of funds raised (by 12.6%) during the period under review.

The average interest rate of placed funds decreased from 8.7% during the six months ended 30 June 2012 to 8.6% during the six months ended 30 June 2013 mainly due to the decrease in the average interest rate on cash and cash equivalents and funds due from credit institutions from 7.6% during the six months ended 30 June 2012 to 6.4% during the six months ended 30 June 2013. Meanwhile, the average interest rate on loans to customers increased from 9.3% to 9.5% and the average interest rate on investment securities and other financial assets increased from 7.9% during the six months ended 30 June 2012 to 8.0% during the six months ended 30 June 2013.

The average interest rate of funds raised increased from 6.0% during the six months ended 30 June 2012 to 6.1% during the six months ended 30 June 2013. This was mainly due to an increase in the average interest rate for deposits received from the CBR and other credit organisations to 5.8% during the six months ended 30 June 2013, as compared to 4.8% during the six months ended 30 June 2012. The average funding rate on the funds deposited by VEB's clients and the Russian Government (excluding deposits placed at the expense of NWF) for the period increased from 5.9% to 6.0%. The average funding rate on funds deposited in VEB at the expense of NWF for the period decreased from 6.9% to 6.4%. The average funding rate on the funds raised by VEB through the issuance of debt instruments decreased during the six months ended 30 June 2013 to 6.4%, as compared to 6.8% during the six months ended 30 June 2012.

See "*Management's Discussion and Analysis of Financial Condition and Results of Operations—Primary Factors Affecting VEB's Results of Operations and Capital Structure—Fluctuations in Interest Rate and Exchange Rates*".

VEB may become increasingly subject to exchange rate risk.

VEB trades in foreign currencies on behalf of its clients and maintains open currency positions, which give rise to exchange rate risk. VEB's income from its foreign currency operations depends on numerous factors beyond its control, such as overall market trading activity, interest rate levels, fluctuations in exchange rates, government actions and general market volatility.

Although VEB's assets and liabilities are largely matched by currency, as at the date of this Base Prospectus, VEB's exposure to exchange rate risk may increase, particularly as it continues to access international capital markets and foreign currency syndicated and bilateral lending markets. Accordingly, future changes in currency exchange rates, which can be particularly volatile in times of national or global financial instability, such as the recent period of economic turmoil, could have a material adverse effect on VEB's business, financial condition, results of operations and prospects.

VEB is subject to market risk, in particular, in respect of its securities portfolio.

The value of VEB's securities portfolio decreased by 8.3% to RUB 560,186 million as at 30 June 2013 from RUB 610,933 million as at 31 December 2012, after having increased by 7% in 2012 from RUB 571,141 million as at 31 December 2011, and having decreased by 0.5% in 2011 from RUB 574,263 million as at 31 December 2010. The decrease in the value of VEB's securities portfolio from 31 December 2010 to 31 December 2011 was principally attributable to a further recovery in the market price of the securities held by VEB, a large portion of which had been purchased at, or near, the lowest levels of the Russian stock market in late 2008 and early 2009 in connection with VEB's role as the key state-owned vehicle for the stabilisation of the Russian securities market. The increase in the value of VEB's securities portfolio as at 31 December 2012 as compared to 31 December 2011 is mostly attributable to an increase in the Russian stock market in 2012 as compared to 2011. The decrease in the value of VEB's securities portfolio as at 30 June 2013 as compared to 30 June 2012 is mostly attributable to the decrease in the fair value of certain securities due to the volatility of the securities market. See "*Description of VEB's Business—Securities Markets and Treasury Operations*".

VEB's income from securities operations depends on numerous factors beyond its control, such as overall market trading activity, interest rate levels, fluctuations in currency exchange rates and general market volatility. Market price fluctuations may adversely affect the value of the securities in VEB's portfolio, which could, in turn, have a material adverse effect on VEB's business, financial condition, results of operations and prospects.

Insurance coverage may not adequately cover the full value of VEB's assets or assets pledged to it by borrowers.

VEB is not legally required to maintain insurance covering its assets. Although VEB voluntarily maintains some insurance on its material assets and requires that certain collateral posted by its borrowers be insured, most of VEB's assets are not covered by insurance and the amount of insurance coverage is more limited than that which would normally be acquired in respect of similar assets in more developed economies. Furthermore, the Russian insurance industry is not well-developed and many forms of insurance offered in developed countries are unavailable to VEB on commercially reasonable terms, if at all. VEB may incur material losses from uninsurable or uninsured risks or insufficient insurance coverage. Any uninsured losses or claims against VEB could have a material adverse effect on VEB's business, financial condition, results of operation or prospects.

VEB may be unable to recruit or retain experienced and qualified personnel.

VEB's continuing success depends, in significant part, on its ability to attract, retain and motivate qualified and experienced banking and management personnel. VEB is dependent on its senior management for the implementation of its strategy and the operation of its day-to-day activities. In addition, relationships of members of senior management with Russian Government agencies and ministries and regional and local authorities are important to the conduct of VEB's business. No assurance can be given that the key members of VEB's senior management will remain at VEB or that important business relationships with Russian Government agencies and ministries and regional and local authorities will endure. The departure of key management, any failure of VEB to recruit and retain necessary personnel qualified to conduct VEB's operations or the loss or damage of key relationships with the Russian Government could have a material adverse effect on VEB business, financial condition, results of operations and prospects.

VEB's business activities entail operational risks.

VEB is a large organisation, with seven representative offices within the Russian Federation, 10 representative offices outside the Russian Federation and a number of subsidiaries. As at 30 June 2013, VEB had, 2,131 employees excluding its subsidiaries and 18,363 employees including its subsidiaries. Consequently, VEB is inherently exposed to many types of operational risk, including a risk of failure of internal processes or systems, fraud by employees, borrowers or customers, unauthorised transactions by employees, non-compliance with internal procedures and operational errors, including clerical or record keeping errors or errors resulting from faulty computer or telecommunications systems.

In March 2012, the Russian prosecutor's office initiated criminal proceedings against Mr. Anatoly Ballo, VEB's Deputy Chairman and then member of the Management Board, alleging fraudulent misappropriation of funds from the loan extended by VEB in September 2008. The prosecutor's office has subsequently re-classified the charge into misuse of authority. Mr. Ballo challenged the initiation of the criminal proceedings in court. In May 2013, the higher instance court ruled that the prosecutor's office violated procedural rules when it initiated the

charges against Mr. Ballo and sent the case to the lower court for a new review. In August 2013, the lower court refused to hear the case because it was notified that the case was being reviewed by the Moscow prosecutor's office for final approval of the charges. In September 2013, the prosecutor's office refused to approve the charges against Mr. Ballo and sent the case materials back to the investigative authorities.

VEB's financial performance, its ability to meet its strategic objectives and its ability to manage risks arising out of the current market environment depend and will continue to depend to some extent upon the functionality of its information technology and its ability to increase systems capacity and functionality in line with the emphasis of its activities. VEB's information technology systems remain less sophisticated and less integrated in certain respects than those of banks in more developed countries. The lack of well-integrated IT systems increases VEB's operational risks, including the risk of fraud by employees or outsiders, unauthorised transactions by employees and operational errors, such as clerical or record-keeping errors, settlement errors, model errors and errors resulting from faulty computer or telecommunications systems and natural disasters.

VEB's operational reporting systems may also be less advanced than those used by banks in more developed markets. In particular, VEB's ability to monitor its loan and securities portfolios in the aggregate on a daily basis and management's ability to obtain certain other financial and operational data may be limited. Although the number of transactions routinely undertaken by VEB is significantly lower than the volume of business conducted by commercial financial institutions engaged in retail banking, the lack of immediately available consolidated financial and operating data may hinder the ability of VEB's management to make decisions, to react promptly to changes in market conditions and to detect fraud and non-compliance with internal procedures. Moreover, as VEB's loan portfolio and overall business activities have grown, VEB's information, technology, operational reporting and risk management systems have been put under increasing strain. Overall, VEB's systems may not permit management to assess risks related to VEB's current and growing business accurately and in a timely manner. As such, VEB may be exposed to unidentified risks in connection with certain transactions and may incur higher levels of loan losses resulting in the requirement to make larger provisions, which could have a material adverse effect on VEB's financial condition, results of operations and prospects.

VEB's information technology systems remain less sophisticated and less integrated in certain respects than those of banks in more developed countries. The lack of well-integrated IT systems increases VEB's operational risks, including the risk of fraud by employees or outsiders, unauthorised transactions by employees and operational errors, such as clerical or record-keeping errors, settlement errors, model errors, errors resulting from faulty computer or telecommunications systems and natural disasters.

VEB maintains systems designed to protect its computer network and IT infrastructure and keep operational and technological risk at acceptable levels. See "*Risk Management—Risk Management Policies*". There can be no assurance, however, that these controls will operate as intended to detect or contain operational and technological risk in the future. See "*Description of VEB's Business—Information Technology*". Disruptions (even short-term) in service, processing delays or other problems affecting VEB's operational and information technology systems could also have a material adverse effect on VEB's business, financial condition, results of operations and prospects.

In addition, whilst VEB has implemented comprehensive measures in accordance with applicable Russian legislation aimed at the prevention of money laundering and terrorism financing, there can be no assurance that VEB's anti-money laundering and anti-terrorism financing measures will be completely effective. If VEB were to be associated with money laundering or terrorism financing, VEB would suffer reputational damage, which could have a material adverse effect on VEB's business, financial condition, results of operations and prospects.

Violations of existing international or U.S. sanctions, or adverse governmental action in the United States or elsewhere, could subject VEB to penalties or otherwise have an adverse effect on it.

International and U.S. sanctions have been imposed in respect of certain types of transactions with specified countries, or individuals or entities in certain specified countries, including, among others, Syria.

In September 2013, a number of U.S. senators, in a publicly released letter to the U.S. Secretary of the Treasury, made allegations concerning the activities of certain Russian financial institutions, including VEB, with respect to Syria. VEB has denied the allegations and has stated its belief that its activities do not violate international sanctions imposed by the U.N. Security Council, Russian law, the European Union, U.S. law or the laws of other relevant jurisdictions.

While VEB believes that it is not currently involved in any activities that could result in sanctions against it, no assurance can be given that sanctions will not be imposed in the future, and VEB cannot predict future interpretations of sanctions legislation or regulation, or the implementation policies of the United States or other jurisdictions or entities that may impose sanctions.

If VEB were deemed to have violated international or U.S. sanctions, penalties could include a prohibition or limitation on its ability to obtain goods and services on the international market or to access the U.S. or international capital markets, which could have an adverse effect on VEB's business, financial condition, results of operations or prospects.

The preparation of the IFRS Financial Statements requires management to make certain judgments, estimates and assumptions, which necessarily involve uncertainties, which could have a material adverse effect on amounts reported in VEB's IFRS Financial Statements.

The preparation of VEB's IFRS Financial Statements requires management to make judgments, estimates and assumptions that affect the reported amounts of VEB's assets, liabilities, income and expenses and are critical to the understanding of VEB's IFRS Financial Statements. The judgments, estimates and assumptions that VEB's management makes are based on information available at the time such judgments, estimates and assumptions were made. Should circumstances change, the outcome may be materially different from what was envisaged at the time the judgments, estimates and assumptions were made. Actual results may differ from estimates, and such differences may be material and, accordingly, have a material adverse effect on the amounts of assets, liabilities, income and expenses reported in VEB's IFRS Financial Statements. See Note 2 to the Unaudited Financial Statements for the six months ended 30 June 2013 and Note 2 to the Audited Financial Statements for the year ended 31 December 2012 for a discussion of these estimates and assumptions.

VEB may fail to properly manage its growth or integrate newly acquired subsidiaries.

VEB's banking operations have grown significantly in recent years. In particular, VEB's total assets have grown from RUB 2,043,472 million as at 1 January 2010 to RUB 3,122,628 million as at 30 June 2013 after having tripled in 2008 due to the role VEB played during the financial crisis. Although VEB expects to continue to expand its business through internal growth, particularly because VEB's recent growth was in large part driven by its recovery finance activities and VEB has ceased to provide new recovery finance, there can be no assurance that VEB will be able to sustain its current levels of growth in the future.

VEB's continued asset growth in part also reflects a number of significant acquisitions, including acquisitions of a 53.6% interest in Bank BelVEB in 2007, which was gradually increased to 97.52% between 2008 and 2012; a 50.0% interest plus one share in VEB-Leasing in 2008, which was gradually increased to 98.9627% between 2009 and 2011; a 90.0% interest in Sviaz-Bank in 2008, which was gradually increased to 99.5% in 2009; a 75.0% interest plus three shares in Prominvestbank in 2009, which was gradually increased to 97.85% between 2009 and 2011, to 98.6% in 2013; and a 98.9% interest in GLOBEXBANK in 2009, which was gradually increased to 99.99% between 2009 and 2011. In 2010, VEB's asset growth also reflected its acquisition of a 2.7% stake in OJSC "Gazprom" for a purchase price of approximately U.S.\$3,500 million, as well as the contribution to VEB's charter capital of the shares of FCPF. See "*Description of VEB's Business—Securities Markets and Treasury Operations*".

VEB's recent acquisitions, together with the contribution of FCPF, and the related growth in VEB's assets, liabilities and net income, as well as its ongoing operations, have required and will continue to require significant allocation of management resources, further development of VEB's financial controls, internal controls and information technology systems, continued upgrading and streamlining of VEB's risk management systems and additional training and recruitment of management and other key personnel. The integration of new businesses can be difficult because operational practices and business cultures may differ, cost-cutting measures may be required and internal controls, including controls over cash flows and expenditures, may be more difficult to maintain. VEB may make or be forced to make significant additional acquisitions in the future, including controlling or minority interests in defaulting companies, which operate in sectors that are not core to VEB's business and in respect of which VEB has no operational or management expertise. Future acquisitions could also give rise to similar integration risks, as well as financial risks. There can be no assurance that VEB will be able to fully integrate newly-acquired businesses in line with its strategy and business practices. Any failure to successfully manage growth and development, including through the hiring, retention and training of experienced managers and other personnel and the expansion and upgrading of VEB's operating and IT

systems, or to integrate past or future acquisitions, could adversely affect VEB's business, financial condition, results of operations and prospects.

Current or future growth of certain VEB subsidiaries (in particular, VEB-Leasing) may require provision of additional capital by VEB to such subsidiaries, which in turn may have a negative impact on VEB's capital adequacy ratios.

VEB's largest subsidiaries face risks relating to traditional commercial banking activities.

Several of VEB's largest subsidiaries, including GLOBEXBANK, Sviaz-Bank and Prominvestbank, engage in traditional commercial banking activities and are, accordingly, exposed to a variety of risks customarily affecting such businesses, which include, but are not limited to, the following:

- continued instability and dislocation in the global credit markets or national economies in which subsidiaries operate;
- the impact of external factors on cash generation, liquidity and debt service;
- the inability to accurately assess the credit risk of potential borrowers;
- a decline in the value or illiquidity of collateral and difficulties in the enforcement of security interests under applicable laws;
- exposure to interest rate risk, currency risk, credit risk, operational risk and liquidity risk;
- inflation;
- volatility in the income from proprietary securities and currency operations;
- competition;
- off-balance sheet credit-related commitments;
- operational and technological risks;
- unidentified and unanticipated risks arising from less sophisticated and less integrated risk management policies and procedures and accounting systems;
- the failure of employees to adhere to internal compliance procedures;
- difficulties in attracting and retaining qualified senior management and key personnel;
- covenant restrictions and events of default that may limit business development activities; and
- revisions to applicable central bank or Basel Accord capital adequacy standards and related requirements for additional capital.

In 2008 and 2009, the deterioration of general economic conditions in the Russian Federation and the other markets in which VEB operates, and the declining growth of the Russian banking sector in particular, adversely impacted VEB's banking subsidiaries. In addition, the recent U.S. fiscal crisis caused volatility in the markets, which had a negative impact on the Russian financial market in general. See "*—Risks Relating to the Russian Federation*".

Any of the above-outlined risks or any failure in the initial recovery of, or further deterioration in relevant economies could have a material adverse effect on VEB's banking subsidiaries and, in turn, on VEB's business, financial condition, results of operations and prospects.

Risks Relating to the Global Economic Crisis

Turmoil in the global financial markets has adversely affected, and may continue to adversely affect, the Russian economy and the Russian banking industry. Both as the development bank of the Russian Federation and as one of the key state-owned vehicles for the stabilisation of the Russian economy and financial system, VEB must assume the risks resulting from measures designed to respond to such turmoil. These risks could adversely affect VEB's business, financial condition, results of operations and prospects.

The credit markets, both globally and in the Russian Federation, have faced significant volatility, dislocation and liquidity constraints since the summer of 2007.

In response to the global financial crisis affecting the global banking sector and financial markets, many countries, including the Russian Federation, announced and implemented significant rescue packages, which included, among other things, the recapitalisation of banks through state-sponsored purchases of common and preferred equity securities, state-sponsored guarantees of certain forms of bank debt, state-sponsored purchases of distressed assets from banks and other financial institutions and the provision by the state of guarantees of distressed assets held by banks and other financial institutions.

Volatility and market disruption in the global banking sector continued through 2012 and early 2013 as concerns developed with respect to certain countries in Europe, particularly Greece, Cyprus, Ireland, Portugal, Spain and Italy. In March 2013, in response to a new wave of financial crisis, the Cypriot Government implemented certain rescue measures which included the temporary freezing of certain deposits in excess of €100,000 and their compulsory conversion into shares of the Bank of Cyprus. In addition, rescue measures introduced certain capital controls, including restrictions on wire transfers or transfer of deposits and/or other funds from Cyprus to accounts held outside Cyprus and the termination of fixed term deposits prior to their stated maturity. The implementation of these measures affected Russian businesses holding accounts in Cyprus, leading to their inability to settle certain transactions or forcing them to shift settlements to accounts outside Cyprus.

Continued instability in the Middle East has led to increased volatility in the financial markets and in the prices of commodities, particularly oil. These and other events could result in a lower flow of foreign investment into and increased capital outflows from Russia and emerging markets generally or persistent volatility in global and regional financial markets.

Any such uncertainty, disruption or volatility may have an adverse effect on VEB's business, financial condition, results of operations and prospects.

In the Russian Federation, many rescue measures were implemented through VEB. Accordingly, although VEB has reduced its exposure to borrowers who had received recovery finance pursuant to the programmes established by VEB under the Financial System Support Law and the Russian economy has shown signs of improvement, VEB is particularly exposed to the risk that measures to redress the crisis will not be successful in assisting the entities to which VEB has provided financial support, either through loans or capital investments, in recovering sufficiently (if at all) to enable them to repay their outstanding obligations to VEB or for VEB to yield a return on its investments.

Moreover, some of the development projects financed by VEB were initiated by the Russian Government for political and social reasons to increase the competitiveness and diversification of the Russian economy, in particular, by promoting investment activity in sectors that are of strategic importance to the Russian Government. Should a general downturn in the global or Russian economy force the Russian Government to withdraw or suspend its participation or support of such projects, this could result in losses to VEB.

Any failure by VEB's borrowers to repay their obligations, of VEB's investments to return a positive yield or termination of VEB-funded projects (among other things) could have a material adverse effect on VEB's business, financial condition, results of operations and prospects.

Risks Relating to the Russian Federation

Emerging markets such as Russia are subject to greater risk than more mature markets, including significant political, economic and legal risks.

Generally, investments in emerging markets are only suitable for sophisticated investors who fully appreciate the significance of the risks involved, and investors are urged to consult with their own legal and financial advisers before making an investment in the Notes.

Investors in emerging markets such as the Russian Federation should be aware that these markets are subject to greater risk than more mature markets, including in some cases significant political, economic and legal risks. Investors should also note that emerging economies such as the economy of the Russian Federation are subject to rapid change and that the information set out herein may become outdated relatively quickly. Moreover, financial turmoil in any emerging market country tends to adversely affect prices in equity and debt markets of all emerging market countries as investors move their money to more stable, developed markets. As has happened in the past, financial problems or an increase in the perceived risks associated with investing in emerging economies could dampen foreign investment in Russia and adversely affect the Russian economy. In addition, during such times, companies that operate in emerging markets can face severe liquidity constraints as foreign funding sources are withdrawn. Accordingly, investors should exercise particular care in evaluating the risks involved and must decide for themselves whether, in light of those risks, their investment is appropriate.

Any material reduction in the price of crude oil or natural gas may materially adversely affect VEB's revenues and financial condition of the Russian Federation.

The Russian economy is affected by international oil and natural gas prices, which have fluctuated widely in recent years in response to global supply and demand, general economic conditions, competition from other energy sources and other factors. In 2010, the peak price of Urals oil was U.S.\$92.05 per barrel and the average price per barrel was U.S.\$78.20. In 2011, the peak price of Urals oil was U.S.\$122.88 per barrel and the average price per barrel was U.S.\$109.35. In 2012, the peak price of Urals oil was U.S.\$127.27 per barrel and the average price per barrel was U.S.\$110.78. In the six months ended 30 June 2013, the average price of Urals oil was U.S.\$106.53 per barrel. Russia's 2013 Federal Budget Law assumes an average price per barrel of Urals oil of U.S.\$97.00 for 2013. The projections of the Russian Ministry of Economic Development for 2014 and 2015, are U.S.\$101.00 and U.S.\$100.00, respectively. Natural gas prices have likewise fluctuated significantly in recent years, in part because crude oil prices often provide a benchmark for natural gas prices. In 2010, the lowest monthly average export price of natural gas was U.S.\$254.40 per thousand m³, the peak monthly average export price of natural gas was U.S.\$287.60 per thousand m³ and the average export price of natural gas was U.S.\$273.00 per thousand m³ (excluding the trade with Kazakhstan since 1 July 2010). In 2011, the lowest monthly average export price of natural gas was U.S.\$303.90 per thousand m³, the peak monthly average export price of natural gas was U.S.\$361.60 per thousand m³ and the average export price of natural gas was U.S.\$330.00 per thousand m³. In 2012, the lowest monthly average export price of natural gas was U.S.\$76.42 per thousand m³, the peak monthly average export price of natural gas was U.S.\$137.57 per thousand m³ and the average export price of natural gas was U.S.\$105.37 per thousand m³. During the six months ended 30 June 2013, the lowest monthly average export price of natural gas was U.S.\$123.66 per thousand m³, the peak monthly average export price of natural gas was U.S.\$155.26 per thousand m³ and the average export price of natural gas was U.S.\$139.81 per thousand m³. Any material reduction in the price of crude oil or natural gas will have a significant effect on Russia's budgetary revenues and foreign reserves, and, if sustained, may materially adversely affect the Russian Federation's financial condition, including the Russian Federation's ability to continue to provide funding to VEB.

The Russian economy, like many economies, particularly in emerging markets, is vulnerable to external shocks. The recent global financial crisis, significant future economic difficulties of the Russian Federation's major trading partners and more general "contagion" effects all could have a material adverse effect on the Russian Federation's economic growth and the market for the Notes.

The Russian economy and financial system were adversely affected in 2008 and 2009 by the global financial crisis. Although in recent years the Russian economy has shown signs of improvement, it remains vulnerable to further external shocks. During the six months ended 30 June 2013 real gross domestic product ("GDP") growth declined to 1.4% (as compared to 4.5% in the six months ended 30 June 2012). According to the World Bank, growth of Russian economy in 2013 is expected to be slightly lower than in 2012 due to weak global sentiment, flat oil prices, high inflation, and sluggish domestic demand. A significant decline in the economic growth of the

EU or any of the Russian Federation's other major trading partners could have a material adverse effect on the Russian Federation's balance of trade and adversely affect the Russian Federation's economic growth.

Events occurring in one geographic or financial market sometimes result in an entire region or class of investments being disfavoured by international investors—so-called “contagion effects”. The Russian Federation has been adversely affected by contagion effects in the past, and it is possible that the market for investments relating to the Russian Federation, including the Notes, will be similarly affected in the future by negative economic or financial developments in other countries, particularly those whose economies or credit ratings are similar to those of the Russian Federation.

There can be no assurance that the recent economic crisis, or a future external economic crisis, will not have a negative effect on investors' confidence in the Russian Federation's markets, economy or ability to raise capital in the international debt markets, all of which could have a material adverse effect on the Russian Federation's economy and, in turn, its ability to continue to provide funding to VEB.

A worsening of the political climate in the Russian Federation may have a material adverse effect on VEB's business, financial condition, results of operations and prospects.

In March 2012, Vladimir Putin, who had served as President between 2000 and 2008, was elected the President of the Russian Federation with 63.6% of the total votes. Vladimir Putin appointed Dmitry Medvedev, the Russian Federation's former President, to the position of Prime Minister of the Russian Federation. Vladimir Putin and Dmitry Medvedev have maintained the stability of the Russian Government and introduced policies generally oriented towards the continuation of economic reforms. However, since with the Russian State Duma elections in December 2011, there have been continuous public protests in Moscow and other urban areas opposing Vladimir Putin and the political system implemented by him.

VEB cannot assure prospective investors that there will be no material changes to the Russian Government's policies or to economic or regulatory reforms in the near future. Any change in the Russian Government's programme of reform in Russia could lead to a deterioration in Russia's investment climate that might limit the ability of VEB to obtain financing in the international capital markets or otherwise have a material adverse effect on VEB's business, financial condition or results of operations.

The actions of Russian legislative, executive and judicial authorities can affect the Russian securities market as well as banks and other businesses operating in Russia. In particular, the events surrounding claims brought by the Russian authorities against several major Russian companies, have led to questions being raised regarding the progress of market and political reforms in Russia and have resulted in significant fluctuations in the market price of Russian securities and a negative impact on foreign direct and portfolio investment in the Russian economy, over and above the general market turmoil recently. Any similar actions by the Russian authorities, which result in a further negative effect on investor confidence in Russia's business and legal environment could have a material adverse effect on the Russian securities market and prices of Russian securities or securities issued or backed by Russian entities, including the Notes.

Domestic and regional political conflicts could create an uncertain operating environment that could adversely impact VEB's business and hinder its long-term planning ability.

The Russian Federation consists of 83 regions, some of which exercise considerable autonomy in their internal affairs. In certain areas, the division of authority between federal and regional governmental authorities remains uncertain. The lack of consensus between local and regional authorities and the federal governmental authorities may result in political instability and may have a material adverse effect on VEB's business, financial condition, prospects or ability to fulfil its financial obligations.

In addition, ethnic, religious, historical and other divisions have, on occasion, given rise to tensions and, in certain cases, military conflict, both internally and with other countries. Various acts of terrorism have been committed in population centres within the Russian Federation. The risks associated with these events or potential future events could materially and adversely affect the investment environment and overall consumer confidence in the Russian Federation (e.g., bombings in Domodedovo airport in Moscow in January 2011). In particular, as the Russian Federation produces and exports large amounts of crude oil and gas, any acts of terrorism or armed conflicts causing disruptions of Russian oil and gas exports could negatively affect the Russian economy. The results of such conflicts and actions could have a material adverse effect on VEB's business, financial condition and results of operations or prospects.

VEB and its subsidiaries face risks associated with Russia's relations with other CIS countries where it conducts business.

In addition to Russia, VEB has banking subsidiaries in other CIS countries, including Belarus and Ukraine.

The relationship between Ukraine and Russia has become strained for various reasons, including, among other things, certain ' declarations made by Ukraine during the military conflict between Russia and Georgia in August 2008, Ukraine's failure to pay or delay in paying arrears relating to the supply of energy resources and Ukraine's possible accession to NATO and the European Union. Russia's relations with Belarus have also in the past been strained over gas supplies. Emerging markets such as Russia are also subject to heightened volatility based on diplomatic and military conflicts. Moreover, Russia's relationships with Ukraine and Belarus have been strained over a variety of issues, the most recent of which has been the arrest in Belarus in late August 2013 of Mr. Vladislav Baumgertner, the general director of OJSC "Uralkali", a private Russian company and the world's largest potash producer. The emergence of new or escalated tensions between Russia and Ukraine or Russia and Belarus, including the imposition of trade sanctions or embargoes, could negatively affect the Russian economy and those of other CIS countries, including VEB's current and future CIS markets, which could have a material adverse effect on VEB's business, results of operations, financial condition and prospects, as well as the value of the Notes.

In addition, Belarus has been experiencing a severe financial crisis since the start of 2011, which led the central bank of Belarus to announce in May 2011 a devaluation of its national currency, the Belarusian rouble, against major currencies, such as the U.S. Dollar and Euro, in an attempt to reduce pressure on the currency and neutralise the "black market" internal currency market that had developed as a result of the country's severe foreign currency deficit. In September 2011, the central bank of Belarus introduced new regulations regarding currency exchange on the internal currency market, resulting in the de facto co-existence of "official" currency exchange rates and those determined by supply and demand. Thus far, the new regulations have led to a further devaluation of the Belarusian rouble against major currencies, such as the U.S. Dollar and Euro, but their potential long-term impact remains unclear. In September 2011, Standard & Poor's downgraded the credit rating of Belarus from B/B to B-/C. Having received a U.S.\$3,000 million funding package from the Eurasian Economic Community in return for an agreement to privatise substantial state-owned assets, the Belarusian government announced in June 2011 that it was seeking a further rescue package, in an amount of up to U.S.\$8,000 million, from the IMF. As a condition to providing any such assistance, it is likely that the IMF will require Belorussian government to agree to a package of deep economic reforms, which could add further stress to Belorussian economy. In April 2013, Standard & Poor's changed its outlook on Belarus from "stable" to "positive". The ongoing financial crisis in Belarus could have a material adverse effect on the business, financial condition, results of operations and prospects of VEB's banking subsidiary and transactions in or involving Belarus.

Moreover, the economic and political situation in Ukraine has often been unstable in recent years and has been negatively affected by a number of factors, including a downturn in steel prices; impacting the country's macroeconomic performance, Ukraine's dependence on external funding sources and the legal case relating to ex-prime minister Yulia Tymoshenko. For example, in 2011, due to non-compliance with certain conditions, Ukraine failed to receive a new tranche of a U.S.\$15,000 million loan from the IMF agreed in August 2010. In December 2012 both Moody's Investors Service and Standard & Poor's downgraded the credit ratings of Ukraine by one notch to "B3" and "B" respectively with "negative" outlook. Subsequently, Moody's Investors Service downgraded its credit rating for Ukraine to Caa1 in September 2013 and Standard & Poor's downgraded its credit rating for Ukraine to "B-" in November 2013. Any deterioration in the economic or political environment in Ukraine could have a material adverse effect on the business, financial condition, results of operations and prospects of VEB's banking subsidiary.

It may be difficult to obtain recognition or enforcement in the Russian Federation of a foreign judgment in respect of the Notes.

Russian courts may not enforce any judgment obtained in a court established in a country other than the Russian Federation unless there is (a) a treaty in effect between the Russian Federation and the country where the judgement was rendered providing for the recognition of court judgments in civil cases; (b) a federal law of Russia providing for the recognition and enforcement of foreign court judgments is adopted; or (c) on the basis of reciprocity, if courts of the country where the foreign judgement is rendered have previously enforced judgements issued by Russian courts. No such treaty exists between the Russian Federation and either the United Kingdom or the United States and no such federal law has been passed. Even in the event that there is

such a treaty and a federal law, Russian courts may nonetheless refuse to recognise and enforce a foreign court judgment on the grounds provided in such treaty and in Russian legislation in effect on the date on which such recognition and enforcement is sought. The Arbitrazh Procedural Code of the Russian Federation establishes the procedures for the recognition and enforcement of foreign court judgments and contains an extensive list of grounds for refusal of such recognition and enforcement in the future. Moreover, Russian procedural legislation may change and no assurance can be given that in the future no other ground for refusal of such recognition and enforcement may arise. There have been at least two instances in which Russian courts have recognised and enforced a judgment of a court of a country with which the Russian Federation does not have an international treaty to that effect (the United Kingdom and Holland). The basis for this was a combination of the principle of reciprocity and the existence of a number of bilateral and multilateral treaties to which both countries were parties. There have been no other Russian court decisions by which foreign judgments, in the absence of a statutory basis in Russian federal law or a treaty between the Russian Federation and the respective state where the foreign judgment was rendered, have been recognised and enforced on the territory of the Russian Federation. It may be said that as a general rule the court judgments rendered against VEB or any members of its Supervisory Board or Management Board in the United Kingdom or elsewhere remain uncertain and it may be impossible to enforce in the Russian Federation, unless their recognition and enforcement are permitted by an international treaty or Russian legislation.

Due to the ambiguities in the recently adopted Insider Trading Law, trading of securities and other financial instruments by VEB may inadvertently violate restrictions imposed by the law.

On 30 July 2010, the Insider Trading Law was published. The restrictions imposed by the Insider Trading Law prohibit the disclosure of any price-sensitive non-public information (“**Inside Information**”) to third parties and the use of Inside Information in connection with any trading of securities, commodities, currency or other financial instruments admitted to trading on a Russian stock exchange. A number of the provisions of the Insider Trading Law are vague and might be subject to varying interpretation by courts and state authorities. In particular, the Insider Trading Law does not recognise the concept of information barriers, or Chinese walls, for limiting information exchange within an organisation between employees making investment decisions and the employees possessing information that may affect such decision-making.

As part of its business, VEB and its subsidiaries perform a variety of functions, including conducting operations on the Russian financial markets and providing financial advisory service. Accordingly, should one part of VEB come in possession of Inside Information about a publicly traded company, whilst another part of VEB independently enter into a trade with respect to the securities of such company, VEB or one of its subsidiaries might be considered by the authorities to be in violation of the Insider Trading Law. This, in turn, could result in the imposition of certain civil, administrative and other sanctions on VEB and could have a material adverse effect on its business, financial condition or results of operations.

The new Procurement Law could restrict VEB’s commercial flexibility, which could adversely impact VEB’s business.

From 1 January 2012, VEB, and from 1 January 2013, certain of its subsidiaries, are subject to the compliance with the requirements of Federal Law No. 223-FZ “On the Purchase of Goods, Works and Services by Certain Types of Legal Entities” dated 18 July 2011, as amended (the “**Procurement Law**”). Under the Procurement Law, VEB must purchase goods, works and services through a public auction or a public tender or through other means provided in, and in each case in accordance with a procedure prescribed by, the rules on procurement approved by the competent governing body of VEB and published on VEB’s website. The requirements set out in the Procurement Law and the rules on procurement approved by VEB are new, vague and may be subject to different interpretations which could restrict VEB’s commercial flexibility and adversely affect VEB’s business, financial condition and results of operations or prospects.

The Russian Civil Code and other legislation on legal entities are undergoing continuous reform that may create an uncertain environment for business activities and investments.

In December 2012, April 2013, June 2013 and September 2013, the Russian State Duma adopted three sets of amendments to the Russian Civil Code as part of a proposed major reform of the Russian civil legislation. The amendments came into force in March, September, October and November 2013, respectively, and relate primarily to certain basic principles of civil law, limits to the exercise of civil rights, regulation of state registration of rights to certain types of property, the principle of compensation for losses incurred as a result of lawful acts of state authorities, invalidation of transactions, requirements in relation to power of attorney,

statutory limitation periods, real and movable property, securities, types of legal entities, transactions and certain matters of private international law.

In addition to these amendments, the Russian State Duma is currently considering further amendments to the Russian Civil Code, including introduction of a new classification system for legal entities in general and commercial entities in particular (dividing commercial entities into public and private companies and eliminating a “closed joint-stock company” form of a commercial entity), new management structure for all public joint-stock companies, and additional liability of the management bodies and persons who may determine legal entity’s conduct. Also, the Russian State Duma is currently considering in its second reading a draft of the Public Companies Law. See “– *VEB is not subject to external banking regulatory oversight by the CBR*”.

As of the date of this Base Prospectus, the potential interpretation by courts of these amendments and of the Public Companies Law, if passed, as well as their impact on VEB’s activities and corporate governance, remain unknown.

There is a lack of reliable official data in the Russian Federation.

Official statistics and other data published by the CBR, federal, regional and local governments and federal agencies are substantially less complete or transparent than those of Western countries, and there can be no assurance that the official sources from which certain of the information set forth herein has been drawn are reliable or complete. Official statistics may also be produced on the basis of methodologies different from those used in Western countries. Any discussion of matters relating to the Russian Federation herein may therefore be subject to uncertainty due to concerns about the completeness or reliability of available official and public information.

Risks Relating to the Issuer

Examiners, preferred creditors under Irish law and floating charges may impose additional risks on the Notes.

Centre of Main Interest

As the Issuer has its registered office in Ireland, there is a rebuttable presumption that its centre of main interest (“COMI”) is in Ireland and consequently that any main insolvency proceedings applicable to it would be governed by Irish law. In the decision by the European Court of Justice (“ECJ”) in relation to Eurofood IFSC Limited, the ECJ restated the presumption in Council Regulation (EC) No. 1346/2000 of 29 May 2000 on Insolvency Proceedings, that the place of a company’s registered office is presumed to be the company’s COMI and stated that the presumption can only be rebutted if “factors which are both objective and ascertainable by third parties enable it to be established that an actual situation exists which is different from that which locating it at the registered office is deemed to reflect”. As the Issuer has its registered office in Ireland, has Irish directors, is registered for tax in Ireland and has an Irish corporate services provider, the Issuer does not believe that factors exist that would rebut this presumption, although this would ultimately be a matter for the relevant court to decide, based on the circumstances existing at the time when it was asked to make that decision. If the Issuer’s COMI is not in Ireland, and is held to be in a different jurisdiction within the European Union, main insolvency proceedings may not be opened in Ireland.

Examinership

Examinership is a court procedure available under the Irish Companies (Amendment) Act 1990, as amended (the “1990 Act”) to facilitate the survival of Irish companies in financial difficulties.

The Issuer, the directors of the Issuer, a contingent, prospective or actual creditor of the Issuer, or shareholders of the Issuer holding, at the date of presentation of the petition, not less than one-tenth of the voting share capital of the Issuer are each entitled to petition the court for the appointment of an examiner. The examiner, once appointed, has the power to halt, prevent or rectify acts or omissions, by or on behalf of the company after his appointment and, in certain circumstances, negative pledges given by the company prior to his appointment will not be binding on the company. Furthermore, where proposals for a scheme of arrangement are to be formulated, the company may, subject to the approval of the court, affirm or repudiate any contract under which some element of performance other than the payment remains to be rendered both by the company and the other contracting party or parties.

During the period of protection, the examiner will compile proposals for a compromise or scheme of arrangement to assist in the survival of the company or the whole or any part of its undertaking as a going concern. A scheme of arrangement may be approved by the Irish High Court when (i) a minimum of one class of creditors, whose interests are impaired under the proposals, has voted in favour of the proposals and (ii) the Irish High Court is satisfied that such proposals are fair and equitable in relation to any class of members or creditors who have not accepted the proposals and whose interests would be impaired by implementation of the scheme of arrangement and (iii) the proposals are not unfairly prejudicial to any interested party.

The fact that the Issuer is a special purpose entity and that all its liabilities are of a limited recourse nature means that it is unlikely that an examiner would be appointed to the Issuer.

If, however, for any reason, an examiner were appointed whilst any amounts due by the Issuer under the Notes were unpaid, the primary risks to the holders of Notes would be as follows:

- the Trustee, acting on behalf of Noteholders, would not be able to enforce rights against the Issuer during the period of examinership; and
- a scheme of arrangement may be approved involving the writing down of the debt due by the Issuer to the Noteholders irrespective of the Noteholders' views.

Preferred Creditors

If the Issuer becomes subject to an insolvency proceeding and the Issuer has obligations to creditors that are treated under Irish law as creditors that are senior relative to the Noteholders, the Noteholders may suffer losses as a result of their subordinated status during such insolvency proceedings. In particular:

- under the terms of the Trust Deed, the Notes will be secured in favour of the Trustee for the benefit of itself and the Noteholders by security over the Loan Agreement and sums held in the related account with the Principal Paying Agent. Under Irish law, the claims of creditors holding fixed charges may rank behind other creditors (namely fees, costs and expenses of any examiner appointed and certain capital gains tax liabilities) and, in the case of fixed charges over book debts, may rank behind claims of the Irish Revenue Commissioners for PAYE and VAT;
- under Irish law, for a charge to be characterised as a fixed charge, the charge holder is required to exercise the requisite level of control over the assets purported to be charged and the proceeds of such assets including any bank account into which such proceeds are paid. There is a risk, therefore, that even a charge which purports to be taken as a fixed charge, such as the Charge, may take effect as a floating charge if a court deems that the requisite level of control was not exercised; and
- in an insolvency of the Issuer, the claims of certain other creditors (including the Irish Revenue Commissioners for certain unpaid taxes), as well as those of creditors mentioned above, will rank in priority to claims of unsecured creditors and claims of creditors holding floating charges.

Risks Relating to the Notes and the Trading Market

Payments under a Series of Notes are limited to the amount of certain payments received under the relevant Loan Agreement.

The Issuer is only obliged to make payments under a Series of Notes to the relevant Noteholders in an amount equal to sums of principal, interest and additional amounts (if any) actually received by or for the account of the Issuer from VEB pursuant to the relevant Loan Agreement less any amounts in respect of the Issuer Reserved Rights provided that, for so long as a Swap Agreement is in effect, recourse shall be limited in respect of amounts exchanged pursuant to such Swap Agreement. To the extent any relevant Swap Counterparty does not make payments due under any relevant Swap Agreements, VEB will be required to make such payments to the Issuer directly. In such circumstances, Noteholders will also be reliant on VEB making such payments under the Loan Agreement. Consequently, if VEB fails to meet its payment obligations under the relevant Loan Agreement in full, this will result in the Noteholders of a Series of Notes receiving less than the scheduled amount of principal, interest and additional amounts (if any) on the relevant due date.

Payments of principal and interest made in Roubles are subject to the settlement procedures of the general Russian banking system, which may be different from corresponding Western systems.

Payments of principal and interest under the relevant Loan and relevant Notes may be made in Roubles. All payments of Roubles to, from or between Rouble accounts located outside the Russian Federation will be made via onshore correspondent accounts within the Russian banking system. The general Russian banking and settlement system is based on periodic daily settlement cycles, which may not be similarly suited to deal with payments relating to Eurobonds or similar international debt instruments as many of its Western counterparts. Consequently, there is a risk that payments of both principal and interest under the relevant Loan and relevant Notes, which need to pass through the Russian banking and settlement system, will be subject to delays and disruptions which may not exist in more mature banking markets.

Noteholders have no direct recourse to VEB.

Except as otherwise expressly provided in the “*Terms and Conditions of the Notes*” and in the Trust Deed, Noteholders will not have any proprietary or other direct interest in the Issuer’s rights under or in respect of the relevant Loan Agreement and, if applicable, any relevant Swap Agreements. Subject to the terms of the Trust Deed, no Noteholder will have any entitlement to enforce any of the provisions of the relevant Loan Agreement or, if applicable, any relevant Swap Agreements, or have direct recourse to VEB or, if applicable, any relevant Swap Agreements, except through action by the Trustee under the Charge or any assignment of rights, including any rights under a Loan Assignment and, if applicable, any relevant Swap Agreements.

In addition, Noteholders should be aware that neither the Issuer nor the Trustee accepts any responsibility for the performance by VEB of its obligations under the relevant Loan Agreement or, if applicable, by any Swap Counterparty of its obligations under any Swap Agreement. See “*Terms and Conditions of the Notes—1. Status*”.

The lack of a liquid market for the Notes could reduce their value.

There may not be an existing market for the Notes at the time they are issued. Each Series of Notes is expected to be listed on the Irish Stock Exchange and traded on the Market. However, there can be no assurance that a liquid market will develop for the Notes that the holders of the Notes will be able to sell their Notes or that such holders will be able to sell their Notes for a price that reflects their value.

Ratings of Notes

In general, European regulated investors are restricted under Regulation (EC) No. 1060/2009 (the “**CRA Regulation**”) from using credit ratings for regulatory purposes, unless such ratings are issued by a credit rating agency established in the European Union and registered under the CRA Regulation (and such registration has not been withdrawn or suspended), subject to transitional provisions that apply in certain circumstances whilst the registration application is pending. Such general restriction will also apply in the case of credit ratings issued by non-European Union credit rating agencies, unless the relevant credit ratings are endorsed by an EU-registered credit rating agency or the relevant non-European Union rating agency is certified in accordance with the CRA Regulation (and such endorsement action or certification, as the case may be, has not been withdrawn or suspended). Where a Series of Notes is rated, the rating assigned to the Notes and details of the relevant rating agency will be specified in the applicable Final Terms or the Series Prospectus, as the case may be. Whether or not each credit rating applied for in relation to a Series of Notes will be issued by a credit rating agency established in the European Union and registered under the CRA Regulation will be disclosed in the applicable Final Terms or the Series Prospectus, as the case may be.

VEB’s payments under any Loan may be subject to Russian withholding tax.

In general, interest payments on borrowed funds made by a Russian legal entity to a foreign legal entity or organisation which are not connected with the entrepreneurial activities of such foreign legal entity or organisation in the Russian Federation leading to a permanent establishment in Russia are subject to Russian withholding tax at a rate of 20% (or such other rate as may be effective at the time of payment). This tax can be reduced or eliminated under the terms of an applicable double taxation treaty subject to treaty clearance formalities to be satisfied by the foreign legal entity in a timely fashion. In particular, the Agreement between the Government of Ireland and the Russian Government for the Avoidance of Double Taxation with respect to

Taxes on Income signed on 29 April 1994 (the “**Agreement**”) generally exempts interest income from Russian withholding tax provided certain requirements are satisfied by the recipient of the income in a timely manner.

A change in the way the Russian tax authorities interpret the concept of factual/beneficial owner of income may affect the application of the tax benefits under the Agreement. Specifically, on 30 December 2011, the Russian Ministry of Finance issued letter No. 03-08-13/1 (the “**Letter**”) addressed to the Federal Tax Service, noting, in the context of Eurobond structure which is not identical to the Notes, that a foreign issuer of Eurobonds is not a beneficial owner of the interest income. Therefore it cannot benefit from the provisions of the Agreement in respect of interest that the Russian borrower pays to the issuer. Conversely, the Letter says that the noteholders could apply provisions of the respective tax treaty (if any) between Russia and the country of their residency. VEB cannot exclude the possibility that the Russian tax authorities might apply the same approach to the payments that VEB makes under the Loan. Notwithstanding the foregoing, Federal Law No. 97-FZ dated 29 June 2012 “On introduction of amendments in part one and two of the Tax Code of the Russian Federation and Article 26 of Federal law on banks and banking activity” (“**Law No. 97-FZ**”) provides an exemption from withholding tax for certain Eurobond structures. Law No. 97-FZ fully releases Russian borrowers from the obligation to withhold tax from interest and other payments they make to foreign entities if the underlying loan agreement meets certain conditions. See “*Taxation—Russian Federation.*”

Based on professional advice received, VEB believes that it should be possible to satisfy the conditions of Law No. 97-FZ. As a result of that, VEB will not have an obligation to withhold income tax from payments of interest on any Loan from the Issuer funded by the proceeds of the Notes issued before 1 January 2014.

Importantly, Law No. 97-FZ does not provide an exemption to foreign interest income recipients from Russian withholding tax, although currently there is no explicit requirement in the Russian tax legislation for foreign income recipients that are legal entities to self-assess and pay tax to the Russian tax authorities. The Russian Ministry of Finance acknowledged in its information letter published on its website that the release from obligation to act as a tax agent means, in effect, that tax at source within Russia should not arise in connection with Eurobonds, since there is neither a mechanism nor obligation for a non-resident to independently calculate and pay such tax. There can be no assurance that such rules will not be introduced in the future or that the practice will not change and Russian tax authorities would not make attempts to collect the tax from the foreign income recipients, including the Issuer or the Noteholders.

If interest or any other amounts due under any Loan Agreement become payable to the Trustee pursuant to the Trust Deed, there is some residual uncertainty whether the release from the obligation to withhold tax under Law No. 97-FZ is available to the Trustee. There is a potential risk that Russian withholding tax in respect of payments of interest and certain other amounts under such Loan Agreement to the Trustee at the rate of 20% (or such other rate as may be effective at the time of payment) or Russian personal income tax at the rate of 30% (or such other tax rate that may be effective at the time of payment) may be withheld by VEB upon making such payments to the Trustee. It is not expected that the Trustee will, or will be able to, claim a Russian withholding tax exemption or reduction under any applicable double tax treaty under such circumstances. In addition, while some Noteholders that are foreign persons not residing in Russia for tax purposes may seek a reduction or elimination of Russian withholding tax or personal income tax, as applicable, or a refund of the respective taxes under applicable double tax treaties entered into between their countries of tax residence and the Russian Federation, there is no assurance that any treaty relief will be available to them in practice in such circumstances.

If interest payments or any other amounts due under any Loan become subject to any Russian withholding tax (as a result of which the Issuer would reduce payments made under the corresponding Series of the Notes by the amount of such withholding tax), VEB will be obliged to increase its payments or to make such additional payments under the relevant Loan as may be necessary to ensure that the Issuer and/or Noteholders receive a net amount equal to the amount they would have received in the absence of such withholding taxes.

While any Loan Agreement will provide for VEB to pay increased or additional amounts in these circumstances, there is a risk that tax gross-up provisions set out in the relevant Loan Agreement may not be enforceable under Russian law. If gross-up for withholding tax is not enforceable under Russian law, there is a risk that interest payments made by VEB under each Loan Agreement will be reduced by the amount of Russian income tax withheld by VEB at the rate of 20% (or at the rate of 30% with respect to Russian personal income tax for Russian non-resident Noteholders) or such other rate effective at the time of payment. See “*Taxation—Russian Federation.*”

If VEB is obligated to increase any payments on any or all Loans or to make additional payments on any or all Loans as described above, VEB may be permitted pursuant to the terms of the relevant Loan Agreement (without premium or penalty), subject to certain conditions, to prepay the relevant Loan in full. In such case, all outstanding Notes of the corresponding Series will be redeemable at par together with accrued and unpaid interest and additional amounts, if any, to the date of repayment. See “*Taxation—Russian Federation.*”

The Issuer may enter into Swap Agreements with Swap Counterparties, which will share security with Noteholders.

The Issuer may enter into one or more Swap Agreements with one or more Swap Counterparties in respect of a Series of Notes and any such Swap Agreements will be subject to the same security arrangements as the relevant Series of Notes. Swap Agreements may be entered into in relation to currency and/or interest rate swaps. Any early termination of such Swap Agreements could, in the circumstances set out below, lead to an Event of Default under the relevant Loan Agreement and ultimately result in the Notes becoming due and payable prior to their maturity date. In the event of an Event of Default under any relevant Loan Agreement, the Trustee will, pursuant to the Trust Deed, enforce the Security Interests for the benefit of the Noteholders and any applicable Swap Counterparty *pari passu* and rateably, which may, in the event of a shortfall in funds recovered, lead to Noteholders receiving less than the full amount available for distribution by the Trustee.

Any Swap Counterparty may have existing or future business relationships with VEB or the Issuer (including, but not limited to, lending, depositary, risk management, advisory and banking relationships), and, in such circumstances, may pursue actions and take steps that it deems or they deem necessary or appropriate to protect its or their interests arising therefrom without regard to the consequences for any of the Noteholders.

To the extent that one or more relevant Swap Agreements are terminated early for any reason, VEB will, under the relevant Loan Agreement, be obliged to pay such additional amounts as may be necessary to ensure that, in addition to being able to discharge in full its obligations under the Notes, the Issuer is able to meet any termination or other payment due under the relevant Swap Agreements. If VEB fails to make such additional payments in respect of any termination or other payment due under the relevant Swap Agreements, then this would result in an Event of Default under the relevant Loan Agreement, following which the relevant Swap Counterparty or Swap Counterparties, as the case may be, may direct the Trustee to enforce the Security Interests, which could result in the Notes becoming due and payable prior to their scheduled maturity date.

Risks Relating to Taxation in the Russian Federation

Changes and uncertainties in the Russian tax system could adversely affect VEB’s business.

VEB is subject to a broad range of taxes and other compulsory payments imposed at federal, regional and local levels, including, but not limited to, value added tax, property tax, compulsory social security payments and other taxes (although VEB is not subject to profit tax in the Russian Federation). Tax laws, such as the Russian Tax Code, have been in force for a short period of time relative to tax laws in more developed market economies and the implementation of Russian tax laws are often inconsistent. Despite the fact that the Russian Government has taken some steps to reduce the overall tax burden in recent years and the fact that the quality of the Russian tax legislation has generally improved with the introduction of the first and second parts of the Russian Tax Code, the Russian Federation’s ineffective tax collection system and potential budgetary funding requirements create the possibility and increase the likelihood that the Russian Federation may impose arbitrary or onerous taxes and penalties in the future, which could have a material adverse effect on VEB’s business, financial condition, results of operations or prospects.

There also can be no assurance that the Russian Tax Code will not be changed in the future in a manner adverse to the stability and predictability of the tax system. In general, it is expected that Russian tax legislation will progressively become more sophisticated. VEB cannot provide prospective investors with any assurance that additional Russian tax exposures will not arise whilst the Notes of any Series are outstanding. Additional tax exposures could have a material adverse effect on VEB’s business, financial condition, results of operations and prospects.

The Russian Federation’s federal, regional and local tax laws and regulations are subject to frequent change, varying interpretations and inconsistent enforcement. In some instances, the Russian tax authorities have applied new interpretations of tax laws retroactively, issued tax claims for periods for which the statute of limitations had expired and reviewed the same tax period several times. Differing interpretations of tax regulations exist

both among and within government ministries and organisations at the federal, regional and local levels, creating uncertainties and inconsistent enforcement.

Taxpayers, the Russian Ministry of Finance and the Russian tax authorities often interpret tax laws differently. The current practice is that private clarifications of specific taxpayers' queries with respect to particular situations issued by the Russian Ministry of Finance are generally not binding on the tax authorities and there can be no assurance that the tax authorities will not take positions contrary to those set out in the private responses issued by the Russian Ministry of Finance. Therefore, taxpayers often have to resort to court proceedings to defend their positions against the tax authorities on this and other tax matters. The tax authorities may be taking a more assertive position in their assessments and their interpretation of legislation, which may lead to an increased number of material tax assessments issued by the tax authorities as a result of tax audits of companies operating in various industries, including the financial industry, and it is possible that transactions and activities that have not been challenged in the past may be challenged in the future. Furthermore, court rulings on tax or other related matters by different courts relating to the same or similar circumstances may also be inconsistent or contradictory.

In its decision of 25 July 2001, the Constitutional Court of the Russian Federation (the "**Constitutional Court**") introduced the concept of "a taxpayer acting in bad faith". In practice, the tax authorities often exercise significant discretion in interpretation of this concept in a manner that is unfavourable to taxpayers.

As a further measure aimed at restricting abuse of tax law, on 12 October 2006, the Plenum of the Supreme Arbitration Court of the Russian Federation (the "**Supreme Arbitration Court**") issued Resolution No. 53 ("**Resolution No. 53**"), which introduced the concept of "unjustified tax benefit" which may lead to disallowance of the application of that benefit for tax purposes, for instance, in case of absence of the business purpose. Resolution No. 53 provides that a tax benefit means a reduction in the amount of a tax liability resulting, in particular, from a reduction of the tax base, the receipt of a tax deduction (recovery) or tax concession, the application of a reduced tax rate and the receipt of a right to a refund (offset) or reimbursement of tax from the budget. The Supreme Arbitration Court ruled that a tax benefit itself cannot be regarded as a standalone business objective, and such tax benefit may be deemed unjustified if the true economic intent of transactions is inconsistent with the manner in which they have been accounted for for tax purposes or when a transaction lacks a reasonable economic or business purpose. On the other hand, the mere fact that the same economic result might have been obtained with a lesser tax benefit received by the taxpayer should not be treated as grounds for declaring a tax benefit to be unjustified. It is apparent that the tax authorities actively seek to apply this concept when challenging tax positions taken by the taxpayers. Although the explicit intention of this ruling was to combat abuse of tax law, based on the available court practice relating to Resolution No. 53, it can be concluded that the tax authorities sometimes apply the "unjustified tax benefit" concept in a broader sense than may have been intended by the Supreme Arbitration Court. Importantly, there are some cases where this concept has been applied by the tax authorities in order to disallow benefits granted by double tax treaties.

In addition, in March 2012 the Federal Tax Service of the Russian Federation prepared for, and proposed to, the Russian Ministry of Finance and the Russian Ministry of Economic Development the draft law which envisages certain amendments to the Russian Tax Code and model double tax treaty adopted by the Russian Government on 24 February 2010. These amendments to the Russian Tax Code referred as controlled foreign companies (CFC) rules are intended to discourage transactions involving offshore jurisdictions. In particular, the draft law stipulates that expenses incurred by the Russian taxpayers from their operations with the foreign companies located in offshore jurisdictions (the list of which is provided by the Russian Ministry of Finance) should be treated as non-deductible expenses for the Russian profits tax purposes; simultaneously the amount of such expenses should be treated as taxable income for the Russian profits tax purposes. These amendments have not been submitted to the Russian Parliament for hearing yet.

The other initiative is a draft Decree of the Russian Government which would introduce the beneficial ownership concept to the Russian model double tax treaty and would make the above mentioned domestic CFC rules prevail over the provisions of double tax treaties. Such amendments, prima facie, should not affect the application of double tax treaties in Russia as currently enacted. It is currently uncertain if and when these initiatives may be introduced, as well as how they would be interpreted and applied by the tax authorities and/ or courts in practice and what effect it may have on taxpayers, including VEB.

Moreover, on 30 October 2013, the Federation Council (the upper chamber of the Russian Parliament) approved a draft law amending the Tax Code increasing the withholding tax rate on payments by Russian issuers to foreign holders of Russian securities where the beneficial owners of such holders have not been disclosed. Based on the current draft, the amendments should not affect the payments under the Notes.

VEB and VEB's Russian direct and indirect subsidiaries are subject to tax audits by the Russian tax authorities, which may result in additional tax liabilities.

Tax returns together with related documentation are subject to review and investigation by the tax authorities, which are enabled by Russian law to impose severe fines and penalties. Generally, tax returns remain open and subject to inspection by the tax authorities for a period of three years immediately preceding the year in which the decision to conduct a tax audit is adopted. However, a repeated tax audit may be conducted by a higher-level tax authority as a measure of control over the activities of lower-level tax authorities (which effectively means that higher level tax authorities are able to exert control over taxpayers as well), or in connection with the reorganisation or liquidation of a taxpayer, or as a result of the filing by such taxpayer of an amended tax return decreasing the tax payable. Therefore, previous tax audits do not preclude subsequent claims relating to the audited period.

The statute of limitations for tax liabilities for the commitment of a tax offence is three years from the date on which it was committed or from the next day following the date of the end of the tax period during which the tax offence was committed (depending on the nature of the tax offence).

On 14 July 2005, the Constitutional Court issued a decision that allows the statute of limitations for tax liabilities and penalties to be extended beyond the three-year term set forth in the Russian Tax Code if a court determines that a taxpayer has obstructed or hindered a field tax audit. Moreover, the Russian Tax Code has been amended to provide for the extension of the three year statute of limitations for tax penalties if the actions of a taxpayer create insurmountable obstacles for a tax audit. Because the terms “obstructed”, “hindered” and “create insurmountable obstacles” are not defined under relevant Russian law, the tax authorities may attempt to interpret these terms broadly, effectively linking any difficulty experienced in the course of their tax audit with obstruction by the taxpayer and use that as a basis to seek tax adjustments and penalties beyond the three-year term. Therefore, the statute of limitations for tax penalties may not be entirely effective. In addition to the usual tax burden imposed on the Russian taxpayers, these conditions complicate relevant business decisions. This means that VEB may be subject to significant fines, penalties and enforcement measures, despite VEB's best efforts at compliance, and could result in a greater than expected tax burden.

Vaguely drafted Russian transfer pricing rules and lack of reliable pricing information may impact VEB's results of operations.

New Russian transfer pricing rules became effective on 1 January 2012. As a general rule, starting from 2012, the Russian tax authorities have the right to adjust for the tax purposes the prices used by Russian taxpayers in “controlled” transactions, including transactions with related parties and certain types of cross-border transactions. These new rules have considerably increased compliance burdens on taxpayers as compared to the burden imposed by the law which was in effect before 2012 due to, *inter alia*, the fact that the new law effectively passes the burden of proving market prices from the tax authorities to the taxpayer. Additionally, the new transfer pricing rules impose specific reporting obligations on parties subject to transfer price control. Although the new law is intended to be consistent with international transfer pricing principles developed by OECD, there are some irregularities in how these principles have been codified under Russian law.

Note, however, that special transfer pricing rules apply to transactions with securities and derivatives and that revision of the general transfer pricing rules did not affect these special rules.

At the date of the Base Prospectus, there is limited court practice and guidance on the application of the new transfer pricing rules.

Accordingly, due to the uncertainties in the interpretation of the Russian transfer pricing legislation which was in effect before 2012 and the recently introduced new transfer pricing legislation, no assurance can be given that the tax authorities will not challenge VEB's pricing mechanism based on the approach applied in “controlled” transactions, in particular, transactions with related parties located in and outside of the Russian Federation and impose certain penalties for non-compliance with the new transfer pricing rules which may have an adverse effect on VEB's business, financial condition and results of operations, and the value of the Notes.

A Non-Resident Noteholder's disposal of Notes in the Russian Federation may be subject to Russian withholding tax.

If a Non-Resident Noteholder that is a legal entity or organisation that holds the Notes other than through its permanent establishment in the Russian Federation sells any Notes and receives proceeds from a source within the Russian Federation, there is a risk that the part of the payment, if any, representing accrued interest may be

subject to a 20% (or such other rate as may be effective at the time of payment) Russian withholding tax, although such tax may be reduced or eliminated under an applicable double tax treaty subject to compliance with the treaty clearance formalities. There can be no assurance that such reduction or elimination will be available in practice.

Where proceeds from the disposition of Notes (including accrued and paid interest on the Notes) are deemed to be received from a source within the Russian Federation by an individual Noteholder that is not a Russian resident for the tax purposes, a withholding personal income tax would be charged at a rate of 30% (or such other tax rate as may be effective at the time of payment) on gross proceeds from such disposition of the Notes less any available documented cost deductions (including the acquisition cost of the Notes and other documented expenses related to the acquisition, holding and the sale or other disposal of the Notes), provided that the documentation supporting cost deductions is available to the person required to calculate and withhold Russian personal income tax in a timely manner. Although such tax may be reduced or eliminated under an applicable double tax treaty subject to compliance with the treaty clearance formalities, in practice, individuals may be unable to obtain advance treaty relief on the receipt of proceeds from a source within the Russian Federation, and obtaining a refund of the taxes withheld can be extremely difficult, if not impossible.

In addition, whilst some Noteholders might be eligible for an exemption from or a reduction in Russian withholding tax under applicable double taxation treaties, there is no assurance that such exemption or reduction will be available in practice under such circumstances.

ENFORCEABILITY OF FOREIGN JUDGMENTS AND ARBITRAL AWARDS

VEB is a state corporation established pursuant to the laws of the Russian Federation. All members of VEB's Supervisory Board and Management Board named in this Base Prospectus reside outside the United Kingdom and the United States. Moreover, the majority of VEB's assets and substantially all of the assets of the members of its Supervisory Board or Management Board are located in the Russian Federation. As a result, it may not be possible for the Noteholders to:

- effect service of process within the United Kingdom or the United States upon any members of VEB's Supervisory Board or Management Board named in this Base Prospectus; or
- enforce, in English or U.S. courts, judgments obtained outside English or U.S. courts against VEB or any members of its Supervisory Board or Management Board named in this Base Prospectus in any action.

Each Loan Agreement will be governed by English law and will provide for the Issuer to elect for disputes to be settled in the courts of England and Wales. It may be difficult for the Noteholders to enforce, in original actions brought in courts in jurisdictions located outside the United Kingdom and the United States, liabilities predicated upon English laws or U.S. federal securities laws.

Judgments rendered by a court in any jurisdiction outside the Russian Federation will generally be recognised by courts in the Russian Federation only on the basis that (a) an international treaty exists between the Russian Federation and the country where the judgment was rendered providing for the recognition of judgments in civil cases; (b) a federal law of the Russian Federation providing for the recognition and enforcement of foreign court judgments is adopted; or (c) if courts of the country where the foreign judgment is rendered have previously enforced judgments issued by Russian courts. No such federal law has been passed, and no such treaty exists, between the Russian Federation, on the one hand, and the United States or the United Kingdom, on the other hand. While Russian courts have recently recognised and enforced English and Dutch court judgments on grounds of reciprocity, the existence of reciprocity must be established at the time the recognition and enforcement of a foreign judgment is sought, and it is not possible to predict whether a Russian court will in the future recognise and enforce on the basis of reciprocity of a foreign court judgment. Even if an applicable international treaty is in effect or a foreign judgment might otherwise be recognised and enforced on the basis of reciprocity, the recognition and enforcement of a foreign judgment will in all events be subject to exceptions and limitations provided for in Russian law. For example, a Russian court may refuse to recognise or enforce a foreign judgment if its recognition or enforcement would contradict Russian public policy. Therefore, foreign judgments against VEB or the members of its Supervisory Board and Management Board may not be enforced or their enforcement may require completion of the complicated procedures specified above. In addition, in the absence of established court practice, it is difficult to predict whether a Russian court will be inclined in any particular instance to recognise and enforce an English court judgment on these grounds. Furthermore, Russian courts have limited experience in the enforcement of foreign court judgments.

The limitations described above, including the general procedural grounds set out in the Russian legislation for the refusal to recognise and enforce foreign court judgments in the Russian Federation, may significantly delay the enforcement of such judgment or deprive the Issuer or Noteholders of effective legal recourse for claims related to the investment in the Notes or under the relevant Loans. See *“Risk Factors—Risks Relating to the Russian Federation—It may be difficult to obtain recognition or enforcement in the Russian Federation of a foreign judgment in respect of the Notes”*.

As an alternative to the courts of England and Wales, each Loan Agreement will provide for disputes, controversies and causes of action brought by any party thereto against VEB to be settled by arbitration in accordance with the rules of the LCIA (formerly the London Court of International Arbitration) (the **“LCIA Rules”**). The place of such arbitration shall be London, England. The Russian Federation and the United Kingdom and the United States are parties to the United Nations (New York) Convention on the Recognition and Enforcement of Foreign Arbitral Awards (the **“New York Convention”**). Consequently, Russian courts should generally recognise and enforce in the Russian Federation an arbitral award from an arbitral tribunal in the United Kingdom or the United States on the basis of the rules of the New York Convention (subject to qualifications provided for in the New York Convention and compliance with Russian procedural regulations and other procedures and requirements established by Russian legislation). However, the Supreme Arbitration Court in its recent practice treated alternative arbitration clauses that allow only one party to choose between arbitration and litigation as void.

The Arbitrazh Procedural Code of the Russian Federation (the “**Arbitrazh Procedural Code**”) sets out the procedure for the recognition and enforcement of foreign arbitral awards by Russian courts. The Arbitrazh Procedural Code also contains an exhaustive list of grounds for the refusal of recognition and enforcement of foreign arbitral awards by Russian courts, which grounds are broadly similar to those provided by the New York Convention.

The Arbitrazh Procedural Code and other Russian procedural legislation could change, and other grounds for Russian courts to refuse the recognition and enforcement of foreign courts’ judgments and foreign arbitral awards could arise in the future. In practice, reliance upon international treaties may meet resistance or a lack of understanding on the part of a Russian court or other officials, thereby introducing delay and unpredictability into the process of enforcing any foreign judgment or any foreign arbitral award in the Russian Federation. Furthermore, any arbitral award pursuant to arbitration proceedings in accordance with the LCIA Rules and the application of English law to each Loan Agreement may be limited by the mandatory provisions of Russian laws relating to the exclusive jurisdiction of Russian courts and the application of Russian laws with respect to bankruptcy, winding up or liquidation.

SUPPLEMENT TO THE BASE PROSPECTUS

The Issuer will, in connection with the listing of the Notes on the Irish Stock Exchange, in the event of any significant new factor, material mistake or inaccuracy relating to the information contained in this Base Prospectus, prepare a supplement to this Base Prospectus or publish a new Base Prospectus for use in connection with any subsequent issue of the Notes to be listed on the Irish Stock Exchange.

The Issuer and VEB may agree with any Dealer that a Series of Notes may be issued in a form not contemplated by the Terms and Conditions herein, in which event a supplement to this Base Prospectus, or a Series Prospectus, if appropriate, will be published which will describe the effect of the agreement reached in relation to such Notes.

PRESENTATION OF FINANCIAL AND OTHER INFORMATION

Presentation of Financial Information

The Group's financial information set forth herein has, unless otherwise indicated, been derived from its audited consolidated financial statements prepared in accordance with the International Financial Reporting Standards ("IFRS") issued by the International Accounting Standards Board, as at and for the years ended 31 December 2012, 2011 and 2010 (the "**Audited Financial Statements**") and unaudited interim condensed consolidated financial statements prepared in accordance with the IFRS, as at and for the six months ended 30 June 2013 and 30 June 2012 (the "**Interim Financial Statements**", and together with the Audited Financial Statements, the "**IFRS Financial Statements**"). The Group's IFRS Financial Statements for the years ended 31 December 2012 and 2011 and for the six months ended 30 June 2013 are set forth on pages F-2 through F-272 of this Base Prospectus. The Group's IFRS Financial Statements for the year ended 31 December 2010 and for the six months ended 30 June 2012 have not been included in full in this Base Prospectus. References in this Base Prospectus to total loans include loans to customers and amounts due from credit institutions.

Auditors

The Audited Financial Statements have been audited in accordance with International Standards on Auditing by Ernst & Young LLC who have expressed an unqualified opinion on each of those statements, as stated in their report appearing herein. The address of Ernst & Young LLC is Sadovnicheskaya Naberezhnaya 77, Building 1, Moscow 115035, Russian Federation. Ernst & Young LLC are independent auditors. Ernst & Young LLC is a member of the Non-profit Partnership "Audit Chamber of Russia". Ernst & Young LLC have been the auditors of VEB since 2007.

Certain Definitions

In this Base Prospectus:

"**2007 Memorandum**" means the Memorandum "On Financial Policies" of State Corporation "Bank for Development and Foreign Economic Affairs (Vnesheconombank)" approved by Directive of the Russian Government No. 1007-r on 27 July 2007, as extended by Decree 1170-r and Decree 1316-r, and as otherwise amended from time to time;

"**AHML**" means OJSC "Agency for Housing Mortgage Lending";

"**Basel Accord**" means the report published by the Basel Committee on Banking Supervision in January 1988, which sets out the capital adequacy framework issued in 1988;

"**Belarus**" means the Republic of Belarus;

"**Bank BelVEB**" means OJSC "Bank BelVEB";

"**CBR**" or "**Bank of Russia**" means the Central Bank of Russia;

"**CIS**" means the Commonwealth of Independent States and its member states (excluding the Russian Federation) as at the date of this Base Prospectus, being Armenia, Azerbaijan, Belarus, Kazakhstan, Kyrgyzstan, Moldova, Tajikistan, Turkmenistan, Ukraine and Uzbekistan;

"**Decree 1170-r**" means the Decree of the Russian Government No. 1170-r dated 15 July 2010;

"**Decree 1316-r**" means the Decree of the Russian Government No. 1316-r dated 25 July 2013;

"**Development Bank Law**" means Federal Law No. 82-FZ "On Bank of Development" dated 17 May 2007, as amended from time to time;

"**EU**" means the European Union;

"**EXIAR**" means OJSC "Russian Agency for Export Credit and Investment Insurance";

“**Far East and Baikal Region Development Fund**” means OJSC “Far East and the Baikal Region Development Fund”;

“**FCPF**” means OJSC “Federal Centre for Project Finance”;

“**Financial System Support Law**” means Federal Law No. 173-FZ “On Additional Measures for Supporting the Financial System of the Russian Federation” dated 13 October 2008, as amended from time to time;

“**GLOBEXBANK**” means CJSC “GLOBEXBANK”;

“**Group**” means VEB and its consolidated subsidiaries taken as a whole;

“**IFRS**” means the International Financial Reporting Standards issued by the International Accounting Standards Board;

“**Insider Trading Law**” means Federal Law No. 224-FZ “On Counteracting the Abuse of Inside Information and Market Manipulation and Amendment of Certain Legislative Acts of the Russian Federation” dated 27 July 2010, as amended from time to time;

“**legal entities**” means state authorities and companies, collectively;

“**MRIF**” means Closed-end Mutual Hedge Fund “MRIF”;

“**MRIF-II**” means Closed-end Mutual Hedge Fund “MRIF-II”;

“**Non-Commercial Organisations Law 1996**” means Federal Law No. 7-FZ dated 12 January 1996 “On Non-Commercial Organisations”, as amended from time to time;

“**NCDC**” means OJSC “Corporation for the Development of North Caucasus”;

“**NWF**” means the National Welfare Fund of the Russian Federation;

“**Prominvestbank**” means PSC Prominvestbank (Ukraine);

“**RDIF Management Company**” means LLC “Management Company RDIF”;

“**RGI**” means R.G.I. International Limited;

“**ROSEXIMBANK**” means CJSC “ROSEXIMBANK”;

“**Russia**” means the Russian Federation;

“**Russian Government**” means the Federal government of the Russian Federation;

“**SME Bank**” means OJSC “Russian Bank for Small and Medium Enterprises Support” (formerly, Russian Bank of Development OJSC “Rossiyskiy bank razvitiya”);

“**state authorities**” means federal, regional and municipal authorities;

“**Sviaz-Bank**” means OJSC “Interregional Bank for Settlements of the Telecommunications and Postal Services”;

“**VEB**” means, unless the context requires VEB and its consolidated subsidiaries taken as a whole, the State Corporation “Bank for Development and Foreign Economic Affairs (Vnesheconombank)”;

“**VEB Capital**” means LLC “VEB Capital”;

“**VEB Engineering**” means LLC “VEB Engineering”;

“**VEB-Leasing**” means OJSC “VEB-LEASING”;

“**Vnesheconombank of the USSR**” means the Bank for Foreign Economic Affairs of the USSR; and

“**WTO**” means the World Trade Organisation.

Certain Currencies

In this Base Prospectus:

“**BYR**” or “**Belarusian Rouble**” means the lawful currency of Belarus;

“**CHF**” or “**Swiss Franc**” means the lawful currency of Switzerland;

“**EUR**”, “**Euro**” or “**€**” means the single currency of the participating Member States in the third stage of the European and Economic Monetary Union pursuant to the Treaty establishing the European Community, as amended from time to time;

“**GBP**”, “**£**” or “**Sterling**” means the lawful currency of the United Kingdom;

“**RUB**” or “**Rouble**” means the lawful currency of the Russian Federation; and

“**U.S. Dollar**”, “**U.S.\$**”, “**USD**” or “**\$**” means the lawful currency of the United States of America.

The Group’s functional currency is the Rouble.

Rounding

Certain figures included in this Base Prospectus have been subject to rounding adjustments. Accordingly, figures shown for the same category presented in different tables may vary slightly and figures shown as totals in certain tables may not be an arithmetic aggregation of the figures that precede them.

Exchange Rate Information

The table below sets forth, for the periods and dates indicated, the high, low, period-end and period-average exchange rate between the Rouble and the U.S. Dollar, based on the official exchange rates quoted by the CBR for the relevant period. Fluctuations in the exchange rate between the Rouble and the U.S. Dollar in the past are not necessarily indicative of fluctuations that may occur in the future. These rates may also differ from the actual rates used in the preparation of the IFRS Financial Statements and other financial information presented in this Base Prospectus.

	RUB per U.S.\$1.00			
	High	Low	Period end	Period average⁽¹⁾
Year				
2008	29.38	23.13	29.38	24.98
2009	36.43	28.67	30.24	31.77
2010	31.78	28.93	30.48	30.38
2011	32.68	27.26	32.20	29.39
2012	34.04	28.95	30.37	31.09
Month				
January 2013	30.42	30.03	30.03	30.26
February 2013	30.62	29.93	30.62	30.16
March 2013	31.08	30.51	31.08	30.80
April 2013	31.72	30.88	31.26	31.33
May 2013	31.59	31.04	31.59	31.24
June 2013	32.91	31.68	32.71	32.28
July 2013	33.32	32.31	32.86	32.74
August 2013	33.25	32.86	33.25	33.02
September 2013	33.47	31.59	32.35	32.63
October 2013	32.48	31.66	32.06	32.06
November 2013 (through 4 November 2013)	32.08	32.08	32.08	32.08

Source: CBR

Note:

- (1) The average for the relevant period is based on the average of the exchange rates on each business day for which the CBR quotes the Rouble to U.S. Dollar exchange rate during such period (and each non-business day, for which the rate is equal to that announced by the CBR on the previous business day).

For convenience, certain figures in this Base Prospectus as at and for the six months ended 30 June 2013 have been translated from Roubles into U.S. Dollars at the RUB/U.S.\$ exchange rate published by the CBR as at the end of the date, which was RUB 32.71 per U.S.\$1.00 in effect as at 30 June 2013. Such translations are not reflective of a translation in accordance with IFRS and should not be construed as a representation that the RUB amounts have been or could be converted into U.S. Dollars at this rate or at any particular rate or at all. No representation is made that any Rouble or U.S. Dollar amounts referred to herein could have been or could be converted into Roubles or U.S. Dollars, as the case may be, at the above rates, at any particular rate or at all.

Industry and Market Data

In this Base Prospectus, VEB and the Issuer refer to information regarding VEB's business and the market in which VEB operates. VEB and the Issuer obtained this information in part from various third party sources and in part from VEB's own internal estimates. VEB and the Issuer have obtained market and industry data relating to VEB's business from providers of industry and market data, namely the CBR, the Federal State Statistics Service (Rosstat), Cbonds, Interfax-Center for Economic Analysis and the World Bank.

Industry publications, surveys and forecasts generally state that the information contained therein has been obtained from sources believed to be reliable. Each of VEB and the Issuer has relied on the accuracy of the information from industry publications, surveys and forecasts without carrying out an independent verification thereof and cannot guarantee their accuracy or completeness. Each of VEB and the Issuer confirms that such third party information has been accurately reproduced and, as far as each of VEB and the Issuer is aware and is able to ascertain from information published by such third parties, no facts have been omitted from the information in this Base Prospectus that would render it inaccurate or misleading.

In addition, VEB has made statements in this Base Prospectus regarding the Russian banking industry and its position in this industry based on VEB's own experience and investigation of market conditions. VEB cannot assure you that any of its assumptions are accurate or correctly reflect its position in the industry, and its statements have not been verified by any independent sources.

The language of this Base Prospectus is English. Certain legislative references and technical terms have been cited in their original language in order that the correct technical meaning may be ascribed to them under applicable law.

FORWARD-LOOKING STATEMENTS

Certain statements in this Base Prospectus are not historical facts and constitute “forward-looking statements” within the meaning of Section 27A of the Securities Act and Section 21E of the Exchange Act. Forward-looking statements are identified by words such as “believes”, “anticipates”, “expects”, “estimates”, “intends”, “plans”, “will”, “may” and other similar expressions, but these expressions are not the exclusive means of identifying such statements. Forward-looking statements appear, without limitation, under the headings “*Overview of VEB*”, “*Risk Factors*”, “*Management’s Discussion and Analysis of Financial Condition and Results of Operations*” and “*Description of VEB’s Business*”. VEB may from time to time make written or oral forward-looking statements in its annual reports and in other communications. Examples of such forward-looking statements include, but are not limited to:

- statements of VEB’s plans, objectives or goals, including those related to its strategy, products or services;
- statements of future economic performance;
- statements of general economic developments in the Russian Federation or other countries in which VEB operates; and
- statements of assumptions underlying such statements.

Forward-looking statements that may be made by VEB from time to time (but that are not included in this Base Prospectus) may also include projections or expectations of revenues, income (or loss), earnings (or loss) per share, dividends, capital structure or other financial items or ratios.

By their very nature, forward-looking statements involve inherent risks and uncertainties, both general and specific, and risks exist that the predictions, forecasts, projections and other forward-looking statements will not be achieved. Prospective investors should be aware that a number of important factors could cause actual results to differ materially from the plans, objectives, expectations, estimates and intentions expressed in such forward-looking statements. These factors include:

- the global financial crisis and its continuing impact on the global and Russian economies and financial markets;
- the challenging conditions in the global and Russian economies, including the Russian banking sector;
- declines in value and increased volatility in global and Russian securities markets and the resulting impact on borrowing costs and VEB’s ability to issue securities or otherwise secure funds to meet its liquidity needs;
- fluctuations in prices of securities issued by Russian entities and of oil, gas, precious metals and other commodities;
- the impact, or lack thereof, of measures which the Russian Government has enacted or may enact in the future to support the Russian economy in general and the Russian banking sector in particular;
- inflation, interest rate and exchange rate fluctuations in the Russian Federation;
- the effects of, and changes in, the policies of the Russian Government and regulations promulgated by the CBR;
- the governmental policy with respect to state corporations in general and VEB in particular;
- the effects of competition in the geographic and business areas in which VEB conducts its operations and VEB’s expansion into various other geographic and business areas;
- the effects of changes in laws, regulations, taxation or accounting standards or practices in the jurisdictions where VEB conducts its operations;

- the ability of VEB to increase market share for its products and services and control expenses;
- acquisitions or divestitures;
- technological changes; and
- the success of VEB at managing the risks associated with the aforementioned factors.

This list of important factors is not exhaustive. When considering forward-looking statements, prospective investors should also carefully consider the foregoing factors and other uncertainties and events, especially in light of the political, economic, social and legal environment in which VEB operates. Such forward-looking statements speak only as at the date on which they are made, and are not subject to any continuing obligations under the listing guidelines of the Irish Stock Exchange. Accordingly, VEB does not undertake any obligation to update or revise any of them, whether as a result of new information, future events or otherwise. VEB does not make any representation, warranty or prediction that the results anticipated by such forward-looking statements will be achieved, and such forward-looking statements represent, in each case, only one of many possible scenarios and should not be viewed as the most likely or standard scenario.

OVERVIEW OF VEB

This overview must be read as an introduction to this Base Prospectus and any decision to invest in Notes should be based on a consideration of the Base Prospectus as a whole.

GENERAL DESCRIPTION OF VEB

VEB is a state corporation established pursuant to the laws of the Russian Federation. Its status, business purposes, functions and powers are governed by the Development Bank Law and the 2007 Memorandum, whilst certain of its activities, such as its recovery finance activities, are generally governed by the Financial System Support Law and other Russian federal laws and regulations. VEB operates principally in four capacities: (i) as a development bank; (ii) as one of the key state-owned vehicles for the stabilisation of the Russian economy and financial system (although, as at the date of this Base Prospectus, no new recovery finance is being provided); (iii) as an agent of the Russian Government, including, in particular, in respect of the management of debt obligations of the Russian Government and the former Soviet Union, as well as foreign financial assets comprising obligations owed to the Russian Federation by debtor countries and other borrowers, and the management of certain pension funds through State Trust Management Company (“**STMC**”), a separate division of VEB, which is segregated from VEB’s banking and other operations; and (iv) as a universal depositary in the Russian Federation. Under the Development Bank Law, VEB is authorised to conduct banking operations without a licence from the CBR and is generally not required to comply with regulatory requirements of the CBR applicable to commercial banks. See “*Status as a State Corporation and Related Regulatory Environment—Legal and Regulatory Framework*”. Since late 2009, as the Russian economy has shown signs of improvement, VEB has ceased to provide new recovery finance and has focused on its development bank activities. VEB expects that the focus on its development bank activities will continue at least in the near to medium term.

VEB has four banking subsidiaries in the Russian Federation (SME Bank, ROSEXIMBANK, Sviaz-Bank and GLOBEXBANK), one in Belarus (Bank BelVEB) and one in Ukraine (Prominvestbank). Other significant subsidiaries include: (i) VEB Capital, the principal activities of which include holding and managing certain of VEB’s investment assets, conducting operations on the Russian financial markets and providing financial advisory services, including, in particular, arranging and placing mortgage-backed bonds; (ii) VEB-Leasing, the principal activities of which include finance leasing of high-technology equipment, helicopters and related equipment to lessees in the Russian Federation; (iii) VEB Engineering, which is primarily engaged in the provision of engineering support for investment projects currently being implemented or financed by VEB, which include, in particular, those relating to the 2014 Winter Olympics; (iv) FCPF, which is primarily engaged in VEB’s programme of providing financial assistance for the implementation of projects aimed at regional and urban development in Russia with the participation of regional and municipal authorities; (v) NCDC, whose principal activities include supporting investment projects implemented (or to be implemented) in the North Caucasus and advising regional authorities in connection therewith; (vi) EXIAR, whose principal activity is to promote the Russian export market by providing credit insurance and guarantees to Russian exporters with the support of the State; (vii) Far East and Baikal Region Development Fund, which focuses on promoting investment projects in the Far East and the Baikal regions of the Russian Federation; (viii) Russian Direct Investments Fund (“**RDIF**”), a long-term investment mutual fund, which is managed by RDIF Management Company; (ix) RDIF Management Company, whose principal objective is fostering of the environment that encourages foreign investments in different sectors of the Russian economy, including energy, healthcare, agriculture and logistics); (x) CJSC “Kraslesinvest” (“**Kraslesinvest**”), whose principal activity is construction of a timber processing complex in the Krasnoyarsk region of the Russian Federation; and (xi) two closed-end mutual hedge funds, MRIF and MRIF-II, which serve as principal vehicles for VEB’s investments in the Macquarie Russia & CIS Infrastructure Fund. See “*Description of VEB’s Business—Principal Subsidiaries and Associates*”.

As the principal development bank of the Russian Federation, one of VEB’s principal functions is to increase the competitiveness and diversification of the Russian economy, in particular, by promoting investment activity in sectors that are of strategic importance to the Russian Government. VEB acts as a lender, investor, guarantor, manager, arranger and consultant in connection with its development bank activities. VEB’s core operations, investment and financial priorities, borrower limits and underlying principles for financing activities as the principal development bank of the Russian Federation are principally set forth in the Development Bank Law and the 2007 Memorandum. As a development bank, VEB does not compete with commercial lending and financial institutions in providing finance to customers; rather, pursuant to the 2007 Memorandum, VEB gives preference to investment projects such as infrastructure projects and projects focusing on technological and

industrial innovation, which are not typically eligible for financing on terms acceptable to commercial banks and other non-specialist market investors. See *“Description of VEB’s Business—VEB as the Development Bank of the Russian Federation”*.

From October 2008 into 2010, VEB was also actively involved, pursuant to the Financial System Support Law and related decisions of VEB’s Supervisory Board, in addressing the effects of the global financial crisis on the Russian economy. As one of the key state-owned vehicles for the stabilisation of the Russian economy and financial system during the global financial crisis, VEB provided recovery finance to Russian banks and corporate entities suffering from the effects of the economic turmoil. As part of its recovery finance activities in support of the financial sector, VEB acquired a 90.0% interest in Sviaz-Bank in 2008, which was gradually increased to 99.5% in 2009, and a 98.9% interest in GLOBEXBANK in 2009, which was gradually increased to 99.2% in 2010 and to 99.99% in 2011. At the time of VEB’s initial acquisitions of these banks, both Sviaz-Bank and GLOBEXBANK were in a distressed financial condition as a result of the global financial crisis. See *“Description of VEB’s Business—Key State-owned Vehicle for the Stabilisation of the Russian Economy and Financial System”*. As the Russian economy has shown signs of improvement, although a number of VEB’s recovery finance programmes continue to remain in effect, VEB has ceased to provide new recovery finance and reduced its exposure to borrowers who had received recovery finance pursuant to programmes established by VEB under the Financial System Support Law.

As an agent of the Russian Government, VEB manages debt obligations of the Russian Federation and the former Soviet Union, as well as foreign financial assets comprising debt obligations owed to the Russian Federation by sovereign states, financial institutions and commercial entities. In this capacity, its responsibilities include record-keeping, reconciliation, settlement and redemption activities. See *“Description of VEB’s Business—VEB as Agent for the Russian Government”*. In addition, STMC is responsible for managing the pension savings of insured Russian citizens, who have not transferred their savings to private pension funds or private asset management companies, as well as those who have selected VEB as their pension fund manager. STMC is also responsible for managing the payout reserve of the State Pension Fund. See *“Description of VEB’s Business—VEB as Agent for the Russian Government—Pension Funds Management (STMC)”*.

VEB acts as a universal depositary for a broad range of Russian and foreign securities. In this capacity, VEB delivers a range of depositary, settlement, information and custody services for investors and professional participants in the Russian and foreign securities markets. See *“Description of VEB’s Business—Depositary Operations”*.

VEB continues to receive the largest portion of its funding: (i) from the Russian Government in the form of capital contributions, which may be utilised for all general corporate purposes; and (ii) from the CBR and the Russian Government (principally using funds of the NWF) in the form of term deposits, which may be applied only in specific financing programmes. As at 30 June 2013, VEB had charter capital of RUB 382,571 million and additional paid-in capital of RUB 139,600 million, which comprised contributions of cash and assets from the Russian Government, and VEB held deposits from the CBR and the Russian Government (principally comprising funds of the NWF) totalling RUB 239,052 million (as compared to RUB 303,075 million as at 31 December 2012) and RUB 664,709 million (as compared to RUB 641,196 million as at 31 December 2012), respectively. As at 30 June 2013, total funding from the Russian Government and the CBR as a percentage of VEB’s total equity and liabilities was 32.5% (as compared to 33.6% as at 31 December 2012). See *“Certain Statistical Data and Other Information—Sources of Funding—Amounts Due the CBR”*. VEB also raises funds through the issuance of bonds and other securities in the domestic and international capital markets, as well as pursuant to bilateral and syndicated loans, in each case, in Roubles and foreign currencies, principally U.S. Dollars. See *“Management’s Discussion and Analysis of Financial Condition and Results of Operation—Liquidity and Capital Resources”*. Although VEB is not permitted to accept deposits from individual investors, VEB holds some retail deposits inherited as successor to Vnesheconombank of the USSR and some retail deposits through its banking subsidiaries. See *“Status as a State Corporation and Related Regulatory Environment”*.

VEB operates out of its principal office in Moscow, seven representative offices within the Russian Federation and 10 representative offices outside the Russian Federation (in the United States of America, India (two), Switzerland, Italy, China, the Republic of South Africa, Germany, France and the United Kingdom).

VEB prepares its consolidated financial statements in accordance with IFRS. As at 30 June 2013, VEB had total assets of RUB 3,122,628 million and total net loans (defined as the sum of amounts due from credit institutions and loans to customers, in each case, less allowance for impairment) of RUB 2,162,857 million, whilst VEB had

net interest income of RUB 46,672 million and net income of RUB 824 million for the six months ended 30 June 2013.

VEB AS A STATE CORPORATION AND RELATIONSHIP WITH THE RUSSIAN GOVERNMENT

VEB is a state corporation, which is a specific form of legal entity under Russian law. As a state corporation, VEB is a non-commercial organisation with no shareholders. VEB's charter capital comprises funds and other property contributed by the Russian Federation. See "*Status as a State Corporation and Related Regulatory Environment—Charter Capital*". State corporations are established to pursue defined objectives for the public's benefit and are assigned specific functions that determine the scope of their business activities and powers. Accordingly, state corporations are permitted to engage in commercial activity only to the extent that such activity is consistent with their purposes and contributes to the accomplishment of their specific goals. See "*Risk Factors—Risks related to VEB's Business and Industry—VEB is fully controlled by the Russian Government, which, accordingly, has the ability to require VEB to pursue certain activities that may expose VEB to significant risks and that may not generate profit*". Moreover, as a state corporation, VEB is not governed by standard Russian commercial banking laws and regulations and is instead subject to laws and regulations specific to it, including, in particular, the Development Bank Law and the 2007 Memorandum, and VEB is not required to be licensed by the CBR and is not subject to regulatory oversight by the CBR.

The Russian Government determines the core business areas and principal policies of VEB, which, as at the date of this Base Prospectus, are defined in the Development Bank Law and the 2007 Memorandum, whilst certain of VEB's activities are governed by the Financial System Support Law and other Russian federal laws and regulations. Under the 2007 Memorandum, although VEB's activities are expected to be commercially viable, the generation of profit is not a primary objective for VEB and VEB may engage in entrepreneurial activities only to the extent such activities help to achieve its defined business and policy objectives.

The Russian Government has the right to appoint and dismiss the members of VEB's Supervisory Board. The Chairman of VEB's Supervisory Board is the Prime Minister of the Russian Federation (currently Dmitry Medvedev), whilst the remaining eight members are appointed by the Russian Government and include the Chairman of VEB (currently Vladimir Dmitriev), who is *ex officio* a member of the Supervisory Board and of the Management Board. The Chairman of VEB is appointed by the President of the Russian Federation upon the recommendation of the Prime Minister. The other members of the Management Board are, in turn, appointed by the Supervisory Board from among VEB's employees based on recommendations of the Chairman of VEB. Accordingly, the Russian Government has substantial control over VEB's management. Through this control, VEB is, in effect, largely an agent of the Russian Government, although federal, regional and municipal authorities are generally prohibited from intervening in VEB's day-to-day business operations to try to influence the manner in which it realises its purposes.

STRATEGY

VEB has four principal strategic objectives:

- to act as the principal development bank of the Russian Federation;
- to act as one of the key state-owned vehicles for the stabilisation of the Russian economy and financial system through the provision of recovery finance to Russian banks, financial institutions and corporates, although, as at the date of this Base Prospectus, no new recovery finance is being provided;
- to act as an agent of the Russian Government, including, in particular, in respect of the management of debt obligations of the Russian Federation and the former Soviet Union, as well as foreign financial assets comprising debt obligations owed to the Russian Federation by sovereign states, financial institutions and commercial entities and the management of certain pension funds through STMC; and
- to act as a universal depositary in the Russian Federation.

In addition, to facilitate the achievement of these principal strategic objectives, VEB intends to continue to improve its institutional structure and corporate organisation and develop its internal decision-making policies and procedures.

RISK FACTORS

An investment in the Notes involves a high degree of risk. For a detailed discussion of the risks and other factors to be considered when making an investment decision with respect to Notes issued under the Programme, see “*Risk Factors*” and “*Forward-Looking Statements*”.

USE OF PROCEEDS

The gross proceeds from each offering of a Series of Notes will be used by the Issuer for the sole purpose of financing the corresponding Loan to VEB and, if applicable, any corresponding Swap Agreement(s). The gross proceeds of such Loan will be used by VEB for general corporate purposes (unless otherwise specified in the relevant Loan Agreement). In connection with the receipt of each Loan, VEB will pay an arrangement fee to the Issuer (including the costs of the Issuer entering into any applicable Swap Agreement(s)), as reflected in the relevant Loan Supplement, Final Terms or the Series Prospectus, as the case may be.

CAPITALISATION

In accordance with the Development Bank Law, VEB's charter capital is formed from: (i) assets of Vnesheconombank of the USSR; (ii) the shares of SME Bank, ROSEXIMBANK and FCPF previously owned by the Russian Government; and (iii) other assets contributed by the Russian Government. The following table sets forth VEB's consolidated capitalisation as at 30 June 2013, which has been derived from the Interim Financial Statements as at 30 June 2013. For further information regarding VEB's financial condition, see "Management's Discussion and Analysis of Financial Condition and Results of Operations" and the IFRS Financial Statements included elsewhere in this Base Prospectus.

	As at 30 June 2013 (unaudited)	
	<i>(U.S.\$ millions)⁽¹⁾</i>	<i>(RUB millions)</i>
Long-term debt⁽²⁾		
Senior long-term debt	40,870	1,338,669
Total long-term debt	40,870	1,338,669
Equity		
Charter capital	11,696	382,571
Additional paid-in capital	4,268	139,600
Retained earnings	1,446	47,306
Unrealised gains / (losses) on investment securities available-for-sale	630	20,606
Foreign currency translation reserve	56	1,837
Equity attributable to the Russian Government	18,097	591,920
Minority interest	232	7,579
Total equity	18,328	599,499
Total capitalisation	59,198	1,938,168

Notes:

- (1) For convenience, these figures have been translated into U.S.\$ at the RUB/U.S.\$ exchange rate published by the CBR in effect as at 30 June 2013, which was RUB 32.7090 per U.S.\$1.00. Such translation is not reflective of a translation in accordance with IFRS and it should not be construed as a representation that the Rouble amounts have been or could be converted into U.S. Dollars at this rate or any other rate.
- (2) Long-term debt includes only amounts due to credit institutions, due to the Russian Government and the CBR and debt securities issued, all with remaining contractual maturities of over one year.

Except as described below, there have been no material changes in VEB's capitalisation since 30 June 2013.

Since 30 June 2013, VEB has incurred the following long-term debt:

- In July 2013, VEB placed on the Moscow Exchange RUB 20,000 million exchange bonds series BO-1 due in 2016.
- In July 2013, VEB received a five-year U.S.\$230 million floating interest loan from a syndicate of banks to provide financing of construction of a sports facility.
- In July 2013, VEB received a RUB 50,000 million loan due in 2014 from the CBR.
- In August 2013, SME Bank issued two series (RUB 3,000 million each) of non-convertible interest-bearing documented bearer exchange bonds (Series BO-01 and BO-02) due 2016.
- In October 2013, VEB placed on the Moscow Exchange RUB 10,000 million exchange bonds series BO-14 due in 2018.

SELECTED CONSOLIDATED FINANCIAL INFORMATION

VEB's selected financial information presented below has been prepared in accordance with IFRS and derived from the IFRS Financial Statements included elsewhere in this Base Prospectus and should be read in conjunction with such IFRS Financial Statements and with "Management's Discussion and Analysis of Financial Condition and Results of Operations".

Return on average total assets ⁽³⁾	0.1%	1.7%	0.7%	0.3%	1.4%
Liquidity Ratios:					
Loans to customers as a percentage of total assets ⁽⁴⁾	55.3%	51.3%	51.3%	48.5%	38.6%
Liquid assets ⁽⁵⁾ as a percentage of total assets.....	n/a	n/a	18.2%	17.0%	20.9%
Equity Ratios					
Capital adequacy ratio ⁽⁶⁾	10.9%	12.1%	10.9%	14.5%	20.1%
Single borrower (or group of related borrowers) exposure ⁽⁷⁾	82.9%	83.2%	89.0%	75.1%	76.8%
Maximum exposure to large credit risk ⁽⁸⁾	533.3%	550.2%	584.3%	480.1%	355.8%

Notes:

- (1) Net interest margin is calculated as net interest income before provision for impairment of interest-earning assets divided by average interest-earning assets.
- (2) Operating expenses include non-interest expenses less expenses on goodwill write off and provision for other impairment.
- (3) Return on average total assets is calculated as net income for the year divided by average total assets.
- (4) Loans to customers as a percentage of total assets are calculated as total loans to customers net of allowance divided by total assets.
- (5) Liquid assets include cash and cash equivalents in a full amount and financial assets at fair value through profit or loss, trading securities pledged under repurchase agreements, investment securities and investment securities pledged under repurchase agreements, all with remaining contractual maturities of less than one month.
- (6) Capital adequacy ratio is computed based on Russian accounting data of VEB, excluding subsidiaries
- (7) Pursuant to the 2007 Memorandum, VEB's exposure, at any one time, to a single borrower, or a group of related borrowers, may not exceed 25% of VEB's total equity (for this purpose, total equity is calculated in accordance with non-consolidated Russian accounting standards). Mostly as part of VEB's recovery activities and as approved by VEB's Supervisory Board, VEB made an exception from this rule for four borrowers, two of which are state-controlled and one of which is an associate of VEB. The ratio is computed based on Russian accounting data of VEB, excluding subsidiaries.
- (8) Pursuant to the 2007 Memorandum, VEB's exposure to large credit risks (a loan or loans to a borrower or group of related borrowers exceeding 5% of VEB's total equity) at any one time may not exceed 800% of VEB's total equity. For this purpose, total equity is calculated in accordance with Russian accounting standards. The ratio is computed based on Russian accounting data of VEB, excluding subsidiaries.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion of VEB's financial condition and results of operations should be read in conjunction with VEB's IFRS Financial Statements and the related notes thereto included elsewhere in this Base Prospectus. The statements in this section contain forward-looking statements, which involve risks and uncertainties. VEB's actual results may differ materially from those discussed in such forward-looking statements. Forward-looking statements speak only as at the date on which they are made and represent, in each case, only one of many possible scenarios, which should not be viewed as the most likely or standard scenario. The results anticipated by forward-looking statements will not necessarily be achieved, and such results may vary materially as a result of many factors, including, but not limited to, those described under "Risk Factors" and "Forward-Looking Statements". Given the related risks and uncertainties attaching to such statements, investors should not rely on forward-looking statements as a prediction of actual results.

OVERVIEW

VEB is a state corporation established pursuant to the laws of the Russian Federation. Its status, business purpose, functions, and powers are governed by the Development Bank Law, the Financial System Support Law, the 2007 Memorandum and other Russian federal laws and regulations. VEB operates principally in four capacities: (i) as a development bank; (ii) as one of the key state-owned vehicles for the stabilisation of the Russian economy and financial system (although, as at the date of this Base Prospectus, no new recovery finance is being provided); (iii) as an agent of the Russian Government, including, in particular, in respect of the management of debt obligations of the Russian Government and the former Soviet Union, as well as obligations owed to the Russian Federation by debtor countries and other borrowers, and the management of certain pension funds through STMC, a separate division of VEB, which is segregated from VEB's banking and other operations; and (iv) as a universal depository in the Russian Federation. Under the Development Bank Law, VEB is authorised to conduct banking operations without a licence from the CBR and is generally not required to comply with regulatory requirements of the CBR applicable to commercial banks. See "*Status as a State Corporation and Related Regulatory Environment—Legal and Regulatory Framework*". Since late 2009, as the Russian economy has shown signs of improvement, although a number of VEB's recovery finance programmes continue to remain in effect, VEB has focused on its development bank activities, ceased to provide new recovery finance and reduced its exposure to borrowers who had received recovery finance pursuant to programmes established by VEB under the Financial System Support Law. VEB expects that the focus on its development bank activities will continue at least in the near to medium term.

VEB has four banking subsidiaries in the Russian Federation (SME Bank, ROSEXIMBANK, Sviaz-Bank and GLOBEXBANK), one in Belarus (Bank BelVEB) and one in Ukraine (Prominvestbank). Other significant subsidiaries include: (i) VEB Capital, the principal activities of which include holding and managing certain of VEB's investment assets, conducting operations on the Russian financial markets and providing financial advisory services, including, in particular, arranging and placing mortgage-backed bonds; (ii) VEB-Leasing, the principal activities of which include finance leasing of high-technology equipment, helicopters and related equipment to lessees in the Russian Federation; (iii) VEB Engineering, which is primarily engaged in the provision of engineering support for investment projects currently being implemented or financed by VEB, which include, in particular, those relating to the 2014 Winter Olympics; (iv) FCPF, which is primarily engaged in VEB's programme of providing financial assistance for the implementation of projects aimed at regional and urban development in Russia with the participation of regional and municipal authorities; (v) NCDC, whose principal activities include supporting investment projects implemented (or to be implemented) in the North Caucasus and advising regional authorities in connection therewith; (vi) EXIAR, whose principal activity is to promote the Russian export market by providing credit insurance and guarantees to Russian exporters with the support of the State; (vii) Far East and Baikal Region Development Fund, which focuses on promoting investment projects in the Far East and the Baikal regions of the Russian Federation; (viii) RDIF, a long-term investment mutual fund, which is managed by RDIF Management Company; (ix) RDIF Management Company, whose principal objective is fostering of the environment that encourages foreign investments in different sectors of the Russian economy, including energy, healthcare, agriculture and logistics); (x) Kraslesinvest, whose principal activity is construction of a timber processing complex in the Krasnoyarsk region of the Russian Federation; and (xi) two closed-end mutual hedge funds, MRIF and MRIF-II, which serve as principal vehicles for VEB's investments in the Macquarie Russia & CIS Infrastructure Fund. See "*Description of VEB's Business—Principal Subsidiaries and Associates*".

As the principal development bank of the Russian Federation, one of VEB's main functions is to increase the competitiveness and diversification of the Russian economy, in particular, by promoting investment activity in sectors that are of strategic importance to the Russian Government. VEB acts as a lender, investor, guarantor,

manager, arranger and consultant in connection with its development bank activities. VEB's core operations, investment and financial priorities, borrower limits and underlying principles for financing activities as the principal development bank of the Russian Federation are principally set forth in the Development Bank Law and the 2007 Memorandum. As a development bank, VEB does not compete with commercial lending and financial institutions in providing finance to customers; rather, pursuant to the 2007 Memorandum, VEB gives preference to investment projects, such as infrastructure projects and projects focusing on technological and industrial innovation, which are not typically eligible for financing on terms acceptable to commercial banks and other non-specialist market investors. See *"Description of VEB's Business—VEB as the Development Bank of the Russian Federation"*.

From October 2008 into 2010, VEB was also actively involved, pursuant to the Financial System Support Law and related decisions of VEB's Supervisory Board, in addressing the effects of the global financial crisis on the Russian economy. As one of the key state-owned vehicles for the stabilisation of the Russian economy and financial system during the global financial crisis, VEB provided recovery finance to Russian banks and corporate entities suffering from the effects of the recent economic turmoil. As part of its recovery finance activities in support of the financial sector, VEB acquired a 90.0% interest in Sviaz-Bank in 2008, which was gradually increased to 99.5% in 2009, and a 98.9% interest in GLOBEXBANK in 2009, which was gradually increased to 99.2% in 2010 and to 99.99% in 2011. At the time of VEB's initial acquisitions thereof, both Sviaz-Bank and GLOBEXBANK were in a distressed financial condition as a result of the global financial crisis. See *"Description of VEB's Business—Key State-owned Vehicle for the Stabilisation of the Russian Economy and Financial System"*. Although a number of VEB's recovery finance programmes continue to remain in effect, as the Russian economy has shown signs of improvement, VEB has ceased to provide new recovery finance and also reduced its exposure to borrowers who had received recovery finance pursuant to programmes established by VEB under the Financial System Support Law.

As an agent of the Russian Government, VEB manages debt obligations of the Russian Federation and the former Soviet Union, as well as debt obligations owed to the Russian Federation by sovereign states, financial institutions and commercial entities. In this capacity, its responsibilities include record-keeping, reconciliation and settlement activities. See *"Description of VEB's Business—VEB as Agent for the Russian Government"*. In addition, STMC is responsible for managing the pension savings of insured Russian citizens, who have not transferred their savings to private pension funds or private asset management companies, as well as those who have selected VEB as their pension fund manager. STMC is also responsible for managing the payout reserve of the State Pension Fund. See *"Description of VEB's Business—VEB as Agent for the Russian Government—Pension Funds Management (STMC)"*.

VEB acts as a universal depository for a broad range of Russian and foreign securities. In this capacity, VEB delivers a range of depository, settlement, information and custody services for investors and professional participants in the Russian and foreign securities markets. See *"Description of VEB's Business—Depository Operations"*.

VEB operates out of its principal office in Moscow, seven representative offices within the Russian Federation (in St. Petersburg, Khabarovsk, Krasnoyarsk, Pyatigorsk, Ekaterinburg, Rostov-on-Don and Nizhny Novgorod) and 10 representative offices outside the Russian Federation (in the United States of America, France, India (two), Switzerland, Italy, China, the Republic of South Africa, Germany and the United Kingdom).

VEB prepares its consolidated financial statements in accordance with IFRS. As at 30 June 2013, VEB had total assets of RUB 3,122,628 million and total net loans (defined as the sum of amounts due from credit institutions and loans to customers, in each case, less allowance for impairment) of RUB 2,162,857 million, whilst VEB had net interest income of RUB 46,672 million and net income of RUB 824 million for the six months ended 30 June 2013.

VEB continues to receive the largest portion of its funding: (i) from the Russian Government in the form of capital contributions, which may be utilised for all general corporate purposes; and (ii) from the CBR and the Russian Government (principally using funds of the NWF) in the form of term deposits, which may be applied only in specific financing programmes. As at 30 June 2013, VEB had charter capital of RUB 382,571 million and additional paid-in capital of RUB 139,600 million, which comprised contributions of cash and assets from the Russian Government, and VEB held deposits from the CBR and the Russian Government (principally comprising funds of the NWF) totalling RUB 239,052 million (as compared to RUB 303,075 million as at 31 December 2012) and RUB 664,709 million (as compared to RUB 641,196 million as at 31 December 2012), respectively. As at 30 June 2013, total funding from the Russian Government and the CBR as a percentage of VEB's total equity and liabilities was 32.5% (as compared to 33.6% as at 31 December 2012). VEB also raises funds through the issuance of bonds and other securities in the domestic and international capital markets, as

well as pursuant to bilateral and syndicated loans, in each case, in Roubles and foreign currencies, principally U.S. Dollars. See “—*Liquidity and Capital Resources*”. Although VEB is not permitted to accept deposits from individual investors, VEB holds some retail deposits inherited as successor to Vnesheconombank of the USSR and some retail deposits through its banking subsidiaries. See “*Status as a State Corporation and Related Regulatory Environment*”.

RECENT DEVELOPMENTS

In July 2013, VEB paid U.S.\$6 million consideration for 5,043,413 newly issued shares of Prominvestbank.

In July 2013, GLOBEXBANK increased its interest in RGI by acquiring 36,000,000 ordinary shares of RGI for a total consideration of U.S.\$105 million (bringing its interest in the equity of RGI to 73.4%).

In July 2013, VEB became an owner of 85% of the charter capital of LLC “Resad”.

In July 2013, VEB purchased 4,000,000 newly issued shares of NCDC for RUB 4,000 million. VEB’s share in the equity of NCDC remained 100%.

In July 2013, VEB placed on the Moscow Exchange RUB 20,000 million exchange bonds series BO-1 due in 2016.

In July 2013, a bank subsidiary of VEB repaid RUB 5,000 million on Rouble-denominated exchange bonds series BO-2 in accordance with the original conditions of the issue.

In July 2013, VEB received a five-year U.S.\$230 million floating rate loan from a syndicate of banks to provide financing for the construction of a sports facility.

In July 2013, VEB received a RUB 50,000 million loan due in 2014 from the CBR.

In July 2013, VEB signed a memorandum of understanding to cooperate in support of private equity investments with Adams Street Partners, LLC and agreed to consider participation in a fund of funds dedicated to the financing of Russian private equity funds.

In August 2013, the Russian Government contributed to the charter capital of VEB 35,933,333 ordinary shares in the international and domestic long-distance electrical communication operator OJSC “Rostelecom”, representing approximately 1.22% of its charter capital, on the basis of Resolution of the Russian Government No. 670-r dated 2 May 2012.

In August 2013, VEB signed Additional Agreement No.4 to the Agreement with the Russian Ministry of Finance On Performance of Functions of Agent for the Russian Government, dated 25 December 2009. The amendment regulates the fulfilment of agent functions by VEB in 2013.

In August 2013, SME Bank issued two series (RUB 3,000 million each) of non-convertible interest-bearing documented bearer exchange bonds (Series BO-01 and BO-02) due 2016.

In September and October 2013, VEB extended the term of its RUB 123 million interest-bearing deposits from the CBR for one year until September and October 2014, respectively.

In October 2013, VEB placed on the Moscow Exchange RUB 10,000 million exchange bonds series BO-14 due in 2018.

In October 2013, VEB purchased 542 newly issued shares of SME Bank for RUB 542 million. VEB’s share in the equity of SME Bank remained 100%.

In October 2013, VEB capitalised its wholly-owned subsidiary, VEB Asia Limited, with U.S.\$30 million.

PRIMARY FACTORS AFFECTING VEB’S RESULTS OF OPERATIONS AND CAPITAL STRUCTURE

The primary factors that have affected VEB’s results of operations during the six months ended 30 June 2013 and the three years ended 31 December 2012, and that can be expected to affect VEB’s results of operations in the future, include: (i) the current conditions characterising the Russian and international economies and

financial systems, including, without limitation, the effects of the global financial crisis and subsequent developments in the Russian and international economies; (ii) changes in the mix of business activities conducted by VEB, particularly reflecting VEB focusing on its core development bank activities as the global financial crisis has eased and the Russian economy has shown signs of improvement such that VEB has ceased to provide new recovery finance and reduced its exposure to borrowers who had received recovery finance pursuant to the programmes established by VEB under the Financial System Support Law; (iii) the overall growth of VEB's assets and liabilities, including as a result of its acquisition of a number of banking subsidiaries in the Russian Federation and other CIS countries, as well as other business, such as FCPF, NCDC, RDIF Management Company, EXIAR, Far East and Baikal Region Development Fund, RDIF, MRIF and MRIF-II; (iv) fluctuations in the value and composition of VEB's securities portfolio, including as a result of decisions to acquire strategic stakes in certain key Russian companies, such as OJSC "Gazprom"; and (v) the impact of the interest rate and exchange rate environment in which VEB operates.

The Russian and International Economies and Financial Systems

The majority of VEB's assets and investments are located in the Russian Federation. As a result, VEB is substantially affected by Russian economic conditions. See "*Risk Factors—Risks Relating to the Russian Federation*". The Russian economy was severely impacted by the weak global economic conditions and turmoil in the global financial markets. The Russian Federation's economy is to a significant degree dependent on exports of key commodities, such as oil, gas, various metals and other raw materials. Dramatic falls in the prices of these commodities in the international market in the second half of 2008 resulted in sharp decreases in the revenues of the Russian Government and of privately held Russian companies operating in these sectors, which, in turn, had a severely negative effect on the overall Russian economy. In particular, world prices for oil have been and are characterised by significant fluctuations that are determined by the global balance of supply and demand. Whilst, as compared to prices in December 2008, oil prices increased overall from 2009 to 2012, in part due to the turmoil in the Middle East, as at the date of this Base Prospectus, the price of crude oil remains significantly below the record high prices of U.S.\$145 per barrel in July 2008.

The global economic crisis had a significant negative effect on the Russian economy in 2008-2009. As the effects of the global financial crisis eased, Russian and international capital markets and economies began a general recovery in 2010, resulting in growth in the Russian economy by 4.3%, 4.3%, 3.4% and 1.4% in 2010, 2011, 2012 and the six months ended 30 June 2013, respectively, according to Rosstat. Net exports (being the value of total exports less total imports) also increased in 2010 and 2011, although the Russian economy experienced a significant capital outflow in 2010, 2011 and 2012. According to the CBR, net exports increased by 33.9% in 2011 and by 29.8% in 2010, in each case resulting largely from a recovery in prices for export commodities (primarily oil and natural gas), despite increasing imports. In 2012 and during the six months ended 30 June 2013, this trend reversed and net exports decreased by 2.3% and 15.5%, respectively, while capital outflow remained strong.

VEB's role during the financial crisis as one of the key state-owned vehicles for the stabilisation of the Russian economy led to significant growth in VEB's lending volumes and net interest income. This growth, however, also increased the volume of bad debts carried by VEB and required VEB to make significant additional provisions. In addition, for the most part upon the request of VEB's Supervisory Board, initially as a part of its recovery finance activities, but thereafter for strategic and liquidity management purposes, VEB has acquired shares in certain Russian entities considered to have strategic importance for the Russian economy. For example, in late 2010, VEB acquired a 2.7% stake in OJSC "Gazprom" for a purchase price of approximately U.S.\$3,500 million. See "*Description of VEB's Business—Key State-owned Vehicle for the Stabilisation of the Russian Economy and Financial System—Recovery Finance—Equity Investments*" and "*Description of VEB's Business—Securities Markets and Treasury Operations*". VEB recorded significant negative fair value revaluations following its acquisitions of certain of these investments. The Russian securities market has been significantly impacted by the global financial crisis and its long-term consequences, including continued sluggish economic activity and the Sovereign debt crisis in Europe. While securities prices have generally recovered from their depressed levels in late 2008 and early 2009, the continuing of the debt crisis in Europe has resulted in a general weakening in the Russian securities markets in 2012 and the six months ended 30 June 2013, which, could, in turn, result in losses to VEB on its investment assets. See "*—Fluctuations in the Value of Securities*" below.

In addition, if market conditions fail to improve, VEB's cost of funding may be adversely affected in the future, which may, in turn, negatively impact VEB's net interest margin. See "*—Fluctuations in Interest Rates and Exchange Rates*" below and "*Risk Factors—Risks Related to VEB's Business and Industry—VEB is subject to interest rate risk*".

Moreover, many of VEB's existing borrowers continue to be adversely affected by global economic volatility. Factors, including increased unemployment, reduced corporate liquidity and profitability and increased corporate insolvencies, have affected and continue to affect access to and the cost of capital for certain of VEB's borrowers, which, in turn, may affect their ability to repay amounts due to VEB. These factors have resulted and continue to result in VEB having to fulfil obligations under guarantees issued by it in favour of third parties upon failure to perform by the underlying counterparty. In addition, changes in economic conditions resulted in deterioration in the value of collateral held against loans and other obligations. As a result of all of the foregoing, VEB made a significant allowance for impairment of loans in 2009, including principally in respect of loans held by VEB's banking subsidiaries, and took additional allowances for impairment in 2010, 2011, 2012 and during the six months ended 30 June 2013. See "*Changes in the Mix of Business Activities*". VEB may be required to make additional allowances in the future.

Changes in the Mix of Business Activities

VEB was established in 2007 as the principal development bank in the Russian Federation and initially its activities were focused on providing financial support to investment projects in circumstances where commercial lending and financial institutions were unable or unwilling to provide finance. See "*Description of VEB's Business—VEB as the Development Bank of the Russian Federation*". In 2008, VEB's principal business objectives were expanded to include acting as one of the key state-owned vehicles for the stabilisation of the Russian economy and financial system in accordance with the Financial System Support Law. See "*Description of VEB's Business—Key State-owned Vehicle for the Stabilisation of the Russian Economy and Financial System*". In this expanded role, in 2008 and 2009, VEB provided significant recovery finance to Russian banks and corporate entities suffering from the effects of the economic turmoil and supported the Russian securities markets by purchasing significant equity and debt positions. Since late 2009, as the global financial crisis eased and the Russian economy began to show signs of improvement, VEB has focused on its core development bank activities, while ceasing to provide new recovery finance and reducing its exposure to borrowers who had received recovery finance pursuant to programmes established by VEB under the Financial System Support Law. This shift in the focus of VEB's activities in 2009 through the date of this Base Prospectus has resulted in different areas of growth, changes in VEB's asset concentrations and revenue drivers and variations in VEB's risk profile, on a period-to-period basis, and is expected to continue to affect the nature and rate of VEB's growth and its overall results in the near to medium term.

Since late 2009, the composition of VEB's loan portfolio has increasingly shifted toward development bank finance, as VEB has ceased to provide recovery finance and reduced its exposure to borrowers who had received recovery finance pursuant to programmes established by VEB under the Financial System Support Law, and VEB expects this trend to continue. By their nature, VEB's recovery finance loans tended to be characterised by a higher credit quality than VEB's ordinary course development bank loans. In the course of VEB's development bank activities, VEB gives preference to investment projects, such as infrastructure projects, which are not typically eligible for financing on terms acceptable to commercial banks and other non-specialist market investors. Furthermore, loans and investments made by VEB in the course of its development bank activities often involve relatively large principal amounts, have longer-term maturities, are not secured by liquid collateral and are extended at preferential rates, all of which make these activities of relatively high risk and low return. Allowance for impairment of total loans was RUB 215,317 million as at 30 June 2013, representing 9.1% of VEB's total loans as at 30 June 2013, as compared to RUB 194,165 million as at 31 December 2012, representing 9.1% of VEB's total loans as at 31 December 2012.

Overall Growth and Acquisitions

VEB's total assets have grown to RUB 3,122,628 million as at 30 June 2013 from RUB 2,919,100 million as at 31 December 2012, RUB 2,531,947 million as at 31 December 2011 and RUB 2,043,472 million as at 31 December 2010. The growth in VEB's total assets during the six months ended 30 June 2013, and in 2012 and 2011 was mainly driven by the significant increase in the loan portfolio as part of the overall growth of VEB and its continuing focus on its core development bank activities. The growth in VEB's total assets in 2010 was primarily a result of VEB's renewed focus on its core development bank activities and the related provision of significant financing for several large scale infrastructure and investment projects, as well as VEB's strategic investments in Russian banks and corporates.

A portion of VEB's historic growth has resulted from acquisitions. In particular, VEB acquired a 53.6% interest in Bank BelVEB in 2007, which was gradually increased to 97.52% between 2008 and 2012; a 50.0% interest plus one share in VEB-Leasing in 2008, which was gradually increased to 98.9627% between 2009 and 2011; a 90.0% interest in Sviaz-Bank in 2008, which was gradually increased to 99.5% in 2009; a 75.0% interest plus three shares in Prominvestbank in January 2009, which was gradually increased to 97.85% between 2009 and

2011, and to 98.6% in 2013; and a 98.9% interest in GLOBEXBANK in 2009, which was gradually increased to 99.99% between 2009 and 2011.

Whilst not material to VEB's total assets as at the date of this Base Prospectus, the acquisitions of Sviaz-Bank, Prominvestbank and GLOBEXBANK, in particular, have a significant impact on VEB's results of operations. During the six months ended 30 June 2013, and in the years ended 31 December 2012, 2011 and 2010, GLOBEXBANK and Sviaz-Bank contributed RUB 2,347 million and RUB 2,046 million, respectively, to the net income during the six months ended 30 June 2013, RUB 2,753 million and RUB 2,953 million, respectively, to the net income in the year ended 31 December 2012, RUB 71 million and RUB 1,845 million, respectively, to the net income in the year ended 31 December 2011, and RUB 859 million and RUB 1,008 million, respectively, to the net income in the year ended 31 December 2010. Management expects these entities to become growing contributors to VEB's consolidated net income in the near to medium term.

Fluctuations in the Value of Securities

The aggregate value of financial assets designated at fair value through profit or loss and investment securities held by VEB was RUB 560,186 million as at 30 June 2013 (as compared to RUB 610,933 million as at 31 December 2012). A large portion of VEB's securities portfolio was purchased at, or near, the lowest levels of the Russian stock market in late 2008 and early 2009 in connection with VEB's role as the key state-owned vehicle for the stabilisation of the Russian securities market. As the Russian stock market stabilised, and prices generally returned to pre-crisis levels or above, in 2010 VEB recorded a net gain of RUB 10,178 million on its securities portfolio reassessed at fair value through profit or loss and a net gain of RUB 13,129 million on its investment securities available for sale. As the markets became more volatile in 2011, VEB recorded a net loss of RUB 2,508 million on its securities portfolio reassessed at fair value through profit or loss and a net gain of RUB 10,130 million on its investment securities available-for-sale in that year. This trend continued in 2012 and during the six months ended 30 June 2013, as VEB recorded a net loss of RUB 6,116 million and RUB 225 million, respectively on its securities portfolio reassessed at fair value through profit or loss and a net gain of RUB 2,248 million and RUB 7,616 million, respectively, on its investment securities available-for-sale in that year. See "*—Results of Operations for the Six Months Ended 30 June 2013 and the Years Ended 31 December 2012, 2011 and 2010—Non-Interest Income—Gains Less Losses from Securities*".

As the Russian securities market continued to improve between January and April 2011, in line with its mandate to focus on development banking activities rather than securities trading and investment operations, VEB sold down many of its positions in the securities that it had previously acquired in connection with its role as the key state-owned vehicle for the stabilisation of the Russian securities market. The deep market downturn in August and September 2011, however, has, generally, negatively impacted the value of VEB's securities portfolio.

At the same time, pursuant to the decisions by VEB's Supervisory Board, initially as a part of its recovery finance activities, but thereafter for strategic and liquidity management purposes, VEB has acquired equity positions or other investment securities to provide liquidity to, or otherwise support the equity or financial position of, Russian companies, which acquisitions have contributed to growth in the aggregate size of VEB's securities portfolio. VEB considers these acquisitions to be strategic investments and intends to hold these securities in the longer term in line with its liquidity management policies and practices. See "*Description of VEB's Business—Securities Markets and Treasury Operations*" of the Base Prospectus. In addition, as at the date of this Base Prospectus, VEB intends to continue to hold the portfolio of bonds it acquired in connection with its liquidity management activities, and prior to that, in connection with its activities to support the Russian securities market. Accordingly, it is likely that, from time to time, VEB will maintain a significant portfolio of investment securities and, accordingly, will continue to experience fluctuations in the value of its securities portfolio in the future. As in the past, such fluctuations may have a direct impact on VEB's assets and liabilities and its results of operations and, in particular, a reversal in the improved prices of Russian securities or a general weakening in the Russian securities markets could result in further losses.

Fluctuations in Interest Rates and Exchange Rates

Changes in interest rates affect VEB's net interest income, net interest margin and overall results of operations.

During the height of the global financial crisis in 2008, as the primary source for recovery finance in the Russian Federation, VEB was able to impose relatively high interest rates in line with international funding rates and reflecting the overall illiquidity in the market, whilst its development bank lending activities, on which VEB has focused since late 2009, generally involve the provision of financing at lower rates.

Since its inception, VEB has generally been able to use its own capital, as well as relatively low-rate deposits from the CBR and the Russian Government (principally using funds of the NWF), to fund its business activities and, accordingly, has not incurred significant funding costs. An increase in interest rates may generally raise VEB's funding costs in the future and may have a negative impact on VEB's net interest margin. In addition, an increase in interest rates may reduce overall demand for new loans and increase the risk of customer defaults, as well as generally decrease the market value of fixed-rate debt securities held by VEB. The high-interest rate environment in late 2008 and early 2009 did result in lower values of certain fixed-rate debt securities held in VEB's investment portfolio. Moreover, although a significant portion of the financing provided by VEB has historically been matched in terms of funding by the Russian Government and the CBR, particularly in connection with its role as one of the key state-owned vehicles for the stabilisation of the Russian economy, from time to time, the maturities and pricing of VEB's assets and liabilities are not balanced. In particular, during 2010, the interest rates on the subordinated loans provided by VEB pursuant to the Financial System Support Law to Russian banks were reduced pursuant to 2010 amendments to the Financial System Support Law from 8.0% to 6.5% and from 9.5% to 7.5%, whilst the interest rates on the matching deposits received from the CBR were reduced by a smaller amount from 7.0% to 6.25% and 8.5% to 7.25%, resulting in a negative impact on net interest margin. VEB is exposed to interest rate risks resulting from mismatches between the rates it earns on its interest-earning assets and the rates it pays on its interest-bearing liabilities.

Interest rates are sensitive to many factors beyond VEB's control, including the policies of central banks, such as the CBR, adverse domestic and international economic conditions and political factors. General volatility in interest rates may result in a mismatch between VEB's interest-rate sensitive assets and liabilities. Since August 2007, there has been a period of unprecedented high and volatile inter-bank lending rates, which, together with a shortening maturity of deposits, has exacerbated the risk of such mismatches. Although volatility of inter-bank interest rates substantially decreased in 2010 due to excess liquidity, in the six months ended 30 June 2011, risks of liquidity shortages in the domestic financial markets during tax periods (being periods in which Russian companies are required to make payments in respect of their tax liabilities) emerged from time to time and became persistent in the second half of 2011, in 2012 and in the six months ended 30 June 2013. VEB has incurred, and may continue to incur, additional costs and has been exposed, and may continue to be exposed, to other risks arising from the need to adjust such asset and liability positions through the use of derivative instruments. To mitigate these risks, VEB intends to continue to diversify its funding sources by continuing to access the domestic and international capital markets and borrow under bilateral and syndicated loan facilities. To the extent that VEB's liabilities reprice significantly more frequently than its assets, if interest rates rise, VEB's interest expense will increase more rapidly than its interest income, which could negatively affect interest margins and results of operations and result in liquidity problems. Similarly, fluctuations in exchange rates impact VEB's financial condition and results of operation. VEB maintains open currency positions, which give rise to exchange risk. Although nearly all of VEB's assets and liabilities are match funded, as at the date of this Base Prospectus, VEB's exposure to exchange rate risk may increase, particularly as it continues to access international capital markets and foreign currency syndicated and bilateral lending markets. VEB's exposure to exchange rate risk depends on numerous factors beyond its control, such as overall market trading activity, interest rate levels, fluctuations in exchange rates, government actions and general market volatility.

During 2010 and the first half of 2011, the Rouble dynamics against the U.S. Dollar reversed with the exchange rate reaching 27.2625 RUB/U.S.\$ on 6 May 2011 (according to RUB/U.S.\$ exchange rates published by the CBR). Exchange rates were further affected by events such as investors becoming more risk averse and withdrawing their funds from assets in emerging countries, including the Russian Federation. As a result, in the second half of 2011 and through the whole of 2012, the Rouble continued gradually to depreciate against the U.S. Dollar with the official CBR RUB/U.S.\$ exchange rate peaking to 34.0395 RUB/U.S.\$ (as of 5 June 2012). However, the second quarter 2012 peak was followed by a gradual increase of the Rouble against the U.S. Dollar with the official CBR RUB/U.S.\$ exchange rate decreasing to 30.3727 as of the end of 2012. This trend reversed in the six months ended 30 June 2013 with the Rouble depreciating against the U.S. Dollar to 32.7090 RUB/U.S.\$ (as of 30 June 2013) and reaching 33.4656 RUB/U.S.\$ (as of 5 September 2013). For a presentation on developments in the Rouble to the U.S. Dollar exchange rates from 2008 through 4 November 2013, see "*Presentation of Financial and Other Information—Exchange Rate Information*". Future changes in currency exchange rates, which can be particularly volatile in times of national or global financial instability, such as the recent period of economic turmoil, could have a material adverse effect on VEB's business, financial condition, results of operations and prospects.

CRITICAL ACCOUNTING POLICIES

The preparation of financial statements requires VEB's management to make estimates and assumptions that affect reported amounts. These estimates are based on information available as at the date of the IFRS Financial

Statements. The actual IFRS results may differ from these estimates and it is possible that these differences may have a material effect on the IFRS Financial Statements.

The key assumptions concerning the future and other key sources of estimation uncertainty that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities are discussed below.

Fair Value of Financial Instruments

Where the fair values of financial assets and financial liabilities recorded in the statement of financial position cannot be derived from active markets, they are determined using a variety of valuation techniques. The inputs used in these models are taken from observable market values where possible; where this is not feasible, a degree of judgment is required in establishing fair values. See Note 4 to the Audited Financial Statements for the year ended 31 December 2012 for further information on VEB's financial assets and their value through profit or loss.

Allowance for Impairment of Loans and Receivables

VEB regularly reviews its loans and receivables to assess impairment. VEB's management uses its experienced judgment to estimate the amount of any impairment loss in cases where a borrower is in financial difficulties and there are few available sources of historical data relating to, for example, similar borrowers. Similarly, VEB estimates changes in future cash flows based on observable data indicating that there has been an adverse change in the payment status of borrowers in a group, or national or local economic conditions that correlate with defaults on assets in the group. VEB's management uses estimates based on historical loss experience for assets with similar credit risk characteristics and objective evidence of impairment similar to those in the group of loans and receivables. VEB's management uses its experienced judgment to adjust observable data for a group of loans or receivables to reflect current circumstances. Changes in the allowance are reported in the income statement for the relevant period. VEB cannot predict when conditions may change and what effect any change could have on the adequacy of the allowances for loan impairment.

Impairment of Goodwill

VEB determines at least annually whether goodwill is impaired. This requires an estimation of the value of the cash-generating units in use to which the goodwill is allocated. Estimating this value requires VEB to make an estimate of the expected future cash flows from the cash-generating unit in use and also to choose a suitable discount rate in order to calculate the present value of those cash flows. As at 30 June 2013 the carrying value of goodwill amounted to RUB 1,381 million, as at 31 December 2012 it was RUB 1,381 million, as at 31 December 2011 it was RUB 1,843 million and as at 31 December 2010 it was RUB 1,381 million.

RESULTS OF OPERATIONS FOR THE SIX MONTHS ENDED 30 JUNE 2013 AND THE YEARS ENDED 31 DECEMBER 2012, 2011 AND 2010

Net Interest Income

The following table sets forth VEB's interest income, interest expense and net interest income before provisions for impairment for the years indicated:

	For the six months ended 30 June (unaudited)		For the year ended 31 December		
	2013	2012	2012	2011	2010
	(RUB millions)				
Interest income.....	117,622	98,006	204,154	159,787	147,763
Interest expense	(70,950)	(59,356)	(123,658)	(95,453)	(81,090)
Net interest income before provisions for impairment.....	46,672	38,650	80,496	64,334	66,673

Net interest income before provision for impairment is derived from the difference between the interest income generated by VEB's interest-earning assets and the interest expense incurred on VEB's interest-bearing liabilities. See "Certain Statistical Data and Other Information". Net interest income before provisions for impairment increased by 20.8% to RUB 46,672 million for the six months ended 30 June 2013 from RUB 38,650 million for the six months ended 30 June 2012, principally as a result of the increase in absolute terms in interest income, which was, in turn, mostly due to the increase in the loan portfolio. This increase was partially offset by the overall increase in the interest expense. Net interest income before provisions for impairment increased by 25.1% to RUB 80,496 million for the year ended 31 December 2012 from RUB 64,334 million for the year ended 31 December 2011, principally as a result of the increase in absolute terms in interest income, which was, in turn, mostly due to the increase in the loan portfolio. This increase was partially offset by the overall increase in the interest expense. Net interest income before provisions for impairment decreased by 3.5% to RUB 64,334 million for the year ended 31 December 2011 from RUB 66,673 million for the year ended 31 December 2010. This decrease was primarily due to the increase in 2011, as compared to 2010, in interest expense on amounts due to customers and the Russian Government and debt securities issued, which, in turn, reflected the increase in the average balance of such amounts and the higher average rate paid on debt securities issued in 2011, as compared to 2010, partially offset by certain decreases in the average interest rate on amounts due to customers and the Russian Government. The interest expense on amounts due to credit institutions and the CBR in 2011 decreased insignificantly due to a decrease in average balance of such amounts in 2011, as compared to 2010, without significant changes in average rates on such amounts year-on-year. The increase in interest expense for 2011, as compared to 2010, was mostly offset by the increase in interest income from VEB's portfolio of loans to customers in 2011, as compared to 2010, which, in turn, reflected the year-on-year increase in the size of this portfolio. See "Certain Statistical Data and Other Information—Average Balance Sheet and Interest Rates."

Interest Income

VEB generates interest income from loans to customers, amounts due from credit institutions and cash equivalents and its securities portfolio. The following table sets forth the breakdown of VEB's interest income, by source, for the years indicated:

	For the six months ended 30 June (unaudited)		For the year ended 31 December		
	2013	2012	2012	2011	2010
	(RUB millions)				
Interest income					
Loans to customers (including finance leases).....	84,941	65,740	140,186	100,075	88,768
Amounts due from credit institutions and cash equivalents.....	20,424	21,361	39,852	39,653	38,932
Trading and investment securities.....	12,257	10,905	24,116	20,059	20,063
Total interest income	117,622	98,006	204,154	159,787	147,763

Total interest income increased by 20.0% to RUB 117,622 million for the six months ended 30 June 2013 from RUB 98,006 million for the six months ended 30 June 2012, primarily as a result of the increase in the volume

and average interest rates on VEB's loan portfolio. Total interest income increased by 27.8% to RUB 204,154 million for the year ended 31 December 2012 from RUB 159,787 million for the year ended 31 December 2011, primarily as a result of the increase in the amount of interest income from VEB's loans to customers which, in turn, reflected the year-on-year increase in the volume of these loans. Total interest income increased by 8.1% to RUB 159,787 million for the year ended 31 December 2011 from RUB 147,763 million for the year ended 31 December 2010, primarily as a result of the increase in the amount of interest income from VEB's loans to customers which, in turn, reflected the year-on-year increase in the volume of these loans. The growth in loans to customers was partly offset by the lower average rate on VEB's loans to customers in 2011, as compared to 2010. See "*Certain Statistical Data and Other Information—Average Balance Sheet and Interest Rates*".

Interest Income on Loans to Customers (Including Finance Leases)

The major part of VEB's interest income is generally attributable to interest income on loans to customers, which represented 72.2% and 67.1% of total interest income for the six months ended 30 June 2013 and 2012, respectively, and 68.7%, 62.6% and 60.1% of total interest income in the years ended 31 December 2012, 2011 and 2010, respectively.

Interest income on loans to customers increased by 29.2% to RUB 84,941 million for the six months ended 30 June 2013 from RUB 65,740 million for the six months ended 30 June 2012. The increase during the six months ended 30 June 2013, as compared to the six months ended 30 June 2012, both as a percentage and in absolute terms, was primarily due to the increase in the average balance of loans to customers. Interest income on loans to customers increased by 40.1% to RUB 140,186 million for the year ended 31 December 2012 from RUB 100,075 million, after having increased by 12.7% for the year ended 31 December 2011 from RUB 88,768 million for the year ended 31 December 2010. The increase in 2012, as compared to 2011, both as a percentage and in absolute terms, was primarily due to a significant growth in the average balance of loans to customers as well as the increase in the average interest rates to 9.4% from 9.0%. The increase in 2011, as compared to 2010, both as a percentage and in absolute terms, was primarily due to the increase in the average balance of loans to customers, which was partially offset by the decrease in the average interest rate on loans to customers from 9.1% to 9.0%. See "*Statistical Data and Other Information—Average Balance Sheet and Interest Rates*".

The changes in the share of interest income on loans to customers in total interest income over the six months ended 30 June 2013, as compared to the six months ended 30 June 2012, as well as the three years ended 31 December 2012 primarily reflected changes in the mix of VEB's business activities and in the environment in which these activities were conducted. In 2010, due to improvements in the global economy, liquidity began to return and alternative funding sources at more favourable rates became available to some of VEB's customers, which then obtained refinancing from other sources and reduced their levels of borrowing from VEB. In contrast, in 2011, the interest rate decrease slowed and loan portfolio volume increased, leading to an increase in the share of the interest income on loans to customers in the total interest income. In 2012, VEB concentrated on its development bank activities which resulted in further growth of the loan portfolio and, coupled with the increase in average interest rates, caused the increase in the share of interest income on loans to customers in total interest income. The growth of the share of interest income on loans to customers in total interest income during the six months ended 30 June 2013, as compared to the six months ended 30 June 2012, primarily reflected the increase in the average interest rate on loans to customers which, in turn, was due to the growth of Rouble denominated loans (which carry a higher interest rate than foreign currency denominated loans) and lending at rates closer to the market rates.

Interest Income on Amounts Due from Credit Institutions and Cash Equivalents

Interest income on amounts due from credit institutions and cash equivalents represented 17.4% and 21.8% of total interest income for the six months ended 30 June 2013 and 2012, respectively, and 19.5%, 24.8% and 26.3% of total interest income in 2012, 2011 and 2010, respectively.

Interest income on amounts due from credit institutions and cash equivalents decreased by 4.4% to RUB 20,424 million for the six months ended 30 June 2013 from RUB 21,361 million for the six months ended 30 June 2012 primarily due to the partial repayment of a subordinated loan from Gazprombank. Interest income on amounts due from credit institutions and cash equivalents did not change significantly in 2012 as compared to 2011, being RUB 39,852 million for the year ended 31 December 2012, as compared to RUB 39,653 million for the year ended 31 December 2011. The average balance of amounts due to credit institutions and cash equivalents decreased by 8% in 2012, as compared to 2011, while the average rate earned by VEB on these assets grew to 6.9% in 2012 from 6.3% in 2011. Interest income on amounts due from credit institutions and cash equivalents increased by 1.9% to RUB 39,653 million for the year ended 31 December 2011 from RUB 38,932 million for the year ended 31 December 2010 which was primarily due to the growth by 10.1% in amounts due from credit

institutions in 2011, partially offset by a decrease of 9.5% in cash and cash equivalents in 2011 and the decrease in the average rate earned by VEB on amounts due from credit institutions and cash equivalents to 6.3% in 2011 from 7.0% in 2010. The decrease in the average rate reflected the lower proportion, in 2011 of amounts due from credit institutions, which bear relatively higher rates than cash equivalents.

Interest Income on Trading and Investment Securities

Interest income on VEB's securities portfolio represented 10.4% and 11.1% of total interest income for the six months ended 30 June 2013 and 2012, respectively, and 11.8%, 12.6% and 13.6% of total interest income in 2012, 2011 and 2010, respectively. Interest income on trading and investment securities increased by 12.4% for the six months ended 30 June 2013 to RUB 12,257 million from RUB 10,905 million for the six months ended 30 June 2012 primarily due to the interest income on the option which in June 2012 VEB sold to Gazprombank with respect to the 10.19% of Gazprombank's shares currently owned by VEB. Interest income on trading and investment securities slightly decreased to RUB 20,059 million in 2011, as compared to RUB 20,063 million in 2010, but in 2012 it increased by 20.2% to RUB 24,116 million. These year-on-year movements primarily reflected the impact of the increase in the average size of VEB's portfolio of trading and investment debt securities to RUB 299,949 million in 2012 from RUB 250,639 million in 2011 and from RUB 232,057 million in 2010. Meanwhile, the average interest rates in 2012 and 2011 stayed at the level of 8% after a slight decrease in 2011 from 8.6% in 2010.

Interest Expense

VEB's interest expense consists of interest expense in respect of amounts due to credit institutions and the CBR, amounts due to customers and the Russian Government and debt securities issued. The following table sets forth the breakdown of VEB's interest expense for the years indicated:

	For the six months ended 30 June (unaudited)		For the year ended 31 December		
	2013	2012	2012	2011	2010
	<i>(RUB millions)</i>				
Interest expense					
Amounts due to credit institutions and the Bank of Russia	25,043	16,741	37,050	24,079	25,841
Amounts due to customers and the Russian Government ..	31,282	32,088	63,624	56,984	50,081
Debt securities issued.....	14,625	10,527	22,984	14,390	5,168
Total interest expense	70,950	59,356	123,658	95,453	81,090

Total interest expense increased by 19.5% to RUB 70,950 million during the six months ended 30 June 2013 from RUB 59,356 million during the six months ended 30 June 2012, which was due to an increase in the average balance of deposits from credit institutions and the CBR held by VEB. Total interest expense increased by 29.5% to RUB 123,658 million in 2012 from RUB 95,453 million in 2011, after having increased by 17.7% from RUB 81,090 million in 2010. The increase in total interest expense for 2012, as compared to 2011, was due to an increase in the average balance of deposits from credit institutions and the CBR held by VEB and an increase in the average interest rates on such deposits in 2012 as compared to 2011, as well the increase in interest expense on debt securities issued, which reflects the increase both in the average amount of securities issued and in the average interest rate. The increase in total interest expense for 2011, as compared to 2010, was primarily due to an increase in interest expense on debt securities issued, which reflects an increase both in the average amount of securities issued and in the average interest rate. See "*Certain Statistical Data and Other Information—Sources of Funding—Amounts Due to the Russian Government and the CBR*".

Interest Expense on Amounts Due to Credit Institutions and the CBR

Interest expense on amounts due to credit institutions and the CBR increased by 49.6% to RUB 25,043 million for the six months ended 30 June 2013 from RUB 16,741 million for the six months ended 30 June 2012. This increase was due to an increase in the volume of long term inter-bank financing.

Interest expense on amounts due to credit institutions and the CBR increased by 53.9% to RUB 37,050 million for the year ended 31 December 2012 from RUB 24,079 million for the year ended 31 December 2011 after having decreased by 6.8% from RUB 25,841 million for the year ended 31 December 2010. The increase in interest expense on amounts due to credit institutions and the CBR in 2012, as compared to 2011, was due to an

increase in the average balance of deposits from credit institutions and the CBR held by VEB and an increase in the average interest rates on such deposits in 2012 as compared to 2011. The decrease in 2011, as compared to 2010, mainly reflected the decrease in average amounts of these liabilities, which, in turn, reflected repayment in 2010 of the deposits VEB had received from the CBR under the Financial System Support Law to provide recovery finance to Russian corporates for the purpose of refinancing claims of foreign creditors, partially offset in 2011 by growth of the amounts due to credit institutions used for funding of lending activity growth. See “*Certain Statistical Data and Other Information—Amounts Due to Credit Institutions*”.

Interest expense on amounts due to credit institutions and the CBR, as a percentage of total interest expense, increased to 35.3% for the six months ended 30 June 2013, as compared to 28.2% for the six months ended 30 June 2012. This increase was due to an increase in the volume of long term inter-bank financing.

The amount of interest expense on amounts due to credit institutions and the CBR, as a percentage of total interest expense, increased to 30.0% in 2012, from 25.2% in 2011, and decreased in 2011, as compared to 31.9% in 2010. The increase in 2012 was due to an increase in the share of deposits from credit institutions and the CBR in VEB’s total funding sources and an increase in the average interest rates on such deposits in 2012 as compared to 2011. The decrease in 2011, as compared to 2010, primarily reflected the expansion of VEB’s funding sources to include, in addition to deposits from the CBR, funds raised in the domestic and international capital markets.

Interest Expense on Amounts Due to Customers and the Russian Government

Interest expense on amounts due to customers and the Russian Government represented 44.1% and 54.1% of VEB’s total interest expense for the six months ended 30 June 2013 and 2012, respectively. Interest expense on amounts due to customers and the Russian Government decreased by 2.5% to RUB 31,282 million during the six months ended 30 June 2013 from RUB 32,088 million during the six months ended 30 June 2012. The decrease in the absolute value of interest expense on the average amounts due to customers and the Russian Government in each year principally reflected the restructuring of a part of the NWF deposits resulting in a decrease in average interest rates on such deposits.

Interest expense on amounts due to customers and the Russian Government represented 51.5%, 59.7% and 61.8% of VEB’s total interest expense in 2012, 2011 and 2010, respectively. Interest expense on amounts due to customers and the Russian Government increased by 11.7% to RUB 63,624 million in 2012 from RUB 56,984 million in 2011, after having increased by 13.8% in 2011 from RUB 50,081 million in 2010. The increase in the absolute value of interest expense on the average amounts due to customers and the Russian Government in each year principally reflected the increase in the average balance of amounts due to customers and the Russian Government. In 2011, the increase in interest expense on amounts due to customers and the Russian Government this was partially offset by the decrease in average interest rates on both components.

Interest Expense on Debt Securities Issued

Interest expense on debt securities issued increased by 38.9% to RUB 14,625 million for the six months ended 30 June 2013 from RUB 10,527 million for the six months ended 30 June 2012. Interest expense on debt securities issued increased by 59.7% to RUB 22,984 million for the year ended 31 December 2012 from RUB 14,390 million for the year ended 31 December 2011, after having increased by 178.4% for the year ended 31 December 2011 from RUB 5,168 million for the year ended 31 December 2010. These period-on-period increases in interest expense on debt securities issued reflected the issuance by VEB and its subsidiaries of increasing volumes of debt securities during such periods, including, in particular, Notes issued under the Programme. See “*Certain Statistical Data and Other Information—Sources of Funding—Debt Securities Issued*”. The aggregate principal amount outstanding of VEB’s and its subsidiaries’ debt securities was RUB 489,065 million as at 30 June 2013, as compared to RUB 388,939 million as at 31 December 2012, RUB 261,030 million as at 31 December 2011 and RUB 186,947 million as at 31 December 2010.

Provision for Impairment

During the six months ended 30 June 2013, VEB recorded provisions for the impairment of interest-earning assets of RUB 27,028 million, as compared to provisions of RUB 10,435 million during the six months ended 30 June 2012. The increase in provisions during the six months ended 30 June 2013, as compared to the six months ended 30 June 2012, primarily reflected the increase in VEB’s loan portfolio and the increase in provisions of Prominvestbank and GLOBEXBANK.

In 2012, VEB recorded provisions for impairment of interest-earning assets of RUB 47,872 million, as compared to provisions of RUB 38,790 million in 2011 and RUB 45,735 million in 2010. The increase in provisions in 2012, as compared to 2011, primarily reflected the growth in the amount of loans to customers provided by VEB subsidiaries in 2012 and reassessment of risks on certain loans which resulted in increased provisions. The decrease in provisions in 2011, as compared to 2010, primarily reflected relatively low provisions on new loans extended in 2011 due to improved general economic conditions.

Provision for impairment is determined by VEB's management in line with established policies and procedures. See "*Critical Accounting Policies—Allowance for Impairment of Loans and Receivables*".

Non-Interest Income

VEB generates non-interest income principally from net fee and commission income, net gains (losses) from financial instruments, net gains (losses) from foreign currencies and dividend income on its investments. The following table sets forth the breakdown of VEB's non-interest income for the years indicated:

	For the six months ended 30 June (unaudited)		For the year ended 31 December		
	2013	2012	2012	2011	2010
	<i>(RUB millions)</i>				
Net fee and commission income	3,030	2,050	5,902	6,612	6,030
Gains less losses from financial instruments	7,391	4,388	(3,868)	7,622	23,307
Gains less losses arising from foreign currencies:					
- dealing	2,252	9,123	12,388	12,275	3,547
- translation differences	(10,978)	(3,791)	2,237	(17,287)	(1,078)
Gains less losses on initial recognition of financial instruments.....	1,007	1,072	5,209	3,746	(2,400)
Share in net income / (losses) of associates	32	194	607	285	204
Excess of market value of net assets of acquired subsidiary company over the cost of acquisition	702	—	—	—	—
Dividend income.....	1,230	907	10,383	4,551	2,260
Other operating income	3,363	1,590	5,400	3,136	1,754
Total non-interest income / (expenses)	4,999	13,483	38,258	20,940	33,624

VEB's non-interest income for the six months ended 30 June 2013 comprised RUB 4,999 million, as compared to non-interest income of RUB 13,483 million for the six months ended 30 June 2012. The 62.9% decrease in non-interest income in the six months ended 30 June 2013, as compared to the six months ended 30 June 2012, was primarily due to the net loss of RUB 8,726 million from foreign currencies (as compared to a net gain of RUB 5,332 million in the six months ended 30 June 2012), which was caused by devaluation of Rouble against U.S. Dollar and Euro.

VEB's non-interest income for the year ended 31 December 2012 comprised RUB 38,258 million, as compared to net income of RUB 20,940 million for the year ended 31 December 2011 and RUB 33,624 million for the year ended 31 December 2010.

The increase in non-interest income in 2012 by 82.7%, as compared to 2011, was primarily due to gains arising from translation differences of RUB 2,237 million (as opposed to a RUB 17,287 million loss in 2011) together with a 128.1% increase in dividend income, partially offset by a loss from financial instruments.

The decrease in non-interest income in 2011 by 37.7%, as compared to 2010, was primarily due to a 67.3% decrease in gains less losses from financial instruments, as well as losses arising from foreign currencies of RUB 5,012 million, partially offset by the increases in gains less losses on initial recognition of financial instruments, dividend income and other operating income.

Net Fee and Commission Income

The following table sets forth the breakdown of VEB's net fee and commission income for the years indicated:

	For the six months ended 30 June (unaudited)		For the year ended 31 December		
	2013	2012	2012	2011	2010
	<i>(RUB millions)</i>				
Fee and commission income					
Cash and settlement operations.....	2,289	1,602	3,513	3,582	3,230
Guarantees and letters of credit.....	2,026	1,165	2,334	3,295	2,033
Agency fees	8	8	556	556	557
Trust management of pension funds	-	-	383	279	236
Operations with securities.....	61	81	117	150	175
Other operations.....	377	219	672	779	1,284
Fee and commission income.....	4,761	3,075	7,575	8,641	7,515
Fee and commission expense.....	(1,731)	(1,025)	(1,673)	(2,029)	(1,485)
Net fee and commission income.....	3,030	2,050	5,902	6,612	6,030

VEB's net fee and commission income increased by 47.8% to RUB 3,030 million for the six months ended 30 June 2013 from RUB 2,050 million for the six months ended 30 June 2012, principally as a result of an increase in the number of guarantees, mostly to government-owned counterparties. VEB's net fee and commission income decreased by 12.0% in 2012 from RUB 6,612 million for the year ended 31 December 2011, principally as a result of the decrease in fees and commissions received for guarantees and letters of credit, which, in turn, reflected a reduction in VEB's pricing of its guarantee operations. VEB's net fee and commission income increased by 9.7% to RUB 6,612 million for the year ended 31 December 2011 from RUB 6,030 million for the year ended 31 December 2010, principally as a result of the increase in fees and commissions received for guarantees and letters of credit, which, in turn, reflected a growth in VEB's pricing for guarantee operations (despite the 34% decrease in the total amount of guarantees issued in 2011).

Gains Less Losses from Financial Instruments

The following table sets forth the breakdown of VEB's gains less losses from financial instruments recognised in the statement of income for the years indicated:

	For the six months ended 30 June (unaudited)		For the year ended 31 December		
	2013	2012	2012	2011	2010
	<i>(RUB millions)</i>				
Gains less losses arising from financial instruments at fair value through profit or loss.....	(225)	4,103	(6,116)	(2,508)	10,178
Gains less losses on sale of investment securities available-for-sale, previously recognised in other comprehensive income	8,441	1,265	4,020	15,607	35,154
Losses on impairment of investment securities available-for-sale	(3,065)	(728)	(1,969)	(8,910)	(22,276)
Other gains from redemption of investment securities.....	2,240	(252)	197	3,433	251
Total gains less losses from financial instruments at fair value through profit or loss and investment securities available-for-sale.....	7,391	4,388	(3,868)	7,622	23,307

Gains less losses from financial instruments at fair value through profit or loss and investment securities available-for-sale increased to RUB 7,391 million for the six months ended 30 June 2013, as compared to RUB 4,388 million for the six months ended 30 June 2012. The increase in gains less losses from financial instruments at fair value through profit or loss and investment securities available-for-sale for the six months ended 30 June 2013, as compared to six months ended 30 June 2012, was primarily due to the higher volume of sales by VEB during the six months ended 30 June 2013. Gains less losses from financial instruments at fair value through profit or loss and investment securities available-for-sale represented a net loss of RUB 3,868 million for the year ended 31 December 2012, as compared to a net gain of RUB 7,622 million for the year ended 31 December 2011 and a net gain of RUB 23,307 million for the year ended 31 December 2010. The loss in 2012 and decrease in gain in 2011, as compared to 2010, reflected both the lower increase in the overall value of the Russian securities market and the smaller volume of sales by VEB in each year. The loss in the year 2012

and gains in the first halves of 2013 and 2012 and the years 2011 and 2010 were also significantly offset by the recognised negative revaluation, which was transferred from capital to the profit and loss account as a result of the recognition of impairment of certain securities in the investment portfolio due to a decrease in the market prices of such securities.

Gains Less Losses from Foreign Currencies

The following table sets forth the breakdown of VEB's gains less losses from foreign currencies for the years indicated:

	For the six months ended 30 June (unaudited)		For the year ended 31 December		
	2013	2012	2012	2011	2010
	<i>(RUB millions)</i>				
Gains less losses arising from foreign currencies:					
- dealing	2,252	9,123	12,388	12,275	3,547
- translation differences.....	(10,978)	(3,791)	2,237	(17,287)	(1,078)
Total gains less losses arising from foreign currencies	(8,726)	5,332	14,625	(5,012)	2,469

Total gains less losses from foreign currencies decreased to a net loss of RUB 8,726 million for the six months ended 30 June 2013 from a net gain of RUB 5,332 million for the six months ended 30 June 2012. Total gains less losses from foreign currencies increased by 391.8% to RUB 14,625 million for the year ended 31 December 2012 from a net loss of RUB 5,012 million for the year ended 31 December 2011, after having decreased by 303% from a net gain of RUB 2,469 million for the year ended 31 December 2010. The fluctuations during these periods are mainly due to economic situation in Belarus and its impact on Bank BelVEB. In 2011, the Belorussian Rouble significantly depreciated and inflation in Belarus sharply increased, which negatively impacted Bank BelVEB. In 2012 and the six months ended 30 June 2013, the economic situation in Belarus improved, which had a positive effect on Bank BelVEB.

Gains Less Losses on Initial Recognition of Financial Instruments

During the six months ended 30 June 2013 VEB recognised a gain on initial recognition of financial instruments of RUB 1,007 million, as compared to a gain of RUB 1,072 million during the six months ended 30 June 2012. These gains were primarily due to annual extensions on the maturity of deposits from the CBR at below market rates.

In 2012, VEB recognised a gain on initial recognition of financial instruments of RUB 5,209 million, as compared to a gain of RUB 3,746 million in 2011 and a loss of RUB 2,400 million in 2010. The gains in 2012 and 2011 were primarily due to annual extensions on the maturity of deposits from the CBR at rates below market.

In 2010, VEB recognised a loss on initial recognition of financial instruments of RUB 2,400 million, which primarily reflected the net effect of the loss from reduction in the interest rates (to below market rates) on the subordinated loans extended to Russian banks as a recovery finance measure and the decrease in gain from the matching deposits received from the CBR and the Russian Ministry of Finance, the reduction in interest rates on which was more moderate, although such interest rates still remained below market rates.

Excess of market value of net assets of an acquired subsidiary company over the cost of acquisition

On 8 March 2013, GLOBEXBANK acquired 28.8% of the voting shares of RGI, increasing its total ownership in RGI to 51.4%. RGI is engaged in property development and property management in the Russian Federation, with its core business being the development and management of high-end office and retail businesses and luxury residential and premium economy class residential projects in central Moscow and the surrounding areas. This acquisition resulted in the recognition of RUB 702 million of the excess market value of net assets of RGI over the cost of its acquisition. For more information, see Note 4 to the Interim Financial Statements.

Dividend Income

VEB's dividend income for the six months ended 30 June 2013 comprised RUB 1,230 million, as compared to RUB 907 million for the six months ended 30 June 2012. The increase in dividend income during this period

primarily reflected the receipt of dividends on the shares of EADS, the leading European aerospace corporation, held by VEB.

VEB's dividend income for the year ended 31 December 2012 comprised RUB 10,383 million, as compared to RUB 4,551 million for the year ended 31 December 2011 and RUB 2,260 million for the year ended 31 December 2010.

The increase in dividend income in 2012 by 128.1% as compared to 2011, primarily reflected a substantial increase in dividends from OJSC "Gazprom". The increase in dividend income in 2011 by 101.4% as compared to 2010, was primarily due to the receipt of dividends from MICEX-RTS stock exchange (currently, the Moscow Exchange) and a substantial increase in dividends received from OJSC "Gazprom".

Other Operating Income

In the six months ended 30 June 2013, VEB generated other operating income of RUB 3,363 million, or an increase by 111.5%, as compared to RUB 1,590 million in the six months ended 30 June 2012. The increase is primarily attributable to the disposition of non-core assets by VEB's subsidiaries.

In 2012, VEB generated other operating income of RUB 5,400 million, or an increase of 72.2%, as compared to RUB 3,136 million in 2011, after an increase of 78.8% from RUB 1,754 million in 2010. The significant growth in 2012 is primarily attributable to income received by VEB subsidiary banks from the sale of certain real estate. The 78.8% growth in 2011 in other operating income was primarily due to significant income received by VEB-Leasing from the sale of certain of its assets.

Non-Interest Expenses

VEB's non-interest expenses are generally comprised principally of payroll and other staff costs, expenses for occupancy and equipment and other operating expenses.

The following table sets forth the breakdown of VEB's non-interest expenses for the years indicated:

	For the six months ended 30 June (unaudited)		For the year ended 31 December		
	2013	2012	2012	2011	2010
	<i>(RUB millions)</i>				
Payroll and other staff costs.....	10,079	8,281	19,411	16,890	12,365
Occupancy and equipment.....	2,332	2,400	5,321	5,156	4,336
Depreciation.....	1,108	856	1,763	1,334	1,456
Taxes other than income taxes.....	1,763	1,677	3,720	3,050	1,582
Provision for other impairment and provisions.....	(192)	354	965	366	221
Other operating expenses.....	9,799	7,001	19,278	11,555	7,833
Total non-interest expenses.....	24,889	20,569	50,458	38,351	27,793

Non-interest expenses increased by 21.0% to RUB 24,889 million for the six months ended 30 June 2013 from RUB 20,569 million for six months ended 30 June 2012. Non-interest expenses increased by 31.6% to RUB 50,458 million for the year ended 31 December 2012 from RUB 38,351 million for the year ended 31 December 2011, after having increased by 38.0% from RUB 27,793 million for the year ended 31 December 2010. The period-on-period increases principally reflected the increases in payroll and other staff costs, taxes other than income taxes, and other operating expenses in each period.

Payroll and Other Staff Costs

Payroll and other staff costs increased by 21.7% to RUB 10,079 million for the six months ended 30 June 2013 from RUB 8,281 million for the six months ended 30 June 2012, which primarily reflected the acquisition of RGI and payment in the six months ended 30 June 2013 bonuses for the year 2012 to employees of several subsidiaries.

Payroll and other staff costs increased by 14.9% to RUB 19,411 million for the year ended 31 December 2012 from RUB 16,890 million for the year ended 31 December 2011, after having increased by 36.6% from RUB 12,365 million for the year ended 31 December 2010. The increase in 2012 primarily reflected the significant increase in head count in VEB's subsidiaries, RDIF and EXIAR, which in turn caused an increase in employee

wages and employer payroll taxes in 2012. The increase in 2011 reflected an increase in employee wages as well as the overall increase in employer payroll taxes in 2011.

Taxes Other Than Income Taxes

Taxes other than income taxes increased by 5.1% to RUB 1,763 million for the six months ended 30 June 2013 from RUB 1,677 million for the six months ended 30 June 2012, which primarily reflected the increase in taxes withheld on VEB's income from sources outside the Russian Federation and property taxes paid by Sviaz-Bank in connection with the purchase of a building. Taxes other than income taxes increased by 22.0% to RUB 3,720 million for the year ended 31 December 2012 from RUB 3,050 million for the year ended 31 December 2011, principally reflecting an increase in property taxes as a result of the increase in VEB-Leasing's finance lease portfolio and the addition of Radisson Blue hotel in Sochi to VEB-Leasing's balance sheet. Taxes other than income taxes increased by 92.8% for the year ended 31 December 2011 from RUB 1,582 million for the year ended 31 December 2010, principally reflecting an increase in property taxes as a result of the increase in VEB-Leasing's finance lease portfolio and the increase in taxes withheld on VEB's income from sources outside the Russian Federation.

Other Operating Expenses

The following table sets forth the breakdown of VEB's other operating expenses for the periods indicated:

	For the six months ended 30 June (unaudited)		For the year ended 31 December		
	2013	2012	2012	2011	2010
	<i>(RUB millions)</i>				
Impairment charge for property and equipment.....	—	—	—	—	91
Administration expenses.....	726	388	765	955	653
Advertising expenses.....	421	192	1,626	1,504	1,437
Audit and consulting.....	499	469	1,177	923	588
Legal services.....	541	264	2,164	422	509
Loss on acquisition of impaired assets.....	107	—	1,750	—	—
Deposit insurance.....	262	287	398	383	356
Amortisation of intangibles.....	316	304	656	539	348
Marketing and research.....	392	411	681	259	199
Insurance.....	524	297	626	801	435
Loss on disposal of financial assets (loans and accounts receivable).....	839	68	97	389	—
Loss on write-off of impaired assets.....	1	28	419	214	—
Charity.....	1,466	695	1,290	919	607
Sponsorship.....	115	866	1,122	1,096	136
Penalties incurred.....	—	—	—	17	20
Contributions to non-state pension fund.....	—	—	—	11	4
Loss on write-off of goodwill.....	26	—	564	—	—
Expenses associated with non-core activities.....	345	211	2,126	905	—
Other.....	3,219	2,521	3,817	2,218	2,450
Total other operating expenses.....	9,799	7,001	19,278	11,555	7,833

Total other operating expenses increased by 40.0% to RUB 9,799 million in the six months ended 30 June 2013 from RUB 7,001 million in the six months ended 30 June 2012, principally reflecting the overall growth in VEB's ordinary course business activities as well as charity activities. In particular, growth in administrative and advertising expenses, legal fees and insurance was partially offset by a decrease in sponsorship activities. Total other operating expenses increased by 66.8% to RUB 19,278 million in 2012 from RUB 11,555 million in 2011, principally reflecting the overall growth in VEB's ordinary course business activities. In particular, legal services and expenses associated with non-core activities, as well as a number of other ordinary course expenses, increased, coupled with the recognition in 2012 of loss on acquisition of impaired assets and loss on write-off of goodwill, although such increases and expenses were partially offset by the decrease in administrative expenses, insurance and a lower loss on the disposal of financial assets in 2012. Total other operating expenses increased by 47.5% to RUB 11,555 million for the year ended 31 December 2011 from RUB 7,833 million for the year ended 31 December 2010, principally reflecting the overall growth in VEB's ordinary course business activities as well as sponsorship activities.

Income Taxation Expense/(Benefit)

Although its banking and other subsidiaries are taxed in their respective jurisdictions of incorporation, VEB itself is not subject to income tax in the Russian Federation. Accordingly, VEB's income tax expense is not significant.

Net Income

As a result of the combined effects of all of the foregoing, VEB had net income of RUB 824 million for the six months ended 30 June 2013, RUB 21,570 million for the six months ended 30 June 2012, RUB 17,488 million for the year ended 31 December 2012, RUB 7,480 million for the year ended 31 December 2011 and RUB 28,247 million for the year ended 31 December 2010.

LIQUIDITY AND CAPITAL RESOURCES

Cash and Cash Equivalents, Net

The following table sets forth VEB's net cash and cash equivalents as of the dates indicated:

	As at 30 June (unaudited)	As at 31 December		
	2013	2012	2011	2010
		<i>(RUB millions)</i>		
Cash on hand	11,415	13,596	13,293	12,450
Due from the Bank of Russia.....	13,413	102,168	19,427	19,127
Correspondent nostro accounts with Russian credit institutions and current stock broker accounts	4,608	12,186	15,621	11,981
Correspondent nostro accounts with OECD-based credit institutions	60,862	30,742	24,058	27,943
Correspondent nostro accounts with other credit institutions .	17,718	15,493	12,865	17,418
Interest-bearing loans and deposits with the Bank of Russia up to 90 days.....		300	120	195
Interest-bearing loans and deposits with OECD-based credit institutions up to 90 days	22,470	10,418	13,806	26,702
Interest-bearing loans and deposits with non-OECD based credit institutions up to 90 days	27,633	98	2,804	—
Interest-bearing loans and deposits with Russian credit institutions up to 90 days.....	67,390	49,481	73,405	57,046
Non-interest deposits with OECD credit institutions up to 90 days	28	1	94	—
Reverse purchase agreements with credit institutions for up to 90 days.....	4,548	5,514	2,535	23,810
Total cash and cash equivalent, net	<u>230,085</u>	<u>239,997</u>	<u>178,028</u>	<u>196,672</u>

VEB's total net cash and cash equivalent positions decreased by 4.1% to RUB 230,085 million as at 30 June 2013 from RUB 239,997 as at 31 December 2012, after having increased by 34.8% as at 31 December 2012 from RUB 178,028 million as at 31 December 2011, after having decreased by 9.5% as at 31 December 2011 from RUB 196,672 million as at 31 December 2010.

The overall decrease in total net cash and cash equivalents as at 30 June 2013, as compared to 31 December 2012, was modest. The significant decrease in the amounts due from the Bank of Russia and increases in deposits of up to 90 days primarily reflect the use by VEB of RUB 77,000 million of the Russian Ministry of Finance's contribution for investment into RDIF and Far East and Baikal Region Development Fund, which resulted in such funds ceasing to be accounted as amounts due from the Bank of Russia and being placed in deposits of up to 90 days. The increase in total net cash and cash equivalents as at 31 December 2012, as compared to 31 December 2011, was primarily due to property contributions from the Russian Ministry of Finance in the amount of RUB 80,000 million which was reflected in 2012 in amounts due from the CBR. RUB 77,000 million of this contribution was designated for further investment into RDIF and financing of top-priority industrial, transport and energy infrastructure development projects in the Far East and the Baikal region, which funds remained uninvested as of 31 December 2012. The remainder of the contribution represents compensation from the Russian Ministry of Finance for VEB's support of high-tech products manufacturers by financing them at below-market rates. The overall decrease in total net cash and cash equivalents as at 31 December 2011, as compared to 31 December 2010, reflected the overall use of cash to support growth in VEB's business activities.

Cash Flows

The following table sets forth the breakdown of VEB's cash flows for the years indicated:

	For the six months ended 30 June (unaudited)		For the year ended 31 December		
	2013	2012	2012	2011	2010
			<i>(RUB millions)</i>		
Net cash from / (used in) operating activities	(190,305)	(85,574)	(174,925)	(316,838)	87,701
Net cash from / (used in) investing activities.....	38,261	(12,080)	(20,790)	(9,085)	(112,479)
Net cash from / (used in) financing activities	136,667	93,287	259,236	299,575	52,304

Net Cash Flows from Operating Activities

Net cash flows used in operating activities were RUB 190,305 million for the six months ended 30 June 2013, as compared to net cash flows used in operating activities of RUB 85,574 million for the six months ended 30 June 2012. The cash used in operating activities in the six months ended 30 June 2013 and 2012 principally reflected the growth in the size of VEB's loan portfolio.

Net cash flows used in operating activities were RUB 174,925 million for the year ended 31 December 2012, as compared to net cash flows used in operating activities of RUB 316,838 million for the year ended 31 December 2011, and net cash flows from operating activities of RUB 87,701 million for the year ended 31 December 2010.

The cash used in operating activities in 2012 principally reflected receipt of short-term deposits from the CBR and the Russian Ministry of Finance as well as a decrease in the volume of VEB's loan portfolio.

The cash used in operating activities in 2011 principally reflected the growth in the size of VEB's loan portfolio in the amount of RUB 416,379 million, which was due to the increase in the level of VEB's business in development bank activities, offset by increase in short- and medium-term inter-bank loans to VEB in the amount of RUB 55,354 million.

The positive net cash flows from operating activities in 2010 principally reflected the increase in customer current accounts and other deposits in the amount of RUB 88,264 million, particularly as VEB's borrowers temporarily placed proceeds of loans extended to them by VEB in current accounts and term deposits pending the application of the borrowed funds for the intended purposes under the respective financings, as well as the receipt of funds from other banks and the acquisition of financial assets whose fair value was positively revalued by RUB 14,124 million. See "*Certain Statistical Data and Other Information—Amounts Due to Customers*".

Net Cash Flows Used in Investing Activities

Net cash flows used in investing activities were RUB 38,261 million for the six months ended 30 June 2013, as compared to RUB 12,080 million for the six months ended 30 June 2012. The higher level of cash used in investing activities in the six months ended 30 June 2013, as compared to the six months ended 30 June 2012, principally reflected the lower levels of investment in securities during the six months ended 30 June 2013 as compared to the six months ended 30 June 2012.

Net cash flows used in investing activities were RUB 20,790 million for the year ended 31 December 2012, as compared to RUB 9,085 million for the year ended 31 December 2011 and RUB 112,479 million for the year ended 31 December 2010. The higher level of cash used in investing activities in 2012, as compared to 2011, principally reflected the higher level of investment in securities in 2012, as compared to 2011. The lower level of cash used in investing activities in 2011, as compared to 2010, was primarily attributable to the lower levels of investment in securities in 2011, as compared to 2010.

Net Cash Flows from Financing Activities

Net cash flows from financing activities were RUB 136,667 million for the six months ended 30 June 2013, as compared to RUB 93,287 million for the six months ended 30 June 2012. The higher net cash flow from financing activities in the six months ended 30 June 2013, as compared to the six months ended 30 June 2012, was primarily caused by the increase in long-term interbank financing.

Net cash flows from financing activities were RUB 259,236 million for the year ended 31 December 2012, as compared to RUB 299,575 million for the year ended 31 December 2011 and RUB 52,304 million for the year ended 31 December 2010. The lower net cash flow from financing activities in 2012, as compared to 2011, was primarily caused by the decrease in long-term interbank financing raised by VEB. The increase in net cash flow from financing activities in 2011, as compared to 2010, was primarily due the increase in long-term interbank financing raised to fund the increase in the level of VEB's business in development bank activities.

Contingencies, Commitments and Derivative Financial Instruments

VEB enters into certain financial instruments with off-balance sheet risk, particularly in furtherance of its role as a development bank supporting the Russian import-export sector and the development of SMEs in the Russian Federation. These instruments, which include guarantees, letters of credit, undrawn credit lines and commitments to extend credits, involve varying degrees of credit risk and are not reflected in VEB's consolidated statement of financial position. VEB uses similar credit approval policies in undertaking credit-

related commitments not recorded in its consolidated statement of financial position as it does for its operations comprising the positions included in its consolidated statement of financial position. See “*Lending Policies and Procedures*” and “*Risk Management*”.

The following table sets forth VEB’s credit-related commitments as at the dates indicated:

	As at 30 June (unaudited)	As at 31 December		
	2013	2012	2011	2010
		<i>(RUB millions)</i>		
Guarantees	160,968	146,402	103,049	156,237
Undrawn loan commitments	572,664	648,431	568,066	436,271
Letters of credit.....	25,103	71,919	80,790	49,806
Total credit-related commitments	758,735	866,752	751,905	642,314

As at 30 June 2013, VEB had issued 227 guarantees for a total amount of RUB 160,968, as compared to 125 guarantees for a total amount of RUB 146,402 as at 31 December 2012, 197 guarantees for a total amount of RUB 103,049 million as at 31 December 2011 and 200 guarantees for a total amount of RUB 156,237 million as at 31 December 2010. The increase in the total amount of guarantees in the six months ended 30 June 2013, as compared to year end of 2012, reflects the increase in the total number of guarantees issued during the six months ended 30 June 2013. The increase in the total amount of guarantees in 2012, as compared to 2011, reflects the increased amounts of individual guarantees issued in 2012, despite the lower number of guarantees issued in 2012. The decrease in the total amount of guarantees in 2011, as compared to 2010, reflects the decrease in amounts of individual guarantees issued in 2011. These fluctuations in the amount of guarantees occur in the ordinary course of VEB’s business.

As at 30 June 2013, credit commitments in relation to undrawn credit lines were RUB 572,664 million, as compared to RUB 648,431 million as at 31 December 2012, RUB 568,066 million as at 31 December 2011 and RUB 436,271 million as at 31 December 2010. The 11.7% decrease in credit commitments as at 30 June 2013, as compared to 31 December 2012, is due to a decrease in the number of credit lines provided by VEB during the six months ended 30 June 2013. The continuing year-on-year increases in 2010-2012 were primarily attributable to the overall growth in VEB’s development bank activities over this period and the increase in the number of credit lines opened by VEB’s banking subsidiaries.

As at 30 June 2013, letters of credit were RUB 25,103 million, as compared to RUB 71,919 million as at 31 December 2012, RUB 80,790 million as at 31 December 2011 and RUB 49,806 million as at 31 December 2010. The decrease in letters of credit in six months ended 30 June 2013 as compared to the year end of 2012, was primarily attributable to a decrease in the number of letters of credit issued during the six months ended 30 June 2013. The decrease in letters of credit in 2012, as compared to 2011, was primarily attributable to the maturity in 2012 of previously issued letters of credit. The increase in letters of credit in 2011, as compared to 2010, was primarily attributable to the overall growth in VEB’s development bank activities over this period.

CERTAIN STATISTICAL DATA AND OTHER INFORMATION

AVERAGE BALANCE SHEET AND INTEREST RATES

The table below presents the average balances for VEB's interest-earning assets and interest-bearing liabilities, together with weighted average rates and the corresponding amount of interest income (expense) for the periods indicated. Investors should note that this average balance sheet data has been prepared for each year by using the average of quarterly balances derived from the IFRS Financial Statements based on the period beginning and period ending balances for each quarter. This method of preparing the average balance sheet may not be representative of VEB's daily average balances (determined in accordance with IFRS) during the years indicated. In order to present what VEB believes is a more meaningful calculation of average balance and interest rate data, the balances of the subsidiaries acquired during each period were included into calculations as at previous period end dates, so that the consolidated net interest income figure corresponds to the period beginning balances.

	For six months ended 30 June 2013 (unaudited)			For six months ended 30 June 2012 (unaudited)			For the year ended 31 December 2012			For the year ended 31 December 2011			For the year ended 31 December 2010

Notes:

- (1) Represents interest income or interest expense divided by the average balance of the respective item.
- (2) Prior to deducting allowance for impairment.
- (3) Excluding equity securities, as these securities are not interest-earning.

The average interest rate on interest-earning assets decreased to 8.6% in the six months ended 30 June 2013 from 8.7% in the six months ended 30 June 2012. The decrease in the average interest rate on interest-earning assets in the six months ended 30 June 2013, as compared to the six months ended 30 June 2012, was principally due to decrease in the average interest rate earned on amounts due from credit institutions and cash equivalents to 6.4% in the six months ended 30 June 2013 from 7.6% in the six months ended 30 June 2012, which in turn is mainly due to the growth in the share of cash equivalents in the overall interest-earning assets, which bear lower rates than amounts due from credit institutions, partially offset by a slight growth in the average interest rates on loans to customers (to 9.5% during the six months ended 30 June 2013 from 9.3% during the six months ended 30 June 2012) and securities (to 8.0% during the six months ended 30 June 2013 from 7.9% during the six months ended 30 June 2012).

The average interest rate on interest-earning assets increased to 8.6% in 2012 from 8.0% in 2011, after having decreased from 8.4% in 2010. The increase in the average interest rate on interest-earning assets in 2012, as compared to 2011, was principally due to an increase in average interest rate earned on loans to customers and an increase in the share of loans to customers in the overall interest earning assets, as well as an increase in the average interest rate earned on amounts due from credit institutions and cash equivalents. The decrease in the average interest rate on interest-earning assets in 2011, as compared to 2010, was principally due to the decrease in the average rate earned by VEB on amounts due from credit institutions and cash equivalents to 6.3% in 2011 from 7.0% in 2010 which, in turn, reflected the lower proportion in 2011, as compared to 2010, of amounts due from credit institutions, which bear relatively higher rates, as compared to cash equivalents.

The average interest rate on interest-bearing liabilities increased to 6.1% in the six months ended 30 June 2013 from 6.0% in six months ended 30 June 2012. The increase in the average interest rate on interest-bearing liabilities in the six months ended 30 June 2013, as compared to the six months ended 30 June 2012, generally reflected the increase in the average interest rate on amounts due to credit institutions and the CBR as well as

the increase of the share of such amounts in the overall interest-bearing liabilities to 5.8% during the six months ended 30 June 2013 from 4.8% during the six months ended 30 June 2012.

The average interest rate on interest-bearing liabilities increased to 6.0% in 2012 from 5.5% in 2011, after having decreased from 5.6% in 2010. The increase in the average interest rate on interest-bearing liabilities in 2012, as compared to 2011, generally reflected the increase in the average interest rate on amounts due to credit institutions and the CBR as well as the increase of the share of such amounts in the overall interest-bearing liabilities. The decrease in the average interest rate on interest-bearing liabilities in 2011, as compared to 2010, was mainly due to the decrease in the average interest rate on amounts due to customers and the Russian Government to 5.6% in 2011 from 6.5% in 2010 and on NWF deposits to 6.4% in 2011 from 6.7% in 2010, partially offset by the increase in the average interest rate paid on debt securities issued to 6.4% in 2011 from 5.6% in 2010.

AMOUNTS DUE FROM CREDIT INSTITUTIONS

The following table sets forth a breakdown of amounts due from credit institutions as at the dates indicated:

	As at 30 June (unaudited)	As at 31 December		
	2013	2012	2011	2010
		<i>(RUB millions)</i>		
Obligatory reserve with the central banks.....	4,504	4,088	4,774	1,499
Non-interest-bearing deposits with other banks.....	9,839	9,684	9,823	9,602
Subordinated loans issued to Russian credit institutions.....	307,304	305,569	349,940	347,090
Term interest-bearing deposits with Russian credit institutions	101,784	95,076	66,883	57,479
Term interest-bearing deposits with OECD-based credit institutions	8,153	8,114	527	508
Mortgage bonds	3,469	2,212	1,079	-
Term interest-bearing deposits with non-OECD credit institutions	1,284	22,462	25,069	1,182
	436,337	447,205	458,095	417,360
Less allowance for impairment.....	(792)	(729)	(397)	(1,719)
Amounts due from credit institutions	435,545	446,476	457,698	415,641

As at 30 June 2013 and 31 December 2012, 2011 and 2010, amounts due from credit institutions comprised predominantly Rouble-denominated subordinated loans issued to Russian credit institutions by VEB as one of the key state-owned vehicles for the stabilisation of the Russian economy and financial system in accordance with the Financial System Support Law. As at 30 June 2013, VEB had subordinated loans outstanding to 16 Russian banks in an aggregate principal amount of RUB 338,045 million (as compared to RUB 305,569 million as at 31 December 2012, RUB 349,940 million as at 31 December 2011 and RUB 346,880 million as at 31 December 2010). These loans mature between December 2014 and December 2020. As at 31 December 2011 and 2010, subordinated loans also included a Rouble-denominated subordinated loan outstanding in the amount of RUB 210 million, which was provided by VEB to a Russian regional bank in 2007 in the ordinary course of its business before VEB commenced its recovery finance activities (without matching funding and outside of the programme under the Financial System Support Law). This subordinated loan bore interest at an annual rate of 9.5% and matured in July 2012. No new subordinated loans were issued by VEB in 2012. In accordance with amendments made to the Financial System Support Law adopted on 27 July 2010, and the decision of VEB's Supervisory Board, the interest rates VEB charges on these subordinated loans were lowered from 8.0% to 6.5% and from 9.5% to 7.5%. At the time these rates were lowered, the interest rates for the deposits received from the Russian Ministry of Finance (comprised of funds of the NWF) and comprising the matching funding for the subordinated loans were also lowered from 7.0% to 6.25% and 8.5% to 7.25%. As a result, overall, the net interest margin on VEB's subordinated loans to qualifying borrowers under the Financial System Support Law has decreased.

Obligatory reserve with the central banks includes non-interest-bearing cash deposits required to be maintained by VEB's subsidiary banks with the CBR, the National Bank of Belarus and the National Bank of Ukraine (as applicable). The amount of this reserve depends on the level of funds deposited with such credit institutions. The ability of the subsidiary banks to withdraw the reserve deposits is significantly restricted by statute. Pursuant to applicable legislation, VEB is not currently required to deposit any obligatory reserve with the CBR.

Non-interest-bearing deposits with other banks comprise mandatory placements in clearing currencies and are, accordingly, subject to certain restrictions as stipulated under agreements entered into between VEB and the governments of the respective countries issuing the relevant foreign currency. The funds are permitted to be

used for the purchase of goods and services by Russian importers, which purchase clearing currencies for such purpose in tenders organised by VEB under the supervision of the Russian Ministry of Finance.

LOANS TO CUSTOMERS (INCLUDING THOSE PLEDGED UNDER REPURCHASE AGREEMENTS)

VEB's loans to customers, including those pledged under repurchase agreements (before allowance for impairment) increased by 14.8% to RUB 1,941,837 million as at 30 June 2013 from RUB 1,690,823 million as at 31 December 2012, which was primarily due to the growth in the loan portfolio of VEB and its subsidiaries.

VEB's loans to customers (before allowance for impairment) increased by 21.4% to RUB 1,690,823 million as at 31 December 2012 from RUB 1,392,232 million as at 31 December 2011. VEB's loans to customers (before allowance for impairment) increased by 49.4% to RUB 1,392,232 million as at 31 December 2011 from RUB 932,137 million as at 31 December 2010. These year-on-year increases are principally due to the growth in commercial and project financing and net investments in leases as part of VEB's development strategy.

Loans by Type of Finance (including those pledged under repurchase agreements)

The following table sets forth a breakdown of VEB's loans to customers (before allowance for impairment), by type of loan, as at the dates indicated:

	As at 30 June (unaudited)		As at 31 December					
	2013		2012		2011		2010	
	(RUB million)	% of total	(RUB millions)	% of total	(RUB millions)	% of total	(RUB millions)	% of total

Claims under letters of credit	15,374	0.8	13,616	0.8	11,003	0.8	4,933	0.5
Mortgage bonds	1,548	0.1	1,712	0.1	753	0.1	–	–
Other	9,591	0.5	9,625	0.6	28,412	2.0	3,637	0.4
	1,941,626	100.0	1,690,672	100.0	1,392,232	100.0	932,137	100.0
Loans to customers pledged under repurchase agreements	211	0.0	151	0.0	–	–	–	–
Total	1,941,837	100.0	1,690,823	100.0	1,392,232	100.0	932,137	100.0

Commercial loans have increased period-on-period in absolute terms between 31 December 2010 and 30 June 2013. As at 30 June 2013, VEB had commercial loans of RUB 813,963 million, representing 41.9% of total loans to customers, as compared to RUB 746,333 million, representing 44.1% of total loans to customers as at 31 December 2012, RUB 634,076 million, representing 45.5% of total loans to customers as at 31 December 2011 and RUB 437,846 million, representing 47.0% of total loans to customers, as at 31 December 2010. As a development bank, VEB does not itself engage in commercial lending and, accordingly, the year-on-year increases in absolute terms in commercial loans primarily reflected VEB's acquisitions, increases in ownership and consolidation of VEB's banking subsidiaries and the continued overall growth in the activities of these banking subsidiaries as they returned to profitability and increased their lending activities. See "Description of VEB's Business—Principal Subsidiaries and Associates".

Project finance loans increased by 23.8% to RUB 771,194 million as at 30 June 2013, as compared to RUB 622,953 million as at 31 December 2012, after having increased in 2012 by 34.1% to RUB 464,659 million as at 31 December 2011 and after having increased by 24.7% in 2011 from RUB 372,547 million as at 31 December 2010. As a percentage of total loans to customers, project finance loans represented 39.7%, 36.8%, 33.4% and 40.0% of total loans as at 30 June 2013 and 31 December 2012, 2011 and 2010, respectively. The period-on-period increases in the volume of project finance loans in absolute terms primarily resulted from the ongoing growth in VEB's development bank activities and, in particular, its corresponding focus on providing financial support for infrastructure projects in key strategic sectors of the Russian economy.

Net investments in leases increased by 21.2% to RUB 200,108 million as at 30 June 2013, as compared to RUB 165,152 million as at 31 December 2012, after having increased by 33.6% in 2012 from RUB 123,635 million as at 31 December 2011, and after having increased by 160.0% in 2011 from RUB 47,552 million as at 31 December 2010. As a percentage of total loans to customers, net investments in leases represented 10.3%, 9.8%, 8.9% and 5.1% of total loans as at 30 June 2013 and 31 December 2012, 2011 and 2010, respectively. The increase in the volume of net investments in leases in absolute terms and as a percentage of total loans is the result of the increase in VEB-Leasing's finance lease portfolio in 2011.

Financing of operations with securities increased by 9.1% to RUB 56,797 million as at 30 June 2013, as compared to RUB 52,083 million as at 31 December 2012, after having increased by 24.6% in 2012 from RUB 41,810 million as at 31 December 2011, and after having increased by 99.9% in 2011 from RUB 20,918 million as at 31 December 2010. As a percentage of total loans to customers, financing of operations with securities represented 2.9%, 3.1%, 3.0% and 2.2% of total loans as at 30 June 2013 and 31 December 2012, 2011 and 2010, respectively. The period-on-period increases in the volume of financing of operations with securities in absolute terms primarily resulted from the increase in VEB's lending secured by securities.

Back-to-back finance principally represents recovery finance loans made to customers to repay and maintain loans from foreign entities collateralised by securities portfolios, using funds deposited by the CBR with VEB in accordance with the Financial System Support Law. Back-to-back finance loans increased by 0.7% to RUB 35,056 million as at 30 June 2013 from RUB 34,811 million as at 31 December 2012, after having increased in 2012 by 1.4% from RUB 34,328 million as at 31 December 2011, and after having increased by 1,218.3% in 2011 from RUB 2,604 million as at 31 December 2010. As at 30 June 2013 and 31 December 2012, 2011 and 2010, back-to-back finance, represented loans to AHML, which were provided by VEB not for recovery finance purposes but at the expense of the NWF. The increase in the six months ended 30 June 2013, as compared to the year end of 2012, was mainly due to the increase in interest earned on the AMHL loans. The increase in 2012, as compared to 2011, was mainly due to the increase in interest earned on the AMHL loans. The increase in 2011, as compared to 2010, is primarily due to the increase in the amount of loans to AHML. See "*Description of VEB's Business— Key State-owned Vehicle for the Stabilisation of the Russian Economy and Financial System—Recovery Finance—Support for the Mortgage Lending Market*".

Pre-export finance slightly increased to RUB 20,946 million as at 30 June 2013, as compared to RUB 20,363 million as at 31 December 2012, after having increased in 2012 from RUB 12,892 million as at 31 December 2011, and after having decreased in 2011 from RUB 18,595 million as at 31 December 2010. The slight increase in pre-export finance loans in the six months ended 30 June 2013 is primarily due to the increase in pre-export finance in the loan portfolios of ROSEXIMBANK and GLOBEXBANK. The increase in pre-export finance loans in 2012 both in absolute terms and as a percentage of total loans is due to the issuance by VEB of new pre-export finance loans in 2012. The decrease in pre-export finance loans in 2011 in absolute terms, as well as the decrease in this type of finance as a percentage of total loans to customers, from 2.0% of total loans as at 31 December 2010 to 0.9% of total loans as at 31 December 2011 primarily reflected the reduction in demand for this type of finance.

Reverse purchase agreements are used by VEB primarily for the purpose of placing temporarily available funds and, accordingly, the majority of reverse purchase agreements entered into by VEB are short-term contracts and the fluctuations in the amounts of reverse purchase agreements between the reporting dates reflect the timing effect of particular transactions. Reverse repurchase agreements increased to RUB 15,546 million as at 30 June 2013, as compared to RUB 13,909 million as at 31 December 2012, after having decreased in 2012 from RUB 19,339 million as at 31 December 2011, and after having increased in 2011 from RUB 3,899 million as at 31 December 2010. The increase in reverse repurchase transactions as at 30 June 2013, as compared to as at 31 December 2012, primarily reflected the increased level of activity in this type of financing by VEB. The decrease in reverse repurchase transactions as at 31 December 2012, as compared to as at 31 December 2011, primarily reflected the decrease of indebtedness under this type of financing on the balance sheets of VEB and Prominvestbank. The increase in reverse purchase transactions as at 31 December 2011, as compared to 31 December 2010, primary reflects the increased level of activity in this type of financing by VEB.

Loans by Type of Customer

The following table sets forth a breakdown of VEB's loans to customers (before allowance for impairment), by type of customer, as at the dates indicated:

	As at 30 June (unaudited)		As at 31 December					
	2013		2012		2011		2010	
	(RUB millions)	% of total	(RUB millions)	% of total	(RUB millions)	% of total	(RUB millions)	% of total
Private companies	1,552,178	79.9	1,382,400	81.8	1,131,991	81.3	731,254	78.4
State-controlled companies	295,013	15.2	223,577	13.2	173,120	12.4	153,395	16.4
Companies under foreign state control	45,009	2.3	44,741	2.7	37,098	2.7	27,566	3.0
Individuals	43,625	2.2	34,096	2.0	19,997	1.4	11,017	1.2
Regional authorities	1,964	0.1	2,284	0.1	2,794	0.2	7,051	0.8
Individual entrepreneurs....	4,048	0.2	3,725	0.2	2,565	0.2	1,196	0.1
Foreign states	—	—	—	—	24,667	1.8	658	0.1
Total	1,941,837	100.0	1,690,823	100.0	1,392,232	100.0	932,137	100.0

Loans to customers have historically comprised principally loans to private companies and loans to state-controlled entities, both for development purposes and as a result of VEB's recovery finance activities in support of the Russian economy following the global financial crisis. Fluctuations in the level of loans provided to different types of customers occur in the ordinary course of VEB's business. Loans to private companies continue to comprise the bulk of total loans to customers, increasing by 12.3% to RUB 1,552,178 million as at 30 June 2013 from RUB 1,382,400 million as at 31 December 2012 after having increased by 22.1% from RUB 1,131,991 million as at 31 December 2011, and after having increased by 54.8% from RUB 731,254 million as at 31 December 2010. The increase in loans to private companies, in absolute terms, for all periods from 2010 to the six months ended 30 June 2013, was principally a result of the continued overall growth in the activities of VEB and VEB's banking subsidiaries as these subsidiaries returned to profitability and increased their lending activities.

VEB's customer base includes many of Russia's largest banking institutions and corporations, some of which are owned and controlled by the Russian Government. See "*Related Party Transactions*". Loans to state-controlled companies increased by 32.0% to RUB 295,013 million as at 30 June 2013 from RUB 223,577 million as at 31 December 2012, after having increased by 29.1% in 2012 from RUB 173,120 million as at 31 December 2011, and after having increased in 2011 by 12.9% from RUB 153,395 million as at 31 December 2010. The increase for all periods from 2010 to the six months ended 30 June 2013 was primarily the result of VEB's renewed focus on its core development bank activities. As a percentage of total loans, this type of finance increased to 15.2% of total loans as at 30 June 2013 from 13.2% of total loans as at 31 December 2012, after having increased from 12.4% as at 31 December 2011, and after having decreased from 16.4% as at 31 December 2010. The increase in the six months ended 30 June 2013 was primarily due to the disbursements of new tranches of earlier issued loans and the issuance by VEB and VEB-Leasing of new loans to state-controlled companies. The increase in 2012 was primarily due to the issuance by VEB of new loans to state-controlled companies. The decreased in 2011 was primarily as a result of VEB's renewed focus on its core development bank activities and the related provision of significant financing for several large-scale infrastructure and investment projects.

Loans to individuals include loans extended by VEB's banking subsidiaries only as VEB itself does not engage in retail lending activities. Loans to individuals increased by 27.9% to RUB 43,625 million as at 30 June 2013 from RUB 34,096 million as at 31 December 2012, after having increased by 70.5% from RUB 19,997 million as at 31 December 2011, after having increased in 2011 by 81.5% from RUB 11,017 million as at 31 December 2010, primarily reflecting the continued overall growth in the activities of VEB's banking subsidiaries as these subsidiaries returned to profitability and increased their lending activities.

Loans by Economic Sector

The following table sets forth a breakdown of VEB's loans to customers (before allowance for impairment), by economic sector, as at the dates indicated:

	As at 30 June (unaudited)		As at 31 December							
	2013		2012		2011		2010			
	(RUB millions)	% of total	(RUB millions)	% of total	(RUB millions)	% of total	(RUB millions)	% of total	(RUB millions)	% of total

Loans to customers show significant concentrations in the real estate and construction, manufacturing, heavy machinery and military-related goods production, finance and transport sectors. As a percentage of total loans to customers, as at 30 June 2013, as compared to 31 December 2012, loans to customers in the real estate and construction, manufacturing, heavy machinery and military-related goods production transport sectors and loans to individuals have increased, whilst loans to customers in the energy sectors, finance, trade, oil and gas, agriculture and metallurgy sectors have decreased. Such fluctuations in loans to customers by economic sector, for the most part, occur in the ordinary course of VEB's business.

Loans to the real estate and construction sector increased by 27.0% to RUB 447,285 million, representing 23.0% of total loans to customers, as at 30 June 2013 from RUB 352,257 million, representing 20.8% of total loans to customers, as at 31 December 2012, after having increased by 14.1% from RUB 308,815 million, representing 22.2% of total loans to customers, as at 31 December 2011, and after having increased by 22.8% from RUB 251,558 million, representing 26.9% of total loans to customers, as at 31 December 2010. The period-on-period increases in loans to the real estate and construction sector in absolute terms principally reflected this sector's breadth and its key position in the Russian economy, such that borrowers in this sector were targets for lending in the ordinary course of VEB's business in 2010, 2011, 2012 and the six months ended 30 June 2013 when VEB focused on its development bank activities, which involve the provision of significant financing for several large-scale infrastructure and investment projects that are included in the real estate and construction sector.

Loans to the manufacturing, heavy machinery and military-related goods production sector increased by 19.6% to RUB 399,117 million, representing 20.6% of total loans to customers, as at 30 June 2013 from RUB 333,680 million, representing 19.7% of total loans to customers, as at 31 December 2012, after having increased by 30.5% from RUB 255,600 million, representing 18.4% of total loans to customers, as at 31 December 2011, and after having increased by 61.7% from RUB 158,056 million, representing 17.0% of total loans to customers, as at 31 December 2010. The continued period-on-period growth in loans to the manufacturing, heavy machinery and military-related goods production sector, both in absolute terms and as a percentage of total loans to customers, was principally due to VEB's renewed focus on its core development bank lending activities, which involve, in part, the provision of financing to large industrial companies.

Loans to finance companies increased by 7.4% to RUB 304,844 million, representing 15.7% of total loans to customers, as at 30 June 2013 from RUB 283,922 million, representing 16.8% of total loans to customers, as at 31 December 2012, after having increased by 9.4% from RUB 259,426 million, representing 18.6% of total loans to customers, as at 31 December 2011, and after having increased by 64.2% from RUB 157,966 million, representing 16.9% of total loans to customers, as at 31 December 2010. The continued period-on-period growth

in loans to finance companies in absolute terms reflected the provision of an increasing level of project financing in line with VEB's overall growth and renewed focus on its development bank activities in the ordinary course of business.

Loans to the transport sector increased by 18.1% to RUB 237,356 million, representing 12.2% of total loans to customers, as at 30 June 2013 from RUB 200,937 million, representing 11.9% of total loans to customers, as at 31 December 2012, after having increased by 45.2% from RUB 138,405 million, representing 9.9% of total loans to customers, as at 31 December 2011, and after having increased by 142.3% from RUB 57,117 million, representing 6.1% of total loans to customers, as at 31 December 2010. The continued period-on-period growth in loans to the transport sector, both in absolute terms and as a percentage of total loans to customers primarily reflects the increase in the volume of finance leases, which VEB-Leasing enters with the customers in the transport sector.

Loans by Currency

The following table sets forth a breakdown of VEB's loans to customers (before allowance for impairment), by currency, as at the dates indicated:

	As at 30 June (unaudited)		As at 31 December							
	2013		2012		2011		2010			
	<i>(RUB millions)</i>	<i>% of total</i>	<i>(RUB millions)</i>	<i>% of total</i>	<i>(RUB millions)</i>	<i>% of total</i>	<i>(RUB millions)</i>	<i>% of total</i>	<i>(RUB millions)</i>	<i>% of total</i>
Rouble.....	1,108,306	57.1	969,875	57.4	765,908	55.0	464,764	49.9		
U.S. Dollar.....	653,966	33.7	560,237	33.1	445,646	32.0	328,854	35.3		
Euro	116,235	5.9	106,404	6.3	111,749	8.0	70,165	7.5		
Other currencies.....	63,330	3.3	54,307	3.2	68,929	5.0	68,354	7.3		
Total loans to customers.....	<u>1,941,837</u>	<u>100.0</u>	<u>1,690,823</u>	<u>100.0</u>	<u>1,392,232</u>	<u>100.0</u>	<u>932,137</u>	<u>100.0</u>		

As at 30 June 2013, Rouble-denominated loans to customers comprised 57.1% of total loans to customers, U.S. Dollar-denominated loans comprised 33.7% of total loans to customers and Euro-denominated loans to customers comprised 5.9% of total loans to customers. As at 31 December 2012, Rouble-denominated loans to customers comprised 57.4% of total loans to customers, U.S. Dollar-denominated loans comprised 33.1% of total loans to customers and Euro-denominated loans to customers comprised 6.3% of total loans to customers. As at 31 December 2011, Rouble-denominated loans to customers comprised 55.0% of total loans to customers, U.S. Dollar-denominated loans to customers comprised 32.0% of total loans to customers and Euro-denominated loans to customers comprised 8.0% of total loans to customers.

Rouble-denominated loans to customers comprised 49.9% of total loans to customers as at 31 December 2010, U.S. Dollar-denominated loans comprised 35.3% of total loans to customers as at 31 December 2010 and Euro-denominated loans to customers comprised 7.5% of total loans to customers as at 31 December 2010. The period-on-period increase in Rouble-denominated loans during the period under review in absolute terms primarily reflected the growth in VEB's development bank lending activities in the Russian Federation during the period from 2010 to the six months ended 30 June 2013. The increase in Euro-denominated loans in the six months ended 30 June 2013 in absolute terms, as compared to the year end of 2012, reflected the increase in VEB's lending activity and depreciation of the Rouble as compared to the Euro. The period-on-period increase in U.S. Dollar-denominated loans during the period under review in absolute terms was primarily the result of the increase in VEB's lending activity during the period from 2010 to the six months ended 30 June 2013. The slight decrease in Euro-denominated loans in 2012, as compared to 2011, reflected the ordinary course of VEB lending activity, while the increase in 2011, as compared to 2010, reflected the growth in Euro-denominated lending during this period.

Loans by Maturity

The following table sets forth a breakdown of VEB's loans to customers (net of allowance for impairment), by remaining maturity, as at the dates indicated:

	As 30 June (unaudited)		As at 31 December					
	2013		2012		2011		2010	
	(RUB millions)	% of total	(RUB millions)	% of total	(RUB millions)	% of total	(RUB millions)	% of total
Up to 1 month.....	59,280	3,4	52,133	3.5	52,632	4.3	22,001	2.8
1 to 6 months	214,152	12,4	167,505	11.2	151,505	12.3	88,535	11.2
6 to 12 months	190,021	11,0	216,239	14.4	168,944	13.8	114,832	14.6
Over 1 year	1,263,859	73,2	1,061,362	70.9	855,842	69.6	562,558	71.4
No stated maturity.....	—	—	—	—	—	—	—	—
Total loans to customers.....	1,727,312	100.0	1,497,239	100.0	1,228,923	100.0	787,926	100.0

Due to the nature of its activities both as a development bank and as one of the key state-owned vehicles for the stabilisation of the Russian economy and financial system, loans to customers are predominantly long-term, with loans with maturities of more than one year comprising 73.2%, 70.9%, 69.6% and 71.4% of total loans to customers as at 30 June 2013 and 31 December 2012, 2011 and 2010, respectively.

Borrower Concentration

Loans outstanding to VEB's three largest borrowers aggregated to RUB 292,137 million, RUB 264,880 million, RUB 243,102 million, and RUB 210,585 million and comprised 15.0%, 15.7%, 17.5% and 22.6% of total loans to customers, as at 30 June 2013 and 31 December 2012, 2011 and 2010, respectively. At 30 June 2013, VEB had recorded an allowance for impairment of RUB 42,182 million for these loans, as compared to an allowance for impairment of RUB 41,032 as at 31 December 2012, RUB 39,145 million as at 31 December 2011 and RUB 41,359 million as at 31 December 2010. Of these amounts, as at 30 June 2013 and 31 December 2012, 2011 and 2010, respectively, RUB 34,980 million, RUB 32,344 million, RUB 34,988 and RUB 38,586 million was recorded in respect of the loans to an associate to finance the purchase of real estate and other assets from certain borrowers of GLOBEXBANK.

As at 30 June 2013, the loans to VEB's three largest borrowers included (i) a group of loans to an associate of VEB, in the amount of RUB 146,943 million and comprising 7.6% of total loans to customers, a portion of the proceeds of which was applied to finance such associate's purchase of real estate and other assets from certain borrowers of GLOBEXBANK to permit such borrowers to repay obligations owed by them to GLOBEXBANK in connection with the rehabilitation of GLOBEXBANK to restore its financial viability following the global financial crisis; (ii) loans to a group of companies of a Russian holding primarily in the metallurgy sector in the amount of RUB 73,042 million and comprising 3.8% of total loans to customers; and (iii) a loan, made by VEB in the ordinary course of its development bank activities, to a finance company to implement a development project in the metallurgy sector, in the amount of RUB 72,152 million and comprising 3.7% of total loans to customers.

As at 31 December 2012, the loans to VEB's three largest borrowers included (i) a group of loans to an associate of VEB, in the amount of RUB 141,846 million and comprising 8.4% of total loans to customers, a portion of the proceeds of which was applied to finance such associate's purchase of real estate and other assets from certain borrowers of GLOBEXBANK to permit such borrowers to repay obligations owed by them to GLOBEXBANK in connection with the rehabilitation of GLOBEXBANK to restore its financial viability following the global financial crisis; (ii) a loan, made by VEB in the ordinary course of its development bank activities, to a finance company to implement a development project in the metallurgy sector, in the amount of RUB 65,705 million and comprising 3.9% of total loans to customers; and (iii) loans to a group of companies of a Russian holding primarily in the metallurgy sector in the aggregate amount of RUB 57,329 million and comprising 3.5% of VEB's total loans to customers.

As at 31 December 2011, the loans to VEB's three largest borrowers included (i) a group of loans to an associate of VEB, in the amount of RUB 141,708 million and comprising 10.2% of total loans to customers, a portion of the proceeds of which was applied to finance such associate's purchase of real estate and other assets from certain borrowers of GLOBEXBANK to permit such borrowers to repay obligations owed by them to GLOBEXBANK in connection with the rehabilitation of GLOBEXBANK to restore its financial viability following the global financial crisis; (ii) a loan, made by VEB in the ordinary course of its development bank

activities, to a finance company to implement a development project in the metallurgy sector, in the amount of RUB 66,312 million and comprising 4.8% of total loans to customers; and (iii) a group of loans, also made by VEB to a finance company (AHML), in the amount of RUB 35,081 million and comprising 2.5% of total loans to customers.

As at 31 December 2010, the loans to VEB's three largest borrowers included (i) a group of loans to an associate of VEB, in the amount of RUB 135,415 million and comprising 14.4% of total loans to customers, a portion of the proceeds of which was applied to finance such associate's purchase of real estate and other assets from certain borrowers of GLOBEXBANK to permit such borrowers to repay obligations owed by them to GLOBEXBANK in connection with the rehabilitation of GLOBEXBANK to restore its financial viability following the global financial crisis; (ii) a loan, made by VEB in the ordinary course of its development bank activities, to a finance company to implement a development project in the metallurgy sector, in the amount of RUB 54,563 million and comprising 5.9% of total loans to customers; and (iii) a group of loans, also made by VEB in the ordinary course of its development bank activities, to implement a development project in the agriculture sector, in the amount of RUB 20,607 million and comprising 2.2% of total loans to customers.

In addition to the loans to VEB's three largest borrowers, VEB had outstanding loans to 10 further major borrowers or groups of related borrowers in the aggregate amount of RUB 379,621 million, RUB 286,002 million, RUB 241,210 million and RUB 147,587 million, and comprising 19.6%, 16.9%, 17.3% and 15.8% of total loans to customers, as at 30 June 2013 and 31 December 2012, 2011 and 2010, respectively. As at 30 June 2013 and 31 December 2012, 2011 and 2010, VEB had recorded allowance for impairment of these loans to its 10 next largest borrowers in a total amount of RUB 19,541 million, RUB 15,404 million, RUB 14,937 million and RUB 12,878 million, respectively. The increase in the recorded allowance for impairment of these loans for all periods from 2010 to six months ended 30 June 2013 primarily reflected the increase in the aggregate amount of such loans, partially offset by an overall improvement in credit quality.

Loans by Geographic Location

As at 30 June 2013 and 31 December 2012, 2011 and 2010, 83.4%, 83.5%, 81.9% and 82.4%, respectively, of loans to customers were comprised of loans to companies operating in the Russian Federation. This significant geographic concentration reflects VEB's roles as both the principal development bank in the Russian Federation and one of the key state-owned vehicles for the stabilisation of the Russian economy and financial system in accordance with the Financial System Support Law. Most of VEB's loans to non-Russian borrowers are held by Prominvestbank and Bank BelVEB, VEB's Ukrainian and Belarusian (respectively) banking subsidiaries.

SECURITIES PORTFOLIO

Overview

VEB's securities portfolio comprised 17.9%, 20.9%, 22.6% and 28.1% of VEB's total assets as at 30 June 2013 and 31 December 2012, 2011 and 2010, respectively. This portfolio is divided among financial assets at fair value through profit or loss (trading securities), securities available-for-sale and securities held-to-maturity. Financial assets at fair value through profit or loss principally include financial assets classified as held for trading. Financial assets are classified as held for trading if they are acquired principally for the purpose of generating a profit from short-term fluctuations in price or dealers' margin. Non-derivative financial assets with fixed or determinable payments and fixed maturity are classified as held-to-maturity when VEB has the positive intention and ability to hold them to maturity. Available-for-sale financial assets are those non-derivative financial assets that are designated as available-for-sale or are not classified as financial assets at fair value through profit or loss, held-to-maturity investments or loans and receivables. See Note 4 of the Audited Financial Statements for the year ended 31 December 2012.

Financial Assets at Fair Value through Profit or Loss

The following table sets forth a breakdown of VEB's trading portfolio of financial assets at fair value through profit or loss as at the dates indicated:

	As at 30 June (unaudited)		As at 31 December					
	2013		2012		2011		2010	
	(RUB millions)	% of total	(RUB millions)	% of total	(RUB millions)	% of total	(RUB millions)	% of total
Trading financial assets.....	28,860	38.6	28,414	39.4	41,814	44.3	37,277	49.0

Financial assets designated as at fair value through profit or loss.....	22,608	30.2	27,188	37.7	23,080	24.5	27,582	36.2
Financial assets at fair value through profit or loss	74,762	100.0	72,119	100.0	94,362	100.0	76,144	100.0

Trading financial assets

The following table sets forth a breakdown of VEB's trading financial assets as at the dates indicated:

	As at 30 June (unaudited)		As at 31 December				
	2013		2012		2011		2010
	(RUB millions)						
Debt securities:							
Corporate bonds.....	18,307		13,354		17,006		10,839
Municipal and sub-federal bonds, bonds of the Bank of Russia.....	—		—		725		2,501
Federal Loan Bonds (OFZ).....	806		86		3,650		513
	19,113		13,440		21,381		13,853
Eurobonds issued by the Russian Federation.....	2,079		1,442		7,115		10,481
Eurobonds of Russian and foreign issuers	1,010		1,027		1,115		1,875
	22,202		15,909		29,611		26,209
Equity securities:							
Shares	6,451		12,134		11,541		11,068
Other financial assets	207		371		662		—
Trading financial assets.....	28,860		28,414		41,814		37,277

As at 30 June 2013, trading financial assets were comprised 76.9% (as compared to 56.0%, 70.8% and 70.3% as at 31 December 2012, 2011 and 2010, respectively) of debt securities and 22.4% (as compared to 42.7%, 27.6% and 29.7% as at 31 December 2012, 2011 and 2010, respectively) of equity securities. Historically, debt trading securities, in turn, have included principally Russian sovereign Eurobonds, which comprised 9.4% of total debt securities as at 30 June 2013 (as compared to 9.1%, 24% and 40.0% as at 31 December 2012, 2011 and 2010, respectively), as well as corporate bonds, which comprised 82.5% of total debt securities as at 30 June 2013 (as compared to 83.9%, 57.4% and 41.4% as at 31 December 2012, 2011 and 2010, respectively). The movements in the relative proportions of Russian sovereign Eurobonds in the total debt trading securities reflect VEB's ordinary course treasury operations. The movements in the relative proportions of corporate bonds in the total debt trading securities reflect VEB's acquisition of bonds issued by large Russian corporates and its entering into repurchase transactions with respect to such bonds, followed by a return to the securities portfolio of a portion of such securities pursuant to the terms of such repurchase agreements.

Derivative financial assets

Derivative financial assets include forwards, swaps and options. As at 30 June 2013, VEB had derivative financial assets of RUB 23,294 million, as compared to RUB 16,517 million as at 31 December 2012, RUB 29,468 million at 31 December 2011 and RUB 11,285 million as at 31 December 2010. The increase in the six months ended 30 June 2013, as compared to the year end of 2012, was primarily due to change in value of option agreements caused by an increase in the value of the option agreement between VEB and Silverteria Holding Limited with regard to the shares of Open Joint Stock Company "Inter RAO UES". The decrease in 2012, as compared to 2011, was primarily due to the change in value of foreign currency derivatives transactions entered into since 31 December 2011, as well as an early close-out by Bank BelVEB of its foreign currency derivative transactions. The increase in derivative financial assets in 2011, as compared to 2010, was primarily due to the change in value of foreign currency derivatives and option agreements entered into since 31 December 2010.

Financial assets designated as at fair value through profit or loss

Financial assets designated as at fair value through profit or loss include primarily equity shares of Russian and foreign companies, as well as units in the closed-end real estate mutual fund held by one of VEB's banking subsidiaries. As at 30 June 2013, VEB had financial assets designated as at fair value through profit or loss of RUB 22,608 million, of which RUB 6,869 million represented the fair value of shares of a Russian company underlying an option agreement entered into with such company in the six months ended 30 June 2010, which is economically related to VEB's purchase of such shares to finance a large-scale infrastructure project. The losses from the change in the fair value of these shares during the six months ended 30 June 2013 amounted to RUB 6,274 million. As at 31 December 2012, VEB had financial assets designated as at fair value through profit or loss of RUB 27,188 million, of which RUB 13,143 million represented the fair value of shares of the Russian company referred above. The losses from the change in the fair value of these shares during 2012 amounted to RUB 5,171 million. As at 31 December 2011, VEB had financial assets designated as at fair value through profit or loss of RUB 23,080 million, of which RUB 18,314 million represented the fair value of shares of a Russian company referred to above. The losses from the change in the fair value of these shares during 2011 amounted to RUB 6,511 million. As at 31 December 2010, VEB had financial assets designated as at fair value through profit or loss of RUB 27,582 million, of which RUB 24,825 million represented the fair value of the shares of the Russian company referred above. The gain from the change in the fair value of these shares during 2010 amounted to RUB 3,546 million.

Investments Available-for-Sale

The following table sets forth VEB's available-for-sale financial assets as at the dates indicated:

	As at 30 June (unaudited)		As at 31 December							
	2013		2012		2011		2010			
	(RUB millions)	% of total	(RUB millions)	% of total	(RUB millions)	% of total	(RUB millions)	% of total	(RUB millions)	% of total

VEB's portfolio of available-for-sale financial assets includes both debt and equity securities. As at 30 June 2013 and 31 December 2012, 2011 and 2010, debt securities available-for-sale included predominantly corporate bonds whilst equity securities, as at 30 June 2013 and 31 December 2012, 2011 and 2010, were largely comprised of shares of leading Russian corporates and banks. In addition, as at 30 June 2013 and 31 December 2012, equity securities included VEB's investment in the RBCF with fair value of RUB 1,162 million and RUB 1,078 million, respectively

As at 30 June 2013 and 31 December 2012, 2011 and 2010, VEB recognised losses of RUB 3,065 million, RUB 1,969 million, RUB 8,910 million and RUB 22,276 million, respectively, from impairment of available for sale securities.

As at 30 June 2013, other available-for-sale financial assets included the option which in June 2012 VEB sold to Gazprombank with respect to 10.19% of Gazprombank's shares currently owned by VEB.

Equity securities (before allowance for impairment and not including pledged securities) decreased to RUB 169,893 million as at 30 June 2013 from RUB 229,042 million as at 31 December 2012, from RUB 245,011 million as at 31 December 2011, from RUB 284,898 million as at 31 December 2010, primarily reflecting the decrease in the fair value of certain available-for-sale securities as well as the entry by VEB into repurchase transactions regarding the shares of certain large Russian corporates. See "—Primary Factors Affecting VEB's Results of Operations and Capital Structure—Fluctuations in the Value of Securities" and "Description of VEB's Business—Securities Markets and Treasury Operations".

Investment Securities Held-to-Maturity

The following table sets forth VEB's investment securities held-to-maturity as at the dates indicated:

	As at 30 June (unaudited)	As at 31 December		
	2013	2012	2011	2010
	<i>Book Value</i>	<i>Book Value</i>	<i>Book Value</i>	<i>Book Value</i>
		<i>(RUB millions)</i>		
Eurobonds of Russian and foreign issuers	—	15,170	15,127	17,860
Corporate bonds.....	717	724	1,396	2,368
Municipal and sub-federal bonds.....	739	761	1,297	1,338
Federal Loan Bonds (OFZs)	—	—	25	51
Promissory notes.....	—	—	9	—
Total.....	1,456	16,655	17,854	21,617
Less allowance for impairment.....	(73)	(73)	(75)	(81)
Held-to-maturity securities.....	1,383	16,582	17,779	21,536

The six months ended 30 June 2013 decrease of 91.7% in the portfolio of held-to-maturity securities to RUB 1,383 million, as compared to RUB 16,582 million in 2012, the 2012 decrease of 6.7% from RUB 17,779 million in 2011, and the 2011 decrease of 17.4% from RUB 21,536 million in 2010, were primarily due to the repayment in the six months ended 30 June 2013 and in the years 2012 and 2011 of securities at maturity in accordance with their terms. The sharp decrease in the portfolio of held-to-maturity securities in the six months ended 30 June 2013 as compared to the year end of 2012 is predominantly due to the repayment at maturity of Eurobonds of a foreign issuer held by VEB.

SOURCES OF FUNDING

Overview

VEB's principal sources of funding include amounts due to credit institutions, amounts due to the Russian Government and the CBR, amounts due to customers and amounts derived from the issuance of debt securities. Whilst VEB has been principally dependent upon capital and other contributions, loans and deposits from the Russian Government (principally comprising funds of the NWF) and the CBR for its funding, VEB has continued to diversify its funding sources. See "*Risk Factors—VEB could be adversely affected if it does not continue to receive funding from the Russian Government and the CBR*". The Development Bank Law, also permits VEB to raise funds through the issuance of bonds and other securities on domestic and foreign markets, as well as syndicated and bilateral loans denominated in both Roubles and foreign currencies. VEB has issued debt securities in the Russian domestic and international capital markets and entered into several significant bilateral and syndicated loans. See "*Bilateral and Syndicated Loans*" and "*Capitalisation*".

Amounts Due to Credit Institutions

The following table sets forth the breakdown of amounts due to credit institutions as at the dates indicated:

	As at 30 June (unaudited)	As at 31 December		
	2013	2012	2011	2010
		<i>(RUB millions)</i>		
Correspondent loro accounts from Russian credit institutions	56,836	48,010	15,614	7,216
Correspondent loro accounts from other credit institutions.....	8,856	12,641	11,746	7,142
Loans and other placements from Russian credit institutions.....	125,468	191,178	125,441	62,450
Loans and other placements from OECD-based credit institutions	341,463	266,446	258,417	123,114
Loans and other placements from other credit institutions.....	73,822	51,224	51,318	21,987
Deposits from Russian credit organisations – fiduciaries	—	—	2,081	11
Cash collateral on securities lent	—	67	—	—
Repurchase agreements	—	376	7,397	13,107
Total due to credit institutions.....	606,445	569,942	472,014	235,027

Amounts due to credit institutions represented 24.0%, 23.9%, 23.6% and 15.2% of VEB's total liabilities as at 30 June 2013 and 31 December 2012, 2011 and 2010, respectively. In absolute terms, amounts due to credit institutions increased by 6.5% to RUB 606,445 million as at 30 June 2013 from RUB 569,942 million as at 31 December 2012, after having increased in 2012 by 20.7% from RUB 472,014 million in 2011, and after having increased by 100.8% in 2011 from RUB 235,027 million as at 31 December 2010.

The increase in amounts due to credit institutions as at 30 June 2013, as compared to 31 December 2012, primarily reflected the increase by 28.2% in correspondent loro accounts from Russian credit institutions (from RUB 266,446 million as at 31 December 2012 to RUB 341,463 million as at 30 June 2013) and increase by 18.4% in correspondent loro accounts from Russian credit institutions (from RUB 48,010 million as at 31 December 2012 to RUB 56,836 million as at 30 June 2013), partially offset by the decrease by 34.3% in loans and other placements from Russian credit institutions (from RUB 191,178 million as at 31 December 2012 to RUB 125,468 million as at 30 June 2013). The increase in amounts due to credit institutions as at 31 December 2012, as compared to 31 December 2011, primarily reflected the increase by 52.4% in loans and other placements from Russian credit institutions (from RUB 125,441 million in 2011 to RUB 191,178 million in 2012) and increase by 207.5% in correspondent loro accounts from Russian credit institutions (from RUB 15,614 million in 2011 to RUB 48,010 million in 2012), partially offset by the decrease by 94.9% in repurchase agreements (from RUB 7,397 million in 2011 to RUB 376 million in 2012). The increase in amounts due to credit institutions as at 31 December 2011, as compared to 31 December 2010, primarily reflected the increase by 100.9% in loans and other placements from Russian credit institutions (from RUB 62,450 million in 2010 to RUB 125,441 million in 2011), which, in turn, primarily reflected growth in VEB's direct borrowing activities, the increase by 109.9% in loans and other placements from OECD-based credit institutions (from RUB 123,114 million in 2010 to RUB 258,417 million in 2011), and the increase by 133.4% in loans and other placements from other credit institutions (from RUB 21,987 million in 2010 to RUB 51,318 million in 2011).

Bilateral and Syndicated Loans

Bilateral and syndicated loans are a significant source of funding for VEB, with amounts outstanding under such loans representing 21.4%, 21.3%, 21.8% and 13.4% of total liabilities as at 30 June 2013 and 31 December 2012, 2011 and 2010, respectively.

As at the date of this Base Prospectus, VEB was the borrower under the following material bilateral and syndicated loan agreements:

- a syndicated loan facility dated 21 June 2013 with a number of international banks, including Sumitomo Mitsui Banking Corporation Europe Limited and Banc of America Securities Limited to provide financing, in the aggregate principal amount of U.S.\$230 million and with a final maturity of 21 September 2018, for VEB's general funding purposes, including the financing of construction of a stadium for the football club CSKA; as at 30 September 2013, the full amount of this facility was outstanding;
- a bilateral loan agreement dated 20 June 2013 with the European Investment Bank to provide financing, in the aggregate principal amount of €13 million to be disbursed as U.S.\$150 million and with a final maturity in 2023, for the support of small and medium enterprises; as at 30 September 2013, this facility remained undrawn;
- a bilateral loan agreement dated 15 March 2013 with the European Investment Bank to provide financing, in the aggregate principal amount of €200 million and with a final maturity in 2023, for the support of small and medium enterprises;
- a syndicated loan facility dated 18 December 2012 with a number of international banks, including Barclays Bank PLC, The Bank of Tokyo – Mitsubishi UFJ Limited, BNP Paribas, Citibank N.A., London branch, Commerzbank Aktiengesellschaft, Crédit Agricole Corporate and Investment Bank, Deutsche Bank AG, London branch, ING Bank N.V., J.P. Morgan Limited, Mizuho Corporate Bank, Ltd. to provide financing, in the aggregate principal amount of U.S.\$800 million and with a final maturity of 18 December 2015, for VEB's refinancing and general funding purposes; as at 30 September 2013, the full amount of this facility was outstanding;
- a term loan facility dated 14 December 2012 with Banc of America Securities Limited and Bank of America, N.A. to provide financing, in the aggregate principal amount of U.S.\$110 million and with a final maturity of 14 September 2016, for VEB's general corporate purposes;

- a bilateral loan agreement dated 16 November 2012 with KfW to provide financing, in the aggregate principal amount of U.S.\$110 million and with a final maturity of 30 June 2018, for refinancing of certain financial institutions;
- a term loan facility dated 31 July 2012 with Sumitomo Mitsui Banking Corporation and Sumitomo Mitsui Finance Dublin Limited to provide financing, in the aggregate principal amount of U.S.\$240 million and with a final maturity of 31 July 2017, for VEB's general corporate purposes;
- a bilateral loan agreement dated 5 June 2012 with China Development Bank Corporation to provide financing, in the aggregate principal amount of U.S.\$1,430 million and with a final maturity in 2026, for the construction of an aluminium factory in the Irkutsk region; as at 30 September 2013, the amount outstanding under this agreement was U.S.\$1,000 million;
- a bilateral loan agreement under an export credit agency coverage dated 27 December 2011 with Deutsche Bank AG to provide financing, in the aggregate principal amount of RUB 814 million and with a final maturity in 2018, and a bilateral loan agreement dated 30 December 2011 with Deutsche Bank AG to provide financing, in the aggregate principal amount of €70 million and with a final maturity in 2016, each for the construction of a pig farm in the Voronezh region; as at 30 September 2013, the amount outstanding under the first agreement was RUB 462 million, and the amount outstanding under the under the second agreement was €53 million;
- a bilateral loan agreement dated 22 December 2011 with HSBC Bank PLC to provide financing, in the aggregate principal amount of U.S.\$100 million and with a final maturity in 2019 and a bilateral loan agreement dated 16 August 2011 with HSBC Bank PLC to provide financing, in the aggregate principal amount of U.S.\$42 million and with a final maturity in 2020, each for the construction of a cattle farm, a slaughterhouse and a meat processing plant in the Bryansk region; as at 30 September 2013, the amount outstanding was U.S.\$79 million under the first agreement, and U.S.\$32 million under the second agreement;
- a bilateral loan agreement under SACE (Italian export insurance agency) coverage dated 5 August 2011 with HSBC Bank PLC to provide financing in the aggregate principal amount of U.S.\$115 million and with a final maturity in 2018, for the construction of the second arctic shuttle tanker of OJSC "Sovkomflot"; as at 30 September 2013, the amount outstanding under this agreement was U.S.\$82 million;
- a loan agreement under an export credit agency coverage dated 17 June 2011 with Japan Bank for International Cooperation, The Bank of Tokyo – Mitsubishi UFJ Limited and Sumitomo Mitsui Banking Corporation to provide financing, in the aggregate principal amount of U.S.\$1,009 million and with a final maturity in 2025, and a bilateral loan agreement dated 28 September 2011 with Sumitomo Mitsui Banking Corporation to provide financing, in the aggregate principal amount of U.S.\$500 million and with a final maturity in 2016, each for the construction of an ammonia, methanol and carbamide production complex in Tatarstan; as at 30 September 2013, the amount outstanding under the first agreement was U.S.\$609 million and the full amount under the second agreement was outstanding;
- a syndicated loan facility dated 28 April 2011 with a number of international banks, including Barclays Bank PLC, The Bank of Tokyo – Mitsubishi UFJ Limited, BNP Paribas SA, Citigroup, Commerzbank, Crédit Agricole Corporate and Investment Bank, Goldman Sachs, ING Bank N.V., JPMorgan, Mizuho Corporate Bank, Morgan Stanley, Société Générale SA, Sumitomo Mitsui Banking Corporation, WestLB AG, The Royal Bank of Scotland plc, HSBC Bank PLC, Credit Suisse, Merrill Lynch and China Development Bank, to provide financing, in the aggregate principal amount of U.S.\$2,450 million and with a final maturity of 28 April 2014, for VEB's current investment activities; as at 30 September 2013, the full amount of this facility was outstanding;
- a bilateral loan agreement dated 27 April 2011 with WestLB AG to provide financing, in the aggregate principal amount of €80 million and with a final maturity of 2016, for the establishment of a domestic housing construction business in the Rostov region; as at 30 September 2013, the full amount of this facility was outstanding;
- a bilateral loan agreement under an export credit agency coverage dated 26 April 2011 with HSBC Bank PLC, in the aggregate principal amount of €156 million and with a final maturity of 2021 for the

construction of a cement plant in the Kaluga region; as at 30 September 2013, the full amount under this facility agreement was outstanding;

- a bilateral loan agreement dated 31 March 2011 with Sumitomo Mitsui Banking Corporation to provide financing, in the aggregate principal amount of €255 million and with a final maturity of 31 March 2016, for the acquisition and subsequent modernisation of an oil refinery in the Republic of Serbia; as at 30 September 2013, the full amount of this facility was outstanding;
- a bilateral loan agreement dated 3 November 2010 with WestLB AG to provide financing, in the aggregate principal amount of U.S.\$115 million and with a final maturity of 11 November 2013, within the *Schuldschein* (SSD) project for the purposes of financing the construction of arctic shuttle tankers; as at 30 September 2013, the full amount of this facility was outstanding;
- a syndicated loan facility dated 22 January 2010 with a number of leading international banks, including Calyon, Deutsche Bank AG, Frankfurt Branch, Intesa Sanpaolo Bank Ireland PLC, ING Bank N.V., Frankfurt Branch, Société Générale, KfW IPEX-Bank GmbH and Sumitomo Mitsui Corporation Europe Limited, in the aggregate principal amount of U.S.\$534 million and with a final maturity of 31 October 2022, to provide financing for the construction of facilities for the production of polypropylene in the city of Tobolsk in the Tyumen region; as at 30 September 2013, the amount outstanding under this facility was U.S.\$236 million;
- a bilateral loan agreement dated 14 June 2009 with China Development Banking Corporation (under a U.S.\$1,000 million framework agreement) to provide financing, in the aggregate principal amount of U.S.\$310 million and with a final maturity of 22 June 2018, to finance the construction of a cement factory in the City of Slantsy in the Leningrad region; as at 30 September 2013, the amount outstanding under this facility was U.S.\$290 million; and
- a bilateral loan agreement dated 19 March 2009 with Sumitomo Mitsui Banking Corporation to provide financing, in the aggregate principal amount of U.S.\$180 million and with a final maturity of 28 June 2019, for the construction of Terminal 3 at Sheremetyevo International Airport in Moscow; as at 30 September 2013, the amount outstanding under this agreement was U.S.\$179 million.

VEB and its subsidiaries are subject to a number of financial ratios and other restrictive covenants under certain of their respective bilateral and syndicated loan facilities. VEB's management believes that VEB is in compliance with all such financial tests and covenants as at the date of this Base Prospectus.

Amounts Due to the Russian Government and the CBR

In addition to direct capital contributions (see "*Status as a State Corporation and Related Regulatory Environment—Charter Capital*"), the Russian Ministry of Finance provides funds to VEB by placing unsecured deposits with it. The CBR also places funds on deposit with VEB. As at the date of this Base Prospectus, deposits from the Russian Ministry of Finance and from the CBR comprise VEB's primary source of funding, together representing 40.2%, 41.1%, 44.2% and 52.6% of total liabilities as at 30 June 2013 and 31 December 2012, 2011 and 2010, respectively.

The following table sets forth a breakdown of funds provided to VEB by the Russian Government and its authorised institutions as at the dates indicated:

	As at 30 June (unaudited)		As at 31 December					
	2013		2012		2011		2010

Amounts Due to the Russian Ministry of Finance and the Russian Government

As at 30 June 2013 and 31 December 2012, 2011 and 2010, interest-bearing loans and deposits from the Russian Ministry of Finance included (in addition to currency deposits and funds for financing credit organisations) Rouble-denominated deposits (principally comprised of funds of the NWF) placed with VEB pursuant to the Financial System Support Law in the amount of RUB 332,172 million, RUB 330,674 million, RUB 375,243 million and RUB 372, 270 million, respectively.

As at 30 June 2013, the Rouble-denominated deposits (comprised of funds of the NWF) placed with VEB had maturity dates ranging from December 2014 through December 2020 and carried interest at annual rates of 6.25% and 7.25%.

In June 2012, as a result of the early repayment of a portion of a subordinated loan by a Russian credit institution, VEB partially repaid its liabilities in accordance with the Financial System Support Law. Simultaneously, the Russian Ministry of Finance placed with VEB a new deposit intended to finance the acquisition of a financial asset. This deposit matures in June 2016. As at 30 June 2013, the deposit amounted to RUB 48,669 million.

In addition, at 30 June 2013, 31 December 2012 and 31 December 2011, interest-bearing Rouble-denominated deposits from the Russian Ministry of Finance included funds of NWF intended to finance through SME Bank credit institutions and legal entities supporting small and medium enterprises. At 30 June 2013, the amount of financing was RUB 28,476 million. The deposits mature in December 2017.

At 30 June 2013, interest-bearing deposits from the Russian Ministry of Finance also included RUB-denominated deposits of NWF in the amount of RUB 34,983 million, which mature in May 2020, placed with VEB pursuant to Financial System Support Law for further lending to AHML. These deposits carry interest at rates below the market level. In addition to the above, the interest-bearing deposits from the Russian Ministry of Finance include U.S.\$-denominated funds of NWF intended to finance investment projects. At 30 June 2013, the amount of financing was RUB 209,491 million maturing in December 2014.

Amounts Due to the CBR

Interest-bearing deposits due to the CBR decreased by 21.1% to RUB 239,052 million as at 30 June 2013 from RUB 303,075 million as at 31 December 2012, after having increased by 34.3% in 2012 from RUB 225,664 million as at 31 December 2011, and after having increased by 6.6% in 2011 from RUB 211,647 million as at 31 December 2010.

As at 30 June 2013 and 31 December 2012, 2011 and 2010, interest-bearing deposits from the CBR included:

- special purpose Rouble-denominated deposits in the aggregate amount of RUB 86,804 million, RUB 85,433 million, RUB 85,561 million and RUB 86,682 million, respectively, initially maturing in 2013 later extended until 2014, which VEB had the right to utilise to provide financial support to GLOBEXBANK and which VEB has fully utilised in accordance with their terms; and
- special purpose Rouble-denominated deposits in the aggregate amount of RUB 123,341 million, RUB 123,548 million, RUB 123,925 million and RUB 124,462 million, respectively, initially maturing in 2013 but later extended until 2014, which VEB had the right to utilise to provide financial support to Sviaz-Bank and which VEB has fully utilised in accordance with their terms.

In addition, at 30 June 2013, interest-bearing deposits of the Bank of Russia included short-term Rouble-denominated deposits raised by VEB and its subsidiaries in the amount of RUB 28,907 million maturing from July 2013 to June 2014.

Amounts Due to Customers

The following table sets forth a breakdown of amounts due to customers, by type of customer, as at the dates indicated:

	As at 30 June (unaudited)	As at 31 December		
	2013	2012	2011	2010
		<i>(RUB millions)</i>		
State and state-controlled companies	127,265	103,155	125,750	112,986

Employees and other individuals	106,109	96,631	97,434	82,417
Companies under foreign state control	3,243	4,404	9,055	4,999
Total	358,187	335,827	352,424	290,098

Amounts due to customers increased by 6.7% to RUB 358,187 million as at 30 June 2013 from RUB 335,827 million as at 31 December 2012, after having decreased in 2012 by 4.7% from RUB 352,424 million as at 31 December 2011, and after having increased in 2011 by 21.5 % in 2011, as compared to RUB 290,098 million as at 31 December 2010. The increase in amounts due to customers as at 30 June 2013, as compared to 31 December 2012, largely reflected the increase in average balance on current accounts with VEB and increase in the amount of deposits placed by two subsidiary banks. The decrease in amounts due to customers as at 31 December 2012, as compared to 31 December 2011, largely reflected the decrease in term deposits due to their maturity. The increase in amounts due to customers as at 31 December 2011, as compared to 31 December 2010, largely reflected the overall growth in VEB's business activities and those of its banking subsidiaries as these subsidiaries returned to profitability and increased their lending activities.

Amounts due to state-controlled companies increased by 23.4% to RUB 127,265 million as at 30 June 2013 from RUB 103,155 million as at 31 December 2012, after having decreased in 2012 by 18.0% from RUB 125,750 million as at 31 December 2011, and after having increased by 11.3% in 2011 from RUB 112,986 million as at 31 December 2010. The increase in the six months ended 30 June 2013, as compared to the year end of 2012, was largely due to the increase in average balance on current accounts with VEB and increase in the amount of deposits placed by VEB's subsidiaries. The decrease in 2012, as compared to 2011, was largely due to the decrease in term deposits of state-controlled companies due to their maturity. The increase in 2011, as compared to 2010, mainly reflected the overall growth in VEB's business and the related increase in the number of its customers due to its renewed focus on its core development banking activities.

Amounts due to private companies decreased by 7.6% to RUB 121,569 million as at 30 June 2013 from RUB 131,637 million as at 31 December 2012, after having increased by 9.5% from RUB 120,185 million as at 31 December 2011, and after having increased by 34.0% in 2011 from RUB 89,696 million as at 31 December 2010. These increases, in each case, principally reflected the overall growth in VEB's business and the related increase in the number of its customers due to its renewed focus on its core development banking activities.

Amounts due to employees and other individuals are largely amounts held through VEB's banking subsidiaries. The 9.8% increase in the amounts due to employees and other individuals to RUB 106,109 million as at 30 June 2013 from RUB 96,631 million as at 31 December 2012, after having the slightly decreased in 2012 from RUB 97,434 million as at 31 December 2011, and after having increased by 18.2% in 2011 from RUB 82,417 million as at 31 December 2010, principally reflected the fluctuations in the business activities of these subsidiaries in the six months ended 30 June 2013, 2012 and 2011.

The following table sets forth a breakdown of VEB's amounts due to customers, by type of account, as at the dates indicated:

	As at 30 June (unaudited)	As at 31 December		
	2013	2012	2011	2010
		<i>(RUB millions)</i>		
Customer current accounts.....	132,520	121,227	122,294	127,443
Term deposits	225,128	213,117	228,771	162,384
Repurchase agreements.....	56	623	1,316	271
Cash collateral on securities lent.....	436	438	—	—
Other amounts due to customers.....	47	422	43	—
Total due to customers	358,187	335,827	352,424	290,098

Customer current accounts increased by 9.3% to RUB 132,520 million as at 30 June 2013 from RUB 121,227 million as at 31 December 2012, after having decreased by 0.9% in 2012 from RUB 122,294 million as at 31 December 2011, and after having decreased by 4.0% in 2011 from RUB 127,443 million as at 31 December 2010. Slight increase in the customer current accounts in the six months ended 30 June 2013 and slight decreases in the customer current accounts in the years of 2012 and 2011 were primarily due to the fluctuations occurring in VEB's ordinary course of business.

Meanwhile, term deposits increased by 5.6% to RUB 225,128 million as at 30 June 2013 from RUB 213,117 million as at 31 December 2012, after having decreased by 6.8% in 2012 from RUB 228,771 million as at 31 December 2011, and after having increased by 40.9% in 2011 from RUB 162,384 million as at 31 December 2010. The increase in term deposits in the six months ended 30 June 2013 was largely due to the increase in term deposits placed with VEB's subsidiaries. The decrease in term deposits in 2012 was largely due to the decrease in the amount of term deposits due to their maturity. The increase in term deposits in 2011 principally reflected the overall growth in VEB's business activities in that year and the temporary placement by borrowers of the proceeds of loans from VEB in current accounts and term deposits with VEB prior to the pending application of the borrowed funds for the intended purposes under the respective financings.

As at 30 June 2013 and 31 December 2012, 2011 and 2010, term deposits included deposits of individuals in the aggregate amounts of RUB 90,343 million, RUB 81,744 million, RUB 79,534 million and RUB 65,745 million, respectively. In accordance with the Russian Civil Code, VEB and its Russian subsidiaries are obliged to repay term deposits of individuals upon demand, whilst, in accordance with applicable banking laws in Belarus and Ukraine, respectively, Bank BelVEB, VEB's Belarusian banking subsidiary, and Prominvestbank, VEB's Ukrainian banking subsidiary, are obliged to repay term deposits of individuals within five days of demand.

The following table sets forth a breakdown of amounts due to VEB's 10 largest customers, by the type of industry, in which such customer operates, as at the dates indicated:

	As at 30 June (unaudited)	As at 31 December		
	2013	2012	2011	2010
		<i>(RUB millions)</i>		
Telecommunication	40,686	37,383	36,369	39,408
Manufacturers of heavy machinery and military-related goods.....	33,062	30,885	14,673	11,786
Financial organisations	18,049	21,769	18,932	—
Infrastructure development	5,208	5,070	32,002	30,114
Trade.....	3,689	—	—	—
Real estate and construction.....	3,459	—	—	—
Other.....	3,346	—	—	—
Mining	—	9,226	3,513	—
Energy.....	—	—	8,293	7,254
Transportation.....	—	—	4,294	16,592
Metallurgy	—	—	—	4,715
Total.....	107,499	104,333	118,076	109,869

As at 30 June 2013 and 31 December 2012, 2011 and 2010, amounts due to VEB's four largest customers were RUB 83,931 million, RUB 76,942 million, RUB 92,625 million and RUB 83,567 million and comprised 23.4%, 22.9%, 26.3% and 28.8% of the total amount due to customers, respectively.

Amounts due to customers in the telecommunications sector increased by 8.8% to RUB 40,686 million as at 30 June 2013 from RUB 37,383 million as at 31 December 2012, after having increased by 2.8% in 2012 from RUB 36,369 million as at 31 December 2011, and after having decreased in 2011 by 7.7% from RUB 39,408 million as at 31 December 2010. The higher amounts due to the telecommunications sector as at 30 June 2013, as compared to 31 December 2012, primarily reflected the growth of Sviaz-Bank, which has a high number of customers involved in the telecommunications sector. The higher amounts due to the telecommunications sector as at 31 December 2012, as compared to 31 December 2011, primarily reflected the growth of Sviaz-Bank, which has a high number of customers involved in the telecommunications sector. The decrease in amounts due to the telecommunications sector as at 31 December 2011, as compared to 31 December 2010, primarily reflected a decrease in the amount of funds placed on deposit with Sviaz-Bank by one of its major customers operating in the telecommunications sector.

Amounts due to manufacturers of heavy machinery and military-related goods increased by 7.0% to RUB 33,062 million as at 30 June 2013 from RUB 30,885 million as at 31 December 2012, after having increased by 110.5% in 2012 from RUB 14,673 million as at 31 December 2011, and after having increased by 24.5% in 2011 from RUB 11,786 million as at 31 December 2010. These period-on-period increases primarily reflected the increase in the amount of funds placed on deposit by customers operating in this sector of the economy.

Amounts due to financial organisation increased by 15.0% to RUB 21,769 million as at 31 December 2012, as compared to RUB 18,932 million as at 31 December 2011, after having increased in 2011 from zero as at 31 December 2010. These year-on-year increases primarily reflected the overall increase in the number of customers which are financial organisations.

Amounts due to infrastructure development companies increased by 2.7% to RUB 5,208 million as at 30 June 2013 from RUB 5,070 million as at 31 December 2012, after having decreased by 84.2% in 2012 from RUB 32,002 million as at 31 December 2011, and after having increased by 6.3% in 2011 from RUB 30,114 million as at 31 December 2010. The increase in amounts due to infrastructure development customers in the six months ended 30 June 2013, as compared to the year end of 2012, was primarily due to an increase in the amount of funds placed on deposit by one of the largest customers operating in this sector of the economy. The sharp decrease in amounts due to infrastructure development customers in 2012, as compared to 2011, was primarily due to the decrease in the amount of term deposit by one of the customers due to such deposit's maturity. The increase in amounts due to infrastructure development in 2011, as compared to 2010, was primarily due to VEB's renewed focus on development banking activities.

Debt Securities Issued

The Programme was established in 2010. As at 30 September 2013, U.S.\$4,950 million in aggregate nominal amount of U.S. Dollar-denominated Notes, CHF 500 million in aggregate nominal amount of Swiss Franc-denominated Notes and €1,500 million in aggregate nominal amount of Euro-denominated Notes were outstanding under the Programme.

The Russian domestic capital markets are also a growing source of funding for VEB in absolute terms, amounting to RUB 228,051 million, RUB 200,643 million, RUB 126,315 million and RUB 87,401 million as at 30 June 2013 and 31 December 2012, 2011 and 2010, respectively, and representing 9.0%, 8.4%, 6.3% and 5.6% of total liabilities as at 30 June 2013 and 31 December 2012, 2011 and 2010, respectively. The following table sets forth a breakdown of the principal components of VEB's debt securities outstanding as at the dates indicated:

	As at 30 June (unaudited)	As at 31 December		
	2013	2012	2011	2010
		<i>(RUB millions)</i>		
Eurobonds.....	259,880	182,902	134,715	99,546
Bonds.....	199,045	181,639	107,430	71,423
Promissory notes.....	28,993	18,781	18,394	15,976
European commercial paper	1,134	5,394	—	—
Certificates of deposit and saving certificates ...	13	223	491	2
Total debt securities issued	489,065	388,939	261,030	186,947

Debt securities issued increased by 25.7% to RUB 489,065 million as at 30 June 2013 from RUB 388,939 million as at 31 December 2012, after having increased by 49.0% in 2012 from RUB 261,030 million as at 31 December 2011, and after having increased by 39.6% from RUB 186,947 million as at 31 December 2010.

The increase in debt securities issued as at 30 June 2013, as compared to 31 December 2012, was principally due to new issuances during the six months ended 30 June 2013 of debt securities by VEB, its subsidiaries and the Issuer, including Euro-denominated Notes issued under the Programme (Series 7 and 8) in an aggregate nominal amount of €1,500 million, which were placed in the international capital markets, Rouble- and U.S. Dollar- denominated bonds issued by VEB-Leasing in the aggregate nominal amount of RUB 5,000 million and U.S.\$400 million, respectively, and four issues of European commercial paper with the aggregate nominal value of U.S.\$190 million placed by a subsidiary of VEB in the international capital markets.

In line with VEB's strategy to diversify its funding sources, the increase in debt securities issued as at 31 December 2012, as compared to 31 December 2011, was principally due to new issuances during 2012 of debt securities by VEB, its subsidiaries and the Issuer, including U.S. Dollar-denominated Notes issued under the Programme (Series 5 and 6) in an aggregate nominal amount of U.S.\$1,750 million, which were placed in the international capital markets, Rouble-denominated non-convertible documentary bearer bonds issued by VEB with a variety of fixed rates in an aggregate nominal amount of RUB 30,000 million, which were placed in the domestic capital market, Rouble-denominated bonds issued by subsidiaries of VEB in an aggregate nominal amount of RUB 40,000 million; four issues of European commercial paper with the aggregate nominal value of U.S.\$190 million placed by a subsidiary of VEB in the international capital markets, four issues of U.S. Dollar-denominated bonds with the aggregate nominal value of U.S.\$600 million placed by VEB-Leasing and U.S. Dollar-denominated interest-bearing, non-convertible bearer bonds in the aggregate principal amount of U.S.\$500 million, BYR-denominated bonds issued by subsidiaries of VEB in an aggregate nominal amount of BYR 214,070 million (equivalent of RUB 818 million as of the issuance date).

The increase in debt securities issued as at 31 December 2011, as compared to 31 December 2010, was principally due to new issuances during 2011 of debt securities by VEB, its subsidiaries and the Issuer, including Swiss Franc-denominated Notes issued under the Programme (Series 4) in an aggregate nominal amount of CHF 500 million, which were placed in the international capital markets, and Rouble-denominated non-convertible documentary bearer bonds issued by VEB with a variety of fixed rates in an aggregate nominal amount of RUB 30,000 million, which were placed in the domestic capital market.

Debt securities issued as at 30 June 2013 also included interest-bearing promissory notes denominated in RUB, U.S. Dollar and Euro maturing before December 2049. At 30 June 2013, interest rates were from 1.0% to 12.3% for RUB-denominated promissory notes (as compared to rates from 0.1% to 9.5% as at 31 December 2012 and 2011), from 0.2% to 8.5% for U.S. Dollar-denominated promissory notes (as compared to rates from 0.2% to 8.5% as at 31 December 2012 and 0.2% to 4.9% as at 31 December 2011) and from 0.4% for Euro-denominated promissory notes (as compared to rates from 0.4% to 1.6% as at 31 December 2012 and 0.5% to 5% as at 31 December 2011).

As at 30 June 2013, debt securities issued included Rouble-denominated saving certificates issued by a subsidiary bank of VEB at interest rates from 0.1% to 0.5% maturing in March 2022. As at 31 December 2012, debt securities issued included Rouble-denominated saving certificates issued by a subsidiary bank of VEB at interest rates from 0.1% to 9% maturing from January 2013 to March 2022, as well as Rouble-denominated deposit certificates placed by VEB's subsidiary bank at an interest rate of 9.8% maturing in May 2013. As at 31 December 2011, debt securities issued included Rouble-denominated saving certificates issued by a subsidiary bank of VEB at interest rates from 0.1% to 9% maturing in March 2022, as well as Rouble-denominated deposit certificates placed by VEB's subsidiary bank at interest rates from 3% to 7.5% maturing in May 2012.

Indebtedness by Maturity

The following table sets forth a breakdown of VEB's indebtedness, excluding receivables from the Russian Government under the London Club arrangements and amounts due to the London Club creditors, by remaining maturity, as at the dates indicated:

	As at 30 June (unaudited)		As at 31 December

DESCRIPTION OF VEB'S BUSINESS

OVERVIEW

VEB is a state corporation established pursuant to the laws of the Russian Federation. Its status, business purposes, functions and powers are governed by the Development Bank Law, the Financial System Support Law, the 2007 Memorandum and other Russian federal laws and regulations. VEB operates principally in four capacities: (i) as a development bank; (ii) as one of the key state-owned vehicles for the stabilisation of the Russian economy and financial system (although, as at the date of this Base Prospectus, no new recovery finance is being provided); (iii) as an agent of the Russian Government, including, in particular, in respect of the management of the debt obligations of the Russian Government and the former Soviet Union, as well as obligations owed to the Russian Federation by debtor countries and other borrowers, and the management of certain pension funds through STMC, a separate division of VEB, which is segregated from VEB's banking and other operations; and (iv) as a universal depository in the Russian Federation. Under the Development Bank Law, VEB is authorised to conduct banking operations without a licence from the CBR and is generally not required to comply with regulatory requirements of the CBR applicable to commercial banks. See "*Status as a State Corporation and Related Regulatory Environment—Legal and Regulatory Framework*". Beginning in late 2009 and in 2010, as the Russian economy began to show signs of improvement, VEB has focused on its development bank activities and has ceased to provide new recovery finance. VEB expects that the related change in the mix of its business will continue at least in the near to medium term.

VEB has four banking subsidiaries in the Russian Federation (SME Bank, ROSEXIMBANK, Sviaz-Bank and GLOBEXBANK), one in Belarus (Bank BelVEB) and one in Ukraine (Prominvestbank). Other significant subsidiaries include: (i) VEB Capital, the principal activities of which include holding and managing certain of VEB's investment assets, conducting operations on the Russian financial markets and providing financial advisory services, including, in particular, arranging and placing mortgage-backed bonds; (ii) VEB-Leasing, the principal activities of which include finance leasing of high-technology equipment, helicopters and related equipment to lessees in the Russian Federation; (iii) VEB Engineering, which is primarily engaged in the provision of engineering support for investment projects currently being implemented or financed by VEB, which include, in particular, those relating to the 2014 Winter Olympics; (iv) FCPF, which is primarily engaged in VEB's programme of providing financial assistance for the implementation of projects aimed at regional and urban development in Russia with the participation of regional and municipal authorities; (v) NCDC, whose principal activities include supporting investment projects implemented (or to be implemented) in the North Caucasus and advising regional authorities in connection therewith; (vi) EXIAR, whose principal activity is to promote the Russian export market by providing credit insurance and guarantees to Russian exporters with the support of the State; (vii) Far East and Baikal Region Development Fund, which focuses on promoting investment projects in the Far East and the Baikal regions of the Russian Federation; (viii) RDIF, a long-term investment mutual fund, which is managed by RDIF Management Company; (ix) RDIF Management Company, whose principal objective is fostering of the environment that encourages foreign investments in different sectors of the Russian economy, including energy, healthcare, agriculture and logistics); (x) Kraslesinvest, whose principal activity is construction of a timber processing complex in the Krasnoyarsk region of the Russian Federation; and (xi) two closed-end mutual hedge funds, MRIF and MRIF-II, which serve as principal vehicles for VEB's investments in the Macquarie Russia & CIS Infrastructure Fund. See "*—Principal Subsidiaries and Associates*".

As the principal development bank of the Russian Federation, one of VEB's principal functions is to increase the competitiveness and diversification of the Russian economy, in particular, by promoting investment activity in sectors that are of strategic importance to the Russian Government. VEB acts as a lender, investor, guarantor, manager, arranger and consultant in connection with its development bank activities. VEB's core operations, investment and financial priorities, borrower limits and underlying principles for financing activities as the principal development bank of the Russian Federation are principally set forth in the Development Bank Law and the 2007 Memorandum. As a development bank, VEB does not compete with commercial lending and financial institutions in providing finance to customers; rather, pursuant to the 2007 Memorandum, VEB gives preference to investment projects, such as infrastructure projects and projects focusing on technological and industrial innovation, which are not typically eligible for financing on terms acceptable to commercial banks and other non-specialist market investors. As part of its recovery finance activities in support of the financial sector, VEB acquired certain distressed commercial banks, including a 90.0% interest in Sviaz-Bank in 2008, which was gradually increased to 99.5% in 2009; and a 98.9% interest in GLOBEXBANK in 2009, which was gradually increased to 99.2% in 2010 and to 99.99% in 2011. See "*—VEB as the Development Bank of the Russian Federation*".

From October 2008 through early 2010, VEB was also actively involved, pursuant to the Financial System Support Law and related decisions of VEB's Supervisory Board, in addressing the effects of the global financial crisis on the Russian economy. As one of the key players in maintaining the stability of the Russian banking sector and financial system during the global financial crisis, VEB provided recovery finance to Russian banks and corporate entities suffering from the effects of the economic turmoil. See "*—Key State-owned Vehicle for the Stabilisation of the Russian Economy and Financial System*". Although a number of VEB's recovery finance programmes continue in effect, as the Russian economy began to show signs of improvement, VEB has ceased to provide new recovery finance and reduced its exposure to borrowers who had received recovery finance pursuant to programmes established by VEB under the Financial System Support Law.

As an agent of the Russian Government, VEB manages debt obligations of the Russian Federation and the former Soviet Union, as well as debt obligations owed to the Russian Federation by sovereign states, financial institutions and commercial entities. In this capacity, its responsibilities include record-keeping, reconciliation and settlement activities. See "*—VEB as Agent for the Russian Government*". In addition, STMC is responsible for managing the pension savings of insured Russian citizens who have not transferred their savings to private pension funds or private asset management companies, as well as those who have selected VEB as their pension fund manager. STMC is also responsible for managing the payout reserve of the State Pension Fund. See "*—VEB as Agent for the Russian Government—Pension Funds Management (STMC)*".

VEB acts as a universal depository for a broad range of Russian and foreign securities. In this capacity, VEB delivers a range of depository, settlement, information and custody services for investors and professional participants in the Russian and foreign securities markets. See "*—Depository Operations*".

VEB operates out of its principal office in Moscow, seven representative offices within the Russian Federation (in St. Petersburg, Khabarovsk, Krasnoyarsk, Pyatigorsk, Ekaterinburg, Rostov-on-Don and Nizhny Novgorod) and 10 representative offices outside the Russian Federation (in the United States of America, India (two), Switzerland, Italy, China, the Republic of South Africa, Germany, France and the United Kingdom).

VEB prepares its consolidated financial statements in accordance with IFRS. As at 30 June 2013, VEB had total assets of RUB 3,122,628 million and total net loans (defined as the sum of amounts due from credit institutions and loans to customers, in each case, less allowance for impairment) of RUB 2,162,857 million, whilst VEB had net interest income of RUB 46,672 million and net income of RUB 824 million for the six months ended 30 June 2013.

VEB continues to receive the largest portion of its funding: (i) from the Russian Government in the form of capital contributions, which may be utilised for all general corporate purposes; and (ii) from the CBR and the Russian Ministry of Finance in the form of term deposits, which may be applied only in specific financing programmes. As at 30 June 2013, VEB had charter capital of RUB 382,571 million and additional paid-in capital of RUB 139,600 million, which comprised contributions of cash and assets from the Russian Government, and VEB held deposits from the CBR and the Russian Ministry of Finance totalling RUB 239,052 million (as compared to RUB 303,075 million as at 31 December 2012) and RUB 664,709 million (as compared to RUB 641,196 million as at 31 December 2012), respectively. As at 30 June 2013, total funding from the Russian Government and the CBR as a percentage of VEB's total equity and liabilities was 32.5% (as compared to 33.6% as at 31 December 2012). Following the repayment of back-to-back (recovery) finance loans extended by VEB to qualifying borrowers under the Financial System Support Law, VEB repaid deposits in an aggregate amount of U.S.\$12,212 million (including all accrued interest), which it had received from the CBR to provide such recovery finance. See "*Certain Statistical Data and Other Information—Sources of Funding—Amounts Due to the CBR*". VEB also raises funds through the issuance of bonds and other securities in the domestic and international capital markets, as well as pursuant to bilateral and syndicated loans, in each case, in Roubles and foreign currencies, principally U.S. Dollars. See "*Management's Discussion and Analysis of Financial Condition and Results of Operation—Liquidity and Capital Resources*". Although VEB is not permitted to accept deposits from individual investors, VEB holds some retail deposits inherited as successor to Vnesheconombank of the USSR and some retail deposits through its banking subsidiaries. See "*Status as a State Corporation and Related Regulatory Environment*".

VEB is registered by the Moscow City Federal Tax Service Department in the Unified State Registry of Legal Entities under the principal state registration number 1077711000102, assigned to VEB on 8 June 2007 under the State Registration Certificate Series 77 No. 008760662. VEB's legal address is, and its principal office is located at: 9, Prospekt Akademika Sakharova, Moscow, 107996, Russian Federation. As at 30 June 2013, VEB had 2,131 employees excluding its subsidiaries and 18,363 employees including its subsidiaries.

HISTORY

VEB is the successor to Vnesheconombank of the USSR. VEB's charter capital was formed by pooling assets of Vnesheconombank of the USSR with state-owned shares of OJSC "Russian Bank for Development" (which is now SME Bank) and state-owned shares of the CJSC "State-Specialised Russian Export-Import Bank", as well as other assets transferred by order of the Russian Government.

VEB can trace its roots back to the establishment of the Russian Commercial Bank ("**Roskcombank**"), which was founded on 18 August 1922 as a joint stock company providing short-term financing. Roskcombank became the Joint Stock Bank for Foreign Trade of the USSR ("**Vneshtorgbank**") on 7 April 1924, when it began to provide financial services in relation to export and import transactions.

In November 1960, Vneshtorgbank became responsible for all payment and credit transactions with foreign banks exporting and importing from and into the Soviet Union, processing non-commercial payments in the Soviet Union and extending credit to Soviet foreign trade institutions. In January 1961, Vneshtorgbank became the only bank authorised to conduct monetary and currency transactions with foreign counterparties in the Soviet Union.

In 1988, Vneshtorgbank was renamed Vnesheconombank of the USSR. In addition to the functions historically carried out by Vneshtorgbank, Vnesheconombank of the USSR also acted as agent for the Soviet government in obtaining export credit for new Soviet joint ventures. Vnesheconombank of the USSR was authorised to extend foreign currency credit directly to companies and institutions in the amount of up to RUB 5 million per loan and was also entitled to raise foreign currency funds to on-lend to Russian companies to support the Russian export sector.

In 1992, Vnesheconombank of the USSR was authorised to service debt obligations of the USSR incurred prior to 1992. In 2002, Vnesheconombank of the USSR was appointed as a sub-agent for the exchange of Soviet-era foreign trade organisation debt instruments for Russian Eurobonds. See "*—VEB as Agent for the Russian Government*".

In 2002, Vnesheconombank of the USSR completed an internal restructuring to reduce its commercial lending activities, whilst increasing its involvement in state-run programmes prioritising support for the structural reforms being implemented by the Russian Government, including the provision of development finance. Vnesheconombank of the USSR was also appointed as agent for the Russian Government to manage certain pension funds.

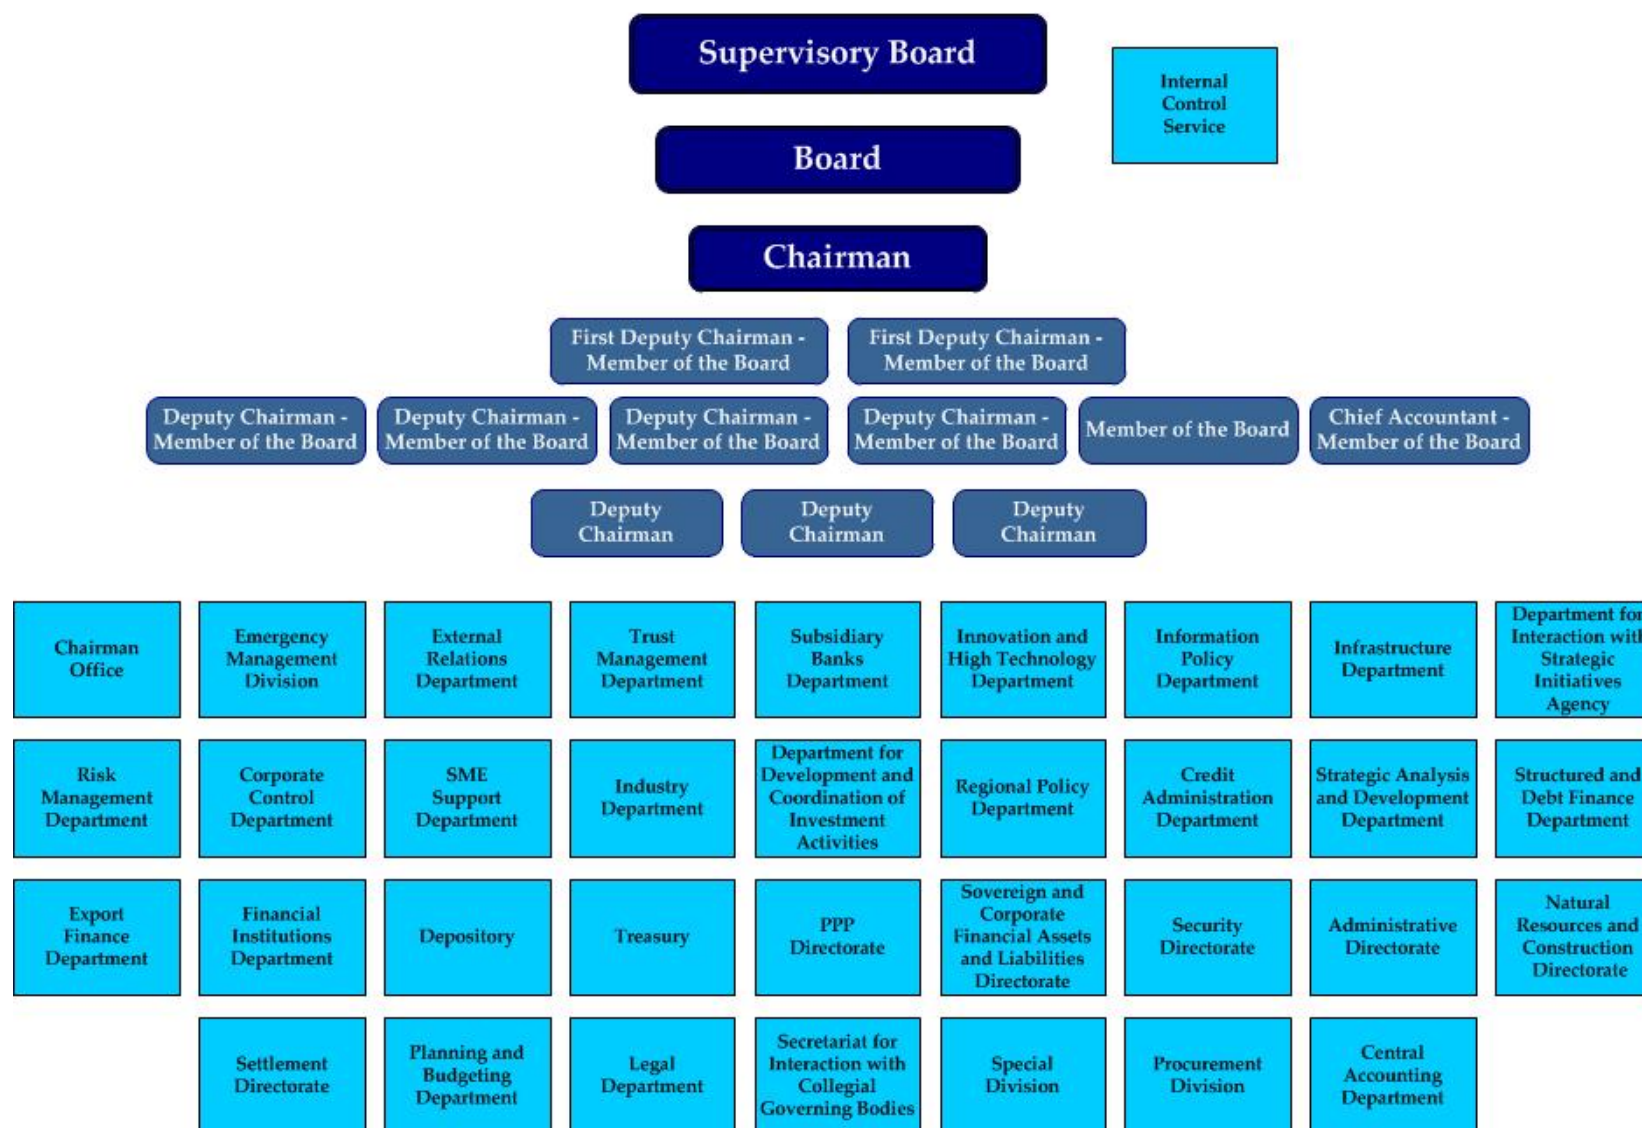

On 17 May 2007, the State Corporation Bank for Development and Foreign Economic Affairs ("**Vnesheconombank**") was established pursuant to the Development Bank Law. See "*Status as a State Corporation and Related Regulatory Environment*". VEB was registered with the Unified State Register of Legal Entities on 8 June 2007, following which all rights and duties of Vnesheconombank of the USSR, including all contractual rights and duties, were assigned to VEB. VEB is also governed by the 2007 Memorandum, which specifies VEB's core business areas and types of investment and financial activities, quantitative and qualitative restrictions on VEB's investment and financial activities and basic terms and procedures for making loans, participating in other entities and providing guarantees and insurance. The 2007 Memorandum, which was originally due to expire on 27 July 2010, was extended by Decree 1170-r on 15 July 2010 on its existing terms for an additional three years, expiring in July 2013. It was subsequently extended by Decree 1316-r on 25 July 2013 for an additional three years, expiring in July 2016.

VEB acquired a 53.6% interest in Bank BelVEB in 2007, which was gradually increased to 97.52% between 2008 and 2012; a 50.0% interest plus one share in VEB-Leasing in 2008, which was gradually increased to 98.9627% between 2009 and 2011; a 90.0% interest in Sviaz-Bank in 2008, which was gradually increased to 99.5% in 2009; a 75.0% interest plus three shares in Prominvestbank in 2009, which was gradually increased to 97.85% between 2009 and 2011, and to 98.6% in 2013; and a 98.9% interest in GLOBEXBANK in 2009, which was gradually increased to 99.99% between 2009 and 2011. VEB's interests in Sviaz-Bank and GLOBEXBANK were acquired in connection with VEB's role as one of the key state-owned vehicles for the stabilisation of the Russian economy and financial system. In September 2009 and November 2009, VEB established MRIF and MRIF-II, respectively, which serve as principal vehicles for VEB's investments into Macquarie Russia & CIS Infrastructure Fund. In late 2010, VEB acquired (by way of a capital contribution from the state to VEB's charter capital) a 100% interest in FCPF, which is primarily engaged in VEB's programme of providing financial assistance for the implementation of projects aimed at regional and urban development in the Russian Federation with the participation of regional and municipal authorities and, in November 2010, VEB established NCDC, whose principal activities include supporting investment projects implemented (or to be

implemented) in the North Caucasus and advising regional authorities in connection therewith. In June 2011, VEB established RDIF Management Company, whose principal objective is fostering of the environment that would encourage foreign investments in different sectors of the Russian economy, including energy, healthcare, agriculture and logistics). On 27 September 2011, VEB's Supervisory Board approved the establishment of EXIAR as a wholly-owned subsidiary of VEB with the stated objective to promote the Russian export market by providing credit insurance and guarantees to Russian exporters with the support of the state. In November 2011, VEB established Far East and Baikal Region Development Fund, which focuses on promoting investment projects in the Far East and the Baikal regions of the Russian Federation. In December 2011, VEB contributed RUB 62,600 million to RDIF (which resulted in VEB owning 100% of RDIF's assets), a long-term investment mutual fund, which is managed by RDIF Management Company. In December 2012, VEB received a capital contribution of RUB 62,000 million as a subsidy from the Russian Government to be invested in RDIF. In January 2013, VEB invested the full amount of the subsidy in RDIF. In March 2013, VEB contributed RUB 15,000 million to the charter capital of Far East and Baikal Region Development Fund. In July 2013 VEB contributed RUB 4,000 million to the charter capital of NCDC. In October 2013 VEB contributed RUB 542 million to the charter capital of SME Bank. See "*Principal Subsidiaries and Associates*".

On 24 June 2010, the Programme was established; as at 30 September 2013, U.S.\$4,950 million in aggregate nominal amount of U.S. Dollar-denominated Notes, CHF 500 million in aggregate nominal amount of Swiss Franc-denominated Notes and €1,500 million in aggregate nominal amount of Euro-denominated Notes were outstanding under the Programme. See "*Certain Statistical Data and Other Information—Sources of Funding—Debt Securities Issued*".

The following chart outlines the corporate organisational and management structure of VEB as of the date of this Base Prospectus:

STRATEGY

As more fully discussed below, VEB has four principal strategic objectives: (i) to act as the principal development bank of the Russian Federation; (ii) to act as one of the key state-owned vehicles for the stabilisation of the Russian economy and financial system through the provision of recovery finance to Russian banks, financial institutions and corporates (although, as at the date of this Base Prospectus, no new recovery finance is being provided); (iii) to act as an agent of the Russian Government, including, in particular, in respect of the management of debt obligations of the Russian Federation and the former Soviet Union as well as debt obligations owed to the Russian Federation by sovereign states, financial institutions and commercial entities and the management of certain pension funds through STMC; and (iv) to act as a universal depositary in the Russian Federation. To facilitate the achievement of these key strategic objectives, VEB intends to continue to focus on improving its institutional structures, risk management systems and organisational efficiencies. In addition, VEB is shifting the development strategy of Sviaz-Bank and GLOBEXBANK to transforming them into universal banks with the goal of growing their assets and profitability by 2025 to the size, sufficient for VEB to exit these banks and return all funds which were invested by VEB.

Strategic Objectives as a Development Bank

VEB's role as the principal development bank of the Russian Federation is specified in the Development Bank Law, whilst its lending and investment business priorities as a development bank for the period are defined in the 2007 Memorandum. VEB is one of the key institutions for the implementation of the Russian Government's investment and development policy and, accordingly, VEB's principal mission, as a development bank, is to increase the competitiveness and diversification of the Russian economy and to promote investment activity in sectors that are of strategic importance to the Russian Government.

In particular, VEB intends to focus its development bank activities principally on the following:

- providing lending and project finance to develop new infrastructure and modernise and reconstruct existing infrastructure, focusing on technological and industrial innovation, particularly in sectors of key strategic importance to the Russian economy, developing special economic zones and infrastructure projects aimed at the protection of the environment and supporting the Russian export market; in particular, to achieve these goals, VEB intends to:
 - develop and increase utilisation of public-private partnerships (“PPPs”) to support the development of federal, regional and municipal infrastructure projects in the Russian Federation;
 - establish and fund direct infrastructure investment funds to encourage foreign direct investment in the Russian Federation; and
 - generally encourage investment activity in support of the implementation of infrastructure projects in the Russian Federation and abroad, including projects involving foreign capital, and provide finance, insurance, consultancy and other services related to such projects;
- developing the Russian SME sector (primarily through the activities of its subsidiary bank, SME Bank), including by:
 - extending loans to banks and other financial institutions for on-lending to SMEs;
 - providing other types of financing in support of SMEs, such as guarantees to credit institutions and legal entities providing support to SMEs;
 - continuing to enhance the scope and scale of VEB's SME lending and development activities; and
 - encouraging a more systematic development of the SME sector across the regions of the Russian Federation, including through the education of and financial support to SMEs in co-operation with the Finance Academy of the Russian Federation, as well as assisting SMEs in soliciting finance from third parties and providing other advisory services at below-market rates;

- co-operating with international financial organisations, foreign states and commercial entities with the aim of providing investment finance for strategically important economic sectors, developing the Russian SME sector and promoting long-term Russian foreign trade activities;
- supporting (including in cooperation with EXIAR) the Russian export sector through the provision of export credit finance, insurance and guarantees aimed at diversifying and strengthening export activities by Russian companies, particularly those engaged in the production and export of high-technology industrial goods, pharmaceuticals and agricultural products; and
- developing territorial clusters and monoprofile municipal units. See *“Description of VEB’s Business—Overview”*.

Strategic Objectives as a Provider of Recovery Finance

In its capacity as one of the key state-owned vehicles for the stabilisation of the Russian economy and financial system, pursuant to the Financial System Support Law, VEB’s mission is to provide recovery finance and other financial support, through the provision of both debt and equity finance to strategically important Russian banks and other financial institutions, as well as to Russian corporates. Although, all of the back-to-back (recovery) finance loans provided by VEB pursuant to the Financial System Support to refinance foreign loans of Russian corporate borrowers were repaid in 2010 and VEB ceased to provide new recovery finance, VEB aims to continue to support Russian banks through the provision of subordinated loans. Using funding provided by the CBR, VEB also acquired controlling interests in the charter capital of Sviaz-Bank and GLOBEXBANK. These entities have been profitable since 2009 and VEB intends to sell its ownership interests in these banks when market conditions are considered to be favourable. In addition, VEB’s Supervisory Board has approved an investment programme to finance the construction of affordable housing and help lower the average mortgage rates offered in the Russian mortgage market. In particular under this investment programme, until 2014, VEB intends to apply up to RUB 50,000 million to acquire mortgage-backed bonds issued by AHML and other credit institutions. See *“—Key State-owned Vehicle for the Stabilisation of the Russian Economy and Financial System—Recovery Finance—Support for the Mortgage Lending Market”*.

Strategic Objectives as an Agent of the Russian Government

VEB intends to maintain its status as the primary agent of the Russian Government with respect to record-keeping, settlement and redemption of sovereign external debt obligations of the Russian Federation and internal debt obligations of the former Soviet Union, as well as with respect to record-keeping and management services with respect to foreign financial assets owned by the Russian Federation. VEB intends to continue to perform the range of services currently provided by it in its agency capacity at least in the medium term.

VEB also intends to continue to act as the manager of certain pension funds through STMC, a separate division of VEB.

Strategic Objectives as a Depositary

VEB intends to grow its depositary business in line with VEB’s own needs and the needs of its clients and to continue to provide universal depositary services across the Russian and foreign securities markets.

Strategic Objectives to Support Growth

VEB plans to support the growth of its business and to facilitate the implementation of its principal business activities by continuing to:

- improve its institutional structure and corporate organisation and continuing to develop its internal decision-making policies and procedures;
- build more efficient internal models for the selection, appraisal, financing and monitoring of investments in its core business;
- develop a consistent and comprehensive risk management system across all of VEB’s operations and business lines, in particular, to increase the diversification of risks; and

- expand VEB’s network of regional offices, subsidiaries and finance vehicles, such as PPPs, infrastructure projects and infrastructure funds.

VEB AS THE DEVELOPMENT BANK OF THE RUSSIAN FEDERATION

VEB’s role as the principal development bank of the Russian Federation is specified in the Development Bank Law, whilst, as at the date of this Base Prospectus, its lending and investment business priorities are defined in the 2007 Memorandum. VEB is one of the key institutions for the implementation of the Russian Federation’s investment and development policy. VEB uses a variety of financial and guarantee instruments to: (i) provide investment lending and project finance to strategically significant sectors of the Russian economy; (ii) promote the development of the Russian SME sector (principally through its subsidiary, SME Bank); and (iii) support foreign trade activities and the Russian export sector (including through EXIAR). VEB carries out its development activities in co-operation with international financial and development institutions, including the International Finance Corporation (“**IFC**”), the European Bank for Reconstruction and Development (the “**EBRD**”), the World Bank and foreign state and commercial entities.

Pursuant to the 2007 Memorandum, VEB is only permitted to participate in projects that are commercially viable. As a development bank, however, VEB does not compete with commercial lending and financial institutions in providing finance to customers; rather, pursuant to the 2007 Memorandum, VEB gives preference to investment projects, such as infrastructure projects, which are not typically eligible for financing on terms acceptable to commercial banks and other non-specialist market investors. Loans and investments made by VEB often involve relatively large principal amounts, have longer-term maturities, are not secured by liquid collateral and are extended at preferential rates, all of which make these activities of relatively high risk and low return. VEB has developed specific procedures to assess risks associated with each project’s design and implementation strategy, as well as each project operator, before approving any credit decisions. See “*Lending Policies and Procedures—Credit Approval Procedures*”.

Investment Lending and Project Finance

VEB is responsible for providing financial support to investment projects, which are considered to be strategically important to the development of the Russian economy, but which do not attract sufficient financial resources from the private sector or other non-specialist market investors. VEB provides this financial support principally by: (i) extending financing directly to projects or project sponsors, through both the provision of debt finance and the purchase of equity; and (ii) developing and providing financing for PPPs. In addition, VEB has provided seed capital for MacRIF, which are direct infrastructure investment funds that specialise in equity investments and infrastructure assets located in the Russian Federation and CIS countries. VEB also supports investment development by arranging co-financing and fostering other co-operation with international financial institutions, foreign states and commercial entities. See “—*Agreements with International Financial Institutions, Foreign States and Commercial Entities*”.

As provided in the 2007 Memorandum, sectors of strategic importance to the Russian economy in respect of VEB’s investment activities include: technology and innovation; aircraft and spacecraft; shipbuilding; electronics; civil nuclear; heavy machinery engineering, transport engineering, special-purpose engineering and power engineering; metallurgy; timber processing; military and commercial equipment manufacturing; scientific research; agro-industry; computer technologies and software; information communication systems; and medical equipment and pharmaceuticals.

Acting as Lender or Equity Investor in Investment Projects

Whilst the majority of investment financing by VEB is provided in the form of debt, VEB determines the structure of its participation in a project on a case-by-case basis following its analysis of the project structure, terms and other participants. From 2009 through 2013, VEB’s project finance activities increased in line with its roles as the principal development bank in the Russian Federation and as one of the key state-owned vehicles for the stabilisation of the Russian economy and financial system. As at 30 September 2013, the number of investment projects approved by VEB was 289 with a total value of RUB 3,854,843 million, of which VEB had committed to fund 289 projects with a total value of RUB 2,387,510 million. As at the same date, the number of infrastructure projects approved by VEB was 86 with a total value of RUB 1,333,918 million, of which VEB had committed to fund 86 with a total value of RUB 702,640 million.

VEB's infrastructure investment activities can be divided into two principal categories: (i) the financing of infrastructure projects related to the 2014 Winter Olympics; and (ii) the financing of other strategically important projects, including the construction of power plants, roads, shipyards and oil refineries.

Certain Significant Investment Projects

VEB finances strategically important, large-scale projects, such as the construction of civil nuclear, coal and hydroelectric power plants, major roads and steel and cement plants.

The most significant projects currently being financed by VEB through debt include:

- the construction of a polypropylene plant in the city of Tobolsk in the Tyumen region. VEB has committed to lend U.S.\$1,220 million over a period of 13 years and six months; as at 30 September 2013, the aggregate outstanding principal amount was U.S.\$605 million;
- the acquisition of six An-148 aircraft. VEB has committed to lend six tranches each of RUB 500 million over a period of five years beginning 30 July 2010, 5 August 2010, 11 August 2010, 18 August 2010, 25 October 2010 and 1 February 2011, respectively, to provide finance in respect of such acquisition; as at 30 September 2013, the aggregate outstanding principal amount was RUB 2,513 million;
- the construction of Boguchanskoye Energy and Metals Complex (BEMO) which is being implemented by RusHydro and UC RUSAL in the Boguchan region of the Krasnoyarsk region as part of a wider programme to develop the Nizhneye Priangariye area comprising:
 - the construction of the Boguchanskaya hydroelectric power plant at a total anticipated cost of RUB 72,500 million, of which VEB has committed to lend RUB 28,100 million over a period of 16 years and one month beginning 1 December 2010; as at 30 September 2013, the outstanding principal amount was RUB 25,583 million; and
 - the construction of an aluminium smelter at a total anticipated cost of RUB 50,400 million. On 11 December 2012, VEB committed to lend U.S.\$1,518 million. The loan has a repayment schedule from 20 March 2016 through 20 December 2027; as at 30 September 2013, the outstanding principal amount was U.S.\$726 million;
- the construction of Power-Generating Unit 3 of Ekibastuzskaya power station No. 2 in Kazakhstan, which is being built pursuant to an agreement between the Government of Kazakhstan and the Russian Government. VEB has committed to lend RUB 12,000 million over a period of 15 years; as at 30 September 2013, the aggregate outstanding principal amount was RUB 4,650 million;
- the Sukhoi SuperJet-100 programme; in July 2012, VEB granted a U.S.\$1,000 million credit facility to CJSC Sukhoi Civil Aircraft (“SCA”) to refinance the principal owed by SCA on loans provided to it for the Sukhoi SuperJet-100 programme; the facility term is until 31 July 2024. SCA is controlled by the Russian aviation holding company Sukhoi, which is a member of the group Joint Stock Company “United Aircraft Corporation”, a Russian state-owned corporation; as at 30 September 2013, the aggregate outstanding principal amount was U.S.\$769 million;
- the construction of a cattle farm, a slaughterhouse and a meat processing plant in the Bryansk region, at a total anticipated cost of U.S.\$893 million, of which VEB has committed to lend U.S.\$90 million over a period of eight years beginning 3 December 2010, US\$60 million over a period of ten years beginning 29 December 2010, U.S.\$161 million over a period of eight years beginning 1 September 2011, €66 million over a period of eight years beginning 16 November 2011, U.S.\$75 million over a period of eight years beginning 18 July 2012 and U.S.\$183 million over a period of eight years beginning 12 September 2012; as at 30 September 2013, the outstanding principal amounts were U.S.\$505 million and €43 million;
- the development of a multi-purpose helicopter in the Primorsky region, at a total anticipated cost of RUB 4,003 million, of which VEB has committed to lend RUB 2,974 million over a period of eight

years beginning 18 March 2011; as at 30 September 2013, the outstanding principal amount was RUB 2,881 million;

- the establishment of a domestic housing construction business in the Rostov region, at a total anticipated cost of RUB 4,172 million. VEB has committed to lend RUB 3,339 million and €14 million over a period of seven years and six months beginning 6 April 2011; as at 30 September 2013, the outstanding principal amounts were RUB 1,795 million and €14 million;
- the reconstruction and modernisation of the Khabarovsk Oil Refinery in the Far Eastern Federal District at a total anticipated cost of U.S.\$1,297 million, of which VEB has committed to lend U.S.\$239 million over a period of 11 years and 10 months, U.S.\$240 million over a period of 12 years and six months and €18 million over a period of 11 years and 10 months, in each case beginning 30 July 2010; as at 30 September 2013, the outstanding principal amounts were U.S.\$145.2 million and €137.9 million;
- the construction of a timber processing plant in the Khabarovsk region, at a total anticipated cost of €15 million, of which VEB has committed to lend €77 million over a period of nine years and three months beginning 30 July 2010; as at 30 September 2013, the outstanding principal amount was €73 million;
- the construction and reconstruction of water supply and drainage facilities in Rostov-on-Don, at a total anticipated cost of RUB 13,724 million, of which VEB has committed to lend RUB 4,180 million over a period of 12 years and two months beginning 27 September 2010; as at 30 September 2013, the outstanding principal amount was RUB 4,149 million;
- the construction of a “combined cycle” power generation plant in the Kolpinsky district of St. Petersburg, at a total anticipated cost of RUB 6,300 million, of which VEB has committed to lend RUB 4,900 million over a period of 14 years and two months beginning 8 October 2010; as at 30 September 2013, the outstanding principal amount was RUB 4,900 million;
- the construction of an ammonia, methanol and carbamide production complex in Tatarstan, at a total anticipated cost of U.S.\$2,158 million of which VEB has committed to lend U.S.\$1,052 million over a period of 14 years and six months, U.S.\$220 million over the period of 12 years and six months beginning 15 June 2011 and U.S.\$378 million over the period of 12 years and six months beginning 8 December 2011 (on 18 September 2013, the commitment was increased to U.S.\$157 million repayable over the period of 15 years); as at 30 September 2013, the outstanding principal amount was U.S.\$944 million. VEB also finances this project through equity through its acquisition of 4,346,047 shares in OJSC “Ammonium” for an aggregate total value of RUB 1,481 million, resulting in an ownership interest of 20% minus one share;
- the construction of the Express-AM7 space vehicle. VEB committed to lend €125 million over a period of seven years and six months beginning 5 June 2012; as at 30 September 2013, the outstanding principal amount was €72 million;
- the construction of a pig-breeding complex in the republic of Bashkortostan, at a total anticipated cost of RUB 6,245 million, of which VEB has committed to lend RUB 4,993 million over a period of eight years beginning 25 April 2012; as at 30 September 2013, the outstanding principal amount was RUB 3,801 million;
- the construction of the multifunctional municipal centre “Mozaika”, at a total anticipated cost of RUB 8,728 million, of which VEB has committed to lend RUB 4,800 million over a period of ten years and nine months beginning 14 June 2012; as at 30 September 2013, the outstanding principal amount was RUB 3,893 million;
- the construction of a turkey production and processing industrial complex in the Rostov region, at a total anticipated cost of RUB 17,906 million, of which VEB has committed to lend RUB 17,545 million over a period of ten years beginning 12 December 2012; as at 30 September 2013, the outstanding principal amount was RUB 0.5 million;

- the reconstruction of the Izhevsk Thermal Power Plant in the Republic of Udmurtia, at a total anticipated cost of RUB 11,543 million, of which VEB has committed to lend RUB 8,300 million over a period of 13 years and 11 months beginning 22 August 2012; as at 30 September 2013, the outstanding principal amount was RUB 3,196 million;
- the development of solid-state lighting production facilities in the city of Tomsk, at a total anticipated cost of RUB 9,119 million, of which VEB has committed to lend RUB 7,060 million over a period of five years and six months beginning 23 July 2012; as at 30 September 2013, this facility remained undrawn;
- the construction of a cement factory in the City of Slantsy in the Leningrad region. VEB has committed to lend €250 million over a period of ten years beginning 29 June 2009, as at 30 September 2013, the aggregate outstanding principal amount was a Euro equivalent of RUB 6,843 million;
- the construction of a cement plant in the Penza region. VEB has committed to lend U.S.\$260 million over a period of 11 years beginning 26 July 2010, as at 30 September 2013, the aggregate outstanding principal amount was U.S.\$216 million;
- the construction of a cement plant in the Kaluga region. VEB has committed to lend RUB 22,587 million over a period of ten years beginning 22 July 2011, as at 30 September 2013, the aggregate outstanding principal amount was RUB 16,576 million;
- the construction of a chain of premises for medical hemofiltration institutions all over Russia. VEB has committed to lend RUB 1,509 million, RUB 1,330 million, RUB 1,157 million, RUB 613 million over a period of 12 years beginning 22 March 2013, RUB 376 million over a period of ten years and eight months beginning 22 March 2013, as at 30 September 2013, the aggregate outstanding principal amount was RUB 52 million;
- the construction of a poultry complex in the Kabardino-Balkar republic. VEB has committed to lend RUB 3,688 million over a period of eight years beginning 8 May 2013, as at 30 September 2013, this facility remained undrawn;
- the creation of a joint venture for production of Mazda and Ssang Young automobiles in Vladivostok. VEB has committed to lend RUB 4,934 million over a period of eight years beginning 24 May 2013, as at 30 September 2013, this facility remained undrawn;
- the construction of a diversified agro-industrial complex in the Kursk region. VEB has committed to lend RUB 4,998 million over a period of eight years beginning 29 May 2013, as at 30 September 2013, this facility remained undrawn;
- the development of “Pantsir-SM” air defence gun and missile system. VEB has committed to lend RUB 4,826 million over a period of seven years and six months beginning 10 June 2013 (repayable until 21 December 2020), as at 30 September 2013, the aggregate outstanding principal amount was RUB 430 million;
- the support of AvtoVAZ automobiles manufacturing on the platforms B0, B/C, Kalina, and development of extrusions facilities. VEB has committed to lend RUB 25,225 million over a period of ten years beginning 2 August 2013, as at 30 September 2013, the aggregate outstanding principal amount was RUB 452 million;
- the construction of Nizhneturinskaya power-generating plant in the Sverdlovsk region. VEB has committed to lend RUB 15,500 million over a period of 14 years and ten months (repayable until 1 July 2028) starting from 2 September 2013; as at 30 September 2013, this facility remained undrawn;
- the construction of Novobereznikovskaya power-generating plant in the Perm region. VEB has committed to lend RUB 11,500 million over a period of 13 years and ten months starting from 2 September 2013 (repayable until 1 July 2027); as at 30 September 2013, this facility remained undrawn;

- the construction of Hayat Regency Rostov-Don Plaza congress centre in the city of Rostov-on-Don. VEB has committed to lend RUB 3,100 million over a period of 14 years and ten months beginning 17 September 2013 (repayable before 20 June 2028), as at 30 September 2013, this facility remained undrawn;
- the construction by OJSC “Mechel” of Elga Coal Complex in the republic of Yakutiya; on 24 October 2013, VEB committed to lend U.S.\$150 million; the loan has a tenor of 13 years and six months with a grace period until 2017.

VEB has also continued to support the development of infrastructure projects through equity participations, in addition to its equity investment in the ammonia, methanol and carbamide project in Tatarstan referred to above. The most significant project currently being financed by VEB through equity is the construction of a new airport complex at Vladivostok International Airport, which VEB financed through its purchase of 440,000,000 ordinary shares of CJSC “Terminal Vladivostok” for an aggregate total amount of RUB 440 million, which at that time resulted in VEB’s ownership interest being 48.62%. However, VEB did not participate in the additional subscription for shares of CJSC “Terminal Vladivostok” in May 2011. As a result, VEB’s ownership was diluted to slightly over 25.0% following such additional subscription.

Financing the 2014 Winter Olympics

VEB is one of the key providers of financing for the construction of infrastructure facilities to support the Russian Federation’s hosting of the 2014 Winter Olympics in Sochi, including the development of transport and energy infrastructure. As at the date of this Base Prospectus, VEB’s Supervisory Board and Management Board approved participation in 20 infrastructure projects related to the 2014 Winter Olympics. The total cost of the projects is RUB 321,090 million, VEB has committed to lend RUB 248,634 million, of which VEB has already funded the majority.

The maturities of financing provided by VEB for the 2014 Winter Olympics projects range from five to 15 years, with loan amounts generally subject to draw down over the life of a project as stages of the relevant project are completed.

The most significant 2014 Winter Olympic projects being financed or co-financed by VEB include:

- the construction of a ski resort at Rosa Khutor, which shall become the site for the alpine skiing events at the 2014 Winter Olympics, at a total anticipated cost of RUB 85,436 million, (including capitalised interest) of which VEB has committed to lend RUB 72,752 million; as at 30 September 2013, VEB had funded RUB 63,226 million;
- the construction of the “Mountain Carousel” sports and tourism complex, at a total anticipated cost of RUB 86,978 million (including capitalised interest), of which VEB has committed to lend RUB 59,709 million; as at 30 September 2013, VEB had funded RUB 47,013 million;
- the construction of the Olympic village, at a total anticipated cost of RUB 25,267 million (including capitalised interest), of which VEB has committed to lend RUB 22,300 million; as at 30 September 2013, VEB had funded RUB 15,003 million;
- the construction of a hotel in Sochi to accommodate representatives of the International Olympic Committee, at a total anticipated cost of RUB 7,121 million (including capitalised interest), of which VEB has committed to lend RUB 4,900 million; as at 30 September 2013, VEB had funded RUB 4,900 million;
- the construction of a new terminal at Sochi International Airport, at a total anticipated cost of RUB 8,165 million, of which VEB has committed to lend RUB 7,300 million; as at 30 September 2013, VEB had funded RUB 6,099 million;
- the construction of the second phase of the Adler Thermal Power Plant in the city of Sochi, at a total anticipated cost of RUB 28,000 million, of which VEB has committed to lend RUB 19,450 million; as at 30 September 2013, VEB had funded RUB 18,154 million;

- the construction of academic and administrative buildings at the Russian International Olympic University, a hotel and recreation complex, parking lots and technical premises in Sochi at total anticipated cost of RUB 13,805 million (including capitalised interest), of which VEB has committed to lend RUB 12,386 million; as at 30 September 2013, VEB had funded RUB 11,256 million; and
- the construction of a five-star hotel in the city of Sochi at total anticipated cost of RUB 7,927 million, of which VEB has committed to lend RUB 7,210 million; as at 30 September 2013, VEB had funded RUB 5,295 million.

Development of PPPs

Public-private partnerships (“**PPPs**”) are contractual arrangements between a state or state agency (the “public” component) and a private sector entity entered into in order to promote a more efficient and effective delivery of public sector-related services. VEB promotes the development of PPP projects in sectors of the Russian economy traditionally falling within the remit of the Russian Government, such as transportation, energy, and space communications, public utilities (including water, district heating, waste management and environmental protection) and the social infrastructure of municipalities (predominantly healthcare and education).

Using the PPP model, VEB has launched pilot projects for the greenfield development and modernisation of Russian public infrastructure facilities, including, among others, the establishment of an energy saving programme and a programme to assist city development. These pilot projects draw on best practices from across the world in the implementation of PPP projects in the area of, among others, water supply, sewage management, industrial waste management and the development of transport infrastructure. VEB intends to participate in the financing of PPP projects through the provision of (i) debt finance, including loans, guarantees and the purchase of government and municipal bonds; (ii) equity capital; and (iii) know-how and technical support in the raising of funding from third parties, primarily using the resources of the PPP Directorate.

VEB determines the structure of its participation in each PPP project on a case-by-case basis following its analysis of the project structure, terms and other participants. VEB intends to provide financial support to PPPs principally by extending financing directly to PPP projects or PPP project sponsors, through both the provision of debt finance (direct lending and issuing guarantees) and as a purchaser of equity.

On 22 June 2012, VEB and a consortium of international banks including Eurasian Development Bank, EBRD, Gazprombank and VTB Capital Plc. entered into a facility agreement with LLC “Northern Capital Highway” relating to the construction and operation of certain sections of the Western High-Speed Diameter Highway in St. Petersburg. VEB has committed to provide a term loan facility in an aggregate amount of up to RUB 25,000 million. As at 30 September 2013, VEB had funded RUB 10,425 million.

The PPP Directorate

In June 2008, VEB established its PPP Directorate, which is an independent department within VEB primarily focusing on the development of techniques and instruments for use in connection with the originating, structuring and financing of PPP projects. The PPP Directorate performs a key advisory role in promoting the development of PPPs across the Russian Federation. The PPP Directorate’s principal activities include:

- preparing and managing competitive bid solicitations, reviewing proposals, negotiating PPP contracts and encouraging qualified companies to participate in a competitive procurement process;
- evaluating project proposals, reviewing project structures and assessing project feasibility and, on this basis, providing recommendations as to optimal instruments and structures for the financing of PPP projects;
- arranging presentations to potential project investors and facilities and conducting commercial negotiations in connection with the procurement of PPP projects and financing activities; and

- assisting with the public administration and implementation of projects to completion, including revisions and amendments to contract terms, financing terms and project regulations.

In addition, the PPP Directorate hosts PPP workshops and seminars and has developed a set of guidelines on PPPs, which VEB provides free of charge to regional and municipal authorities interested in developing PPP structures. In December 2010, VEB also created an endowed academic chair at the Financial University of the Russian Government to help promote education in PPPs. In 2010, VEB launched an internet site about the development of PPP in Russia (www.pppinrussia.ru).

To further its development activities in the PPP sector, as at the date of this Base Prospectus, VEB, through the PPP Directorate, has been involved in the establishment of 20 regional PPP centres within the Russian Federation and developed relationships with national, regional, international and non-governmental organisations in other countries. On 30 December 2009, VEB and the United Nations Development Programme signed the Project Document “Development of PPPs in Russia”, which provides for the implementation of pilot projects to promote and support the long-term development of PPP know-how in the Russian Federation. Further, in 2009, VEB signed an agreement to co-operate with the United Nations Economic Commission for Europe (“UNECE”) for UNECE to provide personnel training and otherwise assist with the development of the PPP sector in the Russian Federation. VEB has also signed co-operation or similar agreements with JSC PPP Centre of Kazakhstan, with Partnerships UK, with Partnerschaften Deutschland and with Ukrainian PPC Centre respectively, in order to promote the sharing of their respective know-how and PPP expertise. Pursuant to these co-operation or similar agreements, VEB provides assistance in the development of PPPs, including methodological and advisory services, through the PPP Directorate.

The PPP Directorate is also responsible for co-ordinating with various committees of the Russian State Duma to prepare changes and additions to the legislative framework regulating the activities of PPPs in the Russian Federation and enabling implementation of PPP financings on the federal, regional and local levels. With the participation of the PPP Directorate, the Expert Council on PPP Legislation was created in the Russian State Duma. The PPP Directorate provides procedural knowledge, consulting and other support services to federal, regional and local public authorities, as well as to private PPP project participants, on establishing PPP programmes with the aim of facilitating the increased use of the PPP model for Russian infrastructure projects. Since 17 August 2010, VEB has been acting as a single provider of services on investment consulting for the Russian constituent entities in respect of investment projects using the PPP model (Decree of the Russian Government No 1372-r of 17 August 2010).

Assessment of PPP Project Feasibility and Advice to the Russian Ministry for Regional Development

In December 2008, pursuant to a Decree of the Russian Government, VEB was appointed financial adviser to the Russian Government to provide advice on PPP projects seeking co-financing from the Russian Investment Fund, which is funded by the state and administered by the Russian Ministry for Regional Development. In August 2009, VEB signed an agreement with the Russian Ministry for Regional Development of the Russian Federation formalising this advisory role, pursuant to which VEB is responsible for assessing the financial viability, budgetary feasibility and cost-effectiveness of projects and, to the extent financing is provided through the Russian Investment Fund, monitoring the ongoing performance of obligations by the private PPP participants.

During 2009, the Russian Ministry for Regional Development requested that VEB assess 12 regional investment PPP projects. Eight of these 12 projects were approved by VEB, of which seven projects were subsequently approved by the Governmental Commission tasked with determining whether particular PPP projects are of national significance.

During 2010, the Russian Ministry for Regional Development requested that VEB assess five additional regional investment PPP projects. Three of these five projects were approved by VEB and all of these three projects were subsequently approved by the above-mentioned Governmental Commission.

During 2011, the Russian Ministry for Regional Development requested that VEB assess 11 additional regional investment PPP projects. All of them were approved by VEB, although with significant modifications.

During 2012, the Russian Ministry for Regional Development requested that VEB assess four additional regional investment PPP projects. All of them were approved by VEB, although with significant modifications.

VEB acts only in an advisory capacity with respect to this function and does not provide related financing. VEB charges fees in respect of this advice and, as at the date of this Base Prospectus, has been performing advisory services in respect of a project for the construction of schools and kindergartens in the Khanty-Mansiysk region, a project for the construction of schools and kindergartens in the Astrakhan region, a project for the construction of a bridge over the Volga in the Nizhny Novgorod region, a project for the construction of waste water treatment plants in the Karelia region, a project for the construction of water supply facilities in the Chelyabinsk region, a project for the construction of a waste utilisation plant in St. Petersburg, a project for construction of a bridge over the Chusovaya river in the Perm region and prospective project for construction of a bridge over the Kama river in the Perm region and planning and structuring of investment projects in the Leningrad region.

Pursuant to the decisions of VEB's Supervisory Board, VEB established a programme for financial assistance of urban and regional development projects in the amount of RUB 10,900 million over the period of 2011-2015. The main purpose of this programme is to provide financial, advisory and technical assistance to the municipal and regional governments in the preparation of the PPP investment projects aimed at solving the problems of urban and regional development.

Direct Infrastructure Investment Funds

VEB cooperates in the establishment of, and provides capital to, direct infrastructure investment funds.

Macquarie Russia & CIS Infrastructure Fund

In August 2009, VEB made a capital commitment to Macquarie Russia & CIS Infrastructure Fund, a private equity investment fund, formed by Macquarie Capital Funds (Europe) Limited, Renaissance Investment Management (UK) Limited and certain other partners. The investment objective of Macquarie Russia & CIS Infrastructure Fund is to make equity and equity-related investments in a diversified portfolio of infrastructure assets located in the Russian Federation and CIS countries. VEB had invested approximately U.S.\$93 million with Macquarie Russia & CIS Infrastructure Fund as at 30 September 2013. The Eurasian Development Bank joined VEB as an investor in Macquarie Russia & CIS Infrastructure Fund in February 2011.

The Macquarie Russia & CIS Infrastructure Fund is subject to certain investment restrictions, including the following: (i) investments in the Russian Federation shall constitute a minimum of 50% of total investments; (ii) investments in Kazakhstan shall constitute a minimum of 20% of total investments; (iii) investments in any single country other than the Russian Federation shall not exceed 25% of total investments; (iv) investments in any single company shall not exceed 25% of Macquarie Russia & CIS Infrastructure Fund's total investments; and (v) investments in any one of airports, roads, rail, ports, electricity, water or gas industries shall not exceed 50% of total investments.

The term of Macquarie Russia & CIS Infrastructure Fund is ten years, subject to extension for four years with certain investor consents. Investment decisions are made by the managers of Macquarie Russia & CIS Infrastructure Fund.

Russian Direct Investments Fund ("RDIF")

RDIF was established in June 2011. In December 2011, VEB contributed RUB 62,600 million to RDIF, which amount was received by VEB as a capital contribution from the Russian Government. On 28 December 2012, VEB received a capital contribution of RUB 62,000 million as a subsidy from the Russian Government to be invested in RDIF. On 15 January 2013, VEB invested the full amount of the subsidy in RDIF. As at 31 December 2012, VEB owned 100% of RDIF's assets. It is expected that in the medium term the fund will receive U.S.\$10,000 million from the Russian state budget to provide co-financing, along with sovereign funds of other states, credit institutions and other leading investment funds for projects with a Russian focus. RDIF is managed by RDIF Management Company, which is VEB's wholly-owned subsidiary. RDIF Management Company was established by VEB in June 2011. VEB contributed RUB 300 million to RDIF Management Company's charter capital. The principal objective of RDIF Management Company is to foster an environment that encourages foreign investments in different sectors of the Russian economy, including energy, healthcare, agriculture and logistics.

In June 2012, RDIF and the Kuwait Investment Authority ("KIA") signed an agreement providing for co-investment in all RDIF projects. Under the agreement, KIA is expected to invest U.S.\$500 million in RDIF projects. Also in June 2012, a consortium of international investors consisting of BlackRock, Goldman Sachs

and Franklin Templeton signed an agreement with RDIF to launch a pre-IPO programme for investments in leading Russian companies with annual revenues in excess of U.S.\$500 million that are planning IPOs on the Moscow Exchange within six to 18 months from the date of the agreement. On 5 February 2013, RDIF (as general partner) and KIA (as limited partner) signed a Limited Partnership Deed and established RDIF Co-investment Partnership I, L.P.

In June 2013, RDIF and General Electric signed a memorandum of understanding for the creation of a joint venture to cooperate in the sphere of construction of autonomous mini power plants for manufacturing facilities in Russia.

Far East and Baikal Region Development Fund

In November 2011, VEB established a new wholly-owned subsidiary, Far East and Baikal Region Development Fund and contributed RUB 500 million to its charter capital. The fund focuses on promoting investment projects in the Far East and the Baikal regions of the Russian Federation.

On 29 October 2012, the Supervisory Board approved an increase in the charter capital of Far East and Baikal Region Development Fund in the amount of RUB 15,000 million. On 28 December 2012, VEB received RUB 15,000 million as a subsidy from the Russian Ministry of Finance to be contributed to the charter capital of Far East and Baikal Region Development Fund. In March 2013, VEB contributed the aforementioned RUB 15,000 million subsidy to the charter capital of Far East and Baikal Regional Development Fund. Far East and Baikal Region Development Fund currently has 21 potential projects that are being examined and eight potential projects that are included on a complex examination list, which is a more advanced stage of examination. The aggregate value of such potential projects is RUB 793,000 million. See “—*Status as a State Corporation and Related Regulatory Environment – Additional Paid-In Capital*”.

SME Lending and Development

One of VEB’s core business objectives is to develop the Russian SME sector. VEB’s main SME financing activities include the provision of loans and guarantees to Russian banks and other financial institutions to support these institutions’ own SME lending and guarantee activities. In accordance with the 2007 Memorandum, VEB is authorised to extend loans to banks and financial institutions for on-lending to SMEs for periods of no less than two years and in amounts not exceeding RUB 150 million. VEB’s Supervisory Board reviews the levels of support provided by VEB to SMEs on an annual basis. VEB provides financing to the Agency for Strategic Initiatives to Promote New Projects which, among other things, focuses on promoting the social and professional mobility of young professionals in medium-sized businesses. VEB’s Chairman is a member of the supervisory board of the Agency for Strategic Initiatives to Promote New Projects. VEB also signs agreements and memoranda of understanding with banks and other financial institutions to encourage the support and financing of SMEs. For example, VEB signed a memorandum of understanding with the EBRD in 2009, pursuant to which VEB intends to provide guarantees to the EBRD to secure payment obligations of Russian financial institutions’ export finance facilities with the EBRD.

On 28 December 2012, by Order No. 1451, the Russian Government adopted rules that provide for state guarantees securing up to 50% of the total principal amount of guarantees issued by VEB to secure the guarantees of VEB’s wholly-owned banking subsidiaries provided by other banks to medium-sized businesses. The new rules provide such state guarantees will be in effect for up to 20 years from the date of issue and will be applicable to an aggregate amount of up to RUB 40,000 million in guarantees from VEB.

In November 2012, VEB and Kreditanstalt für Wiederaufbau signed a memorandum of understanding on establishing the Public Private Partnership Fund (the “**SME Fund**”). The main objective of the SME Fund is to provide funding to small- and medium-size enterprises in the Russian Federation (“**SME**”). The funding will be primarily provided to SMEs through banks engaged in SME financing by granting such banks long-term loans. To diversify and complete its portfolio, the SME Fund may also invest directly into SMEs, as well as provide subordinated loans to Russian financial institutions and SMEs.

On 29 December 2012, VEB and SME Bank concluded a facility agreement under which VEB is to provide U.S.\$100 million to support the development of small and mid-sized innovation businesses in the Baltic Sea region of Russia.

As at 30 September 2013, VEB had extended loans to 241 Russian banks and 187 other financial institutions, such as leasing companies, micro-finance companies and other specialist SME lending institutions, in 83 regions of the Russian Federation for on-lending to SMEs.

Although there is no requirement that an SME be engaged in activities in any particular industry or economic sector to be eligible to receive financing from or through VEB, as at 30 September 2013, management estimates that approximately one-fifth of VEB's SME lending comprised loans to, or for on-lending to, SMEs engaged in manufacturing, including the following:

- the production of high-technology industrial goods for export;
- the manufacturing of industrial products which are in high demand in the domestic market; and
- the manufacturing of goods through the use of imported raw materials and components, which are not available in the Russian Federation or for which no substitutes are available or for which demand cannot be met by the domestic market.

To further the development of the Russian SME sector, VEB has a programme for the development of SMEs in accordance with Supervisory Board decision dated 5 February 2009 entitled "The Procedure for Providing Financial Support for Small and Medium-Sized Businesses" by State Corporation "Bank for Development and Foreign Economic Affairs" (Vnesheconombank)" designed to facilitate the development of SME support structures and networks with a focus on the development of microfinance, leasing and factoring companies.

Development of territorial clusters and monoprofile municipal units

Since 2012, VEB has undertaken investment projects in two new areas: development of territorial clusters and development of monoprofile municipal units. As of 30 September 2013, VEB has approved 26 planned and ongoing projects on the development of monoprofile municipal units (monotowns) with a total value of RUB 355,444 million, including VEB's anticipated share of RUB 230,407 million, of which VEB has already funded the majority.

Financing of organisations participating in state defence procurement and federal target programmes in the field of security and defence

Since 2012, VEB provides financing to legal entities participating in state defence procurement and finances the events within the framework of federal target programmes in the field of security and defence.

Support of the Russian Export Sector and Foreign Trade Activities of Russian Companies

VEB provides financial support to Russian entities involved in foreign trade through a variety of financial and guarantee support instruments, including loans, letters of credit and various types of guarantees including counter-guarantees. VEB also provides trade finance loans to foreign-based finance and trade export companies in order to expand the volume of exports to main trading partners of the Russian Federation. To this end, VEB has entered into a number of agreements with foreign states and commercial entities, as well as regional Russian authorities, promoting foreign trade of the Russian Federation. VEB provides guarantee support for Russian industrial exports on a commercial basis. In order to supplement its existing support for the Russian export sector and promote the Russian export market by providing credit insurance and guarantees to Russian exporters with the support of the state, VEB established EXIAR in 2011.

Pre-export Financing

VEB engages in pre-export financing primarily to improve the competitiveness of and otherwise support exports by industrial companies engaged in the manufacture of aircraft and spacecraft, electronics and other special purpose machinery, as well as shipping, oil and gas exploration, production and distribution, the civil nuclear sector, power generation and the transportation sector. VEB also provides guarantees to Russian and non-Russian banks and financial institutions engaged in the financing of Russian exports. As at 30 June 2013, the main beneficiaries of pre-export financing provided by VEB were companies in the technology and manufacturing sectors.

As at 30 June 2013, VEB extended loans to support Russian foreign trade activities and Russian exports in an aggregate amount of RUB 20,946 million (as compared to RUB 20,363 million, as at 31 December 2012, RUB 12,892 million as at 31 December 2011 and RUB 18,595 million as at 31 December 2010). In the six months ended 30 June 2013 and in the years of 2012, 2011 and 2010 VEB provided 48, 71, 72 and 67 guarantees, respectively (which are accounted for off-balance sheet). The aggregate amount of guarantees comprised RUB 69,663 million as at 30 June 2013, RUB 48,303 million as at 31 December 2012, RUB 45,231 million as at 31 December 2011 and RUB 60,572 million as at 31 December 2010.

EXIAR

In October 2011, OJSC “EXIAR”, Russia’s Export Credit Insurance and Investment Agency, was registered, with VEB as its sole shareholder. EXIAR’s charter capital is RUB 30,000 million. EXIAR, whose activities will be supplemental and complementary to, and not intended to replace or compete with, VEB’s existing export finance activities, is to promote the Russian export market by providing state supported credit insurance and guarantees to Russian exporters.

In December 2012, the CBR amended its rules on potential loss provisioning by Russian banks pursuant to CBR Regulation No. 254-P thereby lowering reserve requirements for loans guaranteed by VEB or insured by EXIAR. VEB has guaranteed EXIAR’s obligations under its insurance agreements in an amount of up to U.S.\$10,000 million. The Russian Federation has, in turn, provided a state guarantee to secure VEB’s obligations under such guarantee.

Agreements with International Financial Institutions, Foreign States, Foreign Governmental Institutions, Regional Governments of the Russian Federation and Commercial Entities

VEB has signed agreements with international financial institutions, two major trading partners of the Russian Federation, Russian regional authorities and commercial entities.

Agreements with International Financial Institutions

In order to support and develop infrastructure financing, including for strategically important export sectors of the Russian economy, as well as the Russian SME sector, VEB regularly enters into memoranda of understanding, framework agreements, co-operation agreements and facility agreements with international financial institutions and foreign-based export-import banks. These agreements provide for the basic terms and framework for the future provision of credit facilities and loans for VEB to on-lend to strategically important export sectors of the Russian Federation. As at the date of this Base Prospectus, VEB has entered into several such agreements with strategically important partners, including:

- a memorandum of understanding to cooperate in the creation of a fund between VEB and IFC signed in June 2011, the purpose of which is to support, among other matters, Russian regional banks providing support to small- and medium-sized enterprises (“SMEs”). The target size of the fund is U.S.\$1,500 million of which VEB may, but has not committed to, contribute up to U.S.\$250 million;
- a non-binding memorandum of co-operation entered into in 2010 with the state financial development and export-import banks of the BRIC countries (Brazil, Russia, India and China) providing for co-operation between such parties in relation to the financing of projects in the fields of technology and energy conservation;
- a non-binding co-operation agreement with Latin American Association of Development Financing Institutions (ALIDE) in 2010, aimed at strengthening and promoting long-term cooperation between VEB and Latin American financial development institutions in relation to co-financing of investment projects in the infrastructure and the fuel and energy sector;
- a non-binding co-operation agreement with the Andean Development Corporation in 2010, aimed at strengthening and promoting long-term cooperation between the Russian Federation and member countries of Andean Development Corporation, including in relation to export financing, credit support and co-financing of investment projects;

- an agreement with Eurasian Development Bank and AO “Stantsia Ekibastuzskaya GRES-2” in 2010, pursuant to which VEB has committed to lend RUB 12,000 million over a period of 15 years, to finance the construction of power-generating unit 3 of Ekibastuz power station No. 2 in Kazakhstan, which is being built pursuant to an agreement between the Government of Kazakhstan and the Russian Government;
- a non-binding memorandum of understanding entered into with the EBRD in 2009 providing for the co-financing of SME projects, pursuant to which VEB may provide guarantees to the EBRD to secure payment obligations of Russian financial institution borrowers under facility agreements concluded with the EBRD;
- a non-binding memorandum of understanding entered into with the World Bank (acting through the IBRD and the IFC) in 2008, providing for the co-financing of infrastructure projects in the Russian Federation.

Agreements with Foreign States

In order to promote the import and export of goods between the Russian Federation and its neighbouring trading partners, VEB has signed agreements with Belarus and Kazakhstan.

Belarus Memorandum of Co-operation

In December 2008, VEB signed a Memorandum of Co-operation (the “**Belarus Memorandum of Co-Operation**”) with the Government of Belarus, pursuant to which VEB agreed to assist the Government of Belarus in delivering projects that provide for, among other things, exports of Russian industrial equipment and other goods and services to Belarus, and to act as financial consultant to the National Bank of Belarus in attracting middle- and long-term financing from international capital markets to finance investment projects in Belarus and the Russian Federation. In 2009, VEB introduced a set of measures designed to implement the provisions of the Belarus Memorandum of Co-Operation. In December 2009, VEB entered into a RUB 6,000 million syndicated loan agreement with the Belarus Ministry of Finance, Gazprombank, Sberbank of Russia OJSC (“**Sberbank**”) and Alfa-Bank, pursuant to which VEB provided RUB 2,000 million to Belarus in December 2009 for a term of one year. In addition, in December 2009, VEB, Sberbank and Gazprombank have agreed to act as co-arrangers for the issuance by Belarus of Rouble-denominated government bonds. VEB has also agreed to review applications for financing in connection with a number of projects to support the export of Russian industrial goods to Belarus.

Agreement with Kazakhstan

In 2009, VEB signed a memorandum of understanding with JSC “Samruk-Kazyna”, a Kazakhstan sovereign wealth fund (the “**Kazakhstan Memorandum of Understanding**”). The Kazakhstan Memorandum of Understanding expresses the intention of the parties to participate in the financing of foreign trade between the Russian Federation and Kazakhstan.

Agreements with Regional Governments of the Russian Federation

VEB has co-operation agreements with governmental authorities and administrations in the Russian Federation’s constituent regions, including the republics of Komi, Chechnia, Buryatia, Karelia, Karachaevo-Cherkessia and Dagestan, the territories of the Altay, Krasnoyarsk, Khabarovsk and Yamalo-Nenetsk, the regions of the Volgograd, Lipetsk, Novgorod, Rostov, Omsk, Tambov, Irkutsk, Kaliningrad, Sverdlovsk, Oryol and Leningrad and the City of St. Petersburg. These co-operation agreements generally provide for the co-operation between the Russian Federation through VEB and its constituent regions to support the growth of trade in Russian goods and services and the implementation of investment projects to support the development of regional industrial infrastructure in sectors of strategic importance to the Russian Federation, which include the medical and pharmaceuticals sector, educational sector, agro-industrial sector and the construction industry. VEB provides assistance to regional governments by: (i) reviewing the terms of proposals by international financial institutions to provide finance to the Russian regions; and (ii) co-financing certain projects in the Russian regions.

Agreements with Foreign Governmental Institutions

As at the date of this Base Prospectus, VEB has entered into several agreements with foreign governmental institutions, including:

- a memorandum of understanding regarding the creation of a Russia-Japan investment platform was signed between VEB, RDIF and Japan Bank for International Cooperation in March 2013. RDIF and JBIC will each invest U.S.\$500 million. VEB will potentially provide additional financing to fund projects and design new financial products;
- a memorandum of understanding to cooperate in direct investments in Russia and France was signed between VEB, RDIF and the French state financial corporation, Caisse des Depots et Consignations (CDC) in February 2013;
- a memorandum of understanding to cooperate in assessing the feasibility of establishing an international fund to support entrepreneurship between VEB and Kreditanstalt für Wiederaufbau (“KfW”) signed in July 2011. The parties completed the related feasibility study in March 2012. The results of the study are currently being discussed with the potential fund investors. The purpose of the fund will be to expand the range of existing instruments intended to provide financing and support for SME businesses and medium-sized innovative enterprises in the Russian Federation. In October 2012, VEB and KfW signed a memorandum of understanding regarding the establishment of an International SME Finance Fund. In November 2012, VEB and KfW signed a long-term financing agreement to support the development of small and mid-sized innovation businesses in the Baltic Sea region of Russia. The agreement envisages a U.S.\$110 million loan to finance projects in the St. Petersburg and Leningrad, Kaliningrad and Pskov regions. The financing will focus on sustainable development and modernisation in the field of municipal and regional infrastructure, energy efficiency, ecology, climate protection and comprehensive development. This will be the first agreement made in the framework of the Pilot Financial Initiative (PFI) under the umbrella of the Council of the Baltic Sea States. KfW will lend the money to VEB, which will then distribute it to other banks under certain conditions;
- a memorandum of understanding on completing the establishment of the Russia-China Investment Fund (the “RCIF”) was signed between RDIF and China Investment Corporation (“CIC”) in June 2012. The purpose of the RCIF is to: (i) promote bilateral economic cooperation and trade between the Russian Federation and China; (ii) develop infrastructure in both countries; (iii) facilitate access to long-term capital in both countries by companies that are engaged in economic cooperation between the Russian Federation and China; and (iv) develop and improve the quality of the economy of both countries. The RCIF’s investment policy will allow investment of up to 30.0% of the RCIF in China, with the remainder in the Russian Federation. The target size of the RCIF is U.S.\$3,000-4,000 million, of which U.S.\$1,000 million has been committed by CIC and its related parties, U.S.\$1,000 million has been committed by RDIF, and the balance of U.S.\$1,000-2,000 million will be raised from third-party investors. In March 2013, VEB, RDIF, CIC and RCIF signed a memorandum of understanding to promote investment in infrastructure projects in the Russian Far East Region;
- a memorandum of understanding to cooperate and arrange support for SMEs in Russia and Malaysia was signed between VEB, SME Bank and SME Bank Malaysia in September 2012. The main purposes of the memorandum are: informational and consultative support for SMEs in Malaysia and the Russian Federation utilising the experience of SME Bank Malaysia, VEB and SME Bank; SME support in both countries in trade activities between Malaysia and Russia; and information exchange related to development of SMEs in Malaysia and Russia;
- a memorandum of understanding regarding the support of SMEs and the promotion of international banking business, including structured and trade finance, on a strategic business cooperation basis was signed between VEB and Industrial Bank of Korea in November 2012;
- a non-binding memorandum of understanding with the Export-Import Bank of the United States in 2010, in relation to the support of financing of foreign trade contracts between

American exporters and Russian importers for the supply of medical equipment and energy efficiency equipment, as well as other goods and services;

- a non-binding co-operation agreement with Caisse de Depot et de Gestion Group (the Moroccan state investment fund) in 2010, intended to promote co-operation in relation to the financing long-term investment projects implemented by Moroccan and Russian companies;
- a framework credit line agreement with the Development Bank of Kazakhstan (a wholly-owned subsidiary of JSC “Samruk-Kazyna”, Kazakhstan sovereign wealth fund, in December 2008, pursuant to which VEB agreed to provide credit in the aggregate of U.S.\$300 million for a period of 15 years to support the purchase of Russian exports by Kazakhstan companies;
- a U.S.\$1,000 million framework agreement entered into with the China Development Bank in 2009, aimed at financing investment projects and activities by Chinese companies conducting business in the Russian Federation, including those related to timber processing, energy and construction;
- a U.S.\$700 million framework credit agreement entered into with the Export-Import Bank of China in 2009, aimed at developing long-term co-operation to import equipment and services provided by Chinese companies in the construction and energy sectors to the Russian Federation;
- a U.S.\$100 million framework credit agreement with Export-Import Bank of India in 2009, aimed at supporting the export of equipment and services by Indian companies to the Russian Federation; and
- a tri-party agreement with SACE (Italian export credit agency) and COFACE (French export credit agency) in 2011, aimed at financing the sales of Sukhoi SuperJet-100 aircraft.

Agreements in Favour of Commercial Entities

In accordance with the 2007 Memorandum and the Development Bank Law, VEB also has a right to enter into memoranda of understanding and co-operation agreements with commercial entities to provide financing for the construction of new manufacturing facilities or the reconstruction and modernisation of existing operating facilities, as well as for the promotion of technological and industrial innovation in strategically important sectors of the Russian economy. As at the date of this Base Prospectus, the most significant of these projects were:

- a memorandum of understanding with Kalimantan Rail Pte. Ltd. (a project company of OJSC “Russian Railways” in Indonesia) in February 2012, aimed at financing a coal transportation infrastructure project in Indonesia;
- a co-operation agreement signed with OJSC “Russian Railways” in May 2009 for a period of ten years, to co-finance projects designed to develop the infrastructure, including railways and roads, along the major transportation routes in the Russian Federation at a total anticipated cost of RUB 27,050 million, of which VEB has committed to provide and has funded RUB 6,300 million; and
- a non-binding memorandum of understanding with BNP Paribas in 2010, providing for cooperation in relation to the financing of two projects implemented by OJSC “Evraziyskiy” and the French Degrémont S.A., for the construction of a sludge incineration plant in Sochi and in Rostov-on-Don.

Agreement with the Russian Ministry of Industry and Trade of the Russian Federation

In accordance with Government Order No. 1302 “On Approval of Rules for Providing Federal Budget Subsidies in the Form of Asset Contribution by the Russian Federation into the State Corporation Bank for Development and Foreign Economic Affairs (Vnesheconombank)” of 13 December 2012, VEB and the Russian Ministry of Industry and Trade of the Russian Federation signed an agreement on 20 December 2012 in order to compensate

VEB for its expenses incurred in connection with its support of the production of high-tech products in Russia. On 26 December 2012, VEB received a subsidy in the amount of RUB 3,000 million from the Russian Government for the purpose of compensating VEB for expenses in connection with providing certain loans and credit lines to non-Russian entities. Such subsidy is applicable to loans with terms of up to 15 years to be provided by VEB to non-Russian entities starting on 1 January 2013.

Membership in Associations

On 1 January 2013, VEB joined the Association of Development Financing Institutions in Asia and the Pacific (“ADFIAP”) as a full member. VEB’s membership in ADFIAP will enable VEB to participate in co-financing with other ADFIAP members of various projects in such areas as infrastructure, environmental protection, energy efficiency, social development, micro-finance and SME projects. VEB first joined ADFIAP as an observer in September 2007.

KEY STATE-OWNED VEHICLE FOR THE STABILISATION OF THE RUSSIAN ECONOMY AND FINANCIAL SYSTEM

Recovery Finance

Since the onset of the global economic crisis in 2008, VEB has played a role in assisting in the recovery of certain Russian banks and financial institutions and corporate entities, whose financial sustainability was affected in the global financial crisis, including in particular banks and financial institutions and companies deemed to be strategically important to the Russian banking system and economy. As the global financial crisis has eased and the Russian economy has shown signs of improvement, although a number of VEB’s recovery finance programmes continue in effect, VEB has ceased to provide new recovery finance, while also reducing its exposure to borrowers who had received recovery finance pursuant to programmes established by VEB under the Financial System Support Law. VEB has also repaid a significant portion of the matching funding, which had been provided by the CBR and the Russian Ministry of Finance to support VEB in its role as one of the key state-owned vehicles for the stabilisation of the Russian economy and financial system under the Financial System Support Law as described in “—*Refinancing of Foreign Loans*” below and “*Certain Statistical Data and Other Information—Sources of Funding—Amounts Due to the CBR.*”

Subordinated Loans

Under the Financial System Support Law, VEB received deposits from the Russian Ministry of Finance (comprised of funds of the NWF) in the aggregate amount of RUB 404,022 million at interest rates from 7.0% to 8.5% per annum. VEB was required to utilise these deposits to extend subordinated loans to: (i) VTB Bank; (ii) Russian Agricultural Bank; and (iii) other Russian banks, subject to certain financial and rating criteria established in accordance with the Financial System Support Law. As at 30 June 2013, VEB provided subordinated loans to 16 banks in accordance with the Financial System Support Law outstanding in an aggregate principal amount of RUB 338,045 million, including the loan to VTB Bank (in the amount of RUB 200,000 million at an interest rate of 8.0% per annum and maturing on 23 December 2019), the loan to Russian Agricultural Bank (in the amount of RUB 25,000 million at an interest rate of 8.0% per annum maturing on 23 December 2019) and loans to 14 additional qualifying banks in an aggregate outstanding amount of RUB 113,045 million (at interest rates of 8.0% and 9.5% per annum with maturities for up to 31 December 2019 and December 2020). See “*Lending Policy and Procedures—Credit Approval and Monitoring*”.

As at the date of this Base Prospectus, VEB continues to hold these unsecured subordinated loans on a fully matched basis. In accordance with amendments to the Financial System Support Law adopted on 27 July 2010, and the respective decision of VEB’s Supervisory Board, however, the interest rates VEB charges on these subordinated loans were lowered from 8.0% to 6.5% and from 9.5% to 7.5%, whilst, at the same time, the interest rates for the deposits received from the Russian Ministry of Finance (comprised of funds of the NWF) and comprising the matching funding for the subordinated loans were lowered from 7.0% to 6.25% and 8.5% to 7.25%. As a result of the smaller reduction on the funding rates, as compared to the loan rates, the overall net interest margin on VEB’s subordinated loans to qualifying borrowers under the Financial System Support Law has decreased.

VEB has also made financing available on a subordinated basis in 2010 to certain of its existing borrowers.

In June 2012, VEB sold a stock option to Gazprombank, which is valid until June 2020, allowing Gazprombank to repurchase 2.5 million of the Gazprombank shares held by VEB for consideration of RUB 51,250 million to

be paid to VEB over eight years. The option term coincides with the maturity of a subordinated loan extended to Gazprombank by its shareholders and VEB as anti-crisis bank support. Prior to the sale of this stock option, VEB's subordinated loan to Gazprombank in an amount of RUB 50,000 million was converted into Gazprombank shares by way of subscription to newly issued shares. As a result, VEB received 10.19% of Gazprombank's shares for consideration of RUB 20,000 per share. Under the option, Gazprombank may repurchase the stake for RUB 20,500 per share at any time prior to 8 June 2020. The option premium paid by Gazprombank to VEB will amount to approximately RUB 3,240 million per year, which is recognisable by VEB as interest income. The first payment was made in December 2012 in the amount of RUB 1,600 million. Under the terms of the transaction, if VEB were to sell its stake in Gazprombank, it would be required to give 80% of the profit it realised on such sale to Gazprombank.

Refinancing of Foreign Loans

Pursuant to the Financial System Support Law, VEB was also authorised to provide refinancing for Russian entities to enable them to perform their obligations under loans from foreign creditors or to acquire claims of foreign creditors under loans extended by them to Russian entities prior to 25 September 2008. For this purpose, the CBR committed to providing funds to VEB, by way of deposits, in an aggregate amount up to U.S.\$50,000 million, which VEB had the right to utilise until 31 December 2009, solely to refinance foreign loans of Russian corporate borrowers against the same security as was used to secure the borrowers' obligations to the original foreign lenders. Pursuant to this commitment, in 2008 and 2009, VEB received deposits from the CBR of U.S.\$9,781 million and U.S.\$1,855 million, respectively, for an aggregate amount of U.S.\$11,636 million. Each of these deposits was provided for an initial one-year term at an interest rate of LIBOR plus 1.0% per annum. At the end of 2009, U.S.\$6,351 million of deposits received by VEB were rolled over by the CBR for an additional one-year term.

In 2010, all of the back-to-back (recovery) finance loans provided by VEB pursuant to the Financial System Support Law were repaid and, upon repayment of these remaining back-to-back (recovery) finance loans, VEB repaid the corresponding CBR deposits.

Equity Investments

As part of its recovery finance activities in support of the financial sector, VEB acquired a 90.0% interest in Sviaz-Bank in 2008, which was gradually increased to 99.5%, and a 98.9% interest in GLOBEXBANK in 2009, which was gradually increased to 99.99% in 2011. These banking subsidiaries held predominantly distressed assets when acquired, requiring significant provisions and liquidity. In connection with its acquisition of GLOBEXBANK, VEB also provided several loans to one of its associates, a portion of which was applied to finance such associate's purchase of real estate and other assets from certain borrowers of GLOBEXBANK to permit such borrowers to repay obligations owed by them to GLOBEXBANK in connection with the rehabilitation of GLOBEXBANK to restore its financial viability following the global financial crisis. For a discussion of provision for impairment in respect of these entities see "*Management's Discussion and Analysis of Financial Condition and Results of Operations—Results of Operations for the Six Months Ended 30 June 2013 and the Years Ended 31 December 2012, 2011 and 2010—Provisions for Impairment*". VEB intends to transform both Sviaz-Bank and GLOBEXBANK into universal banks with the goal of growing their assets and profitability by 2025 to the size, sufficient for VEB to exit these banks and return all the funds which were invested by VEB. See "*—Principal Subsidiaries and Associates—Interregional Bank for Settlements of the Telecommunications and Postal Services (Sviaz-Bank)*" and "*—Principal Subsidiaries and Associates—CJSC 'GLOBEXBANK'*".

In addition, VEB has, upon the decision of its Supervisory Board, acquired shares in certain Russian entities considered to have strategic importance to the Russian economy, including, in 2010, OJSC "Gazprom", UC RUSAL (in its initial public offering), JSC "United Aircraft Corporation" and OJSC "Inter RAO UES" and, in 2009, OJSC "Rostelecom". VEB intends to hold these securities as long-term investments.

Support for the Mortgage Lending Market

In July 2009 and May 2010, the Financial System Support Law was amended to make support for the Russian mortgage financing market an additional strategic priority for VEB and, accordingly, VEB had the right to receive from the NWF an additional deposit of RUB 40,000 million at a rate of 6.25% per annum, which VEB was authorised to utilise to make loans to AHML until 1 December 2011 at an interest rate of 6.5% per annum

with a maturity date of up to 1 June 2020. As at 30 September 2013, VEB has fully utilised this RUB 40,000 million credit line and, as required, applied such deposits to extend loans to AHML.

In addition, VEB's Supervisory Board has approved an investment programme to finance the construction of affordable housing and to help lower the average mortgage rates offered in the Russian mortgage market (the "**Mortgage Investment Programme**"). Under the Mortgage Investment Programme, VEB intends to purchase or arrange for the purchase of up to RUB 210,000 million of mortgage bonds to support the mortgage lending market until the end of 2014. Pursuant to the Mortgage Investment Programme, VEB plans to extend up to RUB 110,000 million before the end of 2014. In particular, VEB intends to use its own capital to purchase up to RUB 50,000 million of mortgage bonds issued by AHML and other financial institutions bearing interest at a rate of 3.0% per annum. STMC also intends to invest pension funds under its management to purchase up to RUB 100,000 million of similar mortgage bonds bearing interest at a rate of no more than 9.0% per annum and up to a further RUB 60,000 million of mortgage bonds issued by AHML and guaranteed by the Russian Federation, bearing interest at a rate established in accordance with prevailing market conditions.

VEB AS AGENT FOR THE RUSSIAN GOVERNMENT

Since 1992, VEB acts as agent for the Russian Government with respect to the record-keeping, settlement and redemption of sovereign external debt obligations of the Russian Federation and internal debt obligations of the former Soviet Union. In addition, as agent, VEB provides record-keeping and management services with respect to foreign financial assets owned by the Russian Federation and VEB manages the settlement of amounts owed to the Russian Government by regional and local Russian authorities and commercial entities.

VEB's authority to act as agent for the Russian Government for such purposes is based in various laws and normative acts of the Russian Government and certain implementing agreements concluded between VEB and the Russian Government. Pursuant to these laws and agreements, VEB conducts its agency operations strictly in accordance with the instructions of, and at the expense of, the Russian Government. Except in respect of London Club debt obligations, VEB does not use any of its own funds for such purposes and does not bear any direct legal or financial obligations or risks in connection with these activities. None of the sovereign external debt obligations of the Russian Federation or foreign financial assets owned by the Russian Federation serviced by VEB are reflected in VEB's consolidated statement of financial position.

In 2012, VEB received fees from the Russian Ministry of Finance as compensation for these agency services in the aggregate amount of RUB 630 million.

Settlement of Sovereign External Debt Obligations

VEB is responsible for record-keeping, reconciliation, service and settlement with respect to virtually all (U.S.\$36,580 million, or approximately 95.4% of the total amount of all such obligations, as at 30 June 2013) of the sovereign external debt obligations of the Russian Federation, including sovereign bonds, inter-governmental debt obligations, export credits and foreign bank loans of the Russian Federation.

In addition, VEB has historically acted as agent with respect to record-keeping, reconciliation, service and settlement of commercial indebtedness of the former Soviet Union, although, as at 31 December 2012, nearly all commercial indebtedness of the former Soviet Union had been settled on behalf of the Russian Government.

VEB also provides settlement support to the Russian Government for the redemption of debt obligations owed by the Russian Federation to 9 creditor countries, the largest of which (as at 30 June 2013) by volume of claims are South Korea, Kuwait and China. Pursuant to the relevant inter-governmental agreements, repayment of these debt obligations is made in cash or by delivery of goods and services from the Russian Federation to foreign creditor countries at the expense of the federal budget of the Russian Federation.

VEB is itself a party to financial agreements under the framework of London Club restructuring conducted in 2000 in respect of the balance of principal restructured loans ("**PRINS**") and interest arrears notes ("**IANS**"), which were not exchanged for Eurobonds of the Russian Federation. These obligations were partially settled as at 31 December 2010 in accordance with the Decree of the Russian Government No. 1047-r dated 30 July 2009. The redeemed London Club debt obligations as well as outstanding claims that have not been tendered by creditors for settlement were excluded from VEB's balance sheet pursuant to the instruction of the Russian Ministry of Finance.

Internal Currency Debt of the Former Soviet Union

VEB also provides record-keeping and settlement services with respect to internal debt obligations of the former Soviet Union. Such debt comprises obligations to repay foreign-currency funds, which had been credited to accounts of Soviet natural persons and legal entities with VEB before 1 January 1992 and which were used in 1991, without the consent of the owners of such accounts, by the Government of the former Soviet Union to purchase imported goods, including food, medicines and other basic necessities. Such obligations have been partially settled by the Russian Government. To facilitate settlement of these obligations, the Russian Federation has concluded agreements with several former Soviet republics, including Armenia, Belarus, Georgia, Kyrgyzstan, Moldova and Tajikistan, providing for the independent settlement by the respective governments of these countries of related claims of their residents. Other former Soviet republics, including principally certain CIS and Baltic countries, have not agreed on the extent of their obligations, if any, with respect to these obligations of the former Soviet Union and instead continue to insist that all related claims should be settled at the expense of the Russian Federation. Whilst certain claimants have brought suits against the Russian Government and VEB seeking settlement of their claims, no court decisions have been rendered against the Russian Government or VEB in these matters.

Foreign Financial Assets

VEB maintains records with respect to foreign financial assets owned by the Russian Government representing obligations owed by foreign borrowers, including foreign states, banks and commercial companies. Most of these obligations comprise export credits granted by the Russian Federation or the former Soviet Union in connection with deliveries of Russian or Soviet (as the case may be) industrial goods and services to various countries within Asia, Africa and Latin America, including indebtedness of 54 of the Russian Federation's debtor-countries under the state loans extended in accordance with inter-governmental agreements.

In this capacity, VEB effects settlement of payments and carries out record-keeping functions, including maintaining a registry of the financial assets of the Russian Federation, reconciling payments of foreign debtors and undertaking a regular inventory of financial obligations owed to the Russian Federation by foreign states, banks and commercial entities.

VEB assists the Russian Ministry of Finance in the drafting of inter-governmental credit and rescheduling agreements, which are concluded on a bilateral basis, as well as through the framework of the Paris Club, with debtor countries and reports to the Russian Ministry of Finance on the status and movement of the foreign financial assets owned by the Russian Government. In order to implement these inter-governmental agreements, VEB enters into inter-bank arrangements with authorised banks and financial institutions of debtor countries defining the technical procedures for the accounting of and settlements under the loans. In particular, VEB collects payments due from debtor countries to the Russian Federation. VEB also organises regular auctions for trading of amounts received from debtors in clearing and soft currencies on terms approved by the Russian Ministry of Finance.

Settlement of Debt Obligations of Russian Authorities and Commercial Entities

In its capacity as agent for the Russian Government, VEB effects the settlement of amounts owed to the Russian Government by constituent regions and municipalities of the Russian Federation under Russian federal budget loans, as well as under financings provided to Russian legal entities, including through the pursuit of court rulings and other legal action in the case of overdue amounts. Over the five years ended 30 June 2013, VEB effected settlements in respect of such debt obligations of more than U.S.\$6,105 million.

Pension Funds Management (STMC)

Since 2003, STMC has managed the pension savings funds of insured Russian citizens, who have not transferred their savings to private pension funds or private asset management companies, as well as those who have selected VEB as their pension fund manager. Since July 2012, STMC is also responsible for managing the payout reserve of the State Pension Fund. As at 31 December 2012, 2011 and 2010 VEB had pension funds under management of RUB 1,644,116 million, RUB 1,334,042 million and RUB 740,219 million, respectively. Starting 1 January 2014, growth in pension funds under VEB's management is expected to be slower due to the recent changes in the pension insurance legislation, which reduce the mandatory percentage of an insured Russian citizen's income to be transferred to pension funds as pension savings from 6% to 2%. STMC is a separate division of VEB, the activities of which are segregated from VEB's banking and other operations, and

STMC is legally obligated to segregate its pension fund investments and assets from VEB's other investments and assets. The assets of STMC are not included in VEB's consolidated statement of financial position.

Since November 2009, STMC is permitted to invest pension fund assets in a broad range of investments, including securities of the Russian Federation that are traded on a regulated securities market; securities issued by the governments of the regions of the Russian Federation that are traded on a regulated securities market; securities issued by domestic corporations that are traded on a regulated securities market and have a minimum rating of at least BB– or, in case of bonds, that are either guaranteed by the Russian Federation or by VEB; Rouble-denominated securities issued by certain international financial organisations, including the Asian Development Bank, the EBRD and the IFC; and cash funds (such as bank deposits and money market funds in Roubles or foreign currencies (U.S. Dollars, Euro, Sterling and Japanese Yen) held in accounts of Russian financial institutions. Since March 2013, STMC is permitted to buy up to 100% of the issue of bonds that are issued by an entity having credit rating at least equal to the Russian sovereign rating. STMC is not allowed to purchase any bonds or other securities issued by VEB. During 2004-2008, STMC was allowed to invest only in federal government bonds denominated in Roubles and foreign currencies, although since 2006, STMC has also invested a portion of its funds in state savings bonds denominated in Roubles. Since November 2009, in accordance with a change in Russian law, STMC is also authorised to invest pension fund assets in Russian mortgage bonds. See “—*Key State-owned Vehicle for the Stabilisation of the Russian Economy and Financial System—Recovery Finance—Support for the Mortgage Lending Market*”. STMC seeks to achieve yields on invested funds of not less than the current level of the Russian inflation rate (CPI). STMC is only entitled to charge management fees in respect of the portfolio it manages if it returns a positive performance in the period to which the fees relate.

STMC's trust management activities in respect of pension funds generated commission income of RUB 383 million, RUB 279 million and RUB 236 million for the years ended 31 December 2012, 31 December 2011 and 2010, respectively.

DEPOSITARY OPERATIONS

Since 1999, VEB has acted as a universal depositary for Russian and foreign securities eligible for depositary servicing in the Russian Federation, delivering a wide range of custody and custody-related services for investors and professional participants in the domestic and international securities markets, except for the services that only the Russian central depositary may provide. In addition, VEB acts as the agent and the depositary of the Russian Ministry of Finance in servicing U.S.\$-denominated bonds issued by the Russian Ministry of Finance in 1993-1996. As at 30 June 2013, VEB held securities in custody with an aggregate value of U.S.\$132 million in 738 depositary accounts.

VEB performs depositary operations in respect of securities traded on domestic and international markets, including the securities pledged to VEB as collateral under the Development Bank Law and pursuant to a special licence of the Federal Service for Financial Markets (currently, the Bank of Russia Financial Markets Service). VEB also acts as a paying agent in connection with issuances of state guarantee backed bonds of a number of Russian issuers.

In October 2012, VEB introduced changes in its depositary services regulations to allow foreign companies that are not beneficiaries to open depo accounts with VEB. The list of possible types of accounts has been extended to include nominee holders' accounts and authorised holders' accounts. The holders of such account have the right to perform any legal or factual actions with the securities in the accounts and exercise any rights under their own names and for the benefit of other persons.

Finally, VEB provides custody-related information and custody-related consulting services, including legal advice and tax advice to clients with respect to income earned on foreign securities.

PRINCIPAL SUBSIDIARIES AND ASSOCIATES

VEB's principal subsidiaries and associates include SME Bank, ROSEXIMBANK, Sviaz-Bank, GLOBEXBANK, Bank BelVEB (Belarus), Prominvestbank (Ukraine), VEB Capital, Kraslesinvest, VEB-Leasing, VEB Engineering, RGI, FCPF, NCDC, RDIF, EXIAR, Far East and Baikal Region Development Fund, MRIF and MRIF-II.

Domestic Banking Subsidiaries

OJSC “Russian Bank for Small and Medium Enterprises Support” (SME Bank)

VEB owns 100% of the charter capital of SME Bank (formerly OJSC “Russian Bank for Development”). In August 2008, the Russian Government transferred 100% of the shares held by it in SME Bank to VEB as a contribution to VEB’s charter capital. SME Bank was incorporated as an open joint-stock company in the Russian Federation on 22 February 1999 to provide SMEs and other commercial entities with financing in respect of securities transactions, loans (in both Roubles and foreign currencies), guarantees and other financial support and derivative financial instruments. As at the date of this Base Prospectus, SME Bank holds licences to carry out banking activities issued by the CBR, as well as a professional participant licence entitling it to carry out dealer operations on the securities market. SME Bank is the principal subsidiary through which VEB carries out its SME development finance activities.

SME Bank had total assets of RUB 118,206 million as at 30 June 2013 and net interest income of RUB 1,835 million and net income of RUB 909 million for the six months then ended. As at 30 June 2013, SME Bank had 366 employees.

SME Bank’s registered office is at 79, Sadovnicheskaya Street., Moscow, 115035, Russian Federation.

CJSC “ROSEXIMBANK”

VEB owns 100% of the charter capital of ROSEXIMBANK. ROSEXIMBANK was incorporated as a closed joint-stock company in the Russian Federation in 1994 to support and promote Russian machinery exports and import-substituting production and to attract foreign direct investment into the Russian economy. As at the date of this Base Prospectus, ROSEXIMBANK holds a licence for banking operations issued by the CBR and licences enabling it to participate in the Russian securities market.

ROSEXIMBANK had total assets of RUB 10,257 million as at 30 June 2013 and net interest income of RUB 175 million and net loss of RUB 435 million for the six months then ended. As at 30 June 2013, ROSEXIMBANK had 154 employees.

ROSEXIMBANK’s registered office is at 13, Building 1, 3-rd Neopalimovskii Pereulok, Moscow, 119121, Russian Federation.

Interregional Bank for Settlements of the Telecommunications and Postal Services (Sviaz-Bank)

VEB owns 99.47% of the charter capital of Sviaz-Bank (as increased in 2009 from 90.0% in October 2008). Sviaz-Bank was incorporated as an open joint-stock company and registered with the State Bank of the Soviet Union on 20 May 1991, with a view to the effective use of financial resources for accelerated and balanced development of communication and information systems and to accept deposits, extend credit, transfer payments domestically and abroad, effect currency exchange operations and provide other banking services to its commercial and retail customers. As at the date of this Base Prospectus, Sviaz-Bank holds licences to carry out a broad range of retail and commercial banking activities, including a professional participant licence entitling it to participate in the Russian securities market.

VEB acquired Sviaz-Bank to provide support for the Russian economy and financial system, after Sviaz-Bank failed to meet certain of its obligations to make payments under bonds and repurchase agreements. Since 2009, Sviaz-Bank has significantly improved its financial performance. VEB intends to transform Sviaz-Bank into a universal bank with the goal of growing its assets and profitability by 2025 to the size, sufficient for VEB to exit this bank and return all and return all the funds which were invested by VEB.

At the time of its acquisition by VEB, Sviaz-Bank was the 18th largest bank in the Russian Federation by net assets. Sviaz-Bank had total assets of RUB 277,218 million as at 30 June 2013 and net interest income of RUB 4,048 million and net income of RUB 655 million for the six months then ended. As at 30 June 2013, Sviaz-Bank had 4,031 employees.

Sviaz-Bank’s principal office is at 31/7, Building 2, Novoryazanskaya Street, Moscow, 105066, Russian Federation.

CJSC “GLOBEXBANK”

VEB owns 99.99% of the charter capital of GLOBEXBANK (as increased in 2011 from 99.2% in 2010). GLOBEXBANK was incorporated as a closed joint-stock company in the Russian Federation in 1992. GLOBEXBANK holds licences to carry out a broad range of banking activities, including precious metals operations, as well as a professional participant licence to participate in the Russian securities market.

VEB acquired its stake in GLOBEXBANK in a series of transactions in April and May 2009 to provide support for the Russian economy and financial system. As a medium-sized Russian bank with significant exposure to the Russian real estate sector, GLOBEXBANK experienced financial difficulties as a result of the global financial crisis and the related downturn in the Russian real estate market, and has required recapitalisations from VEB. GLOBEXBANK returned to profitability in 2009. VEB intends to transform GLOBEXBANK into a universal bank with the goal of growing its assets and profitability by 2025 to the size, sufficient for VEB to exit this bank and return all and return all the funds which were invested by VEB.

GLOBEXBANK had total assets of RUB 252,172 million as at 30 June 2013 and net interest income of RUB 3,163 million and net income of RUB 1,089 million for the six months then ended. As at 30 June 2013, GLOBEXBANK had 2,502 employees (including RGI employees).

GLOBEXBANK’s principal office is at 59, Building 2, Zemlyanoy Val Street, Moscow, 109004, Russian Federation.

Other Principal Domestic Subsidiaries and Associates

Kraslesinvest

Kraslesinvest was incorporated in December 2006. VEB is the sole shareholder of Kraslesinvest. Its principal activity is construction of a timber processing complex in the Krasnoyarsk region of the Russian Federation.

As at 30 June 2013, Kraslesinvest had total assets of RUB 14,554 million and net loss of RUB 326 million for the six months then ended. As at 30 June 2013, Kraslesinvest had 314 employees.

Kraslesinvest’s principal office is at 35A, Partizana Zhelesnyaka Street, Krasnoyarsk, Krasnoyarsk region, 660022, Russian Federation.

LLC “VEB Capital”

VEB owns 100% participatory interest in VEB Capital. VEB Capital was incorporated as a limited liability company in the Russian Federation in December 2009, among other things, to hold and manage certain of VEB’s investment assets, conduct operations on the Russian financial markets and provide financial advisory services, including, in particular, arranging and placing mortgage-backed bonds.

VEB Capital had total assets of RUB 19,721 million as at 30 June 2013 and net loss of RUB 669 million for the six months then ended. As at 30 June 2013, VEB Capital had 898 employees.

VEB Capital’s principal office is at 7, Building A, Mashki Poryvaevoy Street, Moscow, 107078, Russian Federation.

OJSC “VEB-Leasing”

VEB owns 98.96% of the charter capital of VEB-Leasing, the remaining 1.04% is owned by VEB-Leasing itself. VEB-Leasing was incorporated as an open joint-stock company in the Russian Federation in 2003. VEB-Leasing is primarily engaged in finance leasing of high-technology equipment, helicopters and related equipment to lessees in the Russian Federation. Its principal customers include Russian commercial manufacturing companies and military enterprises.

VEB-Leasing had total assets of RUB 296,838 million as at 30 June 2013 and net income of RUB 2,015 million for the six months then ended. As at 30 June 2013, VEB-Leasing had 1,797 employees.

VEB-Leasing's registered office is at 10, Vozdvizhenka Street, Moscow, 125009, Russian Federation.

LLC "VEB Engineering"

VEB owns 100% participatory interest in VEB Engineering. Prior to January 2013, VEB owned 67.55% of the participatory interest in the capital of VEB Engineering, while the remaining 32.45% were owned by SNC-Lavalin International Inc. (Canada), a leading Canadian engineering and construction group. In January 2013, VEB Engineering acquired the share owned by SNC-Lavalin International Inc. and, as a result, VEB controls 100% of votes in VEB Engineering.

VEB Engineering was incorporated as a limited liability company in the Russian Federation in March 2010. VEB Engineering is primarily engaged in the provision of engineering support for investment projects currently being implemented or financed by VEB. It is intended that VEB Engineering will also provide expert evaluation and advisory services in respect of infrastructure project documentation, in addition to providing technological and financial audits of infrastructure projects. VEB Engineering aims to ensure the efficient use of VEB's funds provided to finance the construction of a number of high-value infrastructure projects including those of the 2014 Winter Olympics.

VEB Engineering had total assets of RUB 80 million as at 30 June 2013 and a net income of RUB 13 million for the six months then ended. As at 30 June 2013, VEB Engineering had 37 employees.

VEB Engineering's registered office is at 9, Prospekt Akademika Sakharova, Moscow, 107996, Russian Federation.

MRIF and MRIF-II

In September 2009 and November 2009, VEB established MRIF and MRIF-II, respectively. MRIF and MRIF-II are closed-end mutual hedge funds, which serve as principal vehicles for VEB's investments into Macquarie Russia & CIS Infrastructure Fund.

In 2012, VEB transferred funds in the total amount of RUB 2,210 million to pay for 159,562 additional investment units of MRIF-II. As a result, VEB's share in the fund increased to 99.9992%.

As at 30 June 2013, MRIF had total assets of RUB 16 million and MRIF-II had total assets of RUB 3,226 million.

OJSC "Federal Centre for Project Finance" (FCPF)

In late 2010, pursuant to Decree of the Russian Government No 603-r dated 21 April 2010, the Russian Government contributed the entire charter capital (with a value of RUB 82 million) to the charter capital of VEB. FCPF is primarily engaged in VEB's programme of providing financial assistance for the implementation of projects aimed at regional and urban development in the Russian Federation with the participation of regional and municipal authorities. It is proposed that FCPF will invest in the equity of project companies established by regional and municipal administrations for the support of PPP.

In February 2013, VEB purchased two million newly issued shares of FCPF for RUB 2,000 million. VEB's share in the equity of FCPF remained 100%.

FCPF had total assets of RUB 5,195 million as at 30 June 2013 and net income of RUB 95 million for the six months then ended. As at 30 June 2013, FCPF had 31 employees.

FCPF's registered office is at 11, Building 1, Posledniy Pereulok, 107045, Moscow, Russian Federation.

OJSC "Corporation for the Development of North Caucasus" (NCDC)

On 30 September 2010, VEB's Supervisory Board approved the establishment of NCDC. In March 2011, the report on issue of shares of the North Caucasus Development Corporation was officially registered. Vnesheconombank contributed RUB 500 million to the charter capital of the subsidiary (100% shares). NCDC's strategic objectives include supporting investment projects implemented (or to be implemented) in the North

Caucasus and advising regional authorities. It is intended that NCDC may also provide co-financing to certain projects out of its own funds.

In July 2013, VEB purchased four million newly issued shares of NCDC for RUB 4,000 million. VEB's share in the equity of NCDC remained 100%.

NCDC had total assets of RUB 3,226 million as at 30 June 2013 and net loss of RUB 107 million for the six months then ended. As at 30 June 2013, NCDC (including its subsidiaries) had 76 employees.

NCDC's registered office is at 139, Pyatigorskaya Street, Essentuki, Stavropolsky region, 357625, Russian Federation.

Russian Direct Investments Fund (RDIF)

RDIF was established in June 2011. In December 2011, VEB contributed RUB 62,600 million to RDIF, which amount was received by VEB as a capital contribution from the Russian Government. In December 2012, VEB received another capital contribution of RUB 62,000 million as a subsidy from the Russian Government to be invested in RDIF. In January 2013, VEB invested the full amount of this subsidy in RDIF. As at 30 June 2013, VEB owned 100% of RDIF's assets. RDIF's principal objective is to provide co-financing, along with sovereign funds of other states, credit institutions and other leading investment funds for projects with a Russian focus. RDIF is managed by RDIF Management Company.

LLC "RDIF Management Company" (RDIF Management Company)

RDIF Management Company was incorporated as a limited liability company in the Russian Federation in June 2011 as VEB's wholly-owned subsidiary. VEB contributed RUB 300 million to RDIF Management Company's charter capital. The principal objective of RDIF Management Company is to foster an environment that encourages foreign investments in different sectors of the Russian economy, including energy, healthcare, agriculture and logistics.

RDIF Management Company had total assets of RUB 743 million as at 30 June 2013 and net income of RUB 254 million for the six months then ended. As at 30 June 2013, RDIF Management Company had 123 employees.

RDIF Management Company's principal office is at 9, Prospekt Akademika Sakharova, Moscow, 107996, Russian Federation.

OJSC "Russian Agency for Export Credit and Investment Insurance" (EXIAR)

On 27 September 2011, VEB's Supervisory Board approved the establishment of EXIAR as a wholly-owned subsidiary of VEB with the charter capital of RUB 30,000 million. EXIAR was established on 13 October 2011. The stated objective of EXIAR, whose activities will be supplemental and complementary to, and not intended to replace or compete with, VEB's existing export finance activities, is to promote the Russian export market by providing credit insurance and guarantees to Russian exporters with the support of the state.

EXIAR had total assets of RUB 32,122 million as at 30 June 2013 and net income of RUB 731 million for the six months then ended. As at 30 June 2013, EXIAR had 87 employees.

EXIAR's principal office is at 3, Building 1, 1-st Zachatyevskiy Pereulok, Moscow, 119034, Russian Federation.

OJSC "Far East and Baikal Region Development Fund"

In November 2011, VEB established a wholly-owned subsidiary, Far East and Baikal Region Development Fund, with the capitalisation of RUB 500 million. The fund will focus on promoting investment projects in the Far East and the Baikal regions of the Russian Federation. In December 2012, VEB received RUB 15,000 million as a subsidy from the Russian Ministry of Finance to be contributed to the charter capital of Far East and Baikal Region Development Fund. In March 2013, VEB contributed the full amount of the aforementioned RUB 15,000 million subsidy to the charter capital of Far East and Baikal Region Development Fund.

Far East and Baikal Region Development Fund had total assets of RUB 15,619 million as at 30 June 2013 and net profit of RUB 111 million for the six months then ended. As at 30 June 2013, Far East and Baikal Region Development Fund had 39 employees.

Far East and Baikal Region Development Fund's principal office is at 37/1, Staromonetny Pereulok, Moscow 119017, Russian Federation.

Russian Bank Capitalisation Fund (RBCF)

The Russian Bank Capitalisation Fund was established in June 2012 and is managed by IFC Asset Management Company LLC, a wholly-owned subsidiary of IFC. The Russian Bank Capitalisation Fund will invest in the capital of Russian universal second-echelon banks actively operating in the regions of Russia and will fund small and medium-sized Russian businesses in the real economy.

In June 2012, VEB, IFC and the Russian Government contributed to the capital of the Russian Bank Capitalisation Fund, an investment fund focused on investments in Russian banks. VEB contributed U.S.\$250 million (RUB 7,445 million at the date of transfer), IFC contributed U.S.\$250 million and the Russian Ministry of Finance contributed U.S.\$50 million.

Foreign Subsidiaries

OJSC "Bank BelVEB"

VEB owns 97.52% of the charter capital of Bank BelVEB. Bank BelVEB was incorporated as an open joint-stock company in Belarus in 1991 as a result of the separation of the Belarus branch of the Vnesheconombank of the USSR. Its primary functions include the granting of loans to support industries engaged in trade between Belarus and the Russian Federation, issuing and processing export and import letters of credit, transferring payments, exchanging currencies, attracting deposits and dealing in debt securities. As at the date of this Base Prospectus, Bank BelVEB holds a licence to carry out banking activities issued by the National Bank of Belarus, a licence to carry out operations with precious metals and stones and a licence to perform professional and stock-exchange operations with securities issued by the Belarus Ministry of Finance.

VEB acquired a 53.56% interest in Bank BelVEB in 2007, which was subsequently increased to 97.4% in 2008 and 2009, to 97.42% in 2010, 97.49% in 2011 and to 97.52% in May 2012. VEB acquired its stake in Bank BelVEB in 2007 due to its strategic importance in the provision of finance to Belarusian businesses exporting goods to the Russian Federation. Bank BelVEB had total assets of RUB 66,230 million as at 30 June 2013 and net interest income of RUB 1,700 million and net income of RUB 0.397 million for the six months then ended. As at 30 June 2013, Bank BelVEB had 2,316 employees. VEB intends to hold Bank BelVEB as a long-term strategic investment.

Bank BelVEB's principal office is at 29, Prospekt Pobeditelei, Minsk, 220050, Belarus.

PSC Prominvestbank (Ukraine)

VEB owns a 98.6% in Prominvestbank (as increased in 2013 from 97.85% in 2011). Prominvestbank was incorporated as a public joint stock company and commercial industrial and investment bank in Ukraine in 1992 to provide a broad range of banking services, including in particular trade and export finance activities for state-owned or controlled enterprises and customers engaged in metallurgy and machine-building development, ship-building, aircraft manufacturing, transportation, construction and agriculture.

VEB acquired its interest in the charter capital of Prominvestbank in January 2009. In addition to purchasing its stake in the charter capital, in 2009, VEB extended a U.S.\$1,000 million loan to Prominvestbank. On 20 August 2010, VEB restructured this loan, which was initially scheduled to mature in 2012, into two separate loans, including a loan in the amount of U.S.\$300 million on a subordinated basis due 2020 and a loan in the remaining amount of U.S.\$455 million under a multicurrency revolving credit facility due 2018. VEB intends to hold its stake in Prominvestbank as a long-term strategic investment. At the time of its acquisition, Prominvestbank was the sixth largest Ukrainian bank by assets.

In September 2011, VEB opened a three-year multi-currency credit line for a principal amount of U.S.\$800 million for Prominvestbank. In April 2012, this credit line was fully drawn.

Prominvestbank had total assets of RUB 147,994 million as at 30 June 2013 and net interest income of RUB 2,613 million and a net loss of RUB 496 million for the six months then ended. As at 30 June 2013, Prominvestbank had 3,461 employees.

Prominvestbank's principal office is at 12, Shevchenko Pereulok, Kiev-1, 01001, Ukraine.

R.G.I. International Limited

RGI is a public company listed on the AIM market of the London Stock Exchange since December 2006. As of the date of this Prospectus, GLOBEXBANK owns 73.4% of the share capital of RGI.

RGI was incorporated in Guernsey on 14 March 2006 as a limited liability company. RGI is engaged in property development and property management in the Russian Federation, with its core business being the development and management of high-end office and retail businesses and luxury residential and premium economy class residential project in central Moscow and the surrounding areas. RGI is also engaged in concession management as well as retail sales both of which are executed in the Tsvetnoy shopping centre.

RGI had total assets of RUB 26,451 million as at 30 June 2013 and a net loss of RUB 419 million for the six months then ended. As at 30 June 2013, RGI had 327 employees.

RGI's registered address is Frances House, Sir William Place, St. Peter Port, Guernsey, GY1 4HQ. RGI's principal office is at 9, Korobeinikov Lane, Moscow, 119034, Russian Federation.

VEB Asia Limited ("VEB Asia")

VEB Asia was registered in Hong Kong, China in April 2013 and is a wholly-owned subsidiary of VEB. In October 2013, VEB capitalised VEB Asia with U.S.\$30 million.

VEB Asia will liaise with Hong Kong financial institutions and will focus on attracting financing from Asian investors for large-scale projects in Russia.

VEB Asia's registered address is Room 709, Wellborne Commercial Centre, 8 Java Road, North Point, Hong Kong.

The following table lists VEB's principal subsidiaries and major associates as at 30 June 2013:

¹ VEB owns directly 98.96% of VEB-Leasing, the remaining 1.04% is owned by VEB-Leasing itself.

² VEB owns directly 67.55% of VEB Engineering, the remaining 32.45% is owned by VEB Engineering itself.

SECURITIES MARKETS AND TREASURY OPERATIONS

VEB's securities markets and treasury operations are regulated by the Development Bank Law, the 2007 Memorandum and VEB's internal regulations.

VEB's securities markets and treasury operations were developed in connection with VEB's role as one of the key state-owned vehicles for the stabilisation of the Russian economy and financial system through the provision of support to the Russian stock market in accordance with rules and regulations established by the Supervisory Board using funds placed by the Russian Ministry of Finance with VEB pursuant to a decree of the Russian Government. See "*—Support for the Russian Stock Market and Securities Market Operations*". As at the date of this Base Prospectus, VEB's securities markets and treasury operations also cover a number of ordinary course activities, including: (i) borrowing and placing loans in the financial market; (ii) buying and selling foreign currency; (iii) implementing derivative transactions; and (iv) conducting other securities operations including making certain strategic investments in key Russian companies. These strategic investments include the acquisition by VEB of a 2.7% stake in OJSC "Gazprom" for approximately U.S.\$3,500 million in December 2010. See "*Certain Statistical Data and Other Information—Securities Portfolio—Investments Available-for-Sale*" and "*Certain Statistical Data and Other Information—Sources of Funding—Amounts Due to the Russian Ministry of Finance and the Russian Government*". Subject to market conditions and its responsibility not to disrupt the normal operations of the securities market, VEB intends to continue to sell down its securities positions over a period of time to focus on its banking activities rather than securities trading and investment operations, although VEB intends to hold its portfolio of corporate bonds, as well as such strategic investments, in the longer term. As a result, VEB is likely to continue to experience fluctuations in the value of its securities portfolio in the future. As in the past, such fluctuations may have a direct impact on VEB's assets and liabilities and its results of operations.

VEB's securities markets and treasury operations also include the management of VEB's liquidity position and risks. For this purpose, VEB engages in dealer and deposit-taking operations, securities portfolio management, asset management and cash management. The principal treasury operations employed by VEB for liquidity management include providing and attracting inter-bank loans, entering in to repurchase and reverse repurchase transactions and undertaking conversion operations in the inter-bank lending and stock markets.

REAL PROPERTY

VEB owns its head office and leases seven representative office buildings within the Russian Federation. VEB's head office building is located at 9, Prospekt Akademika Sakharova, Moscow, 107996, Russian Federation, with floor space of approximately 33,411 square metres. VEB has been at these premises since 1994.

INFORMATION TECHNOLOGY

VEB currently operates a core information technology ("**IT**") system, which was developed in-house to support settlement and treasury functions and financial reporting and accounting functions. VEB has no material third party software licences or IT-related consultancy agreements. VEB has operated its IT systems since 1993 with no major disruptions.

VEB uses a variety of IT security protocols, including data encryption software, to protect the sensitivity of data relating to its operations. VEB has developed detailed internal guidelines dealing with data security and protection of information. The Information Security Division within VEB is responsible for amending and implementing VEB's internal regulations concerning information security, investigating events related to the infringement of information security and developing, implementing and improving information protection facilities and measures. VEB's automated banking system IT networks are segregated and physically separated from external data transmission networks.

VEB intends to increase its IT systems capacity and functionality in line with the growth in its business activities, including through the continuing establishment of modern banking data centre infrastructure. VEB has also established back-up IT systems in relation to its corporate intra-net.

VEB maintains a system of internal controls designed to protect its computer network and IT infrastructure and to identify and manage operational and technological risk as well as to minimise processing delays, disruptions in service and security breaches. VEB has 235 servers and 21 back-up servers (excluding servers used for testing firewalls). All of VEB's IT systems are backed up on a regular basis. VEB has a number of business

continuity plans in place, including those to mitigate the effects on VEB's business of man-made disasters, natural disasters and terrorist attacks. In addition, VEB continues to implement IT upgrades and measures in accordance with applicable Russian legislation aimed at the prevention of money laundering and terrorism financing.

VEB's IT development strategy is focused on the step-by-step creation and use of the IT services based on the balance of quality, cost and efficiency.

In the six months ended 30 June 2013, VEB made IT capital expenditures of RUB 33,095 million. During the rest of 2013 and beyond, VEB intends to continue to develop IT systems to support a number of VEB's core internal functions including (i) its risk management systems, (ii) the planning, analysis and the monitoring of investment projects and (iii) a new SWIFT money transfer system.

VEB's IT activities management system is based on best practices in Information Technology Service Management (ITSM) and Information Technology Infrastructure Library (ITIL) and is a critical tool for the completion of both current and strategic tasks of VEB.

INSURANCE

Liability insurance for banking and financial institutions is generally not available in the Russian Federation, Belarus and Ukraine and, accordingly, VEB does not currently hold insurance covering financial losses arising from errors or omissions.

VEB's premises are insured for RUB 5,618 million.

LITIGATION

VEB is, from time to time, the subject of legal proceedings in the ordinary course of its business. Other than as set out below, VEB has not been involved in any governmental, legal or arbitration proceedings during the 12 months preceding the date of this Base Prospectus, which may have or have had a significant effect on the financial position or profitability of VEB nor, so far as VEB is aware, are any such proceedings pending or threatened.

LLC "Teplitsy Ramenskiye"

On 26 March 2013, VEB filed a petition with Moscow Arbitration Court in order to declare LLC "Teplitsy Ramenskiye" bankrupt. On 24 April 2013, VEB's claim for RUB 2,877 million was included in the register of third priority creditors. On 5 June 2013, VEB requested to increase the amount of its claim to RUB 5,282 million (RUB 2,107 million of which is secured by pledge). On 9 September 2013, the court satisfied VEB's request by increasing the amount of VEB's claim to RUB 5,283 million (RUB 2,107 million of which is secured by pledge) and including this claim in the register of third priority creditors.

LLC "NK "Severnoye Siyaniye"

In June 2012, VEB decided to accelerate the loan extended to LLC "NK "Severnoye Siyaniye" pursuant to the Loan Agreements dated 3 March 2006, 15 June 2006, and 8 April 2010, and filed a claim for U.S.\$273 million with Moscow Arbitration Court. On 27 March 2013, the court fully satisfied VEB's claim. LLC "NK "Severnoye Siyaniye" appealed on 7 June 2013. On 7 August 2013, the Ninth Court of Appeal dismissed the appeal of LLC "NK "Severnoye Siyaniye". LLC "NK "Severnoye Siyaniye" appealed this decision in cassation, which was left without action by the Federal Arbitration Court for the Moscow Region on 9 October 2013.

Malév Ltd.

In February 2012, the Metropolitan Court of Budapest declared Malév Ltd (Hungarian air carrier) insolvent and ordered the liquidation of the company. The total amount of VEB's claim to Malév Ltd is €126 million, representing Malév Ltd's indebtedness to VEB under several loan agreements. Approximately €3 million of VEB's total claim amount is secured. The liquidation is currently pending and the chances of VEB's recovery are unknown at this point.

United Pilsen S.A., Luxembourg

In May 2010, VEB granted a €10 million credit line to United Pilsen S.A., Luxembourg, with the borrower's obligations secured by a guarantee from Czech steel company Pilsen Steel s.r.o. In September 2012, bankruptcy proceedings were initiated against Pilsen Steel s.r.o. VEB has filed a claim in bankruptcy proceedings to recover €128 million, which is the amount of the outstanding debt of United Pilsen S.A. to VEB. Since 2012 VEB has been a member of the creditors' committee. Following the first creditors' meeting and a court hearing held on 4 January 2013, a reorganisation of Pilsen Steel s.r.o. has been initiated.

OJSC "Amurmetal"

In December 2009, VEB signed a loan agreement with OJSC "Amurmetal", a Russian steel company. In 2010, VEB granted a RUB 2,200 million credit line to OJSC "Amurmetal", and the amount of the credit line was subsequently increased to RUB 7,500 million. The borrower's obligations were secured by a pledge of receivables from its export contracts. As at 20 June 2012, OJSC "Amurmetal" had drawn down RUB 5,300 million under the credit line. On 30 August 2012, the Khabarovsk region state arbitrazh court established a supervision procedure over OJSC "Amurmetal" in connection with its insolvency. In November 2012, a claim by VEB in the amount of RUB 5,380 million (representing principal and accrued interest) was accepted in the insolvency proceedings and was included in the register of creditors' claims. On 27 August 2013, the interim receiver reported to the court on the results of the supervision and pleaded for commencement of the bankruptcy management ("*konkursnoe proizvodstvo*") stage of bankruptcy proceedings. On the same date, VEB requested to include an additional claim in the amount of RUB 0.6 million into the register of creditors' claims. The court ruled that this claim would be handled after the new bankruptcy procedure is instituted. On 2 October 2013, the court approved bankruptcy management ("*konkursnoe proizvodstvo*") proceedings for a period of six months. The next court hearing is scheduled for 2 April 2014.

CJSC "Logopark Biek Tau"

On 16 September 2008, VEB entered into a loan agreement with CJSC "Logopark Biek Tau" ("**Logopark**") and extended a loan in the amount of U.S.\$104 million. Due to the breach of terms of the loan by the borrower, VEB accelerated the loan. On 24 December 2012, VEB sued Logopark in Moscow Arbitration Court and claimed an amount of U.S.\$118 million. Logopark filed a counter-claim arising out of promissory notes issued by VEB and held by Logopark, alleging that VEB failed to pay on such promissory notes in time. As a result, Logopark claimed RUB 0.8 million of damages and penalties, RUB 80 million of lost profits and RUB 32 million and U.S.\$0.2 million of promissory notes indebtedness. On 18 July 2013, the court fully satisfied VEB's claim and partially satisfied the claim of Logopark. The court ruled that RUB 32 million and RUB 0.7 million of VEB's indebtedness to Logopark should be offset against the amount owed by Logopark to VEB. As a result, VEB's claim was satisfied in the amount of U.S.\$116.7 million. Both VEB and Logopark appealed this decision.

LLC "Zarechie-2"

On 18 July 2006, VEB entered into a loan agreement with LLC "Zarechie-2" and extended a loan in the amount of U.S.\$124 million. VEB accelerated the loan in November 2011 because the borrower breached the terms of the loan agreement. On 28 November 2011, VEB sued LLC "Zarechie-2" in Moscow Arbitration Court and claimed an amount of U.S.\$188 million. On 18 April 2013, the lower court awarded VEB its claim in full. This decision was affirmed by the court of appeal. LLC "Zarechie-2" filed a cassation appeal on 5 September 2013. On 10 October 2013, the cassation court affirmed the decisions of the lower courts.

In parallel with the above proceedings, on 12 July 2013, VEB filed a petition with Moscow Arbitration Court for declaring of LLC "Zarechie-2" bankrupt. On 5 September 2013, the court included VEB's claim for RUB 6,847 million into the register of third priority creditors and established a supervision procedure over LLC "Zarechie-2" in connection with its insolvency. The next court hearing is scheduled for 18 December 2013.

"Port Sochi Imeretinsky"

On 6 March 2009, VEB signed a loan agreement with LLC "Port Sochi Imeretinsky" and extended a loan in the amount of RUB 3,670 million to finance the construction of a cargo terminal at Sochi Port (at the mouth of the Mzymta River). On 6 May 2013, LLC "Port Sochi Imeretinsky" sued VEB seeking amendment of the loan terms and extension of the repayment date. The court hearing is scheduled for 24 March 2014.

On 11 October 2012, VEB accelerated the loan. On 11 October 2013, VEB sued LLC “Port Sochi Imeretinsky” and its guarantors, LLC “Imeretinskaya Stividornaya Company” and State Corporation “Olimpstroy”, and claimed an amount of RUB 5,025 million. The court accepted VEB’s claim for consideration. Preliminary hearing is scheduled for 2 December 2013.

LENDING POLICIES AND PROCEDURES

CREDIT APPROVAL AND MONITORING

Credit Policies

VEB has established clear policies and procedures for approving credit applications, setting credit limits and sub-limits, accepting and valuing collateral and monitoring borrowers' financial positions and compliance with loan documentation. These credit policies and procedures have been derived from the Development Bank Law, the 2007 Memorandum and other applicable legislative and regulatory acts of the Russian Federation. In March 2013, VEB's credit policies and procedures were amended by the Supervisory Board.

The Supervisory Board is responsible for establishing VEB's overall credit policies in line with the Development Bank Law and the 2007 Memorandum, including procedures for providing loans, guarantees and other credits both directly to customers and indirectly to other banks and other financial institutions for on-lending to customers in accordance with VEB's strategic objectives and core business activities. The Supervisory Board has also adopted, and regularly reviews and amends, the various methodologies and procedures used by VEB for determining compliance with the credit policies.

The Management Board is responsible for ensuring that day-to-day lending decisions comply with the credit policies established by the Supervisory Board. The Credit Committee assists the Management Board in performing this function by supervising the various departments and divisions within VEB in making credit decisions, monitoring compliance with internal regulations and approving write-offs of bad debts.

The Internal Control Service performs an internal audit function to verify overall compliance with VEB's credit policies and procedures. The Internal Control Service reports directly to the Supervisory Board in accordance with the 2007 Memorandum and VEB's internal regulations and credit policies. See "*Risk Management—Risk Management Structure*".

Credit Approval Procedures

VEB employs multi-tier, top-down credit approval procedures. Loan requests are initially submitted to a Credit Inspector. In all cases, applications must be made using VEB's standard form of credit application, which must be accompanied by certain supporting documents depending on the type of credit to be extended. The potential borrower is required to provide information with respect to its credit history and financial position, business reputation, overall leverage position and other key metrics, as well as its relationships with other lending institutions. The relevant Credit Inspector also tests applicable credit limits (if established) and analyses the structure of the transaction and terms negotiated with the prospective borrower, as well as relevant market trends. An independent analysis of the applicant's reputation is also made by the Security Directorate.

If the results of the comprehensive analysis of a credit application are favourable, the relevant Credit Inspector and the Security Directorate make a joint recommendation to the Credit Committee. On an as needed basis, the related credit documentation is submitted to the Legal Department for further review, negotiation and approval before onward submission to the Credit Committee. The Credit Committee then undertakes its own independent review of the loan request.

Depending on the amount involved, credit applications must finally be approved by the Chairman of VEB, the Management Board or the Supervisory Board, in accordance with their level of responsibilities:

Required Level of Approval	Amount Involved (as a percentage of VEB's Equity (<i>sobstvennie sredstva</i>))
Chairman of VEB	Less than 2%
Management Board	2% to 10%
Supervisory Board.....	More than 10%

Requests to extend credit for use in investment projects are also subject to an extensive expert assessment by the Infrastructure Department, the Industry Department or the Regional Development Department, as the case may be, depending on the type of credit being extended. The expert assessment is intended to determine whether the proposed project falls within one of VEB's priority investment sectors as defined in the Development Bank Law

and the 2007 Memorandum. Although VEB is not restricted to investing only in priority sectors, VEB does give preference to such sectors in its investment activities. The expert also examines whether VEB's participation in the implementation of the project is likely to yield positive effects for the Russian economy or other public benefits and whether the project is commercially viable.

The Chairman of VEB (or another authorised officer of VEB, as may be appointed in accordance with VEB's internal regulations) is responsible for determining which department within VEB should conduct the expert assessment with respect to certain proposed projects. Expert assessments are generally carried out in two stages. A preliminary assessment is undertaken by the relevant department to assess whether the project conforms to the principles used by VEB in selecting projects. The results of this initial assessment are reported to the Committee on the Development of Investment Operations, which undertakes an independent review to determine whether the project should be pursued. If the project is approved by the Committee on the Development of Investment Operations, a more comprehensive expert assessment is then undertaken by the department that conducted the relevant preliminary expert assessment. This more detailed assessment is intended to focus on the commercial viability and associated risk levels of the project. In particular, the further review examines the financial condition of the borrower, various risks related to the borrower and any of its guarantors, the structure of the project and the acceptability of the security being provided. In addition, this more detailed assessment is meant to ascertain whether the financial support being provided by VEB will be used for the designated purposes. In addition, external experts may be appointed by VEB to carry out environmental, tax or other discreet analyses, as required. The expert assessments form a part of the loan application as it is approved at each successive required level.

Credit Limits

VEB has established limits on the amount of risk it is willing to accept in relation to particular counterparties, groups of counterparties, industry sectors and geographic regions. In particular, in order to mitigate concentrations of risk, VEB's policies and procedures include guidelines and restrictions designed to maintain a diversified portfolio. Risk concentrations arise when a number of counterparties are engaged in similar business activities, or activities in the same geographic region, or have similar economic features, or when their ability to meet contractual obligations will be similarly affected by possible changes in economic, political or other conditions.

Limits are imposed at two levels; on an overall basis and on a customer basis. The 2007 Memorandum establishes the following limits applicable to VEB's overall lending and credit operations:

- VEB's exposure, at any one time, to a single borrower, or a group of related borrowers, may not exceed 25% of VEB's total equity (mostly as part of VEB's recovery activities and as approved by VEB's Supervisory Board, VEB made an exception from this rule for four borrowers, two of which are state-controlled and one of which is an associate of VEB);
- VEB's exposure to large credit risks (loan or loans to a borrower exceeding 5% of VEB's equity) at any one time, may not exceed 800% of VEB's total equity.

VEB's Supervisory Board has the right to impose additional limits.

In addition, in conjunction with its approval of the first credit application by a particular borrower, the Risk Management Department, in co-operation with the relevant business division (i.e., the Infrastructure Department, the Industry Department or the Natural Resources and Construction Directorate, in the case of applications by banks or other financial organisations, or the Financial Institutions Department, in the case of applications by banks or other financial organisations), recommends an overall credit limit, as well as sub-limits, for the relevant borrower. A single overall credit limit is set in order to cap VEB's maximum permitted risk exposure to the particular borrower in respect of all transactions involving such borrower, whilst sub-limits are defined for various types of finance, as follows:

- loans secured by a pledge of VEB's debt obligations (e.g., promissory notes issued by VEB) or by a pledge of highly-liquid or otherwise low-risk securities;
- inter-bank loans, including inter-day and overnight loans, currency conversion operations and term deposits;

- loans to counterparties in connection with securities trading operations, such as repurchase and reverse repurchase transactions;
- loans to finance investments in debt securities, including foreign currency-denominated Eurobonds and Rouble-denominated debt securities;
- short-term derivative transactions, including currency and interest rate swaps and other hedging instruments; and
- financings under documentary credit operations, including guarantees and letters of credit.

Limits are initially proposed by the relevant business division and the Risk Management Department by reference to the information provided by the relevant borrower in its loan application, with input (as needed) from the Security Directorate and the Legal Department. The credit limit and sub-limits applicable to a particular borrower are, in turn, independently assessed and approved at each level at which the initial loan application by such borrower is required to be approved. The final limits are set by the body, which ultimately approves the loan application. Certain “no risk” financial operations, including receiving deposits, conducting operations with paying agents, selling options, undertaking cash transactions for customers on a pre-funded basis and other similar operations, and operations whereby the risk is completely covered by the value of collateral provided are not subject to any limits. In addition, depending on the credit being extended, some operations may be permitted to exceed established credit sub-limits with the approval of the Supervisory Board, the Management Board or the Chairman of VEB, within each of their respective stated levels of authority to approve the underlying transaction.

Exposures in relation to existing limits are monitored regularly and all credit limits and sub-limits are reviewed on a periodic basis to assess their continued applicability to the relevant borrower in the context of such borrower’s exposures and VEB’s then-current operations and the overall market environment. In the first instance, the relevant business division involved in the initial establishment of the subject credit limit and sub-limits is responsible for monitoring their continued validity and recommending to the Risk Management Department any proposals for modification. The Risk Management Department independently tests credit limits and sub-limits and, in the event of a perceived need to amend any limit or sub-limit, either on its own or upon the recommendation of the relevant business division, prepares a report for consideration by the Security Directorate and the Legal Department (if needed) and, in turn, by the Credit Committee, which bears responsibility for monitoring adherence to credit limits and sub-limits and recommending any modifications to them for approval by the relevant governing body.

Monitoring Compliance

Over the term of a particular financing transaction, the Credit Inspector responsible for initially approving the credit is also charged with monitoring whether the borrower is fulfilling the terms and conditions of the agreement pursuant to which financing has been provided, the borrower’s financial position, the quality and liquidity of any collateral pledged to support the loan, the borrower’s punctual submission of accounting and financial statements to VEB and other indicators of the borrower’s ability to repay the loan. VEB may also employ third-party consultants to monitor compliance with the loan, including visiting the site of the project and valuing collateral (i.e., real property).

The Risk Management Department also monitors the financial position of each borrower, as well as whether a particular credit is in compliance with the credit risk limit and sub-limits applicable to such borrower.

Where problems of compliance in respect of a particular loan are detected, the business division responsible for approving the loan, in co-operation with the Risk Management Department, prepares a report for submission to the Credit Committee containing information relating to changes in market condition, the financial status and standing of the borrower or other events that may have an extraordinary negative impact on the borrower’s ability to fulfil its obligations. The Credit Committee may recommend to the relevant management body to amend an established limit or sub-limit and to apply appropriate actions in respect of a loan or counterparty, including requesting additional collateral.

COLLATERALISATION POLICIES

VEB requires collateral in respect of most of its loans in accordance with established guidelines. The amount and type of collateral required is decided on a case-by-case basis and depends on a number of factors, including the size of the loan and an assessment of the credit risk of the borrower.

The main types of collateral accepted, by type of finance, are as follows:

- a pledge of securities in respect of back-to-back finance;
- a pledge of claims for revenues to be received under export contracts in respect of pre-export finance;
- a pledge of a cash or securities account in respect of financing operations involving securities, such as repurchase and reverse repurchase transactions;
- guarantees from the Russian Government, from parent companies in respect of loans to their subsidiaries and from credit-worthy third parties;
- a charge over real estate property, inventory, trade receivables, securities or other claims against third parties in respect of project finance and commercial loans; and
- a mortgage over residential property in respect of loans to finance the purchase of such property.

The market value of collateral is measured in accordance with an established set of internal rules. Collateral valuations are monitored on a continuous basis (where practicable in respect of liquid assets, including cash and marketable securities), on a semi-annual basis or on an annual basis (in the case of real property or other hard assets provided by a Russian resident) or on an ad hoc basis in the event that VEB obtains negative advice regarding the subject collateral or the relevant borrower or in the event of adverse developments in the market. In the event that a sufficient decline in value is measured, additional collateral may be requested in accordance with the relevant underlying finance agreement. See “—*Impairment and Loan Loss Allowance and Write-Off Policies*”.

IMPAIRMENT AND LOSS ALLOWANCE AND WRITE-OFF POLICIES

VEB has developed a set of internal regulations establishing credit classification schemes, related loan loss reserve requirements and policies for the write-off of bad debts. As at 30 June 2013, VEB recorded allowance for impairment of loans to customers in the aggregate amount of RUB 214,525 million, which represented 63.3% of VEB’s individually impaired loans and 11.0% of VEB’s loans to customers.

Loan Classification Categories

VEB classifies its loans on a group-wide basis of two credit rating systems. VEB applies a five-tiered classification scheme based on IFRS and second, VEB applies CBR regulations, which requires VEB to classify its credits into one of five categories, including: (i) high-grade (fully performing) loans; (ii) standard loans; (iii) sub-standard loans; (iv) impaired loans but not past-due; and (v) past due.

VEB has also developed its own more detailed credit risk classification system, which assigns each borrower to one of 10 risk classes corresponding to the ratings definitions published by leading international rating agencies.

Credit Quality Per Class of Financial Assets

Ratings are assigned to individual credits by reference to a variety of financial analytical tools, depending on the type of counterparty, as well as market information. In assigning a loan classification, parameters to be tested may include balance sheet structure, current and absolute liquidity, capitalisation levels, return on equity, ratio of own capital to liabilities, the quality of loan and investment portfolios, risk concentrations and long-term stability. Credit ratings are subject to regular review in order to allow VEB to identify potential losses early and to take responsive corrective actions.

The tables below set forth a breakdown of VEB's assets, by credit rating, in accordance with the classification scheme based on IFRS and CBR regulations, as at the dates indicated:

Loan Loss History; Allowance for Impairment of Loans to Customers

VEB records allowance for impairment where it is deemed necessary to cover possible losses. VEB defines “potential losses” as possible financial losses that VEB may incur due to the occurrence of the following events:

- a failure by a counterparty to fulfil obligations owed to VEB or a failure by a person whose obligations are guaranteed or otherwise secured by VEB to meet such obligations; or
- depreciation in the value of assets involved in projects being financed by VEB or otherwise pledged as collateral.

The principal criteria considered for the assessment of loan impairment include whether any payments of principal or interest are overdue by more than 30 days, whether there are any known difficulties in the cash flows of the counterparty or counterparties, whether the counterparty or counterparties have been the subject of any credit rating downgrades and whether there have been any breaches or violations of the original terms of the related contract.

Impairment assessment is performed on both an individual and collective basis.

Individually assessed allowances

The allowances appropriate for each significant loan are determined separately on an individual basis. Items considered when determining allowance amounts include the sustainability of the counterparty’s business plan, its ability to improve performance once a financial difficulty has arisen, projected receipts and the expected dividend pay-out should bankruptcy ensue, the availability of financial support, the realisable value of collateral and the timing of the expected cash flows. The impairment losses are evaluated at each reporting date, unless unforeseen circumstances require more frequent review.

Collectively assessed allowances

Allowances are also assessed collectively for impairment of loans to customers that are not individually significant (including credit cards, residential mortgages and unsecured consumer lending) and for individually

significant loans where there is not yet objective evidence of individual impairment. Allowances are assessed on each reporting date with each portfolio receiving a separate review.

The collective assessment takes account of impairment that is likely to be present in the portfolio even though there is not yet any objective evidence of issues requiring individually assessed impairment. Impairment losses are estimated by taking into consideration the following information: historical losses on the portfolio, current economic conditions, the appropriate delay between the time a loss is likely to have been incurred and the time it will be identified as requiring an individually assessed impairment allowance and expected receipts and recoveries once impaired.

Financial guarantees and letters of credit are also assessed in a similar manner as to loans.

The following tables set forth a reconciliation of the allowance for impairment of loans to customers, by type of credit, for each of the periods indicated:

	Project finance 2012	Commercial loans 2012	Pre-export finance 2012	Net investment in leases 2012	Financing of operations with securities 2012	Promissory notes 2012	Reverse repurchase agreements 2012	Back-to- back finance 2012	Claims under letters of credit 2012	Mortgage bonds 2012	Other 2012	Total 2012

Notes:

- (1) Includes net investments in leases.
- (2) Includes claims under letters of credit and other.

Write-offs

A loan is regarded as a bad debt if VEB has taken all available legal and other reasonable steps to recover such debt and to exercise its rights in respect of the security provided for such debt. Pursuant to VEB's internal regulations, loans may only be written off with the approval of the Chairman of VEB upon the recommendation of the Credit Committee (which may be subject to certain required levels of approval by the Management Board or Supervisory Board, as applicable). The decision to write-off a bad debt may be based on an order from a court or another authorised state body or other documentary evidence of the insolvency or liquidation of the debtor or on VEB's own estimation that the costs of recovering the debt, including by way of exercising its rights in respect of any collateral provided to secure such debt, will be greater than the amount of the debt to be recovered.

RISK MANAGEMENT

RISK MANAGEMENT POLICIES

VEB believes that the process of risk management is critical to mitigating any impact of VEB's risk exposure on its financial stability. The Risk Management Department has adopted internal regulations on risk management based on international standards and each of VEB's business divisions is responsible for controlling the level of risk inherent in its activities in accordance with these regulations. The Risk Management Department has a number of responsibilities, which include identifying and monitoring risks, on an ongoing basis.

VEB is exposed to the following principal types of risk as a result of its day-to-day operations:

- **Financial Risk:** Financial risk is the risk of loss caused by an adverse change in the value of VEB's assets or an adverse change in its financial metrics. Financial risk includes credit risk and liquidity risk, as well as market risk, which, in turn, is comprised of interest rate risk, currency risk and equity risk.
- **Operational Risk:** Operational risk is the risk of loss resulting from inadequate or failed processes, personnel errors, systems deficiencies or shortcomings or from certain external events. Internal risks include personnel risk, technology risk and internal legal risk (such as risks relating to regulatory violations). External risks include risk of harm caused by third parties, external legal risk (such as the risk of non-compliance with obligations and legal risks in relation to VEB's business activities), social and political risk, emergency risk and loss of business reputation.
- **Strategic Risk:** Strategic risk is the risk of loss resulting from failures relating to the initial determination of strategic objectives or the execution or modification of such objectives in response to changes in the business environment.

Financial Risk

VEB manages and seeks to control financial risk by utilising a number of tools and strategies, including, among others, financial hedging, asset diversification and the creation of reserves; requiring collateral; and maintaining access to the financial resources of international financial institutions.

As part of its overall risk management strategy, VEB may use derivatives or other financial instruments to manage exposures arising from actual or predicted changes in interest rates, currency rates, equity prices or credit risk factors. VEB also actively uses collateral to hedge its credit risk. See "*Lending Policies and Procedures—Collateralisation Policies*".

Credit Risk

Credit risk is the risk that a counterparty will not be able to meet its obligations in full when due. VEB is exposed to credit risk in its lending activities and in its documentary credit operations requiring VEB to make payments on behalf of its customers in certain circumstances, including the issuance of guarantees and letters of credit.

VEB has established a credit quality review process to facilitate the early identification of changes in the creditworthiness of counterparties. Credit risk is managed at all stages of the lending process, including the review of the loan application and the loan approval process through to the ongoing administration of the credit file and the monitoring of compliance with the terms of the loan, the borrower's financial position, the status of the investment project, repayment performance and the value of any collateral provided to secure the loan. Since transactions bearing credit risk may also give rise to other risks, such as market risk, project risk and collateral risk, VEB performs a comprehensive assessment of the risks attributable to each transaction.

Counterparty limits are established by the use of a credit risk classification system, which assigns each counterparty a credit rating. Credit ratings are subject to regular revision. The credit quality review process allows VEB to assess the potential loss as a result of the risks to which it is exposed and take corrective action.

The Group's credit risk assessment methodology is currently being amended to harmonise approaches to credit risk assessment within the Group and in order to ensure each of VEB's subsidiaries adopts the same standards as are applied by VEB

Liquidity Risk

VEB is exposed principally to two types of liquidity risk: funding liquidity risk and asset liquidity risk. Funding liquidity risk is the risk that VEB will be unable to meet its financial obligations as and when they fall due. Asset liquidity risk is the risk of financial loss as a result of an inability to liquidate a large position at market price due to insufficient liquidity in the market to unwind the position.

VEB manages its liquidity risk at the following levels:

- each banking subsidiary of VEB manages its liquidity on a standalone basis so that it is able to meet its obligations in full as they become due, as well as to comply with regulatory requirements applicable to it; and
- VEB manages the Group's liquidity by re-allocating, where necessary, funds across the Group through intercompany loans and by the issue and sale of securities by a subsidiary in the market which are then purchased by VEB and other similar transactions.

VEB's banking subsidiaries assess liquidity risk by analysing the maturity structure of their assets and liabilities and stress-testing asset liquidity cushions under various scenarios. As part of the liquidity risk management process, VEB:

- monitors its liquidity position, on both a scheduled and unscheduled basis;
- maintains a balanced asset and liability structure, by maturity and currency;
- maintains an optimal asset liquidity cushion;
- defines and regularly monitors limits on certain types of operations and instruments;
- maintains a diversified structure of funding sources and directions of investments by counterparty;
- develops plans to raise debt funding;
- assesses sustained balances on customers' accounts and monitors the level of concentration of balances on customers' accounts in order to prevent an abrupt outflow of funds from customers' accounts;
- uses stress-testing to measure VEB's exposure to liquidity risk and assess financial market conditions on a regular basis and as and when significant changes in external and internal factors arise or are expected to arise; and
- regularly performs cash flow modelling to test measures of liquidity risk (including liquidity gaps) under various scenarios taking into account changes in macroeconomic and market conditions.

Operational control over measures of liquidity risk is performed by Treasury and subsequent control is performed by the Risk Management Department. Results are reported to VEB's management (the Chairman of VEB, the Assets and Liabilities Committee, members of the Management Board responsible for managing liquidity risk and the heads of relevant business departments).

In addition, for the purposes of identifying available resources to cover an unexpected deficiency in liquid assets, VEB monitors and forecasts its liquidity reserve on a daily basis. The liquidity reserve consists of:

- cash held in VEB’s correspondent accounts or with stock exchanges and clearing houses, the net balance of VEB’s overnight placements and other cash-on-hand;
- short-term deposits placed in banks considered by VEB as highly reliable (in accordance with VEB’s internal rating system; see “*Lending Policies and Procedures*”); and
- highly-liquid securities (defined as securities that can be promptly converted into cash or used as collateralised funding), which are measured at fair value less any discount for unexpected losses due to market risk realisation.

VEB regularly measures both (i) its base case current liquidity by reference to its balance sheet and (ii) the impact of a forecast stress scenario, to calculate risks and the impact on VEB in the event of a crisis. One of the purposes of the stress-testing is to perform a worst-case evaluation of current liquid assets and their predicted values in the event of a crisis situation. Stress-testing procedures of liquidity risk take into account both internal factors specific to VEB and external factors, such as:

- the non-fulfilment by VEB’s counterparties of transaction, loan and debt obligations (credit risk realisation);
- the decrease in the market value of the securities portfolio (market risk realisation);
- the reduction of access or total lack of access to financial market resources (liquidity risk realisation);
- the lowering of VEB’s credit rating; and
- any requirement to prepay inter-bank loans due to breaches of financial covenants.

Market Risk

Market risk is the risk of adverse changes in the fair value of financial instruments or future cash flows generated by them due to changes in market variables, such as interest rates, foreign exchange rates or prices for equities and commodities. VEB is exposed to market risks, which arise primarily from its securities portfolio and open currency positions as these are affected by market fluctuations. Treasury and the Risk Management Department monitor compliance with VEB’s market risk limits on a daily basis. The purpose of VEB’s market risk management activities is to balance the profitability of VEB’s operations against the associated level of risk. To manage the market risk to which VEB is exposed and to set relevant limits, VEB uses sensitivity analysis, as well as the value-at-risk (“**VaR**”) methodology and stress-testing. In 2010, VEB adopted the advanced VaR methodology, which uses a weighing procedure for statistical data of risk factors depending on their historical distance from the date of calculation and a recalculation of VaR values was made in accordance with this methodology.

VEB’s interest rate, currency and equity price risks are primarily assessed using the VaR methodology, which allows for the assessment, within a specified confidence level, of the maximum potential losses that may be incurred from a portfolio of financial instruments during a given holding period. The VaR methodology is a statistical approach, which takes into account risk diversification and probable market fluctuations under normal market conditions.

To assess the accuracy of measuring market risks using the VaR methodology, VEB regularly uses back-testing procedures, which enable the assessment of differences between estimated and actual losses. In order to obtain more precise estimates, VEB is making efforts to enhance inputs used in the current model which provides adequate estimates under normal market conditions. VEB is also in the process of developing risk management procedures that take into account extraordinary market conditions.

VEB performs stress testing procedures on a regular and unplanned basis that enables it to assess its losses due to the occurrence of extraordinary events on its portfolio of financial instruments’ and its open currency positions. These losses are outside of the current predictive limits of probabilistic statistical methods. The above approach supplements the risk estimate obtained from the VaR methodology and sensitivity analysis. VEB uses

a wide range of historical and hypothetical scenarios within its stress testing procedures. Stress testing results are reported to VEB's management and are used for making management decisions.

Interest Rate Risk

Interest rate risk is the risk that interest income could decrease or interest expense could increase based on changes in market interest rates, which could adversely affect the fair value of financial instruments or future cash flows generated by them. To mitigate interest rate risk, VEB maintains a portfolio of assets and liabilities, which is balanced in terms of its sensitivity to changes in interest rates. VEB's procedures for identifying, assessing and controlling levels of interest rate risk are formalised through internal rules and regulations, as well as CBR requirements established for calculating capital adequacy ratio. The Risk Management Department performs monthly sensitivity analyses in respect of its net interest income using different scenarios of market interest rate changes for the purpose of controlling financial losses arising from unfavourable changes in interest rates. See Note 30 of the Audited Financial Statements for the year ended 31 December 2012. Results of this analysis are reported to the Chairman of VEB, Management Board members responsible for asset and liability management and the heads of relevant business departments.

VEB's banking subsidiaries take into account interest rate risk when forecasting and monitoring compliance with prescribed capital adequacy ratios. In addition, the interest rate gap method is used to assess changes in the amount of net interest income and equity by using data on mismatches of assets and liabilities sensitive to interest rate changes aggregated at given maturity intervals.

Currency Risk

Currency risk is the risk that the fair value of a financial instrument or future cash flows generated by it will change due to changes in foreign exchange rates or prices for precious metals. VEB calculates, on a daily basis, open currency positions in respect of balance sheet assets and liabilities and off-balance sheet claims and obligations that are subject to fluctuations in currency and precious metal rates. VEB's banking subsidiaries set limits on their cumulative open positions, as well as limits on open positions in each currency and for precious metals, based on national regulatory requirements. See Note 30 of the Audited Financial Statements for the year ended 31 December 2012.

Equity Price Risk

Equity price risk is the risk of adverse changes in the fair value of financial instruments or the future cash flows generated by them as a result of changes in the levels of equity indices and the value of individual equities.

VEB uses the advanced VaR methodology and sensitivity analysis to assess equity price risk. VEB sets aggregate exposure limits for each portfolio by class of securities in order to limit equity price risk. Within a portfolio, "risk borrowing" (i.e., changing the volume of open positions under individual financial instruments subject to compliance with the established limit of the aggregate market risk for the portfolio and within applicable credit risk limits) is permitted. Limits are approved by the Management Board at the recommendation of the Risk Management Department as agreed in consultation with relevant business departments. Once established, limits are reviewed on a regular basis.

Operational Risk

Operational risk is defined as the risk of losses arising from inadequate internal banking operation procedures, including failure of equipment and information systems, people and systems or from external factors.

VEB's operational risk is comprised of both internal risks (such as risks due to poor management decisions caused by the use of inadequate risk assessment models, other personnel risk, organisational structure risk, technology risk and internal legal risks) and external risks (such as risk of harm caused by third parties, external legal risk, social and political risk and emergency risk (catastrophic risk due to natural disasters, war, terrorism and similar events)).

Business division managers are responsible for operational risk management in their respective divisions and for keeping the Risk Management Department informed of material developments. The Risk Management Department monitors areas of potential conflicts of interests, performance reviews of personnel and the standardisation and unification of VEB's transactions and operations.

The Security Directorate is responsible for providing information and technical support to all business divisions in implementing action plans designed to ensure business continuity in the event of IT failures. VEB has a number of business continuity plans in place, including those to mitigate the effects VEB's business due to man-made disasters, natural disasters and terrorist attacks.

The Legal Department is responsible for establishing policies to ensure VEB's compliance with laws and regulations applicable to it and managing the legal risks to which VEB is exposed by doing business with its customers and other third parties. VEB relies on templates drafted by the Legal Department when preparing documents for transactions executed with counterparties. Any non-standard agreements are required to be approved by the Legal Department. The Legal Department is also responsible for the review of documents supplied by counterparties. VEB instructs appropriate international and domestic law firms to assist in executing transactions with third parties.

The risk of loss of business reputation is the risk of losing clients and customers due to a negative public perception of VEB's financial stability, of the quality of the services offered by VEB or of VEB's business generally. VEB manages this risk by: (i) monitoring compliance with applicable Russian laws and regulations governing its operations; (ii) monitoring the goodwill of VEB's counterparties; (iii) monitoring the quality of documentation filed with state authorities and third parties; and (iv) managing VEB's interaction with the media. In particular, the Security Directorate also provides analyses of the goodwill and reputation of VEB's counterparties before a transaction is approved and may undertake follow-up analyses at the request of the business department responsible for the transaction in light of changes in market conditions or changes in the financial status and standing of the counterparty.

Strategic Risk

Strategic risk is the risk of losses due to inadequate or inappropriate strategic decisions or improper implementation of strategic decisions. Such potential strategic errors or inadequate decisions include the failure to identify or properly assess potential risks involved in the conduct of VEB's business or the approval and implementation of particular transactions and the unavailability of necessary resources to achieve strategic goals. This risk is managed by VEB in the course of its strategic planning process.

RISK MANAGEMENT PROCEDURES

VEB's risk management procedures generally include the following:

- identification of risks, which could have a material effect on VEB's business;
- assessment of identified risks;
- mitigation and management of risks on both a continuing basis and before entering into significant transactions; and
- compliance with and continued assessment of risk management decisions.

Anti-Money Laundering Policies and Procedures

VEB has developed internal know-your-customer and anti-money laundering policies, in accordance with guidance provided by the CBR and the Federal Service on Financial Monitoring. The policy includes VEB's procedures in relation to: (i) verifying information provided by customers in order to permit identification of customers, including ultimate owners and beneficiaries; (ii) evaluating a client's business to determine whether a customer may be involved in money laundering or terrorism financing; (iii) identifying any suspicious transactions and further assessing these against anti-money laundering safeguards; (iv) notifying authorised bodies in regard to any suspicious transactions; and (v) refusing to proceed with transactions or suspending transactions in the event that a customer fails to provide supporting documentation or provides false or inaccurate documentation or VEB otherwise believes the transaction is suspicious. In order to implement these policies to their fullest benefit, VEB provides ongoing anti-money laundering training to all relevant employees.

Capital Adequacy

To assess and monitor the aggregate credit and market risk exposure, VEB computes capital adequacy ratios in accordance with the methodology approved by the Supervisory Board, which is based on approaches set out in regulations issued by the CBR and the Basel Accord. As required by the 2007 Memorandum, the Supervisory Board has fixed a minimum capital adequacy ratio of 10% (as compared to the minimum ratio of 8% imposed under the Basel Accord).

RISK MANAGEMENT STRUCTURE

VEB's risk management structure includes the Supervisory Board, the Management Board, the Chairman of VEB, the Internal Control Service, the Credit Committee, the Assets and Liabilities Committee, the Working Group on Coordination of Liquidity Risk and Risk Management of the Subsidiary Banks and Financial Companies, the Working Group on Coordination of Public Borrowings of Subsidiary Banks and Financial Companies, the Risk Management Department, the Subsidiary Banks Department, the Department for Corporate Governance, Treasury, the Planning and Budgeting Department and the Security Directorate.

The Credit Committee, the Chairman of VEB and the Management Board are responsible within their established authorities (as described below) for implementing the overall risk management policies established by the Supervisory Board. The Risk Management Department compiles and examines information submitted by all business divisions in order to identify both internal and external risks at an early stage and implement appropriate controls. Findings are reported regularly to the relevant management bodies, including the Credit Committee, the Internal Control Service, the Management Board and the Supervisory Board, depending on the nature and size of the risk.

VEB has determined to establish more centralised risk management systems across VEB's subsidiaries and associates with the goal of strengthening oversight of the risk management systems employed by its business divisions and subsidiaries.

VEB's Supervisory Board approved the Group's Risk Management Policy, which established primary objectives, goals, principles and procedures for consolidated risk management within the Group.

Supervisory Board

The Supervisory Board has the ultimate strategic decision-making authority with respect to VEB's overall risk management policies and procedures. In particular, pursuant to the 2007 Memorandum, the Supervisory Board takes strategic decisions aimed at organising and supporting the operation of VEB's risk management structure. In order to mitigate large risks, all transactions involving amounts of 10% or more of VEB's equity must be approved by the Supervisory Board. See "*Management and Employees—Management—Supervisory Board*".

Management Board

The Management Board's risk management duties include making decisions to approve transactions or related transactions involving amounts from 2% up to, but not including, 10% of VEB's equity. See "*Management and Employees—Management—Management Board*".

The Management Board drafts proposals regarding VEB's major lines of business and parameters of its investing and financing activities (including those related to risk management) and submits such proposals for approval by the Supervisory Board.

Chairman of VEB

The Chairman of VEB is responsible for issuing orders and approving regulations, policies and technical procedures governing banking transactions. The Chairman of VEB has the authority to approve transactions or related transactions involving amounts of up to but not including 2% of VEB's equity. The Chairman of VEB is also permitted to decide on other matters related to risk management, except for those matters falling within the exclusive competence of the Supervisory Board or the Management Board. See "*Management and Employees—Management—The Chairman*".

Credit Committee

The Credit Committee's primary objectives are to consider applications for VEB's extension of loans, guarantees and other types of financing on a repayable basis (including through the purchase of bonds) and proposals for VEB's participation in the share capital of other entities, to set counterparty limits and to assess debt recovery scenarios and propose related write-offs. The Credit Committee is subject to the supervision of the Management Board. See "*Management and Employees—Board Committees*".

The Assets and Liabilities Management Committee

The Assets and Liabilities Management Committee is a permanent collective body of VEB with the objective of providing advice and recommendations on matters relating to the management of assets and liabilities, including managing VEB's market and structural risks against losses.

The Working Group on Coordination of Liquidity Risk and Risk Management of the Subsidiary Banks and Financial Companies

The key authority of this working group includes coordination of activity within the group of subsidiary banks and financial companies of VEB in order to ensure consistent liquidity and risk management, provide conditions for efficient implementation of policies on managing assets and liabilities and risks within the group of subsidiary banks and financial companies of VEB.

The Working Group on Coordination of Public Borrowings of Subsidiary Banks and Financial Companies

The key authority of this working group includes assisting subsidiary banks and financial companies of VEB by preparing reports and recommendations on the following activities of the Group:

- improvement of coordination of borrowings by VEB subsidiary banks and financial companies;
- raising funds for VEB subsidiary banks and financial companies; and
- reconciling key parameters for the above processes.

Internal Control Service

The Internal Control Service is an independent division of VEB, which was created to monitor internal control functions and provide assistance to VEB's management bodies in identifying, assessing and controlling risks. The Internal Control Service is responsible for ensuring that all business divisions and management bodies comply with the risk management policies and procedures applicable to them and for evaluating the effectiveness of VEB's risk management systems on an ongoing basis.

In particular, the scope of activities conducted by the Internal Control Service include:

- monitoring VEB's compliance with the 2007 Memorandum;
- exercising controls over, and monitoring compliance with, risk management systems;
- controlling the division of responsibilities across VEB's management bodies and business divisions;
- controlling timely and reasonable recognition of operations in the accounts;
- controlling automated information systems and monitoring information flows and information security required for the preparation of VEB's financial statements and accounts and related reports and controlling the authenticity, completeness and timeliness of the filing of such statements, accounts and reports;

- coordinating with all external audit institutions, including the external auditing firms appointed by VEB or any of its subsidiaries and the Accounts Chamber of the Russian Federation, as well as monitoring information flow to any rating agencies that have issued or intend to issue a rating of VEB or any of its debt securities; and
- continuous monitoring and streamlining of the overall internal control system.

Risk Management Department

The Risk Management Department is an independent division within VEB designed to maintain the efficient functioning of VEB's risk management systems in compliance with the requirements defined by the Supervisory Board and other management bodies of VEB, as well as international standards and best practices. The Risk Management Department is responsible for implementing VEB's risk management policies and procedures across all activities carried out by VEB's business divisions and coordinating the implementation of such policies with its subsidiaries.

The Risk Management Department monitors compliance with established risk policies and limits, analyses risks associated with financial and non-financial counterparties, countries and market instruments, reviews VEB's position in a given market sector to determine changes in risk levels and assesses risks relating to new products and structured transactions. For this purpose, the Risk Management Department receives regular reports from each business division setting forth its own initial risk assessments and documenting its compliance with applicable established limits. The Risk Management Department prepares reporting documents for each type of risk and each line of VEB's business.

In 2009 and 2012, VEB established the Subsidiary Banks Department and the Department for Corporate Governance, respectively, to enhance the strategic oversight, corporate governance and risk management of VEB's banking and non-banking subsidiaries. The Subsidiary Banks Department and the Department for Corporate Governance are also responsible for ensuring the implementation of risk management policies and procedures in line with those adopted by VEB. VEB also established a separate division within the Risk Management Department to monitor the risks of its major financial subsidiaries, consolidate risks on a group-wide basis, develop risk-management standards and assist subsidiaries in the implementation of group risk policies, methodologies and best-practices.

Treasury

To manage VEB's day-to-day liquidity, Treasury monitors compliance with the required minimum levels of liquidity and identifies maturity mismatches between VEB's assets and liabilities. Treasury prepares regular forecasts of VEB's estimated leverage by source of funding and performs daily monitoring of open position limits by class of asset, as well as counterparty limits. Treasury also monitors the market value and liquidity of collateral provided by VEB's counterparties.

The Analytical Unit within Treasury analyses, on a daily basis, the current conditions in the money, equity and currency markets in which VEB operates.

Planning and Budgeting Department

The Planning and Budgeting Department is involved in the development of the methodology for managing VEB's financial risks and monitors VEB's financial stability parameters, including VEB's capital adequacy. The Planning and Budgeting Department also coordinates the activities across VEB relating to the establishment of allowance for impairment.

Security Directorate

The Security Directorate is responsible for providing information and technical support to all business divisions in implementing action plans designed to ensure business continuity in the event of IT failures.

STATUS AS A STATE CORPORATION AND RELATED REGULATORY ENVIRONMENT

VEB AS A STATE CORPORATION

VEB is a state corporation, which is a specific form of legal entity under Russian law. As a state corporation, VEB is a non-commercial organisation with no shareholders. VEB was founded by the Russian Federation with its initial capital comprising of contributions of funds and property. See “—*Charter Capital*”.

State corporations are established to pursue defined objectives for the public’s benefit and are assigned specific functions that determine the scope of their business activities and powers. Accordingly, state corporations are permitted to engage in commercial activity only to the extent that such activity is consistent with their purposes and contributes to the accomplishment of their specific goals. Any profits generated by VEB from its business activities must be applied only in furtherance of its specific purposes and goals.

Although VEB is not a governmental body, it is included in the Russian statistical register of state authorities in acknowledgement of its special role in the Russian economy and its support of certain state functions and capacities.

LEGAL AND REGULATORY FRAMEWORK

The legal status and powers of a state corporation in the Russian Federation are generally regulated by the Law on Non-Commercial Organisations and applicable provisions of the Civil Code of the Russian Federation. Each state corporation is formed on the basis of a specific Federal law. VEB is established under the Development Bank Law, which sets forth VEB’s specific status, purposes and powers and governs various aspects of its operations. See “*Description of VEB’s Business—VEB as the Development Bank of the Russian Federation.*” The Development Bank Law also defines the powers of the Supervisory Board and the Management Board. See “*Management and Employees—Management—Supervisory Board*” and “*Management and Employees—Management—Management Board*”.

Although VEB is considered a financial institution and its official name includes the term “bank”, its status differs from that of ordinary commercial banks in several ways. The Development Bank Law contains specific regulations in respect of VEB, which supersede general laws and regulations applicable to banks and other financial institutions in the Russian Federation. Under the Development Bank Law, VEB is authorised to conduct banking operations without a licence from the CBR and is generally not required to comply with regulatory requirements of the CBR. VEB has, however, entered into an agreement with CBR, pursuant to which it voluntarily reports on a number of matters, which are in substance, similar to those provided by other commercial banks in the Russian Federation, including reports relating to cash flow, credit balances and currency control regulations. See “—*Reporting Obligations*”.

The Development Bank Law further provides that VEB may perform only a limited number of banking functions and only in connection with eligible investment projects. In particular, VEB is permitted to carry out the following limited banking activities:

- accepting deposits from legal entities participating in the implementation of VEB’s projects;
- opening and maintaining bank accounts for legal entities taking part in the implementation of VEB’s projects and correspondent accounts with the CBR, credit institutions in the Russian Federation, foreign banks and international settlement and clearing centres;
- investing deposited funds in its own name and for its own account;
- clearing payments according to the instructions of legal entities, including those taking part in the implementation of VEB’s projects and including correspondent banks;
- purchasing and selling foreign currencies;
- collecting cash, bills, payment documents and cash services for legal entities taking part in the implementation of VEB’s projects; and

- providing bank guarantees to legal entities taking part in the implementation of VEB's projects.

VEB is also governed by the 2007 Memorandum, which specifies VEB's core business areas and types of investment and financial activities, quantitative and qualitative restrictions on VEB's investment and financial activities, and basic terms and procedures for making loans, participating in other entities and providing guarantees and insurance. See "*Description of VEB's Business*" and "*Risk Factors*". The 2007 Memorandum, which was originally due to expire on 27 July 2010, was extended by Decree 1170-r on 15 July 2010 on its existing terms for an additional three years, expiring in July 2013. It was subsequently extended by Decree 1316-r on 25 July 2013 for an additional three years, expiring in July 2016.

The following laws govern various other aspects of VEB's activities:

- Federal Law No. 395-1 "On Banks and Banking Activity" dated 2 December 1990, as amended;
- Federal Law No. 39-FZ "On the Securities Market" dated 22 April 1996, as amended;
- Financial System Support Law
- Tax Code of the Russian Federation;
- Federal Law No. 173-FZ "On Currency Regulation and Control" dated 10 December 2003, as amended (the "**Currency Law**");
- Federal laws relating to the Russian Federal budget; and
- Insider Trading Law.

VEB is specifically restricted from taking deposits from individuals. VEB is authorised under the Development Bank Law to act without a licence in the financial markets as a dealer, depositary, securities manager or trust manager. Similar to other banks in the Russian Federation, VEB performs the function of a currency control agent pursuant to the Currency Law.

In addition, the Supervisory Board and the Management Board are governed by their own sets of internal regulations. For example, the "Regulation on the Supervisory Board" dated 27 July 2007 (as amended) (approved by a Decree of the Russian Government) sets out the procedures for the Supervisory Board's formation, its authority and its decision making processes. The Regulation on the Management Board (approved by Supervisory Board decision) contains rules on scheduling and holding Management Board meetings, decision-making procedures and formalisation of decisions made. There are also specific regulations on providing documentary and information support to the Supervisory Board and Management Board at their respective meetings.

Regulatory Environment Applicable to VEB's Banking Subsidiaries

VEB has banking subsidiaries which carry out banking activities in the Russian Federation, Ukraine and Belarus. The activities of VEB's banking subsidiaries are regulated by the applicable banking legislation of the jurisdictions where they operate.

Accession of Russia to the WTO

On 16 December 2011, Russia signed the protocol on its accession to the WTO (the "**Protocol**"). The Protocol came into force on 22 August 2012 and Russia became subject to the WTO regime. In relation to the banking sector, the Protocol provides that a non-Russian bank may set up a subsidiary or representative office in Russia. However, the following actions are subject to obtaining the CBR's approval: (i) the incorporation of a Russian legal entity with foreign capital including subsidiaries and affiliates; (ii) the increase of the charter capital of a Russian credit organisation using the funds of non-residents; and (iii) the disposal of the shares/stocks of a Russian credit organisation to non-residents.

The accession of the Russian Federation to the WTO is also expected to require stricter regulation of private banks, banks under state control and foreign-controlled banks, including, among other restrictions, potentially abolishing certain Russian law provisions that may be deemed discriminatory against foreign-owned banks in favour of banks controlled by Russian nationals or the state. At the same time, under the Protocol, the Russian Federation has committed to establishing a limit on the overall amount of foreign investment into the Russian banking sector at the level of 50% of the total charter capital of all credit organisations registered in the Russian Federation. If the threshold is exceeded, the CBR will have the right (i) to terminate the issuance of banking licences to banks with foreign capital, (ii) not to authorise new foreign investments in the banking sector, and/or (iii) to impose a temporary ban on disposal of a banks' charter capital to foreign investors, including, *inter alia*, through an increase of charter capital for the account of a foreign investor.

VEB'S OBJECTS AND POWERS

Requirements and Ratios

The Development Bank Law provides that the general regulations on banks and banking apply to VEB only to the extent they are consistent with the provisions of the Development Bank Law. In particular, under a specific exemption set out in the Development Bank Law, VEB is not subject to regulations imposed by the CBR on commercial banks operating in the Russian Federation in respect of the following matters:

- state registration of credit institutions and issuance of banking licences;
- liquidation and reorganisation of credit institutions;
- provision of information on credit institutions' activities;
- performance of certain banking operations and transactions to the extent the requirements contained in the banking legislation contradict the Development Bank Law; and
- stability and financial soundness standards established for credit institutions and compliance with other mandatory requirements and ratios.

VEB is subject to certain parameters established by the 2007 Memorandum, which regulate VEB's financial and investment policy and activities, including the following:

- (i) VEB must maintain a minimum capital adequacy ratio of 10% (the capital adequacy ratio is the ratio of total equity to risk weighted assets);
- (ii) Medium and long-term (over three years) investment projects must constitute not less than 80% of VEB's overall loan portfolio;
- (iii) VEB is authorised to finance investment projects provided that the minimum amount of financing must be not less than RUB 1,000 million or its equivalent in other currencies (or RUB 500 million or its equivalent in other currencies, in case of investing in monoprofile municipal units);
- (iv) VEB is authorised to provide loans, guarantees and sureties or other financing on a repayment basis to companies with payback periods exceeding five years and with project costs exceeding RUB 2,000 million (or RUB 1,000 million, in case of investing in monoprofile municipal units);
- (v) VEB's exposure, at any one time, to a single borrower or a group of related borrowers, may not exceed 25% of VEB's total equity (mostly as part of VEB's recovery activities and as approved by VEB's Supervisory Board, VEB made an exception from this rule for four borrowers, two of which are state-owned controlled and one of which is an associate of VEB);
- (vi) VEB's total exposure to large credit risks (a loan or loans to a borrower or a group of related borrowers exceeding 5% of VEB's total equity) at any one time may not exceed 800% of VEB's total equity;

- (vii) VEB's maximum commitment relating to guarantee support for exports or insurance for any single borrower or a group of related borrowers may not exceed 25% of VEB's total equity and, if an export contract is connected to the carrying out of works or the provision of services in the importer's country or any other financial expenditures in the importer's country, VEB's financing may not exceed 30% of the contract price;
- (viii) the terms of loans to be extended to SMEs through on-lending facilities with credit institutions and legal entities supporting SMEs must exceed two years and the amount of each such loan may not exceed RUB 150 million; and
- (ix) VEB's maximum financial support to EXIAR may not exceed 25% of VEB's total equity.

The items (iii) – (iv) do not apply to the financing of organisations participating in state defence procurement or to the financing of the events within the framework of federal target programmes in the field of security and defence.

In addition, although VEB is not legally subject to the supervision of the CBR, it voluntarily complies with most regulations imposed by the CBR. See “—*Reporting Obligations*”.

VEB has adopted a set of internal regulations to implement and supplement the requirements established by the applicable legislation. These regulations relate to, among other things: (i) the methods for calculating VEB's equity, risk-weighted assets and capital adequacy ratio; (ii) VEB's credit policy and procedures; (iii) Regulation on Consideration of Investment Projects for confirmation of their eligibility for financing in accordance with the requirements set out in the 2007 Memorandum and internal regulations; (iv) VEB's credit portfolio structure; (v) the regulation of VEB's investment in the equity capital of other entities; and (vi) VEB's operations in support of SMEs.

The 2007 Memorandum requires VEB to establish a reserve fund, to which VEB must contribute at least 20% of its annual profits. VEB's internal regulations do not cap or set out a target value for the reserve fund. As at 30 June 2013, VEB's reserve fund (which is calculated in accordance with Russian accounting standards) was RUB 63,454 million, as compared to RUB 58,042 million, RUB 38,257 million and RUB 9,406 million as at 31 December 2012, 31 December 2011 and 31 December 2010, respectively. VEB's internal regulations also provide for the establishment of an accumulation fund that is financed out of annual profits at the discretion of the Supervisory Board. As at 30 June 2013, 31 December 2012 and 31 December 2011, the accumulation fund (which is calculated in accordance with Russian accounting standards) totalled RUB 62,644 million.

RELATIONSHIP WITH THE RUSSIAN GOVERNMENT

According to the Development Bank Law, VEB and the Russian Federation are not liable for one another's obligations. Federal, regional and municipal authorities are generally prohibited from intervening in VEB's business operations to try to influence the manner in which it realises its purposes.

The Development Bank Law grants the Russian Government certain powers over VEB, including the power to:

- appoint and dismiss members of VEB's Supervisory Board;
- approve regulations governing VEB's Supervisory Board;
- approve any amendments or extensions of the 2007 Memorandum; and
- approve compensation for the members of the Supervisory Board.

The Russian Government has the right to appoint and dismiss the members of VEB's Supervisory Board. The Chairman of VEB's Supervisory Board is the Prime Minister of the Russian Federation (currently Dmitry Medvedev), whilst the remaining eight members are appointed by the Russian Government and include the Chairman of VEB (currently Vladimir Dmitriev), who is ex officio a member of the Supervisory Board and of the Management Board. The Chairman of VEB is appointed by the President of the Russian Federation upon the recommendation of the Prime Minister. The other members of VEB's Management Board are, in turn, appointed by the Supervisory Board based on recommendations of the Chairman of VEB. Accordingly, the Russian

Government has substantial control over VEB's management, although federal, regional and municipal authorities are generally prohibited from intervening in VEB's day-to-day business operations to try to influence the manner in which it realises its purposes.

Generally, VEB's Supervisory Board approves VEB's long-term strategy, annual budget, high-level policies and the use of VEB's profits, and the issuance of loans that exceed certain financial thresholds. See "*Management and Employees—Management—Supervisory Board*". VEB's Management Board is responsible for the day-to-day activities of VEB. See "*Risk Management*" and "*Lending Policies and Procedures*".

In accordance with the 2007 Memorandum, VEB is also required to provide the Russian Government with VEB's annual report and its annual consolidated financial statements prepared in accordance with IFRS, together with the auditors' report thereon.

VEB does not report directly to any particular ministry of the Russian Government, although VEB's activities relating to its participation in state programmes are coordinated with various ministries, including principally the Russian Ministry of Finance and the Russian Ministry for Regional Development.

As an entity that uses funds from the Russian federal budget, and in accordance with the Law on Non-Commercial Organisations, VEB's activities are audited on a regular basis by the Accounts Chamber of the Russian Federation, which conducts comprehensive reviews of VEB's use of such funds and evaluates whether such funds are being spent in accordance with the terms and purposes for which they were provided.

CHARTER CAPITAL

Under the Development Bank Law, the Russian Federation contributed property and funds into the charter capital of VEB. The Russian Government may, from time to time, authorise additional contributions into VEB's charter capital, either from the Russian federal budget or out of VEB's profits.

In accordance with the Development Bank Law, VEB's charter capital is formed from: (i) assets of Vnesheconombank of the USSR; (ii) the shares of SME Bank and ROSEXIMBANK previously owned by the Russian Government; and (iii) other assets contributed by the Russian Government. Since VEB's establishment in 2007, VEB's charter capital, initially comprised of RUB 1,000 million, has been increased as follows:

- in November 2007, in furtherance of the Development Bank Law, the Russian Government contributed RUB 180,000 million in cash to the charter capital of VEB;
- in August 2008, the Russian Government contributed 100% of the state-owned shares in SME Bank, valued at RUB 7,469 million, to the charter capital of VEB;
- in November 2008, the Russian Government contributed RUB 75,000 million in cash to the charter capital of VEB in connection with VEB's support of the stock market;
- in October 2008, the Russian Government contributed 5.2% of the state-owned shares in ROSEXIMBANK, valued at RUB 50 million, to the charter capital of VEB;
- in June 2009, in accordance with a Decree of the Russian Government, the Russian Ministry of Finance transferred RUB 100,000 million to the charter capital of VEB to support VEB's involvement in the measures in support of the Russian banking system;
- in December 2009, the Russian Federation contributed RUB 21,000 million to the charter capital of VEB to enable VEB to acquire newly issued shares of OJSC United Aircraft Construction Corporation; and
- in December 2010, the Russian Government contributed 100% of the state-owned shares in FCPF valued at RUB 82 million, to the charter capital of VEB.

As at 30 June 2013, VEB's charter capital was RUB 382,571 million.

ADDITIONAL PAID-IN CAPITAL

In December 2011, VEB received a grant from the Russian Ministry of Finance as a contribution to its charter capital in the amount of RUB 62,600 million for the purposes of establishing RDIF, which was recognised as additional paid-in capital from the accounting perspective.

In May 2012, the Russian Government decided to contribute 35,933,333 shares of OJSC “Rostelecom” to the charter capital of VEB. The value of contributed shares will be determined by an independent appraiser on the basis of the market price as of the date of termination of the shareholders agreement between VEB and OJSC “Investment Communications Company”.

In December 2012, VEB received a capital contribution of RUB 62,000 million as a subsidy from the Russian Government to be invested in RDIF. On 15 January 2013, VEB invested the full amount of the subsidy in RDIF.

In December 2012, VEB received RUB 15,000 million as a subsidy from the Russian Government to be contributed to the charter capital of Far East and Baikal Region Development Fund. In March 2013, VEB contributed the full amount of the subsidy to the charter capital of Far East and Baikal Region Development Fund.

Special Powers of VEB Related to State Functions

VEB also acts as a public institution representing the Russian Federation. Article 3(3) of the Development Bank Law specifies VEB’s responsibilities related to state functions, such as:

- arranging for export credit loan insurance against commercial and political risks as set forth by the Development Bank Law;
- implementing federal special purpose programmes and government investment programmes and projects, including foreign economic projects, projects involving governmental support for the export of industrial goods and services as provided for by Federal laws and other regulations;
- participating in infrastructure projects in special economic zones, in investment projects of national significance and in projects involving PPPs;
- servicing budgetary loans extended to support the export of Russian industrial products, including construction of facilities abroad, the issuance of bank guarantees for Russian companies taking part in international bids and supporting the performance of executed export contracts;
- supporting SMEs through the provision of financing to credit organisations and other legal entities that on-lend these funds to SMEs;
- participating in financial and guarantee support for the export of Russian-made goods, including the issuance of state guarantees to Russian exporters of industrial products and to Russian and foreign banks extending loans to Russian exporters, foreign importers, non-resident banks and foreign states in connection with the export of industrial goods and services;
- supporting shipbuilding companies that are residents of industrial and manufacturing special economic zones through the provision of guarantees; and
- performing operations related to the servicing and repayment of state credits extended by the Russian Federation to foreign countries, and by foreign countries to the Russian Federation, and the execution of international settlements in respect of such credits and loans.

In addition, VEB manages debt obligations of the Russian Federation and the former Soviet Union, as well as foreign financial assets comprising debt obligations owed to the Russian Federation by sovereign states, financial institutions and commercial entities; and, through STMC, VEB is responsible for managing the

pension savings of insured Russian citizens who have not transferred their savings to private pension funds or private asset management companies, managing the payout reserve of the State Pension Fund and provides banking services in relation to the state debt of the former Soviet Union that still remains outstanding. These two functions are scheduled to be transferred to another designated organisation by 1 January 2014 and 31 December 2015, respectively. VEB receives a fee for performing these functions. See “*Description of VEB’s Business—VEB as Agent for the Russian Government—Pension Funds Management (STMC)*”.

Under Federal Law No. 216-FZ “On the Federal budget for 2013 and planning period of 2014-2015” dated 3 December 2012 and Decree of the Russian Government No. 30-r dated 21 January 2013, VEB is authorised to perform certain agency functions for the Russian Government, including in connection with litigation related to debt recovery. See “*Description of VEB’s Business—VEB as Agent for the Russian Government*”.

As part of its activity in the sphere of PPP support, VEB performs as a financial consultant to the Russian Government in assessing applications to the Russian Investment Fund (formed within the Russian federal budget and used for financing of PPP projects in the Russian Federation). This service includes evaluating state and regional projects and/or investments and submitting to the Russian Ministry for Regional Development qualified opinions on the relevant projects’ compliance with the established criteria for financial, budgetary and economic efficiency.

REPORTING OBLIGATIONS

Although, under the Development Bank Law, VEB is exempt from the general reporting obligations applicable to banks, non-bank financial institutions and non-commercial organisations in the Russian Federation, specific reporting provisions applicable to VEB are set out in the Development Bank Law and in the 2007 Memorandum as follows:

- Under the Law on Non-Commercial Organisations and the Development Bank Law, VEB is required to prepare an annual report on the results of its activities by 30 April in each year for approval by the Supervisory Board no later than 15 June of each year. The annual report should include the information on performance of VEB’s strategy, consolidated financial statements, together with an audit report from VEB’s external auditors. The 2007 Memorandum further provides that VEB is required to submit its annual report, including the audited annual consolidated financial statements prepared in accordance with IFRS, to the Russian Government within 10 business days upon receipt of the auditors’ opinion. VEB must also submit quarterly reports to the Supervisory Board including information about:
 - investment projects meeting the requirements set forth in the 2007 Memorandum in respect of which VEB has carried out expert evaluations and agreed to arrange financing, including information on the implementation of such projects;
 - investment projects meeting the requirements set forth in the 2007 Memorandum in respect of which VEB has carried out expert evaluation and rejected the request to arrange financing, including the reasons for such rejection;
 - investment projects where the amount of financing exceeds 1% of VEB’s total equity;
 - the volume and structure of VEB’s securities portfolio held for the purposes of managing temporary idle funds (liquidity) and risks; and
 - investment of pension funds into bonds guaranteed by the Russian Federation or bonds of issuers having a credit rating at least equal to the Russian sovereign rating.

The 2007 Memorandum also sets out general reporting requirements applicable to VEB in connection with its various operations as an issuer of bonds, as a professional participant in the Russian financial markets, as manager of state pension funds, and in its capacity as a currency control agent pursuant to the Currency Law.

The Insider Trading Law sets out general requirements for and restrictions applicable to VEB as an issuer, shareholder and professional member of the financial market to prevent illegitimate use of inside information and market manipulation.

VEB is also required to submit tax and accounting reports to the Federal Tax Service and statistical data to the Federal State Securities Service (Rosstat) including information about investment in capital and such other information as required by law.

On November 2007, VEB entered into an agreement with the CBR regarding the provision of information on VEB's operations, including on monetary policy, financial statistics, currency control operations and tax information. VEB's obligations to submit information to the CBR generally corresponds to the reporting obligations of commercial banks under CBR Instruction No. 1376-U dated 16 January 2004 (which was replaced by the CBR Instruction No. 2332-U dated 12 November 2009) that refers to the provision of daily, five-day, ten-day, monthly, quarterly and annual reports. In April 2009, pursuant to the Financial System Support Law, VEB entered into an agreement with the CBR pursuant to which the CBR undertook to compensate VEB for certain losses which result from certain recovery finance transactions undertaken by VEB (i.e. REPOs) with one of 69 Russian commercial banks between 14 October 2008 through 31 December 2009, provided that such losses are caused due to the revocation by the CBR of any one of these 69 Russian commercial bank's banking licences. In compliance with this agreement, VEB is obliged to provide daily reports to the CBR on its inter-bank credits and related deposits.

Federal Law No. 4015-1 "On Organisation of Insurance Business in the Russian Federation" dated 27 November 1992 was amended to state that its provisions do not apply to the insurance of export credit loans against commercial and political risks. Accordingly, VEB is exempt from relevant licensing and reporting obligations under this law.

LIQUIDATION AND REORGANISATION

The Development Bank Law provides that any reorganisation or liquidation of VEB and all related issues are to be regulated by a special federal law. No such law is in effect as at the date of this Base Prospectus. VEB is not subject to reorganisation and liquidation procedures applicable to banks, non-bank financial institutions or any other legal entities. See "*Risk Factors—VEB is not subject to Russian insolvency laws and procedures generally applicable to Russian commercial entities*".

ANTI-MONEY LAUNDERING LEGISLATION

The Russian Federation, as a member of the Financial Action Task Force ("FATF"), has developed and enacted certain anti-money laundering legislation. The basic Russian anti-money laundering law is Federal Law No. 115-FZ "On Combating Legalisation (Laundering) of Criminally Gained Income and Financing of Terrorism" dated 7 August 2001 (as amended) (the "**Anti-Money Laundering Law**"). The Anti-Money Laundering Law follows the FATF Recommendations and provides for measures to combat money laundering in the Russian Federation to be implemented by individuals and organisations, including VEB and its subsidiaries, involved in transactions with money and certain property. Pursuant to the Anti-Money Laundering Law, VEB (in common with other Russian banks) is obligated to, inter alia: (i) establish and maintain systems of internal controls ensuring that the bank and its clients are in compliance with Russian anti-money laundering legislation; (ii) monitor and record certain client transactions, as specified in the Anti-Money Laundering Law; and (iii) report certain client transactions specified by the Anti-Money Laundering Law to the relevant Russian authorities. Furthermore, in certain cases, VEB (in common with other Russian banks) must suspend client transactions for two business days unless extended by the authorised body for a longer period of time and inform the relevant Russian authorities. The current Anti-Money Laundering Law, which is also applicable to VEB, requires, in certain cases, banks to freeze client funds and to refrain from carrying out client transactions for an indefinite term.

The Federal Service on Financial Monitoring is the main governmental authority acting as a financial intelligence unit, and, together with the CBR, exercises control over banks' compliance with the Anti-Money Laundering Law. Russian banks are obligated to report through the CBR to the Federal Service on Financial Monitoring with respect to the types of transactions mentioned above.

Failure by Russian banks or their officers to comply with the requirements of the Anti-Money Laundering Law may result in the imposition of sanctions, including the revocation of their banking licences (with a subsequent liquidation of the bank) and criminal penalties for individuals. VEB has developed internal policies on money laundering prevention, established by the order of the Chairman of VEB. The policies include VEB's procedures in relation to: client identification, determining transactions subject to controlling measures and notification thereof of the authorised bodies, verification procedures of information provided by the customers (know-your-

customer policy), documenting of the customer related information and transactions. See “*Risk Management—Risk Management Procedures—Anti-Money Laundering Policies and Procedures*”.

RELATED PARTY TRANSACTIONS

In accordance with IAS 24 “Related Party Disclosures”, parties are considered to be related if one party has the ability to control the other party or to exercise significant influence over the other party in making financial or operational decisions. In considering each possible related party relationship, attention is directed to the substance of the relationship, not merely its legal form.

Related parties may enter into transactions which unrelated parties might not, and transactions between related parties may not be effected on the same terms, conditions and amounts as transactions between unrelated parties.

Related parties include the Russian Government, key management of the Group and associated companies. Since VEB is a state corporation, all state-controlled entities are considered to be related parties of the Group.

From time to time in the ordinary course of its business, VEB enters into transactions with related parties. For example, in connection with its acquisition of GLOBEXBANK, VEB provided a group of loans to one of its associates to finance such associate’s purchase of real estate and other assets from certain borrowers of GLOBEXBANK to permit such borrowers to repay obligations owed by them to GLOBEXBANK in connection with the rehabilitation of GLOBEXBANK to restore its financial viability following the global financial crisis.

See Note 21 to the Unaudited Financial Statements for the six months ended 30 June 2013 and Note 33 to the Audited Financial Statements for the year ended 31 December 2012 for further information on related party transactions.

MANAGEMENT AND EMPLOYEES

MANAGEMENT

In accordance with the Development Bank Law, VEB's management structure consists of the Supervisory Board, the Management Board and the Chairman of VEB.

Supervisory Board

The Supervisory Board is VEB's supreme governing body and the Russian Prime Minister, Dmitry Medvedev, is the Chairman of VEB's Supervisory Board. In addition to the Chairman of the Supervisory Board, the Supervisory Board consists of the Chairman of VEB and seven additional members appointed by the Russian Government for a five-year term. Although the applicable regulations allow for the nomination to the Supervisory Board of individuals that are not state officials, as at the date of this Base Prospectus, all members of the Supervisory Board are members of the Russian Government, except for Mr. Belousov.

The Supervisory Board meets as often as necessary but at least once quarterly and has exclusive competence in respect of certain matters, including (among others):

- defining the key focus areas for VEB's activities within the scope of the 2007 Memorandum, including the parameters for VEB's investing and financing activities;
- establishing credit policies, limits and procedures, including, guidelines for the structure of VEB's loan portfolio and procedures for the provision of loans and guarantees to credit institutions and other legal entities;
- approving the internal by-laws and regulations governing its branches and representative offices and certain management bodies, such as the Management Board, the Internal Control Service and the Committee on Examining Borrowers' Applications for Refinancing under Foreign Loans;
- approving VEB's strategy, annual budget, annual reports and other fundamental internal documents (including credit policy regulations);
- approving the establishment of branches and representative offices;
- approving the appointment of external independent auditors, the procedures governing the activities of the Internal Control Service and appointing the head of VEB's Internal Control Service;
- establishing the methodology for calculating VEB's equity capital and capital adequacy ratio, impairment and other losses, as well as related provisioning policies;
- regulations governing VEB's lower management bodies
- approving any transaction (or related transactions) involving amounts equal to or exceeding 10% of VEB's equity as at the last accounting date preceding the date of the decision to enter into the transaction(s);
- establishing the maximum amount of free cash to be held by VEB to manage liquidity; and
- attending to other matters provided for by law, including the remuneration of and reimbursement of expenses to members of the Management Board.

As at the date of this Base Prospectus, the members of the Supervisory Board are:

<i>Name</i>	<i>Position</i>
<i>Dmitry Medvedev</i>	<i>Chairman of Supervisory Board</i>
<i>Igor Shuvalov</i>	<i>Member</i>
<i>Arkady Dvorkovich</i>	<i>Member</i>
<i>Dmitry Kozak</i>	<i>Member</i>
<i>Alexander Khloponin</i>	<i>Member</i>
<i>Andrei Belousov</i>	<i>Member</i>
<i>Anton Siluanov</i>	<i>Member</i>
<i>Alexei Ulyukaev</i>	<i>Member</i>
<i>Vladimir Dmitriev</i>	<i>Chairman of VEB, Member ex officio</i>

Dmitry Medvedev – Prime Minister of the Russian Federation

Since May 2012, Dmitry Medvedev has been the Prime Minister of the Russian Federation. From 2008 to 2012 he was the President of the Russian Federation. In 2005-2008 he was a first Deputy Prime Minister and supervised priority national projects. Mr. Medvedev served as Head of Administration of the President of the Russian Federation from 2003 to 2005 and Deputy Head of Administration of the President of the Russian Federation from 1999 to 2000. From 2000 to 2001 and from 2002 to 2008 Mr. Medvedev was Chairman of the Management Board of OJSC “Gazprom”. From 1990 to 1997 Mr. Medvedev lectured at the Leningrad (Saint-Petersburg) State University. From 1990 to 1995 he simultaneously worked in the Administration of Leningrad (Saint-Petersburg). Mr. Medvedev was born in 1965. He graduated from the Leningrad State University with a degree in law in 1987 and received a PhD in law in 1990.

Igor Shuvalov – First Deputy Prime Minister of the Russian Federation

In May 2012, Mr. Shuvalov was re-appointed as the First Deputy Prime Minister of the Russian Federation. From 2008 to 2012, Mr. Shuvalov also served as the First Deputy Prime Minister of Russia. In 2005, Mr. Shuvalov was the Russian Sherpa in the G8. In 2004, Mr. Shuvalov was an Aide to the President of the Russian Federation. In 2003, he was the Deputy Head of Administration of the President of the Russian Federation. In 2000, he was the Chief of the Russian Government Administration with the rank of Minister. From 1998 to 2000, Mr. Shuvalov served as the Chairman of the Russian Federal Property Fund. In 1998, Mr. Shuvalov served as Deputy Minister of State Property of Russia. In 1997, Mr. Shuvalov was appointed Head of the Department of State Register of Federal Property at the State Committee of the Russian Federation for State Property Management. Mr. Shuvalov was born in 1967. He graduated from the Law Department of the Moscow Lomonosov State University in 1993 with a degree in law.

Arkady Dvorkovich – Deputy Prime Minister of the Russian Federation

In May, 2012 Mr. Dvorkovich was appointed Deputy Prime Minister of the Russian Federation. From 2008 to 2012, Mr. Dvorkovich served as Aide to the President of the Russian Federation. From 2004 to 2008, Mr. Dvorkovich served as Head of the Presidential Experts’ Directorate. In 2001, Mr. Dvorkovich served as Deputy Minister for Economic Development and Trade. In 2000, Mr. Dvorkovich served as Adviser to the Minister for Economic Development and Trade. In 2000, Mr. Dvorkovich also served as expert at the Centre for Strategic Research. In 1994, Mr. Dvorkovich served as consultant, senior expert, chief executive and scientific director of the Economic Expert Group of the Russian Ministry of Finance. Mr. Dvorkovich was born in 1972. Mr. Dvorkovich graduated from Duke University in North Carolina in 1997 with a Masters in Economics. Mr. Dvorkovich also graduated from the New Economic School in 1994 with a Masters in Economics. Mr. Dvorkovich graduated from the Economics Faculty of the Lomonosov Moscow State University in 1994 with a degree in Economic Cybernetics.

Dmitry Kozak – Deputy Prime Minister of the Russian Federation

Since 2008, Mr. Kozak has served as Deputy Prime Minister of the Russian Federation responsible for preparation to the 2014 Winter Olympics. In September 2007, Mr. Kozak was appointed as Minister of Regional Development of the Russian Federation. In 2004, Mr. Kozak was appointed as Presidential Plenipotentiary Envoy in the Southern Federal District. In 2004, Mr. Kozak was appointed as Chief of the Russian Government Administration. In 2003, Mr. Kozak was appointed as First Deputy Chief of Administration of the President of the Russian Federation. In 2000, Mr. Kozak was appointed as Deputy Chief of Administration of the President of the Russian Federation and Chairman of the Board of Trustees of the Centre for Strategic Studies. In 1999, Mr. Kozak was appointed Chief of the Russian Government Administration with the rank of Minister. In 1999, Mr. Kozak was elected chairman of the board of directors of the International Investment Financial Union. In

1998, Mr. Kozak served as Deputy Governor of St. Petersburg and Chairman of the Law Committee of the St. Petersburg Mayor's Secretariat. From 1996 to 1998, Mr. Kozak served as Chairman of the Law Committee of the St. Petersburg Mayor's Secretariat. From 1994 to 1996, Mr. Kozak served as Chairman of the Law Committee of St. Petersburg City Administration. From 1990 to 1994, Mr. Kozak successively served as Deputy Head of the Legal Department, Head of the Legal Sector and Head of the Legal Department of the St. Petersburg City Administration. Mr. Kozak was born in 1958 and graduated from Leningrad State University with a degree in law.

Alexander Khloponin – Deputy Prime Minister of the Russian Federation

In May 2012, Mr. Khloponin was re-appointed as the Deputy Prime Minister of the Russian Federation and Presidential Plenipotentiary Envoy to the North Caucasus Federal District. In 2010, Mr. Khloponin was appointed the Deputy Prime Minister and plenipotentiary representative in the North Caucasus Federal District. From 2002 to 2010, Mr. Khloponin served as the Governor of the Krasnoyarsk region (East Siberia). From 1996 to 2001, he served as the general director and chairman of the board of nickel and palladium mining and smelting company Norilsk Nickel. From 1994 to 1996, Mr. Khloponin served as chairman of the board and president of commercial banking group International Financial Company. From 1989 to 1992, Mr. Khloponin served as a leading specialist at Vnesheconombank of the USSR. Mr. Khloponin was born in 1965. Mr. Khloponin graduated from the Moscow Financial Institute in 1989 with a degree in economics.

Andrei Belousov – Economic Aide to the President of the Russian Federation

In June 2013, Mr. Belousov was appointed as Economic Aide to the President of Russia. From May 2012 to June 2013 Mr. Belousov served as Minister of Economic Development of the Russian Federation. From 2008 to 2012, Mr. Belousov served as Director of the Russian Government Department of Economy and Finance. From 2006 to 2008, Mr. Belousov served as Deputy Minister of Economic Development and Trade and Deputy Minister of Economic Development. From 2000 to 2006, Mr. Belousov served as External Adviser to the Prime Minister. From 2000 to 2006, Mr. Belousov served as general Director of the Centre for Macroeconomic Analyses and Short-Term Prognostication. From 1986 to 2006, Mr. Belousov served as junior researcher, researcher, senior researcher, and finally laboratory head at the Institute of Economics and Scientific and Technical Progress Forecasts at the USSR Academy of Sciences (later Institute of National Economy Prognostication at the Russian Academy of Sciences). Mr. Belousov was born in 1959. Mr. Belousov graduated with honours from the Lomonosov Moscow State University in 1981 with a D.Sc. in economics.

Anton Siluanov – Minister of Finance of the Russian Federation

Since September 2011, Mr. Siluanov has served as acting and then duly appointed Minister of Finance of the Russian Federation. He served as Deputy Minister of Finance of the Russian Federation from 2003 to 2004 and from 2005 to 2011, and held the office of Head of the Inter-budgetary Relations Department of the Russian Ministry of Finance from 2004 to 2005. Mr. Siluanov was a member of the Ministry Board since 2001. He led the Department of Macroeconomics of the Russian Ministry of Finance from 1997 to 2003. From 1992 to 1997 he served as Deputy Head of Budgetary Department of the Russian Ministry of Finance. Mr. Siluanov started his career in the Russian Ministry of Finance in 1985. Mr. Siluanov was born in 1963. He graduated from the Moscow Institute of Finance with a degree in finance and credit in 1985.

Alexei Ulyukaev – Minister of Economic Development of the Russian Federation

In June 2013, Mr. Ulyukaev was appointed as Minister of Economic Development of the Russian Federation. From 2004 to 2013 Mr. Ulyukaev served as First Deputy Chair of the CBR. In 2008-2011, he was also a Chair of the Board of Directors of the MICEX-RTS stock exchange (currently, the Moscow Exchange). He also served as Head of the Finance and Credit Department of Moscow State University School of Economics from 2007 to 2010. From 2000 to 2004 Mr. Ulyukaev served as First Deputy Minister of Finance. From 2000 to 2006 he also was a Professor of General Economics Department of Moscow Institute of Physics and Technology. In 1994-1996 and in 1998-2000 Mr Ulyukaev served as Deputy Director of Egor Gaidar's Institute of Economic Problems of Transition Period, and in 1993-1994 Mr. Ulyukaev served as an Assistant to the First Deputy Prime Minister of Russia. In 1991 he was an Economic Aide to the Russian Government, and from 1992 to 1993 headed a group of advisors to the Russian Prime Minister. In 1988-1982 he worked as an assistant professor of the Department of Political Economy of Moscow Institute of Construction and Engineering. Mr. Ulyukaev was born in 1956, graduated from the Lomonosov Moscow State University in 1979, and holds a D.Sc. in Economics. Mr Ulyukaev also holds a Doctor of Economics degree from Pierre-Mendes University, France.

Vladimir Dmitriev – Chairman of VEB

Since June 2007, Mr. Dmitriev has served as Chairman of VEB. From 2004 to 2007, Mr. Dmitriev served as chairman of the Bank for Foreign Economic Affairs of the Soviet Union (OJSC). From 2002 to 2004, Mr. Dmitriev served as deputy president and chairman of the board of the Bank for Foreign Trade of the Soviet Union. In 1993, Mr. Dmitriev was appointed as deputy chief executive officer of the Russian Finance Ministry Department, where he worked until 1997 when he was appointed as First Deputy Chairman of the Bank for Foreign Affairs of the Soviet Union, a position he held until 2002. From 1992 to 1993 Mr. Dmitriev served as First Secretary of the Russian Embassy at the Russian Ministry for Foreign Affairs and from 1987 to 1992, as second and first Secretary of the Soviet Union Embassy at the Soviet Union Ministry for Foreign Affairs. From 1986 to 1987, Mr. Dmitriev worked as a researcher at the Institute of World Economics and International Relations of the Soviet Union Academy of Sciences. From 1979 to 1986, Mr. Dmitriev worked as an *attaché* and third secretary for the Soviet Union Foreign Ministry Department. From 1975 to 1979, Mr. Dmitriev worked as an engineer for the State Committee of the Soviet Union Council of Ministers for Foreign Economic Relations. Mr. Dmitriev was born in 1953 and graduated in 1975 from the Moscow Finance Institute with a degree in international economic relations. Mr. Dmitriev holds a doctorate in economics and is a corresponding member of the Russian Academy of Natural Sciences.

The business address of each of the members of the Supervisory Board is the registered address of VEB at 9, Prospekt Akademika Sakharova, Moscow B-78, GSP-6, 107996, Russian Federation.

Management Board

The Management Board is VEB's collective executive body. The Chairman of VEB heads the Management Board. The members of the Management Board are employees of VEB.

Pursuant to the Development Bank Law, VEB's Management Board shall consist of the Chairman of VEB and eight members appointed by the Supervisory Board upon recommendation of the Chairman of VEB. Since December 2012, VEB's Management Board has consisted of only eight members, including the Chairman of VEB. Therefore, currently, VEB's Management Board has fewer members than the Development Bank Law formally requires and there may be an argument that the Management Board has not been fully constituted under Russian law.

The Management Board meets at least once per month. The matters falling within its competence include (among others):

- preparing and submitting proposals to the Supervisory Board relating to (i) the key focus areas of VEB's activities within the scope of the 2007 Memorandum and (ii) the establishment of parameters for VEB's investment and financial operations;
- reviewing and submitting VEB's annual budget, revenue and annual reports, as well as proposals on VEB's profit allocation, to the Supervisory Board for approval;
- approving decisions on the financing of investment projects within thresholds established by VEB's by-laws;
- approving VEB's staff list and employment terms and conditions for the hiring of all VEB employees, VEB's organisational structure and other labour-related issues;
- approving any transaction or related transactions involving amounts from 2% and up to 10% of VEB's equity as at the last financial year end accounting date preceding the date of the decision to enter into the relevant transaction; and
- other matters provided for by law.

As at the date of this Base Prospectus, the members of the Management Board are as follows:

<i>Name</i>	<i>Position</i>
Vladimir Dmitriev	Chairman of VEB
Mikhail Poluboyarinov	First Deputy Chairman of VEB
Andrey Sapelin	First Deputy Chairman of VEB
Sergey Vasiliev	Deputy Chairman of VEB
Alexander Ivanov	Deputy Chairman of VEB
Mikhail Kopeikin	Deputy Chairman of VEB
Sergey Lykov	Deputy Chairman of VEB
Vladimir Shaprinsky	Chief Accountant of VEB

Vladimir Dmitriev – Chairman of VEB

See “*Management and Employees—Management—Supervisory Board—Vladimir Dmitriev-Chairman of VEB*”.

Mikhail Poluboyarinov – First Deputy Chairman of VEB

Since July 2012, Mikhail Poluboyarinov has served as member of VEB’s Management Board and since October 2012 he has served as First Deputy Chairman of VEB. From July 2011 to July 2012, Mr. Poluboyarinov was a Deputy Chairman of VEB but was not a member of the Management Board. Mr. Poluboyarinov was previously deputy CEO of OJSC “Aeroflot – Russian Airlines” from 2003 to 2009. Mr. Poluboyarinov was born in 1966 in Moscow. In 1988, he graduated from Moscow Financial Institute with a degree in credit and economics, and in 1998 he obtained a Ph.D. in economics from Plekhanov Academy of Economics.

Andrey Sapelin – First Deputy Chairman of VEB

In October 2013, Mr. Sapelin was appointed to his current role as First Deputy Chairman of VEB. From July 2011 to October 2013, Mr. Sapelin served as Deputy Chairman of VEB. From 2007 to 2011, Mr. Sapelin was the Head of Corporate Finance Department, Investment Banking Transactions Directorate and Director of Department for Industry of VEB. Mr. Sapelin was born in 1965. He graduated from Moscow Ordzhonikidze Aviation Institute in 1987 with a degree in mechanised processing of economic information and the Business School of Moscow State Institute of International Relations in 1991.

Sergey Vasiliev – Deputy Chairman of VEB

In June 2007, Mr. Vasiliev was appointed to his current role as Deputy Chairman of VEB. From 2002 to 2007, he also served as Chairman of the Federation Council Committee for Financial Markets and Monetary Circulation. From 2001 to 2007, Mr. Vasiliev was a member of the Federation Council of the Federal Assembly. Mr. Vasiliev was born in 1957 and graduated from the Leningrad Finance and Economics Institute in 1979 with a degree in economic cybernetics. Mr. Vasiliev holds a doctorate in economics.

Alexander Ivanov – Deputy Chairman of VEB

Since December 2012, Alexander Ivanov has served as a member of the Management Board. From April 2012 to December 2012, he was a Deputy Chairman of VEB but was not a member of the Management Board. From 2003 to 2005, he served as the deputy department head, department head and deputy head of the Foreign Banks Cooperation Directorate at VTB Bank. In 2013, Mr. Ivanov was appointed as the chairman of management committee of the Russian network of United Nations Global Compact, a United Nations initiative on sustainable development and social responsibility. In 2006, he served as the managing director of VTB Bank’s Corporate Development and Financial Assets Department. From 2006 to 2007 he served as deputy director and then head of the Structured Finance Department of VEB’s Investment Banking Transactions Directorate. From 2007 to 2012, Mr. Ivanov was director of the Structured and Debt Finance Department at VEB. Mr. Ivanov was born in 1977 and graduated from Moscow State Institute of International Relations in 2000 with a degree in world economics. Mr. Ivanov also earned two master of business administration degrees, one from the Finance Academy under the Russian Government in 2003 and the other from Stockholm School of Economics in 2012.

Mikhail Kopeikin – Deputy Chairman of VEB

In December 2008, Mr. Kopeikin was appointed to his current role as Deputy Chairman of VEB. From September 2003, Mr. Kopeikin was Deputy Chief of the Administration of the Russian Government. From June 2003, Mr. Kopeikin was Deputy Chief of the Administration of the Russian Government and Head of the

Economics and Property Management Department. Mr. Kopeikin was born in 1954 and is a doctor of economics, professor and Honoured Economist of the Russian Federation. Mr. Kopeikin graduated from the Ordzhonikidze Moscow Management Academy. In 1987, Mr. Kopeikin graduated from the professional development department of the All-Union Foreign Trade Academy. In 1988, Mr. Kopeikin graduated from the Moscow Professional Development Institute of Executives and Specialists in the Chemical Industry. In 1990, Mr. Kopeikin graduated from the Higher Economics Courses of Gosplan of the Soviet Union. In 1991, Mr. Kopeikin completed a course at the Scandinavian Management Centre in Stockholm, Sweden. In 1992, Mr. Kopeikin completed a course at the United Vienna Institute in Vienna, Austria. In 1994, Mr. Kopeikin was elected as a full member of the Russian Quality Problems Academy and in 1996 as a full member of the International Informatisation Academy. In 1999, Mr. Kopeikin received the academic title of professor. In 2002, Mr. Kopeikin was awarded the academic title of doctor of economics.

Sergey Lykov – Deputy Chairman of VEB

In June 2007, Mr. Lykov was appointed to his current role as Deputy Chairman of VEB. From 2005 to 2007, Mr. Lykov was deputy chairman of Vnesheconombank of the USSR. Mr. Lykov was born in 1952 and graduated from the Moscow Finance Institute in 1975 with a degree in international economic relations.

Vladimir Shaprinsky – Chief Accountant of VEB

In June 2007, Mr. Shaprinsky was appointed to his current role as Chief Accountant of VEB. From 1988 to 2007, Mr. Shaprinsky worked for Vnesheconombank of the USSR as a department head and chief accountant. From 1972 to 1973, Mr. Shaprinsky worked at the Research Institute of Pricing and the State Pricing Committee of the Soviet Union Council of Ministers. Mr. Shaprinsky was born in 1955 and graduated from the Plekhanov Moscow Institute of National Economy in 1977 with a degree in finance and credit.

The business address of the Chairman of VEB and each of the members of the Management Board is the registered address of VEB at 9, Prospekt Akademika Sakharova, Moscow B-78, GSP-6, 107996, Russian Federation.

The Chairman

The Chairman of VEB is responsible for the day-to-day management of VEB. The Chairman of VEB is appointed for a term not exceeding five years with the approval of the President of the Russian Federation upon the nomination of the Prime Minister of the Russian Federation.

The Chairman of VEB is entitled to:

- act on behalf of and represent VEB in relations with governmental authorities, local authorities, foreign and international organisations and other entities;
- serve as the head of the Management Board and arrange for the implementation of decisions adopted by the Management Board and is ex-officio member of the Supervisory Board;
- approve any transaction (or related transactions) involving the acquisition, alienation or possible alienation by VEB of assets with a total book value below 2% of VEB's equity (*sobstvennie sredstva*) as at the last accounting date preceding the date of the decision to enter into the transaction(s);
- issue orders and instructions in connection with VEB's activities;
- delegate duties to his deputies (the Chairman's deputies are other members of the Management Board);
- recommend candidates to the Management Board to be appointed or dismissed by the Supervisory Board;
- appoint and dismiss VEB employees; and

- decide on other matters falling under VEB’s competence, as provided by law, unless such matters fall within the exclusive competence of the Supervisory Board or the Management Board.

The Chairman of VEB is currently Vladimir Dmitriev. See “*Management and Employees—Management—The Supervisory Board—Vladimir Dmitriev*”.

Board Committees

To assist VEB’s Supervisory Board and Management Board, the Credit Committee and the Committee for Development of Investment Operations have been established.

Credit Committee

The Credit Committee prepares resolutions based on proposals made by VEB’s various business divisions with respect to the grant of loans, guarantees and other financing, equity participations and debt purchases, setting counterparty and issuer risk limits, financing export support activities, debt recovery and proposed write-offs. The Credit Committee reports directly to the Management Board.

Committee for the Development of Investment Operations

The main function of the Committee for the Development of Investment Operations is the preliminary selection of investment projects for further consideration by VEB. The Committee for the Development of Investment Operations reports directly to the Management Board. See “*Lending Policies and Procedures—Credit Approval*”.

INTERNAL CONTROL SERVICE

VEB’s Internal Control Service is an internal division of VEB operating pursuant to the Development Bank Law and the Internal Control Service Regulation adopted by the Supervisory Board on 28 June 2007. The Internal Control Service is independent of VEB’s other departments and divisions and is responsible for conducting internal audits of VEB’s operations. The Head of the Internal Control Service (currently, Vyacheslav Ulupov) is appointed by the Supervisory Board. The Internal Control Service prepares quarterly reports for the Supervisory Board and reports directly to the Chairman of VEB with respect to its day-to-day activities.

The main functions of the Internal Control Service are (among others):

- supervising the financial, accounting and other reports and statements published by VEB (excluding press announcements or interviews with journalists);
- analysing the cost-effectiveness of VEB’s operations;
- co-ordinating between VEB’s internal divisions and external auditors and governmental bodies;
- undertaking reviews of the activities of VEB’s internal business divisions and other departments;
- reviewing all materials submitted by VEB to rating agencies; and
- analysing VEB’s human resource management system.

In addition, pursuant to the Internal Service Control Regulation, and subject to the decisions of the Supervisory Board or the Chairman of VEB, the Internal Control Service is authorised to oversee the activities of VEB’s banking subsidiaries.

COMPENSATION

Pursuant to applicable law, the Russian Government sets the compensation payable to members of the Supervisory Board. No compensation has been paid to the members of the Supervisory Board since VEB's establishment in June 2007.

The Supervisory Board determines the amount of compensation payable to members of the Management Board. The aggregate amount paid in 2012 to the members of the Management Board based in connection with their services at VEB during 2012 was RUB 2,408 million. For the six months ended 30 June 2013 this number was RUB 1,069 million.

CONFLICT OF INTEREST

As at the date of this Base Prospectus and, for the previous five years, none of the members of the Supervisory Board or members of the Management Board nor the Chairman of VEB:

- has had any convictions in relation to fraudulent offences;
- has been a senior executive officer or a member of the administrative, management or supervisory bodies of any company at the time of or preceding any bankruptcy, receivership or liquidation; or
- has been subject to any official public incrimination and/or sanction by any statutory or regulatory authority (including any designated professional body) or has ever been disqualified by a court from acting as a member of the administrative, management or supervisory bodies of a company or from acting in the management or conduct of the affairs of any company.

There are no potential conflicts of interest between any duties owed to VEB by the members of the Supervisory Board, the Management Board or the Chairman of VEB and their respective private interests or other duties.

EMPLOYEES AND TRAINING

As at 30 June 2013, 31 December 2012 and 31 December 2011, the Group together with its subsidiaries had 18,363, 16,945 and 17,935 employees, respectively. As at 30 June 2013, 31 December 2012 and 31 December 2011, VEB had 2,131, 2,033 and 1,900 employees, respectively. VEB provides regular training to its employees in areas such as accounting and financial reporting, taxation, currency control and anti-money laundering. VEB shares its experience with other leading Russian and foreign financial institutions.

VEB's social programmes primarily aim to contribute to the welfare of employees and their families. VEB has also traditionally sought to provide social support for working women. Since 2008, all female employees with dependent children are entitled to have an extra day of holiday on 1 September of each year. In addition, they are entitled to have working days rescheduled to better accommodate their children's needs. An optional medical insurance package offered to female employees now includes, among others, a new "maternity care" option.

THE ISSUER

VEB Finance plc. (the “**Issuer**”) (formerly VEB Finance Limited) was incorporated in Ireland on 1 March 2010, with registered number 481529, as a private company with limited liability and re-registered as a public limited company on 22 December 2010 under the Companies Acts 1963 - 2009 (as amended) of Ireland (the “**Companies Acts**”). The registered office of the Issuer is 53 Merion Square, Dublin 2 and its phone number is +353 1 614 6240.

The authorised share capital of the Issuer is €40,000 divided into 40,000 ordinary shares of par value €1 each (the “**Shares**”). The Issuer has issued 40,000 Shares, which are fully paid and are held on trust by TMF Management (Ireland) Limited (the “**Share Trustee**”) under the terms of a declaration of trust (the “**Declaration of Trust**”) dated 8 March 2010, under which the Share Trustee holds the Shares on trust for charity. The Share Trustee has no beneficial interest in and derives no benefit (other than any fees for acting as Share Trustee) from its holding of the Share. The Share Trustee will apply any income derived from the Issuer solely for the above purposes.

TMF Administration Services Limited (the “**Corporate Services Provider**”), an Irish company, acts as the corporate services provider for the Issuer. The office of the Corporate Services Provider serves as the general business office of the Issuer. Through the office and pursuant to the terms of the corporate services agreement entered into on 24 June 2010 between the Issuer and the Corporate Services Provider (the “**Corporate Services Agreement**”), the Corporate Services Provider performs various management functions on behalf of the Issuer, including the provision of certain clerical, reporting, accounting, administrative and other services until termination of the Corporate Services Agreement. In consideration of the foregoing, the Corporate Services Provider receives various fees and other charges payable by the Issuer at rates agreed upon from time to time plus expenses. The terms of the Corporate Services Agreement provide that either party may terminate the Corporate Services Agreement upon the occurrence of certain stated events, including any material breach by the other party of its obligations under the Corporate Services Agreement which is either incapable of remedy or which is not cured within 30 days from the date on which it was notified of such breach. In addition, either party may terminate the Corporate Services Agreement at any time by giving at least two months written notice to the other party. The Corporate Services Agreement contains provisions for the appointment of a replacement corporate services provider if necessary.

The Corporate Services Provider’s principal office is 53 Merrion Square, Dublin 2.

Principal Activities

The principal objects of the Issuer are set forth in clause 3 of its Memorandum of Association (as currently in effect) and permit the Issuer, among other things, to lend money and give credit, secured or unsecured, to issue debentures, enter into derivatives contracts and otherwise to borrow or raise money and to grant security over its property for the performance of its obligations or the payment of money.

The Issuer is organised as a special purpose company. The Issuer was established to raise capital by the issuances of debt securities and to use the amounts equal to the proceeds of such issuances to advance loans to VEB.

The Issuer has issued the following Series of Notes under the Programme for the purpose of financing loans to VEB:

- U.S.\$1,600 million 6.902% Loan Participation Notes due 2020 issued on 9 July 2010 and 22 July 2010 (the “**Series 1 Notes**”);
- U.S.\$600 million 5.45% Loan Participation Notes due 2017 issued on 22 November 2010 (the “**Series 2 Notes**”);
- U.S.\$1,000 million 6.80% Loan Participation Notes due 2025 issued on 22 November 2010 (the “**Series 3 Notes**”);
- CHF 500 million 3.75%. Loan Participation Notes due 2016 issued on 17 February 2011 (the “**Series 4 Notes**”);

- U.S.\$750 million 5.375% Loan Participation Notes due 2017 issued on 13 February 2012 (the “**Series 5 Notes**”);
- U.S.\$1,000 million 6.025% Loan Participation Notes due 2022 issued on 5 July 2012 (the “**Series 6 Notes**”);
- €1,000 million 3.035% Loan Participation Notes due 2018 issued on 21 February 2013 (the “**Series 7 Notes**”); and
- €500 million 4.032% Loan Participation Notes due 2023 issued on 21 February 2013 (the “**Series 8 Notes**”).

Save for the issue of the Series 1 Notes, the Series 2 Notes, the Series 3 Notes, the Series 4 Notes, the Series 5 Notes, the Series 6 Notes, the Series 7 Notes and the Series 8 Notes, since its incorporation, the Issuer has not engaged in any material activities other than those incidental to its registration as a private company and re-registration as a public limited company under the Companies Acts and those related to the establishment of the Programme and the issue of Notes thereunder. The Issuer has no employees.

Directors and Company Secretary

The Issuer’s articles of association provide that the board of directors of the Issuer will consist of at least two Directors.

The directors of the Issuer and their business addresses are as follows:

John Hackett	53 Merrion Square, Dublin.
Neasan Cavanagh	53 Merrion Square, Dublin.

The company secretary is TMF Administration Services Limited.

The directors do not hold any direct, indirect, beneficial or economic interest in any of the Shares. The directorship of the directors is provided as part of the Corporate Services Provider’s overall corporate administration services provided to the Issuer pursuant to the Corporate Services Agreement.

The directors of the Issuer may engage in other activities and have other interests which may conflict with the interests of the Issuer.

Save as disclosed herein, there has been no material adverse change in the financial position or prospects of the Issuer since 31 December 2012 (the date of the last published audited financial statements of the Issuer). Other than the issue of Notes under the Programme, the Issuer has no borrowings or indebtedness in the nature of borrowings (including loan capital issued or created but unissued), term loans, liabilities under acceptances or acceptance credits, mortgages, charges or guarantees or other contingent liabilities.

Financial Statements

The Issuer has prepared and published audited financial statements for the financial periods ended 31 December 2011 and 31 December 2012 (incorporated by reference into this Base Prospectus). The Issuer will not prepare interim financial statements. The financial year of the Issuer ends on 31 December in each year.

The profit and loss account and balance sheet can be obtained free of charge from the specified offices of the Irish Paying Agent. The Issuer must hold one annual general meeting in each calendar year.

The auditors of the Issuer are Deloitte & Touche of Earlsfort Terrace, Dublin 2 who are chartered accountants and are members of the Institute of Chartered Accountants and registered auditors qualified to practise in Ireland.

FACILITY AGREEMENT (AS AMENDED)

This Facility Agreement is made on 24 June 2010 (as amended by a deed of amendment dated 5 November 2013) **between:**

- (1) **STATE CORPORATION “BANK FOR DEVELOPMENT AND FOREIGN ECONOMIC AFFAIRS (VNESHECONOMBANK)”**, registration number 1077711000102 with its registered address at 9 Akademika Sakharova, Moscow B-78, GSP-6, 107996, Russia (the **“Borrower”**); and
- (2) **VEB FINANCE PLC (formerly VEB FINANCE LIMITED)**, a company incorporated in Ireland with limited liability, whose registered office is at 53 Merrion Square, Dublin 2, Ireland (the **“Lender”** or the **“Issuer”**).

Whereas:

- (A) The Lender has at the request of the Borrower agreed, pursuant, inter alia, to this facility agreement dated 24 June 2010 (the **“Facility Agreement”**) and any subordinated loan agreements to be entered into from time to time by the Lender and the Borrower in connection with the Programme (each a **“Subordinated Loan Agreement”**), to make available to the Borrower Loans in principal amounts which, when aggregated with the principal amounts advanced under any Subordinated Loan Agreement, will not exceed the total aggregate amount equal to the Programme Limit on the terms and subject to the conditions of this Agreement, as amended and supplemented in relation to each Loan by a Loan Supplement dated the Closing Date substantially in the form set out in Schedule 1 hereto (each, a **“Loan Supplement”**); and
- (B) It is intended that, concurrently with the granting of any Loan under this Agreement, the Lender will issue certain loan participation notes.

Now it is hereby agreed as follows:

1 Definitions and Interpretation

1.1 Definitions

In this Agreement (including the recitals), the following terms shall have the meanings indicated:

“Account” means an account in the name of the Lender as specified in the relevant Loan Supplement;

“Agency Agreement” means the paying agency agreement relating to the Programme dated 24 June 2010 between the Lender, the Borrower, the Trustee and the agents named therein, as may be supplemented by a Supplemental Agency Agreement and/or otherwise amended or supplemented from time to time;

“Arrangers” means Barclays Bank PLC, Citigroup Global Markets Limited, HSBC Bank plc and Société Générale or any additional or replacement arranger appointed, and excluding any Arranger whose appointment has terminated pursuant to the Dealer Agreement;

“Base Prospectus” means the base prospectus dated 24 June 2010 relating to the Notes, which comprises a base prospectus for the purposes of Article 5.4 of the Prospectus Directive as it may be replaced, amended or supplemented from time to time;

“Borrower Account” means an account in the name of the Borrower as specified in the relevant Loan Supplement for receipt of Loan funds;

“Broken Amount” has the meaning specified in the relevant Loan Supplement;

“Business Centre” has the meaning specified in the relevant Loan Supplement;

“Business Day” means (save in relation to Clause 4) a day (other than a Saturday or Sunday) on which (a) banks and foreign exchange markets are open for business generally in the relevant place of payment, and (b) if on that day a payment is to be made in a Loan Currency other than euro hereunder, where payment is to be made by transfer to an account maintained with a bank in the Loan Currency, foreign exchange transactions may be carried on in the Loan Currency in the principal financial centre of the country of such Loan Currency and (c) if on that day a payment is to be made in euro hereunder, a day on which the TARGET System is operating, and (d) in relation to a Loan corresponding to a Series of Notes to be sold pursuant to Rule 144A under the Securities Act, banks and foreign exchange markets are open for business generally in New York City;

“Business Day Convention” has the meaning specified in the relevant Loan Supplement;

“Calculation Agent” means, in relation to a Loan, The Bank of New York Mellon, London Branch or any person named as such in the relevant Loan Supplement or any successor thereto;

“Call Option”, if applicable, means the call option granted to the Borrower pursuant to the relevant Loan Supplement and the Conditions of the relevant Series of Notes;

“Call Option Commencement Date”, if applicable, has the meaning given to it in the relevant Loan Supplement;

“CBR” means the Central Bank of the Russian Federation or such other governmental or other authority as shall from time to time carry out functions in relation to the supervision of banks in the Russian Federation as are, on the date hereof, carried out by the Central Bank of the Russian Federation;

“Change of Control” means the occurrence of either (a) the Borrower ceasing at any time to be controlled by the Russian Federation or (b) the Russian Federation no longer has the right to appoint or remove a majority of the Borrower’s supervisory board;

“Change of Control Payment Date” means the Business Day falling 90 days after the Borrower gives notice to the Lender of a Change of Control pursuant to Clause 5.4 or, if such day is not a Business Day, the next following Business Day;

“Change of Control Put Option” means the change of control put option granted to Noteholders pursuant to the Conditions of a Series of Notes;

“Closing Date” means the date specified as such in the relevant Loan Supplement;

“Conditions” has the meaning ascribed to it in the Trust Deed;

“Day Count Fraction” has the meaning specified in the relevant Loan Supplement;

“Dealer Agreement” means the dealer agreement relating to the Programme dated 24 June 2010 between the Lender, the Borrower, the Arrangers and the other dealers named therein or appointed pursuant to it, as it may be amended or supplemented from time to time;

“Early Redemption Amount” has the meaning specified in the relevant Loan Supplement;

“Encumbrance” means any mortgage, charge, pledge, lien (other than a lien arising solely by operation of law which is discharged within 90 days of arising) or other security interest securing any obligation of any Person or any other type of preferential arrangement (including any title transfer and retention arrangement) having a similar effect;

“euro” or **“€”** means the lawful currency of the member states of the European Union that adopted the single currency in accordance with the Treaty of Rome, as amended;

“Event of Default” has the meaning assigned to such term in Clause 11.1 hereof;

“Financial Indebtedness” means any obligation for the payment of money in any currency, whether sole, joint or several, and whether actual or contingent, in respect of:

- (a) moneys borrowed or raised (including the capitalised value of obligations under finance leases and hire purchase agreements which would, in accordance with IFRS, be treated as finance or capital leases, but excluding moneys raised by way of the issue of share capital (whether or not for a cash consideration) and any premium on such share capital) and interest and other charges thereon or in respect thereof;
- (b) any liability under any debenture, bond, note, loan stock or other security or under any acceptance or documentary credit, bill discounting or note purchase facility or any similar instrument;
- (c) any liability in respect of the deferred acquisition cost of property, assets or services to the extent payable after the time of acquisition or possession thereof by the party liable, but not including any such liability in respect of normal trade credit for a period not exceeding six months for goods or services supplied;
- (d) any liability under any interest rate or currency hedging agreement (and the amount of such Financial Indebtedness in relation to any such transaction shall be calculated by reference to the mark-to-market valuation of such transaction (if it shows a sum owed to the counterparty of the Borrower or any Subsidiary), at the relevant time);
- (e) any liability under or in respect of any bonding facility, guarantee facility or similar facility; and
- (f) (without double counting) any guarantee or other assurance against financial loss in respect of such moneys borrowed or raised, interest, charges or other liability (whether the person liable in respect of such moneys borrowed or raised, interest, charges or other liability is or is not a member of the Group);

“Fixed Amount” has the meaning specified in the relevant Loan Supplement;

“Fixed Rate Loan” means a Loan specified as such in the relevant Loan Supplement;

“Floating Rate Loan” means a Loan specified as such in the relevant Loan Supplement;

“Group” means the Borrower and its Subsidiaries taken as a whole, and a “member of the Group” means any of the Borrower or any of its Subsidiaries;

“IFRS” means the International Financial Reporting Standards issued by the International Accounting Standards Board (as amended, supplemented or re-issued from time to time);

“Interest Payment Date” means the dates specified as such in the relevant Loan Supplement, or, in the event of a prepayment in whole or in part in accordance with Clauses 5.4 and 5.5, the date set for such redemption in respect of the part of the Loan to be redeemed;

“Issue Date” means the date specified as such in the relevant Loan Supplement;

“Law on the Bank for Development” means Federal Law of the Russian Federation No 82-FZ of 17 May 2007 “On the Bank for Development” (as amended, supplemented or superseded from time to time);

“Law on Non-Commercial Organisations” means Federal Law of the Russian Federation No 7-FZ of 16 January 1996 “On Non-Commercial Organisations” (as amended, supplemented or superseded from time to time);

“Lead Manager(s)” means the Relevant Dealer(s) specified as such in the relevant Subscription Agreement;

“Lender Agreements” means the Dealer Agreement, this Agreement, the Agency Agreement and the Principal Trust Deed together with, in relation to each Loan, the relevant Subscription Agreement, Loan Supplement, any Swap Agreement, the relevant Supplemental Agency Agreement (if any) and the relevant Supplemental Trust Deed;

“Loan” means each loan to be made pursuant to, and on the terms specified in, this Agreement and the relevant Loan Supplement and includes each Fixed Rate Loan and Floating Rate Loan;

“Loan Agreement” means this Agreement, and (unless the context requires otherwise) in relation to a Loan means this Agreement as amended and supplemented by the relevant Loan Supplement;

“Loan Currency” means the currency specified as such in the relevant Loan Supplement;

“Margin” shall have the meaning given to such term in the Conditions of the relevant Series of Notes;

“Material Adverse Effect” means a material adverse effect on or a material adverse change in (a) the financial condition, assets or business of the Borrower or the consolidated financial condition, assets or business of the Group taken as a whole or (b) the Borrower’s ability to perform its obligations under a Loan Agreement or (c) the validity, legality or enforceability of a Loan Agreement or the rights or remedies of the Lender under a Loan Agreement;

“Maximum Rate of Interest” shall have the meaning given to such term in the Conditions of the relevant Series of Notes;

“Memorandum on Financial Policy of the Borrower” means the memorandum on financial policies of the Borrower, adopted by the Government of the Russian Federation, as amended, supplemented or superseded from time to time;

“Minimum Rate of Interest” shall have the meaning given to such term in the Conditions of the relevant Series of Notes;

“Noteholder” means, in relation to a Note, the person in whose name such Note is registered in the Register of the noteholders (or, in the case of joint holders, the first-named holder thereof) maintained in respect of such Notes;

“Notes” means the loan participation notes that may be issued from time to time by the Lender under the Programme in Series, each Series corresponding to a Loan and relating to a Loan as defined in the relevant Loan Supplement or a subordinated Loan pursuant to a Subordinated Loan Agreement;

“Officers’ Certificate” means a certificate signed by two officers of the Borrower one of whom shall be the principal executive officer, principal accounting officer or principal financial officer of the Borrower;

“Opinion of Counsel” means a written opinion from international legal counsel as reasonably selected by the Borrower with the written consent of the Lender and the Trustee, such consent not to be unreasonably withheld or delayed;

“Person” means any individual, corporation, partnership, limited liability company, joint venture, association, joint stock company, company, firm, trust, organisation, government, or any agency or political subdivision thereof, or any other entity, whether or not having a separate legal personality;

“Potential Event of Default” means any event which, after notice, the expiry of any grace period or passage of time or after making a determination on the fulfilment of any other requirements, would be an Event of Default;

“Principal Subsidiary” means at any relevant time a Subsidiary of the Borrower:

- (a) whose total assets or gross revenues (or, where the Subsidiary in question prepares consolidated accounts, whose total consolidated assets or gross consolidated revenues, as the case may be) represent not less than 10 per cent. of the total consolidated assets or the gross

consolidated revenues of the Borrower and its Subsidiaries, all as calculated by reference to the then latest audited accounts (or consolidated accounts, as the case may be) (in each case, produced on the basis of IFRS, consistently applied) of such Subsidiary and the then latest audited consolidated accounts of the Borrower (produced on the basis of IFRS, consistently applied) and its consolidated Subsidiaries; or

- (b) to which are transferred all or substantially all the assets and undertaking of a Subsidiary which immediately prior to such transfer is a Principal Subsidiary.

“Principal Trust Deed” means principal trust deed dated 24 June 2010 between the Lender and the Trustee, as it may be amended or supplemented from time to time;

“Programme” means the programme for the issuance of Loan Participation Notes by the Lender for the purpose of financing Loans;

“Programme Limit” means U.S.\$30,000,000,000 or its equivalent in other currencies, being the maximum aggregate principal amount of Notes that may be issued and outstanding at any time under the Programme as may be increased in accordance with the Dealer Agreement;

“Prospectus Directive” means Directive 2003/71/EC of the European Parliament and of the Council;

“Put Option”, if applicable, means the put option granted to Noteholders pursuant to the relevant Loan Supplement and the Conditions of the relevant Series of Notes;

“Put Settlement Date”, if applicable, has the meaning given to it in the relevant Loan Supplement;

“Rate of Interest” has the meaning assigned to such term in the relevant Loan Supplement;

“Relevant Dealer(s)” has the meaning specified in the Dealer Agreement;

“Relevant Indebtedness” means any Financial Indebtedness which:

- (i) (a) is in the form of or represented by any bond, note, debenture stock, loan stock, certificate or other debt instrument, which, in each case, is listed or quoted on any stock exchange or regulated trading system; and (b) was initially offered and distributed (as to more than 50 per cent. of the original principal amount of such debt) outside the Russian Federation; or
- (ii) is in the form of a loan to the Borrower or its Subsidiaries which is financed by the issuance of any of the foregoing forms of debt in (i)(a) above, where such issuance is by a special purpose company or a bank or any other entity and the rights to payment of the holders of such forms of debt are limited to payments actually made by either the Borrower or its Subsidiaries pursuant to such loan;

“Repayment Date” means the date specified as such in the relevant Loan Supplement;

“Roubles” means the lawful currency of the Russian Federation;

“Same-Day Funds” means funds for payment, in the Loan Currency as the Lender may at any time determine to be customary for the settlement of international transactions in the principal financial centre of the country of the Loan Currency or, as the case may be, euro funds settled through the TARGET System or such other funds for payment in euro as the Lender may at any time determine to be customary for the settlement of international transactions in Brussels of the type contemplated hereby;

“Series” means a series of Notes that (except in respect of the first payment of interest and their issue price) have identical terms on issue and are expressed to have the same series number;

“Series Prospectus” means a standalone prospectus produced from time to time in relation to a Series of Notes and which incorporates by reference, supplements and/or amends the entire Base Prospectus;

“Subscription Agreement” means the agreement specified as such in the relevant Loan Supplement;

“Subsidiary” means, with respect to any Person, (i) any corporation, association or other business entity of which at least 50 per cent. of the total voting power entitled (without regard to the occurrence of any contingency) to vote in the election of directors, managers or trustees thereof is at the time owned or controlled, directly or indirectly, by such Person or one or more of the other Subsidiaries of such Person (or any combination thereof) and (ii) any partnership (a) the sole general partner or the managing general partner of which is such Person or a Subsidiary of such person or (b) the only general partners of which are such Person or one or more Subsidiaries of such Person (or any combination thereof);

“Supplemental Agency Agreement” means a supplemental agency agreement as may be entered into in respect of a Series of Notes dated the relevant Closing Date and made between the Lender, the Borrower, the Trustee, the Agents and the Swap Counterparties (substantially in the form set out in Schedule 3 of the Agency Agreement);

“Supplemental Trust Deed” means a supplemental trust deed in respect of a Series of Notes which constitutes and secures, inter alia, such Series dated the relevant Closing Date and made between the Lender, the Trustee and the Swap Counterparties (if any) (substantially in the form set out in Schedule 9 of the Principal Trust Deed);

“Swap Agreement” means, if applicable, any agreement specified as such in the relevant Loan Supplement;

“Swap Counterparty” means, if applicable, any party specified as such in the relevant Loan Supplement;

“Swap Loan” means a Loan in relation to which the Lender has entered into one or more Swap Agreements with one or more Swap Counterparties;

“TARGET System” means the Trans-European Automated Real-Time Gross Settlement Express Transfer (TARGET) System or any successor thereof;

“Taxes” means any taxes (including interest or penalties thereon) which are now or at any time hereafter imposed, assessed, charged, levied, collected, demanded, withheld or claimed by the Russian Federation, Ireland or any taxing authority thereof or therein provided, however, that for the purposes of this definition the references to Ireland shall, upon the occurrence of the Issuer Relevant Event (as this term is defined in the Trust Deed), be deemed to be references to the jurisdiction in which the Trustee is domiciled for tax purposes, and the term **“Taxation”** shall be construed accordingly;

“Total Assets” means the book value of the consolidated total assets of the Borrower as determined by reference to the Borrowers most recent annual consolidated balance sheet;

“Trust Deed” means the Principal Trust Deed as supplemented by the relevant Supplemental Trust Deed (and as supplemented and/or amended from time to time) and specified as such in the relevant Loan Supplement;

“Trustee” means BNY Corporate Trustee Services Limited as trustee under the Trust Deed and any successor thereto as provided thereunder;

“U.S. Dollars”, “\$” and “U.S.\$” means the lawful currency of the United States of America; and

“Warranty Date” means the date hereof, the date of each Loan Supplement, each Closing Date, each date on which the Base Prospectus or any of the Lender Agreements is amended, supplemented or replaced and each date on which the Programme Limit is increased.

1.2 Other Definitions

Unless the context otherwise requires, terms used in this Agreement which are not defined in this Agreement but which are defined in the Principal Trust Deed, the Notes, the Agency Agreement, the

Dealer Agreement or the relevant Loan Supplement shall have the meanings assigned to such terms therein.

1.3 Interpretation

Unless the context or the express provisions of this Agreement otherwise require, the following shall govern the interpretation of this Agreement:

- 1.3.1** All references to “Clause” or “sub-Clause” are references to a Clause or sub-Clause of this Agreement.
- 1.3.2** The terms “hereof”, “herein” and “hereunder” and other words of similar import shall mean the relevant Loan Agreement as a whole and not any particular part hereof.
- 1.3.3** Words importing the singular number include the plural and vice versa.
- 1.3.4** All references to “taxes” include all present or future taxes, levies, imposts and duties of any nature and the terms “tax” and “taxation” shall be construed accordingly.
- 1.3.5** The table of contents and the headings are for convenience only and shall not affect the construction hereof.
- 1.3.6** All references to “this Agreement” or “this Facility Agreement” are references to this facility agreement dated 24 June 2010.

2 Loans

2.1 Loans

On the terms and subject to the conditions set forth herein and, as the case may be, in each Loan Supplement, the Lender hereby agrees to make available to the Borrower Loans in principal amounts which, when aggregated with the principal amounts advanced under any Subordinated Loan Agreement, will not exceed the total aggregate amount equal to the Programme Limit.

2.2 Purpose

The proceeds of each Loan will be used for general corporate purposes (unless otherwise specified in the relevant Loan Agreement), but the Lender shall not be concerned with the application thereof.

2.3 Separate Loans

It is agreed that with respect to each Loan all the provisions of this Agreement and the Loan Supplement shall apply *mutatis mutandis* separately and independently to each such Loan and the expressions “**Account**”, “**Closing Date**”, “**Day Count Fraction**”, “**Interest Payment Date**”, “**Loan Agreement**”, “**Notes**”, “**Rate of Interest**”, “**Repayment Date**”, “**Loan Currency**”, “**Subscription Agreement**” and “**Trust Deed**”, together with all other terms that relate to such a Loan, shall be construed as referring to those of the particular Loan in question and not of all Loans unless expressly so provided, so that each such Loan shall be made pursuant to this Agreement and the relevant Loan Supplement, together comprising the Loan Agreement in respect of such Loan, and that, unless expressly provided, events affecting one Loan shall not affect any other.

3 Drawdown

3.1 Drawdown

On the terms and subject to the conditions set forth herein and, as the case may be, in each Loan Supplement, on the Closing Date thereof the Lender shall make a Loan to the Borrower and the Borrower shall make a single drawing in the full amount of such Loan.

3.2 Loan Arrangement Fee

In consideration of the Lender's undertaking to make a Loan available to the Borrower, the Borrower hereby agrees that it shall, one Business Day before each Closing Date, pay to the Lender, in Same-Day Funds, an arrangement fee in connection with the financing of such Loan, including negotiation, preparation and execution of all related documents and transactions and other costs connected with and necessary for the extension of the Loan (the "**Arrangement Fee**"). The Arrangement Fee shall be calculated taking into account the front-end commissions, fees and costs, properly documented and reasonably incurred by the Lender in connection with financing such Loan. The total amount of the Arrangement Fee is to be as specified in the relevant Loan Supplement.

3.3 Disbursement

Subject to the conditions set forth herein and, as the case may be, in each Loan Supplement, on each Closing Date the Lender shall transfer the amount of the relevant Loan to the Borrower Account specified in the relevant Loan Supplement.

3.4 Ongoing Fees and Expenses

In consideration of the Lender agreeing to make Loans to the Borrower and making available the facility hereunder, the Borrower shall pay in one or more instalments on demand to the Lender each year all properly incurred and documented ongoing commissions, costs, taxes and fees as set forth to the Borrower in an invoice from the Lender (including, without limitation, any corporate services provider fees, stock exchange fees, listing fees, audit fees, legal fees and the anticipated winding-up expenses of the Lender). If applicable, the Borrower shall also pay on demand to the Lender all ongoing commissions, costs and expenses connected with any corresponding Swap Agreement.

4 Interest

4.1 Rate of Interest for Fixed Rate Loans

Each Fixed Rate Loan bears interest on its outstanding principal amount from (and including) the Interest Commencement Date at the rate(s) per annum (expressed as a percentage) equal to the applicable Rate of Interest.

If a Fixed Amount or a Broken Amount is specified in the relevant Loan Supplement, the amount of interest payable on each Interest Payment Date will amount to the Fixed Amount or, if applicable, the Broken Amount so specified and in the case of the Broken Amount will be payable on the particular Interest Payment Date(s) specified in the relevant Loan Supplement. For the avoidance of doubt, neither the Trustee nor the Agents will be responsible for determining the Fixed Amount or the Broken Amount.

4.2 Payment of Interest for Fixed Rate Loans

Interest at the Rate of Interest shall accrue on each Fixed Rate Loan from day to day, starting from (and including) the Interest Commencement Date and thereafter from (and including) each Interest Payment Date, to (but excluding) the next Interest Payment Date and shall be paid by the Borrower to the Lender in arrear, in accordance with Clause 6.1, in each case unless agreed otherwise.

4.3 Interest for Floating Rate Loans

4.3.1 *Interest Payment Dates:* Each Floating Rate Loan bears interest on its outstanding principal amount from (and including) the Interest Commencement Date and thereafter from (and including) each Interest Payment Date, to (but excluding) the next Interest Payment Date at the rate per annum (expressed as a percentage) equal to the applicable Rate of Interest, such interest shall be paid by the Borrower to the Lender in arrear, in accordance with Clause 6.1, in each case unless agreed otherwise. Such Interest Payment Date(s) is/are either shown in the relevant Loan Supplement as Specified Interest Payment Date(s) or, if no Specified Interest Payment Date(s) is/are shown in the relevant Loan Supplement, Interest Payment Date shall mean each date which falls the number of months or other period shown in the relevant Loan

Supplement as the Interest Period after the preceding Interest Payment Date or, in the case of the first Interest Payment Date, after the Interest Commencement Date.

4.3.2 *Business Day Convention:* If any date referred to in the relevant Loan Supplement that is specified to be subject to adjustment in accordance with a Business Day Convention would otherwise fall on a day that is not a Business Day, then, if the Business Day Convention specified is (A) the Floating Rate Business Day Convention, such date shall be postponed to the next day that is a Business Day unless it would thereby fall into the next calendar month, in which event (x) such date shall be brought forward to the immediately preceding Business Day and (y) each subsequent such date shall be the last Business Day of the month in which such date would have fallen had it not been subject to adjustment, (B) the Following Business Day Convention, such date shall be postponed to the next day that is a Business Day, (C) the Modified Following Business Day Convention, such date shall be postponed to the next day that is a Business Day unless it would thereby fall into the next calendar month, in which event such date shall be brought forward to the immediately preceding Business Day or (D) the Preceding Business Day Convention, such date shall be brought forward to the immediately preceding Business Day.

4.3.3 *Rate of Interest for Floating Rate Loans:* The Rate of Interest in respect of Floating Rate Loans for each Interest Accrual Period shall be determined in the manner specified in the relevant Loan Supplement and the provisions below relating to either ISDA Determination or Screen Rate Determination shall apply, depending upon which is specified in the relevant Loan Supplement.

(i) ISDA Determination for Floating Rate Loans

Where ISDA Determination is specified in the relevant Loan Supplement as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Accrual Period shall be determined by the Calculation Agent as a rate equal to the relevant ISDA Rate. For the purposes of this paragraph (i), “ISDA Rate” for an Interest Accrual Period means a rate equal to the Floating Rate that would be determined by the Calculation Agent under a Swap Transaction under the terms of an agreement incorporating the ISDA Definitions and under which:

- (a) the Floating Rate Option is as specified in the relevant Loan Supplement;
- (b) the Designated Maturity is a period specified in the relevant Loan Supplement; and
- (c) the relevant Reset Date is the first day of that Interest Accrual Period unless otherwise specified in the relevant Loan Supplement.

For the purposes of this paragraph (i), “**Floating Rate**”, “**Calculation Agent**”, “**Floating Rate Option**”, “**Designated Maturity**”, “**Reset Date**” and “**Swap Transaction**” have the meanings given to those terms in the ISDA Definitions.

(ii) Screen Rate Determination for Floating Rate Loans

(x) Where Screen Rate Determination is specified in the relevant Loan Supplement as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Accrual Period will, subject as provided below, be either:

- (a) the offered quotation; or
- (b) the arithmetic mean of the offered quotations,

(expressed as a percentage rate per annum) for the Reference Rate which appears or appear, as the case may be, on the Relevant Screen Page as at the Relevant Time on the Interest Determination Date in question as determined

by the Calculation Agent. If five or more of such offered quotations are available on the Relevant Screen Page, the highest (or, if there is more than one such highest quotation, one only of such quotations) and the lowest (or, if there is more than one such lowest quotation, one only of such quotations) shall be disregarded by the Calculation Agent for the purpose of determining the arithmetic mean of such offered quotations.

If the Reference Rate from time to time in respect of Floating Rate Loans is specified in the relevant Loan Supplement as being other than LIBOR, EURIBOR or MOSPRIME, the Rate of Interest in respect of such Loans will be determined as provided in the relevant Loan Supplement.

- (y) if the Relevant Screen Page is not available or if sub-paragraph (x)(a) applies and no such offered quotation appears on the Relevant Screen Page or if sub-paragraph (x)(b) above applies and fewer than three such offered quotations appear on the Relevant Screen Page in each case as at the time specified above, subject as provided below, the Calculation Agent shall request the principal office in the Relevant Financial Centre of each of the Reference Banks to provide the Calculation Agent with its offered quotation (expressed as a percentage rate per annum) for the Reference Rate at approximately the Relevant Time on the Interest Determination Date in question. If two or more of the Reference Banks provide the Calculation Agent with such offered quotations, the Rate of Interest for such Interest Period shall be the arithmetic mean of such offered quotations as determined by the Calculation Agent; and
- (z) if paragraph (y) above applies and the Calculation Agent determines that fewer than two Reference Banks are providing offered quotations, subject as provided below, the Rate of Interest shall be either (i) the arithmetic mean of the rates per annum (expressed as a percentage) as communicated to (and at the request of) the Calculation Agent by the Reference Banks or any two or more of them, offered by such Reference Banks at approximately the Relevant Time on the relevant Interest Determination Date, in respect of deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate by leading banks in, the Relevant Financial Centre, or (ii) if fewer than two of the Reference Banks so requested provide the Calculation Agent with such offered rates, the offered rate for deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate, or the arithmetic mean of the offered rates for deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate, at which, at approximately the Relevant Time on the relevant Interest Determination Date, any one or more banks (which bank or banks is or are in the opinion of the Trustee and the Lender suitable for such purpose) informs the Calculation Agent it is quoting to leading banks in, the Relevant Financial Centre provided that, if the Rate of Interest cannot be determined in accordance with the foregoing provisions of this paragraph, the Rate of Interest shall be determined as at the last preceding Interest Determination Date (although substituting, where a different Margin or Maximum or Minimum Rate of Interest is to be applied to the relevant Interest Accrual Period from that which applied to the last preceding Interest Accrual Period, the Margin or Maximum or Minimum Rate of Interest relating to the relevant Interest Accrual Period, in place of the Margin or Maximum or Minimum Rate of Interest relating to that last preceding Interest Accrual Period).

4.4 Accrual of Interest

Interest shall cease to accrue on each Loan on the due date for repayment unless payment is improperly withheld or refused, in which event interest shall continue to accrue (as well after as before judgment)

at the applicable Rate of Interest to but excluding the date on which payment in full of the principal thereof is made.

4.5 Margin, Maximum/Minimum Rates of Interest and Rounding

4.5.1 If any Margin is specified in the relevant Loan Supplement (either (x) generally, or (y) in relation to one or more Interest Accrual Periods), an adjustment shall be made to all Rates of Interest, in the case of (x), or the Rates of Interest for the specified Interest Accrual Periods, in the case of (y), calculated in accordance with Clause 4.3 above by adding (if a positive number) or subtracting the absolute value (if a negative number) of such Margin, subject always to the next paragraph.

4.5.2 If any Maximum or Minimum Rate of Interest is specified in the relevant Loan Supplement, then any Rate of Interest shall be subject to such maximum or minimum, as the case may be.

4.5.3 For the purposes of any calculations required pursuant to a Loan Agreement (unless otherwise specified), (x) all percentages resulting from such calculations shall be rounded, if necessary, to the nearest one hundred-thousandth of a percentage point (with halves being rounded up), (y) all figures shall be rounded to seven significant figures (with halves being rounded up) and (z) all currency amounts that fall due and payable shall be rounded to the nearest unit of such currency (with halves being rounded up), save in the case of yen, which shall be rounded down to the nearest yen. For these purposes, “unit” means the lowest amount of such currency that is available as legal tender in the country or countries of such currency.

4.6 Calculations

The amount of interest payable in respect of any Loan for any period shall be calculated by multiplying the product of the Rate of Interest and the outstanding principal amount of such Loan by the Day Count Fraction, unless an Interest Amount (or a formula for its calculation) is specified in the relevant Loan Supplement in respect of such period, in which case the amount of interest payable in respect of such Loan for such period shall equal such Interest Amount (or be calculated in accordance with such formula). Where any Interest Period comprises two or more Interest Accrual Periods, the amount of interest payable in respect of such Interest Period shall be the sum of the amounts of interest payable in respect of each of those Interest Accrual Periods.

4.7 Determination and Notification of Rates of Interest and Interest Amounts

The Calculation Agent shall, as soon as practicable on each Interest Determination Date or such other time on such date as the Calculation Agent may be required to calculate any rate or amount, obtain any quotation or make any determination or calculation, determine such rate and calculate the Interest Amounts in respect of such Floating Rate Loan for the relevant Interest Accrual Period, obtain such quotation or make such determination or calculation, as the case may be, and cause the Rate of Interest and the Interest Amounts for each Interest Period and the relevant Interest Payment Date to be notified to the Borrower, the Trustee, the Lender, each of the Paying Agents and any other Calculation Agent appointed in respect of such Floating Rate Loan that is to make a further calculation upon receipt of such information. Where any Interest Payment Date or Interest Period Date is subject to adjustment pursuant to Clause 4.3.2, the Interest Amounts and the Interest Payment Date so notified may subsequently be amended (or appropriate alternative arrangements made with the consent of the Borrower and the Lender by way of adjustment) without notice in the event of an extension or shortening of the Interest Period. If such Floating Rate Loan becomes due and payable under Clause 11, the accrued interest and the Rate of Interest payable in respect of such Floating Rate Loan shall nevertheless continue to be calculated as previously in accordance with this Clause. The determination of any rate or amount, the obtaining of each quotation and the making of each determination or calculation by the Calculation Agent(s) shall (in the absence of manifest error) be final and binding upon all parties.

4.8 Determination or Calculation by an Alternative Institution

If the Calculation Agent does not at any time for any reason determine or calculate the Rate of Interest for an Interest Period or any Interest Amount in relation to a Floating Rate Loan, the Lender and the

Borrower shall jointly appoint an alternative institution as Calculation Agent, whose determination of any rate or calculation shall (in the absence of manifest error) be final and binding on all parties.

4.9 Definitions

In this Clause 4, unless the context otherwise requires, the following defined terms shall have the meanings set out below:

“**Business Day**” means:

- (i) in the case of a currency other than euro, a day (other than a Saturday or Sunday) on which commercial banks and foreign exchange markets settle payments in the principal financial centre for such currency; and/or
- (ii) in the case of euro, a day on which the TARGET system is operating (a “**TARGET Business Day**”); and/or
- (iii) in the case of a currency and/or one or more Business Centres a day (other than a Saturday or a Sunday) on which commercial banks and foreign exchange markets settle payments in such currency in the Business Centre(s) or, if no currency is indicated, generally in each of the Business Centres.

“**Day Count Fraction**” means, in respect of the calculation of an amount of interest on any Loan for any period of time (from and including the first day of such period to but excluding the last) (whether or not constituting an Interest Period or Interest Accrual Period, the “**Calculation Period**”):

- (i) if “**Actual/Actual**” or “**Actual/Actual-ISDA**” is specified in the relevant Loan Supplement, the actual number of days in the Calculation Period divided by 365 (or, if any portion of that Calculation Period falls in a leap year, the sum of (A) the actual number of days in that portion of the Calculation Period falling in a leap year divided by 366 and (B) the actual number of days in that portion of the Calculation Period falling in a non-leap year divided by 365);
- (ii) if “**Actual/365 (Fixed)**” is specified in the relevant Loan Supplement, the actual number of days in the Calculation Period divided by 365;
- (iii) if “**Actual/360**” is specified in the relevant Loan Supplement, the actual number of days in the Calculation Period divided by 360;
- (iv) if “**30/360**”, “**360/360**” or “**Bond Basis**” is specified in the relevant Loan Supplement, the number of days in the Calculation Period divided by 360 calculated on a formula basis as follows:

$$\text{Day Count Fraction} = \frac{[360 \times (Y2 - Y1)] + [30 \times (M2 - M1)] + (D2 - D1)}{360}$$

where:

“Y1” is the year, expressed as a number, in which the first day of the Calculation Period falls;

“Y2” is the year, expressed as a number, in which the day immediately following the last day included in the Calculation Period falls;

“M1” is the calendar month, expressed as a number, in which the first day of the Calculation Period falls;

“M2” is the calendar month, expressed as number, in which the day immediately following the last day included in the Calculation Period falls;

“D1” is the first calendar day, expressed as a number, of the Calculation Period, unless such number would be 31, in which case D1 will be 30; and

“D2” is the calendar day, expressed as a number, immediately following the last day included in the Calculation Period, unless such number would be 31 and D1 is greater than 29, in which case D2 will be 30;

- (v) if “**30E/360**” or “**Eurobond Basis**” is specified in the relevant Loan Supplement, the number of days in the Calculation Period divided by 360 calculated on a formula basis as follows:

$$\text{Day Count Fraction} = \frac{[360 \times (Y2 - Y1)] + [30 \times (M2 - M1)] + (D2 - D1)}{360}$$

where:

“Y1” is the year, expressed as a number, in which the first day of the Calculation Period falls;

“Y2” is the year, expressed as a number, in which the day immediately following the last day included in the Calculation Period falls;

“M1” is the calendar month, expressed as a number, in which the first day of the Calculation Period falls;

“M2” is the calendar month, expressed as a number, in which the day immediately following the last day included in the Calculation Period falls;

“D1” is the first calendar day, expressed as a number, of the Calculation Period, unless such number would be 31, in which case D1 will be 30; and

“D2” is the calendar day, expressed as a number, immediately following the last day included in the Calculation Period, unless such number would be 31, in which case D2 will be 30;

- (vi) if “**30E/360 (ISDA)**” is specified in the relevant Loan Supplement, the number of days in the Calculation Period divided by 360, calculated on a formula basis as follows:

$$\text{Day Count Fraction} = \frac{[360 \times (Y2 - Y1)] + [30 \times (M2 - M1)] + (D2 - D1)}{360}$$

where:

“Y1” is the year, expressed as a number, in which the first day of the Calculation Period falls;

“Y2” is the year, expressed as a number, in which the day immediately following the last day included in the Calculation Period falls;

“M1” is the calendar month, expressed as a number, in which the first day of the Calculation Period falls;

“M2” is the calendar month, expressed as a number, in which the day immediately following the last day included in the Calculation Period falls;

“D1” is the first calendar day, expressed as a number, of the Calculation Period, unless (i) that day is the last day of February or (ii) such number would be 31, in which case D1 will be 30; and

“D2” is the calendar day, expressed as a number, immediately following the last day included in the Calculation Period, unless (i) that day is the last day of February but not the Maturity Date or (ii) such number would be 31, in which case D2 will be 30; and

- (vii) if “**Actual/Actual-ICMA**” is specified in the relevant Loan Supplement:
- (a) if the Calculation Period is equal to or shorter than the Determination Period during which it falls, the number of days in the Calculation Period divided by the product of (x) the number of days in such Determination Period and (y) the number of Determination Periods normally ending in any year; and
 - (b) if the Calculation Period is longer than one Determination Period, the sum of:
 - (i) the number of days in such Calculation Period falling in the Determination Period in which it begins divided by the product of (1) the number of days in such Determination Period and (2) the number of Determination Periods normally ending in any year; and
 - (ii) the number of days in such Calculation Period falling in the next Determination Period divided by the product of (1) the number of days in such Determination Period and (2) the number of Determination Periods normally ending in any year

where:

“**Determination Period**” means the period from and including a Determination Date in any year to but excluding the next Determination Date; and

“**Determination Date**” means the date specified in the relevant Loan Supplement or, if none is so specified, the Interest Payment Date.

“**Interest Accrual Period**” means the period beginning on (and including) the Interest Commencement Date and ending on (but excluding) the first Interest Period Date and each successive period beginning on (and including) an Interest Period Date and ending on (but excluding) the next succeeding Interest Period Date.

“**Interest Amount**” means the amount of interest payable and, in the case of Fixed Rate Loans, means the Fixed Amount or Broken Amount, as the case may be.

“**Interest Commencement Date**” means the Closing Date or such other date as may be specified in the relevant Loan Supplement.

“**Interest Determination Date**” means, with respect to a Rate of Interest and Interest Accrual Period, the date specified as such in the relevant Loan Supplement or, if none is so specified, (i) the first day of such Interest Accrual Period if the Loan Currency is Sterling or (ii) the day falling two Business Days in London and the Business Centre for the Loan Currency prior to the first day of such Interest Accrual Period if the Loan Currency is neither Sterling nor euro or (iii) the day falling two TARGET Business Days prior to the first day of such Interest Accrual Period if the Loan Currency is euro.

“**Interest Period**” means the period beginning on (and including) the Interest Commencement Date and ending on (but excluding) the first Interest Payment Date and each successive period beginning on (and including) an Interest Payment Date and ending on (but excluding) the next succeeding Interest Payment Date.

“**Interest Period Date**” means each Interest Payment Date unless otherwise specified in the relevant Loan Supplement.

“**ISDA Definitions**” means the 2006 ISDA Definitions, as published by the International Swaps and Derivatives Association, Inc., unless otherwise specified in the relevant Loan Supplement.

“**MOSPRIME**” means the reference rate determined by the National Foreign Exchange Association of the Russian Federation on the basis of offer rates for RUB deposits provided by certain active participants of the Russian money market to first tier Russian financial institutions.

“**Reference Banks**” means (a) in the case of a determination of LIBOR, the principal London office of four major banks in the London inter-bank market, (b) in the case of a determination of EURIBOR, the principal Euro-zone office of four major banks in the Euro-zone inter-bank market, (c) in the case of a determination of MOSPRIME, the principal Moscow office of four major banks in the Moscow inter-bank market, in each case as specified in the relevant Loan Supplement or failing that, as selected by the Calculation Agent.

“**Reference Rate**” means the rate specified as such in the relevant Loan Supplement.

“**Relevant Financial Centre**” means (a) if the Reference Rate is LIBOR, London, (b) if the Reference Rate is EURIBOR, Euro-zone or (c) if the Reference Rate is MOSPRIME, Moscow.

“**Relevant Screen Page**” means such page, section, caption, column or other part of a particular information service as may be specified in the relevant Loan Supplement.

“**Relevant Time**” means (a) 11:00 a.m. (London time) in the case of LIBOR, (b) 11:00 a.m. (Brussels time) in the case of EURIBOR or (c) 3:00 p.m. (Moscow time) in the case of MOSPRIME.

4.10 Calculation Agent

The Lender shall procure that there shall at all times be specified one or more Calculation Agents if provision is made for them hereon and for so long as any amount remains outstanding under a Loan Agreement. Where more than one Calculation Agent is appointed in respect of a Loan, references in the relevant Loan Agreement to the Calculation Agent shall be construed as each Calculation Agent performing its respective duties under the relevant Loan Agreement. If the Calculation Agent is unable or unwilling to act as such or if the Calculation Agent fails duly to establish the Rate of Interest for an Interest Period or Interest Accrual Period or to calculate any Interest Amount, or to comply with any other requirement, the Lender shall (with the prior approval of the Borrower) appoint a leading bank or investment banking firm engaged in the inter-bank market (or, if appropriate, money, swap or over-the-counter index options market) that is most closely connected with the calculation or determination to be made by the Calculation Agent (acting through its principal London office or any other office actively involved in such market) to act as such in its place. The Calculation Agent may not resign its duties without a successor having been appointed as aforesaid. Both the Borrower and the Lender agree that such successor Calculation Agent will be appointed on the terms of the Agency Agreement in relation to each particular Series.

5 Repayment and Prepayment

5.1 Repayment

Unless agreed otherwise herein and in the applicable Loan Supplement, the Borrower shall repay each Loan (other than a Swap Loan) not later than 10.00 a.m. one Business Day prior to the Repayment Date therefor and shall repay each Swap Loan not later than 10.00 a.m. two Business Days prior to the Repayment Date.

5.2 Special Prepayment for Tax Reasons or Change in Circumstances

If, as a result of the application of or any amendment or clarification to, or change (including a change in interpretation or application) in, the double tax treaty between the Russian Federation and Ireland or

the laws or regulations of the Russian Federation or Ireland or of any political sub-division thereof or any authority therein or the enforcement of the security provided for in any Trust Deed, the Borrower would thereby be required to make or increase any payment due pursuant to any Loan Agreement as provided in Clauses 6.2 or 6.3 (other than, in each case, where the increase in payment is in respect of any amounts due or paid pursuant to Clauses 3 and 13), or if (for whatever reason) the Borrower would have to or has been required to pay additional amounts pursuant to Clause 8, and such additional amounts cannot be avoided by the Borrower taking reasonable measures available to it, then the Borrower may (without premium or penalty), upon not less than 10 days' notice to the Lender (which notice shall be irrevocable), prepay the relevant Loan in whole (but not in part) on any Interest Payment Date, in the case of a Floating Rate Loan, or at any time, in the case of a Fixed Rate Loan.

5.3 Illegality

If, at any time after the date of the relevant Loan Supplement, by reason of the introduction of, or any change in, any applicable law or regulation or regulatory requirement or directive of any agency of any state the Lender reasonably determines (such determination being accompanied by an Opinion of Counsel with the cost of such Opinion of Counsel being borne solely by the Borrower) that it is or would be unlawful or contrary to such applicable law, regulation, regulatory requirement or directive for the Lender to allow all or part of the relevant Loan or the corresponding Series of Notes to remain outstanding or for the Lender to maintain or give effect to any of its obligations in connection with the relevant Loan Agreement and/or to charge or receive or to be paid interest at the rate then applicable to such Loan, then upon notice by the Lender to the Borrower in writing (setting out in reasonable detail the nature and extent of the relevant circumstances), the Borrower and the Lender shall consult in good faith as to a basis which eliminates the application of such circumstances; provided, however, that the Lender shall be under no obligation to continue such consultation if a basis has not been determined within 30 days of the date on which it so notified the Borrower. If such a basis has not been determined within the 30 days, then upon notice by the Lender to the Borrower in writing, the Borrower shall prepay such Loan in whole (but not in part) on the next Interest Payment Date therefor, in the case of a Floating Rate Loan, or, in the case of a Fixed Rate Loan, on such date as the Lender shall certify to be necessary to comply with such requirements, subject to the right of the Lender to require prepayment earlier than set out in this Clause 5.3 the extent that any applicable grace periods permitted by law would otherwise be exceeded.

5.4 Prepayment in the Event of Change of Control

5.4.1 If, following a Change of Control, any Noteholder has exercised its Change of Control Put Option, the Borrower shall, on the Change of Control Payment Date, prepay the principal amount of the relevant Loan in an amount which corresponds to the aggregate principal amount of the corresponding Series of Notes in relation to which the Change of Control Put Option has been duly exercised in accordance with the Conditions of such Series of Notes.

5.4.2 Promptly, and in any event within 10 calendar days after the date of any Change of Control, the Borrower shall deliver to the Lender a written notice in the form of an Officers' Certificate, which notice shall be irrevocable, stating that a Change of Control has occurred and stating the circumstances and relevant facts giving rise to such Change of Control.

5.4.3 The Lender shall notify the Borrower not more than three Business Days after receipt of notice thereof from the Paying Agent of the amount of each relevant Loan to be prepaid as a consequence of the exercise of the Change of Control Put Option by any Noteholders.

5.4.4 For the avoidance of doubt, this Clause 5.4 may be disappplied under the terms of the relevant Loan Supplement.

5.5 Optional Prepayment under Call Option

If Call Option is specified in the relevant Loan Supplement, the Borrower may, at its option at any time from the Call Option Commencement Date but prior to the Repayment Date on giving not less than 30 nor more than 60 calendar days' irrevocable notice to the Lender, in whole or in part, repay the Loan at the Early Redemption Amount. The notice to be given shall specify the date for repayment of the relevant Loan and the date for the redemption of the Notes (the "Call Redemption Date"), which shall

be the next following Business Day after the date for repayment of the relevant Loan. Immediately on receipt of such notice, the Lender shall forward it to the Noteholders, the Trustee and the Principal Paying Agent. The Loan shall be repaid on the date specified in such notice.

5.6 Optional Prepayment under Put Option

If a Put Option is specified in the relevant Loan Supplement, following notification from the Lender, the Borrower shall prepay the Loan (without premium or penalty), to the extent of the aggregate principal amount of the Notes to be properly redeemed in accordance with Condition 6 of the Conditions of the Notes, two Business Days prior to the Put Settlement Date.

5.7 Reduction of a Loan Upon Redemption and Cancellation of Notes

The Borrower or any Subsidiary of the Borrower may from time to time, in accordance with the Conditions of the Notes, purchase Notes in the open market or by tender or by a private agreement at any price. In the event that an amount of Notes has been surrendered to the Lender (as Issuer of such Notes) for cancellation by the Borrower or any of the Borrower's Subsidiaries and cancelled, the relevant Loan shall be deemed to have been prepaid by the Borrower in an amount corresponding to the aggregate principal amount of the Notes surrendered to the Lender for cancellation, together with accrued interest and other amounts (if any) thereon and no further payment shall be made or required to be made by the Borrower in respect of such amounts.

5.8 Payment of Other Amounts

5.8.1 If a Loan is to be prepaid by the Borrower pursuant to any of the provisions of Clauses 5.2, 5.3, 5.4, 5.6 or pursuant to the terms of the relevant Loan Agreement, the Borrower shall, simultaneously with such prepayment, pay to the Lender accrued interest thereon to the date of actual receipt of payment by the Lender and all other sums payable by the Borrower pursuant to the relevant Loan Agreement.

5.8.2 If, pursuant to Clauses 5.2 or 5.3, the Borrower elects to repay a Loan, it shall, on the date of prepayment, in addition to any amounts it is required to pay pursuant to sub-Clause 5.8.1 above, pay to the Lender by way of additional amounts a sum sufficient to ensure that the Lender is able to discharge in full its obligations under any relevant Swap Agreement and the Notes, in both cases (i) ignoring any limitation of the liability of the Lender to pay only sums actually received but treating all sums potentially payable by the Lender as due and (ii) treating any payment due by any Swap Counterparty but unpaid as of zero value.

5.9 Provisions Exclusive

The Borrower may not voluntarily prepay any Loan except in accordance with the express terms of the relevant Loan Agreement. Any amount prepaid may not be reborrowed under such Loan Agreement.

5.10 Ongoing Additional Interest Payments

If, at any time after the date of the relevant Loan Agreement, (i) the Lender is obliged to make additional payments to a Swap Counterparty pursuant to a relevant Swap Agreement or (ii) any applicable Swap Agreement is terminated for any reason (including due to a default by a Swap Counterparty or a novation entered into in accordance with any Swap Agreement), then the Borrower will (i) on any date on which a termination payment or other payment is due under any such Swap Agreement; (ii) on each Interest Payment Date; and (iii) on the Repayment Date, pay to the Lender, by way of additional interest, a sum, calculated up to the date of such payment, sufficient to ensure that the Lender is able to discharge in full its obligations under any such Swap Agreement and the Notes due on such date, ignoring any limitation of the liability of the Lender to pay only sums actually received but treating all sums potentially payable by the Lender as due and treating any payment due by any Swap Counterparty but unpaid as of zero value.

5.11 Interest Reimbursement

If, pursuant to Clauses 5.2 to 5.6 or 11.3, (i) a Loan is declared due and payable, any relevant Swap Agreement is terminated and the sum paid by the Borrower in repayment of such Loan is greater than the amount required by the Lender to discharge in full its obligations under any such relevant Swap Agreement and the Notes, or (ii) for any reason any relevant Swap Agreement is terminated and the relevant Swap Counterparty is required by the terms of any such Swap Agreement to make a termination payment to the Lender, the Lender shall return to the Borrower, or to its order, an amount, by way of a reimbursement of interest payable on such Loan, equal to such excess sum.

5.12 Currency of Payment

If applicable and in the event that (i) any payments in the Specified Currency as may be made by any Swap Counterparty under a relevant Swap Agreement on any date are insufficient to pay the amounts due and owing to the Noteholders on the relevant Interest Payment Date or Maturity Date in full (whether by reason of a Swap Counterparty default or otherwise), or (ii) any relevant Swap Agreement is terminated for any reason, the Borrower shall satisfy its obligations to make payments under the relevant Loan Agreement in whole or in part by the payment of amounts in the Specified Currency to the Notes Specified Currency Account (as defined in the relevant Supplemental Trust Deed).

5.13 No Prepayment due to Swap Agreements

The Borrower and the Lender agree that the Borrower may not prepay any Loan, including in exercise of its rights, or pursuant to its obligations under Clauses 5.2 and 5.3 hereof, due to any increased payment required to be made under the relevant Loan Agreement (whether under Clause 6.2, 6.3 or 8 or the relevant Loan Supplement or otherwise) by the Borrower in relation to any Swap Agreement nor shall it be entitled to prepay any Loan in the event of the termination (whether due to a Swap Counterparty default or otherwise) of the corresponding Swap Agreement.

6 Payments

6.1 Making of Payments

All payments of principal and interest to be made by the Borrower under each Loan Agreement shall, in each case unless otherwise agreed:

- (i) in the case of a Loan other than a Swap Loan, be made to the relevant Account of the Lender not later than 10.00 a.m. one Business Day prior to each Interest Payment Date or the Repayment Date (as the case may be) in Same-Day Funds; and
- (ii) in the case of a Swap Loan, be made to the relevant Account of the Lender not later than 10.00 a.m. two Business Days prior to each Interest Payment Date or the Repayment Date (as the case may be) in Same-Day Funds.

The Lender agrees with the Borrower that it will not deposit any other monies into such Account and will not withdraw any amounts from such Account other than as provided for and in accordance with the Trust Deed and the Agency Agreement.

6.2 No Set-Off, Counterclaim or Withholding; Gross-Up

All payments to be made by the Borrower under each Loan Agreement shall be made in full without set-off or counterclaim and (except to the extent required by law) free and clear of and without deduction for or on account of any Taxes. If the Borrower shall be required by applicable law to make any deduction or withholding from any payment under a Loan Agreement for or on account of any Taxes, it shall increase any payment due under such Loan Agreement to such amount as may be necessary to ensure that the Lender receives a net amount in the Loan Currency equal to the full amount which it would have received had payment not been made subject to such Taxes together with a sum (if any), calculated up to the date of such payment, sufficient to ensure that the Lender is able to discharge in full its obligations under such Loan Agreement due on such date, ignoring any limitation of the liability of the Lender to pay only sums actually received but treating all sums potentially

payable by the Lender as due and treating any payment due by any relevant Swap Counterparty but unpaid as of zero value, and shall account to the relevant authorities for the relevant amount of such Taxes so withheld or deducted within the time allowed for such payment under the applicable law and shall deliver to the Lender without undue delay evidence satisfactory to the Lender of such deduction or withholding and of the accounting therefor to the relevant taxing authority. If the Lender pays any amount in respect of such Taxes, the Borrower shall reimburse the Lender in the Loan Currency for such payment on demand. For the avoidance of doubt, this Clause 6.2 is without prejudice to the obligations of the Lender pursuant to Clauses 10.5.1 and 10.5.3.

6.3 Withholding on a Series of Notes

If the Lender notifies the Borrower (setting out in reasonable detail the nature and extent of the obligation with such evidence as the Borrower may reasonably require) that it has become obliged to make any withholding or deduction for or on account of any Taxes from any payment which it is obliged to make, or would otherwise be due but for the imposition of any such withholding or deduction for or on account of any such Taxes, in respect of a Series of Notes (including, if applicable, any Swap Agreement) in circumstances where the Lender, subject to receipt thereof, is required to pay additional amounts pursuant to Condition 8 or otherwise or in connection with its funding of any Loan or, if applicable, any Swap Agreement, the Borrower agrees to pay to the Lender, not later than 10.00 a.m. one Business Day (in the case of a Loan other than a Swap Loan) or two Business Days (in the case of a Swap Loan only), as the case may be, prior to the date on which payment from the Lender is due to the Noteholders of such Series or the relevant Swap Counterparty or such other party (as the case may be) in Same-Day Funds to the relevant Account, such additional amounts as are equal to the said additional amounts which the Lender must pay pursuant to Condition 8 or in connection with the funding of any Loan or, if applicable, any Swap Agreement. However, immediately upon receipt by the Lender of any sums paid pursuant to this provision, to the extent that the Noteholders of such Series or such other party, as the case may be, are not entitled to such additional amounts pursuant to the Conditions of such Series of Notes or, if applicable, any Swap Agreement, the Lender shall repay such additional amounts to the Borrower (it being understood that neither the Lender, nor the Principal Paying Agent, nor any Paying Agent shall have any obligation to determine whether any Noteholder of such Series or such other party is entitled to such additional amount).

6.4 Reimbursement

To the extent that the Lender subsequently obtains or uses any tax credit or allowance or other reimbursements relating to a deduction or withholding with respect to which the Borrower has made a payment pursuant to this Clause 6 or obtains any other reimbursement in connection therewith, it shall pay to the Borrower so much of the benefit received as will leave the Lender in exactly the same position as it would have been had no additional amount been required to be paid by the Borrower pursuant to this Clause 6; provided, however, that the question of whether any such benefit has been received and, accordingly, whether any payment should be made to the Borrower, the amount of any such payment and the timing of any such payment shall be determined solely by the Lender. The Lender shall have absolute discretion whether, and in what order and manner, it claims any credits or refunds available to the Lender but shall not be obliged to disclose to the Borrower any information regarding its tax affairs or computations provided that the Lender shall notify the Borrower of any tax credit or allowance or other reimbursement it receives.

If as a result of a failure to obtain relief from deduction or withholding of any tax imposed by the Russian Federation or Ireland (i) such tax is deducted or withheld by the Borrower and pursuant to this Clause 6 an increased amount is paid by the Borrower to the Lender in respect of such deduction or withholding and (ii) following the deduction or withholding of tax as referred to above the Lender (upon instructions by the Borrower) applies to the relevant Russian or Irish tax authorities for a tax refund and such tax refund is credited by the Russian or Irish tax authorities to a bank account of the Lender, the Lender shall as soon as reasonably possible notify the Borrower of the receipt of such tax refund and (upon instructions by the Borrower) promptly transfer the entire amount of the tax refund to a bank account of the Borrower specified for that purpose by the Borrower.

6.5 Mitigation

If at any time either party hereto becomes aware of circumstances which would or might, then or thereafter, give rise to an obligation on the part of the Borrower to make any deduction, withholding or payment as described in Clauses 6.2 or 6.3, then, without in any way limiting, reducing or otherwise qualifying the Lender's rights, or the Borrower's obligations, under such Clauses, such party shall promptly upon becoming aware of such circumstances notify the other party, and thereupon the parties shall consider and consult with each other in good faith with a view to finding, agreeing upon and implementing a method or methods by which any such obligation may be avoided or mitigated and, to the extent that both parties can do so without taking any action which in the reasonable opinion of such party is prejudicial to its own position, take such reasonable steps as may be reasonably available to it to avoid such obligation or mitigate the effect of such circumstances. The Borrower agrees to reimburse the Lender for all properly documented costs and expenses (including but not limited to legal fees) reasonably incurred by the Lender in connection with this Clause.

7 Conditions Precedent

The obligation of the Lender to make each Loan shall be subject to the conditions precedent that as of the relevant Closing Date (a) the Lender shall have received the full amount of the proceeds of the issue of the corresponding Series of Notes pursuant to the relevant Subscription Agreement, (b) if applicable, performed its obligations to be performed on or before the relevant Closing Date under any relevant Swap Agreement and (c) the Lender shall have received in full the amount referred to in sub-Clause 3.2 and 3.4, if due and payable, above, as specified in the relevant Loan Supplement.

8 Change in Law or Increase in Cost

8.1 Compensation

In the event that after the date of a Loan Agreement there is any change in or introduction of any tax, law, regulation, regulatory requirement or official directive (whether or not having the force of law but, if not having the force of law, the observance of which is in accordance with the generally accepted financial practice of financial institutions in the country concerned) or in the interpretation or application thereof by any person charged with the administration thereof, which:

- 8.1.1** subjects or will subject the Lender to any Taxes with respect to payments of principal of or interest on such Loan or any other amount payable under such Loan Agreement or, if applicable, any Swap Agreement (other than any Taxes payable by the Lender on its overall net income or any Taxes referred to in Clauses 6.2 or 6.3); or
- 8.1.2** increases or will increase the taxation of or changes or will change the basis of taxation of payments to the Lender of principal of or interest on such Loan or any other amount payable under such Loan Agreement or, if applicable, any Swap Agreement (other than any such increase or change which arises by reason of any increase in the rate of tax payable by the Lender on its overall net income or as a result of any Taxes referred to in Clauses 6.2 or 6.3); or
- 8.1.3** imposes or will impose on the Lender any other condition affecting such Loan Agreement or such Loan or, if applicable, any Swap Agreement,

and, if as a result of any of the foregoing:

- (i) the cost to the Lender of making, funding or maintaining such Loan or, if applicable, any Swap Agreement is increased; or
- (ii) the amount of principal, interest or other amount payable to or received by the Lender under such Loan Agreement or, if applicable, any Swap Agreement is reduced; or
- (iii) the Lender makes any payment or foregoes any interest or other return on or calculated by reference to the gross amount of any sum receivable by it from the

Borrower hereunder or makes any payment or foregoes any interest or other return on or calculated by reference to the gross amount of such Loan or, if applicable, any Swap Agreement, then subject to the following, and in each such case:

- (a) the Lender shall, as soon as practicable after becoming aware of such increased cost, reduced amount or payment made or foregone, give written notice to the Borrower, together with a certificate signed by an authorised signatory of the Lender describing in reasonable detail the introduction or change or request which has occurred and the country or jurisdiction concerned and the nature and date thereof and describing the connection between such introduction, change or request and such increased cost, reduced amount or payment made or foregone, and setting out in reasonable detail the basis on which such amount has been calculated, and providing all relevant reasonable supporting documents describing such matters; and
- (b) the Borrower, in the case of sub-clauses (i) and (iii) above, shall, on demand by the Lender, pay to the Lender such additional amount as shall be necessary to compensate the Lender for such increased cost, and, in the case of clause (ii) above, at the time the amount so reduced would otherwise have been payable, pay to the Lender such additional amount as shall be necessary to compensate the Lender for such reduction, payment or foregone interest or other return,

provided that this Clause 8.1 will not apply to or in respect of any matter for which the Lender has already been compensated under Clauses 6.2 or 6.3.

8.2 Mitigation

In the event that the Lender becomes aware it is entitled (having exercised due care) to make a claim pursuant to Clause 8.1 the Lender shall consult in good faith with the Borrower and shall use reasonable efforts (based on the Lender's reasonable interpretation of any relevant tax, law, regulation, requirement, official directive, request, policy or guideline) to reduce, in whole or in part, the Borrower's obligations to pay any additional amount pursuant to such Clause, except that nothing in this Clause 8.2 shall obligate the Lender to incur any costs or expenses in taking any action hereunder unless the Borrower agrees to reimburse the Lender such costs or expenses.

9 Representations and Warranties

9.1 The Borrower's Representations and Warranties

The Borrower does, and on each Warranty Date (unless expressly stated otherwise) shall be deemed to, represent and warrant to the Lender as follows, to the intent that such shall form the basis for the Loan Agreement for a Series of Notes:

9.1.1 The Borrower is duly organised and incorporated and validly existing under the laws of the Russian Federation as a legal entity and each of its Principal Subsidiaries is duly organised and incorporated and validly existing under the laws of its respective jurisdiction of incorporation; the Borrower and each of its Principal Subsidiaries has the power and legal right to own its respective property and to conduct its business as currently conducted, except where the failure to do so would not have a Material Adverse Effect; the Borrower has the power and legal right to enter into and to perform its obligations under each Loan Agreement and to borrow Loans; the Borrower has taken all necessary corporate, legal and other action required to authorise the borrowing of Loans on the terms and subject to the conditions of each Loan Agreement and to authorise the execution and delivery of each Loan Agreement and all other documents to be executed and delivered by it in connection with each Loan Agreement, and the performance of each Loan Agreement in accordance with its terms.

9.1.2 The Borrower is a state corporation established and existing according to the Law on the Bank for Development and the Law on Non-Commercial Organisations, entitled to carry out banking operations under applicable Russian laws and is in full compliance with the

mandatory economic ratios imposed by the Borrower's supervisory board and/or its applicable regulatory authorities.

- 9.1.3** The Loan Agreement, including each Loan Supplement in relation thereto, has been duly executed and delivered by the Borrower and constitutes a legal, valid and binding obligation of the Borrower enforceable in accordance with its terms, subject to applicable bankruptcy, insolvency, moratorium and similar laws affecting creditor's rights generally, and subject, as to enforceability, (i) to general principles of equity (regardless of whether enforcement is sought in a proceeding in equity or at law); (ii) with respect to the enforceability of a judgment whether there is a federal law or a treaty in force relating to the mutual recognition of foreign judgments; and (iii) to the fact that some concepts of English law are not recognised under Russian law and may not be enforceable.
- 9.1.4** The execution, delivery and performance of each Loan Agreement, including each Loan Supplement in relation thereto, by the Borrower will not conflict with or result in any breach or violation of (i) any law or regulation or any order of any governmental, judicial or public body or authority in the Russian Federation applicable to the Borrower including, without limitation, the Memorandum of Financial Policy of the Borrower as well as the rules and regulations of the Borrower; (ii) the constitutive documents, rules and regulations of any of the Principal Subsidiaries; or (iii) (to the extent that such conflict, breach or violation would have a Material Adverse Effect) any agreement or other undertaking or instrument to which the Borrower or any of its Principal Subsidiaries is a party or which is binding upon the Borrower or any of its Principal Subsidiaries or any of their assets, nor result in the creation or imposition of any Encumbrance on any of their assets pursuant to the provisions of any such agreement or other undertaking or instrument.
- 9.1.5** All consents, authorisations or approvals of, or filings with, any governmental, judicial or public bodies or authorities of the Russian Federation required by the Borrower in connection with the execution, delivery, performance, legality, validity, enforceability, and, subject to Russian legal requirements, admissibility in evidence of each Loan Agreement have been obtained or effected and are in full force and effect other than, in each case, such consents, authorisations or approvals or filings required which may only be obtained after the date of any Loan Agreement which, where appropriate, the Borrower covenants that it will obtain promptly thereafter.
- 9.1.6** To the knowledge of the Borrower, having made proper enquiries, no event has occurred that constitutes, or that, with the giving of notice or the lapse of time, or both, would constitute, an Event of Default or a default under any agreement or instrument evidencing any Financial Indebtedness of the Borrower or any of its Principal Subsidiaries, as the case may be, and no such event will occur upon the making of the relevant Loan.
- 9.1.7** Except as disclosed in the Base Prospectus and/or the relevant Series Prospectus, if applicable, there are no judicial, arbitral or administrative actions, proceedings or claims pending or, to the knowledge of the Borrower, threatened against the Borrower or any of its Principal Subsidiaries, the adverse determination of which could reasonably be expected to have a Material Adverse Effect.
- 9.1.8** The Borrower and each of its Principal Subsidiaries has the right of ownership (as that expression is defined under the laws of the Russian Federation or the laws of the jurisdiction of such Principal Subsidiary) or other legal and valid title to its property free and clear of all Encumbrances (other than Encumbrances not prohibited under Clause 10.1 (Negative Pledge)) which if existing would have a Material Adverse Effect and the Borrower's obligations under the Loans will rank at least *pari passu* with all its other unsecured and unsubordinated Financial Indebtedness (apart from any obligations mandatorily preferred by law).
- 9.1.9** The most recent audited consolidated financial statements of the Borrower:
- (i) were prepared in accordance with IFRS, as consistently applied; and

- (ii) save as disclosed therein, present fairly in all material respects the assets and liabilities as at that date and the results of operations of the Group as at the dates and in respect of the periods for which they were prepared.
- 9.1.10** Except as disclosed in the Base Prospectus and/or the relevant Series Prospectus, if applicable, there has been no material adverse change since the date of the last audited consolidated financial statements of the Borrower in the financial condition, results of business operations or prospects of the Borrower or the Group taken as a whole.
- 9.1.11** Under the laws of the Russian Federation it is not necessary that any Loan Agreement be filed, recorded or enrolled with any court or other authority in that jurisdiction and the execution, delivery and enforceability of each Loan Agreement is not subject to any tax, duty, fee or other charge, including, without limitation, any registration or transfer tax, stamp duty or similar levy, imposed by or within the Russian Federation or any political subdivision or taxing authority thereof or therein (other than state duty paid on any claim filed with a Russian court).
- 9.1.12** Neither the Borrower nor its property has any right of immunity from suit, execution, attachment or other legal process on the grounds of sovereignty or otherwise in respect of any action or proceeding relating in any way to each Loan Agreement.
- 9.1.13** Its execution of each Loan Agreement will constitute, and its exercise of its rights and performance of its obligations thereunder will constitute, private and commercial acts done and performed for private and commercial purposes.
- 9.1.14** The Borrower is in compliance with all laws and regulations applicable or relevant to it, except where failure to be so in compliance would not have a Material Adverse Effect.
- 9.1.15** Without any limitations to the statements set out in Clause 9.1.14 above, the Borrower is in compliance with the provisions of the Memorandum on Financial Policy of Borrower (as amended from time to time), regulations on management bodies of the Borrower (as amended from time to time) and other internal documents or by-laws of the Borrower (as amended from time to time).
- 9.1.16** The currency operations under and in connection with each Loan Agreement and the transactions contemplated thereby can be carried out by it freely without any restriction.
- 9.1.17** The Borrower is not subject to any economic normatives or other financial requirements established by the CBR with respect to credit institutions generally.
- 9.1.18** Neither the Borrower nor any of its Principal Subsidiaries:
 - (i) is unable or has admitted its inability to pay its debts as they fall due, or, by reason of actual or anticipated financial difficulties, has suspended making payments on any of its debts or commenced negotiations with one or more of its creditors with a view to rescheduling any of its indebtedness; or
 - (ii) has taken any action nor to the Borrower's knowledge have any other steps been taken by any other party or legal proceedings been started or, to the Borrower's knowledge, threatened in writing against the Borrower or any of its Principal Subsidiaries that could result in:
 - (A) revocation of the general banking licence of (a) any Principal Subsidiary or (b) the Borrower, if it obtains such licence;
 - (B) a law or regulation which orders the Borrower to cease all or a material part of its banking operations being enacted;
 - (C) any Principal Subsidiary seeking or consenting to the introduction of proceedings for its liquidation or the appointment of a liquidation committee

(*likvidatsionnaya komissiya*) or a similar officer of such Principal Subsidiary or any analogous procedure or event in any other relevant jurisdiction;

- (D) the institution of the supervision (*nablyudeniye*), financial rehabilitation (*finansovoye ozdorovlenie*), external administration (*vneshnee upravlenie*), bankruptcy management (*konkursnoye proizvodstvo*) of any Principal Subsidiary that is not a credit organisation or where such Principal Subsidiary enters into a settlement agreement (*mirovoye soglashenie*) with its bankruptcy creditors, as such terms are defined in the Federal Law of Russia No. 127-FZ “On Insolvency (Bankruptcy)” of 26 October 2002 (as amended or replaced from time to time) or any analogous procedure or event in any other relevant jurisdiction;
- (E) the institution of the financial rehabilitation (*finansovoye ozdorovleniye*), temporary administration (*vremennaya administratsiya*), bankruptcy management (*konkursnoye proizvodstvo*) or insolvent reorganisation (*reorganizatsiya*) with respect to any Principal Subsidiary that is a credit organisation, as such terms are defined in the Federal Law of the Russian Federation No. 40-FZ “On Insolvency (Bankruptcy) of Credit Organisations” dated 25 February 1999 (as amended or replaced from time to time), the commencement of any bankruptcy prevention measures by the Deposit Insurance Agency pursuant to the Federal Law of the Russian Federation No.175-FZ “On Additional Measures for Strengthening Stability of the Russian Banking System until 31 December 2011” dated 27 October 2008 (as amended or replaced from time to time) with respect to any Principal Subsidiary or any analogous procedure or event in any other relevant jurisdiction;
- (F) the initiation of proceedings in relation to the Borrower aimed at its reorganisation or liquidation or the commencement of any bankruptcy or analogous proceedings against the Borrower;
- (G) any judicial liquidation, dissolution, administration or winding-up in respect of the Borrower or any Principal Subsidiary; or
- (H) the Government of the Russian Federation or the shareholders of the Borrower or any Principal Subsidiary, as the case may be, approving any plan of dissolution, administration or winding-up of the Borrower or such Principal Subsidiary,

it being noted that in respect to all of the foregoing, the reorganisation, liquidation or commencement of analogous proceedings against the Borrower may only occur following an amendment to the law or the enactment of a new law; or

- (iii) has had any of its material assets expropriated, attached, sequestered, distressed or executed unless such expropriation, attachment, sequestration, distress or execution (i) was discharged or stayed within 20 Business Days or (ii) would not have a Material Adverse Effect

9.1.19 There are no strikes or other employment disputes against the Borrower which are pending or, to the knowledge of the Borrower’s Management Board, threatened in writing which could reasonably be expected have a Material Adverse Effect.

9.1.20 Except as disclosed in the Base Prospectus and/or the relevant Series Prospectus, in any proceedings taken in the Russian Federation in relation to each Loan Agreement, the choice of English law as the governing law of each Loan Agreement and any arbitration award obtained in England pursuant to Clause 14.10.1 in relation to each Loan Agreement will be recognised and enforced in the Russian Federation after compliance with the applicable procedural rules

and all other legal requirements in Russia subject to any restrictions that apply by mandatory application of Russian laws.

- 9.1.21** As of the date of the Loan Supplement and the Closing Date (though not on any of the other dates included in the definition of Warranty Date) and subject to Clause 10.6.1, under the laws of the Russian Federation, it will not be required to make any deduction or withholding from any payment it may make hereunder.
- 9.1.22** It has no overdue tax liabilities which could have a Material Adverse Effect other than those which it has disclosed to the Lender prior to the date of the relevant Loan or which it is contesting in good faith.
- 9.1.23** All licences, consents, examinations, clearances, filings, registrations and authorisations which are necessary to enable each of the Borrower and its Principal Subsidiaries to own its assets and carry on its business:
- (i) are in full force and effect, save to the extent that those that are not would not have a Material Adverse Effect; and
 - (ii) will not be revoked or otherwise terminated, save to the extent that such revocation or termination would not have Material Adverse Effect,

and each of the Borrower and its Principal Subsidiaries has not received notice of any event or circumstance which might be expected to materially adversely affect its right to hold and/or obtain renewal of all such licences, consents, examinations, clearances, filings, registrations and authorisations and/or to obtain any new licences, consents, examinations, clearances, filings, registrations and authorisations which will be required to enable it to carry on its business or that of its Principal Subsidiaries.

- 9.1.24** The execution of a Loan Agreement and the performance of the obligations thereunder by the Borrower serve the objectives of the Borrower's operations specified in the Law on the Bank for Development (the "Permitted Objectives"), accord to such Permitted Objectives and, accordingly, any assets, including, without limitation, any funds, obtained by the Borrower pursuant to a Loan Agreement will be appropriated towards achievement of the Permitted Objectives.

9.2 Lender's Representations and Warranties

The Lender does and on each Warranty Date (unless expressly stated otherwise) shall be deemed to, represent and warrant to the Borrower as follows, to the intent that such shall form the basis for the Loan Agreement for a Series of Notes:

- 9.2.1** The Lender is duly incorporated under the laws of Ireland and has full power and capacity to execute the Lender Agreements and to undertake and perform the obligations expressed to be assumed by it herein and therein and the Lender has taken all necessary action to approve and authorise the same.
- 9.2.2** The execution of the Lender Agreements and the undertaking and performance by the Lender of the obligations expressed to be assumed by it herein and therein will not conflict with, or result in a breach of or default under, the laws of Ireland or the constitutive documents, rules and regulations of the Lender or any agreement or instrument to which it is a party or by which it is bound or in respect of indebtedness in relation to which it is a surety.
- 9.2.3** The Lender (i) is a company duly incorporated under Irish law which at the date hereof is resident for Irish taxation purposes in Ireland, is subject to taxation in Ireland on the basis of its registration as a legal entity, location of its management body or another similar criterion and it is not subject to taxation in Ireland merely on income from sources in Ireland or connected with property located in Ireland, and (ii) save for any that may be created as a result of entering into this Agreement and the transactions contemplated herein, it does not have a permanent establishment in Russia.

9.2.4 The Lender Agreements constitute legal, valid and binding obligations of the Lender.

9.2.5 All Irish authorisations, consents and approvals required by the Lender for or in connection with the execution of the Lender Agreements and the performance by the Lender of the obligations expressed to be undertaken by it herein and therein have been obtained and are in full force and effect.

10 Covenants

So long as any amount remains outstanding under a Loan Agreement:

10.1 Negative Pledge

Neither the Borrower nor any of its Principal Subsidiaries will create or permit to subsist any Encumbrance (other than an Encumbrance upon, or with respect to, any present or future assets or revenues or any part thereof which is created pursuant to any securitisation, asset-backed financing or like arrangement and whereby all payment obligations secured by such Encumbrance, or having the benefit of such Encumbrance, are to be discharged solely from such assets or revenues, provided that such Encumbrances shall not be incurred if that would result in the principal amount of such encumbered Relevant Indebtedness exceeding 15 per cent. of the total assets of the Borrower and its Subsidiaries on a consolidated bases (as reported in the most recent audited consolidated financial statements of the Borrower)) upon or in respect of any of its undertakings, property, income, assets or revenues, present or future, to secure any Relevant Indebtedness unless, at the same time or prior thereto, the Borrower's obligations hereunder are to the satisfaction of the Trustee secured equally and rateably therewith or benefit from such other security or other arrangements, as the case may be, to the satisfaction of the Trustee.

10.2 Maintenance of Authorisations

The Borrower shall take all necessary action to obtain, and do or cause to be done all actions reasonably necessary to ensure the continuance of, all consents, licences, approvals and authorisations, and make or cause to be made all registrations, recordings and filings, which may at any time be required to be obtained or made in the Russian Federation for the execution, delivery or performance of this Agreement and each Loan Agreement or for the validity or enforceability hereof or thereof.

10.3 Disposals

- (a) The Borrower shall not (and shall ensure that no Principal Subsidiary shall) enter into a single transaction or a series of transactions (whether related or not and whether voluntary or involuntary) to sell, lease, transfer or otherwise dispose of any of its respective assets.
- (b) Paragraph (a) above does not apply to any sale, lease, transfer or other disposal:
 - (i) made at arm's-length and in the ordinary course of business of the disposing entity;
 - (ii) of assets in exchange for other assets comparable or superior as to type, value and quality;
 - (iii) made by a Principal Subsidiary to either the Borrower or another Principal Subsidiary or to another Subsidiary that prior to or upon such sale, lease, transfer or other disposal becomes a Principal Subsidiary;
 - (iv) which would not otherwise have a Material Adverse Effect; or
 - (v) which is specifically required by the laws of the Russian Federation as they apply to the Borrower.

10.4 Maintenance of Capital Adequacy

The Borrower shall ensure that neither it nor any Principal Subsidiary which carries on a banking business (other than with respect to any such Principal Subsidiary acquired by the Borrower after 24 June 2010 directly or indirectly pursuant to the Borrower's role in stabilising the Russian banking system, for the period of one year from the date of any such acquisition) shall permit its total capital ratio to fall below the minimum total capital ratio required by, in the case of the Borrower, regulations implemented in accordance with the Memorandum on Financial Policy of the Borrower and, in the case of any other such Principal Subsidiary, the relevant banking authority responsible for setting and/or supervising capital adequacy requirements for financial institutions in the jurisdiction in which such other Principal Subsidiary carries on its banking business (including, without limitation, any requirement of the CBR), such calculation to be made by reference to, in the case of the Borrower, the latest annual non-consolidated audited accounts of the Borrower prepared in accordance with Russian legislation and, in the case of each such Principal Subsidiary, the latest annual non-consolidated audited accounts of such Principal Subsidiary or, if such Principal Subsidiary does not prepare audited accounts, the latest annual non-consolidated unaudited accounts of such Principal Subsidiary (in either case as prepared under the accounting regulations used to calculate its capital adequacy in the relevant jurisdictions) provided that, should the Borrower or any other Principal Subsidiary carry on a banking business in more than one jurisdiction, it shall not permit its total capital ratio to fall below the minimum capital ratio required by the relevant banking authority responsible for setting and/or supervising capital adequacy requirements for financial institutions in each such jurisdiction.

10.5 Merger or Acquisition

The Borrower shall (i) not enter into any reorganisation (by way of a merger, accession, division, separation or transformation, or other bases or procedures for reorganisation contemplated or as may be contemplated from time to time by Russian legislation as these terms are construed by applicable Russian legislation); and (ii) ensure that no Principal Subsidiary enters into any reorganisation (whether by way of a merger, accession, division, separation or transformation as these terms are construed by applicable legislation) if, in the case of (i) or (ii) above, any such reorganisation or other type of corporate reconstruction could reasonably be expected to result in a Material Adverse Effect, unless the surviving entity will be the Borrower or, if different, the surviving entity will succeed to and fully assume the obligations of the Borrower under this Agreement and all other related documents.

10.6 Withholding Tax Exemption

10.6.1 The Lender shall use its reasonable endeavours to provide the Borrower no later than 10 Business Days before the first Interest Payment Date with respect to the first Loan made pursuant to this Agreement (and thereafter, using its reasonable endeavours, as soon as possible at the beginning of each calendar year but in any event by 16 January each year) with a certificate, issued and certified by the competent Irish authorities, confirming that the Lender is tax resident in Ireland, provided that the Lender shall not be liable for any failure to provide, or any delays in providing, such residency certificate as a result of any action or inaction of the competent Irish authorities, but shall notify the Borrower without delay about any such failure or delay with a written description of the actions taken by the Lender to obtain such residency certificate. Such certificate shall be appropriately apostilled.

10.6.2 The Borrower and the Lender (each using its reasonable endeavours and in accordance with law) agree that, should the Russian legislation regulating the procedure for obtaining an exemption from Russian income tax withholding or the interpretation thereof by the relevant competent authority change then the procedure referred to in Clause 10.6.1 will be deemed changed accordingly.

10.6.3 The Lender shall within 30 days of the request of the Borrower (to the extent it is able to do so under applicable law including Russian laws) deliver to the Borrower such other information or forms to be duly completed and delivered as may be needed to obtain a tax refund if a relief from deduction or withholding of Russian Taxes has not been obtained. If required, the other forms referred to in this Clause 10.6.3 shall be duly signed by the Lender and stamped or otherwise approved by the competent tax authority in Ireland and any requisite power of attorney issued by the Lender to the Borrower shall be duly signed and apostilled or otherwise

legalised. The Lender shall provide the Borrower with all assistance it may reasonably require to ensure that the Borrower can deliver to the tax authorities the information or forms specified in this Clause 10.6.3. The Borrower shall indemnify the Lender for all out-of-pocket costs and expenses incurred by the Lender as a result of steps undertaken pursuant to this Clause 10.6.3. The Lender shall not be obligated to take any step under this sub-Clause 10.6.3 if, in the reasonable opinion of the Lender, to do so would be prejudicial to it (other than the incurrence of costs and expenses of an administrative nature).

10.7 Reports

- 10.7.1** The Borrower will furnish to the Lender commencing with the year ending 2010, within nine months of the relevant year-end, a copy of its annual audited consolidated financial statements prepared in accordance with IFRS as consistently applied and in English, including a report thereon by the Borrower's certified independent accountants.
- 10.7.2** Within 30 calendar days of the close of each calendar quarter and within seven Business Days of any request by the Lender or the Trustee, the Borrower shall deliver to the Lender and the Trustee an Officers' Certificate, substantially in the form attached as Schedule 2, stating whether, to the knowledge of the Borrower, after due enquiry, any Potential Event of Default or Event of Default has occurred and, if it has occurred, what action the Borrower is taking or proposes to take with respect thereto.
- 10.7.3** The Borrower will on request of the Lender provide the Lender with such further information, other than information which the Borrower determines in good faith to be confidential, about the business and financial condition of the Borrower and its Subsidiaries as the Lender may reasonably request (including information referred to in Clauses 14.5 and 14.12 of the Principal Trust Deed).
- 10.7.4** The Borrower consents that any information provided to the Lender pursuant to this Clause 10.7 and Clause 5.4 may also be provided to the Trustee without violating any duty of confidentiality or secrecy that the Lender may owe to the Borrower under the laws of Ireland.
- 10.7.5** The Borrower will, at the same time as delivering its annual audited consolidated financial statements pursuant to Clause 10.7.1 and within 30 days of a request from the Lender, deliver to the Lender an Officers' Certificate specifying those Subsidiaries which were, at a date no more than 10 days before the date of such Officers' Certificate, Principal Subsidiaries.
- 10.7.6** Within 30 calendar days of any request by the Lender, the Borrower shall provide an Officers' Certificate to the Lender setting out in reasonable detail the book value of any asset disposed of under sub-paragraph (iv) of Clause 10.3(b) and, within 60 calendar days of any request by the Lender, the Borrower shall provide an Officers' Certificate to the Lender setting out in reasonable detail the book value of all the Borrower's assets (calculated on a non-consolidated basis and in accordance with IFRS).
- 10.7.7** Delivery of such reports, information and documents to the Lender is for informational purposes only and the Lender's receipt thereof shall not constitute constructive notice of any information contained therein or determinable from information contained therein, including the Borrower's compliance with any of their respective covenants hereunder (as to which the Lender and the Trustee is entitled to rely exclusively on Officers' Certificates).

10.8 Further Instruments and Acts

Upon request of the Lender or the Trustee, the Borrower shall execute and deliver such further instruments and do such further acts as may be reasonably necessary to carry out more effectively the purpose of this Agreement.

10.9 Officers' Certificates

- 10.9.1** Following the occurrence of any matter or event specified in this Agreement where this Agreement provides for a determination of whether such matter or event has or will have a

Material Adverse Effect, the Borrower shall provide the Lender (with a copy to the Trustee) with an Officers' Certificate certifying whether such matter or event has or will have a Material Adverse Effect and setting out such additional information as may be required to support such determination. The Lender and the Trustee shall each be entitled to rely solely on an Officers' Certificate from the Borrower, certifying whether or not such matter has or will have a Material Adverse Effect without liability to the Noteholders or any other person for so doing.

- 10.9.2** The Borrower shall deliver within 14 days of any written request by the Trustee an Officers' Certificate addressed to the Trustee and to the Lender as to any fact or matter prima facie within the knowledge of the Borrower as sufficient evidence thereof and a like certificate to the effect that any particular dealing or transaction or step or thing is expedient, in the opinion of the person so certifying, shall be sufficient evidence that such dealing, transaction, step or thing is expedient and the Trustee shall not be bound in any such case to call for further evidence or be responsible for any loss that may be occasioned by its failing to do so.
- 10.9.3** Notes held by the Borrower: Upon being requested in writing by the Lender or the Trustee, the Borrower shall deliver to the Lender and to the Trustee an Officers' Certificate of the Borrower setting out the total principal amount of Notes which, at the date of such certificate, are held by any person (including, but not limited to, the Borrower, the Lender or any of their respective Subsidiaries) for the benefit of the Borrower or any Subsidiary of the Borrower.
- 10.9.4** Verification: Neither the Lender nor the Trustee shall be under any obligation to verify the authenticity of any Officers' Certificate or any other certificate received by it or be responsible for determining the existence of any Event of Default or Potential Event of Default. The Lender and the Trustee shall each be at liberty to accept any aforementioned Officers' Certificate as sufficient evidence of any fact or matter stated in such Officers' Certificate and neither the Lender nor the Trustee shall be bound to call for further evidence or be responsible for any loss that may be occasioned by acting on such Officers' Certificate or selection or failure to determine the existence of any Event of Default or Potential Event of Default or whether any matter shall have a Material Adverse Effect.

11 Events of Default

11.1 Events of Default

If one or more of the following events of default (each, an "Event of Default") shall occur, the Lender shall be entitled to the remedies set forth in Clause 11.3:

- 11.1.1** The Borrower fails to pay within five Business Days any amount payable under a Loan Agreement as and when such amount becomes payable in the currency and in the manner specified therein.
- 11.1.2** The Borrower fails to perform or observe any of its other obligations under a Loan Agreement and (except where in any such case that failure is not capable of remedy when no such notice as is hereinafter mentioned will be required) that failure continues for the period of 30 calendar days (or such longer period as the Lender may permit) next following the submission by the Lender to the Borrower of notice in writing requesting the same to be remedied.
- 11.1.3** (i) The Borrower or any Principal Subsidiary fails to pay any of its Financial Indebtedness as and when such Financial Indebtedness becomes payable, taking into account any applicable grace period; or (ii) any Financial Indebtedness becomes due and payable prior to its stated maturity otherwise than at the option of the Borrower or such Principal Subsidiary or (provided that no event of default, howsoever described, has occurred) any person or entity entitled to such Financial Indebtedness; provided that the total amount of such Financial Indebtedness unpaid or becoming due and payable exceeds U.S.\$100,000,000 (or its equivalent in another currency).
- 11.1.4** The Borrower or any Principal Subsidiary commences negotiations with its creditors generally with a view to the general readjustment or rescheduling of its Financial Indebtedness or makes

a general assignment for the benefit of or a composition with its creditors generally; provided that in the case of a Principal Subsidiary the same could have a Material Adverse Effect.

11.1.5 The occurrence of any of the following events:

- (i) the Borrower or any Principal Subsidiary fails or is unable to pay its debts generally as they become due;
- (ii) revocation of the general banking licence, other licences, consents, examinations, clearances, filings, registrations and authorisations necessary for the carrying on of the business of (a) any Principal Subsidiary or (b) the Borrower, if it obtains such licence; in any such case (other than with respect to a general banking licence obtained by the Borrower) resulting in a Material Adverse Effect.
- (iii) a law or regulation ordering the Borrower to cease all or a material part of the banking operations it conducted at the date of a Loan Agreement has officially been published and is due to come into force;
- (iv) any Principal Subsidiary seeking or consenting to the introduction of proceedings for its liquidation or the appointment of a liquidation committee (*likvidatsionnaya komissiya*) or a similar officer of such Principal Subsidiary or any analogous procedure or event in any other relevant jurisdiction;
- (v) the institution of the supervision (*nablyudeniye*), financial rehabilitation (*finansovoye ozdorovlenie*), external administration (*vneshnee upravlenie*), bankruptcy management (*konkursnoye proizvodstvo*) of any Principal Subsidiary that is not a credit organisation or where such Principal Subsidiary enters into a settlement agreement (*mirovoye soglasenie*) with its bankruptcy creditors, as such terms are defined in the Federal Law of Russia No. 127-FZ “On Insolvency (Bankruptcy)” of 26 October 2002 (as amended or replaced from time to time) or any analogous procedure or event in any other relevant jurisdiction;
- (vi) the institution of the financial rehabilitation (*finansovoye ozdorovleniye*), temporary administration (*vremennaya administratsiya*), bankruptcy management (*konkursnoye proizvodstvo*) or insolvent reorganisation (*reorganizatsiya*) with respect to any Principal Subsidiary, as such terms are defined in the Federal Law of the Russian Federation No. 40-FZ “On Insolvency (Bankruptcy) of Credit Organisations” dated 25 February 1999 (as amended or replaced from time to time), the commencement of any bankruptcy prevention measures by the Deposit Insurance Agency pursuant to the Federal Law of the Russian Federation No.175-FZ “On Additional Measures for Strengthening Stability of the Russian Banking System until 31 December 2011” dated 27 October 2008 (as amended or replaced from time to time) with respect to any Principal Subsidiary or any analogous procedure or event in any other relevant jurisdiction;
- (vii) the initiation of proceedings in relation to the Borrower aimed at its reorganisation or liquidation or the commencement of any bankruptcy or analogous proceedings against the Borrower;
- (viii) any judicial liquidation, dissolution, administration or winding-up in respect of the Borrower or any Principal Subsidiary;
- (ix) the Government of the Russian Federation or the shareholders of the Borrower or any Principal Subsidiary, as the case may be, approving any plan of dissolution, administration or winding-up of the Borrower or such Principal Subsidiary; or
- (x) a moratorium is declared or de facto comes into effect on the payment of interest or repayment of principal on international debts of Russian residents generally or a class of Russian residents to which the Borrower or any Principal Subsidiary belongs,

Without prejudice to the foregoing, it is noted that in respect to all of the foregoing, the reorganisation, liquidation or commencement of analogous proceedings against the Borrower may only occur following an amendment to the law or enactment of a new law.

- 11.1.6** Any governmental authorisation necessary for the performance of any obligation of the Borrower under a Loan Agreement fails to be in full force and effect or the statutes or legislation relating to the status or capacity of the Borrower is amended in a way which would materially contravene or result in the contravention of any provision of a Loan Agreement and, without prejudice to any other provision under this Clause 11.1, such failure has not been remedied within 30 Business Days after the occurrence thereof.
- 11.1.7** Any governmental authority or court takes any action that has a Material Adverse Effect on the Borrower's ability to perform its obligations under a Loan Agreement or the validity or enforceability of a Loan Agreement or the rights or remedies of the Lender under a Loan Agreement.
- 11.1.8** Any execution or distress is levied against, or an encumbrancer takes possession of, the whole or any material part of, the assets of the Borrower or any Principal Subsidiary having a fair market value of more than U.S.\$100,000,000 or the equivalent thereof in any other currency or any event occurs which under the laws of any jurisdiction has a similar or analogous effect unless such execution, distress, enforcement of an Encumbrance or similar or analogous event is being contested in good faith by the Borrower and is not removed, paid out, stayed or discharged within 45 calendar days of such execution, distress being levied, taking of possession or similar or analogous act, as the case may be.
- 11.1.9** The aggregate amount of unsatisfied final judgments, decrees or orders of courts of competent jurisdiction or other appropriate and competent law-enforcement bodies for the payment of money against the Borrower and its Principal Subsidiaries exceeds U.S.\$100,000,000 or the equivalent thereof on any other currencies and there is a period of 45 days following the entry thereof during which such judgment, decree or order is not appealed, discharged, waived or the execution thereof stayed and such default continues for ten days after the notice specified in Clause 11.2.
- 11.1.10** Any seizure, compulsory acquisition, expropriation, nationalisation without appropriate compensation or renationalisation after the date of a Loan Agreement by or under the authority of a government authority of all or part (the IFRS book value of which is 15 per cent. or more of the book value of the whole) of the assets of the Borrower or any Principal Subsidiary.
- 11.1.11** The Borrower ceases to be a development bank, implementing the Russian Federation's investment and development policy.
- 11.1.12** At any time it is or becomes unlawful for the Borrower to perform or comply with any or all of its obligations under a Loan Agreement or any of such obligations (subject as provided in Clause 9.1.2) are not, or cease to be, legal, valid, binding and enforceable.
- 11.1.13** The Borrower repudiates any Loan Agreement.
- 11.1.14** Any foreign exchange law is enacted or introduced in the Russian Federation which has the effect of prohibiting or restricting any payment that the Borrower is required to make pursuant to the terms of each Loan Agreement.
- 11.1.15** Any litigation, arbitration or administrative proceeding is current, threatened or pending against the Borrower or any Principal Subsidiary which is reasonably likely to be adversely determined and, if so adversely determined, would in the opinion of the Lender be reasonably likely to have a Material Adverse Effect.
- 11.1.16** Any event occurs which under the laws of any relevant jurisdiction has an analogous effect to any of the events referred to in any of the foregoing paragraphs.

11.2 Notice of Default

The Borrower shall deliver to the Lender and the Trustee, within two Business Days after becoming aware thereof and, in accordance with Clause 10.7.2, within seven Business Days of any written request by the Lender or the Trustee and also within 30 days of the end of each calendar quarter, written notice in the form of an Officers' Certificate, substantially in the form attached as Schedule 2, of any event which is a Potential Event of Default or an Event of Default, its status and what action the Borrower is taking or proposes to take with respect thereto.

11.3 Default Remedies

11.3.1 If any Event of Default shall occur, the Lender may, by notice in writing to the Borrower, (a) declare the obligations of the Lender under the relevant Loan Agreement to be immediately terminated, whereupon such obligations shall terminate, and (b) declare all amounts payable under such Loan Agreement by the Borrower that would otherwise be due after the date of such termination to be immediately due and payable, whereupon all such amounts shall become immediately due and payable, all without diligence, presentment, demand of payment, protest or notice of any kind, which are all expressly waived by the Borrower; provided, however, that if any event of any kind referred to in Clause 11.1.5 occurs, the obligations of the Lender under such Loan Agreement shall immediately terminate, and all amounts payable under such Loan Agreement by the Borrower that would otherwise be due after the occurrence of such event shall become immediately due and payable, all without diligence, presentment, demand of payment, protest or notice of any kind, which are all especially waived by the Borrower.

11.3.2 If, pursuant to sub-Clause 11.3.1 above, a Loan is declared due and payable, then the Borrower shall, in addition to any amounts it is required to pay pursuant to sub-Clause 11.3.1 above, pay to the Lender, by way of additional amounts, a sum, calculated up to the date it repays the relevant Loan in full, sufficient to ensure that the Lender is able to discharge in full its obligations under any relevant Swap Agreement and the Notes, ignoring any limitation of the liability of the Lender to pay only sums actually received but treating all sums potentially payable by the Lender as due and treating any payment due by any relevant Swap Counterparties but unpaid as of zero value.

11.4 Rights Not Exclusive

The rights provided for in each Loan Agreement are cumulative and are not exclusive of any other rights, powers, privileges or remedies provided by law.

12 Indemnity

12.1 Indemnification

The Borrower undertakes to indemnify the Lender and each director, officer, employee or agent (other than the Principal Paying Agent or any of the Paying Agents) of the Lender (each an "Indemnified Party") against Liabilities (as defined below), which an Indemnified Party may sustain or incur in relation to the preparation and execution, or purported execution, of the exercise of the Borrower's powers, authorities and discretions and the performance of the Borrower's duties under, and in any other manner in relation to, this Agreement or any Loan Agreement, unless, in any such case, such Liability was caused by such Indemnified Parties' negligence or wilful misconduct or resulted from its breach of this Agreement. "Liability" means any loss, damage, claim, demand, judgment, action, proceeding (including, without limitation, in respect of taxes, duties, levies, imposts and other charges) and including any value added tax or similar tax charged or chargeable in respect thereof and reasonably incurred and properly documented out-of-pocket costs and expenses (including legal fees) on a full indemnity basis (but excluding any Liability that is the subject of the undertakings contained in Clause 13 and Clauses 14.2 and 14.6 of this Agreement to the extent such amounts due are paid in full).

12.2 Independent Obligation

Clause 12.1 constitutes a separate and independent obligation of the Borrower from its other obligations under or in connection with each Loan Agreement or any other obligations of the Borrower and shall not affect, or be construed to affect, any other provision of a Loan Agreement or any such other obligations.

12.3 Evidence of Loss

A certificate of the Lender, supported by relevant documentation, setting forth the amount of Liability described in Clause 12.1 and specifying in reasonable detail the basis therefor shall be prima facie evidence of the amount of such Liability.

12.4 Survival

The obligations of the Borrower pursuant to Clauses 6.2, 6.3, 12.1, 13.2, 14.2 and 14.6 shall survive the execution and delivery of each Loan Agreement and the drawdown and repayment of the relevant Loan, in each case by the Borrower.

13 Fees and Expenses

13.1 Front End Fees and Expenses for the Provision of the Loan by the Lender

The Borrower shall, pursuant to Clause 3.2 hereof and the relevant Loan Supplement, pay the Lender front-end commissions, costs and fees in the Loan Currency incurred and properly documented by the Lender in connection with the financing, negotiation, preparation and execution of each Loan Agreement and all related documents and transactions and other costs connected with the extension of each Loan.

13.2 Payment of Ongoing Fees and Expenses

In addition, the Borrower hereby agrees to pay to the Lender on demand in the Loan Currency all reasonably incurred and properly documented ongoing commissions, costs, taxes and fees payable by the Lender under or in respect of the Lender Agreements (including, without limitation, any corporate services provider fees, stock exchange fees, listing fees, audit fees, legal fees and the anticipated winding-up expenses of the Lender). Payments to the Lender referred to in this Clause 13.2 shall be made by the Borrower at least one Business Day before the relevant payment is to be made or expense incurred; provided that before such payment is made by the Borrower, the Lender shall (at least five Business Days prior to the relevant payment) submit an invoice providing, in reasonable detail, the nature and calculation of the relevant payment or expense.

14 General

14.1 Evidence of Debt

The entries made in the relevant Account shall, in the absence of manifest error, constitute prima facie evidence of the existence and amounts of the Borrower's obligations recorded therein.

14.2 Stamp Duties

14.2.1 The Borrower shall pay all stamp, registration and documentary taxes, duties or similar charges (if any) imposed on the Borrower by any person in the Russian Federation or Ireland which may be payable or determined to be payable in connection with the execution, delivery, performance, enforcement or admissibility into evidence of any Loan Agreement and shall indemnify the Lender against any and all costs, expenses or penalties properly documented which may be incurred or suffered by the Lender with respect to, or resulting from, delay or failure by the Borrower to pay such taxes or similar charges.

14.2.2 The Borrower agrees that if the Lender incurs a liability to pay any stamp, registration and documentary taxes, duties or similar charges (if any) imposed by any person in the Russian

Federation or Ireland which may be payable or determined to be payable in connection with the execution, delivery, performance, enforcement, or admissibility into evidence of any Loan Agreement and any documents related thereto as well as Notes of corresponding Series and any documents related thereto, the Borrower shall repay the Lender on demand an amount equal to such stamp or other documentary taxes, charges or duties incurred or actually paid by the Lender after documentary evidence has been provided to the Borrower that the Lender has incurred or paid such amount and shall indemnify the Lender against any and all costs and expenses properly documented and connected with the payment of such amounts.

14.3 Waivers

No failure to exercise and no delay in exercising, on the part of the Lender or the Borrower, any right, power or privilege under any Loan Agreement and no course of dealing between the Borrower and the Lender shall operate as a waiver thereof, nor shall any single or partial exercise of any right, power or privilege preclude any other or further exercise thereof, or the exercise of any other right, power or privilege. The rights and remedies provided in each Loan Agreement are cumulative and not exclusive of any rights or remedies provided by applicable law.

14.4 Notices

All notices, requests, demands or other communications to or upon the respective parties to each Loan Agreement shall be given or made in writing and in English by electronic communication, delivery by hand or fax to the party to which such notice, request, demand or other communication is required or permitted to be given or made under such Loan Agreement, addressed as follows:

14.4.1 if to the Borrower :

State Corporation "Bank for Development and Foreign Economic Affairs
(Vnesheconombank)"
Akademika Sakharova Prospekt, 9
Moscow, B-78, GSP-6, 107996
Russian Federation
Attention: Julia Slyusar, Head of Debt Finance Division

Tel: +7 (495) 721 98 40

Fax: +7 (495) 604 61 43

14.4.2 if to the Lender:

VEB Finance plc
53 Merrion Square
Dublin 2
Ireland
Attention: The Directors

Tel: + 353 1 614 6240

Fax: + 353 1 614 6250

or to such other electronic address or fax number as any party may hereafter specify in writing to the other.

Any notice, request, demand or other communication given by courier shall be conclusively deemed to have been given on the day of actual delivery thereof and, if given by fax or electronic communication, on the day of transmission thereof, in each case if given during the normal business hours of the recipient, and on the next Business Day if not given during such hours on any day.

14.5 Assignment

- 14.5.1** Each Loan Agreement shall inure to the benefit of and be binding upon the parties, their respective successors and any permitted assignee or transferee of some or all of a party's rights or obligations under such Loan Agreement. Any reference in a Loan Agreement to any party shall be construed accordingly and, in particular, references to the exercise of rights and discretions by the Lender, following the enforcement of the security and/or assignment referred to in Clause 14.5.3 below, shall be references to the exercise of such rights or discretions by the Trustee. Notwithstanding the foregoing, neither the Trustee nor any Swap Counterparty shall be entitled to participate in any discussions between the Lender and the Borrower or any agreements of the Lender or the Borrower pursuant to Clauses 6.4 or 6.5 or Clause 8.2.
- 14.5.2** The Borrower shall not assign or transfer all or any part of its rights or obligations hereunder to any other party.
- 14.5.3** The Lender may not assign or transfer, in whole or in part, any of its rights and benefits or obligations under any Loan Agreement except (i) with the prior written consent of the Borrower, to a company located in Ireland and/or (ii) in connection with the funding of each Loan, by way of first fixed charge granted by the Lender and the absolute assignment by the Lender in favour of the Trustee (as Trustee) of the Lender's rights and benefits under each Loan Agreement and, in each case under (ii) hereof, the Borrower agrees that it will, on or prior to the relevant Closing Date, acknowledge in writing any such charge and assignment and that the Trustee may assign or transfer the benefit of the Loan Agreement. Any reference in this Agreement to any such assignee or transferee shall be construed accordingly and, in particular, references to the rights, benefits and obligations hereunder of the Lender, following such assignment or transfer, shall be references to such rights, benefits or obligations by the assignee or transferee.

14.6 Currency Indemnity

To the fullest extent permitted by law, the obligation of the Borrower in respect of any amount due in the Loan Currency (or such other currency as contemplated by such obligation) under a Loan Agreement shall, notwithstanding any payment in any other currency (whether pursuant to a judgment or otherwise), be discharged only to the extent of the amount in the Loan Currency (or such other currency as contemplated by such obligation) that the Lender may, in accordance with normal banking procedures, purchase with the sum paid in such other currency (after any premium and costs of exchange) on the Business Day immediately following the day on which the Lender receives such payment. If the amount in the Loan Currency (or such other currency as contemplated by such obligation) that may be so purchased for any reason falls short of the amount originally due (the "Due Amount"), the Borrower hereby agrees to indemnify and hold harmless the Lender against any deficiency in the Loan Currency. Any obligation of the Borrower not discharged by payment in the Loan Currency (or such other currency as contemplated by such obligation) shall, to the fullest extent permitted by applicable law, be due as a separate and independent obligation and, until discharged as provided in the relevant Loan Agreement, shall continue in full force and effect. If the amount in the Loan Currency (or such other currency as contemplated by such obligation) that may be purchased exceeds that Due Amount, the Lender shall promptly pay the amount of the excess to the Borrower.

14.7 Prescription

Subject to the Lender having received the principal amount thereof or interest thereon from the Borrower, the Lender shall forthwith repay to the Borrower the principal amount or the interest amount thereon, respectively, of any Series of Notes upon such Series of Notes becoming void pursuant to Condition 11 of such Notes (as confirmed by the Lender).

14.8 Contracts (Rights of Third Parties) Act 1999

A person who is not a party to a Loan Agreement has no right under the Contracts (Rights of Third Parties) Act 1999 to enforce any term of such Loan Agreement.

14.9 Governing Law

This Agreement, and any non-contractual obligations arising out of or in connection with it, is governed by, and shall be construed in accordance with, English law.

14.10 Jurisdiction

The parties irrevocably agree that any dispute arising out of or connected with this Agreement, including a dispute as to the validity, existence or termination of this Agreement or the consequences of its nullity and/or this Clause 14.10 (a “**Dispute**”), shall be resolved by arbitration in London, England, conducted in the English language by three arbitrators, in accordance with the rules set down by the LCIA (formerly the London Court of International Arbitration) (“**LCIA Rules**”), which rules are deemed to be incorporated by reference into this Clause, save that, Article 5.6 of the LCIA Rules shall be amended as follows: unless the parties agree otherwise, the third arbitrator, who shall act as chairman of the tribunal, shall be nominated by the two arbitrators nominated by or on behalf of the parties. If he is not so nominated within 30 days of the date of nomination of the later of the two party-nominated arbitrators to be nominated, he shall be chosen by the LCIA. The parties agree to exclude the jurisdiction of the English courts under sections 45 and 69 of the Arbitration Act 1996.

14.11 Waiver of Immunity

To the extent that the Borrower or the Lender may, in relation to any Dispute, claim in any jurisdiction, for itself or its assets or revenues, immunity from the jurisdiction of any court or tribunal, service of process, injunctive or other interim relief, or any process for execution of any award or judgment against its property, the Borrower and the Lender irrevocably waive such immunity to the full extent permitted by the laws of such jurisdiction.

14.12 Counterparts

This Agreement and each Loan Agreement may be executed in any number of counterparts and all of such counterparts taken together shall be deemed to constitute one and the same agreement.

14.13 Language

The language which governs the interpretation of each Loan Agreement is the English language.

14.14 Amendments

Except as otherwise provided by its terms, each Loan Agreement may not be varied except by an agreement in writing signed by the parties.

14.15 Partial Invalidity

The illegality, invalidity or unenforceability to any extent of any provision of any Loan Agreement under the law of any jurisdiction shall affect its legality, validity or enforceability in such jurisdiction to such extent only and shall not affect its legality, validity or enforceability under the law of any other jurisdiction, nor the legality, validity or enforceability of any other provision.

14.16 Limited Recourse

The Borrower hereby agrees that it shall have recourse in respect of any claim against the Lender only to sums in respect of principal, interest or other amounts (if any), as the case may be, received by or for the account of the Lender pursuant to this Agreement, provided that, for as long as a Swap Agreement is in effect, recourse shall be limited in respect of amounts exchanged pursuant to such Swap Agreement (in each case after deduction on or withholding of such taxes or duties as may be required to be made by the Lender by law in respect of such sum or in relation to the Notes or the Swap Agreement and for which the Lender has not recovered a corresponding payment (also after deduction or withholding of such taxes or duties as may be required to be made by the Lender in respect thereof) pursuant to this Agreement or the Swap Agreement) (the “**Lender Assets**”), subject always to (i) the Security Interests (as defined in the Trust Deed) and (ii) to the fact that any claims of the Dealers (as

defined in the Subscription Agreement) shall rank in priority to claims of the Borrower hereunder, and that any such claim by the Dealers or the Borrower shall be reduced pro rata so that the total of all such claims does not exceed the aggregate value of the Lender Assets after meeting claims secured on them. The Trustee having realised the same, neither the Borrower nor any person acting on its behalf shall be entitled to take any further steps against the Lender to recover any further sums and no debt shall be owed by the Lender to such person in respect of any such further sum. In particular, neither the Borrower nor any other person acting on behalf of any of them shall be entitled at any time to institute against the Lender, or join with any other person in bringing, instituting or joining, insolvency proceedings (whether court based or otherwise) against the Lender.

None of the parties to this Agreement shall have recourse against any director, shareholder, or officer of the Lender in respect of any obligations, covenants or agreement entered into or made by the Lender in respect of this Agreement, except to the extent that any such person acts in bad faith or is negligent in the context of its obligations.

14.17 Non-Petition

None of the parties to this Agreement nor any other person acting on their behalf shall be entitled at any time to institute against the Lender, or join in any institution against the Lender of, any bankruptcy, administration, moratorium, controlled management, arrangement, insolvency, examinership, winding-up or liquidation proceedings or similar insolvency proceedings under any applicable bankruptcy or similar law in connection with any obligation of the Lender under this Agreement, save for lodging a claim in the liquidation of the Lender which is initiated by another party or taking proceedings to obtain a declaration or judgment as to the obligations of the Lender.

IN WITNESS WHEREOF, the parties hereto have caused this Agreement to be executed on the date first written above.

For and on behalf of STATE CORPORATION “BANK FOR DEVELOPMENT AND FOREIGN ECONOMIC AFFAIRS (VNESHECONOMBANK)”:

Schedule 1
Form of Loan Supplement

[DATE]

**STATE CORPORATION “BANK FOR DEVELOPMENT AND FOREIGN ECONOMIC AFFAIRS
(VNESHECONOMBANK)”**

and

VEB FINANCE PLC (formerly VEB FINANCE LIMITED)

LOAN SUPPLEMENT

**to be read in conjunction with a Facility Agreement dated 24 June 2010 as amended by a deed of
amendment dated 5 November 2013**

**in respect of
a Loan of [●]**

Series [●]

This Loan Supplement is made on [SIGNING DATE] **between:**

- (1) **VEB FINANCE PLC (formerly VEB FINANCE LIMITED)**, a company incorporated in Ireland with limited liability, whose registered office is at 53 Merrion Square, Dublin 2, Ireland (the “**Lender**”); and
- (2) **STATE CORPORATION “BANK FOR DEVELOPMENT AND FOREIGN ECONOMIC AFFAIRS (VNESHECONOMBANK)”**, registration number 1077711000102 with its registered address at 9 Akademika Sakharova, Moscow B-78, GSP-6, 107996, Russia (the “**Borrower**”).

Whereas:

- (A) The Borrower has entered into a facility agreement dated 24 June 2010 (such facility agreement, as may be amended or supplemented from time to time, the “**Facility Agreement**”) with the Lender in respect of the Borrower’s U.S.\$30,000,000,000 programme for the issuance of loan participation notes by the Lender (the “**Programme**”).
- (B) The Borrower proposes to borrow [●] (the “**Loan**”) and the Lender wishes to make such Loan on the terms set out in the Facility Agreement and this Loan Supplement.

It is agreed as follows:

1 Definitions

Capitalised terms used but not defined in this Loan Supplement shall have the meaning given to them in the Facility Agreement save to the extent supplemented or modified herein.

2 Additional Definitions

For the purpose of this Loan Supplement, the following expressions used in the Facility Agreement shall have the following meanings:

“**Account**” means the account in the name of the Lender in the Loan Currency (account number [●], [●]) [and the Notes Specified Currency Account (as defined in the Supplemental Trust Deed)]; *[include if any Currency Swap Agreements is/are to be entered into, otherwise delete]*

“**Borrower Account**” means the account in the name of the Borrower (account number [●]).

“**Calculation Agent**” means [●]

“**Closing Date**” means [●];

[“**Early Redemption Amount**” means [●] per [●] amount of the Loan, plus accrued interest, if any, to the Call Redemption Date;] *[include if Call Option applicable, otherwise delete]*

“**Loan Agreement**” means the Facility Agreement as amended and supplemented by this Loan Supplement;

“**Loan Currency**” means [●];

[“**Loan Interest Basis**” means the Rate of Interest specified in Clause 4.2 below;] *[include if any Interest Rate Swap Agreements is/are to be entered into, otherwise delete]*

“**Notes**” means [●] [[●] per cent.][Floating Rate] Loan Participation Notes due [●] issued by the Lender as Series [●] under the Programme;

[“**Notes Interest Basis**” has the meaning given to it in the relevant Final Terms;] *[include if any Interest Rate Swap Agreements is/are to be entered into, otherwise delete]*

["**Put Settlement Date**"] means [●]; [*include if Put Option applicable, otherwise delete*]

["**Rate of Interest**"] has the meaning given to it in Clause 4.2 below;

["**Repayment Date**"] means [●] [*amend as required for Floating Rate Notes*];

["**Specified Currency**"] means [●]; [*Include if any Swap Agreements is/are to be entered into, otherwise delete*]

["**Subscription Agreement**"] means an agreement between the Lender, the Borrower and [MANAGERS] dated [●] relating to the Notes;

["**Swap Agreement**"] means the swap documentation between the Lender and [SWAP COUNTERPARTY A] dated [●] in respect of the [Loan Currency/Specified Currency currency swaps]/[Loan Interest Basis/Notes Interest Basis interest rate swaps] and "**Swap Agreement**" means any of them; [*Include if one Swap Agreement is to be entered into, otherwise delete*]

["**Swap Agreements**"] means the swap documentation between (i) the Lender and [SWAP COUNTERPARTY A] and (ii) the Lender and [SWAP COUNTERPARTY B], each dated [●] in respect of the [Loan Currency/Specified Currency currency swaps]/[Loan Interest Basis/Notes Interest Basis interest rate swaps] and "**Swap Agreement**" means any of them; [*Include if more than one Swap Agreements are to be entered into, otherwise delete*]

["**Swap Counterparty**"] means [●]; [*Include if one Swap Agreement is to be entered into, otherwise delete*]

["**Swap Counterparties**"] means [●], [●] and "**Swap Counterparty**" means any of them; [*Include if more than one Swap Agreements are to be entered into, otherwise delete*]

["**Treasury Rate**"] means a rate equal to the yield, as published by the [●], on actively traded [●] with a maturity comparable to the remaining life of the Loan, as selected by the Financial Adviser. If there is no such publication of this yield during the week preceding the Calculation Date, the Treasury Rate will be calculated by reference to quotations from selected primary [●] dealers in [●] selected by the Financial Adviser. The Treasury Rate will be calculated on the third day (other than a Saturday or Sunday) on which banks and foreign exchange markets are open for business generally in [●] preceding the Call Redemption Date; [*include if Call Option applicable, otherwise delete*] and

["**Trust Deed**"] means Principal Trust Deed between the Lender and the Trustee dated [●] 2010 (as may be amended or supplemented from time to time) as amended and supplemented by a Supplemental Trust Deed dated [●] constituting and securing the Notes.

3 Incorporation by Reference

Except as otherwise provided, the terms of the Facility Agreement shall apply to this Loan Supplement as if they were set out herein and the Facility Agreement shall be read and construed, only in relation to the Loan constituted hereby, as one document with this Loan Supplement.

4 The Loan

4.1 Drawdown

Subject to the terms and conditions of the Loan Agreement, on the Closing Date, the Lender shall make the Loan to the Borrower and the Borrower shall make a single drawing in the full amount of the Loan.

4.2 Loan Interest Basis

The Loan is a [Fixed Rate][Floating Rate] Loan. Interest shall be calculated, and the following terms used in the Facility Agreement shall have the meanings, as set out below:

4.2.1 Fixed Rate Loan Provisions

[Applicable/Not Applicable]

(If not applicable, delete the remaining sub-paragraphs of this paragraph)

- (i) Interest Commencement Date: [●]
- (ii) Rate[(s)] of Interest: [●] per cent. per annum [payable [annually/semi-annually] in arrear
- (iii) Interest Payment Date(s): [●] in each year [adjusted in accordance with [the Floating Rate Business Day Convention][Following Business Day Convention][Modified Following Business Day Convention][Preceding Business Day Convention]/not adjusted]
- (iv) Fixed Amount[(s)]: [●] per [●] in principal amount
- (v) Broken Amount: *[Insert particulars of any initial or final broken interest amounts which do not correspond with the Fixed Amount[(s)] and the Interest Payment Date(s) to which they relate]*
- (vi) Day Count Fraction (Clause 4.9): [Actual/Actual][Actual/Actual – ISDA][Actual/365(Fixed)][Actual/360][30/360][360/360][Bond Basis] [30E/360][30E/360 (ISDA)] Actual/Actual – ICMA][Eurobond Basis]
(Day count fraction should be Actual/Actual-ICMA for all fixed rate loans other than those denominated in U.S. dollars, unless specified)
- (vii) Determination Date(s) (Clause 4.9): [●] in each year. *[Insert regular Interest Payment Dates, ignoring Issue Date or Maturity Date in the case of a long or short first or last Interest Period]**

4.2.2 Floating Rate Loan Provisions

[Applicable/Not Applicable] *(If not applicable, delete the remaining sub-paragraphs of this paragraph)*

- (i) Interest Commencement Date: [●]
- (ii) Interest Period(s): [●]
- (iii) Specified Interest Payment Dates: [●]
- (iv) Business Day Convention: [Floating Rate Business Day Convention][Following Business Day Convention][Modified Following Business Day Convention][Preceding Business Day Convention][No Adjustment]

- (v) Business Centre(s) (Clause 4.9):
- (vi) Manner in which the Rate(s) of Interest is/are to be determined: Screen Rate Determination/ISDA Determination
- (vii) Interest Period Date(s): [Not Applicable/specify dates]
- (viii) Party responsible for calculating the Rate(s) of Interest and Interest Amount(s) (if not the Calculation Agent):
- (ix) Screen Rate Determination (Clause 4.3.3):
- Relevant Time:
 - Determination Date: *[TARGET] Business Days in [specify city] for [specify currency] prior to [the first day in each Interest Accrual Period/each Interest Payment Date]*
 - Relevant Screen Page/Primary Source for Floating Rate: *[Specify relevant screen page or "Reference Banks"]*
 - Reference Banks (if Primary Source is "Reference Banks"): *[Specify four]*

5 Fees and Expenses

Pursuant to Clause 3.2 of the Facility Agreement and in consideration of the Lender making the Loan to the Borrower, the Borrower hereby agrees that it shall, one Business Day before the Closing Date, pay to the Lender, in Same-Day Funds, the Arrangement Fee calculated taking into account the front-end fees, commissions and costs incurred and properly documented by the Lender in connection with financing the Loan pursuant to an invoice submitted by the Lender to the Borrower in the total amount of [●].

6 Governing Law

This Loan Supplement, and any non-contractual obligations arising out of or in connection with it, shall be governed by and construed in accordance with English law.

7 Limited Recourse and Non-Petition

The provisions of clause 14.19 and 14.20 of the Facility Agreement shall apply to the parties to this Agreement as if specifically incorporated herein.

8 Jurisdiction

The provisions of Clause 14.10 of the Facility Agreement shall apply to the parties to this Agreement as if specifically incorporated herein.

This Loan Supplement has been entered into on the date stated at the beginning.

Schedule 2
Form of Officers' Certificate

[Date]

To: VEB Finance plc

CC: BNY Corporate Trustee Services Limited as Trustee

From: State Corporation "Bank for Development and Foreign Economic Affairs (Vnesheconombank)"

We, the undersigned, on behalf of the Borrower, certify that to our knowledge, after due enquiry:

- 1 Pursuant to Clause 10.7 (Reports) of the Agreement, we confirm that [no Event of Default or Potential Event of Default has occurred as of the date hereof (the "Certification Date")][an Event of Default][a Potential Event of Default] [has occurred] since the Certification Date of the last such certificate or (if none) the date of the Principal Trust Deed. [Delete as appropriate]
- 2 [We intend to take the following actions to address the above mentioned [Event of Default][Potential Event of Default]:

[Describe actions being taken or proposed to be taken by the Borrower with respect to the Event of Default or Potential Event of Default] [Delete if no Event of Default or Potential Event of Default is being declared]

Terms used in this Certificate shall have the meanings given to them or incorporated by reference into the Facility Agreement dated 24 June 2010.

State Corporation "Bank for Development and Foreign Economic Affairs (Vnesheconombank)"

for and on behalf of
State Corporation "Bank for Development and Foreign Economic Affairs (Vnesheconombank)"

TERMS AND CONDITIONS OF THE NOTES

The following is the text of the terms and conditions of the Notes, which contain summaries of certain provisions of the Trust Deed, and which (subject to completion and amendment in accordance with the provisions of Part A of the relevant Final Terms and as provided for in the relevant Supplemental Trust Deed (as defined below)) will be attached to the Notes in definitive form, if issued, and (subject to the provisions thereof) apply to any Global Notes representing a Series and to any Notes which may be issued in uncertificated form. Either (i) the full text of these terms and conditions together with the relevant provisions of Part A of the relevant Final Terms or (ii) these terms and conditions as so completed, amended, supplemented or varied (and subject to simplification by the deletion of non-applicable provisions), shall be endorsed on any Notes in definitive form. All capitalised terms that are not defined in these Terms and Conditions will have the meanings given to them in the Trust Deed or Part A of the relevant Final Terms. Those definitions will be endorsed on the definitive Notes. References in the Terms and Conditions to “Notes” are to the Notes of one Series only, not to all Notes that may be issued under the Programme.

The Notes are constituted by, are subject to, and have the benefit of, a supplemental trust deed dated the Issue Date specified hereon (the “**Supplemental Trust Deed**”) supplemental to a trust deed dated 24 June 2010 (as may be amended or supplemented from time to time, the “**Principal Trust Deed**”), made between VEB Finance plc (formerly VEB Finance Limited) (the “**Issuer**”) and BNY Corporate Trustee Services Limited (the “**Trustee**”, which expression shall include any trustee or trustees for the time being under the Trust Deed) as trustee and successors thereof for the holders of the Notes (the “**Noteholders**”) and, in the case of the Supplemental Trust Deed only, any Swap Counterparty (if any). The Principal Trust Deed and the Supplemental Trust Deed as modified from time to time in accordance with the provisions therein contained and any deed or other document expressed to be supplemental thereto, as from time to time so modified, are together referred to as the “**Trust Deed**”.

The Issuer has authorised the creation, issue and sale of the Notes for the sole purpose of financing either a Senior Loan (if the status of the Loan is specified as “**Senior**” hereon) or a Subordinated Loan (if the status of the Loan is specified as “**Subordinated**” hereon and together with a Senior Loan, the “**Loans**”, and any one of them a “**Loan**”) to State Corporation “Bank for Development and Foreign Economic Affairs (Vnesheconombank)” (the “**Borrower**”) subject to, and in accordance with, either (i) in relation to a Senior Loan, a facility agreement between the Issuer and the Borrower dated 24 June 2010 (the “**Facility Agreement**”) as amended and supplemented by a loan supplement to be dated the Trade Date (the “**Loan Supplement**” and, together with the Facility Agreement, the “**Senior Loan Agreement**”) or (ii) in relation to a Subordinated Loan, a subordinated loan agreement between the Issuer and the Borrower to be entered into on the Trade Date (the “**Subordinated Loan Agreement**”). In these Terms and Conditions, “**Loan Agreement**” shall mean either (i) a Senior Loan Agreement (in respect of a Senior Loan) or (ii) a Subordinated Loan Agreement (in respect of a Subordinated Loan), as applicable.

In connection with a Loan, the Issuer and one or more swap counterparties (each a “**Swap Counterparty**”) specified hereon may enter into currency exchange transactions under swap documentation (each a “**Currency Swap Agreement**” and together the “**Currency Swap Agreements**”), or into interest rate exchange transactions under swap documentation (each an “**Interest Rate Swap Agreement**” and together the “**Interest Rate Swap Agreements**”, and any such Currency Swap Agreement and the Interest Rate Swap Agreement, a “**Swap Agreement**”).

If applicable, under any Currency Swap Agreement, the Issuer will agree to make payments of one currency (the “**Loan Currency**”) (subject to receipt of a corresponding amount thereof in the same currency under the Loan Agreement) against payment by any relevant Swap Counterparty of amounts in a different currency, being the Specified Currency (as set out in the relevant Final Terms) corresponding to the amounts due in the Specified Currency under the Notes and the Trust Deed from time to time. If applicable, under any Interest Rate Swap Agreement the Issuer will agree to make payments calculated on the interest basis set out in the relevant Loan Supplement or Subordinated Loan Agreement (the “**Loan Interest Basis**”) against payment by any relevant Swap Counterparty of amounts calculated on the interest basis set out in the relevant Final Terms (the “**Notes Interest Basis**”).

In each case where amounts of principal, interest and additional amounts (if any) are stated herein or in the Trust Deed to be payable in respect of the Notes, the obligations of the Issuer to make any such payment shall constitute an obligation only to account to the Noteholders on each date upon which such amounts of principal, interest and additional amounts (if any) are due in respect of the Notes, for an amount equivalent to sums of

principal, interest and additional amounts (if any) actually received and retained net of tax by or for the account of the Issuer from the Borrower pursuant to the Loan Agreement, or from any relevant Swap Counterparty under any applicable Swap Agreement less any amount in respect of the Issuer Reserved Rights (as defined in the Trust Deed).

The Issuer has (a) charged by way of first fixed charge in favour of the Trustee certain of (i) its rights and interests as lender under the Loan Agreement (other than the Issuer Reserved Rights and any amounts relating to the Issuer Reserved Rights) and, if applicable, as a counterparty under any relevant Swap Agreement and (ii) its rights, title and interest in and to all sums of money held from time to time in the Account and, if applicable, the Notes Specified Currency Account (as defined below) (the “**Charge**”), and (b) has assigned absolutely to the Trustee certain other rights under the Loan Agreement (other than the Issuer Reserved Rights) and, if applicable, any Swap Agreement (the “**Assignment**” and together with the Charge, the “**Security Interests**”).

In certain circumstances, the Trustee can (subject to its being indemnified and/or secured and/or prefunded to its satisfaction) be required by Noteholders holding at least one quarter of the principal amount of the Notes outstanding or by an Extraordinary Resolution (as defined in the Trust Deed) of the Noteholders or, in certain circumstances, by a Swap Counterparty Direction (as defined in the Trust Deed) to exercise certain of its powers under the Trust Deed (including those arising under the Security Interests), as more fully described in Condition 9 below.

The Security Interests are granted to the Trustee as continuing security for the payment of all sums due under the Trust Deed and the Notes and, if applicable, for the performance of the Issuer’s obligations (if any) under any Swap Agreement in each case, as trustee for itself and/or the Noteholders and any relevant Swap Counterparty on a pari passu basis, save that no Swap Counterparty shall benefit from the security in respect of any Swap Agreement.

The Notes have the benefit of, and payments in respect of the Notes will be made (subject to the receipt of the relevant funds from the Borrower and/or, if applicable, the Swap Counterparty) pursuant to a paying agency agreement dated 24 June 2010, and made between the Issuer, The Bank of New York Mellon, London Branch as principal paying agent, calculation agent and transfer agent (the “**Principal Paying Agent**”; a “**Transfer Agent**” and the “**Calculation Agent**”), The Bank of New York Mellon, New York Branch as U.S. paying agent and a transfer agent (the “**U.S. Paying Agent**” and a “**Transfer Agent**”), The Bank of New York Mellon (Ireland) Limited as a Irish paying agent (the “**Irish Paying Agent**”), The Bank of New York Mellon (Luxembourg) S.A. as Registrar (the “**Registrar**”), the Borrower and the Trustee (as may be amended or supplemented from time to time, the “**Agency Agreement**”), and as may be supplemented, if applicable, by a supplemental agency agreement dated the Issue Date specified hereon and made between the Issuer, the Borrower, the Principal Paying Agent and Registrar, any Swap Counterparty and the Paying Agents and Transfer Agents named therein (the “**Supplemental Agency Agreement**”). References herein to principal paying agent, registrar, paying agent or transfer agent shall include any additional or successor principal paying agent, registrar, paying agent or transfer agent.

Copies of the Trust Deed, the Loan Agreement, the Agency Agreement, the Supplemental Agency Agreement (if applicable), any Swap Agreement (if applicable) and the Final Terms are available for inspection at the principal office of the Trustee being, at the date hereof, One Canada Square, London E14 5AL, United Kingdom and at the specified offices of the Principal Paying Agent and the Paying Agent located in Ireland.

The statements contained in these Terms and Conditions include summaries or restatements of, and are subject to, the detailed provisions of the Trust Deed, the Loan Agreement (the form of which is scheduled to and incorporated in the Trust Deed), the Final Terms, the relevant Loan Supplement, the Agency Agreement and the relevant Supplemental Agency Agreement (if applicable). Noteholders are entitled to the benefit of, are bound by, and are deemed to have notice of, all the provisions thereof. Expressions used but not defined in these Terms and Conditions shall, if defined in the Trust Deed, have the meanings given to them there.

1 Status

The Notes constitute secured, limited recourse obligations of the Issuer. The sole purpose of the issue of the Notes is to provide the funds for the Issuer to finance the Loan or, if applicable, to fund any relevant payment under any Swap Agreement. The Notes constitute the obligation of the Issuer to apply the proceeds from the issue of the Notes solely to finance the Loan or, if applicable, to fund any relevant payment under any Swap Agreement and use the corresponding payment from the relevant

Swap Counterparty to finance the Loan and to account to the Noteholders for an amount equivalent to sums of principal, interest and additional amounts (if any) actually received and retained net of tax by or for the account of the Issuer pursuant to the Loan Agreement or, if applicable, any amounts actually received and retained net of tax by or for the account of the Issuer pursuant to any corresponding Swap Agreement less any amounts in respect of the Issuer Reserved Rights.

If specified, the Issuer has entered into one or more Currency Swap Agreements pursuant to which the Issuer will exchange sums of money with the relevant Swap Counterparty in order to finance the Loan and exchange amounts due under the Loan Agreement from the Borrower in the Loan Currency. The Issuer will account to the Noteholders for amounts equivalent to sums of principal, interest and additional amounts (if any) actually received and retained net of tax by or for the account of the Issuer in the Specified Currency pursuant to the Currency Swap Agreement following the exchange of amounts received from the Borrower pursuant to the Loan Agreement (less any amounts in respect of the Issuer Reserved Rights). In the event that any Currency Swap Agreement is terminated early, then the Borrower will make any further payments due under the Loan Agreement in the relevant Specified Currency and the Issuer will account to Noteholders for such sums in the relevant Specified Currency. Neither the Issuer nor the Borrower will have the right to prepay the Loan or redeem the Notes in such circumstances.

If specified, the Issuer has entered into one or more Interest Rate Swap Agreements pursuant to which the Issuer will agree to make payments calculated on the Loan Interest Basis against payment by any relevant Swap Counterparty of amounts calculated on the Notes Interest Basis. The Issuer will account to the Noteholders for amounts equivalent to sums of principal, interest and additional amounts (if any) calculated on the Notes Interest Basis pursuant to the relevant Interest Rate Swap Agreements following the exchange of amounts calculated on the Loan Interest Basis and actually received and retained net of tax by or for the account of the Issuer pursuant to the Loan Agreement (less any amounts in respect of the Issuer Reserved Rights). In the event that one or more such Interest Rate Swap Agreements are terminated early, then the Borrower will make any further payments due under the relevant Loan Agreement on the relevant Notes Interest Basis. Neither the Issuer nor the Borrower will have the right to prepay or redeem the Notes in such circumstances.

The Trust Deed provides that payments in respect of the Notes equal to the sums actually received and retained net of tax by or for the account of the Issuer by way of principal, interest or additional amounts (if any) pursuant to the Loan Agreement and/or, if applicable, any amounts actually received and retained net of tax by or for the account of the Issuer pursuant to any Swap Agreement will be made pro rata among all Noteholders, on the date of and subject to the conditions attaching to, the equivalent payment pursuant to the Loan Agreement and, if applicable, any Swap Agreement. The Issuer shall not be liable to make any payment in respect of the Notes other than as expressly provided herein and in the Trust Deed. Neither the Issuer nor the Trustee shall be under any obligation to exercise in favour of the Noteholders any rights of set-off or of banker's lien or to combine accounts or counterclaims that may arise out of other transactions between the Issuer and/or the Borrower.

Noteholders have notice of, and are deemed to have accepted, these Terms and Conditions, the Final Terms and the contents of the Trust Deed and the provisions applicable to them in the Agency Agreement, if applicable, any Swap Agreement and the Loan Agreement, and are deemed to have accepted the following:

- 1.1** neither the Issuer nor the Trustee, the Principal Paying Agent, any Paying Agent, the Registrar nor any Transfer Agent makes any representation or warranty in respect of, or shall at any time have any responsibility for, or, save as otherwise expressly provided in the Trust Deed, in the Loan Agreement (in the case of the Issuer) or in paragraph 1.6 below, liability or obligation in respect of the performance and observance by the Borrower of its obligations under the Loan Agreement or, if applicable, any Swap Counterparty of its obligations under any corresponding Swap Agreement or the recoverability of any sum of principal or interest or any additional amounts due or to become due from the Borrower under the Loan Agreement or, if applicable, any amount due or to become due from any Swap Counterparty under any Swap Agreement;
- 1.2** neither the Issuer nor the Trustee, the Principal Paying Agent, any Paying Agent, the Registrar nor any Transfer Agent shall at any time have any responsibility for, or obligation or liability

in respect of, the condition, financial or otherwise, creditworthiness, affairs, status or nature of the Borrower or, if applicable, the Swap Counterparty;

- 1.3** neither the Issuer nor the Trustee, the Principal Paying Agent, any Paying Agent, the Registrar nor any Transfer Agent shall at any time be liable for any representation or warranty or any act, default or omission of the Borrower under or in respect of the Loan Agreement or, if applicable, any Swap Counterparty, under or in respect of any corresponding Swap Agreement;
- 1.4** neither the Issuer nor the Trustee shall at any time have any responsibility for, or liability or obligation in respect of, the performance and observance by the Principal Paying Agent, any Paying Agent, the Registrar or any Transfer Agent of their respective obligations under the Agency Agreement and the Supplemental Agency Agreement, as the case may be;
- 1.5** the financial servicing and performance of the terms of the Notes depend upon performance by the Borrower of its obligations under the Loan Agreement and its covenant to make payments under the Loan Agreement and its credit and financial standing and, if applicable, upon the performance by any Swap Counterparty of its obligations under any relevant Swap Agreement. The Borrower has represented and warranted to the Issuer that the Loan Agreement constitutes a legal, valid and binding obligation of the Borrower;
- 1.6** the Issuer and the Trustee shall be entitled to rely on (i) Officers' Certificates (as defined in the relevant Loan Agreement) as to whether or not an Event of Default or Potential Event of Default (each as defined in the Loan Agreement) has occurred and the details of any steps being taken to remedy such Event of Default or Potential Event of Default if such an event has occurred and (ii) periodic Officers' Certificates (if any) identifying the Principal Subsidiaries (as defined in the Loan Agreement) of the Borrower (in each case, whether or not addressed to, or obtained by, the Issuer or the Trustee), and shall not otherwise be responsible for investigating any aspect of the Borrower's performance in relation to the Loan Agreement and, subject as further provided in the Trust Deed, the Trustee will not be liable for any failure to make the usual or any investigations which might be made by a security holder in relation to the property which is the subject of the Security Interests and held by way of security for the Notes, and shall not be bound to enquire into or be liable for any defect or failure in the right or title of the Issuer to the property which is subject to the Security Interests whether such defect or failure was known to the Trustee or might have been discovered upon examination or enquiry or whether capable of remedy or not, nor will it have any liability for the enforceability of the security created by the Security Interests whether as a result of any failure, omission or defect in registering or filing or otherwise protecting or perfecting such security and the Trustee has no responsibility for the value of such security;
- 1.7** neither the Trustee nor the Issuer, the Principal Paying Agent, any Paying Agent, the Registrar nor any Transfer Agent shall at any time be required to expend or risk its own funds or otherwise incur any financial liability in the performance of its obligations or duties or the exercise of any right, power, authority or discretion pursuant to these Terms and Conditions until the Issuer or the Trustee, the Principal Paying Agent, any Paying Agent, the Registrar or any Transfer Agent, as the case may be, has received from the Borrower the funds that are necessary to cover the costs and expenses in connection with such performance or exercise, or has been (in its sole discretion) sufficiently assured that it will receive such funds; and
- 1.8** the Issuer will not be liable for any shortfall in respect of amounts payable by or resulting from any withholding or deduction or for any payment on account of tax required to be made by the Issuer on or in relation to any sum received by it under the Loan Agreement, which will or may affect payments made or to be made by the Borrower under the Loan Agreement, save to the extent that it has received additional amounts under the Loan Agreement in respect of such withholding or deduction or payment, and the Issuer shall, furthermore, not be obliged to take any actions or measures as regards such deduction or withholding or payment, other than those set out in the Loan Agreement. The Trustee shall have no liability for any such shortfall in respect of any such deduction, withholding or payment.

The obligations of the Issuer in respect of the Notes rank pari passu and rateably without any preference among themselves.

In respect of a Note issued under a Subordinated Series only (and to the extent subordination with respect to the Issuer is recognised under Russian law), the claims of the Issuer under the Loan Agreement constitute the direct, unconditional and unsecured subordinated obligations of the Borrower and will rank at least equally with all other unsecured and subordinated obligations of the Borrower (whether actual or contingent) as more fully set out in the relevant Subordinated Loan Agreement.

In the event that the payments under the Loan Agreement and, if applicable, any Swap Agreement are made by the Borrower and, if applicable, any Swap Counterparty to, or to the order of, the Trustee or (subject to the provisions of the Trust Deed) the Principal Paying Agent, they will pro tanto satisfy the obligations of the Issuer in respect of the Notes (unless, upon due presentation of a Note) payment is improperly withheld or refused.

Save as otherwise expressly provided herein and in the Trust Deed, no proprietary or other direct interest in the Issuer's rights under or in respect of the Loan Agreement, any Swap Agreement (if applicable), the Loan, the Account (and the Notes Specified Currency Account (if applicable) or the Charged Property (as defined in the Trust Deed) exist for the benefit of the Noteholders. Subject to the terms of the Trust Deed, no Noteholder will have any entitlement to enforce the Loan Agreement or, if applicable, any Swap Agreement or direct recourse to the Borrower or, if applicable, any Swap Counterparty except through action by the Trustee pursuant to the relevant Security Interests granted to the Trustee in the Trust Deed and the assignment of the Assigned Rights assigned to the Trustee in the Trust Deed. Neither the Issuer nor, following the enforcement of the Security Interests created in the Trust Deed, the Trustee shall be required to take steps, actions or proceedings to enforce payment under the Loan Agreement or, if applicable, any relevant Swap Agreement unless it has been indemnified and/or secured and/or prefunded by the Noteholders to its satisfaction.

The obligations of the Issuer under the Notes shall be solely to make payments of amounts in aggregate equal to each sum actually received and retained by or for the account of the Issuer from the Borrower in respect of principal, interest or, as the case may be, other amounts relating to the Loan pursuant to the Loan Agreement provided that, for as long as a Swap Agreement is in effect, recourse shall be limited in respect of amounts exchanged pursuant to such Swap Agreement (in each case after deduction or withholding of such taxes or duties as may be required to be made by the Issuer by law in respect of or in relation to such sum or in respect of the Notes or the Swap Agreement and for which the Issuer has not received a corresponding payment (also after deduction or withholding of such taxes or duties as may be required to be made by the Issuer in respect thereof) pursuant to the Loan Agreement) (less any amounts in respect of Issuer Reserved Rights), the right to receive which will, inter alia, be assigned to the Trustee as security for the Issuer's payment obligations in respect of the Notes. Accordingly, all payments to be made by the Issuer under the Notes will be made only from and to the extent of such sums actually received and retained net of tax or recovered by or on behalf of the Issuer or the Trustee (following an Issuer Relevant Event or (if applicable) an Event of Default). Noteholders shall look solely to such sums for payment to be made by the Issuer under the Notes, the obligation of the Issuer to make payments in respect of the Notes will be limited to such sums and Noteholders will have no further recourse to the Issuer or any of the Issuer's other assets in respect thereof. To the extent that such sums and the proceeds of the enforcement of the security relating to the Notes are less than the amounts that would otherwise be due to Noteholders if the full amount due under the Loan Agreement had been received and retained net of tax (the difference being the referred to as a "**shortfall**"), such shortfall shall be extinguished and Noteholders may take no further action to recover such amounts.

None of the Noteholders or the other creditors (nor any other person acting on behalf of any of them) shall be entitled at any time to institute against the Issuer, or join in any institution against the Issuer of, any bankruptcy, administration, moratorium, reorganisation, controlled management, arrangement, insolvency, examinership, winding-up or liquidation proceedings or similar insolvency proceedings under any applicable bankruptcy or similar law in connection with any obligation of the Issuer relating to the Notes or otherwise owed to the creditors, save for lodging a claim in the liquidation of the Issuer which is initiated by another party or taking proceedings to obtain a declaration or judgment as to the obligations of the Issuer.

No Noteholder shall have any recourse against any director, shareholder, or officer of the Issuer in respect of any obligations, covenants or agreement entered into or made by the Issuer in respect of the Notes, except to the extent that any such person acts in bad faith or is negligent in the context of its obligations.

2 Form, Denomination and Title

The Notes will be issued in fully registered form, and in the Specified Denomination shown hereon or integral multiples thereof, without interest coupons, provided that (i) interests in the Rule 144A Notes shall be held in amounts of not less than U.S.\$200,000 and (ii) the minimum Specified Denomination of any Notes shall be €100,000 (or its equivalent in any other currency as at the date of issue of the relevant Notes).

So long as any certificated Notes are represented by a Global Note and the relevant clearing system(s) so permit, those Notes shall be tradable only in principal amounts of at least the Specified Denomination (or if more than one Specified Denomination, the lowest Specified Denomination) provided hereon and higher integral multiples of U.S.\$1,000 (or its equivalent in other currencies).

A Note issued under the Principal Trust Deed may be a Fixed Rate Note, a Floating Rate Note, a combination of the foregoing or any other kind of Note, depending upon the Interest and Redemption/Payment Basis specified hereon.

3 Register, Title and Transfers

The Registrar will maintain a register (the “**Register**”) in respect of the Notes in accordance with the provisions of the Agency Agreement. In these Terms and Conditions the “**holder**” of a Note means the person in whose name such Note is for the time being registered in the Register (or, in the case of a joint holding, the first named thereof) and “**Noteholder**” shall be construed accordingly. A Note will be issued to each Noteholder in respect of its registered holding.

The holder of each Note shall (except as otherwise required by law) be treated as the absolute owner of such Note for all purposes (whether or not it is overdue and regardless of any notice of ownership, trust or any other interest therein, any writing on the Note relating thereto (other than the endorsed form of transfer) or any notice of any previous loss or theft of such Note) and no person shall be liable for so treating such holder.

A Note may be transferred upon surrender of the relevant Note, with the endorsed form of transfer duly completed, at the specified office of the Registrar or at the specified office of a Transfer Agent, together with such evidence as the Registrar or such Transfer Agent may require to prove the title of the transferor and the authority of the individuals who have executed the form of transfer. Where not all the Notes represented by the surrendered Note are the subject of the transfer, a new Note in respect of the balance of the Note will be issued to the transferor.

No transfer of a Note will be valid unless and until entered on the Register. A Note may be registered only in the name of, and transferred only to, a named person (or persons, not exceeding four in number) or a nominee.

Subject to the last paragraph of this Condition 3, within five business days of the surrender of a Note in accordance with the immediately preceding paragraph above, the Registrar will register the transfer in question and deliver a new Note to each relevant holder at its specified office or (at the request and risk of such relevant holder) by uninsured first class mail (airmail if overseas) to the address specified for the purpose by such relevant holder. In this paragraph, “**business day**” means a day on which commercial banks are open for business (including dealings in foreign currencies) in the city where the Registrar has its specified office.

The transfer of a Note will be effected without charge but against such indemnity as the Registrar may require in respect of any tax or other duty of whatsoever nature which may be levied or imposed in connection with such transfer.

Noteholders may not require transfers to be registered during the period of 15 days ending on the due date for any payment of principal or interest in respect of the Notes or after any of the Notes have been called for redemption pursuant to Condition 6(c) or put for redemption pursuant to Condition 6(d).

All transfers of Notes and entries on the Register are subject to the detailed regulations concerning the transfer of Notes in the schedules to the Agency Agreement. The regulations may be changed by the Issuer with the prior written approval of the Trustee and the Registrar. A copy of the current regulations will be mailed (free of charge) by the Registrar to any Noteholder who requests in writing a copy of such regulations and is available at the specified office of a Transfer Agent.

4 Restrictive Covenants

As provided in the Trust Deed, so long as any of the Notes remains outstanding (as defined in the Trust Deed), the Issuer will not (and will not consent to any request of the Borrower to), without the prior written consent of the Trustee or an Extraordinary Resolution or Written Resolution agree to any amendments to or any modification or waiver of, or authorise any breach or proposed breach of, the terms of the Loan Agreement or, if applicable, any Swap Agreement and will act at all times in accordance with any instructions of the Trustee from time to time with respect to the Loan Agreement and, if applicable, any Swap Agreement except as otherwise expressly provided in the Loan Agreement or any relevant Swap Agreement, as the case may be. Any such amendment, modification, waiver or authorisation made with the consent of the Trustee shall be binding on the Noteholders and, unless the Trustee agrees otherwise, any such amendment or modification shall be notified by the Issuer to the Noteholders in accordance with Condition 14.

Save as provided above, so long as any Note remains outstanding, the Issuer, without the prior written consent of the Trustee, shall not, inter alia, incur any other indebtedness for borrowed moneys other than the issue of notes on a limited recourse basis for the sole purpose of making loans to the Borrower, engage in any other business (other than entering into any agreements related to the issue of notes (including derivative transactions on a limited recourse basis) and performing any acts incidental to or necessary in connection with the issue of notes or such related agreements (including the holding of any security in connection therewith), making a loan to the Borrower pursuant to a loan agreement and performing any act incidental to or necessary in connection therewith), declare any dividends, have any subsidiaries or employees, purchase, own, lease or otherwise acquire any real property (including office premises or like facilities), consolidate or merge with any other person or convey or transfer its properties or assets substantially as an entity to any person (otherwise than as contemplated in these Terms and Conditions and the Trust Deed), issue any shares (other than those in issue on the Issue Date), give any guarantee or assume any other liability, or, subject to the laws of Ireland, petition for any winding-up or bankruptcy.

5 Interest

- (a) **Interest on Fixed Rate Notes:** Each Fixed Rate Note bears interest on its outstanding principal amount from (and including) the Interest Commencement Date at the rate(s) per annum (expressed as a percentage) specified hereon. Accordingly, on each Interest Payment Date or as soon thereafter as the same shall be received by the Issuer and, if applicable, for as long as any Currency Swap Agreement is in effect, subject to exchange of such funds for equivalent amounts in the relevant Specified Currency under such Currency Swap Agreement, the Issuer shall account to the Noteholders for an amount equivalent to amounts of interest actually received and retained net of tax by or for the account of the Issuer under the Loan Agreement. If and for as long as any Interest Rate Swap Agreement is in effect, then, subject to receipt of amounts of interest actually received and retained net of tax by or for the account of the Issuer under the Loan Agreement calculated on the Loan Interest Basis and exchange of such funds for equivalent amounts calculated on the Notes Interest Basis, the Issuer shall, on each Interest Payment Date, account to Noteholders for an amount equal to the amount of interest due on the Notes on such Interest Payment Date.

If a Fixed Amount or a Broken Amount is specified hereon, the amount of interest payable on each Interest Payment Date will amount to the Fixed Amount or, if applicable, the Broken Amount so specified and, in the case of the Broken Amount, will be payable on the particular Interest Payment Date(s) specified hereon.

(b) **Interest on Floating Rate Notes:**

- (i) *Interest Payment Dates:* Each Floating Rate Note bears interest on its outstanding principal amount from (and including) the Interest Commencement Date at the rate per annum (expressed as a percentage) equal to the Rate of Interest specified hereon, such interest being payable in arrear on each Interest Payment Date. Such Interest Payment Date(s) is/are either shown hereon as Specified Interest Payment Dates or, if no Specified Interest Payment Date(s) is/are shown hereon, Interest Payment Date shall mean each date which falls the number of months or other period shown hereon as the Interest Period after the preceding Interest Payment Date or, in the case of the first Interest Payment Date, after the Interest Commencement Date. Accordingly, on each such date, or as soon thereafter as the same shall be received by the Issuer, and, if applicable, for as long as any relevant Currency Swap Agreement is in effect, subject to exchange of such funds for equivalent amounts in the relevant specified Currency under any such Currency Swap Agreement, the Issuer shall account to Noteholders for an amount equivalent to amounts of interest actually received and retained net of tax by or for the account of the Issuer under the Loan Agreement. If and for so long as any Interest Rate Swap Agreement is in effect, then, subject to receipt of amounts of interest actually received and retained net of tax by or for the account of the Issuer under the Loan Agreement calculated on the Loan Interest Basis and exchange of such funds for equivalent amounts calculated on the Notes Interest Basis, the Issuer shall, on each Interest Payment Date, account to Noteholders for an amount equal to the amount of interest due on the Notes on such Interest Payment Date.
- (ii) *Business Day Convention:* If any date referred to in these Terms and Conditions that is specified to be subject to adjustment in accordance with a Business Day Convention would otherwise fall on a day that is not a Business Day, then, if the Business Day Convention specified is (A) the Floating Rate Business Day Convention, such date shall be postponed to the next day that is a Business Day unless it would thereby fall into the next calendar month, in which event (x) such date shall be brought forward to the immediately preceding Business Day and (y) each subsequent such date shall be the last Business Day of the month in which such date would have fallen had it not been subject to adjustment, (B) the Following Business Day Convention, such date shall be postponed to the next day that is a Business Day, (C) the Modified Following Business Day Convention, such date shall be postponed to the next day that is a Business Day unless it would thereby fall into the next calendar month, in which event such date shall be brought forward to the immediately preceding Business Day or (D) the Preceding Business Day Convention, such date shall be brought forward to the immediately preceding Business Day.
- (iii) *Rate of Interest for Floating Rate Notes:* The Rate of Interest in respect of Floating Rate Notes for each Interest Accrual Period shall be determined in the manner specified hereon and as set forth in the Facility Agreement.
- (c) **Accrual of Interest:** Interest shall cease to accrue on each Note on the due date for redemption unless, upon due presentation, payment is improperly withheld or refused, in which event interest shall continue to accrue (as well after as before judgment) at the Rate of Interest in the manner provided in this Condition 5 to the Relevant Date (as defined in Condition 8) provided that the Issuer shall account to the relevant Noteholder pro rata for an amount equivalent to the amounts of interest actually received by or for the account of the Issuer pursuant to the Loan Agreement.
- (d) **Calculations:** Notwithstanding the fact that payments of any nature shall be made in the manner provided in Condition 1, the amount of interest payable in respect of any Note for any Interest Accrual Period shall be equal to the product of the Rate of Interest, the Calculation Amount and the Day Count Fraction for such Interest Accrual Period as specified hereon and in the relevant Loan Supplement, unless an Interest Amount (or a formula for its calculation) is applicable to such Interest Accrual Period is specified, in which case the amount of interest payable per Calculation Amount in respect of such Note for such Interest Accrual Period shall

equal such Interest Amount (or be calculated in accordance with such formula). Where any Interest Period comprises two or more Interest Accrual Periods, the amount of interest payable per Calculation Amount in respect of such Interest Period shall be the sum of the Interest Amounts payable in respect of each of those Interest Accrual Periods. In respect of any other period for which interest is required to be calculated, the provisions made above shall apply save that the Day Count Fraction shall be for the relevant period for which interest is required to be calculated.

- (e) **Publication of Rates of Interest and Interest Amounts:** The Calculation Agent shall, as soon as practicable after calculating or determining the Rate of Interest and the Interest Amounts for each Interest Period and the relevant Interest Payment Date as set out in the Loan Agreement, cause such Rate of Interest and Interest Amounts to be notified to the Trustee, the Issuer, the Borrower, each of the Paying Agents, the Noteholders, any other Calculation Agent appointed in respect of the Notes that is to make a further calculation upon receipt of such information and, if the Notes are listed on a stock exchange and the rules of such exchange or other relevant authority so require, such exchange or other relevant authority as soon as possible after their determination but in no event later than (i) the commencement of the relevant Interest Period, if determined prior to such time, in the case of notification to such exchange of a Rate of Interest and Interest Amount or (ii) in all other cases, the fourth Business Day after such determination. Where any Interest Payment Date or Interest Period Date is subject to adjustment pursuant to Condition 5(b)(ii), the Interest Amounts and the Interest Payment Date so published may subsequently be amended (or appropriate alternative arrangements made with the prior written consent of the Trustee by way of adjustment) without notice in the event of an extension or shortening of the Interest Period. If the Notes become due and payable as a consequence of amounts under the Loan Agreement becoming due and payable prior to the Repayment Date (as defined in the Loan Agreement), the accrued interest and the Rate of Interest payable in respect of the Notes shall nevertheless continue to be calculated as previously in accordance with this Condition 5 but no publication of the Rate of Interest or the Interest Amount so calculated need be made unless the Trustee otherwise requires. The determination of any rate or amount, the obtaining of each quotation and the making of each determination or calculation by the Calculation Agent(s) shall (in the absence of manifest error) be final and binding upon all parties.
- (f) **Determination or Calculation by Replacement Calculation Agent:** If the Calculation Agent does not at any time for any reason determine or calculate the Rate of Interest for an Interest Period or any Interest Amount pursuant to the Loan Agreement, the Issuer and the Borrower shall jointly appoint an alternative institution as Calculation Agent to do so. In doing so, such alternative institution shall apply the foregoing provisions of this Condition 5, with any necessary consequential amendments, to the extent that, in its opinion, it can do so, and, in all other respects it shall do so in such manner as it shall deem fair and reasonable in all the circumstances. The determination of any rate or amount, the obtaining of each quotation and the making of each determination or calculation by such alternative institution shall (in the absence of manifest error) be final and binding upon all parties.

6 Redemption and Purchase

- (a) **Final Redemption:** Unless the Loan has been previously prepaid or repaid in full prior to the Repayment Date pursuant to the terms and conditions of the Loan Agreement, the Borrower will be required to repay the Loan on the Repayment Date and, if a Currency Swap Agreement is in effect, the Issuer shall pay such amounts actually received and retained net of tax in the Loan Currency to any relevant Swap Counterparty and such Swap Counterparty shall make payments of an equivalent amount in the Specified Currency. Subject to such repayment, as set forth in the Loan Agreement, all the Notes then remaining outstanding will on that date be redeemed or repaid by the Issuer in the relevant Specified Currency on the Redemption Date specified hereon at their Final Redemption Amount (which, unless otherwise specified hereon, is 100% of the principal amount thereof) together with accrued interest.
- (b) **Early Redemption:** If the Loan should become repayable in full (and be repaid in full) pursuant to the terms and conditions of the Loan Agreement prior to its Repayment Date, all Notes then remaining outstanding will thereupon become due and redeemable or repayable at

their Early Redemption Amount (as defined in the Facility Agreement) (which, unless otherwise specified hereon, is par together with interest accrued to the date of redemption), and if any Swap Agreement is in effect, the Issuer shall pay such Early Redemption Amounts actually received and retained net of tax in the Loan Currency and/or on the Loan Interest Rate Basis, as the case may be, to any such relevant Swap Counterparty and any such Swap Counterparty shall make payments of an equivalent amount in the Specified Currency and/or calculated on the Notes Interest Basis, as the case may be) and the Issuer will endeavour to give not less than 14 days' notice thereof to the Trustee and the Noteholders in accordance with Condition 14. For the avoidance of doubt, neither the Trustee nor any of the Agents (as defined in the Agency Agreement) (except, where applicable, the Calculation Agent) will be responsible for making any calculations of the Early Redemption Amount.

To the extent that the Issuer receives amounts of principal, interest or other amounts (other than amounts in respect of the Issuer Reserved Rights) following acceleration and/or enforcement, as the case may be, of the Loan, the Issuer shall, if any Swap Agreement is in effect, pay such amounts actually received and retained net of tax in the Loan Currency and/or calculated on the Loan Interest Rate Basis, as the case may be, to any relevant Swap Counterparty and any such Swap Counterparty shall make payments of an equivalent amount in the Specified Currency and/or calculated on the Notes Interest Basis, as the case may be), following which the Issuer shall pay an amount equivalent to such amounts actually received and retained net of tax from the Borrower or any relevant Swap Counterparty, as the case may be, on the business day following receipt of such amounts, subject as provided in Condition 7.

- (c) **Call Option:** If Call Option is specified hereon, then, pursuant to Clause 5.5 of the Facility Agreement and the relevant Loan Supplement, the Borrower may, at its option at any time from the Call Option Commencement Date but prior to the Repayment Date (each as specified hereon) on giving not less than 30 nor more than 60 calendar days' irrevocable notice to the Issuer, in whole or in part, repay the Loan at the Early Redemption Amount specified hereon (the "**Call Option**"). The notice to be given (the "**Call Option Notice**") shall specify the date for repayment of the Loan and the date for the redemption of the Notes (the "**Call Redemption Date**"), which shall be the next following Business Day after the date for repayment of the Loan. Immediately on receipt of the Call Option Notice, the Issuer shall forward it to the Noteholders, the Trustee and the Principal Paying Agent. If the Loan should become repayable following exercise of the Call Option by the Borrower (and be repaid) prior to the Repayment Date, the Notes will thereupon become due and repayable, in whole or in part as specified in the Call Option Notice, and the Issuer shall, subject to receipt of such amounts from the Borrower under the Loan, redeem the Notes on the Call Redemption Date. In the case of a partial redemption, the Notes shall be redeemed pro rata or with the application of a pool factor or otherwise in such manner as the Trustee deems in its sole discretion appropriate, subject to compliance with any applicable laws and stock exchange or other regulatory requirements. The Issuer's obligations in respect of this Condition 6(c) to redeem and make payment for the Notes shall constitute an obligation only to account to Noteholders on the Call Redemption Date for an amount equivalent to the sums actually received and retained net of tax by or for the account of the Issuer pursuant to the relevant Loan Agreement.
- (d) **Put Option:** If Put Option is specified hereon, the Issuer shall, at the option of any Noteholder, redeem such Note on the Put Settlement Date specified hereon (the "**Put Option**") at its principal amount together with accrued interest. To exercise such option a Noteholder must deposit the Note or Notes to be redeemed with any Paying Agent together with a duly completed put option notice ("**Put Option Notice**") in the form obtainable from any of the Paying Agents, not more than 60 but not less than 30 days prior to the Put Settlement Date. No Note so deposited may be withdrawn; provided, however, that if, prior to the Put Settlement Date, a Relevant Event has occurred or, upon due presentation of any Note on the Put Settlement Date, payment of the redemption moneys is improperly withheld or refused, such Note shall, without prejudice to the exercise of the Put Option, be returned to the Noteholder by uninsured first class mail (airmail if overseas) at such address as may have been given by such Noteholder in the relevant Put Option Notice. The Issuer shall notify the Borrower, not more than three Business Days after receipt of notice thereof from the Paying Agent, of the amount of the Loan to be prepaid as a consequence of the exercise of the Put

Option. Subject to timely receipt of the relevant amounts from the Borrower under the Loan Agreement, the Issuer shall redeem the Notes in accordance with this Condition 6(d) on the Put Settlement Date, subject as provided in Condition 7.

- (e) **Redemption on a Change of Control at the Option of Noteholders of a Senior Series:** If a Change of Control Put Event (as defined below) shall occur while a Note of any Senior Series (a “**Senior Note**”) is outstanding, the holder of each such Senior Note will have the option (the “**Change of Control Put Option**”) (unless, prior to the delivery of the Change of Control Put Option Notice referred to below, the Issuer gives notice under Condition 6(b)) to require the Issuer to redeem that Note on the Change of Control Put Settlement Date (as defined below) at its principal amount together with accrued interest and additional amounts (as defined in Condition 8) (if any) to the Change of Control Put Settlement Date.

Promptly upon the Issuer becoming aware that a Change of Control Put Event has occurred, the Issuer shall give notice (a “**Change of Control Put Event Notice**”) to the Noteholders in accordance with Condition 14 and to the Trustee and the Principal Paying Agent, specifying the details relating to the occurrence of the Change of Control Put Event and the procedure for exercising the option contained in this Condition 6(e).

In order to exercise the Change of Control Put Option, the holder of a Senior Note must deliver no later than 30 days after the Change of Control Put Event Notice is given (the “**Change of Control Put Period**”), to the specified office of the Principal Paying Agent or any Paying Agent, evidence satisfactory to the Paying Agent of such holder’s entitlement to such Senior Note and a duly completed put option notice (a “**Change of Control Put Option Notice**”) specifying the principal amount of the Senior Notes in respect of which such option is exercised, in the form obtainable from the Principal Paying Agent or any Paying Agent. The Principal Paying Agent or the Paying Agent will provide such Noteholder with a receipt. Provided that the Senior Notes that are the subject of any such Change of Control Put Option Notice have been delivered to the Principal Paying Agent or a Paying Agent prior to the expiry of the Change of Control Put Period, then the Issuer shall (subject (i) to the receipt of sufficient funds to do so from the Borrower and (ii) as provided in Condition 7) redeem all such Senior Notes on the date falling five Business Days after the expiration of the Change of Control Put Period (the “**Change of Control Put Settlement Date**”). No Change of Control Put Option Notice, once delivered in accordance with this Condition 6(e), may be withdrawn.

For the purposes of these Terms and Conditions, a “**Change of Control**” shall occur at any time that (i) the Borrower ceases at any time to be controlled by the Russian Federation; or (ii) the Russian Federation no longer has the right to appoint or remove a majority of the Borrower’s supervisory board.

“**Change of Control Put Event**” means a Change of Control has occurred.

- (f) **Purchase:** The Facility Agreement provides that the Borrower or any of its Subsidiaries (as defined therein) may at any time and from time to time purchase Notes in the open market or by tender or by private agreement at any price. Such Notes may be held, sold in the open market or, at the option of the Borrower or such Subsidiary, surrendered by the Borrower or such Subsidiary, as the case may be, to the Issuer for cancellation, whereupon the Issuer shall instruct the Principal Paying Agent to cancel such Notes. Upon such cancellation by or on behalf of the Principal Paying Agent, the relevant Loan shall be deemed to have been prepaid by the Borrower in an amount corresponding to the aggregate principal amount of the Notes surrendered for cancellation, together with accrued interest (if any) thereon and no further payments shall be made or required to be made by the Issuer in respect of such Notes.

This Condition 6(f), with respect to cancellation of any Notes, will only apply to Notes issued under a Subordinated Series to the extent specified to be applicable in the relevant Final Terms.

- (g) **Compulsory Sale:** The Issuer may compel any beneficial owner of an interest in the Rule 144A Notes to sell its interest in such Notes, or may sell such interest on behalf of such holder, if such holder is a U.S. Person that is not a qualified institutional buyer (as defined in

Rule 144A under the Securities Act) and also a qualified purchaser (as defined in Section 2(a)(51) of the U.S. Investment Company Act of 1940).

7 Payments and Agents

Payments of principal shall be made against presentation and surrender of the relevant Notes at the specified office of the Principal Paying Agent or at the specified office of any Transfer Agent or of the Registrar and in the manner provided in the paragraph below.

Interest shall be paid to the person shown on the Register at the close of business on the fifteenth day before the due date for payment thereof (the “**Record Date**”). Payments of interest shall be made in the Specified Currency by cheque drawn on a bank in the principal financial centre for the Specified Currency or, in the case of euro, in a city in which banks have access to the TARGET System (a “**Bank**”) and mailed to the holder (or to the first named of joint holders) of such Note at its address appearing in the Register. Upon application by the holder to the specified office of the Registrar or any Transfer Agent before the Record Date, such payment of interest may be made by transfer to an account in the relevant currency maintained by the payee with a Bank, or by transfer to an account in the Specified Currency maintained by the payee with a Bank in the principal financial centre of such Specified Currency or, in the case of euro, a Bank specified by the payee or at the option of the payee, by a euro-cheque and (in the case of interest payable on redemption) upon surrender of the relevant Notes at the specified office of the Principal Paying Agent or at the specified office of any Transfer Agent.

All payments in respect of the Notes are subject in all cases to any applicable fiscal or other laws and regulations, but without prejudice to the provisions of Condition 8. No commissions or expenses shall be charged to the Noteholders in respect of such payments.

If the due date for payments of interest or principal is not a business day, a Noteholder shall not be entitled to payment of the amount due until the next following business day and shall not be entitled to any further interest or other payment in respect of any such delay. In this paragraph, “**business day**” means a day (other than a Saturday or a Sunday) on which banks and foreign exchange markets are open for business in the relevant place of presentation, in such jurisdictions as shall be specified as “**Financial Centres**” hereon, and (i) (in the case of a payment in a currency other than euro) where payment is to be made by transfer to an account maintained with a bank in the relevant currency, on which foreign exchange transactions may be carried on in the relevant currency in the principal financial centre of the country of such currency or (ii) (in the case of a payment in euro) which is a business day on which the TARGET system is operating.

The Agency Agreement provides that the Issuer may at any time, with the prior written approval of the Trustee, vary or terminate the appointment of the Principal Paying Agent or any of the Paying Agents, and appoint additional or other paying agents provided that (i) so long as the Notes are listed on any stock exchange or admitted to listing by any other relevant authority, there will be a Paying Agent and Transfer Agent with a specified office in such place as may be required by the rules and regulations of the relevant stock exchange or other relevant authority and (ii) there will be a Paying Agent with a specified office in a European Union member state that will not be obliged to withhold or deduct tax pursuant to European Council Directive 2003/48/EC or any other law implementing or complying with or introduced in order to conform to such Directive, and (iii) there will be a Calculation Agent for so long as any Notes are outstanding for which a Calculation Agent is required. Any such variation, termination or appointment shall only take effect (other than in the case of insolvency, when it shall be of immediate effect) after not more than 45 days’ and not less than 30 days’ notice thereof shall have been given to the Noteholders in accordance with Condition 14.

In addition, if the due date for redemption or repayment of a Note is not an Interest Payment Date, interest accrued from the preceding Interest Payment Date or, as the case may be, from the Issue Date as specified hereon shall be payable only as and when actually received by or for the account of the Issuer pursuant to the Loan Agreement and, if applicable and for so long as any relevant Swap Agreement is in effect, exchanged for the Specified Currency and/or an equivalent amount calculated on the Notes Interest Basis, as the case may be, pursuant to any such relevant Swap Agreement.

Save as otherwise directed by the Trustee at any time after any of the Security Interests created in the Trust Deed becomes enforceable, the Issuer will, pursuant to Clause 7 of the Agency Agreement, require the Borrower to make all payments of principal and interest to be made pursuant to the Loan Agreement to the Principal Paying Agent to an account in the name of the Issuer (the “**Account**”) held with the Principal Paying Agent. Under the Charge, the Issuer will charge by way of first fixed charge all the rights, title and interest in and to all sums of money then or in the future deposited in the Account (with the exception of sums relating to the Issuer Reserved Rights) in favour of the Trustee for the benefit of the Trustee and the Noteholders. For so long as any Currency Swap Agreement is entered into in respect of the relevant Series then the Issuer will require the Borrower to make all payments of principal and interest to be made pursuant to the Loan Agreement to the Principal Paying Agent in the Loan Currency to the Account. All payments to be made by any Swap Counterparty under any Swap Agreement will be made to the Principal Paying Agent in the Specified Currency to an account in the name of the Issuer (the “**Notes Specified Currency Account**”). In these circumstances, under the Charge, the Issuer will charge by way of fixed first charge all the rights, title and interest in and to all sums of money then or in the future deposited in the Account and in the Notes Specified Currency Account in favour of the Trustee for the benefit of the Trustee and the Noteholders.

8 Taxation

All payments in respect of the Notes by or on behalf of the Issuer will be made without deduction or withholding for or on account of any present or future taxes or duties of whatever nature imposed or levied by or on behalf of the Russian Federation or Ireland or any authority thereof or therein having the power to tax, unless the deduction or withholding of such taxes or duties is required by law.

In such event, the Issuer shall pay such additional payments (“**additional amounts**”) as shall result in the receipt by the Noteholders of such amount as would have been received by them if no such withholding or deduction had been required but only to the extent and only at such time as the Issuer receives an equivalent amount from the Borrower under the Loan Agreement. To the extent that the Issuer receives a lesser amount from the Borrower, the Issuer will account to each Noteholder for an additional amount equivalent to a pro rata proportion of such amount (if any) as is actually received and retained net of tax by, or for the account of, the Issuer pursuant to the Loan Agreement on the date of, in the currency of, and subject to any conditions attaching to the payment of such additional amount to the Issuer; provided that no such additional amount will be payable in respect of any Note:

- (a) to a Noteholder who: (a) is able to avoid such deduction or withholding by satisfying any statutory requirements or by making a declaration of non-residence or other claim for exemption to the relevant tax authority; or (b) is liable for such taxes or duties by reason of his having some connection with the Russian Federation or Ireland other than the mere holding of such Note or the receipt of payments in respect thereof;
- (b) in respect of a Note presented for payment of principal more than 30 days after the Relevant Date except to the extent that such additional payment would have been payable if such Note had been presented for payment on such 30th day;
- (c) where such withholding or deduction is imposed on a payment to an individual and is required to be made pursuant to European Council Directive 2003/48/EC or any other law implementing or complying with, or introduced in order to conform to, such Directive; or
- (d) in respect of a Note presented for payment by or on behalf of a Noteholder who would have been able to avoid such withholding or deduction by presenting the relevant Note to another Paying Agent in a Member State of the European Union.

As used herein, “**Relevant Date**” (i) means the date on which any payment under the Loan Agreement, or, if applicable, a Swap Agreement, first becomes due but (ii) if the full amount payable by the Borrower, or any Swap Counterparty, as the case may be, has not been received by, or for the account of, the Issuer pursuant to the Loan Agreement, or the relevant Swap Agreement, as the case may be, on or prior to such date, it means the date on which such moneys shall have been so received and notice to that effect shall have been duly given to the Noteholders by or on behalf of the Issuer in accordance with Condition 14.

Any reference herein or in the Trust Deed to payments in respect of the Notes shall be deemed also to refer to any additional amounts which may be payable in accordance with the Trust Deed and this Condition 8 or any undertaking given in addition thereto or in substitution therefor pursuant to the Trust Deed.

9 Enforcement

Subject to the non-petition covenant contained herein, the Trust Deed provides that only the Trustee may pursue the remedies under the general law, the Trust Deed or the Notes to enforce the rights of the Noteholders and no Noteholder will be entitled to pursue such remedies unless the Trustee (having become bound to do so in accordance with the terms of the Trust Deed) fails to do so within a reasonable period and such failure is continuing.

In acting as Trustee under the Trust Deed, the Trustee shall not assume any duty or responsibility to any relevant Swap Counterparty (other than to pay, or procure that the Principal Paying Agent pays, to any such party any moneys received and payable to it pursuant to Clause 8 of the Trust Deed) and shall have regard solely to the interests of the Noteholders. In the event that there is more than one relevant Swap Counterparty and the Trustee has received more than one Swap Counterparty Direction and the instructions given therein are conflicting, the Trustee shall only have regard to the Swap Counterparty Direction which it received first.

At any time after the occurrence of (i) an Event of Default in respect of a Senior Note (as defined in the Senior Loan Agreement); or (ii) an Event of Default in respect of a Subordinated Note (as defined in the Subordinated Loan Agreement) or if an Issuer Relevant Event (as defined in the Trust Deed) has occurred, the Trustee may, at its discretion and without notice, take such steps or actions or institute such proceedings as it may think fit (subject to the non-petition covenant in Condition 1) to enforce the rights of the Noteholders and the provisions of these presents (which, for the avoidance of doubt, in the case of an Issuer Relevant Event, shall include enforcing the security created hereunder by the Issuer and, in the case of an Event of Default, shall include (i) (in the case of a Note issued under a Senior Series (as defined in the Trust Deed) only) declaring all amounts payable under the relevant Loan Agreement by the Borrower or terminating any relevant Swap Agreement or (ii) (in the case of a Note issued under a Subordinated Series (as defined in the Trust Deed) only) taking the action permitted by the Issuer under each relevant Subordinated Loan Agreement or any relevant Swap Agreement but, in each case, the Trustee shall not be bound to take any such steps, actions or institute such proceedings or action under these presents or the Notes unless (i) so requested to do so in writing by Noteholders owning 25% in aggregate principal amount of the relevant Notes outstanding or if directed to do so by an Extraordinary Resolution or (ii), if applicable, it shall have received a Swap Counterparty Direction (as defined in the Trust Deed), and, in each case, subject to its being secured and/or indemnified and/or prefunded to its satisfaction against all Liabilities (as defined in the Trust Deed) to which it may thereby become liable and all Liabilities which may be incurred by it in connection therewith. In the event that the Trustee shall have been directed by Noteholders and shall have received a Swap Counterparty Direction and the instructions given in such directions are conflicting, the Trustee shall only have regard to the direction which it received first. Upon repayment of the Loan following an Event of Default and a declaration as provided herein, any Swap Agreement will be terminated and the Notes will, subject to the provisions of the Trust Deed and these Terms and Conditions, be redeemed or repaid at their principal amount together with interest accrued thereon to the date fixed for redemption and thereupon shall cease to be outstanding.

10 Meetings of Noteholders; Modification of Notes, Trust Deed, Loan Agreement and Swap Agreements; Waiver; Substitution of the Issuer; Appointment/ Removal of Trustees

The Trust Deed contains provisions for convening meetings of Noteholders to consider any matter affecting their interests, including any modification of, or any arrangement in respect of, the Notes, the Loan Agreement, any Swap Agreement or the Trust Deed. Noteholders will vote *pro rata* according to the principal amount of their Notes. Special quorum provisions apply for meetings of Noteholders convened for the purpose of amending certain terms concerning, *inter alia*, the amount payable on, and the currency of payment in respect of, the Notes and the amounts payable and currency of payment under the Loan Agreement and any applicable Swap Agreement. Any resolution duly passed at a meeting of Noteholders will be binding on all the Noteholders, whether present or not.

The Trust Deed provides that a resolution in writing signed by or on behalf of the holders of 75% in principal amount of the Notes outstanding shall for all purposes be as valid and effective as an Extraordinary Resolution passed at a meeting of Noteholders duly convened and held. Such a resolution in writing may be contained in one document or several documents in like form, each signed by or on behalf of one or more Noteholders.

The Trustee may agree, without the consent of the Noteholders, to any modification of the Notes and the Trust Deed or the Loan Agreement or any relevant Swap Agreement (subject to certain exceptions as provided in the Trust Deed), which in the opinion of the Trustee, in each case following, is of a formal, minor or technical nature, is made to correct a manifest error or is not materially prejudicial to the interests of the Noteholders.

The Trustee may also waive or authorise or agree to the waiving or authorising of any breach or proposed breach by the Issuer of the Terms and Conditions of the Notes, the Trust Deed, the terms of the Loan Agreement or the terms of any relevant Swap Agreement (subject to certain exceptions as provided in the Trust Deed). Any such waiver or authorisation shall be binding on the Noteholders and, unless the Trustee agrees otherwise, any such modification shall be promptly notified to the Noteholders.

The Trust Deed contains provisions to the effect that the Issuer may, having obtained the written consent of the Borrower (if such substitution is not to be made at the request of the Borrower), and any relevant Swap Counterparty and the Trustee (which latter consent may be given without the consent of the Noteholders) and having complied with such reasonable requirements as the Trustee may direct in the interests of the Noteholders, substitute any entity in place of the Issuer as party to the Loan Agreement and, if applicable, any relevant Swap Agreement as issuer and obligor in respect of the Notes and as obligor under the Trust Deed, subject to the relevant provisions of the Trust Deed and the substitute's rights under the Loan Agreement and, if applicable, any Swap Agreement being charged and assigned, respectively, to the Trustee as security for the payment obligations of the substitute obligor under the Trust Deed and the Notes.

In connection with the exercise of any of its powers, trusts, authorities or discretions, the Trustee shall have regard to the interests of the Noteholders as a class and, in particular, shall not have regard to the consequences of such exercise for individual Noteholders resulting from their being for any purpose domiciled or resident in, or otherwise connected with, or subject to the jurisdiction of, any particular territory. No Noteholder is entitled to claim from the Issuer or the Trustee any indemnification or payment in respect of any tax consequence of any such exercise upon individual Noteholders.

The Trust Deed contains provision for the appointment or removal of a Trustee by a meeting of Noteholders passing an Extraordinary Resolution (as defined in the Trust Deed), provided that in the case of the removal of a trustee there remains a Trustee hereof (being a Trust Corporation) in office after such removal.

Any appointment or removal of a Trustee shall be notified to the Noteholders in accordance with Condition 14. The Trustee may also resign such appointment giving not less than three months' notice to the Issuer provided that such retirement shall not become effective unless there remains a trustee in office after such retirement.

11 Prescription

Notes will become void unless presented for payment within 10 years (in the case of principal) or five years (in the case of interest) from the due date for payment in respect thereof.

12 Indemnification of Trustee

The Trust Deed contains provisions for the indemnification of the Trustee and for its relief from responsibility, including provisions relieving it from taking steps, actions or proceedings to enforce payment unless indemnified and/or secured and/or prefunded to its satisfaction and for it to be paid its costs and expenses in priority to the claims of the Noteholders. The Trustee is entitled to enter into contracts or transactions with the Issuer and/or the Borrower and/or any Swap Counterparty and any entity related to the Issuer and/or the Borrower and/or any Swap Counterparty without accounting for

any profit, fees, corresponding interest, discounts or share of brokerage earned, arising or resulting from any such contract or transactions.

The Trustee's responsibilities are solely those of trustee for the Noteholders on the terms of the Trust Deed. Accordingly, the Trustee makes no representations and assumes no responsibility for the validity or enforceability of the Loan Agreement or any Swap Agreement or the security created in respect thereof or for the performance by the Issuer of its obligations under or in respect of the Notes and the Trust Deed or for the performance by the Borrower of its obligations under or in respect of the Loan Agreement or by any Swap Counterparty under any relevant Swap Agreement. The Trustee shall not assume any duty or responsibility to any relevant Swap Counterparty except as provided in the Trust Deed. The Trustee has no liability to Noteholders for any shortfall arising from the Trustee being subject to tax as a result of the Trustee holding or realising the Security Interests. The Trustee is entitled to assume that the Borrower is performing all of its obligations pursuant to the Loan Agreement (and shall have no liability to any person for doing so).

13 Replacement of Notes

If any Note shall become mutilated, defaced, lost, stolen or destroyed it may, subject to all applicable laws and regulations and stock exchange requirements, be replaced at the specified office of the Registrar or at the specified office of the Principal Paying Agent on payment of such costs, expenses, taxes and duties as may be incurred in connection therewith and on such terms as to evidence, security and indemnity and otherwise as may reasonably be required by or on behalf of the Issuer or the Trustee. Mutilated or defaced Notes must be surrendered before replacements will be issued.

14 Notices

All notices to the Noteholders shall be deemed to have been duly given if (i) posted to such holders at their respective addresses as shown on the Register and (ii) so long as the Notes are listed on the Irish Stock Exchange and the guidelines of that exchange so require, filed with the Companies Announcement Office of the Irish Stock Exchange. Any such notice shall be deemed to have been given on the first date on which both conditions shall have been met.

In case by reason of any other cause it shall be impracticable to publish any notice to holders of Notes as provided above, then such notification to such holders as shall be given with the approval of the Trustee shall constitute sufficient notice to such holders for every purpose hereunder.

15 Further Issues

The Issuer may from time to time, without the consent of the Noteholders, create and issue further Notes having the same terms and conditions as the Notes in all respects (or in all respects except for the amount and the date of the first payment of interest) so as to be consolidated and form a single series with the Notes. Such further Notes shall be constituted by a deed supplemental to the Trust Deed between the Issuer, the Trustee and, if applicable, any Swap Counterparty. The Trust Deed contains provisions for convening a single meeting of Noteholders and the holders of Notes of other series in certain circumstances where the Trustee so decides. In relation to any further issue which is to be consolidated and form a single series with the Notes, (i) the Issuer will enter into a loan agreement supplemental to the Loan Agreement with the Borrower on substantially the same terms as the Loan Agreement (or in all respects except for the amount and the date of the first payment of interest on the further Loan) and, if applicable, enter into one or more swap agreements on substantially the same terms as any existing Swap Agreement or amend and restate the Loan Agreement and, if applicable any Swap Agreement and (ii) the Security Interests granted in respect of the Notes will be amended or supplemented so as to secure amounts due in respect of such further Notes also and/or the Issuer will provide a further fixed charge in favour of the Trustee in respect of certain of its rights and interests under any further Loan Agreement and, if applicable, any Swap Agreement as so supplemented or amended and restated and will assign absolutely certain of its rights under such further Loan Agreement and (any Swap Agreement as supplemented or amended and restated to secure amounts due on the Notes and such further Notes.

16 Contracts (Rights of Third Parties) Act 1999

No person shall have any right to enforce any term or condition of the Notes under the Contracts (Rights of Third Parties) Act 1999.

17 Governing Law and Jurisdiction

The Notes, the Agency Agreement and the Trust Deed, and any non-contractual obligations arising out of or in connection with them, are governed by, and shall be construed in accordance with, English law. The Issuer has submitted in the Trust Deed to the jurisdiction of the courts of England and has appointed an agent for the service of process in England.

SUMMARY OF THE PROVISIONS RELATING TO NOTES IN GLOBAL FORM

The Global Notes

Each Series of Notes will be evidenced on issue by (i) in the case of Regulation S Notes, a Regulation S Global Note deposited with, and registered in the name of a nominee for, a common depository for Euroclear and Clearstream, Luxembourg and (ii) in the case of Rule 144A Notes, a Rule 144A Global Note deposited with a custodian for, and registered in the name of Cede & Co., as nominee of DTC.

Beneficial interests in a Regulation S Global Note may be held only through Euroclear or Clearstream, Luxembourg at any time. See “—*Exchange for Definitive Notes—Book-Entry Procedures for the Global Notes*”. By acquisition of a beneficial interest in a Regulation S Global Note, the purchaser thereof will be deemed to represent, among other things, that it is not a U.S. Person and that, prior to the expiration of 40 days after completion of the distribution of the Series of which such Notes are a part as determined and certified to the Principal Paying Agent by the relevant Dealer (or in the case of a Series of Notes sold to or through more than one relevant Dealer, by each of such relevant Dealers as to the Notes of such Series sold by or through it, in which case the Principal Paying Agent shall notify each such relevant Dealer when all relevant Dealers have so certified, (the “**distribution compliance period**”), it will not offer, sell, pledge or otherwise transfer such interest except to a person whom the seller reasonably believes to be a non-U.S. Person in an offshore transaction in accordance with Rule 903 or Rule 904 of Regulation S. See “*Transfer Restrictions*”. Beneficial interests in a Rule 144A Global Note may only be held through DTC at any time. See “—*Exchange for Definitive Notes—Book-Entry Procedures for the Global Notes*”. By acquisition of a beneficial interest in a Rule 144A Global Note, the purchaser thereof will be deemed to represent, among other things, that if it is a U.S. Person (within the meaning of Regulation S), it is a QIB that is also a QP and that, if in the future it determines to transfer such beneficial interest, it will transfer such interest in accordance with the procedures and restrictions contained in the Agency Agreement. See “*Transfer Restrictions*”.

Beneficial interests in each Global Note will be subject to certain restrictions on transfer set forth therein and in the Agency Agreement, and with respect to Rule 144A Global Note, as set forth in Rule 144A, and the Rule 144A Notes will bear the legends set forth thereon regarding such restrictions set forth under “*Transfer Restrictions*”. A beneficial interest in a Regulation S Global Note may be transferred to a person who takes delivery in the form of an interest in a Rule 144A Global Note in denominations greater than or equal to the minimum denominations applicable to interests in a Rule 144A Global Note and only upon receipt by the Registrar of a written certification (in the form provided in the Agency Agreement) to the effect that the transferor reasonably believes that the transferee is a QIB that is also a QP and that such transaction is in accordance with any applicable securities laws of any state of the United States or any other jurisdiction. Beneficial interests in a Rule 144A Global Note may be transferred to a person who takes delivery in the form of an interest in a Regulation S Global Note only upon receipt by the Registrar of a written certification (in the form provided in the Agency Agreement) from the transferor to the effect that the transfer is being made to a non-U.S. Person and in accordance with Regulation S.

Any beneficial interest in a Regulation S Global Note that is transferred to a person who takes delivery in the form of an interest in a Rule 144A Global Note will, upon transfer, cease to be an interest in the Regulation S Global Note and become an interest in the Rule 144A Global Note, and, accordingly, will thereafter be subject to all transfer restrictions and other procedures applicable to beneficial interests in the Rule 144A Global Note for as long as it remains such an interest. Any beneficial interest in a Rule 144A Global Note that is transferred to a person who takes delivery in the form of an interest in a Regulation S Global Note will, upon transfer, cease to be an interest in the Rule 144A Global Note and become an interest in the Regulation S Global Note and, accordingly, will thereafter be subject to all transfer restrictions and other procedures applicable to beneficial interests in the Regulation S Global Note for so long as it remains such an interest. No service charge will be made for any registration of transfer or exchange of Notes, but the Registrar may require payment of a sum sufficient to cover any tax or other governmental charge payable in connection therewith. Except in the limited circumstances described below, owners of beneficial interests in Global Notes will not be entitled to receive physical delivery of certificated Notes in definitive form (the “**Definitive Notes**”). The Notes are not issuable in bearer form.

Amendments to Conditions

Each Global Note contains provisions that apply to the Notes that they represent, some of which modify the effect of the above Terms and Conditions of the Notes. The following is a summary of those provisions:

- *Payments.* Payments of principal and interest in respect of Notes evidenced by a Global Note will be made against presentation for endorsement by the Principal Paying Agent and, if no further payment falls to be made in respect of the relevant Notes, surrender of such Global Note to or to the order of the Principal Paying Agent or such other Paying Agent as shall have been notified to the relevant Noteholders for such purpose. A record of each payment so made will be endorsed in the appropriate schedule to the relevant Global Note, which endorsement will be prima facie evidence that such payment has been made in respect of the relevant Notes. All payments in respect of the Notes represented by a Global Note will be made to, or to the order of, the person whose name is entered on the Register at the close of business on the Clearing System Business Day immediately prior to the date for payment, where Clearing System Business Day means Monday to Friday (inclusive), except 25 December and 1 January.
- *Notices.* So long as any Notes are evidenced by a Global Note and such Global Note is held by or on behalf of a clearing system, notices to Noteholders may be given by delivery of the relevant notice to that clearing system for communication by it to entitled account holders in substitution for delivery thereof as required by the Terms and Conditions of such Notes, and such notice shall be deemed to have been given on the date of delivery to the relevant clearing system, provided that for so long as the Notes are listed on the Irish Stock Exchange and the rules of the Irish Stock Exchange so require, notices will also be filed with the Companies Announcements Office of the Irish Stock Exchange.
- *Meetings.* The holder of each Global Note will be treated as being one person for the purposes of any quorum requirements of, or the right to demand a poll at, a meeting of Noteholders and in any such meeting as having one vote in respect of Notes for which the relevant Global Note may be exchangeable.
- *Trustee's Powers.* In considering the interests of Noteholders while the relevant Global Note is held on behalf of a clearing system, the Trustee, to the extent it considers it appropriate to do so in the circumstances, may have regard to any information provided to it by such clearing system or its operator as to the identity (either individually or by category) of its accountholders with entitlements to such Global Note and may consider such interests as if such accountholders were the holders of such Global Note.
- *Cancellation.* Cancellation of any Note required by the Terms and Conditions of the Notes to be cancelled will be effected by reduction in the principal amount of the applicable Global Note.
- *Redemption at the Option of Noteholders.* If a Change of Control Put Event (as defined in the “*Terms and Conditions of the Notes*”) occurs, the Issuer must, upon becoming aware of the occurrence of a Change of Control, promptly give notice to the Noteholders in accordance with the “*Terms and Conditions of the Notes*” and the standard procedures of DTC, Euroclear and Clearstream, Luxembourg of such Change of Control. For so long as all of the Notes are represented by the Global Notes and such Global Notes are held on behalf of Euroclear and/or Clearstream, Luxembourg and DTC, as applicable, such option of the Noteholders to require redemption of the Notes may be exercised by an accountholder (shown in the records of Euroclear and/or Clearstream, Luxembourg and DTC, as applicable, as the holder of Notes) giving notice to a Paying Agent in accordance with the standard procedures of Euroclear, Clearstream, Luxembourg and DTC, as applicable, of the principal amount of the Notes in respect of which such option is to be exercised, not later than 30 days after the Issuer has given the notice of the Change of Control referred to above. Following presentation of the relevant Global Notes to the Principal Paying Agent for notation, the Issuer shall (subject to certain limitations on the obligation of payment of the Issuer in Condition 7) redeem the relevant proportion of each Global Note five business days after the expiration of the 30 day period detailed above and the Paying Agent will mark down the Global Notes in accordance with the terms of the Agency Agreement.

Exchange for Definitive Notes

Exchange

Each Global Note will be exchangeable, free of charge to the holder, in whole but not in part, for Notes in definitive, registered form if: (i) a Global Note is held by or on behalf of (A) DTC, and DTC notifies the Issuer that it is no longer willing or able to discharge properly its responsibilities as depositary with respect to the Global Note or ceases to be a “clearing agency” registered under the Exchange Act or if at any time it is no longer eligible to act as such, and the Issuer is unable to locate a qualified successor within 90 days of receiving notice or becoming aware of such ineligibility on the part of DTC or (B) Euroclear or Clearstream, Luxembourg, and Euroclear or Clearstream, Luxembourg, as the case may be, is closed for business for a continuous period of 14 days (other than by reason of holidays, statutory or otherwise) or announces an intention permanently to cease business or does in fact do so, by the holder giving notice to the Registrar or any Transfer Agent or (ii) if the Issuer would suffer a material disadvantage in respect of the Notes as a result of a change in the laws or regulations (taxation or otherwise) of any jurisdiction referred to in Condition 8 which would not be suffered were the Notes in definitive form and a notice to such effect signed by an authorised signatory of the Issuer is delivered to the Trustee, by the Issuer giving notice to the Registrar or any Transfer Agent and the Noteholders, of its intention to exchange the relevant Global Note for Definitive Notes on or after the Exchange Date (as defined below) specified in the notice.

On or after the Exchange Date, the holder of the relevant Global Note may surrender such Global Note to or to the order of the Registrar or any Transfer Agent. In exchange for the relevant Global Note, as provided in the Agency Agreement, the Registrar will deliver, or procure the delivery of, an equal aggregate amount of duly executed and authenticated Definitive Notes in, or substantially similar to, the form set out in the relevant schedule to the Trust Deed.

The Registrar will not register the transfer of, or exchange of interests in, a Global Note for definitive Notes for a period of 15 calendar days ending on the date for any payment of principal or interest or on the date of optional redemption in respect of the Notes.

“Exchange Date” means a day falling not later than 90 days after that on which the notice requiring exchange is given and on which banks are open for business in the city in which the specified office of the Registrar or the Transfer Agent is located.

Delivery

In such circumstances, the relevant Global Note shall be exchanged in full for definitive Notes and the Issuer will, at the cost of VEB (but against such indemnity as the Registrar or any relevant Transfer Agent may require in respect of any tax or other duty of whatever nature which may be levied or imposed in connection with such exchange), cause sufficient Definitive Notes to be executed and delivered to the Registrar for completion, authentication and dispatch to the relevant Noteholders. A person having an interest in a Global Note must provide the Registrar with (a) a written order containing instructions and such other information as the Issuer and the Registrar may require to complete, execute and deliver such Notes and (b) in the case of a Rule 144A Global Note only, a fully completed, signed certification substantially to the effect that the exchanging holder is not transferring its interest at the time of such exchange or, in the case of simultaneous sale pursuant to Rule 144A, a certification that the transfer is being made in compliance with the provisions of Rule 144A to a QIB that is also a QP. Definitive Notes issued in exchange for a beneficial interest in a Rule 144A Global Note shall bear the legend applicable to transfers pursuant to Rule 144A, as set out under “Transfer Restrictions”.

Legends

The holder of a Definitive Note may transfer the Notes evidenced thereby, in whole or in part, in the applicable minimum denomination by surrendering it at the specified office of the Registrar or any Transfer Agent, together with the completed form of transfer thereon. Upon the transfer, exchange or replacement of a Rule 144A Definitive Note bearing the legend referred to under “Transfer Restrictions”, or upon specific request for removal of the legend on a Rule 144A Definitive Note, the Issuer will deliver only Rule 144A Definitive Notes that bear such legend, or will refuse to remove such legend, as the case may be, unless there is delivered to the Issuer and the Registrar such satisfactory evidence, which may include an opinion of counsel, as may reasonably be required by the Issuer that neither the legend nor the restrictions on transfer set forth therein are required to ensure compliance with the provisions of the Securities Act and the Investment Company Act.

Book-Entry Procedures for the Global Notes

For each Series of Notes evidenced by both a Regulation S Global Note and a Rule 144A Global Note, custodial and depository links are to be established between DTC, Euroclear and Clearstream, Luxembourg to facilitate the initial issue of the Notes and cross-market transfers of the Notes associated with secondary market trading. See “—*Book-Entry Ownership—Settlement and Transfer of Notes*”.

Euroclear and Clearstream, Luxembourg

Euroclear and Clearstream Luxembourg each hold securities for their customers and facilitate the clearance and settlement of securities transactions through electronic book-entry transfer between their respective accountholders. Indirect access to Euroclear and Clearstream, Luxembourg is available to other institutions which clear through or maintain a custodial relationship with an accountholder of either system. Euroclear and Clearstream, Luxembourg provide various services including safekeeping, administration, clearance and settlement of internationally-traded securities and securities lending and borrowing. Euroclear and Clearstream, Luxembourg also deal with domestic securities markets in several countries through established depository and custodial relationships. Euroclear and Clearstream, Luxembourg have established an electronic bridge between their two systems across which their respective customers may settle trades with each other. Their customers are worldwide financial institutions including underwriters, securities brokers and dealers, banks, trust companies and clearing corporations. Investors may hold their interests in such Global Notes directly through Euroclear or Clearstream, Luxembourg if they are accountholders (“**Direct Participants**”) or indirectly (“**Indirect Participants**”), and, together with Direct Participants, “**Participants**”) through organisations which are accountholders therein.

DTC

DTC has advised the Issuer as follows: DTC is a limited purpose trust company organised under the laws of the State of New York, a “banking organisation” under the laws of the State of New York, a member of the U.S. Federal Reserve System, a “clearing corporation” within the meaning of the New York Uniform Commercial Code and a “clearing agency” registered pursuant to the provisions of Section 17A of the Exchange Act. DTC was created to hold securities for its Participants and facilitate the clearance and settlement of securities transactions between Participants through electronic computerised book-entry changes in accounts of its Participants, thereby eliminating the need for physical movement of certificates. Participants include securities brokers and dealers, banks, trust companies, clearing corporations and certain other organisations. Indirect access to DTC is available to others, such as banks, securities brokers, dealers and trust companies, that clear through or maintain a custodial relationship with a DTC Direct Participant, either directly or indirectly.

Investors may hold their interests in Rule 144A Global Notes directly through DTC if they are Direct Participants in the DTC system, or as Indirect Participants through organisations which are Direct Participants in such system.

DTC has advised the Issuer that it will take any action permitted to be taken by a holder of Notes only at the direction of one or more Direct Participants and only in respect of such portion of the aggregate principal amount of the relevant Rule 144A Global Notes as to which such Participant or Participants has or have given such direction. However, in the circumstances described under “Exchange for Definitive Notes”, DTC will surrender the relevant Rule 144A Global Notes for exchange for individual Rule 144A Definitive Notes (which will bear the legend applicable to transfers pursuant to Rule 144A).

Book-Entry Ownership

Euroclear and Clearstream, Luxembourg

The Regulation S Global Note representing Regulation S Notes of any Series will have an ISIN and a Common Code and will be registered in the name of a nominee for, and deposited with a common depository on behalf of, Euroclear and Clearstream, Luxembourg. The address of Euroclear is 1 Boulevard du Roi Albert II, B1210 Brussels, Belgium, and the address of Clearstream, Luxembourg is 42 Avenue J.F. Kennedy, L-1855, Luxembourg.

DTC

The Rule 144A Global Note representing Rule 144A Notes of any Series will have a CUSIP number and, if specified in the relevant Final Terms or the Series Prospectus, as the case may be, an ISIN and Common Code and will be deposited with a custodian for and registered in the name of Cede & Co., as nominee of DTC. The Custodian and DTC will electronically record the principal amount of the Notes held within the DTC System. The address of DTC is 55 Water Street, New York, New York 10041, USA.

Relationship of Participants with Clearing Systems

Each of the persons shown in the records of Euroclear, Clearstream, Luxembourg or DTC as the holder of a Note evidenced by a Global Note must look solely to Euroclear, Clearstream, Luxembourg or DTC, as the case may be, for his share of each payment made by the Issuer to the holder of such Global Note and in relation to all other rights arising under the Global Note, subject to and in accordance with the respective rules and procedures of Euroclear, Clearstream, Luxembourg or DTC (as the case may be). The Issuer expects that, upon receipt of any payment in respect of Notes evidenced by a Global Note, the common depository by whom such Note is held, or nominee in whose name it is registered, will immediately credit the relevant participants' or accountholders' accounts in the relevant clearing system with payments in amounts proportionate to their respective beneficial interests in the principal amount of the relevant Global Note as shown on the records of the relevant clearing system or its nominee. The Issuer also expects that payments by Direct Participants in any clearing system to owners of beneficial interests in any Global Note held through such Direct Participants in any clearing system will be governed by standing instructions and customary practices. Subject to the foregoing, such persons shall have no claim directly against the Issuer in respect of payments due on the Notes for so long as the Notes are evidenced by such Global Note and the obligations of the Issuer will be discharged by payment to the registered holder, as the case may be, of such Global Note in respect of each amount so paid. None of the Issuer, the Trustee or any Agent will have any responsibility or liability for any aspect of the records relating to, or payments made on account of, ownership interests in any Global Note or for maintaining, supervising or reviewing any records relating to such ownership interests.

Settlement and Transfer of Notes

Subject to the rules and procedures of each applicable clearing system, purchases of Notes held within a clearing system must be made by or through Direct Participants, which will receive a credit for such Notes on the clearing system's records. The ownership interest of each actual purchaser of each such Note (the "**Beneficial Owner**") will in turn be recorded on the Direct and Indirect Participants' records. Beneficial Owners will not receive written confirmation from any clearing system of their purchase, but Beneficial Owners are expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the Direct or Indirect Participant through which such Beneficial Owner entered into the transaction.

Transfers of ownership interests in Notes held within the clearing system will be affected by entries made on the books of Participants acting on behalf of Beneficial Owners. Beneficial Owners will not receive certificates representing their ownership interests in such Notes, unless and until interests in any Global Note held within a clearing system are exchanged for Definitive Notes.

No clearing system has knowledge of the actual Beneficial Owners of the Notes held within such clearing system and their records will reflect only the identity of the Direct Participants to whose accounts such Notes are credited, which may or may not be the Beneficial Owners. The Participants will remain responsible for keeping account of their holdings on behalf of their customers. Conveyance of notices and other communications by the clearing systems to Direct Participants, by Direct Participants to Indirect Participants, and by Direct Participants and Indirect Participants to Beneficial Owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

The laws of some jurisdictions may require that certain persons take physical delivery in definitive form of securities. Consequently, the ability to transfer interests in a Global Note to such persons may be limited. Because DTC can only act on behalf of Direct Participants, who in turn act on behalf of Indirect Participants, the ability of a person having an interest in a Rule 144A Global Note held through DTC to pledge such interest to persons or entities that do not participate in DTC, or otherwise take actions in respect of such interest, may be affected by a lack of physical certificate in respect of such interest.

Trading between Euroclear and/or Clearstream, Luxembourg Participants

Secondary market sales of book-entry interests in the Notes held through Euroclear or Clearstream, Luxembourg to purchasers of book-entry interests in the Notes held through Euroclear or Clearstream, Luxembourg will be conducted in accordance with the normal rules and operating procedures of Euroclear and Clearstream, Luxembourg and will be settled using the procedures applicable to conventional Eurobonds.

Trading between DTC Participants

Secondary market sales of book-entry interests in the Notes between DTC participants will occur in the ordinary way in accordance with DTC rules and will be settled using the procedures applicable to United States corporate debt obligations in DTC's Same-Day Funds Settlement ("SDFS") system in same-day funds, if payment is effected in U.S. Dollars, or free of payment, if payment is not effected in U.S. Dollars. Where payment is not effected in U.S. Dollars, arrangements may be put in place for a Series of Notes for DTC participants to either elect to receive such non-U.S. Dollar payment outside of DTC or for such non-U.S. Dollar payment to be converted into U.S. Dollars by a foreign exchange agent at the applicable U.S. Dollar spot rate prevailing on or about the relevant time of such payment and for such converted U.S. Dollar amount to be paid through DTC.

Trading between DTC seller and Euroclear/Clearstream, Luxembourg purchaser

When book-entry interests in Notes are to be transferred from the account of a DTC participant holding a beneficial interest in a Rule 144A Global Note to the account of a Euroclear or Clearstream, Luxembourg accountholder wishing to purchase a beneficial interest in a Regulation S Global Note (subject to the certification procedures provided in the Agency Agreement), the DTC participant will deliver instructions for delivery to the relevant Euroclear or Clearstream, Luxembourg accountholder to DTC by 12:00 p.m., New York time, on the settlement date. Separate payment arrangements are required to be made between the DTC participant and the relevant Euroclear or Clearstream, Luxembourg participant. On the settlement date, the custodian of the Rule 144A Global Note will instruct the Registrar to (i) decrease the amount of Notes registered in the name of Cede & Co. and evidenced by the Rule 144A Global Note of the relevant class and (ii) increase the amount of Notes registered in the name of the nominee of the common depository for Euroclear and Clearstream, Luxembourg and evidenced by the Regulation S Global Note. Book-entry interests will be delivered free of payment to Euroclear or Clearstream, Luxembourg, as the case may be, for credit to the relevant accountholder on the first business day following the settlement date.

Trading between Euroclear/Clearstream, Luxembourg seller and DTC purchaser

When book-entry interests in the Notes are to be transferred from the account of a Euroclear or Clearstream, Luxembourg accountholder to the account of a DTC participant wishing to purchase a beneficial interest in a Rule 144A Global Note (subject to the certification procedures provided in the Agency Agreement), the Euroclear or Clearstream, Luxembourg participant must send to Euroclear or Clearstream, Luxembourg delivery free of payment instructions by 7:45 p.m., Brussels or Luxembourg time, one business day prior to the settlement date. Euroclear or Clearstream, Luxembourg, as the case may be, will in turn transmit appropriate instructions to the common depository for Euroclear and Clearstream, Luxembourg and the Registrar to arrange delivery to the DTC participant on the settlement date. Separate payment arrangements are required to be made between the DTC participant and the relevant Euroclear or Clearstream, Luxembourg accountholder, as the case may be. On the settlement date, the common depository for Euroclear and Clearstream, Luxembourg will (a) transmit appropriate instructions to the custodian of the Rule 144A Global Note who will in turn deliver such book-entry interests in the Notes free of payment to the relevant account of the DTC participant and (b) instruct the Registrar to (i) decrease the amount of Notes registered in the name of the nominee of the common depository for Euroclear and Clearstream, Luxembourg and evidenced by a Regulation S Global Note; and (ii) increase the amount of Notes registered in the name of Cede & Co. and evidenced by a Rule 144A Global Note.

Although Euroclear, Clearstream, Luxembourg and DTC have agreed to the foregoing procedures in order to facilitate transfers of beneficial interest in Global Notes among participants and accountholders of Euroclear, Clearstream, Luxembourg and DTC, they are under no obligation to perform or continue to perform such procedure, and such procedures may be discontinued at any time. None of the Issuer, the Trustee or any Agent will have the responsibility for the performance by Euroclear, Clearstream, Luxembourg or DTC or their respective Direct or Indirect Participants of their respective obligations under the rules and procedures governing their operations.

Pre-issue Trades Settlement

It is expected that delivery of Notes will be made against payment therefor on the Closing Date thereof, which could be more than three business days following the date of pricing. Under Rule 15c6-1 under the Exchange Act, trades in the United States secondary market generally are required to settle within three business days (T+3), unless the parties to any such trade expressly agree otherwise. Accordingly, in instances where the Closing Date is more than three business days following the pricing date, the purchasers who wish to trade Notes in the United States on the date of pricing or the next succeeding business days until three days prior to the relevant Closing Date will be required, by virtue of the fact the Notes initially will settle beyond T+3, to specify an alternate settlement cycle at the time of any such trade to prevent a failed settlement. Settlement procedures in other countries will vary. Purchasers of Notes may be affected by such local settlement practices, and purchasers of Notes between the relevant date of pricing and the relevant Closing Date should consult their own advisers.

SUBSCRIPTION AND SALE

SUMMARY OF DEALER AGREEMENT

Subject to the terms and on the conditions contained in the dealer agreement dated 24 June 2010, between the Issuer, VEB, the Permanent Dealers and the Arrangers (the “**Dealer Agreement**”), the Notes will be offered from time to time by the Issuer to the relevant Dealers or such other Dealers as may be appointed from time to time in respect of any Series of Notes pursuant to the Dealer Agreement. Any agreement for the sale of Notes will, inter alia, make provision for the form and terms and conditions of the relevant Notes, whether the placement of the Notes is underwritten or sold on an agency basis only, the price at which such Notes will be purchased by the Dealers and the commissions or other agreed deductibles (if any) which are payable or allowable by the Issuer in respect of such purchase and the form of any indemnity to the Dealers against certain liabilities in connection with the offer and sale of the relevant Notes. The Notes may be resold at prevailing market prices, or at prices related thereto, at the time of such resale, as determined by the relevant Dealer. The Dealer Agreement also provides for Notes to be issued in syndicated Series that may be jointly and severally underwritten by two or more Dealers.

Each of the Issuer and VEB has agreed to indemnify the Dealers against certain losses, as set forth in the Dealer Agreement. The Dealer Agreement entitles the Dealers to terminate any agreement that they make to subscribe for the Notes in certain circumstances prior to payment for such Notes being made to the Issuer.

SELLING RESTRICTIONS

United States

The Notes and the corresponding Loans have not been and will not be registered under the Securities Act, the securities laws of any State or other jurisdiction of the United States, and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. Persons within the meaning of Regulation S (“**U.S. Persons**”) except in certain transactions exempt from or not subject to the registration requirements of the Securities Act.

Each Dealer has agreed that, except as permitted by the Dealer Agreement, it will not offer or sell the Notes (i) as part of their distribution at any time or (ii) otherwise until 40 days after the completion of the distribution compliance period within the United States or to, or for the account or benefit of, U.S. Persons, and it will have sent to each dealer to which it sells Notes (other than a sale pursuant to Rule 144A) during the distribution compliance period a confirmation or other notice setting forth the restrictions on offers and sales of the Notes within the United States or to, or for the account or benefit of, U.S. Persons.

In addition, until 40 days after the commencement of the offering of the Notes, an offer or sale of Notes within the United States, or to or for the account of a U.S. Person, by a dealer that is not participating in the offering may violate the registration requirements of the Securities Act if such offer or sale is made otherwise than in accordance with Rule 144A.

Terms used in the preceding paragraph have the meanings given to them by Regulation S under the Securities Act.

Notes offered and sold outside the United States to non-U.S. Persons may be sold in reliance on Regulation S. The Dealer Agreement provides that the Dealer(s) may directly or through their respective U.S. broker-dealer affiliates arrange for the offer and resale of Notes within the United States only to persons whom they reasonably believe are QIBs and also QPs who can represent that (a) they are QIBs who are also QPs within the meaning of Rule 144A, (b) they are not broker-dealers who own and invest on a discretionary basis less than U.S.\$25 million in securities of unaffiliated issuers, (c) they are not a participant-directed employee plan, such as 401(k) plan, (d) they are acting for their own account, or the account of one or more QIBs each of which is also a QP, (e) they are not formed for the purpose of investing in the Issuer or the Notes, (f) they, and each account for which they are purchasing, will hold and transfer at least U.S.\$200,000 in principal amount of Notes at any time, (g) they understand that the Issuer may receive a list of participants holding positions in its securities from one or more book-entry depositories, and (h) they will provide notice of the transfer restrictions set forth in this Base Prospectus to any subsequent transferees.

This Base Prospectus has been prepared by the Issuer and VEB for use in connection with the offer and sale of the Notes outside the United States and the resale of the Notes in the United States and for the listing of Notes on the Irish Stock Exchange. The Issuer and the Dealers reserve the right to reject any offer to purchase the Notes, in whole or in part, for any reason. This Base Prospectus does not constitute an offer to any person in the United States or to any U.S. Person other than any QIB who is also a QP and to whom an offer has been made directly by one of the Dealers or its U.S. broker-dealer affiliate. Distribution of this Base Prospectus by any non-U.S. Person outside the United States or by any QIB that is also a QP within the United States to any U.S. Person or to any other person within the United States, other than any QIB that is also a QP and those persons, if any, retained to advise such non-U.S. Person or QIB that is also a QP with respect thereto, is unauthorised and any disclosure without the prior written consent of the Issuer of any of its contents to any such U.S. Person or other person within the United States, other than any QIB that is a QP and those persons, if any, retained to advise such non-U.S. Person or QIB that is also a QP, is prohibited.

United Kingdom

Each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that:

- (a) in relation to any Notes which have a maturity of less than one year, (i) it is a person whose ordinary activities involve it in acquiring, holding, managing or disposing of investments (as principal or agent) for the purposes of its business and (ii) it has not offered or sold and will not offer or sell any Notes other than to persons whose ordinary activities involve them in acquiring, holding, managing or disposing of investments (as principal or as agent) for the purposes of their businesses or who it is reasonable to expect will acquire, hold, manage or dispose of investments (as principal or agent) for the purposes of their businesses where the issue of the Notes would otherwise constitute a contravention of Section 19 of the FSMA by the Issuer;
- (b) it has only communicated or caused to be communicated and will only communicate or cause to be communicated an invitation or inducement to engage in investment activity (within the meaning of Section 21 of the FSMA) received by it in connection with the issue or sale of any Notes in circumstances in which Section 21(1) of the FSMA does not apply to the Issuer; and
- (c) it has complied and will comply with all applicable provisions of the FSMA with respect to anything done by it in relation to any Notes in, from or otherwise involving the United Kingdom.

Russian Federation

Each Dealer has agreed that the Notes will not be offered, transferred or sold as part of their initial distribution or at any time thereafter to or for the benefit of any persons (including legal entities) resident, incorporated, established or having their usual residence in the Russian Federation or to any person located within the territory of the Russian Federation unless and to the extent otherwise permitted under Russian Law.

Ireland

Each Dealer has represented, warranted and agreed that, and each further Dealer appointed under the Programme will be required to represent, warrant and agree, that:

- (a) it will not underwrite the issue of, or place the Notes, otherwise than in conformity with the provisions of the European Communities (Markets in Financial Instruments) Regulations 2007 (Nos. 1 to 3) (as amended) including, without limitation, Regulations 7 and 152 thereof and any codes of conduct used in connection therewith and the provisions of the Investor Compensation Act 1998;
- (b) it will not underwrite the issue of, or place, the Notes, otherwise than in conformity with the provisions of the Companies Acts 1963-2012 (as amended), the Central Bank Acts 1942 - 2013 and any codes of conduct rules made under Section 117(1) of the Central Bank Act 1989;
- (c) it will not underwrite the issue of, or place, or do anything in Ireland in respect of the Notes otherwise than in conformity with the provisions of the Prospectus (Directive 2003/71/EC) Regulations 2005 (as amended) and any rules issued under Section 51 of the Investment Funds, Companies and Miscellaneous Provisions Act 2005, by the Central Bank of Ireland; and

- (d) it will not underwrite the issue of, place or otherwise act in Ireland in respect of the Notes, otherwise than in conformity with the provisions of the Market Abuse (Directive 2003/6/EC) Regulations 2005 (as amended) and any rules issued under Section 34 of the Investment Funds, Companies and Miscellaneous Provisions Act 2005 by the Central Bank of Ireland.

General

Each Dealer has agreed that it has, to the best of its knowledge and belief, complied and will comply with applicable laws, regulations and directives in each jurisdiction in which it offers, sells or delivers Notes or distributes this Base Prospectus (and any amendments thereof and supplements thereto) or any other offering or publicity material relating to the Notes, the Issuer or VEB.

Other than the approval of this Base Prospectus by the Central Bank of Ireland, no action has or will be taken in any jurisdiction by the Issuer, VEB or any of the Dealers that would, or is intended to, permit a public offer of the Notes or possession or distribution of any offering material in relation thereto, in any country or jurisdiction where action for that purpose is required. Accordingly, each Dealer has undertaken to the Issuer and VEB that it will not, directly or indirectly, offer or sell any Notes or distribute or publish any Base Prospectus, form of application, advertisement or other document or information in any country or jurisdiction except under circumstances that will, to the best of its knowledge and belief, result in compliance with any applicable laws and regulations and all offers and sales of Notes by it will be made on the same terms.

These selling restrictions may be modified by the agreement of the Issuer, VEB and the Dealers following a change in a relevant law, regulation or directive. Any such modification will be set out in a supplement to this Base Prospectus.

The Arrangers, the Dealers and their respective affiliates have engaged in transactions with VEB and other members of the Group (including, in some cases, credit agreements and credit lines) in the ordinary course of their banking business and the Arrangers and the Dealers performed various investment banking, financial advisory, and other services for VEB, for which they received customary fees, and the Arrangers, the Dealers and their respective affiliates may provide such services in the future.

TAXATION

The following is a general description of certain tax laws relating to the Notes. It does not purport to be a complete analysis of all tax considerations relating to every Series of Notes, whether in those countries referred to or elsewhere. Prospective purchasers of any Series of Notes are advised to consult their own tax advisors as to the consequences of the purchase, ownership and disposition of any Series of Notes in light of their particular circumstances, including, but not limited to, the consequences of the receipt of interest and the sale or redemption of any Series of Notes. This summary is based upon the law as in effect on the date of this Base Prospectus and is subject to any change in law that may take effect after such date. The information and analysis contained within this section are limited to taxation issues, and prospective investors should not apply any information or analysis set out below to other areas, including (but not limited to) the legality of transactions involving the Notes.

RUSSIAN FEDERATION

General

The following is a summary of certain Russian tax considerations relevant to the purchase, ownership and disposition of any Series of Notes as well as the taxation of interest payments on any corresponding Loan. The summary is based on the laws of the Russian Federation in effect on the date of this Base Prospectus. The information and analysis contained within this section are limited to taxation issues, and prospective investors should not apply any information or analysis set out below to other areas, including (but not limited to) the legality of transactions involving any Series of Notes. The summary does not seek to address the applicability of, or procedures in relation to, taxes levied by regions, municipalities or other non-Federal level authorities of the Russian Federation, nor does the summary seek to address the availability of double tax treaty relief in respect of income payable on any Series of Notes, or practical difficulties involved in claiming such double tax treaty relief. The analysis set out herein does not include any comments on tax implications which could arise for Noteholders in connection with entering into REPO or stock lending transactions with any Series of the Notes or into term deals, derivatives and/or any similar types of transactions with any Series of the Notes.

Prospective investors should consult their own tax advisors regarding the tax consequences of investing in the Notes in their own particular circumstances. No representation with respect to the Russian tax consequences pertinent to any particular Noteholder is made hereby.

Many aspects of Russian tax law are subject to significant uncertainty and lack of interpretive guidance. Further, the substantive provisions of Russian tax law applicable to financial instruments may be subject to more rapid and unpredictable change (possibly with retroactive effect) and inconsistency than in jurisdictions with more developed capital markets and tax systems. In particular, the interpretation and application of such provisions will, in practice, rest substantially with local tax inspectorates and the meaning of the interpretations may constantly change.

In practice, interpretation of tax laws and regulations by different tax inspectorates may be inconsistent or contradictory, and may result in the imposition of conditions, requirements or restrictions that are not explicitly stated by the law. Similarly, in the absence of binding precedent, court rulings on tax or other related matters adopted by different courts relating to the same or similar circumstances may also be inconsistent or contradictory.

For the purposes of this summary, a “**Non-Resident Noteholder**” means:

- an individual Noteholder who does not satisfy the criteria for being a Russian tax resident. This means an individual not actually present in the Russian Federation for an aggregate period of 183 calendar days or more in any consecutive 12-month period who acquires, holds and disposes of the Notes (“**Non-Resident Noteholder-Individual**”); or
- a legal entity or an organisation in each case not organised under Russian law which holds and disposes of the Notes otherwise than through a permanent establishment in the Russian Federation (“**Non-Resident Noteholder-Legal Entity**”).

For the purposes of this summary, a “Resident Noteholder” means any Noteholder not qualifying as a Non-Resident Noteholder.

For the purposes of this summary, the definitions of “Resident Noteholder” and “Non-Resident Noteholder” in respect of individuals are taken at face value based on the wording of the tax law as currently written. In practice however the application of the above formal residency definition may differ based on the position of the tax authorities. The law is currently worded in a way that implies the potential for a split year residency for individuals. However, both the Russian Ministry and the tax authorities have expressed the view that an individual should be either resident or non-resident in the Russian Federation for the full year and consequently even where travel patterns dictate different residency statuses for different parts of the tax year, the application of the residency tax rate may in practice be disallowed. This situation may be altered by amendments to articles of the Russian Tax Code dealing with taxation of individuals, a change in the position of the authorities or by judgments of tax controversies in the courts. Tax residency rules and the Russian Federation’s rights with regard to taxation rules may be affected by an applicable double tax treaty.

The Russian tax treatment of interest payments made by VEB to the Issuer or to the Trustee under the Facility Agreement may affect the holders of the Notes. See “—*Taxation of Interest on the Loan*”.

Taxation of the Notes

Non-Resident Noteholders

A Non-Resident Noteholder generally should not be subject to any Russian taxes in respect of payments of purchase, ownership and disposition of the Notes, subject to the following paragraph. Taxation of interest on the Notes may however be affected by the taxation treatment of interest on any Loan.

The acquisition of Notes by a Non-Resident Noteholder-Individual may constitute a taxable event pursuant to the provisions of the Russian Tax Code relating to the material benefit (deemed income) received as a result of the acquisition of securities. If the acquisition price of the Notes is below the lower margin of the fair market value calculated under a specific procedure for the determination of market prices of securities for Russian personal income tax purposes, the difference may be subject to Russian personal income tax at the rate of 30% (or such other tax rate as may be effective at the time of acquisition), which is arguably subject to reduction or elimination under the applicable double tax treaty. Although the Russian Tax Code does not contain any provisions in relation to how the material benefit should be sourced, it may be inferred that such income should be considered as Russian source income if the Notes are purchased “in the Russian Federation”. In the absence of any additional guidance as to what should be considered as a purchase “in the Russian Federation”, the Russian tax authorities may use various criteria to determine the source of any such material benefit, including looking at the place of conclusion of acquisition transaction, the location of the Issuer, or other similar criteria. There is, therefore, no assurance that as a result any material benefit received by the Non-Resident Noteholders—Individuals in connection with the acquisition of the Notes will not become taxed in Russia.

The acquisition of the Notes by Non-Resident Noteholder-Legal Entities should not constitute a taxable event and there should be no Russian tax implications for the Non-Resident Noteholder-Legal Entities associated with acquisition of the Notes.

A Non-Resident Noteholder also generally should not be subject to any Russian taxes in respect of any gain or other income realised on redemption, sale or other disposal of the Notes outside the Russian Federation, provided that the proceeds from such disposition are not received from a source within the Russian Federation.

In the event that proceeds from a disposition of the Notes are received from a source within the Russian Federation, a Non-Resident Noteholder-Legal Entity should not be subject to Russian withholding tax on any gain on sale or other disposition of the Notes, although there is some uncertainty regarding the treatment of the portion of the proceeds, if any, from disposition of the Notes that is attributable to accrued interest on the Notes. Subject to reduction or elimination under provisions of an applicable double tax treaty that are related to interest income, proceeds attributable to accrued interest may be taxed at a rate of 20% (or such other tax rate as may be effective at the time of disposal), even if the disposal results in a capital loss.

According to Russian tax legislation, taxation of income of Non-Resident Noteholder-Individuals will depend on whether this income is received from Russian or non-Russian sources. Russian tax law gives no clear indication as to how the sale of securities should be sourced, other than that income from the sale of securities “in the Russian Federation” should be considered as Russian-source income. As there is no further definition of what should be considered as a sale “in the Russian Federation”, the Russian tax authorities have a certain

amount of freedom to conclude what transactions take place in or outside the Russian Federation, as discussed above.

In the event the proceeds from a disposal of the Notes by a Non-Resident Noteholder-Individual are classified as income from a source within the Russian Federation for Russian personal income tax purposes, the gain, as such, will be subject to Russian personal income tax at a rate of 30% (or such other tax rate as may be effective at the time of payment) unless such tax is reduced or eliminated under an applicable double tax treaty. The tax will apply to the gross amount of sales or disposal proceeds received upon the disposition of the Notes (including accrued and paid interest on the Notes) decreased by the amount of any available duly documented cost deductions (including the original acquisition costs and other documented expenses related to the acquisition, holding and the sale or other disposal of the Notes) provided that such documentation is duly executed and is available to the person obliging to calculate and withhold the tax in a timely manner. There is a risk that, if the documentation supporting the cost deductions is deemed insufficient by the Russian tax authorities or the person remitting the respective income to the Non-Resident Noteholders—Individuals (where such person is considered as the tax agent obliging to calculate and withhold Russian personal income tax and remit it to the Russian budget), the deduction will be disallowed and the tax will apply to the gross amount of the sales or disposal proceeds.

In certain circumstances, gains received and losses incurred by a Non-Resident Noteholder-Individual as a result of the sale or other disposal of the Notes and other securities of the same category occurring within the same tax year may be aggregated for Russian personal income tax purposes, which could affect the total amount of income of the Non-Resident Noteholder-Individual subject to taxation in Russia.

If the disposal proceeds are paid to the Non-Resident Noteholder-Individual by a licensed broker or an asset manager that is a Russian legal entity carrying out operations for the benefit of the Non-Resident Noteholder-Individual under an asset management agreement, a brokerage agreement, an agency agreement, a commission agreement or a commercial mandate agreement, the applicable Russian personal income tax at the rate of 30% (or such other tax rate as may be effective at the time of payment) will be withheld at the source by the person acting as the tax agent.

When a sale is made to other legal entities or individuals, generally no Russian personal income tax should be withheld at source by these persons and the Non-Resident Noteholder-Individual would be required to file a tax return individually on a self-assessment basis and report his or her income realised to the Russian tax authorities and, upon provision of relevant supporting documentation, able to apply for a deduction of acquisition expenses. The applicable tax would then have to be paid by the individual on the basis of the tax return.

There is also a risk that any gain derived from a disposition of the Notes may be affected by changes in the exchange rate between the currency used to acquire the Notes, the currency used to dispose of the Notes and Roubles.

Non-Resident Noteholders should consult their own tax advisors with respect to the tax consequences of the disposal of the Notes and on the tax consequences of the receipt of proceeds from a source within the Russian Federation in respect of a disposal of the Notes.

Tax Treaty Relief

The Russian Federation has concluded double tax treaties with a number of countries and honours some double tax treaties concluded by the former Union of Soviet Socialist Republics. These tax treaties may contain provisions that reduce or eliminate Russian tax due with respect to income received from a source within the Russian Federation by a Non-Resident Noteholder on a disposition of the Notes. To obtain the benefit of such tax treaty provisions, the Noteholder must comply with the certification, information, and reporting requirements in force in the Russian Federation (relating, in particular, to the confirmation of the entitlement and eligibility to treaty benefits).

For treaty relief from Russian withholding tax, preliminary approval from the Russian tax authorities is not required.

Currently, a Non-Resident Noteholder-Legal Entity should provide the payer of income with a certificate of tax residence issued by the competent tax authority of the relevant treaty country in advance of the first payment of income in a given year. This certificate should confirm that the respective Non-Resident Noteholder-Legal

Entity is the tax resident of the relevant double tax treaty country for the purposes of the respective treaty. The Russian tax legislation does not provide any further guidance on the format of documents confirming tax residence of a foreign company in a foreign state. The Russian tax authorities provide some additional guidance on this matter in their Methodological Recommendations “Concerning Special Considerations Relating to the Taxation of Foreign Legal Entities” adopted by Order of the Russian Ministry for Taxes and Levies No. BG-3-23/150@ of 28 March 2003 (the “**Recommendations**”). Although the Recommendations were abolished by Order of the Federal Tax Service No. MMB-7-3/980@ of 19 December 2012, the guidance on tax residency certificate form, timing for its provision contained in the Recommendations had been used for many years in practice and tax residency certificates prepared in accordance with this guidance were accepted by the tax authorities. Specifically, the Recommendations stated that the certificate should confirm that non-Russian legal entity is the tax resident of the relevant double tax treaty in particular calendar year during which income is paid, should be apostilled or legalised and needs to be renewed on an annual basis. A notarised Russian translation of the certificate was also required. Since the Recommendations were annulled there is no guarantee that the tax residency certificate prepared in accordance with the guidance contained in the Recommendations would be accepted by the Russian tax authorities, although it is possible to argue that the format proposed in the Recommendations became usual business practice and could be applied in the absence of any further guidance. In addition, the payer of income in practice may request additional documents confirming the eligibility of the Non-Resident Noteholder-Legal Entity to the benefits of the double tax treaty. There can be no assurance that advance treaty relief will be available in practice.

A Non Resident Noteholder-Individual, in order to use the benefits of the double tax treaties, must provide to the Russian tax authorities a tax residency certificate issued by the competent authorities in his or her country of residence for tax purposes and a confirmation from the relevant foreign tax authorities of income received and the tax payment made outside the Russian Federation on income with respect to which treaty benefits are claimed. Such requirements may be imposed even though they could directly contradict the provisions of the respective double tax treaty. Technically, such requirements mean that a Non-Resident Noteholder- Individual cannot rely on the double tax treaty until he or she pays the tax in the jurisdiction of his or her tax residency. Individuals in practice may be unable to obtain advance treaty relief on receipt of proceeds from a source within the Russian Federation, as it is very unlikely that the supporting documentation for the treaty relief can be provided to the Russian tax authorities and, consequently, approval from the latter can be obtained before the receipt of income occurs.

Non-Resident Noteholders should consult their own tax advisors regarding possible tax treaty relief and procedures required to be fulfilled for obtaining such relief with respect to any Russian taxes imposed in respect of proceeds received in connection with the acquisition and disposition of the Notes.

Refund of Tax Withheld

If Russian withholding tax on income derived from Russian sources by a Non-Resident Noteholder - Legal Entity was withheld at source despite the domestic release of such income from Russian withholding tax or the right of such Non-Resident Noteholder - Legal Entity to rely on benefits of the applicable double tax treaty allowing it not to pay the tax or to pay the tax at a reduced tax rate in relation to such income, a claim for a refund of such tax that was excessively withheld at the source can be filed with the Russian tax authorities within three years from the end of the tax period in which the tax was withheld provided that such Non-Resident Noteholder - Legal Entity is entitled to the benefits of the applicable double tax treaty allowing it not to pay the tax or allowing it to pay the tax at a reduced tax rate in relation to such income.

If Russian personal income tax on income derived from Russian sources by a Non-Resident Noteholder—Individual was withheld at source despite the right of this Non- Resident Noteholder—Individual to rely on benefits of the applicable double tax treaty allowing not to pay the tax in Russia or allowing to pay the tax at a reduced tax rate in relation to such income, a claim for application of the benefits of the applicable double tax treaty should be filed with the Russian tax authorities together with the supporting documents envisaged by this double tax treaty confirming the right of the Non-Resident Noteholder-Individual to such benefits within one year following the year in which the tax was withheld. An application for a refund of Russian personal tax which was excessively withheld at source may be filed with the tax agent within three years following the date when the tax was withheld/ paid. In the absence of the tax agent who withheld the Russian personal income tax under consideration, e.g. when the tax has been paid on the basis of the tax return, such an application may be filed with the Russian tax authorities within the same period (three years) accompanied by the Russian tax return from the date when the tax was paid.

The Russian tax authorities may, in practice, require a wide variety of documentation confirming a Non-Resident Noteholder's right to obtain relief under an applicable double tax treaty. Such documentation may not be explicitly required by the Russian Tax Code.

Obtaining a refund of Russian taxes excessively withheld at the source is likely to be a time consuming process and no assurance can be given that such a refund will be granted in practice.

Non-Resident Noteholders should consult their own tax advisors regarding possible tax treaty relief and procedures required to be fulfilled for obtaining such relief with respect to any Russian taxes imposed in respect of proceeds received in connection with the acquisition and disposition of the Notes.

Resident Noteholders

A Resident Noteholder will be subject to all applicable Russian taxes in respect of income derived in connection with the acquisition, holding, disposition or redemption of the Notes by them. Resident Noteholders should consult their own tax advisors with respect to the effect that acquisition, holding and disposal of the Notes may have on their tax position.

Taxation of Interest on the Loan

In general, payments of interest on borrowed funds made by a Russian entity to a non-resident legal entity or organisation which are connected with the entrepreneurial activities of such foreign legal entity or organisation in Russia not leading to a permanent establishment in Russia are subject to Russian withholding tax at a rate of 20% (or such other rate as may be effective at the time of payment) which could be potentially reduced or eliminated under the terms of an applicable double tax treaty subject to timely compliance with the respective treaty clearance formalities by the interest recipient. In particular, the Agreement between the Government of Ireland and the Russian Government for the Avoidance of Double Taxation with respect to Taxes on Income signed on 29 April 1994 (the "**Agreement**") generally allows exempting interest income from Russian withholding tax provided certain requirements are satisfied by the recipient of interest income in a timely manner.

A change in the way the Russian tax authorities interpret the concept of factual/beneficial income's owner may affect the application of the tax benefits under the Agreement. Specifically, on 30 December 2011, the Russian Ministry of Finance issued letter No. 03-08-13/1 (the "**Letter**") addressed to the Federal Tax Service, noting, in the context of Eurobond structure which is not identical to the Notes, that a foreign issuer of Eurobonds is not a beneficial owner of the interest income. Therefore it cannot benefit from the provisions of the Agreement in respect of interest that the Russian borrower pays to the issuer. Conversely, the Letter says that the noteholders could apply provisions of the respective tax treaty (if any) between Russia and the country of their residency. VEB cannot exclude the possibility that the Russian tax authorities might apply the same approach to the payments that VEB makes under the Notes.

Notwithstanding the foregoing, Federal Law No. 97-FZ dated 29 June 2012 "On introduction of amendments in part one and two of the Tax Code of the Russian Federation and Article 26 of Federal law on banks and banking activity" ("**Law No. 97-FZ**") provides an exemption from withholding tax for certain Eurobond structures. Law No. 97-FZ fully releases Russian borrowers from the obligation to withhold tax from interest if the underlying loan agreement meets the following two conditions:

- (1) interest is paid on debt obligations of Russian entities that arose in connection with the placement by foreign entities of "issued bonds," which are defined as bonds or other debt obligations (a) listed and/or admitted to trading on one of the specified foreign exchanges and/or (b) that have been registered in foreign depository/clearing organisations. Federal Service for Financial Markets (currently, the Bank of Russia Financial Markets Service) approved the lists of qualifying foreign exchanges and foreign depository/clearing organisations in its Order № 12-91/pz-n dated 25 October 2012 (the "**Order**"). The Russian Ministry of Justice of the Russian Federation registered the Order on 7 December 2012. The Order was published on 19 December 2012 and came into force on 30 December 2012. The Irish Stock Exchange and the clearing systems Euroclear and Clearstream, Luxembourg were included in the above-mentioned lists. The connection between the loan and the issued bonds should be evident and supported with certain documents, which are set forth in Law No. 97-FZ; and

- (2) there is a double tax treaty between the Russian Federation and the jurisdiction of tax residence of any Loan interest income recipient (i.e., the Issuer) which can be confirmed by a tax residency certificate.

Law No. 97-FZ releases the borrowers from the obligation to withhold tax on interest retrospectively in relation to income that the borrowers paid since 2007. This release will be available to Eurobond issues (such as the Notes) taking place before 1 January 2014. In 2013, Law No. 97-FZ was amended with the effect from 2014. Pursuant to the amendments, the release will remain applicable to the issues taking place in 2014 or later.

VEB believes that it should be possible to satisfy the conditions of Law No. 97-FZ. As a result of that, VEB will not have an obligation to withhold income tax from payments of interest on any Loan from the Issuer funded by the proceeds of the Notes.

Importantly, Law No. 97-FZ does not provide explicit exemption to the foreign interest income recipients from Russian withholding tax, although currently there is no requirement in the Russian tax legislation for the foreign income recipients being the legal entities to self-assess and pay the tax to the Russian tax authorities. The Russian Ministry of Finance acknowledged in its information letter published on its website that the release from obligation to act as a tax agent means, in effect, that tax at source within Russia should not arise in connection with Eurobonds, since there is neither a mechanism nor obligation for a non-resident to independently calculate and pay such tax. There can be no assurance that such rules will not be introduced in the future or that the practice will not change and Russian tax authorities would not make attempts to collect the tax from the foreign income recipients, including the Issuer or the Noteholders.

If interest and/or any other amounts due under any Loan become payable to the Trustee pursuant to the Trust Deed, there is some residual uncertainty whether the release from the obligation to withhold tax under Law No. 97-FZ is available to the Trustee. There is a potential risk that Russian withholding tax in respect of payments of interest and certain other amounts at the rate of 20% (or such other tax rate as may be effective at the time of such payment) or Russian personal income tax at the rate of 30% (or such other tax rate that may be effective at the time of such payment) may be deducted by VEB upon making such payments to the Trustee. It is not expected that the Trustee will, or will be able to, claim a Russian withholding tax exemption or reduction under applicable double tax treaty under such circumstances. In addition, while some Noteholders that are foreign persons not residing in Russia for tax purposes may seek a reduction or elimination of Russian withholding tax or personal income tax, as applicable, or a refund of withholding tax under applicable double tax treaties entered into between countries of their tax residence and the Russian Federation, there is, however, no assurance that in such circumstances the treaty relief will be available for Noteholders in practice.

If any payments under any Loan are subject to any withholding of Russian tax (as a result of which the Issuer will be required to reduce payments made by it under the corresponding Series of Notes by the amount of such withholding), VEB is obliged (subject to certain conditions) to increase payments under the relevant Loan Agreement as may be necessary so that the net payments received by the Issuer and the Noteholders will be equal to the amounts they would have received in the absence of such withholding ("tax gross-up"). It should be noted, however, that tax gross-up provisions may be not enforceable under Russian law. There is a risk that tax gross-up for Russian withholding tax will not take place and that payments made by VEB under the relevant Loan will be reduced by the amount of the Russian income tax or Russian personal income tax withheld by VEB at source.

In the event that VEB fails to make increased payments, such failure would constitute an Event of Default pursuant to the relevant Loan Agreement. If VEB is obliged to increase payments under any Loan Agreement, it may (without premium or penalty), subject to certain conditions, prepay such Loan in full. In such a case, all outstanding Notes would be redeemable at par with accrued and unpaid interest and additional amounts, if any, to the date of redemption.

No value added tax will be payable in the Russian Federation in respect of interest and principal payments under each Loan.

IRISH TAXATION

Introduction

The following is a summary of the principal Irish tax consequences for individuals and companies of ownership of the Notes based on the laws and practice of the Irish Revenue Commissioners currently in force in Ireland

and may be subject to change. It deals with Noteholders who beneficially own their Notes as an investment. Particular rules not discussed below may apply to certain classes of taxpayers holding Notes, such as dealers in securities, trusts, etc. The summary does not constitute tax or legal advice and the comments below are of a general nature only. Prospective investors in the Notes should consult their professional advisers on the tax implications of the purchase, holding, redemption or sale of the Notes and the receipt of interest thereon under the laws of their country of residence, citizenship or domicile.

Taxation of Noteholders

Withholding Tax

In general, tax at the standard rate of income tax (currently 20%) is required to be withheld from payments of Irish source interest which should include interest payable on the Notes. The Issuer will not be obliged to make a withholding or deduction for or on account of Irish income tax from a payment of interest on a Note where:

- (a) the Notes are Quoted Eurobonds i.e. securities which are issued by a company (such as the Issuer), which are listed on a recognised stock exchange (such as the Irish or Luxembourg Stock Exchanges) and which carry a right to interest; and
- (b) the person by or through whom the payment is made is not in Ireland, or if such person is in Ireland, either:
 - (i) the Notes are held in a clearing system recognised by the Irish Revenue Commissioners; (DTC, Euroclear and Clearstream, Luxembourg are, amongst others, so recognised); or
 - (ii) the Noteholder is not resident in Ireland and has made a declaration to a relevant person (such as a paying agent located in Ireland) in the prescribed form; and
- (c) one of the following conditions is satisfied:
 - (i) the Noteholder is resident for tax purposes in Ireland; or
 - (ii) the Noteholder is a pension fund, government body or other person (other than a person described in paragraph (c)(iv) below), who is resident in a relevant territory and who, under the laws of that territory, is exempted from tax that generally applies to profits, income or gains in that territory; or
 - (iii) the Noteholder is subject, without any reduction computed by reference to the amount of such interest or other distribution, to a tax in a relevant territory which generally applies to profits, income or gains received in that territory, by persons, from sources outside that territory; or
 - (iv) the Noteholder is not a company which, directly or indirectly, controls the Issuer, is controlled by the Issuer, or is controlled by a third company which also directly or indirectly controls the Issuer, and neither the Noteholder, nor any person connected with the Noteholder, is a person or persons:
 - (A) from whom the Issuer has acquired assets;
 - (B) to whom the Issuer has made loans or advances; or
 - (C) with whom the Issuer has entered into a swap agreement,where the aggregate value of such assets, loans, advances or swap agreements represents not less than 75% of the assets of the Issuer;or
- (v) the Issuer is not aware at the time of the issue of any Notes that any Noteholder of those Notes is (i) a person of the type described in (c) (iv) above; and (ii) is not subject, without any

reduction computed by reference to the amount of such interest or other distribution to a tax in a relevant territory which generally applies to profits, income or gains received in that territory, by persons, from sources outside that territory,

where for these purposes, the term:

“relevant territory” means a member state of the European Union (other than Ireland) or a country with which Ireland has signed a double tax treaty; and

“swap agreement” means any agreement, arrangement or understanding that—

- (I) provides for the exchange, on a fixed or contingent basis, of one or more payments based on the value, rate or amount of one or more interest or other rates, currencies, commodities, securities, instruments of indebtedness, indices, quantitative measures, or other financial or economic interests or property of any kind, or any interest therein or based on the value thereof, and
- (II) transfers to a person who is a party to the agreement, arrangement or understanding or to a person connected with that person, in whole or in part, the financial risk associated with a future change in any such value, rate or amount without also conveying a current or future direct or indirect ownership interest in an asset (including any enterprise or investment pool) or liability that incorporates the financial risk so transferred.

Thus, so long as the Notes continue to be quoted on the Irish Stock Exchange, are held in DTC, Euroclear and/or Clearstream, Luxembourg, and one of the conditions set out in paragraph (c) above is met, interest on the Notes can be paid by any Paying Agent acting on behalf of the Issuer free of any withholding or deduction for or on account of Irish income tax. If the Notes continue to be quoted but cease to be held in a recognised clearing system, interest on the Notes may be paid without any withholding or deduction for or on account of Irish income tax provided such payment is made through a Paying Agent outside Ireland and one of the conditions set out in paragraph (c) above is met.

Encashment Tax

Irish tax will be required to be withheld at the standard rate of income tax (currently 20%) from interest on any Note, where such interest is collected or realised by a bank or encashment agent in Ireland on behalf of any Noteholder. There is an exemption from encashment tax where the beneficial owner of the interest is not resident in Ireland and has made a declaration to this effect in the prescribed form to the encashment agent or bank.

Income Tax, PRSI and Universal Social Charge

Notwithstanding that a Noteholder may receive interest on the Notes free of withholding tax, the Noteholder may still be liable to pay Irish tax with respect to such interest. Noteholders resident or ordinarily resident in Ireland who are individuals may be liable to pay Irish income tax, social insurance (PRSI) contributions and the universal social charge in respect of interest they receive on the Notes.

Interest paid on the Notes may have an Irish source and therefore may be within the charge to Irish income tax. In the case of Noteholders who are non-resident individuals such Noteholders may also be liable to pay the universal social charge in respect of interest they receive on the Notes.

Ireland operates a self-assessment system in respect of tax and any person, including a person who is neither resident nor ordinarily resident in Ireland, with Irish source income comes within its scope.

There are a number of exemptions from Irish income tax available to certain non-residents. Firstly, interest payments made by the Issuer are exempt from income tax so long as the Issuer is a qualifying company for the purposes of section 110 of the TCA, the recipient is not resident in Ireland and is resident in a relevant territory and, the interest is paid out of the assets of the Issuer. Secondly, interest payments made by the Issuer in the ordinary course of its business are exempt from income tax provided the recipient is not resident in Ireland and is a company which is either resident in a relevant territory which imposes a tax that generally applies to interest

receivable in that relevant territory by companies from sources outside that relevant territory or, where the interest is exempted from the charge to Irish income tax under the terms of a double tax agreement which is either in force or which will come into force once all ratification procedures have been completed. Thirdly, interest paid by the Issuer free of withholding tax under the quoted Eurobond exemption is exempt from income tax, where the recipient is a person not resident in Ireland and resident in a relevant territory. Finance Act 2012 extended the foregoing exemption to companies which are under the control, whether directly or indirectly, of person(s) who by virtue of the law of a relevant territory are resident for the purposes of tax in a relevant territory and are not under the control of person(s) who are not so resident, and to 75% subsidiary companies of a company or companies the principal class of shares in which is substantially and regularly traded on a recognised stock exchange. For these purposes, residence is determined under the terms of the relevant double taxation agreement or in any other case, the law of the country in which the recipient claims to be resident. Interest falling within the above exemptions is also exempt from the universal social charge.

Notwithstanding these exemptions from income tax, a corporate recipient that carries on a trade in Ireland through a branch or agency in respect of which the Notes are held or attributed, may have a liability to Irish corporation tax on the interest.

Relief from Irish income tax may also be available under the specific provisions of a double tax treaty between Ireland and the country of residence of the recipient.

Interest on the Notes which does not fall within the above exemptions is within the charge to income tax, and, in the case of Noteholders who are individuals, is subject to the universal social charge. In the past the Irish Revenue Commissioners have not pursued liability to income tax in respect of persons who are not regarded as being resident in Ireland except where such persons have a taxable presence of some sort in Ireland or seek to claim any relief or repayment in respect of Irish tax. However, there can be no assurance that the Irish Revenue Commissioners will apply this treatment in the case of any Noteholder.

Capital Gains Tax

A Noteholder will not be subject to Irish tax on capital gains on a disposal of Notes unless such holder is either resident or ordinarily resident in Ireland or carries on a trade or business in Ireland through a branch or agency in respect of which the Notes were used or held.

Capital Acquisitions Tax

A gift or inheritance comprising of Notes will be within the charge to capital acquisitions tax (which, subject to available exemptions and reliefs, will be levied at 33% if either (i) the disponer or the donee/successor in relation to the gift or inheritance is resident or ordinarily resident in Ireland (or, in certain circumstances, if the disponer is domiciled in Ireland irrespective of his residence or that of the donee/successor) on the relevant date or (ii) if the Notes are regarded as property situate in Ireland (i.e., if the Notes are physically located in Ireland or if the register of the Notes is maintained in Ireland).

Stamp Duty

No stamp duty or similar tax is imposed in Ireland (on the basis of an exemption provided for in Section 85(2)(c) of the Irish Stamp Duties Consolidation Act, 1999 so long as the Issuer is a qualifying company for the purposes of Section 110 of the TCA and the proceeds of the Notes are used in the course of the Issuer's business), on the issue, transfer or redemption of the Notes.

EU Directive on the Taxation of Savings Income

Ireland has implemented the EC Council Directive 2003/48/EC on the taxation of savings income into national law. Accordingly, any Irish paying agent making an interest payment on behalf of the Issuer to an individual or certain residual entities resident in another Member State of the European Union or certain associated and dependent territories of a Member State will have to provide details of the payment and certain details relating to the Noteholder (including the Noteholder's name and address) to the Irish Revenue Commissioners who in turn are obliged to provide such information to the competent authorities of the state or territory of residence of the individual or residual entity concerned.

The Issuer shall be entitled to require Noteholders to provide any information regarding their tax status, identity or residency in order to satisfy the disclosure requirements in Directive 2003/48/EC and Noteholders will be deemed by their subscription for Notes to have authorised the automatic disclosure of such information by the Issuer or any other person to the relevant tax authorities.

UNITED STATES OF AMERICA

Notice Pursuant to U.S. Treasury Department Circular 230. The discussion below is not intended or written to be used, and cannot be used, by any person for the purpose of avoiding tax penalties that may be imposed under U.S. tax laws. This discussion is provided in connection with the promotion and marketing of the Notes. Each taxpayer should seek advice based on the taxpayer's particular circumstances from an independent tax adviser concerning the potential tax consequences of an investment in the Notes.

Certain U.S. Federal Income Tax Considerations

The following is a summary of the material U.S. Federal income tax consequences of the acquisition, ownership and disposition of Notes by a U.S. Holder (as defined below). Except as otherwise indicated, this summary deals only with purchasers of Notes that purchase Notes at original issuance at their initial issue price and that will hold the Notes as capital assets and whose functional currency is the U.S. Dollar. The discussion does not cover all aspects of U.S. Federal income taxation that may be relevant to, or the actual tax effect that any of the matters described herein will have on, the acquisition, ownership or disposition of Notes by particular investors, and does not address state, local, non-U.S. or other tax laws. In particular, this summary does not discuss all of the tax considerations that may be relevant to certain types of investors subject to special treatment under the U.S. Federal income tax laws (such as financial institutions, insurance companies, partners in a partnership that invests in Notes and such partnership, investors liable for the alternative minimum tax or the Medicare tax on "net investment income", individual retirement accounts and other tax deferred accounts, tax exempt organisations, dealers or traders in securities or currencies, investors that will hold the Notes as part of straddles, hedging transactions or conversion transactions for U.S. Federal income tax purposes). Moreover, the summary deals only with Notes with a term of 30 years or less.

As used herein, the term "U.S. Holder" means a beneficial owner of Notes that is, for U.S. Federal income tax purposes:

- an individual citizen or resident of the United States;
- a corporation (or other entity treated as a corporation for U.S. Federal income tax purposes) created or organised in or under the laws of the United States or any state thereof or the District of Columbia;
- an estate the income of which is subject to U.S. Federal income taxation regardless of its source; or
- a trust if such trust has a valid election in effect to be treated as a U.S. person for U.S. Federal income tax purposes or if (1) a court within the United States is able to exercise primary supervision over its administration and (2) one or more U.S. persons have the authority to control all of the substantial decisions of such trust.

If a partnership (or any other transparent entity for U.S. Federal income tax purposes) holds the Notes, the tax treatment of the partnership and a partner in such partnership generally will depend on the status of the partner and the activities of the partnership. Such partner or partnership should consult its own tax adviser as to determine the U.S. Federal, state, local and other tax consequences involved in the acquisition, ownership and disposition of the Notes.

The summary is based on the tax laws of the United States, including the Internal Revenue Code of 1986, as amended (the "Code"), its legislative history, existing and proposed regulations thereunder, published rulings and court decisions, all as currently in effect and all subject to change at any time, possibly with retroactive effect.

The summary of U.S. Federal income tax consequences set out below is for general information only. Prospective purchasers should consult their tax advisers as to the particular tax consequences to them of owning the Notes, including the applicability and effect of state, local, non-U.S. and other tax laws and possible changes in tax law.

Characterisation of the Notes

There are no regulations, published rulings or judicial decisions addressing the characterisation for U.S. Federal income tax purposes of securities issued under the same circumstances and with substantially the same terms as the Notes. The Issuer intends to take the position that the Notes constitute debt for U.S. Federal income tax purposes. However, no ruling will be obtained from the U.S. Internal Revenue Service (“**IRS**”) with respect to the characterisation of the Notes as debt, and there can be no assurance that the IRS or the courts would agree with this characterisation of the Notes.

If, due to the capital structure of the Issuer or otherwise, the Notes were treated as equity interests in the Issuer, U.S. Holders may be treated as owning interests in a “passive foreign investment company” (a “**PFIC**”). In that event, a U.S. Holder of Notes would be subject to additional tax on “excess distributions” received with respect to the Notes and gains realised on the disposition of such Notes. A U.S. Holder will have an excess distribution if distributions during any tax year exceed 125% of the average distributions received during the three preceding tax years (or, if shorter, the U.S. Holder’s holding period). To compute the tax on an excess distribution or any gain, (i) the excess distribution or gain is allocated rateably over the U.S. Holder’s holding period, (ii) the amount allocated to the current tax year is taxed as ordinary income, and (iii) the amount allocated to each previous tax year is taxed at the highest applicable marginal rate in effect for that year and an interest charge is imposed to recover the deemed benefit from the deferred payment of the tax. These rules effectively prevent a U.S. Holder from treating the gain realised on the disposition of the Notes as capital gain. As a result, it may be beneficial for U.S. Holder treated as owning interests in a PFIC to make a qualified election fund (“**QEF**”) election, which generally means the U.S. Holder will accrue income on the Notes on a current basis regardless of amounts actually paid with respect to the Notes. The Issuer has not determined whether it will provide U.S. Holders with the information they may require to make a QEF election, accordingly it may not be possible for a U.S. Holder to make such an election in respect of the Notes. Prospective investors should consult their tax advisers regarding the characterisation of the Notes for U.S. Federal income tax purposes and the consequences of owning an equity interest in a PFIC and the feasibility and effects of making a QEF election. The discussion below assumes that the Notes will be treated as debt for U.S. Federal income tax purposes.

U.S. Dollar Notes

Interest

The gross amount of “qualified stated interest” (as defined below) and Additional Amounts (if any) on a Note (without reduction for withholding taxes, if any) will be includible in the U.S. Holder’s gross income as ordinary income at the time it is received or accrued, depending on the holder’s method of accounting for tax purposes. Interest paid by the Issuer on the Notes and OID, if any, accrued with respect to the Notes (as described below under “—*Original Issue Discount*”) generally will constitute income from sources outside the United States. For U.S. foreign tax credit limitation purposes, interest on the Notes generally will constitute “passive category income”, or, in the case of certain U.S. Holders, “general category income”, which are treated separately in computing the foreign tax credit allowable to U.S. Holders under U.S. Federal income tax laws.

Original Issue Discount

The following is a summary of the principal U.S. Federal income tax consequences of the ownership of Notes issued with original issue discount (“**OID**”). The following summary does not discuss Notes that are characterised as contingent payment debt instruments for U.S. Federal income tax purposes.

A Note, other than a Note with a term of one year or less (a “**Short Term Note**”), will be treated as issued with OID (a “**Discount Note**”) if the excess of the Note’s “stated redemption price at maturity” over its “issue price” is equal to or more than 0.25% of the Note’s stated redemption price at maturity multiplied by the number of complete years to its maturity (or the weighted average maturity in the case of instalment notes). If this excess is not sufficient to cause the Note to be a Discount Note, then the excess constitutes “**de minimis OID**”. Generally, the issue price of a Note will be the first price at which a substantial amount of Notes included in the issue of which the Note is a part is sold to persons other than bond houses, brokers, or similar persons or

organisations acting in the capacity of underwriters, placement agents, or wholesalers. The stated redemption price at maturity of a Note is the total of all payments provided by the Note that are not payments of “qualified stated interest.” The term “qualified stated interest” generally means stated interest that is unconditionally payable at least annually at a single fixed rate (with certain exceptions for lower rates paid during some periods), or, in the case of a variable rate debt instrument, at a rate or combination of rates meeting certain requirements discussed below under “—*Variable Interest Rate Notes*”.

U.S. Holders of Discount Notes must include OID in income calculated on a constant yield method, which generally will be before the receipt of cash attributable to the income, and may have to include in income increasingly greater amounts of OID over the life of the Discount Notes. The amount of OID includible in income is the sum of the daily portions of OID with respect to the Discount Note for each day during the taxable year or portion of the taxable year on which the U.S. Holder holds the Discount Note (“**accrued OID**”). The daily portion is determined by allocating to each day in any “accrual period” a *pro rata* portion of the OID allocable to that accrual period. Accrual periods with respect to a Note may be of any length selected by the U.S. Holder and may vary in length over the term of the Note as long as (i) no accrual period is longer than one year and (ii) each scheduled payment of interest or principal on the Note occurs on either the final or first day of an accrual period. The amount of OID allocable to an accrual period equals the excess of (a) the product of the Discount Note’s adjusted issue price at the beginning of the accrual period and the Discount Note’s yield to maturity (determined on the basis of compounding at the close of each accrual period and properly adjusted for the length of the accrual period) over (b) the sum of the payments of qualified stated interest on the Note allocable to the accrual period. The “adjusted issue price” of a Discount Note at the beginning of any accrual period is the issue price of the Note increased by (x) the amount of accrued OID for each prior accrual period and decreased by (y) the amount of any payments previously made on the Note that were not qualified stated interest payments. As discussed below under “—*Variable Interest Rate Notes*”, special rules apply in the case of a Discount Note that pays a variable rate of interest or a combination of rates (a “**Variable Interest Rate Note**”).

Acquisition Premium

A U.S. Holder that purchases a Discount Note for an amount less than or equal to the sum of all amounts payable on the Note after the purchase date, other than payments of qualified stated interest, but in excess of its adjusted issue price (any such excess being “**acquisition premium**”) and that does not make the election described below under “—*Election to Treat All Interest as Original Issue Discount*” is permitted to reduce the daily portions of OID by a fraction, the numerator of which is the excess of the U.S. Holder’s adjusted basis in the Note immediately after its purchase over the Note’s adjusted issue price at such time, and the denominator of which is the excess of the sum of all amounts payable on the Note after the purchase date, other than payments of qualified stated interest, over the Note’s adjusted issue price on such date.

Amortisable Bond Premium

A U.S. Holder that purchases a Note for an amount in excess of its stated principal amount, or for a Discount Note, its stated redemption price at maturity, may elect to treat the excess as “amortisable bond premium”, in which case the amount required to be included in the U.S. Holder’s income each year with respect to interest on the Note will be reduced by the amount of amortisable bond premium allocable (based on the Note’s yield to maturity) to that year. Any election to amortise bond premium shall apply to all bonds (other than bonds the interest on which is excludable from gross income for U.S. Federal income tax purposes) held by the U.S. Holder at the beginning of the first taxable year to which the election applies or thereafter acquired by the U.S. Holder, and is irrevocable without the consent of the IRS. See also “—*Election to Treat All Interest as Original Issue Discount*”.

Market Discount

A Note, other than a Short Term Note, purchased in the secondary market or upon a further issuance that is a qualified reopening for U.S. Federal income tax purposes generally will be treated as purchased at a market discount (a “**Market Discount Note**”) if the Note’s stated redemption price at maturity or, in the case of a Discount Note, the Note’s adjusted issue price, exceeds the amount for which the U.S. Holder purchased the Note by at least 0.25% of the Note’s stated redemption price at maturity, multiplied by the number of complete years to the Note’s maturity (or, in the case of a Note that is an instalment obligation, the Note’s weighted average maturity). If this excess is not sufficient to cause the Note to be a Market Discount Note, then the excess constitutes “**de minimis market discount**”.

Upon disposition or maturity of a Market Discount Note, or upon receipt of a partial principal payment on a Market Discount Note that is an instalment obligation, any gain will be treated as ordinary income to the extent that the gain does not exceed the market discount which has not been previously included in gross income and which accrued on the Note whilst held by a U.S. Holder. In the case of a Market Discount Note that is not an instalment obligation, market discount is accrued on a rateable basis, or, at the U.S. Holder's election, on a constant yield basis. A constant yield election is made on a note-by-note basis and is irrevocable unless the IRS consents to a revocation. In the case of a Market Discount Note that is an instalment obligation, a holder may elect to accrue market discount on a constant yield basis or based on an approximate method based on the amount of OID accrued by or interest paid to the U.S. Holder. Rather than recognising accrued market discount not previously included in income by a U.S. Holder upon a disposition of, the maturity of or the receipt of a partial principal payment on a Market Discount Note, a U.S. Holder of a Market Discount Note may elect to include market discount in income currently (in accordance with the applicable accrual method discussed above) over the life of the Note. This election generally will apply to all debt instruments with market discount acquired by the electing U.S. Holder on or after the first day of the first taxable year to which the election applies, subject to certain exceptions including one for Short Term Notes. This election may not be revoked without the consent of the IRS. A U.S. Holder of a Market Discount Note that does not elect to include market discount in income currently will generally be required to defer deductions for interest paid or accrued during a taxable year on borrowings incurred to purchase or carry a Market Discount Note that is in excess of the interest and OID on the Note includible in the U.S. Holder's income for such taxable year, to the extent that this excess interest expense does not exceed the portion of the market discount allocable to the days on which the Market Discount Note was held by the U.S. Holder during such taxable year.

Election to Treat All Interest as Original Issue Discount

A U.S. Holder may elect to include in income all interest that accrues on a Note using the constant yield method described above under “—*Original Issue Discount*” with certain modifications. For purposes of this election, interest includes stated interest, acquisition discount, OID, de minimis OID, market discount and de minimis market discount, as adjusted by any amortisable bond premium or acquisition premium. This election, which must be made for the taxable year in which the Note was acquired, generally will apply only to the Note with respect to which it is made and may not be revoked without the consent of the IRS. If the election to apply the constant yield method to all interest on a Note is made with respect to a Market Discount Note, the electing U.S. Holder will be treated as having made the election discussed above under “—*Market Discount*” to include market discount in income currently over the life of all debt instruments with market discount held or thereafter acquired by the U.S. Holder in the taxable year and in any subsequent taxable year. U.S. Holders should consult their tax advisers concerning the availability and advisability of this election.

Variable Interest Rate Notes

Variable Interest Rate Notes generally will bear interest at a “qualified floating rate” and thus will be treated as “variable rate debt instruments” under applicable Treasury Regulations. A Variable Interest Rate Note will qualify as a “variable rate debt instrument” if (a) its issue price does not exceed the total non-contingent principal payments due under the Variable Interest Rate Note by more than a specified de minimis amount, (b) it provides for stated interest, paid or compounded at least annually, at (i) one or more qualified floating rates, (ii) a single fixed rate and one or more qualified floating rates, (iii) a single objective rate, or (iv) a single fixed rate and a single objective rate that is a qualified inverse floating rate, and (c) it does not provide for any principal payments that are contingent (other than as described in (a) above).

A “qualified floating rate” is any variable rate where variations in the value of the rate can reasonably be expected to measure contemporaneous variations in the cost of newly borrowed funds in the currency in which the Variable Interest Rate Note is denominated. A fixed multiple of a qualified floating rate will constitute a qualified floating rate only if the multiple is greater than 0.65 but not more than 1.35. A variable rate equal to the product of a qualified floating rate and a fixed multiple that is greater than 0.65 but not more than 1.35, increased or decreased by a fixed rate, will also constitute a qualified floating rate. In addition, two or more qualified floating rates that can reasonably be expected to have approximately the same values throughout the term of the Variable Interest Rate Note (e.g., two or more qualified floating rates with values within 25 basis points of each other as determined on the Variable Interest Rate Note's issue date) will be treated as a single qualified floating rate. Notwithstanding the foregoing, a variable rate that would otherwise constitute a qualified floating rate but which is subject to one or more restrictions such as a maximum numerical limitation (i.e., a cap) or a minimum numerical limitation (i.e., a floor) may, under certain circumstances, fail to be treated as a qualified floating rate.

An “objective rate” is a rate that is not itself a qualified floating rate but which is determined using a single fixed formula and which is based on objective financial or economic information (e.g., one or more qualified floating rates or the yield of actively traded personal property). A rate will not qualify as an objective rate if it is based on information that is within the control of the Issuer (or a related party) or that is unique to the circumstances of the Issuer (or a related party), such as dividends, profits or the value of the Issuer’s stock (although a rate does not fail to be an objective rate merely because it is based on the credit quality of the Issuer). Other variable interest rates may be treated as objective rates if so designated by the IRS in the future. Despite the foregoing, a variable rate of interest on a Variable Interest Rate Note will not constitute an objective rate if it is reasonably expected that the average value of the rate during the first half of the Variable Interest Rate Note’s term will be either significantly less than or significantly greater than the average value of the rate during the final half of the Variable Interest Rate Note’s term. A “qualified inverse floating rate” is any objective rate where the rate is equal to a fixed rate minus a qualified floating rate, as long as variations in the rate can reasonably be expected to inversely reflect contemporaneous variations in the qualified floating rate. If a Variable Interest Rate Note provides for stated interest at a fixed rate for an initial period of one year or less followed by a variable rate that is either a qualified floating rate or an objective rate for a subsequent period and if the variable rate on the Variable Interest Rate Note’s issue date is intended to approximate the fixed rate (e.g., the value of the variable rate on the issue date does not differ from the value of the fixed rate by more than 25 basis points), then the fixed rate and the variable rate together will constitute either a single qualified floating rate or objective rate, as the case may be.

A qualified floating rate or objective rate in effect at any time during the term of the instrument must be set at a “current value” of that rate. A “current value” of a rate is the value of the rate on any day that is no earlier than three months prior to the first day on which that value is in effect and no later than 1 year following that first day.

If a Variable Interest Rate Note that provides for stated interest at either a single qualified floating rate or a single objective rate throughout the term thereof qualifies as a “variable rate debt instrument”, then any stated interest on the Note which is unconditionally payable in cash or property (other than debt instruments of the Issuer) at least annually will constitute qualified stated interest and will be taxed accordingly. Thus, a Variable Interest Rate Note that provides for stated interest at either a single qualified floating rate or a single objective rate throughout the term thereof and that qualifies as a “variable rate debt instrument” will generally not be treated as having been issued with OID unless the Variable Interest Rate Note is issued at a “true” discount (i.e., at a price below the Note’s stated principal amount) resulting in more than de minimis OID. OID on a Variable Interest Rate Note arising from “true” discount is allocated to an accrual period using the constant yield method described above by assuming that the variable rate is a fixed rate equal to (i) in the case of a qualified floating rate or qualified inverse floating rate, the value, as of the issue date, of the qualified floating rate or qualified inverse floating rate, or (ii) in the case of an objective rate (other than a qualified inverse floating rate), a fixed rate that reflects the yield that is reasonably expected for the Variable Interest Rate Note. The qualified stated interest allocable to an accrual period is increased (or decreased) if the interest actually paid during an accrual period exceeds (or is less than) the interest that was accrued under the foregoing approach.

In general, any other Variable Interest Rate Note that qualifies as a “variable rate debt instrument” will be converted into an “equivalent” fixed rate debt instrument for purposes of determining the amount and accrual of OID and qualified stated interest on the Variable Interest Rate Note. Such a Variable Interest Rate Note must be converted into an “equivalent” fixed rate debt instrument generally by substituting any qualified floating rate or qualified inverse floating rate provided for under the terms of the Variable Interest Rate Note with a fixed rate equal to the value of the qualified floating rate or qualified inverse floating rate, as the case may be, as of the Variable Interest Rate Note’s issue date. Any objective rate (other than a qualified inverse floating rate) provided for under the terms of the Variable Interest Rate Note is converted into a fixed rate that reflects the yield that is reasonably expected for the Variable Interest Rate Note. In the case of a Variable Interest Rate Note that qualifies as a “variable rate debt instrument” and provides for stated interest at a fixed rate in addition to either one or more qualified floating rates or a qualified inverse floating rate, the fixed rate is initially converted into a qualified floating rate (or a qualified inverse floating rate, if the Variable Interest Rate Note provides for a qualified inverse floating rate). Under these circumstances, the qualified floating rate or qualified inverse floating rate that replaces the fixed rate must be such that the fair market value of the Variable Interest Rate Note as of the Variable Interest Rate Note’s issue date is approximately the same as the fair market value of an otherwise identical debt instrument that provides for either the qualified floating rate or qualified inverse floating rate rather than the fixed rate. Subsequent to converting the fixed rate into either a qualified floating rate or a qualified inverse floating rate, the Variable Interest Rate Note is converted into an “equivalent” fixed rate debt instrument in the manner described above. Once the Variable Interest Rate Note is converted into an

“equivalent” fixed rate debt instrument pursuant to the foregoing rules, the amount of OID and qualified stated interest, if any, are determined for the “equivalent” fixed rate debt instrument by applying the general OID rules to the “equivalent” fixed rate debt instrument and a U.S. Holder of the Variable Interest Rate Note will account for the OID and qualified stated interest as if the U.S. Holder held the “equivalent” fixed rate debt instrument. In each accrual period, appropriate adjustments will be made to the amount of qualified stated interest or OID assumed to have been accrued or paid with respect to the “equivalent” fixed rate debt instrument in the event that these amounts differ from the actual amount of interest accrued or paid on the Variable Interest Rate Note during the accrual period.

If a Variable Interest Rate Note does not qualify as a “variable rate debt instrument”, then the Variable Interest Rate Note will be treated as a contingent payment debt instrument.

Short Term Notes

Short Term Notes will be treated as having been issued with OID because all interest payments on a Short Term Note are included in the Short Term Note’s stated redemption price at maturity. In general, an individual or other cash basis U.S. Holder of a Short Term Note is not required to currently accrue OID for U.S. Federal income tax purposes unless it elects to do so (but will be required to include any stated interest in income as the interest is received). Accrual basis U.S. Holders and certain other U.S. Holders are required to currently accrue OID on Short Term Notes on a straight line basis or, if the U.S. Holder so elects, under the constant yield method (based on daily compounding). In the case of a U.S. Holder not required and not electing to include OID in income currently, any gain realised on the sale or retirement of the Short Term Note will be ordinary income to the extent of the OID accrued on a straight line basis (unless an election is made to accrue the OID under the constant yield method) through the date of sale or retirement. U.S. Holders who are not required and do not elect to accrue OID on Short Term Notes will be required to defer deductions for interest on borrowings allocable to Short Term Notes in an amount not exceeding the deferred income until the deferred income is realised. An election by a U.S. Holder to include OID on a Short Term Note in income currently shall apply to all Short Term Notes acquired by the U.S. Holder on or after the first day of the first taxable year to which the election applies, and may not be revoked without the consent of the IRS.

Additional Notes

The Issuer may, without the consent of the Holders of outstanding Notes, issue additional Notes with identical terms. These additional Notes, even if they are treated for non-tax purposes as part of the same series as the original Notes, in some cases may be treated as a separate series for U.S. Federal income tax purposes. In such a case, the additional Notes may be considered to have been issued with OID even if the original Notes had no OID, or the additional Notes may have a greater amount of OID than the original Notes. These differences may affect the market value of the original Notes if the additional Notes are not otherwise distinguishable from the original Notes.

Sale, Exchange or Retirement of Notes

A U.S. Holder generally will recognise gain or loss on the sale, exchange or retirement of a Note equal to the difference between the amount realised on the sale, exchange or retirement (other than amounts properly attributable to accrued but unpaid interest which will be taxable as such) and the U.S. Holder’s adjusted tax basis in the Note. A U.S. Holder’s adjusted tax basis in a Note generally will be its cost to the U.S. Holder increased by the amount of any OID or market discount included in the U.S. Holder’s income with respect to the Note (whether or not de minimis) and reduced by (i) the amount of any payments that are not qualified stated interest payments, and (ii) the amount of any amortisable bond premium applied to reduce stated interest on the Note. Except to the extent described above under “—Market Discount” or “—Short Term Notes” or attributable to accrued but unpaid interest or changes in exchange rates (as described below), gain or loss recognised on the sale, exchange or retirement of a Note generally will be capital gain or loss and will be long-term capital gain or loss if the U.S. Holder’s holding period in the Notes exceeds one year. Gain or loss realised by a U.S. Holder on the sale, exchange or retirement of a Note generally will be U.S. source gain or loss. The deductibility of capital losses is subject to limitations.

Non-U.S. Currency Notes

The following overview describes special rules that apply in addition to or, as applicable, in replacement of, the rules discussed above, to Notes that are denominated in, or provide for payments determined by reference to, a currency or currency unit other than the U.S. Dollar (“**Non-U.S. Currency Notes**”).

Interest

The amount of stated interest paid with respect to a Non-U.S. Currency Note that is includible in income by a cash basis U.S. Holder generally will be the U.S. Dollar value of the interest payment, based on the spot exchange rate in effect on the date of receipt, regardless of whether the payment is in fact converted into U.S. Dollars. No exchange gain or loss will be recognised with respect to the receipt of such payment.

An accrual basis U.S. Holder may determine the amount that must be included in income with respect to a stated interest payment on a Non-U.S. Currency Note in accordance with either of two methods. Under the first method, the amount that must be included in income will be based on the average exchange rate in effect during the interest accrual period (or, in the case of an interest accrual period that spans two taxable years of a U.S. Holder, the part of the period within the taxable year). Under the second method, the accrual basis U.S. Holder may elect to determine the amount that must be included in income on the basis of the spot exchange rate in effect on the last day of the accrual period (or, in the case of an accrual period that spans two taxable years, the spot exchange rate in effect on the last day of the part of the period within the taxable year). Additionally, if a payment of interest is paid or received within five Business Days of the last day of the accrual period, an accrual basis U.S. Holder may elect to translate the accrued interest into U.S. Dollars at the spot exchange rate in effect on the day of receipt or payment. Any such election will apply to all debt instruments held by the U.S. Holder at the beginning of the first taxable year to which the election applies or thereafter acquired by the U.S. Holder, and will be irrevocable without the consent of the IRS. Upon receipt of an interest payment on a Non-U.S. Currency Note (including a payment attributable to accrued but unpaid interest upon the sale, exchange or retirement of such Note), the accrual basis U.S. Holder may recognise exchange gain or loss (taxable as ordinary income or loss) equal to the difference between the amount received (translated into U.S. Dollars at the spot exchange rate on the date of receipt) and the amount previously accrued, regardless of whether the payment is in fact converted into U.S. Dollars.

OID

OID for each accrual period on a Discount Note that is a Non-U.S. Currency Note will be determined in the non-U.S. currency and then translated into U.S. Dollars in the same manner as stated interest included in income by an accrual basis U.S. Holder, as described above. Upon receipt of an amount attributable to OID (whether in connection with a payment on the Note or a sale of the Note), a U.S. Holder may recognise exchange gain or loss (taxable as ordinary income or loss) equal to the difference between the amount received (translated into U.S. Dollars at the spot exchange rate on the date of receipt) and the amount previously accrued, regardless of whether the payment is in fact converted into U.S. Dollars.

Amortisable Bond Premium and Acquisition Premium

Amortisable bond premium and acquisition premium on a Non-U.S. Currency Note will be computed in units of the non-U.S. currency, and any such premium that is taken into account currently will reduce interest income in units of such currency. On the date amortisable bond premium or acquisition premium offsets interest income, a U.S. Holder may recognise exchange gain or loss (taxable as ordinary income or loss) measured by the difference between the spot rate in effect on that date, and on the date the Notes were acquired by the U.S. Holder. A U.S. Holder that does not elect to take amortisable bond premium into account currently will recognise a market loss when the Note matures.

Market Discount

Market Discount on a Non-U.S. Currency Note will be computed in units of the foreign currency. If the U.S. Holder elects to include market discount in income currently, the accrued market discount will be translated into U.S. Dollars at the average exchange rate for the accrual period (or portion thereof within the U.S. Holder's taxable year). Upon the receipt of an amount attributable to accrued market discount that was currently included in income, the U.S. Holder may recognise exchange gain or loss (which will be taxable as ordinary income or loss) determined in the same manner as for accrued interest or OID. A U.S. Holder that does not elect to include

market discount in income currently will, upon the disposition or maturity of the Non-U.S. Currency Note, translate the accrued market discount to the U.S. Dollar value of the amount accrued, calculated at the spot exchange rate on that date, and no part of this accrued market discount will be treated as exchange gain or loss.

Purchase, Sale, Exchange or Retirement

A U.S. Holder who purchases a Non-U.S. Currency Note with previously owned non-U.S. currency will recognise ordinary income or loss in an amount equal to the difference, if any, between such U.S. Holder's tax basis in the non-U.S. currency and the U.S. Dollar value of the non-U.S. currency used to purchase the Note, determined on the date of purchase.

As discussed above under "*—Sale, Exchange or Retirement of Notes*", a U.S. Holder generally will recognise gain or loss on the sale, exchange or retirement of a Note equal to the difference between the amount realised on the sale, exchange or retirement and its adjusted tax basis in the Note. A U.S. Holder's initial tax basis in a Non-U.S. Currency Note will be determined by reference to the U.S. Dollar cost of the Note, which generally will be the U.S. Dollar value of the purchase price on the date of purchase or, in the case of a Non-U.S. Currency Note that is traded on an established securities market, as defined in the applicable U.S. Treasury Regulations, and purchased by a cash basis U.S. Holder (or an accrual basis holder that so elects), on the settlement date for the purchase. Such an election by an accrual basis U.S. Holder must be applied consistently from year to year and cannot be revoked without the consent of the IRS. The amount of any subsequent adjustments to such U.S. Holder's tax basis in the Non-U.S. Currency Note will be the U.S. Dollar value of the non-U.S. currency amount of the adjustment, determined on the date of such adjustment. The amount realised on a sale, exchange or retirement of a Non-U.S. Currency Note for an amount in non-U.S. currency will be the U.S. Dollar value of this amount on the date of sale, exchange or retirement or, in the case of Notes traded on an established securities market, as defined in the applicable U.S. Treasury Regulations, and sold by a cash basis U.S. Holder (or an accrual basis U.S. Holder that made the election described in the preceding paragraph), on the settlement date for the sale.

A U.S. Holder will recognise exchange gain or loss (taxable as ordinary income or loss) on the sale, exchange or retirement of a Non-U.S. Currency Note equal to the difference, if any, between (i) the U.S. Dollar value of the non-U.S. currency principal amount of the Note on the date the principal payment is received or the Note is disposed of and (ii) the U.S. Dollar value of the non-U.S. currency principal amount of the Note on the date the U.S. Holder acquired the Note. Any such exchange gain or loss will be realised only to the extent of total gain or loss realised on the sale, exchange or retirement (as determined above).

Disposition of Non-U.S. Currency

Non-U.S. currency received as interest on a Non-U.S. Currency Note or on the sale, exchange or retirement of the Note will have a tax basis equal to its U.S. Dollar value at the time the non-U.S. currency is received. Non-U.S. currency that is purchased will generally have a tax basis equal to the U.S. Dollar value of the foreign currency on the date of purchase. Any gain or loss recognised on a sale or other disposition of a non-U.S. currency (including its use to purchase Notes or upon exchange for U.S. Dollars) will be ordinary income or loss.

U.S. Information Reporting and Backup Withholding Tax

A U.S. Holder may be subject to information reporting unless it establishes that payments to it made within the United States or by a U.S. payor or U.S. middleman are exempt from these rules (e.g., payments to corporations generally are exempt from these rules). Payments that are subject to information reporting may be subject to backup withholding if a U.S. Holder does not provide its U.S. taxpayer identification number and otherwise comply with the backup withholding rules. Amounts withheld under the backup withholding rules are available to be credited against a U.S. Holder's U.S. Federal income tax liability and may be refunded to the extent they exceed such liability, provided the required information is provided to the IRS.

Recently Enacted Legislation Affecting Disclosure Obligations for U.S. Individuals

Legislation was enacted on 18 March 2010 that generally imposes new U.S. return disclosure obligations (and related penalties for failure to disclose) on U.S. individuals that hold certain specified foreign financial assets. Investors are urged to consult with their own tax advisers regarding the possible implications of this recently enacted legislation on their investment in the Notes.

CERTAIN ERISA CONSIDERATIONS

To ensure compliance with United States Treasury Department Circular 230, prospective purchasers are hereby notified that (A) any discussion of United States Federal tax matters in this Base Prospectus is not intended or written to be relied upon, and cannot be relied upon, by prospective purchasers for the purpose of avoiding penalties that may be imposed on them under the United States tax laws; (B) such discussion is included herein in connection with the promotion or marketing (within the meaning of United States Treasury Department Circular 230) of the matters addressed herein; and (C) prospective purchasers should seek advice based on their particular circumstances from an independent tax advisor.

The U.S. Employee Retirement Income Security Act of 1974, of amended (“**ERISA**”) and the Code impose fiduciary standards and certain other requirements on employee benefit plans subject thereto (collectively, “**ERISA Plans**”), including individual retirement accounts and annuities, Keogh plans and certain collective investment funds, separate accounts or insurance company general or separate accounts in which such plans, accounts or arrangements are invested, and other entities or accounts whose underlying assets are treated as assets of such plans pursuant to ERISA and the U.S. Department of Labor “**plan assets**” regulation, 29 CFR Section 2510.3-101, as modified by Section 3(42) of ERISA (the “**Plan Assets Regulation**”), and on those persons who are fiduciaries with respect to ERISA Plans.

Section 406 of ERISA and Section 4975 of the Code prohibit certain transactions involving the assets of an ERISA Plan (as well as those plans that are not subject to ERISA but which are subject to Section 4975 of the Code (together with ERISA Plans, “**Plans**”)) and certain persons (referred to as “**parties in interest**” under ERISA or “**disqualified persons**” under the Code) having certain relationships to such Plans, unless a statutory or administrative exemption or other applicable exemption applies to the transaction. In particular, an extension of credit between a Plan and a “**party in interest**” or “**disqualified person**” may constitute a prohibited transaction. A party in interest or disqualified person who engages in a prohibited transaction may be subject to excise taxes, penalties or other liabilities under ERISA and the Code.

The Issuer or the Trustee, directly or through affiliates, may be considered a party in interest or disqualified person with respect to many Plans. Prohibited transactions within the meaning of Section 406 of ERISA or Section 4975 of the Code may arise if the Notes are acquired by a Plan with respect to which the Issuer or the Trustee or any of their respective affiliates is a party in interest or a disqualified person, unless the Notes are acquired pursuant to and in accordance with an applicable exemption. Certain exemptions from the prohibited transaction provisions of Section 406 of ERISA and Section 4975 of the Code may apply depending in part on the type of Plan fiduciary making the decision to acquire a Note and the circumstances under which that decision is made. However, Notes may not be acquired by any Benefit Plan Investors as discussed below.

Under a “**look through rule**” set forth in Section 3(42) of ERISA and the Plan Assets Regulation, if a Plan invests in an “equity interest” of an entity and no other exception applies, the Plan’s assets include both the equity interest and an undivided interest in each of the entity’s underlying assets. This rule will not apply where less than 25% of the value of any class of equity interest in the entity is held by Benefit Plan Investors immediately after the most recent acquisition of any equity interest in the entity (disregarding equity interests held by certain persons, other than Benefit Plan Investors, with discretionary authority or control over the assets of the entity or who provide investment advice with respect to such assets, or any affiliates of such persons). An equity interest does not include debt (as determined by applicable local law) which does not have substantial equity features. Under the Plan Assets Regulation a “**Benefit Plan Investor**” means (1) an employee benefit plan (as defined in Section 3(3) of ERISA) subject to the provisions of part 4 of subtitle B of Title I of ERISA, (2) a plan to which Section 4975 of the Code applies, or (3) any entity whose underlying assets include “**plan assets**” by reason of any such plan’s investment in the entity, (to the extent of the percentage of the equity interests in such entity that are held by Benefit Plan Investors). The Plan Assets Regulation provides that where the value of an interest in an entity relates solely to identified property of the entity, that property is treated as the sole property of a separate entity.

Because the Notes do not represent an interest in any property of the Issuer other than the relevant Loan, they may be regarded for ERISA purposes as equity interests in a separate entity whose sole asset is the relevant Loan. Further, neither the Issuer nor the Trustee will be able to monitor the Noteholders’ possible status as Benefit Plan Investors. Accordingly, the Notes may not be purchased or held by Benefit Plan Investors. The Notes may be purchased and held by governmental, non-electing church or non-U.S. plans which are not Benefit Plan Investors but which may be subject to any U.S. Federal, state, local or non-U.S. law that is substantially similar to the fiduciary responsibility and/or the prohibited transaction provisions of ERISA and/or Section 4975

of the Code and other restrictions (“**Similar Laws**”) if such purchase, holding or disposition does not and will not result in a non-exempt violation of any Similar Laws, and will not subject the Issuer to any laws, rules or regulations applicable to such Plan as a result of the purchase, holding or disposition of the Notes by such Plan. The fiduciary of a Plan governed by Similar Laws considering the purchase or holding of the Notes must make its own determination that such purchase or holding is permissible under Similar Laws.

It should be noted that an insurance company’s general account may be deemed to include assets of Plans under certain circumstances, e.g., where a Plan purchases an annuity contract issued by such insurance company, based on the reasoning of the United States Supreme Court in *John Hancock Mutual Life Ins. Co. v. Harris Trust and Savings Bank*, 510 U.S. 86 (1993), and in such circumstances such general account may be subject to ERISA’s fiduciary provisions.

EACH PURCHASER AND EACH TRANSFEREE OF THE NOTES OR ANY INTEREST THEREIN, AND EACH FIDUCIARY ACTING ON BEHALF OF THE PURCHASER OR TRANSFEREE (BOTH IN ITS INDIVIDUAL AND CORPORATE CAPACITY), WILL BE DEEMED TO REPRESENT, WARRANT AND AGREE THAT, DURING THE PERIOD IT HOLDS ANY NOTE OR ANY INTEREST IN ANY NOTE: (1) EITHER (A) IT IS NOT, AND IS NOT ACTING ON BEHALF OF A BENEFIT PLAN INVESTOR OR A GOVERNMENTAL, CHURCH OR NON-U.S. PLAN WHICH IS SUBJECT TO ANY U.S. FEDERAL, STATE, LOCAL OR NON-U.S. LAW THAT IS SUBSTANTIALLY SIMILAR TO THE FIDUCIARY RESPONSIBILITY AND/OR THE PROHIBITED TRANSACTION PROVISIONS OF ERISA AND/OR SECTION 4975 OF THE CODE AND OTHER SIMILAR RESTRICTIONS (“**SIMILAR LAWS**”) AND/OR LAWS OR REGULATIONS THAT PROVIDE THAT THE ASSETS OF THE ISSUER COULD BE DEEMED TO INCLUDE “PLAN ASSETS” OF SUCH PLAN, AND NO PART OF THE ASSETS TO BE USED BY IT TO PURCHASE OR HOLD SUCH NOTES OR ANY INTEREST THEREIN CONSTITUTES THE ASSETS OF ANY BENEFIT PLAN INVESTOR OR SUCH A GOVERNMENTAL, CHURCH OR NON-U.S. PLAN, OR (B) IT IS, OR IS ACTING ON BEHALF OF, A GOVERNMENTAL, NON-ELECTING CHURCH OR NON-U.S. PLAN, AND SUCH PURCHASE OR THE HOLDING OR DISPOSITION OF THE NOTES DOES NOT AND WILL NOT RESULT IN A NON EXEMPT VIOLATION OF ANY SIMILAR LAWS, AND WILL NOT SUBJECT THE ISSUER TO ANY LAWS, RULES OR REGULATIONS APPLICABLE TO SUCH PLAN SOLELY AS A RESULT OF THE PURCHASE, HOLDING OR DISPOSITION OF THE NOTES BY SUCH PLAN; AND (2) IT WILL NOT SELL OR OTHERWISE TRANSFER SUCH NOTES OR ANY INTEREST THEREIN TO ANY PERSON WITHOUT FIRST OBTAINING THE SAME FOREGOING REPRESENTATIONS, WARRANTIES AND COVENANTS FROM THAT PERSON. NO PURCHASE BY OR TRANSFER TO A BENEFIT PLAN INVESTOR OF ANY NOTE WILL BE EFFECTIVE, AND NEITHER THE ISSUER NOR THE TRUSTEE WILL RECOGNISE SUCH PURCHASE OR TRANSFER OF SUCH NOTE. IN THE EVENT THAT THE ISSUER DETERMINES THAT ANY NOTE IS HELD BY A BENEFIT PLAN INVESTOR, THE ISSUER MAY CAUSE A SALE OR TRANSFER OF SUCH NOTE. SUCH REPRESENTATION SHALL BE DEEMED TO BE MADE EACH DAY FROM THE DATE ON WHICH THE PURCHASER PURCHASES THE NOTE THROUGH AND INCLUDING THE DATE ON WHICH THE PURCHASER DISPOSES OF THE NOTE.

TRANSFER RESTRICTIONS

Because of the following restrictions, you are advised to consult legal counsel prior to making any offer, resale or other transfer offered hereby.

RULE 144A NOTES

Each purchaser of a beneficial interest in Rule 144A Notes, by accepting delivery of this Base Prospectus and the Notes, will be deemed to have represented, agreed and acknowledged that:

- (1) If it is a U.S. Person within the meaning of Regulation S, it is (a) a QIB that is also a QP, (b) not a broker-dealer which owns and invests on a discretionary basis less than U.S.\$25 million in securities of unaffiliated issuers, (c) not a participant-directed employee plan, such as a 401(k) plan, (d) acquiring such Notes for its own account, or for the account of one or more QIBs each of which is also a QP, (e) not formed for the purpose of investing in the Notes or the Issuer, and (f) aware, and each beneficial owner of such Notes has been advised, that the seller of such Notes may be relying on the exemption from the provisions of Section 5 of the Securities Act provided by Rule 144A.
- (2) It will, (a) along with each account for which it is purchasing, hold and transfer beneficial interests in the Rule 144A Notes in a principal amount that is not less than U.S.\$200,000 and (b) provide notice of these transfer restrictions to any subsequent transferees. In addition, it understands that the Issuer may receive a list of participants holding positions in the Issuer's securities from one or more book-entry depositories.
- (3) It understands that the Rule 144A Notes have not been and will not be registered under the Securities Act and may not be offered, sold, pledged or otherwise transferred except (a) in accordance with Rule 144A to a person that it and any person acting on its behalf reasonably believe is a QIB that is also a QP purchasing for its own account or for the account of one or more QIBs, each of which is also a QP or (b) to a non-U.S. Person within the meaning of Regulation S in an offshore transaction in accordance with Rule 903 or Rule 904 of Regulation S under the Securities Act, in each case in accordance with any applicable securities laws of any State or another jurisdiction of the United States.
- (4) It understands that the Issuer has the power to compel any beneficial owner of Rule 144A Notes that is a U.S. Person and is not a QIB and also a QP to sell its interest in the Rule 144A Notes, or may sell such interest on behalf of such owner. The Issuer has the right to refuse to honour the transfer of an interest in the Rule 144A Notes to a U.S. Person who is not both a QIB and a QP.
- (5) It understands and acknowledges that its purchase and holding of such Notes or any interest therein constitutes a representation and agreement by it that that at the time of its purchase and throughout the period in which it holds such Notes or any interest therein (a) either (i) is not, and is not acting on behalf of (and for so long as it holds such Notes (or any interest therein) will not be, or be acting on behalf of), a Benefit Plan Investor or a governmental, church or non-U.S. plan which is subject to U.S. Federal, state, local or non-U.S. law that is substantially similar to the fiduciary responsibility and/or the prohibited transaction provisions of ERISA and/or Section 4975 of the Code and other restrictions ("Similar Laws") and/or laws or regulations that provide that the assets of the Issuer could be deemed to include "plan assets" of such Plan, and no part of the assets used by it to purchase or hold such Note or any interest therein constitutes the assets of such Benefit Plan Investor or such Plan, or (ii) it is, or is acting on behalf of, a governmental, non-electing church or non-U.S. Plan, and such purchase, holding or disposition of such Note does not and will not result in a non-exempt violation of any Similar Laws, and will not subject the Issuer to any laws, rules or regulations applicable to such Plan solely as a result of the purchase, holding or disposition of the Notes by such Plan; and (b) it will not sell or otherwise transfer any such Note or interest therein to any person without first obtaining these same foregoing representations and warranties from that person.
- (6) It understands that the Rule 144A Global Note and any Definitive Notes issued in respect thereof, unless otherwise agreed between the Issuer and the Trustee in accordance with applicable law, will bear a legend to the following effect:

THIS NOTE AND THE LOAN IN RESPECT THEREOF HAVE NOT BEEN AND WILL NOT BE REGISTERED UNDER THE U.S. SECURITIES ACT OF 1933, AS AMENDED (THE "SECURITIES

ACT”), OR WITH ANY SECURITIES REGULATORY AUTHORITY OF ANY STATE OR OTHER JURISDICTION OF THE UNITED STATES, AND MAY NOT BE OFFERED, SOLD, PLEDGED OR OTHERWISE TRANSFERRED EXCEPT (1) IN ACCORDANCE WITH RULE 144A UNDER THE SECURITIES ACT (“**RULE 144A**”) TO A PERSON THAT THE HOLDER AND ANY PERSON ACTING ON ITS BEHALF REASONABLY BELIEVES IS A QUALIFIED INSTITUTIONAL BUYER WITHIN THE MEANING OF RULE 144A UNDER THE SECURITIES ACT (A “**QIB**”) THAT IS ALSO A QUALIFIED PURCHASER (“**QP**”) WITHIN THE MEANING OF SECTION 2(a)(51) OF THE U.S. INVESTMENT COMPANY ACT OF 1940, AS AMENDED (THE “**INVESTMENT COMPANY ACT**”) PURCHASING FOR ITS OWN ACCOUNT OR FOR THE ACCOUNT OF ONE OR MORE QIBS EACH OF WHICH IS A QP WHOM THE HOLDER HAS INFORMED, IN EACH CASE, THAT SUCH OFFER, SALE, PLEDGE OR OTHER TRANSFER IS BEING MADE IN RELIANCE ON RULE 144A UNDER THE SECURITIES ACT, AND IN AN AMOUNT FOR EACH ACCOUNT OF NOT LESS THAN U.S.\$200,000 PRINCIPAL AMOUNT OF NOTES AND THAT CAN REPRESENT, IN EACH CASE, THAT (A) IT IS A QIB THAT IS ALSO A QP; (B) IT IS NOT A BROKER-DEALER WHICH OWNS AND INVESTS ON A DISCRETIONARY BASIS LESS THAN U.S. \$25,000,000 IN SECURITIES OF UNAFFILIATED ISSUERS; (C) IT IS NOT A PARTICIPANT-DIRECTED EMPLOYEE PLAN, SUCH AS A 401 (k) PLAN; (D) IT IS HOLDING THIS NOTE FOR ITS OWN ACCOUNT OR FOR THE ACCOUNT OF ONE OR MORE QIBS, EACH OF WHICH IS A QP; (E) IT WAS NOT FORMED FOR THE PURPOSE OF INVESTING IN THE ISSUER OR THIS NOTE; (F) IT UNDERSTANDS THAT THE ISSUER MAY RECEIVE A LIST OF PARTICIPANTS HOLDING POSITIONS IN ITS SECURITIES FROM ONE OR MORE BOOK-ENTRY DEPOSITARIES; (G) IT, AND EACH ACCOUNT FOR WHICH IT HOLDS WILL HOLD AND TRANSFER AT LEAST U.S. \$200,000 IN PRINCIPAL AMOUNT OF RULE 144A NOTES AND (H) IT WILL PROVIDE NOTICE OF THE FOREGOING TRANSFER RESTRICTIONS TO ITS SUBSEQUENT TRANSFEREES, OR (2) IN AN OFFSHORE TRANSACTION TO A PERSON WHO IS NOT A U.S. PERSON WITHIN THE MEANING OF REGULATION S UNDER THE SECURITIES ACT (“**REGULATION S**”) IN ACCORDANCE WITH RULE 903 OR RULE 904 OF REGULATION S, AND IN EACH CASE IN ACCORDANCE WITH ANY APPLICABLE SECURITIES LAWS OF ANY STATE OF THE UNITED STATES, AND THE HOLDER WILL, AND EACH SUBSEQUENT HOLDER IS REQUIRED TO, NOTIFY ANY PURCHASER FROM IT OF THE NOTES IN RESPECT HEREOF OF THE RESALE RESTRICTIONS REFERRED TO ABOVE. TRANSFER IN VIOLATION OF THE FOREGOING WILL BE OF NO FORCE OR EFFECT, WILL BE VOID *AB INITIO*, AND WILL NOT OPERATE TO TRANSFER ANY RIGHTS TO THE TRANSFEREE, NOTWITHSTANDING ANY INSTRUCTIONS TO THE CONTRARY TO THE ISSUER OF THIS NOTE, THE TRUSTEE OR ANY INTERMEDIARY. NO REPRESENTATION CAN BE MADE AS TO THE AVAILABILITY OF ANY EXEMPTION UNDER THE SECURITIES ACT FOR RESALES OF THIS NOTE.

IF THE BENEFICIAL OWNER HEREOF IS A U.S. PERSON WITHIN THE MEANING OF REGULATION S, SUCH BENEFICIAL OWNER REPRESENTS THAT (1) IT IS A QIB THAT IS ALSO A QP; (2) IT IS NOT A BROKER-DEALER WHICH OWNS AND INVESTS ON A DISCRETIONARY BASIS LESS THAN U.S. \$25,000,000 IN SECURITIES OF UNAFFILIATED ISSUERS; (3) IT IS NOT A PARTICIPANT-DIRECTED EMPLOYEE PLAN. SUCH AS A 401 (k) PLAN; (4) IT IS HOLDING THIS NOTE FOR ITS OWN ACCOUNT OR FOR THE ACCOUNT OF ONE OR MORE QIBS, EACH OF WHICH IS A QP; (5) IT WAS NOT FORMED FOR THE PURPOSE OF INVESTING IN THE ISSUER OR THIS NOTE; (6) IT, AND EACH ACCOUNT FOR WHICH IT HOLDS RULE 144A NOTES WILL HOLD AND TRANSFER AT LEAST U.S.\$20,000 IN PRINCIPAL AMOUNT OF RULE 144A NOTES; (7) IT UNDERSTANDS THAT THE ISSUER MAY RECEIVE A LIST OF PARTICIPANTS HOLDING POSITIONS IN ITS SECURITIES FROM ONE OR MORE BOOK-ENTRY DEPOSITARIES AND (8) IT WILL PROVIDE NOTICE OF THE FOREGOING TRANSFER RESTRICTIONS TO ITS SUBSEQUENT TRANSFEREES.

THE BENEFICIAL OWNER HEREOF HEREBY ACKNOWLEDGES THAT IF AT ANY TIME WHILE IT HOLDS AN INTEREST IN THIS NOTE IT IS A U.S. PERSON WITHIN THE MEANING OF REGULATION S THAT IS NOT A QIB AND ALSO A QP, THE ISSUER MAY (A) COMPEL IT TO SELL ITS INTEREST IN THIS NOTE TO A PERSON WHO IS (I) A U.S. PERSON WHO IS A QIB AND ALSO A QP OR (II) OUTSIDE THE UNITED STATES AND NOT A U.S. PERSON WITHIN THE MEANING OF REGULATION S OR (B) COMPEL THE BENEFICIAL OWNER TO SELL ITS INTEREST IN THIS NOTE TO THE ISSUER OR AN AFFILIATE OF THE ISSUER OR TRANSFER ITS INTEREST IN THIS NOTE TO A PERSON DESIGNATED BY OR ACCEPTABLE TO THE ISSUER, IN ANY CASE, AT A PRICE EQUAL TO THE LESSER OF (X) THE PURCHASE PRICE THEREFOR PAID BY THE BENEFICIAL OWNER, (Y) 100% OF THE PRINCIPAL AMOUNT THEREOF OR (Z) THE FAIR MARKET VALUE THEREOF. THE ISSUER HAS THE RIGHT TO REFUSE TO HONOUR A TRANSFER OF AN INTEREST

IN THIS NOTE TO A U.S. PERSON WHO IS NOT A QIB AND ALSO A QP. THE ISSUER HAS NOT BEEN AND WILL NOT BE REGISTERED UNDER THE INVESTMENT COMPANY ACT.

EACH BENEFICIAL OWNER HEREOF OR OF ANY INTEREST HEREIN REPRESENTS AND WARRANTS THAT FOR SO LONG AS IT HOLDS THIS NOTE OR ANY INTEREST HEREIN (1) IT IS NOT AND WILL NOT BE A BENEFIT PLAN INVESTOR (AS DEFINED IN 29 CFR SECTION 2510 3-101, AS MODIFIED BY SECTION 3(42) OF ERISA) AND (2) IT WILL NOT SELL OR OTHERWISE TRANSFER ANY NOTE OR INTEREST THEREIN TO ANY PERSON WITHOUT FIRST OBTAINING THE SAME FOREGOING REPRESENTATIONS, WARRANTIES AND COVENANTS FROM THAT PERSON.

THE ISSUER MAY COMPEL EACH BENEFICIAL OWNER OF THIS NOTE THAT IS A U.S. PERSON WITHIN THE MEANING OF REGULATION S TO CERTIFY PERIODICALLY THAT SUCH OWNER IS A QIB AND ALSO A QP.

- (7) It acknowledges that the Issuer, VEB, the Registrar, the Dealers and their respective affiliates, and others, will rely upon the truth and accuracy of the above acknowledgements, representations and agreements and agrees that, if any of the acknowledgements, representations or agreements deemed to have been made by it by its purchase of Rule 144A Notes is no longer accurate, it shall promptly notify the Issuer, VEB and the Dealers. If it is acquiring any Notes as a fiduciary or agent for one or more investor accounts, it represents that it has sole investment discretion with respect to each such account and that it has full power to make the above acknowledgements, representations and agreements on behalf of each account.
- (8) It understands that Rule 144A Notes of a Series will be evidenced by a Rule 144A Global Note. Before any interest in a Rule 144A Global Note may be offered, sold, pledged or otherwise transferred to a person who takes delivery in the form of an interest in a Regulation S Global Note, it will be required to provide a Transfer Agent with a written certification (in the form provided in the Agency Agreement) as to compliance with applicable securities laws.

Prospective purchasers are hereby notified that sellers of the Notes may be relying on the exemption from the provisions of Section 5 of the Securities Act provided by Rule 144A.

REGULATION S NOTES

Each purchaser of a beneficial interest in Regulation S Notes outside the United States and each subsequent purchaser of a beneficial interest in Regulation S Notes in resales prior to the expiration of the distribution compliance period, by accepting delivery of this Base Prospectus and the Regulation S Notes, will be deemed to have represented, agreed and acknowledged that:

- (1) It is, or at the time Regulation S Notes are purchased will be, the beneficial owner of such Regulation S Notes and (a) it is not a U.S. Person and it is located outside the United States (within the meaning of Regulation S) and (b) it is not an affiliate of the Issuer, VEB or a person acting on behalf of such an affiliate.
- (2) It understands that the Regulation S Notes have not been and will not be registered under the Securities Act and, prior to the expiration of the distribution compliance period, it will not offer, sell, pledge or otherwise transfer such Notes except (a) in accordance with Rule 144A to a person that it and any person acting on its behalf reasonably believes is a QIB that is also a QP purchasing for its own account or for the account of a QIB that is also a QP or (b) in an offshore transaction in accordance with Rule 903 or Rule 904 of Regulation S, in each case in accordance with any applicable securities laws of any State of the United States.
- (3) It understands that Regulation S Notes of a Series will be evidenced by a Regulation S Global Note. Prior to the expiration of the distribution compliance period, before any interest in a Regulation S Global Note may be offered, sold, pledged or otherwise transferred to a person who takes delivery in the form of an interest in a Rule 144A Global Note, it will be required to provide a Transfer Agent with a written certification (in the form provided in the Agency Agreement) as to compliance with applicable securities laws.

- (4) It understands and acknowledges that its purchase and holding of such Regulation S Notes and any interest therein constitutes a representation and agreement by it that at the time of its purchase and throughout the period it holds such Regulation S Notes or any interest therein (a) either (i) it is not, and is not acting on behalf of (and for so long as it holds such Regulation S Notes (or any interest therein) will not be, or be acting on behalf of), a Benefit Plan Investor or a governmental, church or non-U.S. Plan which is subject to any Similar Laws and/or laws or regulations that provide that the assets of the Issuer could be deemed to include “plan assets” of such Plan, and no part of the assets used by it to purchase or hold such Note or any interest therein constitutes the assets of such Benefit Plan Investor or such Plan, or (ii) it is, or is acting on behalf of, a governmental, non-electing church or non-U.S. Plan, and such purchase, holding or disposition of such Regulation S Note does not and will not result in a non-exempt violation of any Similar Laws, and will not subject the Issuer to any laws, rules or regulations applicable to such Plan solely as a result of the purchase, holding or disposition of the Notes by such Plan; and (b) it will not sell or otherwise transfer any such Regulation S Note or interest therein to any person without first obtaining these same foregoing representations and warranties from that person.
- (5) It acknowledges that the Issuer, VEB, the Registrar, the Dealers and their respective affiliates, and others, will rely upon the truth and accuracy of the above acknowledgements, representations and agreements and agrees that, if any of the acknowledgements, representations or agreements deemed to have been made by it by its purchase of Regulation S Notes is no longer accurate, it shall promptly notify the Issuer, VEB, and the Dealers. If it is acquiring any Regulation S Notes as a fiduciary or agent for one or more investor accounts, it represents that it has sole investment discretion with respect to each such account and that it has full power to make the above acknowledgements, representations and agreements on behalf of each account.

FORM OF FINAL TERMS

Final Terms dated [●]

STATE CORPORATION “BANK FOR DEVELOPMENT AND FOREIGN ECONOMIC AFFAIRS (VNESHECONOMBANK)”

Issue of [Aggregate Principal Amount of Series] [Title of Loan Participation Notes]
by VEB Finance plc.
for the purpose of financing a Loan to State Corporation “Bank for Development and Foreign Economic Affairs
(Vnesheconombank)” (the “**Borrower**”)
under a U.S.\$30,000,000,000 Programme for the Issuance of Loan Participation Notes

PART A – CONTRACTUAL TERMS

Terms used herein shall be deemed to be defined as such for the purposes of the Conditions set forth in the Base Prospectus dated 5 November 2013 [and the supplemental Base Prospectus dated [●]]³ which [together] constitute[s] a base prospectus for the purposes of the Prospectus Directive (Directive 2003/71/EC, as amended) (the “**Prospectus Directive**”). This document constitutes the Final Terms of the Notes described herein for the purposes of Article 5.4 of the Prospectus Directive and must be read in conjunction with such Base Prospectus [as so supplemented]. Full information on the Issuer, the Borrower and the offer of the Notes is only available on the basis of the combination of these Final Terms and the Base Prospectus. [The Base Prospectus [and the supplemental Base Prospectus] [is] [are] available for viewing at the specified offices of the Trustee and the Principal Paying Agent and the registered office of the Issuer and www.centralbank.ie and copies may be obtained from [address].] These Final Terms are available for viewing at www.centralbank.ie

[Include whichever of the following apply or specify as “Not Applicable” (N/A). Note that the numbering should remain as set out below, even if “Not Applicable” is indicated for individual paragraphs or sub-paragraphs. Italics denote directions for completing the Final Terms.]

[When completing final terms or adding any other final terms or information, consideration should be given as to whether such terms or information constitute “significant new factors” and consequently trigger the need for a supplement to the Base Prospectus under Article 16 of the Prospectus Directive.]

PART B – OTHER INFORMATION

1. LISTING

- (i) Listing: [Irish Stock Exchange/None]
- (ii) Admission to trading: [Application has been made to the Irish Stock Exchange for the Notes to be admitted to the Official List and to trading on its regulated market with effect from [●].] [Not Applicable]
- (iii) Estimate of total expenses related to admission to trading: [●]

2. [RATINGS]

Ratings: The Notes to be issued have been rated:

[Moody's: [●]]

[Fitch: [●]]

[[Other]: [●]]

(The above disclosure should reflect the rating allocated to Notes of the type being issued under the Programme generally or, where the issue has been specifically rated, that rating)

Option 1: The rating is by a registered rating agency established in the EU:

[[Insert the legal name of the relevant credit rating agency entity] is established in the European Union and is registered under Regulation (EC) No. 1060/2009 (as amended) (the —CRA Regulation). As such, [insert the legal name of the relevant credit rating agency entity] is included in the list of credit rating agencies published by the European Securities and Markets Authority on its website in accordance with such Regulation.]

Option 2: The rating is by an unregistered rating agency established outside the EU:

[[Insert the legal name of the relevant non-EU credit rating agency entity] is not established in the European Union and is not registered in accordance with Regulation (EC) No. 1060/2009 (as amended) (the —CRA Regulation). [Insert the legal name of the relevant non-EU credit rating agency entity] is therefore not included in the list of credit rating agencies published by the European Securities and Markets Authority on its website in accordance with such Regulation.]

Option 3: The rating agency is established in the EU and is applying to be registered but has not yet been registered:

[[Insert the legal name of the relevant credit rating agency entity] is established in the European Union and has applied for registration under Regulation (EC) No. 1060/2009 (as amended) (the —CRA Regulation), although notification of the corresponding registration decision has not yet been provided by the relevant competent authority and *[insert the legal name of the relevant credit rating agency entity]* is not included in the list of credit rating agencies published by the European Securities and Markets Authority on its website in accordance with such Regulation.]

Option 4: The rating is by a third country rating agency that is endorsed by an EU registered agency:

[[Insert the legal name of the relevant non-EU credit rating agency entity] is not established in the European Union and has not applied for registration under Regulation (EC) No. 1060/2009 (as amended) (the —CRA Regulation). The ratings [have been]/[are expected to be] endorsed by *[insert the legal name of the relevant EU-registered credit rating agency entity]* in accordance with the CRA Regulation. *[Insert the legal name of the relevant EU-registered credit rating agency entity]* is established in the European Union and registered under the CRA Regulation. As such, *[insert the legal name of the relevant EU credit rating agency entity]* is included in the list of credit rating agencies published by the European Securities and Markets Authority on its website in accordance with the CRA Regulation.]

Option 5: The rating is by a third country rating agency that has not applied to be registered but is certified in accordance with the CRA Regulation:

[[*Insert the legal name of the relevant non-EU credit rating agency entity*] is not established in the European Union and has not applied for registration under Regulation (EC) No. 1060/2009 (as amended) (the —CRA Regulation), but it [is]/[has applied to be] certified in accordance with the CRA Regulation [and it is included in the list of credit rating agencies published by the European Securities and Markets Authority on its website in accordance with the CRA Regulation]/[although notification of the corresponding certification decision has not yet been provided by the relevant competent authority and [*insert the legal name of the relevant non-EU credit rating agency entity*] is not included in the list of credit rating agencies published by the European Securities and Markets Authority on its website in accordance with the CRA Regulation].]

Option 6: The rating is by an agency not established in the EU but has been endorsed by an accredited agency

[[*Insert the legal name of the relevant non-EU credit rating agency entity*] is not established in the European Union and has not applied for registration under Regulation (EC) No. 1060/2009 (as amended) (the —CRA Regulation). The ratings [have been]/[are expected to be] endorsed by [*insert the legal name of the relevant EU registered credit rating agency entity*] in accordance with the CRA Regulation. [*Insert the legal name of the relevant EU-registered credit rating agency entity*] is established in the European Union and has applied for registration under Regulation (EC) No.1060/2009 (as amended) (the —CRA Regulation), although notification of the corresponding registration decision has not yet been provided by the relevant competent authority and [*insert the legal name of the relevant credit rating agency entity*] is not included in the list of credit rating agencies published by the European Securities and Markets Authority on its website in accordance with such Regulation.]

The Central Bank of Ireland has provided the competent authority(ies) of [insert details of Host Member State(s)] with a certificate of approval attesting that the Base Prospectus has been drawn up in accordance with the provisions of the Prospectus Directive 2003/71/EC and Commission Regulation (EC) No 809/2004.

4 [INTERESTS OF NATURAL AND LEGAL PERSONS INVOLVED IN THE [ISSUE/OFFER]

If applicable, a description of any interest, including conflicting ones, that is material to the issue/offer, detailing the persons involved and the nature of the interest is to be included. This may be satisfied by the inclusion of the following statement:

“Save as discussed in “Subscription and Sale”, so far as the Issuer is aware, no person involved in the offer of the Notes has an interest material to the offer.”]

5 [REASONS FOR THE OFFER, ESTIMATED NET PROCEEDS AND TOTAL EXPENSES

- [(i) Reasons for the offer [•]
- (See “Use of Proceeds” wording in Prospectus – if reasons for offer different from making profit and/or hedging certain risks, will need to include those reasons here)]
- [(ii) Estimated net proceeds: [•]
- (If proceeds are intended for more than one use, will need to split out and present in order of priority. If proceeds insufficient to fund all proposed uses state amount and sources of other funding)
- [(iii) Estimated total expenses: [•] [Include breakdown of expenses]
- (If the Notes are derivative securities to which Annex XII of the Prospectus Directive Regulation applies it is only necessary to include disclosure of net proceeds and total expenses at (ii) and (iii) above where disclosure is included at (i) above)

6 [Fixed Rate Notes only – YIELD

- Indication of yield: [[•]
- The yield is calculated at the Issue Date on the basis of the Issue Price. It is not an indication of future yield (in the case of a Senior Series)]
- [[•]
- The yield is calculated at the Issue Date on the basis of the Issue Price and in respect of the Initial Interest Term (as defined in the Subordinated Loan Agreement). Calculation of the yield beyond that period is subject to the interest rate step-up mechanism at the end of such period (in the case of a Subordinated Series)]

7 OPERATIONAL INFORMATION

ISIN Code [Regulation S Notes]:	[•]
Common Code [Regulation S Notes]:	[•]
[ISIN Code (Rule 144A Notes)	[•]
Common Code (Rule 144A Notes)	[•]]
[CUSIP Code	[•]]
Any clearing system(s) other than Euroclear Bank SA/NV [,] [and] Clearstream Banking, société anonyme [and DTC] and the relevant identification number(s)/and/or any alternative Common Depository/Custodian:	[Not Applicable/give name(s) and number(s) [and addresses]]
Delivery:	Delivery [against/free of] payment
Names and addresses of additional Paying Agent(s) (if any):	[•]

8 THE LOAN

The Loan is a [fixed/floating] rate loan. Interest shall be calculated, and the following terms used in the Facility Agreement shall have the following meanings, as set out below:

8.1 Terms of the Loan

(i) Loan:	[•] [<i>insert amount of Loan</i>]
(ii) Loan Currency:	[•] [<i>insert currency of Loan</i>]
(iii) Closing Date:	[•]
(iv) Repayment Date:	[•]
(vii) Specified Currency:	[•] [<i>if applicable</i>]

8.2 Loan interest basis

8.2.1 Fixed Rate Loan Provisions

[Applicable/Not Applicable]

(If not applicable, delete the remaining subparagraphs of this paragraph)

(i) Interest Commencement Date:	[•]
(ii) Rate[(s)] of Interest:	[•] per cent. per annum [payable [annually/semi-annually] in arrear

(iii)	Interest Payment Date(s):	[●] in each year [adjusted in accordance with [the Floating Rate Business Day Convention] [Following Business Day Convention][Modified Following Business Day Convention][Preceding Business Day Convention]/not adjusted]
(iv)	Fixed Amount[(s)]:	[●] per [●] in principal amount
(v)	Broken Amount:	[[●] and [●] in principal amount, payable on the Interest Payment Date(s) falling [in/on] [●]]
(vi)	Day Count Fraction (Clause 4.9):	[Actual/Actual][Actual/Actual – ISDA] [Actual/365(Fixed)][Actual/360][30/360] [360/360][Bond Basis] [30E/360] [30E/360 (ISDA)] [Actual/Actual – ICMA][Eurobond Basis] <i>(Day count fraction should be Actual/Actual-ICMA for all fixed rate loans other than those denominated in U.S. dollars, unless specified)</i>
(vii)	Determination Date(s) (Clause 4.9):	[●] in each year. <i>[Insert regular Interest Payment Dates, ignoring Issue Date or Maturity Date in the case of a long or short first or last Interest Period]*</i>
8.2.2	Floating Rate Loan Provisions	[Applicable/Not Applicable] <i>(If not applicable, delete the remaining subparagraphs of this paragraph)</i>
(i)	Interest Commencement Date:	[●]

(iii)	Specified Interest Payment Dates:	[●]
(iv)	Business Day Convention:	[Floating Rate Business Day Convention][Following Business Day Convention][Modified Following Business Day Convention][Preceding Business Day Convention]/[No Adjustment]
(v)	Business Centre(s) (Clause 4.9):	[●]
(vi)	Manner in which the Rate(s) of Interest is/are to be determined:	[Screen Rate Determination/ISDA Determination]
(vii)	Interest Period Date(s):	[Not Applicable/specify dates]
(viii)	Party responsible for calculating the Rate(s) of Interest and Interest Amount(s) (if not the Calculation Agent):	[●]
(ix)	Screen Rate Determination (Clause 4.3.3):	
	- Relevant Time:	[●] in the Relevant Financial Centre(s)

-	Determination Date:	[[●] <i>[TARGET] Business Days in [specify city] for [specify currency] prior to [the first day in each Interest Accrual Period/each Interest Payment Date]</i>
-	Relevant Screen Page/Primary Source for Floating Rate:	<i>[Specify relevant screen page or “Reference Banks”]</i>
-	Reference Banks (if Primary Source is “Reference Banks”):	<i>[Specify four]</i>
-	Relevant Financial Centre:	<i>[London/Brussels/Singapore/Sydney/New York/Zurich/Beijing/Moscow/Hong Kong/Tokyo/Oslo/delete as applicable]</i>
-	Reference Rate:	<i>[LIBOR, EURIBOR or MOSPRIME]</i>
-	Representative Amount:	<i>[Specify if screen or Reference Bank quotations are to be given in respect of a transaction of a specified notional amount]</i>
-	Effective Date:	<i>[Specify if quotations are not to be obtained with effect from commencement of Interest Accrual Period]</i>
-	Specified Duration:	<i>[Specify period for quotation if not duration of Interest Accrual Period]</i>
(x)	ISDA Determination (Clause 4.3):	[●]
-	Floating Rate Option:	[●]
-	Designated Maturity:	[●]
-	Reset Date:	[●]
-	ISDA Definitions: (if different from those set out in the Conditions)	[●]
(xi)	Margin(s):	[+/-][●] per cent. per annum
(xii)	Minimum Rate of Interest:	[●] per cent. per annum
(xiii)	Maximum Rate of Interest:	[●] per cent. per annum
(xiv)	Day Count Fraction (Clause 4.6):	[Actual/Actual][Actual/Actual – ISDA][Actual/365(Fixed)][Actual/360][30/360][360/360][Bond Basis] [30E/360] [30E/360 (ISDA)][Actual/Actual – ICMA][Eurobond Basis]
8.3	Prepayment in the Event of Change of Control	[Applicable]/[Not Applicable]
8.4	Put Option	[Applicable]/[Not Applicable]
8.5	Put Settlement Date	[●]

- 8.6 Call Option [Applicable]/[Not Applicable]
- 8.7 Call Option Commencement Date: [●]
- 8.8 Early Redemption Amount: [●] per [●] amount of the Loan, plus accrued Interest, if any, to the Call Redemption Date
- 8.9 Treasury Rate: [●]

GENERAL INFORMATION

1. The establishment of the Programme was authorised by the Supervisory Board of VEB on 25 May 2010 and by the Board of Directors of the Issuer on 23 June 2010. The update of the Programme was approved by the Board of Directors of the Issuer on 4 November 2013. VEB has received all required internal authorisations to establish the Programme and to receive the Loans from the Issuer. VEB and the Issuer have obtained or will obtain all necessary consents, approvals and authorisations in the Russian Federation and Ireland in connection with any Loan and the issue and performance of the corresponding Series of Notes.
2. Transactions will normally be effected for delivery on the third working day after the day of the transaction. However, Notes may be issued pursuant to the Programme which will not be listed on any stock exchange. Arthur Cox Listing Services Limited is acting solely in its capacity as listing agent for the Issuer in relation to the Notes and is not itself seeking admission of the Notes to the Official List or to trading on the regulated market of the Irish Stock Exchange for the purposes of the Prospectus Directive.
3. No consents, approvals, authorisations or orders of any regulatory authorities are required by the Issuer under the laws of Ireland for the issue and performance of the corresponding Series of Notes.
4. There has been no significant change in the financial or trading position or prospects of VEB or the Group since 30 June 2013 (the date of the last published unaudited financial statements of VEB) and no material adverse change in the financial or trading position or prospects of VEB or the Group since 30 June 2013 other than as disclosed in this Base Prospectus. There has been no significant change and/or material adverse change in the financial or trading position or prospects of the Issuer since 31 December 2012 (the date of the last published audited financial statements of the Issuer). The Issuer has no subsidiaries.
5. Other than as set out under “*Description of VEB’s Business—Litigation*” with respect to the liquidation of Malév Ltd, neither VEB nor any of its subsidiaries is involved in, or has been involved in, any governmental, legal or arbitration proceedings that may have had in the twelve months before the date of this Base Prospectus, a significant effect on the financial position or profitability of the Group, nor, so far as VEB is aware, are any such proceedings pending or threatened.
6. The Issuer has not been involved in any governmental, legal or arbitration proceedings that may have had, in the twelve months before the date of this Base Prospectus, a significant effect on the Issuer’s financial position or profitability, nor, so far as the Issuer is aware, are any such proceedings pending or threatened.
7. For so long as any Series of Notes is outstanding, copies (and English translations where the documents in question are not in English) of the following documents may be obtained free of charge in physical form at the specified offices of the Trustee and the Principal Paying Agent and the Irish Paying Agent during normal business hours on any weekday (Saturdays, Sundays and public holidays excepted):
 - the latest audited consolidated financial statements of VEB;
 - the latest two years audited financial statements of VEB;
 - the latest audited financial statements of the Issuer; and

copies of the following documents will be available for inspection in physical form at the specified offices of the Trustee and the Principal Paying Agent and the Irish Paying Agent during normal business hours on any weekday (Saturdays, Sundays and public holidays excepted):

- Development Bank Law, the 2007 Memorandum and the Memorandum and Articles of Association of the Issuer;
- the Trust Deed in respect of the Notes (including the forms of the Global Notes and definitive Notes);

- the Agency Agreement in respect of the Notes;
 - each Loan Agreement;
 - each applicable Swap Agreement;
 - each Final Terms or the Series Prospectus, as the case may be, for Notes which are listed on the Irish Stock Exchange (save that Final Terms relating to a Note which is neither admitted to trading on a regulated market within the European Economic Area nor offered in the European Economic Area in circumstances where a Base Prospectus is required to be published under the Prospectus Directive will only be available for inspection by a holder of such Note and such holder must produce evidence satisfactory to the Issuer, VEB and the Paying Agent as to its holding of Notes and identity); and
 - a copy of this Base Prospectus together with any supplement to this Base Prospectus or further Base Prospectus.
8. The Notes have been accepted for clearance through Euroclear and Clearstream, Luxembourg and DTC. Report on review of the interim condensed consolidated financial statements

To the Supervisory Board
of state corporation "Bank for Development and Foreign Economic Affairs (Vnesheconombank)"

We have reviewed the accompanying interim condensed consolidated financial statements of state corporation "Bank for Development and Foreign Economic Affairs (Vnesheconombank)" and its subsidiaries, which comprise the interim condensed consolidated statement of financial position as at 30 June 2013, and the related interim condensed consolidated statements of income and of comprehensive income for the three-month and six-month periods then ended, interim condensed consolidated statements of changes in equity and of cash flows for the six-month period then ended and explanatory notes.

Management of the entity is responsible for the preparation and presentation of these interim condensed consolidated financial statements in accordance with IAS 34 *Interim Financial Reporting*. Our responsibility is to express a conclusion on these interim condensed consolidated financial statements based on our review.

Scope of review

We conducted our review in accordance with the Federal Law *On Auditing*, Federal Rule (Standard) on Auditing No. 33 *Review of (Statutory) Financial Statements* and International Standard on Review Engagements 2410 *Review of Interim Financial Information Performed by the Independent Auditor of the Entity*.

A review of the interim condensed consolidated financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Federal Standards on Auditing effective in the Russian Federation and International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial statements are not prepared, in all material respects, in accordance with IAS 34 *Interim Financial Reporting*.

O.V. Youshenkov
Partner
Ernst & Young LLC

9 October 2013

(in millions of Russian rubles)

1. Principal activities

The Group of state corporation "Bank for Development and Foreign Economic Affairs (Vnesheconombank)" comprises state corporation "Bank for Development and Foreign Economic Affairs (Vnesheconombank)" ("Vnesheconombank" or the "Bank"), Russian banks, CIS-based banks, and Russian and foreign companies (collectively, the "Group"). List of major subsidiaries and associates is presented in Note 3.

Vnesheconombank was formed on 8 June 2007 pursuant to and in accordance with Federal Law No. 82-FZ dated 17 May 2007, "On Bank for Development" (the "Federal Law"), by means of reorganization of Bank of Foreign Economic Affairs of the USSR ("Vnesheconombank of the USSR") and is its legal successor. Vnesheconombank of the USSR was a specialized state bank of the Russian Federation servicing, in an agency capacity, the foreign debt and assets of the former USSR and the Government of the Russian Federation (the "Russian Government") and its authorized institutions.

In accordance with Federal Law No. 395-1, "On Banks and Banking Activity", dated 2 December 1990, including amendments to it, Vnesheconombank performs banking operations as stipulated by the Federal Law. The Bank has no right to attract deposits from individuals. The legislation on banks and banking activity shall apply to the Bank only to the extent that it does not contradict the Federal Law and subject to certain specifics.

The main principles and areas of the Bank's activity are set out in the Federal Law and the Memorandum on the Financial Policies of the state corporation "Bank for Development and Foreign Economic Affairs (Vnesheconombank)", approved by Resolution of the Russian Government No. 1007-r dated 27 July 2007 (the "Memorandum"). The Memorandum provides for the main areas of the Bank's investing and financing activities, stipulates quantitative limitations, conditions and criteria of specific operations. The Russian Government, by Resolution No. 2610-r dated 29 December 2012, approved amendments to the Memorandum setting out terms and procedures for providing financial support and guarantees to companies working on state defense contracts and involved in federal-level defense and security programs. In addition, the Memorandum was amended by adding a section on the formal process for Vnesheconombank to make decisions on investing pension savings in bonds covered by guarantees of the Russian Government and bonds issued by companies, which have been assigned a long-term credit rating not lower than Russia's sovereign rating by an international credit rating agency approved in accordance with the procedure established by a federal governmental body for financial markets, for the purpose of financing the government's major infrastructure development projects.

The management bodies of the Bank are the Supervisory Board chaired by the Prime Minister of the Russian Federation, the Management Board and the Chairman of the Bank. In accordance with the Federal Law, the Chairman of the Bank is appointed by the President of the Russian Federation for a term which cannot exceed 5 years.

Vnesheconombank activities are aimed at overcoming infrastructure growth constraints, upgrading and promoting non-raw materials economic sector, encouraging innovations and exports of high-technology products, carrying out projects in special economic zones, environment protection projects, and supporting small and medium-sized businesses. The Bank actively participates in large investment projects contributing to the development of infrastructure and high-technology industries of the real sector of the economy.

(in millions of Russian rubles)

1. Principal activities (continued)

As detailed in Note 18, the Bank's charter capital has been formed by means of asset contributions from the Russian Federation made under decrees of the Russian Government, including contribution of state-owned shares of OJSC "Russian Bank for Development" (in 2011 renamed to OJSC "Russian Bank for Small and Medium Enterprises Support" ("SME Bank"), CJSC "State Specialized Russian Export-Import Bank" (EXIMBANK OF RUSSIA) and Federal Center for Project Finance (FCPF) to the charter capital.

Vnesheconombank performs the functions of an agent for the Russian Government for the purpose of accounting, servicing and repaying the foreign national debt of the former USSR and the Russian Federation (including internal currency debt of the former USSR); accounting, servicing and repaying (using) government loans issued by the former USSR and the Russian Federation to foreign borrowers; collecting (recovering) debts from legal entities, constituent entities of the Russian Federation and municipal governments under cash liabilities to the Russian Federation; providing and executing state guarantees of the Russian Federation and monitoring projects implemented by the Russian Federation with involvement of international financial institutions.

Vnesheconombank performs the functions of an agent of the Russian Government under the Agreement entered into with the Ministry of Finance of the Russian Federation (the "Russian Ministry of Finance") on 25 December 2009 and Additional Agreement No. 1 dated 23 December 2010, Additional Agreement No. 2 dated 8 December 2011 and Additional Agreement No. 3 dated 23 July 2012 (collectively, "Agency Agreements"). A new additional agreement with the Russian Ministry of Finance is expected to be entered into in 2013.

In January 2003, the Bank was nominated as the state trust management company for the trust management of pension savings funds accumulated by the State Pension Fund of the Russian Federation (the "SPF"). Vnesheconombank performs trust management of accumulated pension savings of insured citizens who have not selected a private management company and who have selected the Bank as the management company.

On 2 August 2009, Federal Law No. 182-FZ dated 18 July 2009, "On Amendments to Federal Law "On Non-state Pension Funds" and Federal Law "On Investment of Funds to Finance the Funded Part of Labor Pensions in the Russian Federation", came into effect which provides for that from 1 November 2009 the Bank as the state trust management company for pension savings shall form two portfolios: an extended investment portfolio and an investment portfolio of government securities. The Bank shall form the portfolios in accordance with the investment declarations approved by Resolution of the Russian Government No. 540 dated 1 September 2003 and No. 842 dated 24 October 2009. In accordance with Resolution of the Russian Government No. 658 dated 29 June 2012 "On Amendments to Resolution of the Russian Government No. 970 dated 22 December 2008," Vnesheconombank was appointed as state management company for funds in the payment reserve. The payment reserve is formed in accordance with Federal Law No. 360-FZ of 30 November 2011 "Concerning the Procedure for Using Pension Accruals to Finance Payments" for purposes of payments to the cumulative part of the old-age pension.

During the six-month period of 2013, the Bank, as a state management company, mainly invested in state securities denominated in Russian rubles, and corporate bonds of highly credible Russian issuers, mortgage securities and bonds of international financial organizations. As at 30 June 2013 and 31 December 2012, total funds of the SPF placed in management to the state trust management company amounted to RUB 1,718,313 million and RUB 1,644,116 million, respectively.

In accordance with Resolution of the Russian Government No. 503 dated 14 June 2013, Vnesheconombank shall perform functions of state trust management company for pension savings and state management company for the payment reserve until 1 January 2019.

(in millions of Russian rubles)

1. Principal activities (continued)

The Bank performs functions of the agent servicing the foreign debt of the former USSR and of the Russian Federation, including maintenance of accounting records, settlements and reconciliation of above debt until the date determined by the Russian Government.

Since October 2008, Vnesheconombank has been taking measures aimed at supporting the financial system of the Russian Federation so as to implement Federal Law No. 173-FZ dated 13 October 2008, "On Additional Measures to Support the Financial System of the Russian Federation" ("Federal Law No.173-FZ"). As detailed in Notes 9 and 10, the Bank extended unsecured subordinated loans to Russian banks, and starting from the end of December 2010, the Bank acts as a lender for operations to enhance affordability of mortgage loans through extending loans to OJSC "The Agency for Housing Mortgage Lending" (OJSC "AHML").

The Bank's head office is located in Moscow, Russia. The Bank's principal office is located at 9 Prospect Akademika Sakharova, Moscow.

The Bank has representative offices in St. Petersburg (Russia), Khabarovsk (Russia), Yekaterinburg (Russia), Pyatigorsk (Russia), Rostov-on-Don (Russia), Krasnoyarsk (Russia), Nizhny Novgorod (Russia), New-York (the United States of America), London (the United Kingdom of Great Britain and Northern Ireland), Milan (the Italian Republic), Frankfurt-am-Main (the Federal Republic of Germany), Johannesburg (the Republic of South Africa), Mumbai (the Republic of India), New-Delhi (the Republic of India), Beijing (the People's Republic of China), Paris (the French Republic) and Zurich (the Swiss Confederation).

2. Basis of preparation

General

These interim condensed consolidated financial statements for the six-month period ended 30 June 2013 have been prepared in accordance with IAS 34 *Interim Financial Reporting*. Accordingly, they do not include all the information and disclosures required in the annual financial statements under IFRS, and should be read in conjunction with the Group's annual financial statements for the year ended 31 December 2012. Operating results for the six-month period ended 30 June 2013 are not necessarily indicative of the results that may be expected for the year ending 31 December 2013.

The accompanying consolidated financial statements are presented in millions of Russian rubles ("RUB million"), unless otherwise indicated.

The Russian ruble is the functional currency of Vnesheconombank and the presentation currency of the Group. Transactions in other currencies are treated as transactions in foreign currencies. The foreign subsidiary OJSC "Belvnesheconombank" (Bank BelVEB OJSC) uses the Belarusian ruble ("BYR") as its functional currency. Public Stock Company "Joint-Stock Commercial Industrial and Investment Bank" (PSC Prominvestbank), another foreign subsidiary of the Group, uses the Ukrainian hryvnia ("UAH") as its functional currency.

Changes in accounting policies

The accounting policies and calculation methods adopted in the preparation of these interim condensed consolidated financial statements are consistent with those adopted and described in the annual consolidated financial statements of the Group for the year ended 31 December 2012, except for the change in respect of identifying evidence of impairment of financial investments available for sale and changes due to the adoption of new and (or) revised standards and interpretations as at 1 January 2013, noted below:

(in millions of Russian rubles)

2. Basis of preparation (continued)

Changes in accounting policies (continued)

The Group has decided that starting from 1 January 2013 it will no longer use common quantitative criteria for determining whether financial investments available for sale are impaired, and will use professional judgment to assess any significant or prolonged decline in the fair value of investments below their cost.

IFRS 10 Consolidated Financial Statements, IAS 27 Separate Financial Statements

IFRS 10 establishes a single control model that applies to all entities including special purpose entities. IFRS 10 replaces the parts of previously existing IAS 27 *Consolidated and Separate Financial Statements* that dealt with consolidated financial statements and SIC-12 *Consolidation – Special Purpose Entities*. IFRS 10 changes the definition of control such that an investor controls an investee when it is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. To meet the definition of control in IFRS 10, all three criteria must be met, including: (a) an investor has power over an investee; (b) the investor has exposure, or rights, to variable returns from its involvement with the investee; and (c) the investor has the ability to use its power over the investee to affect the amount of the investor's returns. IFRS 10 had no impact on the consolidation of investments held by the Group.

IFRS 13 Fair Value Measurement

IFRS 13 establishes a single source of guidance under IFRS for all fair value measurements. IFRS 13 does not change when an entity is required to use fair value, but rather provides guidance on how to measure fair value under IFRS when fair value is required or permitted. The application of IFRS 13 has not materially impacted the fair value measurements carried out by the Group.

IFRS 13 also requires specific disclosures on fair values, some of which replace existing disclosure requirements in other standards, including IFRS 7 *Financial Instruments: Disclosures*. Some of these disclosures are specifically required for financial instruments by IAS 34.16A(j), thereby affecting the interim condensed consolidated financial statements. The Group disclosed this information in Note 20.

Amendment to IAS 19 Employee Benefits

The amendments involve major changes to the accounting for employee benefits, including the removal of the option for deferred recognition of changes in pension plan assets and liabilities (known as the "corridor approach"). In addition, these amendments will limit the changes in the net pension asset (liability) recognised in profit or loss to net interest income (expense) and service costs. The amendment had no impact on the financial position or performance of the Group.

Amendment to IAS 1 Presentation of Financial Statements – Presentation of Other Comprehensive Income

The amendments to IAS 1 change the grouping of items presented in other comprehensive income. Items that could be reclassified (or recycled) to profit or loss at a future point in time (for example, net losses or gains on available-for-sale financial assets) would be presented separately from items that will never be reclassified (for example, revaluation of buildings). The amendment affects presentation only and has no impact on the Group's financial position or performance.

(in millions of Russian rubles)

2. Basis of preparation (continued)

Changes in accounting policies (continued)

Amendments to IFRS 7 Disclosures – Offsetting Financial Assets and Financial Liabilities

These amendments require an entity to disclose information about rights to set-off and related arrangements (e.g., collateral agreements). The disclosures would provide users with information that is useful in evaluating the effect of netting arrangements on an entity's financial position. The new disclosures are required for all recognized financial instruments that are set off in accordance with IAS 32 *Financial Instruments: Presentation*. The disclosures also apply to recognised financial instruments that are subject to an enforceable master netting arrangement or similar agreements, irrespective of whether they are set off in accordance with IAS 32. The amendments had no impact on the financial position or performance of the Group.

Amendment to IFRS (IAS) 32 Financial instruments: Presentation

This amendment clarifies that income taxes arising from distributions to equity holders are accounted for in accordance with IAS 12 *Income Taxes*. The amendment removes existing income tax requirements from IAS 32 and requires entities to apply the requirements in IAS 12 to any income tax arising from distributions to equity holders. The amendment did not have an impact on the interim condensed consolidated financial statements for the Group, as there is no tax consequences attached to cash or non-cash distribution.

Amendments to IAS 34 Interim Financial Reporting

The amendment clarifies the requirements in IAS 34 relating to segment information for total assets and liabilities for each reportable segment to enhance consistency with the requirements in IFRS 8 *Operating Segments*. Total assets and liabilities for a reportable segment need to be disclosed only when the amounts are regularly provided to the chief operating decision maker and there has been a material change in the total amount disclosed in the entity's previous annual consolidated financial statements for that reportable segment. The Group provides this disclosure as total segment assets were reported to the chief operating decision maker. As a result of the adoption of this amendment, the Group also discloses the segment's total liabilities in these interim financial statements, as such information is provided to the chief operating decision maker (Note 5).

The mentioned new or revised standards and interpretations effective from 1 January 2013 did not have any impact on the accounting policies, financial position or performance of the Group, unless otherwise indicated.

Significant accounting estimates

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts. These estimates and assumptions are based on the information available as at the date of the financial statements. The actual results may differ from these estimates and it is possible that these differences may have a material effect on the financial statements.

The key assumptions concerning the future and other key sources of estimation uncertainty regarding allowance for impairment of loans and receivables and taxation estimates are consistent with those used in preparing the annual consolidated financial statements for the year ended 31 December 2012.

(in millions of Russian rubles)

3. Major subsidiaries, associates and jointly controlled entities

Subsidiaries

The Group's major subsidiaries included in the consolidated financial statements are presented in the table below:

Subsidiaries	Ownership		Country of incorporation	Type of activity
	30 June 2013 (Unaudited)	31 December 2012		
EXIMBANK OF RUSSIA	100%	100%	Russia	Banking
Bank BelVEB OJSC	97.52%	97.52%	Republic of Belarus	Banking
OJSC "VEB-Leasing"	98.96%	98.96%	Russia	Leasing
"SME Bank"	100%	100%	Russia	Banking
Sviaz-Bank	99.47%	99.47%	Russia	Banking
PSC Prominvestbank	97.85%	97.85%	Ukraine	Banking
CJSC "Kraslesinvest"	100%	100%	Russia	Production and processing of materials
CJSC "GLOBEXBANK"	99.99%	99.99%	Russia	Banking
R.G.I. International Limited	51.4%	–	Guernsey	Real estate development business
LLC "VEB-Capital"	100%	100%	Russia	Financial intermediary
"VEB Engineering" LLC	67.55%	67.55%	Russia	Investment project implementation services
FCPF	100%	100%	Russia	Financial intermediary
OJSC "North Caucasus Development Corporation"	100%	100%	Russia	Advisory services, investment project support
RDIF Management Company LLC	100%	100%	Russia	Management company
EXIAR	100%	100%	Russia	Insurance
OJSC "The Far East and Baikal Region Development Fund"	100%	100%	Russia	Investment project support
Share of assets:				
Closed-end Mutual Hedge Fund "MRIF"	99.92%	99.92%	Russia	Mutual fund
Closed-end Mutual Equity Fund "MRIF-II"	99.9992%	99.9992%	Russia	Mutual fund
Mutual Fund "RDIF"	100%	100%	Russia	Mutual fund

As at 30 June 2013 and 31 December 2012, the Group owns 100% of the voting shares of OJSC "VEB-Leasing".

As at 30 June 2013 and 31 December 2012, the Bank owns 100% of votes at the meeting of participants of "VEB Engineering" LLC.

In January 2013, the Bank transferred funds in the form of an asset contribution obtained by the Bank (Note 18) in the total amount of RUB 62,000 million to pay for 60,218 additional investment units of Mutual Fund "RDIF". The Bank's share in the fund's assets remained unchanged at 100%.

In February 2013, the Bank purchased 2,000,000 ordinary registered shares additionally issued by OJSC "Federal Center for Project Finance" in the amount of RUB 2,000 million. The Bank's share in the equity of its subsidiary remained unchanged at 100%.

(in millions of Russian rubles)

3. Major subsidiaries, associates and jointly controlled entities (continued)

Subsidiaries (continued)

In March 2013, the Bank transferred funds in the form of an asset contribution obtained by the Bank (Note 18) in the total amount of RUB 15,000 million as payment for the additionally issued 15,000,000 shares of OJSC "The Far East and the Baikal Region Development Fund". The Bank's share in the equity of its subsidiary remained unchanged at 100%.

In April 2013, VEB Asia Limited was registered in Hong Kong (Chinese People's Republic), with Vnesheconombank holding a 100% interest in its share capital. The Company's share capital is USD 30 million. At 30 June 2013, no contribution to the charter capital of the company was made.

In May 2013, the Bank transferred USD 359 million (equal to RUB 11,001 million at the cross-rate of RUB to UAH at the date of transfer) as payment for 286,701,086 shares of additional issue of PSC Prominvestbank.

As at 30 June 2013, the placement of the additional issue of shares of PSC Prominvestbank was not completed.

Associates and jointly controlled entities

The Group's major associates accounted for under the equity method in the consolidated financial statements are presented in the table below:

Associates	Ownership		Country of incorporation	Type of activity
	30 June 2013 (Unaudited)	31 December 2012		
LLC "Managing Company "Bioprocess Capital Partners"	25.10%	25.10%	Russia	Financial intermediary
OJSC "Corporation of Development of Krasnoyarsk Territory"	25.00%	25.00%	Russia	Financial intermediary
LLC "PROMINVEST"	25.00%	25.00%	Russia	Financial intermediary
OJSC "Ilyushin Finance Co."	21.39%	21.39%	Russia	Leasing
LLC "VEB-Invest"	19.00%	19.00%	Russia	Investment
CJSC "Leader"	27.62%	27.62%	Russia	Management company
Share of assets:				
CMIF "Bioprocess Capital Ventures"	50.00%	50.00%	Russia	Investment

4. Business combinations and changes in ownership interest in subsidiaries

Acquisitions

R.G.I. International Limited

On 8 March 2013, subsidiary bank CJSC "GLOBEXBANK" acquired 28.8% of voting shares of R.G.I. International Limited ("RGI"). Immediately before the acquisition date, CJSC "GLOBEXBANK" owned 22.6% of voting shares in RGI that were acquired on 4 January 2013. As a result, the Group's interest in RGI amounted to 51.4%. The shares were acquired for USD 2.1 per share totaling RUB 5,408 million at the exchange rate at the date of acquisition.

(in millions of Russian rubles)

4. Business combinations and changes in ownership interest in subsidiaries (continued)

Acquisitions (continued)

RGI is a development company, which specializes in residential and retail real estate projects in Moscow and adjacent areas. The Group acquired controlling interest in RGI in order to participate in investment projects on construction and sale of real estate.

The fair values of the identifiable assets and liabilities acquired were determined provisionally and did not differ significantly from the carrying values of the respective assets and liabilities.

	Provisional fair value recognized on acquisition of control
Cash and cash equivalents	858
Investments in associates and jointly controlled entities	1,085
Property and equipment	317
Income tax assets	282
Other assets	23,909
	26,451
Amounts due to credit institutions	5,915
Income tax liabilities	2,042
Other liabilities	5,674
	13,631
Total identifiable net assets	12,820
Less fair value of the previously existing interest	(2,367)
Non-controlling interests	(6,710)
Gain on bargain purchase	(702)
	3,041
Compensation transferred upon acquisition of control	3,041

The Group decided to measure the non-controlling interest in RGI at the proportionate share of non-controlling participants in its identifiable net assets.

As a result of the acquisition, other assets of the Group increased by RUB 23,909 million, including the increase in non-banking subsidiaries' inventories of RUB 13,818 million and in investment property of RUB 7,882 million.

Cash outflow on acquisition of the subsidiary:

Net cash acquired with the subsidiary (included in cash flows from investing activities)	858
Cash paid at the acquisition of significant influence (included in cash flows from investing activities)	(2,367)
Cash paid at the acquisition of control (included in cash flows from investing activities)	(3,041)
Net cash outflow	(4,550)

RGI's contribution to the financial result of the Group for the period from 8 March 2013 through 30 June 2013 constitutes a loss of RUB 419 million. If the combination had occurred at the beginning of the year, the Group's net profit for the six-month period ended 30 June 2013 would be RUB 606 million.

(in millions of Russian rubles)

4. Business combinations and changes in ownership interest in subsidiaries (continued)

Changes in ownership interests in subsidiaries

During the second quarter of 2013, PSC Prominvestbank purchased 1,779,521 shares from non-controlling shareholders. The reallocation of interests between Vnesheconombank and the remaining non-controlling shareholders resulted in decrease in the value of non-controlling interests and retained earnings of the Group by RUB 23 million and RUB 56 million concurrently with increase in the foreign currency translation reserve by RUB 7 million, respectively.

In the second quarter of 2013, as a result of a number of transactions, RDIF long-term direct investment mutual fund disposed a part of its interest in separate subsidiaries. The reallocation of interests between RDIF long-term direct investment mutual fund and the new non-controlling shareholders resulted in increase in the value of the non-controlling interest by RUB 318 million.

5. Segment information

For the management purposes the Group has five operating business segments:

Segment 1 Vnesheconombank, "SME Bank", EXIMBANK OF RUSSIA.

Segment 2 Sviaz-Bank, CJSC "GLOBEXBANK", R.G.I. International Limited.

Segment 3 PSC Prominvestbank (Ukraine).

Segment 4 Bank BelVEB OJSC (Republic of Belarus).

Segment 5 OJSC "VEB-Leasing", LLC "VEB Capital", "VEB Engineering" LLC, FCPF, Closed-end Mutual Hedge Fund "MRIF", Closed-end Mutual Equity Fund "MRIF-II", OJSC "North Caucasus Development Corporation", EXIAR, RDIF Management Company LLC, Mutual Fund RDIF, OJSC "The Far East and Baikal Region Development Fund" and other subsidiaries.

Segment 1 comprises Vnesheconombank and major banks within the Group. Segment 2 comprises banks that were purchased in 2008 and 2009 to recover their financial stability, in line with anti-crisis measures developed by the RF Government as well as their subsidiaries. Segments 3 and 4 reflect the Group's banking operations in Ukraine and the Republic of Belarus, respectively. Segment 5 comprises other subsidiaries and funds in which the Group holds a controlling ownership interest.

Management of the Group monitors the operating results of each segment separately to make decisions on allocation of resources and to assess operating performance. Segments results are defined in a different way from that used for the purposes of the consolidated financial statements, as shown in the table below. Income taxes are accounted on a group basis and are not allocated to operating segments.

During the six-month periods ended 30 June 2013 and 30 June 2012, the Group received no income from transactions with one external client or counterparty, which would have amounted to 10% or more percent of the Group's total income.

(in millions of Russian rubles)

5. Segment information (continued)

Revenue and income information for the operating segments of the Group is presented below:

	For the six-month period ended 30 June 2013					Total before adjust- ments	Adjust- ments	Total

Intersegment liabilities	(425,489)	(340,070)
Adjustments	981	1,123
Total liabilities	2,523,129	2,387,217

The adjustments of intersegment income and expenses, and Group's assets and liabilities, are related to the accounting differences due to the following reasons:

- as a result of transactions made with foreign subsidiaries in currencies other than the reporting currency of the Group;
- due to repurchase of debt securities issued by the Group entities or other deals with the financial instruments between the Group entities;
- due to reversal of allowances for impairment of intersegment assets, created by the Group entities.

6. Operations with the Russian Government, its authorized institutions and the Bank of Russia

Amounts due to the Russian Government, its authorized institutions and the Bank of Russia consisted of the following:

	30 June 2013 (Unaudited)	31 December 2012
Interest-bearing loans and deposits from the Russian Ministry of Finance	664,709	641,196
Interest-bearing deposits from the Bank of Russia	239,052	303,075
Repurchase agreements with the Bank of Russia	93,813	24,691
Settlements related to redemption of Russian Government loans	11,299	12,717
Interest-bearing deposits from non-budget funds	5,915	–
Other amounts	181	189
Due to the Russian Government and the Bank of Russia	1,014,969	981,868

At 30 June 2013 and 31 December 2012, the interest-bearing loans and deposits from the Russian Ministry of Finance mainly include RUB-denominated funds of the National Welfare Fund of the Russian Federation ("NWF") deposited with Vnesheconombank pursuant to Federal Law No. 173-FZ, including for the purposes of extending loans to OJSC "AHML".

(in millions of Russian rubles)

6. Operations with the Russian Government, its authorized institutions and the Bank of Russia (continued)

In addition, at 30 June 2013 and 31 December 2012, interest-bearing deposits from the Russian Ministry of Finance included RUB-denominated funds of NWF intended to finance through a subsidiary bank – "SME Bank" – credit institutions and legal entities supporting small and medium enterprises.

In addition to the above, at 30 June 2013 and 31 December 2012, interest-bearing deposits from the Russian Ministry of Finance included USD-denominated funds intended to finance investment projects.

Interest-bearing deposits of the Russian Ministry of Finance include short-term RUB-denominated deposits attracted by subsidiaries (30 June 2013: RUB 10,424 million maturing from July to September 2013, 31 December 2012: RUB 7,247 million maturing in January 2013).

At 30 June 2013 and 31 December 2011, interest-bearing deposits from the Bank of Russia also include special RUB-denominated deposits for the purposes of implementing the program of financial support to Sviaz-Bank (30 June 2013: RUB 123,341 million, 31 December 2012: RUB 123,548 million) and CJSC "GLOBEXBANK" (30 June 2013: RUB 86,804 million, 31 December 2012: RUB 85,433 million) to ensure activities on development of business of the above entities. The deposit raised to implement the program of financial support to Sviaz-Bank was extended by 1 year in 2013 at the interest rate below the market level. The Group derecognized the initial liability and recognized a new one. Gain on initial recognition of financial instruments in the amount of RUB 1,793 million was recognized in the consolidated statement of income.

In addition, interest-bearing deposits of the Bank of Russia include short-term RUB-denominated deposits attracted by the Group (30 June 2013: RUB 28,907 million maturing from July 2013 to June 2014, 31 December 2012: RUB 94,094 million maturing from January to December 2013).

In February 2013, Vnesheconombank repaid a short-term deposit to the Bank of Russia. The carrying value of the deposit at 31 December 2012 was RUB 50,109 million.

At 30 June 2013, interest-bearing deposits from non-budget funds attracted by subsidiary banks included RUB-denominated short-term deposits amounting to RUB 5,915 million and maturing from July to December 2013.

At 30 June 2013, under repurchase agreements with the Bank of Russia, the Group sold debt and equity securities with a fair value of RUB 121,861 million, subject to repurchase (31 December 2012: RUB 27,659 million). Pledged securities are treated as trading financial assets at fair value through profit or loss with a fair value of RUB 16,056 million (31 December 2012: RUB 16,165 million), loans to customers with a fair value of RUB 212 million (31 December 2012: RUB 153 million), investment financial assets available for sale with a fair value of RUB 105,593 million (31 December 2012: RUB 11,341 million).

At 30 June 2013, repurchase agreements with the Bank of Russia also include funds received from the Bank of Russia and collateralized by securities that were acquired under a reverse repurchase agreement with the fair value of RUB 211 million (31 December 2012: RUB 2,747 million).

At 30 June 2013 and 31 December 2012, settlements related to redemption of Russian Government loans represent funds received from borrowers as repayment for loans granted by the Russian Government. These funds and the processing of payments are managed and conducted by the Bank in accordance with the Agency Agreement.

(in millions of Russian rubles)

7. Cash and cash equivalents

Cash and cash equivalents comprise:

	30 June 2013 (Unaudited)	31 December 2012
Cash on hand	11,415	13,596
Current accounts with the Bank of Russia	13,413	102,168
Correspondent nostro accounts with credit institutions and current accounts with other non-banking organizations:		
- the Russian Federation	4,608	12,186
- other countries	78,580	46,234
Interest-bearing loans and deposits maturing within 90 days:		
- due from the Bank of Russia	–	300
- due from credit institutions	117,493	59,959
Reverse repurchase agreements with credit institutions for up to 90 days	4,548	5,514
Non-interest deposits with OECD credit institutions up to 90 days	28	1
Non-interest deposits with Russian credit institutions up to 90 days	–	39
Cash and cash equivalents	230,085	239,997

At 30 June 2013, reverse repurchase agreements included loans in the amount of RUB 4,548 million (31 December 2012: RUB 5,514 million) provided to credit institutions and secured by corporate bonds with the fair value of RUB 5,256 million (31 December 2012: RUB 6,315 million).

In February 2012, under the financing agreement with the Russian Bank Capitalization Fund (the RBCF), Vnesheconombank transferred USD 250 million (RUB 7,445 million at the date of transfer) to the International Finance Corporation (IFC). At 30 June 2013, a part of these funds in the amount of RUB 6,939 million (31 December 2012: RUB 6,486 million) was temporarily invested in money market instruments maturing in less than 90 days. The RBCF will invest in the capital of Russian universal second-echelon banks actively operating in the regions and funding small and medium-sized Russian businesses in the real sector of the economy (Note 11).

8. Financial assets and liabilities at fair value through profit or loss

Financial assets at fair value through profit or loss comprise:

	30 June 2013 (Unaudited)	31 December 2012
Trading financial assets	28,860	28,414
Derivative financial assets	23,294	16,517
Financial assets designated as at fair value through profit or loss	22,608	27,188
Financial assets at fair value through profit or loss	74,762	72,119

(in millions of Russian rubles)

8. Financial assets and liabilities at fair value through profit or loss (continued)

Trading financial assets

Trading financial assets held by the Group comprise:

	30 June 2013 (Unaudited)	31 December 2012
Debt securities:		
Corporate bonds	18,307	13,354
Federal Loan Bonds (OFZ)	806	86
	19,113	13,440
Eurobonds issued by the Russian Federation	2,079	1,442
Eurobonds of Russian and foreign issuers	1,010	1,027
	22,202	15,909
Equity securities	6,451	12,134
Other financial assets	207	371
Trading financial assets	28,860	28,414

Financial assets at fair value through profit or loss lent and pledged under repurchase agreements comprise:

	30 June 2013 (Unaudited)	31 December 2012
Debt securities:		
Corporate bonds	12,403	16,165
Federal Loan Bonds (OFZ)	175	–
Eurobonds of Russian and foreign issuers	31	–
Equity securities	3,648	503
Financial assets through profit or loss lent and pledged under repurchase agreements	16,257	16,668

Derivative financial instruments

At 30 June 2013 and 31 December 2012, derivative financial instruments consist of:

	30 June 2013 (Unaudited)		31 December 2012	
	Asset	Liability	Asset	Liability
Foreign exchange contracts				
Forwards and swaps – foreign	242	117	303	1,102
Forwards and swaps – domestic	272	263	741	448
Interest rate swaps				
Foreign contracts	–	554	–	698
Domestic contracts	–	131	–	177
Securities forward contracts				
Debt securities	329	–	215	–
Equity securities and units	264	42	354	–
Option contracts	21,698	–	14,137	–
Cross-currency interest rate swap	489	168	764	68
Precious metals contracts	–	–	3	1
Total derivative assets/liabilities	23,294	1,275	16,517	2,494

(in millions of Russian rubles)

8. Financial assets and liabilities at fair value through profit or loss (continued)

Financial assets designated as at fair value through profit or loss

At 30 June 2013 and 31 December 2012, financial assets designated as at fair value through profit or loss were represented primarily by shares of Russian and foreign companies, as well as by units in the closed-end mutual real estate fund held by a subsidiary bank.

The Bank entered into an option agreement which is economically related to its purchase of a Russian company's shares in the second quarter 2010; changes in the fair value of that agreement are recorded in the consolidated income statement as gains less losses arising from financial instruments at fair value through profit or loss. To avoid 'accounting mismatch', these securities were classified as designated as at fair value through profit or loss, thus excluding inconsistency in recognition of the respective gains and losses. At 30 June 2013, the fair value of shares is RUB 6,869 million (31 December 2012: RUB 13,143 million) and loss from its change during the period (as recorded in the consolidated statement of income) is RUB 6,274 million (for the six-month period ended 30 June 2012: RUB 3,520 million).

Other securities included in this category meet the criteria to be classified as at fair value through profit or loss since the Group management measures the performance of these investments in terms of changes in their fair value based on quoted prices in an open market, valuation models, using both observable and non-observable market data.

9. Amounts due from credit institutions

Amounts due from credit institutions comprise:

	30 June 2013 (Unaudited)	31 December 2012
Obligatory reserves with central banks	4,504	4,088
Non-interest-bearing deposits	9,839	9,684
Subordinated loans	307,304	305,569
Interbank loans and term interest-bearing deposits with credit institutions	111,221	125,652
Mortgage bonds	3,469	2,212
	436,337	447,205
Less allowance for impairment (Note 17)	(792)	(729)
Amounts due from credit institutions	435,545	446,476

Obligatory reserves with the central banks include cash non-interest-bearing deposits (obligatory reserves) maintained by the subsidiary banks with the Bank of Russia, the National Bank of the Republic of Belarus and the National Bank of Ukraine. The amount of these reserves depends on the level of funds attracted by the credit institutions. The banks' ability to withdraw such deposits is significantly restricted by the statutory legislation. Pursuant to law, Vnesheconombank creates no obligatory reserves to be maintained with the Bank of Russia.

At 30 June 2013, non-interest-bearing deposits include non-interest-bearing deposits in clearing currencies in the gross amount of RUB 9,470 million (31 December 2012: RUB 9,409 million). The use of these deposits is subject to certain restrictions as stipulated by agreements between governments of the respective countries. The funds can be used for purchase of goods and services by Russian importers who purchase clearing currencies at tenders organized by the Group under the supervision of the Russian Ministry of Finance.

(in millions of Russian rubles)

9. Amounts due from credit institutions (continued)

At 30 June 2013 and 31 December 2012, subordinated loans were issued to sixteen Russian credit institutions in accordance with Federal Law No. 173-FZ in RUB carrying interest at 6.5% and 7.5% p.a. and maturing from December 2014 to December 2020.

At 30 June 2013, mortgage bonds represent debt securities purchased by Vnesheconombank under the 2010-2013 Investment Program to support affordable housing construction and mortgage projects. The debt securities were issued by a Russian bank at a coupon rate below the market level and with maturity in 2043 and 2044. At 30 June 2013, loss on initial recognition of the financial instruments in the amount of RUB 577 million was recognized in the consolidated income statement.

10. Loans to customers

Loans to customers comprise:

	30 June 2013 (Unaudited)	31 December 2012
Commercial loans, including loans to individuals	813,963	746,333
Project financing	771,194	622,953
Net investment in leases	200,108	165,152
Financing of operations with securities	56,797	52,083
Back-to-back finance	35,056	34,811
Pre-export finance	20,946	20,363
Reverse repurchase agreements	15,546	13,909
Claims under letters of credit	15,374	13,616
Promissory notes	1,503	10,115
Mortgage bonds	1,548	1,712
Other	9,591	9,625
	1,941,626	1,690,672
Less allowance for impairment (Note 17)	(214,522)	(193,433)
Loans to customers	1,727,104	1,497,239
Loans to customers pledged under repurchase agreements		
Other	211	151
Less allowance for impairment (Note 17)	(3)	(3)
Loans to customers pledged under repurchase agreements	208	148
Total loans to customers including loans pledged under repurchase agreements	1,727,312	1,497,387

At 30 June 2013 and 31 December 2012, back-to-back finance represented an unsecured loan issued to OJSC "AHML", using funds deposited by the Russian Ministry of Finance with Vnesheconombank, in accordance with Federal Law No. 173-FZ (Note 6). The loan was placed at the rate below the market level.

At 30 June 2013, reverse repurchase agreements were signed primarily in respect of marketable shares with the fair value of RUB 11,244 million, marketable corporate bonds with the fair value of RUB 4,578 million, and promissory notes of Russian credit institutions with the fair value of RUB 987 million. At 31 December 2012, reverse repurchase agreements were signed primarily in respect of marketable shares with the fair value of RUB 8,073 million, marketable corporate bonds with the fair value of RUB 6,600 million and promissory notes of Russian credit institutions with the fair value of RUB 1,408 million.

(in millions of Russian rubles)

10. Loans to customers (continued)

Loans are made principally in the following industry sectors:

	30 June 2013	%	31 December 2012	%
	(Unaudited)			
Real estate and construction	447,285	23	352,257	21
Manufacturing, including heavy machinery and military- related goods production	399,117	21	333,680	20
Finance companies	304,844	16	283,922	17
Transport	237,356	12	200,937	12
Agriculture	124,024	6	118,752	7
Energy	109,265	6	106,386	6
Trade	96,210	5	93,219	5
Oil and gas	47,017	2	45,125	3
Individuals	43,625	2	34,096	2
Metallurgy	41,000	2	38,407	2
Mining	28,088	1	23,542	1
Telecommunications	13,359	1	16,658	1
Research and education	13,283	1	9,411	1
Logistics	5,839	0	5,384	0
Regional authorities	1,964	0	2,284	0
Mass media	541	0	1,204	0
Other	29,020	2	25,559	2
	1,941,837	100	1,690,823	100

At 30 June 2013, the total outstanding amount of loans to three major borrowers/groups of related borrowers was RUB 292,137 million, equivalent to 15.0% of the Group's gross loan portfolio (31 December 2012: RUB 264,880 million or 15.7% of the Group's gross loan portfolio). At 30 June 2013, an impairment allowance of RUB 42,182 million was made against these loans (31 December 2012: RUB 41,032 million). At 30 June 2013, these loans included loans issued to an associate of the Group involved in the real estate business, which accounted for 7.6% of the gross loan portfolio (31 December 2012: 8.4%).

At 30 June 2013 and 31 December 2012, in addition to the three major borrowers mentioned above loans were issued to ten other major borrowers/groups of related borrowers in the amount of RUB 379,621 million and RUB 286,002 million or 19.6% and 16.9% of the Group's gross loan portfolio, respectively. At 30 June 2013 and 31 December 2012, an allowance was made for those loans in the total amount of RUB 19,541 million and RUB 15,404 million, respectively.

Loans have been granted to the following types of customers:

	30 June 2013	31 December 2012
	(Unaudited)	
Private enterprises	1,552,178	1,382,400
State-controlled entities (Russia)	295,013	223,577
Companies under foreign state control	45,009	44,741
Individuals	43,625	34,096
Individual entrepreneurs	4,048	3,725
Regional authorities	1,964	2,284
	1,941,837	1,690,823

(in millions of Russian rubles)

11. Investment financial assets

Available-for-sale investment financial assets comprise:

	30 June 2013 (Unaudited)	31 December 2012
Debt securities:		
Corporate bonds	82,123	151,420
Promissory notes	24,264	30,965
Debt instruments issued by foreign government bodies	15,308	14,026
Federal Loan Bonds (OFZs)	713	4,000
Municipal and sub-federal bonds	90	234
	122,498	200,645
Eurobonds of Russian and foreign issuers	19,814	15,025
Eurobonds issued by the Russian Federation	2,578	1,967
	144,890	217,637
Equity securities	169,893	229,042
Other available-for-sale financial assets	47,126	47,134
Available-for-sale investment financial assets	361,909	493,813

Investment financial assets available for sale lent and pledged under repurchase agreements comprise:

	30 June 2013 (Unaudited)	31 December 2012
Debt securities:		
Corporate bonds	74,389	10,932
Eurobonds of Russian and foreign issuers	282	–
Debt instruments issued by foreign government bodies	–	410
Municipal and sub-federal bonds	–	409
Equity securities	31,204	–
Investment financial assets available for sale lent and pledged under repurchase agreements	105,875	11,751

At 30 June 2013, equity securities included Vnesheconombank's investment in the RBCF with fair value of RUB 1,162 million (31 December 2012: RUB 1,078 million) (Note 7).

For the six-month period ended 30 June 2013, the Group recognized a RUB 3,065 million loss from a continuing impairment of available-for-sale investment financial assets (for the six-month period ended 30 June 2012: RUB 728 million) in the consolidated statement of income.

As a result of the sale of available-for-sale investment financial assets for the six-month period ended 30 June 2013, the Group realized part of the revaluation result previously recorded in equity and transferred it to gains less losses from transaction with investment financial assets available for sale in the consolidated statement of income. The revaluation result realized in the six-month period ended 30 June 2013 amounted to RUB 8,441 million (six-month period ended 30 June 2012: RUB 1,265 million).

(in millions of Russian rubles)

11. Investment financial assets (continued)

Held-to-maturity investment financial assets comprise:

	30 June 2013 (Unaudited)	31 December 2012
Municipal and sub-federal bonds	739	761
Corporate bonds	717	724
Eurobonds of foreign issuers	–	15,170
	1,456	16,655
Less allowance for impairment (Note 17)	(73)	(73)
Investment financial assets held to maturity	1,383	16,582

In January 2013, Eurobonds of a foreign issuer with the nominal value of RUB 15,000 million (at 31 December 2012 their carrying value was RUB 15,170 million) were repaid according to contractual terms. Previously, they had been recognized as financial assets held to maturity.

12. Other assets and liabilities

At 30 June 2013, other assets of the Group include advances issued to suppliers of leasing equipment in the amount of RUB 32,179 million (31 December 2012: RUB 24,429 million) and other assets acquired in a business combination (Note 4) in the amount of RUB 23,909 million.

At 31 December 2012, received and unused subsidies within other liabilities included subsidies provided by the Russian Ministry of Finance pursuant to Federal Law No. 247-FZ "On Amending the Federal Law "On the Federal Budget for 2012 and the 2013 and 2014 Planned Period" dated 3 December 2012 in the total amount of RUB 77,000 million. As these subsidies were used as intended, during the six-month period ended 30 June 2013, the Bank recognized an increase in additional paid-in capital in the amount of RUB 77,000 million (Note 18).

At 30 June 2013 and 31 December 2012, other liabilities also include deferred income related to government assistance in the amount of RUB 3,000 million, which represent an asset contribution provided by the Russian Ministry of Finance as compensation for the costs related to supporting manufacturers of high-tech products – providing loans at interest rates below market rates. This asset contribution was provided to the Bank under Regulation of the Russian Government No. 1302 dated 13 December 2012.

13. Amounts due to credit institutions

Amounts due to credit institutions comprise:

	30 June 2013 (Unaudited)	31 December 2012
Correspondent loro accounts of Russian credit institutions	56,836	48,010
Correspondent loro accounts of other credit institutions	8,856	12,641
Loans and other placements from OECD-based credit institutions	341,463	266,446
Loans and other placements from Russian credit institutions	125,468	191,178
Loans and other placements from other credit institutions	73,822	51,224
Repurchase agreements	–	376
Cash collateral on securities lent	–	67
Amounts due to credit institutions	606,445	569,942
Amounts due to credit institutions held as security against letters of credit (Note 19)	278	128

(in millions of Russian rubles)

13. Amounts due to credit institutions (continued)

At 30 June 2013, loans and other placements from OECD-based credit institutions include loans primarily denominated in RUB, USD, EUR and GBP with annual interest rates ranging from three-month MOSPRIME plus 1.1% to 9.6% for RUB placements (31 December 2012: from three-month MOSPRIME plus 1.1% to 10.0%), from three-month LIBOR plus 0.2% to 8.7% for USD placements (31 December 2012: from three-month LIBOR plus 0.2% to 8.7%), from 0.6% to 6.9% for EUR placements (31 December 2012: from 0.6% to 6.5%), from six-month LIBOR plus 1.5% to 7.9% for GBP placements (31 December 2012: from six-month LIBOR plus 1.5% to 7.9%). At 30 June 2013, there are no loans and other placements from OECD-based credit institutions denominated in CHF (31 December 2012: annual interest rate was 6.0%).

At 30 June 2013, loans and other placements from Russian credit institutions include loans denominated in RUB, USD and EUR with annual interest rates ranging from 6.0% to 12.5% for RUB-denominated placements (31 December 2012: from 4% to 10.7%), from 0.1% to 9.9% for USD-denominated placements (31 December 2012: from 0.2% to 8.9%), from 0.1% to 8.9% for EUR-denominated placements (31 December 2012: from 0.1% to 9.0%). At 30 June 2013 and 31 December 2012, this item also includes deposits held as security against letters of credit and minimum balances on correspondent loro accounts.

At 30 June 2013, loans and other placements from non-OECD-based credit institutions include loans denominated in USD, EUR and UAH with the following annual interest rates: from 0.1% to 6.5% for USD placements (31 December 2012: from 0.2% to 6.5%), from 2.0% to 7.7% for EUR placements (31 December 2012: from 1.9% to 7.2%), from 1.0% to 20.0% for UAH placements (31 December 2012: from 7.5% to 16.0%). At 31 December 2012, loans and other placements from non-OECD-based credit institutions also included loans denominated in RUB with interest rates from 6.0% to 9.2%. At 30 June 2013 and 31 December 2012, this item also includes deposits held as security against letters of credit.

At 31 December 2012, repurchase agreements with credit institutions included loans of RUB 376 million received from foreign credit institutions and collateralized by debt securities available for sale with the fair value of RUB 410 million. At 30 June 2013, there are no repurchase agreements with credit institutions.

At 31 December 2012, amounts due to credit institutions include cash collateral on securities lent in the amount of RUB 67 million received from a Russian credit institution. The securities lent are represented by equity securities at fair value through profit or loss with a fair value of RUB 68 million. At 30 June 2013, there were no amounts due to credit institutions in the form of cash collateral on securities lent.

For the six-month period of 2013, the Bank raised long-term financing on market terms from OECD-based credit institutions totaling RUB 58,926 million and repaid long-term financing of RUB 22,366 million in accordance with contractual terms. Besides, for the six-month period of 2013, the Bank raised long-term financing on market terms from other credit institutions totaling RUB 18,026 million and repaid long-term financing of RUB 635 million in accordance with contractual terms.

In addition, for the six-month period of 2013, a leasing company of the Group raised long-term financing from Russian and foreign credit institutions totaling RUB 17,683 million and repaid long-term financing of RUB 10,860 million in accordance with contractual terms.

(in millions of Russian rubles)

14. Amounts due to customers

Amounts due to customers comprise:

	30 June 2013 (Unaudited)	31 December 2012
Current accounts	132,520	121,227
Term deposits	225,128	213,117
Repurchase agreements	56	623
Cash collateral on securities lent	436	438
Other amounts due to customers	47	422
Amounts due to customers	358,187	335,827
Amounts due to customers held as security against guarantees (Note 19)	259	117
Amounts due to customers held as security against letters of credit (Note 19)	9,293	8,352

Included in term deposits are deposits of individuals in the amount of RUB 90,343 million (31 December 2012: RUB 81,744 million). In accordance with the Russian Civil Code, the Bank and its Russian subsidiaries are obliged to repay term deposits of individuals upon demand of a depositor. In accordance with the legislation of the Ukraine and the Republic of Belarus, the Ukrainian and Belarusian subsidiaries are obliged to repay term deposits of individuals within 5 days upon demand of a depositor. In case a term deposit is repaid upon demand of the depositor prior to maturity, interest on it is paid based on the interest rate for demand deposits, unless a different interest rate is specified in the agreement.

At 30 June 2013, repurchase agreements with customers include loans of RUB 56 million received from a foreign company and collateralized by available-for-sale debt securities with the fair value of RUB 54 million (Note 11). At 31 December 2012, repurchase agreements with customers include loans of RUB 623 million received from Russian companies and collateralized by debt securities acquired under a reverse repurchase agreement with the fair value of RUB 1,131 million.

At 30 June 2013, amounts due to customers also include cash collateral on securities lent in the amount of RUB 436 million received from a Russian and a foreign companies. The funds lent are represented by equity securities at fair value through profit or loss with the fair value of RUB 201 million (Note 8), equity and debt securities available for sale with fair value of RUB 228 million (Note 11). At 31 December 2012, amounts due to customers include cash collateral on securities lent in the amount of RUB 438 million received from a Russian company. The funds lent are represented by equity securities at fair value through profit or loss with the fair value of RUB 435 million (Note 8).

15. Debt securities issued

Debt securities issued comprise the following:

	30 June 2013 (Unaudited)	31 December 2012
Eurobonds	259,880	182,902
Domestic bonds	199,045	181,639
Promissory notes	28,993	18,781
European commercial paper	1,134	5,394
Deposit and saving certificates	13	223
Debt securities issued	489,065	388,939
Promissory notes held as security against guarantees (Note 19)	682	834

(in millions of Russian rubles)

15. Debt securities issued (continued)

In the six-month period ended 30 June 2013, the Group issued and repaid the following debt securities:

- in February 2013, the Bank placed through a special purpose entity two issues of loan participation notes (Eurobonds) with a nominal value of EUR 1,000 million (the equivalent of RUB 40,339 million at the date of placement) and EUR 500 million (the equivalent of RUB 20,170 million at the date of placement) maturing in February 2018 and February 2023, respectively;
- in February 2013, a subsidiary bank repaid its issued bonds with a nominal value of RUB 5,000 million in accordance with the terms of the issue, of which RUB 934 million were part of the securities portfolio of the Group entities;
- in February 2013, a leasing company of the Group partially repaid its issued bonds with a nominal value of RUB 2,000 million in accordance with the terms of the issue;
- in February and March 2013, a subsidiary bank of the Group repaid its bonds issued with a nominal value of UAH 500 million (the equivalent of RUB 1,864 million at the exchange rates the respective dates of repayment) in accordance with the terms of the issue;
- in March 2013, a leasing company of the Group placed two issues of ruble bonds with a nominal value of RUB 5,000 million, each maturing in March 2018;
- in April 2013 the subsidiary bank issued bonds with a nominal value of RUB 5,000 million, maturing in April 2016;
- in May and June 2013, subsidiary bank repaid three issues of European commercial papers totaling USD 140 million (the equivalent of RUB 4,441 million at the exchange rates at the respective dates of repayment), of which European commercial papers with a nominal value of RUB 275 million were part of the securities portfolio of the Group entities;
- in June 2013, a leasing company of the Group placed four issues of bonds with nominal value of USD 100 million each, maturing in June 2018 (the equivalent of RUB 12,896 million at the date of placement). All issues of these bonds were acquired by the Bank upon initial offering. These issues provides for a half-year offer in December 2013.

At 30 June 2013, the debt securities issued include Eurobonds placed at market interest rates denominated in USD maturing from May 2016 to November 2025 (31 December 2012: from May 2016 to November 2025), denominated in CHF maturing in February 2016 (31 December 2012: February 2016) and denominated in EUR maturing from February 2018 to February 2023 (31 December 2012: no Eurobonds denominated in EUR).

At 30 June 2013, included in debt securities issued are bonds placed at the market rate denominated in RUB maturing from July 2013 to September 2032 (31 December 2012: from February 2013 to September 2032), denominated in USD maturing from February 2015 to June 2018 (31 December 2012: February 2015 to October 2017), denominated in UAH maturing from January 2014 to March 2014 (31 December 2012: from March 2013 to March 2014), as well as bonds denominated in BYR maturing from September 2016 to September 2017 (31 December 2012: from September 2016 to September 2017).

At 30 June 2013, debt securities issued include interest-bearing promissory notes denominated in USD, RUB and EUR maturing before December 2049 (31 December 2011: maturing before December 2049). At 30 June 2013, interest rates are from 0.2% to 8.5% for USD-denominated promissory notes (31 December 2012: from 0.2% to 8.5%), from 1% to 12.3% for RUB-denominated promissory notes (31 December 2012: from 0.1% to 9.5%) and 0.4% for EUR-denominated promissory notes (31 December 2012: from 0.4% to 1.6%).

(in millions of Russian rubles)

16. Taxation

Income tax assets and liabilities comprise:

	30 June 2013 (Unaudited)	31 December 2012
Current income tax assets	1,086	1,006
Deferred income tax assets	3,329	2,560
Income tax assets	4,415	3,566
Current income tax liabilities	394	263
Deferred income tax liabilities	4,376	1,439
Income tax liabilities	4,770	1,702

Income tax recorded in the consolidated statement of income comprises:

	For the six-month period ended 30 June	
	2013 (Unaudited)	2012 (Unaudited)
Current income tax expense	1,010	1,220
Deferred income tax expense	519	80
	1,529	1,300

In accordance with federal legislation, effective from the date of Vnesheconombank's reorganization, income and expenses received and paid by Vnesheconombank are not accounted for when determining taxable base for income tax purposes.

17. Allowance for impairment and provisions

The movements in the allowance for impairment of interest-bearing assets are as follows:

	Amounts due from credit institutions	Loans to customers	Total
31 December 2012	729	193,436	194,165
Charge (Unaudited)	63	26,965	27,028
Write-offs (Unaudited)	–	(362)	(362)
Reversal of allowance previously written off (Unaudited)	–	287	287
Interest accrued on impaired loans (Unaudited)	–	(5,801)	(5,801)
30 June 2013 (Unaudited)	792	214,525	215,317
At 31 December 2011	397	163,309	163,706
Charge (Unaudited)	4	10,431	10,435
Write-offs (Unaudited)	–	(4,335)	(4,335)
Reversal of allowance previously written off (Unaudited)	–	541	541
Interest accrued on impaired loans (Unaudited)	–	(4,207)	(4,207)
At 30 June 2012 (Unaudited)	401	165,739	166,140

(in millions of Russian rubles)

17. Allowance for impairment and provisions (continued)

The movements in the allowance for impairment of other assets and provisions are as follows:

	Investment financial assets	Other assets	Claims	Insurance activities	Guarantees and commitments	Total
31 December 2012	73	1,269	189	8	800	2,339
Charge/(reversal) (Unaudited)	–	302	6	18	(518)	(192)
Write-offs (Unaudited)	–	(1)	(103)	–	–	(104)
30 June 2013 (Unaudited)	73	1,570	92	26	282	2,043
At 31 December 2011	75	1,355	59	–	147	1,636
Charge/(reversal) (Unaudited)	(1)	120	(1)	–	236	354
Write-offs (Unaudited)	–	(64)	(26)	–	–	(90)
Hyperinflation effect (Unaudited)	–	(2)	–	–	–	(2)
At 30 June 2012 (Unaudited)	74	1,409	32	–	383	1,898

Allowance for impairment of assets is deducted from the amounts of the related assets. Provisions for claims, insurance activities, guarantees and commitments are recorded as liabilities. At 30 June 2013 and 30 June 2012, no allowance was made for impairment of investments in associates.

18. Equity

Charter capital

In accordance with Federal Law, the Bank's charter capital is formed from asset contributions of the Russian Federation made upon resolution of the Russian Government.

In accordance with Resolution of the Russian Government No. 1687-r dated 27 November 2007, pursuant to Federal Law No. 246-FZ dated 2 November 2007, "On Introducing Amendments to Federal Law "On the Federal Budget for 2007", the Russian Federation contributed RUB 180,000 million to the charter capital of Vnesheconombank in November 2007.

In accordance with Resolution of the Russian Government No. 1766-r dated 7 December 2007, the Russian government contributed 100% of state-owned shares of OJSC "SME Bank" and 5.2% of state-owned shares of EXIMBANK OF RUSSIA to the charter capital of Vnesheconombank. The transfer of shares was completed in 2008.

In accordance with Resolution of the Russian Government No. 1665-r dated 19 November 2008, pursuant to Federal Law No. 198-FZ dated 24 July 2007, "On the Federal Budget for 2008 and for the 2009 and 2010 Planned Period", the Russian Federation contributed RUB 75,000 million to the charter capital of Vnesheconombank in November 2008.

In accordance with Resolution of the Russian Government No. 854-r dated 23 June 2009, pursuant to Federal Law No. 204-FZ dated 31 October 2008, "On the Federal Budget for 2009 and for the 2010 and 2011 Budget Period", the Russian Federation contributed RUB 100,000 million to the charter capital of Vnesheconombank in June 2009.

(in millions of Russian rubles)

18. Equity (continued)

Charter capital (continued)

In accordance with Resolution of the Russian Government No. 1891-r dated 10 December 2009, the Russian Federation contributed RUB 21,000 million to the charter capital of Vnesheconombank in December 2009 for further acquisition by the Bank of shares additionally issued by JSC "United Aircraft Corporation".

In December 2010 in accordance with Resolution of the Russian Government No. 603-r dated 21 April 2010, the Russian Federation contributed 100% of state-owned shares of OJSC "Federal Center for Project Finance" to the charter capital of Vnesheconombank.

Additional paid-in capital

In December 2011, pursuant to Federal Law No. 357-FZ "On the Federal Budget for 2011 and for the 2012 and 2013 Planned Period" dated 13 December 2010, the Bank received a grant from the Russian Ministry of Finance as an asset contribution in the amount of RUB 62,600 million for the purposes of creating a Russian equity fund, which was recognized in additional paid-in capital. Vnesheconombank used all the funds to acquire units in Mutual Fund RDIF.

In December 2012, pursuant to Federal Law No. 247-FZ dated 3 December 2012, "On Introducing Amendments to Federal Law "On the Federal Budget for 2012 and for the 2013 and 2014 Planned Period", the Bank received from the Russian Ministry of Finance the following subsidies:

- as an asset contribution in the amount of RUB 62,000 million for the purpose of formation of Mutual Fund RDIF;
- as an asset contribution in the amount of RUB 15,000 million for implementing top-priority industrial, transport and energy infrastructure development projects in the Far East and the Baikal region.

In the first quarter of 2013, all these funds were used as intended and recognized in additional paid-in capital

19. Commitments and contingencies

Operating environment

Russia continues economic reforms and development of its legal, tax and regulatory frameworks as required by a market economy. The future stability of the Russian economy is largely dependent upon these reforms and developments and the effectiveness of economic, financial and monetary measures undertaken by the government.

As emerging markets, the Republic of Belarus and Ukraine do not possess a well-developed business and regulatory infrastructure that would generally exist in more mature market economies. Ukrainian economy continues to display certain characteristics consistent with those of an economy in transition. These characteristics include, but are not limited to, low levels of liquidity in capital markets, relatively high inflation and the existence of currency controls which cause the national currency to be illiquid outside of the country. In November 2011, the Republic of Belarus was recognized as a hyperinflationary economy starting from 1 January 2011. The future stability of the Belarusian and Ukrainian economies depends to a large extent on these reforms and developments and the effectiveness of the economic, financial and monetary measures taken by the Belarusian and Ukrainian governments.

(in millions of Russian rubles)

19. Commitments and contingencies (continued)

Operating environment (continued)

The Russian, Belarusian and Ukrainian economies are vulnerable to market downturns and economic slowdowns elsewhere in the world. In 2013, the Russian, Belarusian and Ukrainian governments continued to take measures to support the economy to overcome the consequences of the global financial crisis. The global financial crisis has resulted in uncertainty regarding further economic growth, availability of financing and cost of capital, which could adversely affect the Group's financial position, results of operations and business prospects.

Management believes it is taking appropriate measures to support the sustainability of the Group's business in the current circumstances.

Legal issues

In the ordinary course of business, the Group is subject to legal actions and complaints. Management believes that the ultimate liability, if any, arising from such actions or complaints will not have a material adverse effect on the financial condition or the results of future operations of the Group. Movement in provisions for legal claims is disclosed in Note 17.

Taxation

A major part of the Group's business activity is carried out in the Russian Federation. Some provisions of the Russian tax, currency and customs legislation as currently in effect are vaguely drafted and are often subject to varying interpretations (which, in particular, may apply to legal relations retrospectively), selective and inconsistent application and changes which can occur frequently and, in some cases, at short notice. Therefore, Group management's interpretation of such legislation as applied to the transactions and activity of the Group may be challenged by the relevant regional and federal authorities at any time in the future. Recent events within the Russian Federation suggest that the tax authorities may be taking a more assertive position in their interpretation and application of various provisions of this legislation, performing tax reviews and imposing additional tax requirements. It is therefore possible that the tax authorities may challenge transactions and operations of the Group that have not been challenged in the past. As a result, significant additional taxes, penalties and interest may be assessed by the relevant authorities.

Tax field reviews of the accuracy of tax calculation and payment conducted by tax authorities may cover three calendar years preceding the year during which the tax audit decision to conduct a tax review was made. Under certain circumstances reviews may cover longer periods.

At 30 June 2013, the Group's management believes that its interpretation of the relevant legislation is appropriate and that the Group's tax, currency and customs positions will be sustained.

(in millions of Russian rubles)

19. Commitments and contingencies (continued)

Credit related commitments and contingencies

The Group's credit related commitments and contingencies comprise the following:

	30 June 2013 (Unaudited)	31 December 2012
Undrawn loan commitments	572,664	648,431
Guarantees	160,968	146,402
Letters of credit	25,103	71,919
	758,735	866,752
Less provisions (Note 17)	(282)	(800)
Credit related commitments and contingencies before deducting collateral	758,453	865,952
Less cash and promissory notes held as security against guarantees and letters of credit	(10,512)	(9,431)
Credit related commitments and contingencies	747,941	856,521

At 30 June 2013, the Group advised export letters of credit for a total amount of RUB 49,277 million (31 December 2012: RUB 83,474 million) and received reimbursement authorization from the issuing credit institutions for a total amount of RUB 75 million (31 December 2012: RUB 1,884 million). The Group bears no credit risks under export letters of credit and reimbursement authorization.

At 30 June 2013, credit related commitments include liabilities in favor of one counterparty, a state company, in the amount of RUB 59,811 million, which accounts for 9% (31 December 2012: RUB 40,344 million, 5%) of all credit related commitments.

20. Fair value of financial instruments

The Group uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

- Level 1: quoted (unadjusted) prices in active markets for identical assets or liabilities;
- Level 2: techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly;
- Level 3: techniques which use inputs which have a significant effect on the recorded fair value that are not based on observable market data.

(in millions of Russian rubles)

20. Fair value of financial instruments (continued)

The following table shows an analysis of financial instruments recorded at fair value by level of the fair value hierarchy:

At 30 June 2013 (Unaudited)	Level 1	Level 2	Level 3	Total
Financial assets				
Trading financial assets (including those lent and pledged under repurchase agreements)	45,113	4	–	45,117
Derivative financial instruments	–	22,511	783	23,294
Financial assets designated as at fair value through profit or loss	11,829	–	10,779	22,608
Investment financial assets available for sale (including those lent and pledged under repurchase agreements)	335,212	80,356	52,216	467,784
	392,154	102,871	63,778	558,803
Financial liabilities				
Derivative financial instruments	–	1,275	–	1,275
	–	1,275	–	1,275
At 31 December 2012	Level 1	Level 2	Level 3	Total
Financial assets				
Trading financial assets (including those lent and pledged under repurchase agreements)	44,963	119	–	45,082
Derivative financial instruments	–	15,636	881	16,517
Financial assets designated as at fair value through profit or loss	18,417	–	8,771	27,188
Investment financial assets available for sale (including those lent and pledged under repurchase agreements)	356,318	83,374	65,872	505,564
	419,698	99,129	75,524	594,351
Financial liabilities				
Derivative financial instruments	–	2,494	–	2,494
	–	2,494	–	2,494

Financial instruments recorded at fair value

The following is a description of the determination of fair value for financial instruments which are recorded at fair value using valuation techniques. These incorporate the Group's estimate of assumptions that a market participant would make when valuing the instruments.

Derivatives

Derivative products valued using a valuation technique with market observable inputs are mainly interest rate swaps, currency swaps and forward foreign exchange contracts. The most frequently applied valuation techniques include forward pricing and swap models, using present value calculations. The models incorporate various inputs including the credit quality of counterparties, foreign exchange spot and forward rates and interest rate curves.

Derivative products valued using a valuation technique with significant non-market observable inputs are primarily long dated option contracts. Such derivative products are valued using models, which imply the exercise of options in the shortest possible period of time.

(in millions of Russian rubles)

20. Fair value of financial instruments (continued)

Trading financial assets and investment financial assets available-for-sale

Trading financial assets and investment financial assets available-for-sale valued using a valuation technique are represented mainly by non-traded equity and debt securities. Such assets are valued using valuation models which incorporate either only observable data or both observable and non-observable data. The non-observable inputs include assumptions regarding the future financial performance of the investee, its risk profile, and economic assumptions regarding the industry and geographical jurisdiction in which the investee operates.

Transfers between levels of the fair value hierarchy are considered performed at the end of the reporting period.

Movements in Level 3 financial instruments measured at fair value

The following table shows a reconciliation of the opening and closing amount of Level 3 financial assets and liabilities which are recorded at fair value:

	1 January 2013	Gains/ (losses) recorded in the statement of income (Unaudited)	Gains/ (losses) recorded in other comprehens- ive income (Unaudited)	Transfers from/to Level 1 and Level 2 (Unaudited)	Purchases (Unaudited)	Other changes (Unaudited)	30 June 2013 (Unaudited)
Financial assets							
Derivative financial instruments	881	(146)	–	–	–	48	783
Financial assets designated as at fair value through profit or loss	8,771	170	–	112	1,726	–	10,779
Investment financial assets available for sale	65,872	–	(1,037)	(13,545)	926	–	52,216
Total Level 3 financial assets	75,524	24	(1,037)	(13,433)	2,652	48	63,778

During the six-month period ended 30 June 2013, the Group transferred equity available-for-sale financial instruments issued by a Russian company from Level 3 to Level 1 as they became actively traded and their fair value at 30 June 2013 was determined based on quoted prices in an active markets for identical assets.

Gain recorded for the reporting period includes gains arising from Level 3 financial instruments in the amount of RUB 24 million.

(in millions of Russian rubles)

20. Fair value of financial instruments (continued)

Impact of significant unobservable inputs used in the fair value measurement categorized within Level 3 of the fair value hierarchy

The following table shows the quantitative information about significant unobservable inputs used in the fair value measurement categorized within Level 3 of the fair value hierarchy:

At 30 June 2013 (Unaudited)	Carrying amount	Valuation technique	Unobservable inputs	Range (weighted average)
Derivative financial assets				
Financial asset 1	142	Discounted cash flows	Credit risk rate	12.20%
			Value of underlying asset	Not applicable
Financial asset 2	641	Discounted cash flows	Risk-free rate	0.486%
			Value of underlying asset	Not applicable
Financial assets designated as at fair value through profit or loss				
Group of financial assets 3	2,070	Discounted cash flows	WACC	10.13%-18%
Group of financial assets 4	8,709	Other valuation techniques	Not applicable	Not applicable
Investment financial assets available for sale				
Group of financial assets 5	48,287	Multiplier	Fair value / Net assets	0.02-1.186 (1.16)
Group of financial assets 6	2,845	Discounted cash flows	WACC	11%-18.31%
			Terminal period growth	3.4%-5%
			Discount for non-controlling interest	11.8%-24.13%
Group of financial assets 7	926	Discounted cash flows	WACC	16.14%
			Terminal period growth	3%
			Discount for non-controlling interest	18.3%
			Discount for absence of an active market	10%
Group of financial assets 8	158	Other valuation techniques	Not applicable	Not applicable

(in millions of Russian rubles)

20. Fair value of financial instruments (continued)

Impact on fair value of Level 3 financial instruments measured at fair value of changes to key assumptions

The following table shows the effect of reasonably possible alternative assumptions on the fair value of Level 3 instruments:

	At 30 June 2013 (Unaudited)	
	Carrying amount	Effect of reasonably possible alternative assumptions
Financial assets		
Derivative financial instruments	783	107
Financial assets designated as at fair value through profit or loss	10,779	(115)
Investment financial assets available for sale	52,216	77
	31 December 2012	
	Carrying amount	Effect of reasonably possible alternative assumptions
Financial assets		
Derivative financial instruments	881	44
Financial assets designated as at fair value through profit or loss	8,771	(46)
Investment financial assets available for sale	65,872	(2,474)

In order to determine reasonably possible alternative assumptions the Group adjusted key unobservable model inputs as follows:

- for derivative financial asset 1 (forward contract for the sale of units), the Group adjusted the value of the underlying asset comprising units of the closed-end mutual fund by decreasing its main pricing adjustments by 3%, as such a change is seen by the Group as a possible alternative change, based on indicators for other items with similar parameters;
- for derivative financial asset 2 (put option for preference shares of a foreign company), the Group adjusted the value of the underlying asset by changing the equity value by 2%;
- for a combined financial instrument within group 3 recognized as financial asset designated as at fair value through profit or loss, the Group adjusted by 2% the value of equity which is an element of calculation of the weighted average cost of capital used for discounting expected cash flows of the issuer;
- for units recognized within group 4 as other financial assets at fair value through profit or loss, the Group adjusted the value of the assets held by the closed-end mutual fund by decreasing the main pricing adjustments by 3%, as such a change is seen by the Group as a possible alternative change, based on indicators for other items with similar parameters;
- for the first financial instrument of group of financial assets 5, classified as an investment financial asset available for sale, the Group adjusted the value of the multiplier Fair value / Net assets used for determining the fair value of investments by 2%;
- for the second financial instrument of group of financial assets 5, classified as investment financial assets available for sale, the Group adjusted the value of the multiplier Fair value / Net assets used for determining the fair value of investments by 5%;

(in millions of Russian rubles)

20. Fair value of financial instruments (continued)

Impact on fair value of Level 3 financial instruments measured at fair value of changes to key assumption (continued)

- for a financial asset within group 6 recognized as investment financial asset available for sale, the Group adjusted by 2% the value of equity which is an element of calculation of the weighted average cost of capital used for discounting expected cash flows of the issuer;
- for a financial asset within group 7 recognized as investment financial asset available for sale, the Group adjusted by 0.5% the weighted average cost of capital used for discounting expected cash flows of the issuer.

To determine the impacts of possible alternative assumptions relating to investment financial assets available for sale, the Group took a prudent approach and adjusted key unobservable inputs at the lower interval boundary of possible assumptions. If the upper interval boundary of possible assumptions were applied, their positive impacts at 30 June 2013 would have amounted to RUB 1,139 million (31 December 2012: RUB 2,292 million).

Transfers between Level 1 and Level 2

The following table shows transfers between Level 1 and Level 2 of the fair value hierarchy for financial assets and liabilities which are recorded at fair value, during the reporting period:

	Transfers from Level 2 to Level 1 for the six-month period ended 30 June	
	2013	2012
Financial assets		
Investment financial assets available for sale	2,756	377

The above financial instruments were transferred from Level 2 to Level 1 as they became actively traded during the reporting period and their fair value was therefore determined based on quoted prices in active market for identical assets.

	Transfers from Level 1 to Level 2 for the six-month period ended 30 June	
	2013	2012
Financial assets		
Investment financial assets available for sale	2,356	–

The Group transfers financial assets from Level 1 to Level 2 if instruments cease to be actively traded and the market for such instruments is insufficiently active to use quoted prices for their valuation. The Group determines the fair value of such financial assets using the techniques for which all inputs that have a significant effect on the recorded fair value are observable in the market.

(in millions of Russian rubles)

20. Fair value of financial instruments (continued)

Financial instruments not recorded at fair value in the statement of financial position

Set out below is a comparison, by class, of the carrying amounts and fair values of the Group's financial instruments that are not recorded at fair value in the consolidated statement of financial position. The table does not include the fair values of non-financial assets and non-financial liabilities.

	Carrying amount at 30 June 2013 (Unaudited)	Fair value at 30 June 2013 (Unaudited)	Unrecognized gain/(loss) at 30 June 2013 (Unaudited)	Carrying amount at 31 December 2012	Fair value at 31 December 2012	Unrecognized gain/(loss) at 31 December 2012
Financial assets						
Cash and cash equivalents	230,085	230,085	–	239,997	239,997	–
Amounts due from credit institutions	435,545	436,270	725	446,476	446,707	231
Loans to customers including those pledged under repurchase agreements	1,727,404	1,714,696	(12,706)	1,497,387	1,486,717	(10,670)
Investment securities held to maturity	1,383	1,378	(5)	16,582	16,553	(29)
Financial liabilities						
Amounts due to credit institutions	606,445	606,775	(330)	569,942	566,804	3,138
Amounts due to the Russian Government and the Bank of Russia	1,014,969	1,015,000	(31)	981,868	981,950	(82)
Amounts due to customers	358,187	354,393	3,794	335,827	333,985	1,842
Debt securities issued	489,065	498,615	(9,950)	388,939	414,842	(25,903)
Total unrecognized change in unrealized fair value			(18,503)			(31,473)

The following describes the methodologies and assumptions used to determine fair values for those financial instruments which are not already recorded at fair value in the financial statements.

Assets for which fair value approximates carrying amount

For financial assets and financial liabilities that are liquid or having a short-term maturity (less than three months) it is assumed that their carrying value approximate to their fair value. This assumption is also applied to demand deposits and assets without a specific maturity.

Fixed and variable rate financial instruments

For quoted debt instruments the fair values are determined based on quoted market prices. The fair values of unquoted debt instruments are estimated by discounting future cash flows using rates currently available for debt on similar terms, credit risk and remaining maturities.

21. Related party transactions

In accordance with IAS 24 *Related Party Disclosures*, parties are considered to be related if one party has the ability to control the other party or exercise significant influence over the other party in making financial or operational decisions. In considering each possible related party relationship, attention is directed to the substance of the relationship, not merely the legal form.

(in millions of Russian rubles)

21. Related party transactions (continued)

Related parties may enter into transactions which unrelated parties might not. Transactions between related parties may not be effected on the same terms, conditions and amounts as transactions between unrelated parties.

Related parties include the state, key management of the Group and associated companies. Since Vnesheconombank is a state corporation, all state-controlled entities or entities on which the state has a significant influence (collectively – "state-related entities"), are considered to be related parties of the Group.

Transactions with associates, jointly controlled entities and key personnel

Outstanding balances of transactions with associates, jointly controlled entities and key personnel at 30 June 2013 and 31 December 2012 are as follows:

	30 June 2013 (Unaudited)		31 December 2012	
	Associates and jointly controlled entities	Key management personnel	Associates and jointly controlled entities	Key management personnel
Assets				
Loans to customers	122,881	99	152,189	96
Other assets	519	0	419	0
Liabilities				
Amounts due to customers	8,861	2,495	1,990	2,212
Other liabilities	17	24	17	159
Credit related commitments and contingencies	5,260	14	5,216	8

The related income and expense from transactions with associates, jointly controlled entities and key personnel for the six-month periods ended 30 June 2013 and 30 June 2012 are as follows:

	For the six-month period ended 30 June 2013 (Unaudited)		For the six-month period ended 30 June 2012 (Unaudited)	
	Associates and jointly controlled entities	Key management personnel	Associates and jointly controlled entities	Key management personnel
Interest income on loans to customers	3,903	6	3,790	5
Interest expense on amounts due to customers	(328)	(101)	(27)	(28)
Net interest income/(expense)	3,575	(95)	3,763	(23)
(Provision for) / reversal of impairment of interest-bearing assets	(2,325)	0	(268)	0
Net interest income/(expense) after provision for impairment of interest-bearing assets	1,250	(95)	3,495	(23)

(in millions of Russian rubles)

21. Related party transactions (continued)

Transactions with associates, jointly controlled entities and key personnel (continued)

Compensation to key management personnel comprises the following:

	For the six-month period ended 30 June (Unaudited)	
	2013	2012
Salaries and other short-term benefits	971	784
Social security contributions	98	90
Compensation to key management personnel	1,069	874

Transactions with the state, state institutions and state-related entities

The information about transactions with the Russian Government, its authorized institutions and the Bank of Russia is provided in Note 6.

In addition, at 30 June 2013 transactions with state-related entities include cash non-interest-bearing deposits (obligatory reserves) maintained by the Vnesheconombank's subsidiary banks with the Bank of Russia in the amount of RUB 4,183 million (31 December 2012: RUB 3,589 million) (Note 9).

In the normal course of its business the Bank and its subsidiaries grant loans to state-related credit institutions, as well as raise financing and issue guarantees in regard to these institutions (the list of transactions with the credit institutions is not complete). These transactions are carried out primarily under market conditions. Transactions with state-related credit institutions account for the major portion of all of the Group's operations on granting loans to credit institutions and the minor portion of financing raised from credit institutions and guarantees issued.

Balances of significant transactions with state-related credit institutions at 30 June 2013 and 31 December 2012 are stated in the tables below:

Credit institution	Types of transactions	Amounts due from credit institutions	
		30 June 2013 (Unaudited)	31 December 2012
Credit institution 1	Subordinated loans	184,783	183,839
Credit institution 2	Subordinated loans	38,890	38,872
Credit institution 3	Subordinated loans	23,098	22,980
Credit institution 4	Interest-bearing loans and deposits with credit institutions maturing within 90 days	23,421	–
Credit institution 1	Interest-bearing loans and deposits with credit institutions maturing within 90 days	17,175	15,004
Credit institution 5	Interest-bearing loans and deposits with credit institutions maturing within 90 days	15,438	7,944
Credit institution 6	Interbank loans and term interest-bearing deposits with credit institutions	10,480	8,482
Credit institution 7	Subordinated loans	10,281	10,228
Credit institution 2	Interbank loans and term interest-bearing deposits with credit institutions	6,329	5,369
Credit institution 3	Interbank loans and term interest-bearing deposits with credit institutions	4,065	3,929
Credit institution 4	Interbank loans and term interest-bearing deposits with credit institutions	–	21,327
Credit institution 8	Interest-bearing loans and deposits with credit institutions maturing within 90 days	–	4,202
		333,960	322,176

(in millions of Russian rubles)

21. Related party transactions (continued)

Transactions with the state, state institutions and state-related entities (continued)

Credit institution	Types of transactions	Amounts due to credit institutions	
		30 June 2013 (Unaudited)	31 December 2012
Credit institution 5	Loans and other placements from Russian credit institutions	40,141	67,774
Credit institution 2	Loans and other placements from Russian credit institutions	14,941	20,012
Credit institution 1	Loans and other placements from Russian credit institutions	13,555	2,000
Credit institution 3	Loans and other placements from Russian credit institutions	9,649	1,001
Credit institution 9	Loans and other placements from Russian credit institutions	8,581	30,042
Credit institution 10	Loans and other placements from other credit institutions	5,296	2,793
Credit institution 11	Loans and other placements from OECD-based credit institutions	2,664	3,070
Credit institution 8	Loans and other placements from Russian credit institutions	–	4,537
		94,827	131,229

At 30 June 2013, the Group's significant commitments to extend loans to credit institutions 2 and 5 amounted to RUB 3,930 million and RUB 8,392 million, respectively. At 31 December 2012, significant commitments to extend loans to the same credit institutions amounted to RUB 4,584 million and RUB 8,629 million, respectively. These credit lines were opened under Vnesheconombank's Investment Program to support affordable housing construction and mortgage projects.

At 30 June 2013 and 31 December 2012, there were no significant guarantees issued to state-related credit institutions.

(in millions of Russian rubles)

21. Related party transactions (continued)

Transactions with the state, state institutions and state-related entities (continued)

In the normal course of business the Bank and its subsidiaries grant loans to state-related customers, as well as issue guarantees to these customers, maintain their current accounts and raise deposits from them (the list of transactions with the customers is not complete). These transactions are carried out primarily under market conditions. Transactions with state-related customers account for the major portion of all of the Group's operations with customers. Balances of significant transactions with state-related institutions and entities at 30 June 2013 and 31 December 2012 are stated in the tables below:

Borrower	Industry	Loans to	Undrawn loan	Loans to	Undrawn loan

Investment financial assets available for sale lent and pledged under repurchase agreements	26,516	61,508	–	–	966	–
Financial liabilities at fair value through profit or loss	–	–	34	–	–	9

At 30 June 2013, investment financial assets available for sale also include a financial asset issued by a state-related credit institution with fair value of RUB 47,126 million (31 December 2012: RUB 47,134 million).

22. Subsequent events

In July 2013, the Bank transferred a total of USD 6 million (the equivalent of RUB 204 million as at the date of transfer) for 5,043,413 additionally issued shares of the subsidiary bank PSC Prominvestbank. As at the reporting date, the registration of the report on the results of PSC Prominvestbank's shares' placement has not been registered by the National Securities and Stock Market Commission of Ukraine.

In July 2013, a subsidiary bank increased its interest in RGI as a result of purchasing 36,000,000 ordinary shares for the total value of USD 105 million (the equivalent of RUB 3,455 million as at the date of purchase). The share of the subsidiary bank in the share capital of the subsidiary comprised 73.4%.

In July 2013, the Bank became a participant of Resad LLC owning 85% interest in the company's share capital. The Group is currently in the process of determining the fair value of assets and liabilities of the acquired company.

In July 2013, the Bank purchased 4,000,000 ordinary registered shares additionally issued by OJSC "North Caucasus Development Corporation" in the total amount of RUB 4,000 million. The Bank's share in the equity of its subsidiary remained unchanged at 100%.

(in millions of Russian rubles)

22. Subsequent events (continued)

In July 2013, the Bank placed bonds, Series BO-01, with a nominal value of RUB 20,000 million at MICEX-RTS. The bonds mature in July 2016 and are subject to a two-year offer.

In July 2013, a subsidiary bank redeemed ruble exchange-traded bonds, Series BO-02, with a nominal value of RUB 5,000 million in accordance with the terms of issue.

In July 2013, the Bank received a loan from a syndicate of banks in the amount of USD 230 million (RUB 7,452 million as at the date of issue). The loan bears a floating interest rate and matures in 5 years. The funds will be used to finance the construction of a sports facility.

In July 2013, the Bank received a RUB 50,000 million loan from the Bank of Russia. The loan matures in July 2014.

In August 2013, in accordance with resolution of the Russian Government No. 670-r dated 2 May 2012, the Russian government contributed 35,933,333 of state-owned shares in the international and domestic long-distance electrical communication operator Open Joint-Stock Company "Rostelecom" as an additional asset contribution to the charter capital of Vnesheconombank.

In August 2013, the Bank signed Additional Agreement No. 4 to the Agreement on performing the functions of an agent of the Russian Government entered into between Vnesheconombank and the Russian Ministry of Finance on 25 December 2009, which determines the procedures for performing the agency functions in 2013 (Note 1).

In August 2013 subsidiary bank placed at MICEX-RTS two issues of bonds, Series BO-01 and BO-02, in the total nominal value of RUB 6,000 million. The bonds mature in 2016 and are subject to a two-year offer. Both issues of these bonds were acquired by the Bank.

In August 2013 within the previously concluded loan agreement the Bank attracted a new tranche from a foreign bank in the amount of USD 300 million (RUB 9,913 million as at the date of issue). The loan bears a floating interest rate and matures in 6 years. The funds will be used to finance the real sector of the economy.

In September 2013, the maturity of an interest-bearing deposit raised from the Bank of Russia was extended by one year (Note 6).

In October 2013 the Bank placed bonds, Series BO-14, with a nominal value of RUB 10,000 million at MICEX-RTS. The bonds mature in September 2018 and are not subject to an offer.

In October 2013 the Bank acquired 542 ordinary registered shares additionally issued by OJSC "SME Bank" in the total amount of RUR 542 million. The Bank's share in the equity of its subsidiary remained unchanged at 100%.

Independent auditor's report

To the Supervisory Board
of state corporation "Bank for Development and Foreign Economic Affairs
(Vnesheconombank)"

We have audited the accompanying consolidated financial statements of state corporation "Bank for Development and Foreign Economic Affairs (Vnesheconombank)" and its subsidiaries, which comprise the consolidated statement of financial position as of 31 December 2012, and the consolidated statement of income, consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year ended 31 December 2012, and a summary of significant accounting policies and other explanatory information.

Audited entity's responsibility for the consolidated financial statements

Management of the audited entity is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with International Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on the fairness of these consolidated financial statements based on our audit.

We conducted our audit in accordance with the federal standards on auditing effective in the Russian Federation and International Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance whether the consolidated financial statements are free from material misstatement.

An audit involves performing audit procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The audit procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management of the audited entity, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of state corporation "Bank for Development and Foreign Economic Affairs (Vnesheconombank)" and its subsidiaries as at 31 December 2012, and their financial performance and cash flows for the year 2012 in accordance with International Financial Reporting Standards.

The accompanying notes 1 to 35 are an integral part of these consolidated financial statements.

(in millions of Russian rubles)

1. Principal activities

The Group of state corporation "Bank for Development and Foreign Economic Affairs (Vnesheconombank)" comprises state corporation "Bank for Development and Foreign Economic Affairs (Vnesheconombank)" ("Vnesheconombank" or the "Bank"), Russian banks, CIS-based banks, and Russian and foreign companies (collectively, the "Group"). List of major subsidiaries is presented in Note 3, associates – in Note 17.

Vnesheconombank was formed on 8 June 2007 pursuant to and in accordance with Federal Law No. 82-FZ dated 17 May 2007, "On Bank for Development" (the "Federal Law"), by means of reorganization of Bank for Foreign Economic Affairs of the USSR ("Vnesheconombank of the USSR") and is its legal successor. Vnesheconombank of the USSR was a specialized state bank of the Russian Federation servicing, in an agency capacity, the foreign debt and assets of the former USSR and the Government of the Russian Federation and its authorized institutions (the "Russian Government").

In accordance with Federal Law No. 395-1, "On Banks and Banking Activity", dated 2 December 1990, Vnesheconombank performs banking operations as stipulated by the Federal Law. The Bank has no right to attract deposits from individuals. The legislation on banks and banking activity shall apply to the Bank only to the extent that it does not contradict the mentioned Federal Law and subject to certain specifics.

The main principles and areas of the Bank's activity are set out in the Federal Law and the Memorandum on the Bank's Financial Policies, approved by Resolution of the Russian Government No. 1007-r dated 27 July 2007. The Memorandum on the Bank's Financial Policies provides for the main areas of the Bank's investing and financing activities, stipulates quantitative limitations, conditions and criteria of specific operations. The Russian Government, by Resolution No. 2610-r dated 29 December 2012, approved amendments to the Memorandum setting out terms and procedures for providing financial support and guarantees to companies working on state defense contracts and involved in federal-level defense and security programs. In addition, the Memorandum was amended by adding a section on the formal process for Vnesheconombank to make decisions on investing pension savings in bonds covered by guarantees of the Russian government and bonds issued by companies, which have been assigned a long-term credit rating not lower than Russia's sovereign rating by an international credit rating agency approved in accordance with the procedure established by a federal governmental body for financial markets, for the purpose of financing the government's major infrastructure development projects.

The management bodies of the Bank are the Supervisory Board chaired by the Prime Minister of the Russian Federation, the Management Board and the Chairman of the Bank. In accordance with the Federal Law, the Chairman of the Bank is appointed by the President of the Russian Federation for a term which cannot exceed 5 years.

Vnesheconombank activities are aimed at overcoming infrastructure growth constraints, upgrading and promoting non-raw materials economic sector, encouraging innovations and exports of high-technology products, carrying out projects in special economic zones, environment protection projects, and supporting small and medium-sized businesses. The Bank actively participates in large investment projects contributing to the development of infrastructure and high-technology industries of the real sector of the economy.

As detailed in Note 25, the Bank's charter capital has been formed by means of asset contributions from the Russian Federation made under decisions of the Russian Government, including contribution of state-owned shares of OJSC "Russian Bank for Development" (in 2011 renamed to – OJSC "Russian Bank for Small and Medium Enterprises Support" ("SME Bank")), CJSC "State Specialized Russian Export-Import Bank" (EXIMBANK OF RUSSIA) and Federal Center for Project Finance (FCPF) to the charter capital.

(in millions of Russian rubles)

1. Principal activities (continued)

Vnesheconombank performs the functions of an agent of the Russian Government for the purpose of accounting, servicing and repaying the foreign national debt of the former USSR and the Russian Federation (including internal currency debt of the former USSR), accounting, servicing and repaying (using) government loans issued by the former USSR and the Russian Federation to foreign borrowers; collecting (recovery) of debts from legal entities, constituent entities of the Russian Federation and municipal governments under cash liabilities to the Russian Federation; providing and executing state guarantees of the Russian Federation and monitoring projects implemented by the Russian Federation with involvement of international financial institutions.

Vnesheconombank performs the functions of an agent of the Russian Government under the Agreement entered into with the Ministry of Finance of the Russian Federation (the "Russian Ministry of Finance") on 25 December 2009, Additional Agreement No. 1 dated 23 December 2010, Additional Agreement No. 2 dated 8 December 2011, and Additional Agreement No. 3 dated 23 July 2012 (collectively, the "Agency Agreements").

In 2012, Vnesheconombank received a lump-sum consideration in the amount of RUB 534 million (2011: RUB 534 million) for the agency services provided pursuant to Federal Law No. 371-FZ "On the Federal Budget for 2012 and the 2013 and 2014 Planned Period" dated 30 November 2011. This consideration was recorded within fee and commission income of the Bank under agency agreements (Note 27).

As described in Note 8, at 31 December 2011, the Russian Government owed Vnesheconombank RUB 1,147 million relating to the London Club debt obligation of Vnesheconombank. In pursuance of a letter of the Russian Ministry of Finance, in December 2012 Vnesheconombank derecognized the unsettled debt owed to the London Club.

The Bank performs functions of the agent servicing the foreign debt of the former USSR and of the Russian Federation, including maintenance of accounting records, settlements and reconciliation of above debt until the date determined by the Russian Government.

In January 2003, the Bank was nominated as the state trust management company for the trust management of pension savings funds accumulated by the State Pension Fund of the Russian Federation (the SPF). Vnesheconombank performs trust management of accumulated pension savings of insured citizens who have not selected a private management company and who have selected the Bank as the management company.

On 2 August 2009, Federal Law No. 182-FZ dated 18 July 2009, "On Amendments to Federal Law "On Non-state Pension Funds" and Federal Law "On Investment of Funds to Finance the Funded Part of Labor Pensions in the Russian Federation", came into effect which provides that from 1 November 2009 the Bank as a state trust management company for pension savings shall form two portfolios: an extended investment portfolio and an investment portfolio of government securities. The Bank shall form the portfolios in accordance with the investment declarations approved by Resolution of the Russian Government No. 540 dated 1 September 2003 and Resolution of the Russian Government No. 842 dated 24 October 2009. In accordance with Resolution of the Russian Government No. 658 dated 29 June 2012 "On Amendments to Resolution of the Russian Government No. 970 dated 22 December 2008", Vnesheconombank was appointed as state management company for funds in the payment reserve. The salary reserve is formed in accordance with Federal Law No. 360-FZ of 30 November 2011 "Concerning the Procedure for Using Pension Accruals to Finance Payments" for purposes of payments to the cumulative part of the old-age pension.

(in millions of Russian rubles)

1. Principal activities (continued)

During 2012, the Bank, as a state management company, mainly invested in state securities denominated in Russian rubles, and corporate bonds of highly credible Russian issuers, as well as mortgage securities and bonds of international financial organizations. At 31 December 2012 and 31 December 2011, total funds of the SPF placed in management to the state management company amounted to RUB 1,635,758 million and RUB 1,328,885 million in the extended investment portfolio and RUB 8,008 million and RUB 5,157 million in the portfolio of government securities, respectively. At 31 December 2012, total funds of the SPF placed in management to the state management company amounted to RUB 313 million in the payment reserve investment portfolio and RUB 37 million in the investment portfolio of pension savings of insured persons, whom assigned a term pension payment.

In accordance with Resolution of the Russian Government No. 970 dated 22 December 2008, the Bank shall perform functions of state trust management company for pension savings and state management company for the payment reserve until 1 January 2014.

Since October 2008, Vnesheconombank has been taking measures aimed at supporting the financial system of the Russian Federation so as to implement Federal Law No. 173-FZ dated 13 October 2008, "On Additional Measures to Support the Financial System of the Russian Federation" (Federal Law No. 173-FZ). As detailed in Notes 12 and 14, the Bank extended unsecured subordinated loans to Russian banks, and starting from the end of December 2010, the Bank acts as a lender for operations to enhance affordability of mortgage loans through extending loans to OJSC "The Agency for Housing Mortgage Lending" (OJSC "AHML").

The Bank's head office is located in Moscow, Russia. The Bank has representative offices in St. Petersburg (Russia), Khabarovsk (Russia), Yekaterinburg (Russia), Pyatigorsk (Russia), Rostov-on-Don (Russia), Krasnoyarsk (Russia), Nizhny Novgorod (Russia), New-York (the United States of America), London (the United Kingdom of Great Britain and Northern Ireland), Milan (the Italian Republic), Frankfurt-am-Main (the Federal Republic of Germany), Johannesburg (the Republic of South Africa), Mumbai and New-Delhi (the Republic of India), Beijing (the People's Republic of China), Paris (the French Republic) and Zurich (the Swiss Confederation). The Bank's principal office is located at 9 Prospekt Akademika Sakharova, Moscow.

At 31 December 2012 and 31 December 2011, the Group had 16,945 and 17,935 employees, respectively.

2. Basis of preparation

General

These consolidated financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS").

The Bank, its subsidiaries and associates are required to maintain their accounting records and prepare financial statements in accordance with regulations applicable in their country of registration. These consolidated financial statements are based on those accounting books and records, as adjusted and reclassified in order to comply with IFRS.

The consolidated financial statements have been prepared under the historical cost convention except as disclosed in the summary of significant accounting policies below. For example, trading securities, financial assets designated as at fair value through profit or loss, available-for-sale financial assets, derivative financial instruments and investment property have been measured at fair value.

These consolidated financial statements are presented in millions of Russian rubles ("RUB million"), unless otherwise is indicated.

(in millions of Russian rubles)

2. Basis of preparation (continued)

General (continued)

Functional currency

The Russian Ruble is the functional currency of Vnesheconombank and the presentation currency of the Group. Transactions in other currencies are treated as transactions in foreign currencies. The Group's foreign subsidiary OJSC "Belvnesheconombank" (Bank BelVEB OJSC) uses the Belarusian Ruble ("BYR") as its functional currency. Public Stock Company "Joint-Stock Commercial Industrial and Investment Bank" (PSC Prominvestbank), another foreign subsidiary of the Group, uses the Ukrainian Hryvnia ("UAH") as its functional currency.

London Club debt amount denominated in foreign currencies is recorded at the official rates of the Bank of Russia at 31 December 2011 (at 31 December 2012, no debt was owed).

Clearing currencies are the settlement currencies for bilateral trade between the Russian Federation and designated countries. Clearing currencies are regularly traded on special auctions held by the Bank under the supervision of the Russian Ministry of Finance. Clearing currencies-denominated assets and liabilities have been translated into RUB at the official rates of the Bank of Russia at 31 December 2012 and 31 December 2011.

Segregation of operations

In its agency capacity the Bank manages and services certain assets and liabilities on behalf of the Russian Government. Balances of respective assets and liabilities have not been included in the accompanying statements of financial position given the agency nature of the relationship and in accordance with the underlying Agency Agreements and specific guidelines (hereinafter, the "Guidelines") approved by the Board of Directors of Vnesheconombank of the USSR and the Russian Ministry of Finance in 1997.

The Guidelines stipulated the following assets and liabilities are the responsibility of the Russian Ministry of Finance and have, therefore, been excluded from the accompanying statements of financial position:

- Liabilities to foreign creditors including all accrued interest which are serviced and redeemed at the expense of the Russian Government, except some remaining London Club obligations (Note 8);
- Internal foreign currency debt to residents of the former USSR;
- Claims to legal entities for foreign currency government and commercial loans granted to Russian Federation regions, former republics of the USSR, and other foreign countries representing both government external and internal foreign currency assets;
- Clearing, barter, and mutual settlements, including corresponding settlements with clients, executed on the basis of intergovernmental agreements;
- Participation claims and liabilities related to the reorganization of former USSR-owned foreign banks, which are subject to trilateral settlement by the Bank of Russia, the Russian Ministry of Finance, and Vnesheconombank, and equity participations financed by borrowings, the responsibility for which was assumed by the Russian Ministry of Finance;
- Claims against Russian commercial banks and other commercial entities for guarantees in favor of the Russian Ministry of Finance under centralized operations, as well as other claims and liabilities that resulted from, or arise as a result of, operations conducted at the expense of the Russian Government.

(in millions of Russian rubles)

Closed-end Mutual Hedge Fund "MRIF"	99.92%	99.92%	Russia	Mutual fund
Closed-end Mutual Equity Fund "MRIF-II"	99.9992%	99.9975%	Russia	Mutual fund
Mutual Fund RDIF	100%	100%	Russia	Mutual fund

At 31 December 2012 and at 31 December 2011 the Group is the sole shareholder and fully controls the activities of OJSC "VEB-Leasing". At 31 December 2012 the Group is the wholly owner and fully controls "VEB Engineering" LLC.

At 31 December 2012 and at 31 December 2011 the Group owns 100% shares of AMURMETAL HOLDING LIMITED, a company holding shares of the entity, which is the owner of a group of metallurgical enterprises. The Group lost control over the company as a result of entering into an option agreement for the sale of the above interest, thus financial statements of the company had not been included in the consolidated financial statements of the Group at 31 December 2012 and 31 December 2011.

At 31 December 2012 and at 31 December 2011 the Group owns 100% shares of Machinery & Industrial Group N.V., a company holding shares of a group of machinery enterprises. The Group did not obtain control over the company due to simultaneously concluded option agreement for the sale of the above interest. Due to absence of control, financial statements of the Machinery & Industrial Group N.V. have not been included in the consolidated financial statements of the Group at 31 December 2012 and 31 December 2011.

In February 2012, under Bank BelVEB OJSC private subscription for additional shares, Vnesheconombank paid for 4,055,000,000 shares (equivalent to RUB 1,456 million as at the date of payment). As a result of state registration of the additional issue of shares completed in May 2012, the Bank's share in the charter capital of Bank BelVEB OJSC amounted to 97.52%.

In March, October and December 2012, the Bank transferred funds in the total amount of RUB 2,210 million to pay for 159,562 additional investment units of Closed-end Mutual Equity Fund "MRIF-II". As a result, the Bank's share in the fund's assets increased up to 99.9992%.

(in millions of Russian rubles)

3. Major subsidiaries (continued)

In March, May and August 2012, Vnesheconombank made additional contributions to the charter capital of LLC "VEB Capital" in the total amount of RUB 4,025 million. The Bank's share in the charter capital of LLC "VEB Capital" remained unchanged at 100%.

In May 2012, Vnesheconombank purchased 3,100,000 ordinary registered shares additionally issued by OJSC "Development Corporation of North Caucasus" in the total amount of RUB 3,100 million. The Bank's share in the charter capital of its subsidiary remained unchanged at 100%.

In June 2012, the Bank purchased 1,979 ordinary registered shares additionally issued by "SME Bank" in the amount of RUB 1,979 million. Vnesheconombank's share in the charter capital of its subsidiary remained unchanged at 100%.

4. Summary of significant accounting policies

Changes in accounting policies

The Group has adopted the following amended IFRS during the year.

Amendments to IFRS 7 Financial Instruments: Disclosures

The Amendments were issued in October 2010 and are effective for annual periods beginning on or after 1 July 2011. The amendments require additional disclosure about financial assets that have been transferred to enable the users of the Group's financial statements to evaluate the risk exposures relating to those assets. The amendment affects disclosure only and has no impact on the Group's financial position or performance.

Other amendments to the following standards did not have any impact on the accounting policies, financial position or performance of the Group:

- IAS 12 *Income Taxes (Amendment) – Deferred Taxes: Recovery of Underlying Assets*
- IFRS 1 *First-time Adoption of International Financial Reporting Standards (Amendment) – Severe Hyperinflation and Removal of Fixed Dates for First-time Adopters*

Basis of consolidation

Subsidiaries, which are those entities in which the Group has an interest of more than one half of the voting rights (stakes in equity), or otherwise has power to exercise control over their operations, are consolidated. Subsidiaries are consolidated from the date on which control is transferred to the Group and are no longer consolidated from the date that control ceases. All intercompany transactions, balances and unrealized gains on transactions between group companies are eliminated in full; unrealized losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. If necessary, accounting policies of subsidiaries have been changed to ensure consistency with the policies adopted by the Group.

A change in the ownership interest of a subsidiary, without a change a loss of control, is accounted for as an equity transaction. Losses of a subsidiary are attributed to non-controlling interests even if that results in a deficit balance.

If the Group loses control over a subsidiary, it derecognizes the assets (including goodwill) and liabilities of the subsidiary, the carrying amount of any non-controlling interests, the cumulative translation differences, recorded in equity; recognizes the fair value of the consideration received, the fair value of any investment retained and any surplus or deficit in profit or loss and reclassifies the parent's share of components previously recognized in other comprehensive income to profit or loss or retained earnings, as appropriate.

(in millions of Russian rubles)

4. Summary of significant accounting policies (continued)

Business combination

Business combinations are accounted for using the acquisition method. The cost of an acquisition is measured as the aggregate of the consideration transferred, measured at acquisition date fair value and the amount of any non-controlling interests in the acquiree. For each business combination, the acquirer measures the non-controlling interests in the acquiree, that are present ownership interests that entitle their holders to a proportionate share of the entity's net assets in the event of liquidation, either at fair value or at the proportionate share of the acquiree's identifiable net assets. Other components of non-controlling interest are measured at acquisition date fair value. Acquisition costs incurred are expensed.

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts by the acquiree.

If the business combination is achieved in stages, the acquisition date fair value of the acquirer's previously held equity interest in the acquiree is remeasured at fair value as at the acquisition date through profit or loss.

Any contingent consideration to be transferred by the acquirer is recognized at fair value at the acquisition date. Subsequent changes to the fair value of the contingent consideration which is deemed to be an asset or liability will be recognized in accordance with IAS 39 either in profit or loss or as change to other comprehensive income. If the contingent consideration is classified as equity, it shall not be remeasured until it is finally settled within equity.

Goodwill is initially measured at cost being the excess of the sum of consideration transferred and recognized non-controlling interest over the Group's net identifiable assets acquired and liabilities assumed. If this consideration is lower than the fair value of the net assets of the subsidiary acquired, the difference is recognized in profit or loss.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash generating units that are expected to benefit from the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units.

Where goodwill forms part of a cash-generating unit and part of the operation within that unit is disposed of, the goodwill associated with the operation disposed of is included in the carrying amount of the operation when determining the gain or loss on disposal of the operation. Goodwill disposed of in this circumstance is measured based on the relative values of the operation disposed of and the portion of the cash-generating unit retained.

Acquisition of subsidiaries from parties under common control

Acquisitions of subsidiaries from parties under common control are accounted for using the pooling of interests method.

The assets and liabilities of the subsidiary transferred under common control are recorded in consolidated financial statements at the carrying amounts of the transferring entity (the Predecessor) at the date of the transfer. Related goodwill inherent in the Predecessor's original acquisition is also recorded in consolidated financial statements. Any difference between the total book value of net assets, including the Predecessor's goodwill, and the consideration paid is accounted for in consolidated financial statements as an adjustment to the shareholders' equity.

Consolidated financial statements, including comparative figures, are presented as if the subsidiary had been acquired by the Group on the date it was originally acquired by the Predecessor.

(in millions of Russian rubles)

4. Summary of significant accounting policies (continued)

Investments in associates

Associates are entities in which the Group generally has between 20% and 50% of the voting rights or participation shares (stakes in equity), or is otherwise able to exercise significant influence, but which it does not control or jointly control. Investments in associates are accounted for under the equity method and are initially recognized at acquisition cost, including goodwill. Subsequent changes in the carrying value reflect the post-acquisition changes in the Group's share in net assets of the associate. The Group's share of its associates' profits or losses is recognized in the consolidated statement of income, and its share of changes in reserves is recognized in other comprehensive income. However, when the Group's share of losses in an associate equals or exceeds the value of its interest in the associate, the Group does not recognize further losses, unless the Group is obliged to make further payments to, or on behalf of, the associate.

Unrealized gains on transactions between the Group and its associates are eliminated to the extent of the Group's interest in the associates; unrealized losses are also eliminated unless the transaction provides evidence of impairment in the asset transferred.

Financial assets

Initial recognition

Financial assets in the scope of IAS 39 are classified as either financial assets at fair value through profit or loss, loans and receivables, held-to-maturity investments, or available-for-sale financial assets, as appropriate. When financial assets are recognized initially, they are measured at fair value, plus, in the case of investments not at fair value through profit or loss, directly attributable transaction costs. The Group determines the classification of its financial assets upon initial recognition, and subsequently can reclassify financial assets in certain cases as described below.

Date of recognition

All regular way purchases and sales of financial assets are recognized on the trade date, i.e. the date that the Group commits to purchase the asset. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the period generally established by regulation or convention in the marketplace.

'Day 1' profit

Where the transaction price in a non-active market is different to the fair value of other observable current market transactions in the same instrument or based on a valuation technique whose variables include only data from observable markets, the Group immediately recognizes the difference between the transaction price and fair value (a 'Day 1' profit) in the consolidated statement of income. In cases where use is made of data which is not observable, the difference between the transaction price and model value is only recognized in the consolidated statement of income when the inputs become observable, or when the instrument is derecognized.

Financial assets at fair value through profit or loss

Financial assets classified as held for trading are included in the category 'financial assets at fair value through profit or loss'. Financial assets are classified as held for trading if they are acquired principally for the purpose of generating a profit from short-term fluctuations in price or dealers' margin. Derivatives are also classified as held for trading. Gains and losses resulting from operations with financial assets at fair value through profit or loss are recognized in the consolidated statement of income within gains less losses from financial instruments at fair value through profit or loss.

(in millions of Russian rubles)

4. Summary of significant accounting policies (continued)

Financial assets (continued)

Held-to-maturity investments

Non-derivative financial assets with fixed or determinable payments and fixed maturity are classified as held-to-maturity when the Group has the positive intention and ability to hold them to maturity. Investments intended to be held for an undefined period are not included in this classification. Held-to-maturity investments are subsequently measured at amortized cost. Gains and losses are recognized in the consolidated statement of income when the investments are impaired, as well as through the amortization process.

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are not entered into with the intention of immediate or short-term resale and are not classified as trading securities or designated as investment financial assets available for sale. Such assets are carried at amortized cost using the effective interest method. Gains and losses are recognized in the consolidated statement of income when the loans and receivables are derecognized or impaired, as well as through the amortization process.

Available-for-sale financial assets

Available-for-sale financial assets are those non-derivative financial assets that are designated as available-for-sale or are not classified in any of the three other categories. After initial recognition available-for-sale financial assets are measured at fair value with gains and losses from changes in fair value being recognized in other comprehensive income until the investment is derecognized or until the investment is determined to be impaired. In such case accrued gains or losses previously reported in other comprehensive income are reclassified to the consolidated statement of income as gains less losses from investment financial assets available for sale. However, interest calculated using the effective interest method is recognized in the consolidated statement of income.

Non-marketable securities that do not have fixed maturities are stated at cost, less allowance for impairment unless there are other appropriate and applicable methods which reasonably estimate their fair value.

Determination of fair value

The fair value for financial instruments traded in an active market at the reporting date is based on their quoted market price or dealer price quotations (bid price for long positions and ask price for short positions), without any deduction for transaction costs.

For all other financial instruments not listed in an active market, fair value is determined by using appropriate valuation techniques. Valuation techniques include net present value techniques, comparison to similar instruments for which market observable prices exist, option valuation models and other valuation techniques.

Offsetting

Financial assets and liabilities are offset with only the net amount being reported in the consolidated statement of financial position when there is a legal right to set off the recognized amounts and there is an intention to realize the asset and settle the liability simultaneously. This is not generally the case with master netting agreements, and the related assets and liabilities are presented gross in the consolidated statement of financial position.

(in millions of Russian rubles)

4. Summary of significant accounting policies (continued)

Financial assets (continued)

Reclassification of financial assets

If a non-derivative financial asset classified as held for trading is no longer held for the purpose of selling in the near term, it may be reclassified out of the fair value through profit or loss category in one of the following cases:

- a financial asset meeting the definition of loans and receivables above may be reclassified to loans and receivables category if the Group has the intention and ability to hold it for the foreseeable future or until maturity;
- other financial assets may be reclassified to the available for sale or held to maturity categories only in rare circumstances.

A financial asset classified as available for sale that would have met the definition of loans and receivables may be reclassified to the loans and receivables category if the Group has the intention and ability to hold it for the foreseeable future or until maturity.

Financial assets are reclassified at their fair value at the date of reclassification. Any gain or loss already recognized in profit or loss is not reversed. The fair value of the financial asset at the date of reclassification becomes its new cost or amortized cost, as applicable.

Cash and cash equivalents

Cash and cash equivalents consist of cash on hand, amounts due from the Bank of Russia, excluding obligatory reserves of subsidiary banks, and amounts due from credit institutions that mature within ninety days of the date of origination and are free from contractual encumbrances.

Precious metals

Gold and other precious metals are recorded at Bank of Russia bid prices, bid prices of National Bank of Belarus ('NB RB') and National Bank of Ukraine ('NBU'), which approximate fair values and are quoted at a discount to London Bullion Market rates. Changes in the above mentioned bid prices are recorded as translation differences from precious metals in other income.

Repurchase and reverse repurchase agreements and securities lending

Sale and repurchase agreements ('repo') are treated as secured financing transactions. Securities sold under repurchase agreements are retained in the consolidated statement of financial position and, in case the transferee has the right by contract or custom to sell or repledge them, reclassified as securities pledged under repurchase agreements. The corresponding liability is presented within amounts due to the Bank of Russia, credit institutions or customers. Securities purchased under agreements to resell ('reverse repo') are recorded as cash and cash equivalents, amounts due from credit institutions or loans to customers as appropriate. The difference between sale and repurchase price is treated as interest and accrued over the life of repo agreements using the effective yield method.

Securities lent to counterparties are retained in the consolidated statement of financial position. Securities borrowed are not recorded in the consolidated statement of financial position, unless these are sold to third parties, in which case the purchase and sale are recorded within gains less losses from financial instruments at fair value through profit or loss in the consolidated statement of income. The obligation to return them is recorded at fair value as a financial trade liability.

(in millions of Russian rubles)

4. Summary of significant accounting policies (continued)

Derivative financial instruments

In the normal course of business, the Group enters into various derivative financial instruments including futures, forwards, swaps and options in the foreign exchange and securities markets. Such financial instruments are held for trading and are recorded at fair value. The fair values are estimated based on quoted market prices or pricing models that take into account the current market and contractual prices of the underlying instruments and other factors. Derivatives are carried as assets when their fair value is positive and as liabilities when it is negative. Gains and losses resulting from these instruments are included in the consolidated statement of income as gains less losses from financial instruments at fair value through profit or loss or gains less losses from foreign currencies dealing, depending on the nature of the instrument.

Derivatives embedded in other financial instruments are treated as separate derivatives and recorded at fair value if their economic characteristics and risks are not closely related to those of the host contract, and the host contract is not itself held for trading or designated at fair value through profit or loss. The embedded derivatives separated from the host are carried at fair value in the trading portfolio with changes in fair value recognized in the consolidated statement of income.

Promissory notes

Promissory notes purchased are included in trading or investment securities, or in cash and cash equivalents, in amounts due from credit institutions or in loans to customers, depending on the aim and terms of their purchase, and are recorded in accordance with the accounting policies for these categories of assets.

Borrowings

Issued financial instruments or their components are classified as liabilities, where the substance of the contractual arrangement results in the Group having an obligation either to deliver cash or another financial asset to the holder, or to satisfy the obligation other than by the exchange of a fixed amount of cash or another financial asset for a fixed number of own equity instruments. Such instruments include amounts due to credit institutions, amounts due to the Bank of Russia and the Russian Government, amounts due to customers and debt securities issued. After initial recognition, borrowings are subsequently measured at amortized cost using the effective interest method. Gains and losses are recognized in the consolidated statement of income when the borrowings are derecognized as well as through the amortization process.

If the Group purchases its own debt, it is removed from the statement of financial position and the difference between the carrying amount of the liability and the consideration paid is recognized in the consolidated statement of income.

For the purposes of the consolidated statement of cash flows, the Group recognizes amounts attracted from banks for a period of up to one year in 'Cash flows from operating activities' category, for a period exceeding one year - in 'Cash flows from financing activities' category.

Government grants and government assistance

Government grants are recognized where there is reasonable assurance that the grant will be received and all related conditions will be complied with. Where the grant relates to an expense item, it is recognized as income in the same periods as the respective expenses it is intended to compensate on a systematic basis. Where the grant relates to an asset, it is recognized as deferred income and released to income in equal amounts over the expected useful life of the related asset.

Government loans provided at below market interest rates are recognized in accordance with IAS 39. The benefit of the government loan is measured at the inception of the loan as the difference between the cash received and the amount at which the loan is initially recognized in the statement of financial position. This benefit is accounted for in accordance with IAS 20.

(in millions of Russian rubles)

4. Summary of significant accounting policies (continued)

Leases

- ***Finance leases – Group as lessee***

The Group recognizes finance leases as assets and liabilities in the consolidated statement of financial position at the date of commencement of the lease term at amounts equal to the fair value of the leased property or, if lower, at the present value of the minimum lease payments. In calculating the present value of the minimum lease payments the discount factor used is the interest rate implicit in the lease, when it is practicable to determine; otherwise, the Group's incremental borrowing rate is used. Initial direct costs incurred are included as part of the asset. Lease payments are apportioned between the finance charge and the reduction of the outstanding liability. The finance charge is allocated to periods during the lease term so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period. The costs identified as directly attributable to activities performed by the lessee for a finance lease, are included as part of the amount recognized as an asset under the lease.

- ***Finance leases – Group as lessor***

The Group recognizes lease receivables at value equal to the net investments in the lease, starting from the date of commencement of the lease term. Finance income is based on a pattern reflecting a constant periodic rate of return on the net investment outstanding. Initial direct costs are included in the initial measurement of the lease receivables.

- ***Operating leases – Group as lessee***

Leases of assets under which the risks and rewards of ownership are effectively retained with the lessor are classified as operating leases. Lease payments under operating leases are recognized as expenses on a straight-line basis over the lease-term and included into expenses for occupancy and equipment.

- ***Operating leases – Group as lessor***

The Group presents assets subject to operating leases in the consolidated statement of financial position according to the nature of the asset. Lease income from operating leases is recognized in statement of income on a straight-line basis over the lease term as other operating income. The aggregate cost of incentives provided to lessees is recognized as a reduction of rental income over the lease term on a straight-line basis. Initial direct costs incurred specifically to earn revenues from an operating lease are added to the carrying amount of the leased asset.

Impairment of financial assets

The Group assesses at each reporting date whether there is any objective evidence that a financial asset or a group of financial assets is impaired. A financial asset or a group of financial assets is deemed to be impaired if, and only if, there is objective evidence of impairment as a result of one or more events that has occurred after the initial recognition of the asset (an incurred 'loss event') and that loss event (or events) has an impact on the estimated future cash flows of the financial asset or the group of financial assets that can be reliably estimated.

Evidence of impairment may include indications that the borrower or a group of borrowers is experiencing significant financial difficulty, default or delinquency in interest or principal payments, the probability that they will enter bankruptcy or other financial reorganization and where observable data indicate that there is a measurable decrease in the estimated future cash flows, such as changes in arrears or economic conditions that correlate with defaults.

(in millions of Russian rubles)

4. Summary of significant accounting policies (continued)

Impairment of financial assets (continued)

Provisions for impairment of financial assets in these consolidated financial statements have been determined on the basis of existing economic and political conditions. The Group is not in a position to predict what changes in conditions will take place in the Russian Federation, Ukraine and in the Republic of Belarus and what effect such changes might have on the adequacy of the provisions for impairment of financial assets.

Amounts due from credit institutions and loans to customers

For amounts due from credit institutions and loans to customers carried at amortized cost, the Group first assesses individually whether objective evidence of impairment exists individually for financial assets that are individually significant, or collectively for financial assets that are not individually significant. If the Group determines that no objective evidence of impairment exists for an individually assessed financial asset, whether significant or not, it includes the asset in a group of financial assets with similar credit risks characteristics and collectively assesses them for impairment. Assets that are individually assessed for impairment and for which an impairment loss is, or continues to be, recognized are not included in a collective assessment of impairment.

If there is an objective evidence that an impairment loss has been incurred, the amount of the loss is measured as the difference between the assets' carrying amount and the present value of estimated future cash flows (excluding future expected credit losses that have not yet been incurred). The carrying amount of the asset is reduced through the use of an allowance account and the amount of the loss is recognized in the consolidated statement of income. Interest income continues to be accrued on the reduced carrying amount based on the original effective interest rate of the asset. Loans together with the associated allowance for impairment are written off when there is no realistic prospect of future recovery and all collateral has been realized or has been transferred to the Group. If, in subsequent years, the amount of the estimated impairment loss increases or decreases because of an event occurring after the impairment was recognized, the previously recognized impairment loss is increased or reduced by adjusting the allowance account. If a future write-off is later recovered, the recovery is credited to the consolidated statement of income.

The present value of the estimated future cash flows is discounted at the financial asset's original effective interest rate. If a loan has a variable interest rate, the discount rate for measuring any impairment loss is the current effective interest rate. The calculation of the present value of the estimated future cash flows of a collateralized financial asset reflects the cash flows that may result from foreclosure less costs for obtaining and selling the collateral, whether or not foreclosure is probable.

For the purpose of a collective evaluation of impairment, financial assets are grouped on the basis of the Group's internal credit grading system that considers credit risk characteristics such as asset type, industry, geographical location, collateral type, past-due status and other relevant factors.

Future cash flows on a group of financial assets that are collectively evaluated for impairment are estimated on the basis of historical loss experience for assets with credit risk characteristics similar to those in the group. Historical loss experience is adjusted on the basis of current observable data to reflect the effects of current conditions that did not affect the years on which the historical loss experience is based and to remove the effects of conditions in the historical period that do not exist currently. Estimates of changes in future cash flows reflect, and are directionally consistent with, changes in related observable data from year to year (such as changes in unemployment rates, property prices, commodity prices, payment status, or other factors that are indicative of incurred losses in the group or their magnitude). The methodology and assumptions used for estimating future cash flows are reviewed regularly to reduce any differences between loss estimates and actual loss experience.

(in millions of Russian rubles)

4. Summary of significant accounting policies (continued)

Impairment of financial assets (continued)

Held-to-maturity financial investments

For held-to-maturity investments the Group assesses individually whether there is objective evidence of impairment. If there is objective evidence that an impairment loss has been incurred, the amount of the loss is measured as the difference between the assets' carrying amount and the present value of estimated future cash flows. The carrying amount of the asset is reduced and the amount of the loss is recognized in the consolidated statement of income.

If, in a subsequent year, the amount of the estimated impairment loss decreases because of an event occurring after the impairment was recognized, any amounts formerly charged are credited to the consolidated statement of income.

Available-for-sale financial investments

For available-for-sale financial investments, the Group assesses at each reporting date whether there is objective evidence that an investment or a group of investments is impaired.

In the case of equity investments classified as available-for-sale, objective evidence would include a significant or prolonged decline in the fair value of the investment below its cost. Where there is evidence of impairment, the cumulative loss – measured as the difference between the acquisition cost and the current fair value, less any impairment loss on that investment previously recognized in the consolidated statement of income – is reclassified from other comprehensive income and recognized in the consolidated statement of income. Impairment losses on equity investments are not reversed through the consolidated statement of income; increases in their fair value after impairment are recognized directly in other comprehensive income.

In the case of debt instruments classified as available-for-sale, impairment is assessed based on the same criteria as financial assets carried at amortized cost. Future interest income is based on the reduced carrying amount and is accrued using the rate of interest used to discount the future cash flows for the purpose of measuring the impairment loss. The interest income is recorded in the consolidated statement of income. If, in a subsequent year, the fair value of a debt instrument increases and the increase can be objectively related to an event occurring after the impairment loss was recognized in the consolidated statement of income, the impairment loss is reversed through the consolidated statement of income.

Renegotiated loans

Where possible, the Group seeks to restructure loans rather than to take possession of collateral. This may involve extending the payment arrangements and the agreement of new loan conditions.

The accounting treatment of such restructuring is as follows:

- If the currency of the loan has been changed, the old loan is derecognized and the new loan is recognized in the statement of financial position;
- If the loan restructuring is not caused by the financial difficulties of the borrower, the Group uses the same approach as for financial liabilities described below;
- If the loan restructuring is due to the financial difficulties of the borrower and the loan is impaired after restructuring, the Group recognizes the difference between the present value of the new cash flows discounted using the original effective interest rate and the carrying amount before restructuring in the provision charges for the period. In case the loan is not impaired after restructuring, the Group derecognizes the initial asset and a new asset is recorded with recognition of the difference in the carrying value of the assets in the consolidated statement of income.

(in millions of Russian rubles)

4. Summary of significant accounting policies (continued)

Impairment of financial assets (continued)

Once the terms have been renegotiated, the loan is no longer considered past due. Management continuously reviews renegotiated loans to ensure that all criteria are met and that future payments are likely to occur. The loans continue to be subject to an individual or collective impairment assessment, calculated using the loan's original effective interest rate.

Derecognition of financial assets and liabilities

Financial assets

A financial asset (or, where applicable a part of a financial asset or part of a group of similar financial assets) is derecognized in the statement of financial position where:

- the rights to receive cash flows from the asset have expired;
- the Group has transferred its rights to receive cash flows from the asset, or has assumed an obligation to pay them in full without material delay to a third party under a 'pass-through' arrangement; and
- the Group either (a) has transferred substantially all the risks and rewards of the asset, or (b) has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control over the asset.

Where the Group has transferred its rights to receive cash flows from an asset and has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control over the asset, the asset is recognized to the extent of the Group's continuing involvement in the asset. Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

Where continuing involvement takes the form of a written and/or purchased option (including an option cash-settled on net basis or a similar provision) on the transferred asset, the extent of the Group's continuing involvement is the amount of the transferred asset that the Group may repurchase, except that in the case of a written put option (including an option cash-settled on net basis or a similar provision) on an asset measured at fair value, the extent of the Group's continuing involvement is limited to the lower of the fair value of the transferred asset and the option exercise price.

Financial liabilities

A financial liability is derecognized when the obligation under the liability is discharged, cancelled or expires.

Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognized in the consolidated statement of income.

(in millions of Russian rubles)

4. Summary of significant accounting policies (continued)

Financial guarantees

In the ordinary course of business, the Group gives financial guarantees, consisting of letters of credit, guarantees and acceptances. Financial guarantees are initially recognized in the consolidated financial statements at fair value, in the 'Other liabilities', being the fee received. Subsequent to initial recognition, the Group's liability under each guarantee is measured at the higher of the amortized premium and the best estimate of expenditure required settling any financial obligation arising as a result of the guarantee.

Any increase in the liability relating to financial guarantees is taken to the consolidated statement of income. The fee received is recognized in the consolidated statement of income on a straight-line basis over the life of the guarantee.

Taxation

Current income tax expense is calculated in accordance with the regulations currently in force in the respective countries that the Group operates. Income tax expense of the Group comprises current and deferred income tax. Current income tax is calculated by applying income tax rate effective at the reporting date to the taxable base.

Deferred tax assets and liabilities are calculated in respect of temporary differences using the liability method. Deferred income taxes are provided for all temporary differences arising between the tax bases of assets and liabilities and their carrying values for financial reporting purposes, except where the deferred income tax arises from the initial recognition of goodwill or of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.

Deferred tax assets are recorded only to the extent that it is probable that taxable profit will be available against which the deductible temporary differences can be utilized. Deferred tax assets and liabilities are measured at tax rates that are expected to apply to the period when the asset is realized or the liability is settled, based on tax legislation that have been enacted or substantively enacted at the reporting date.

Deferred income tax is provided on temporary differences arising on investments in subsidiaries, associates and joint ventures, except where the timing of the reversal of the temporary difference can be controlled and it is probable that the temporary difference will not reverse in the foreseeable future.

Income and expenses of Vnesheconombank are not taxable for income tax purposes.

Various operating taxes, which are assessed on the Group's activities are included in 'Taxes other than income tax' in the consolidated statement of income.

Property and equipment

Property and equipment are carried at cost, excluding the costs of day-to-day servicing, less accumulated depreciation and any accumulated impairment. Such cost includes the cost of replacing part of equipment when that cost is incurred if the recognition criteria are met.

The carrying values of property and equipment are reviewed for impairment when events or changes in circumstances indicate that the carrying value may not be recoverable.

(in millions of Russian rubles)

4. Summary of significant accounting policies (continued)

Property and equipment (continued)

Depreciation of an asset begins when it is available for use. Depreciation of assets under construction and those not placed in service commences from the date the assets are placed into service. Depreciation is calculated on a straight-line basis over the following estimated useful lives:

	<u>Years</u>
Buildings	15-60
Equipment	2-10
Motor vehicles	2-30

The land has an indefinite useful life and is not depreciated.

The asset's residual values, useful lives and depreciation methods are reviewed, and adjusted as appropriate, at each financial year-end.

Leasehold improvements are amortized over the lease term of property and equipment. Costs related to repairs and renewals are charged when incurred and included in other operating expenses, unless they qualify for capitalization.

Goodwill

Goodwill acquired in a business combination is initially measured at cost being the excess of the consideration transferred over the Group's net identifiable assets acquired and liabilities assumed. Goodwill on an acquisition of a subsidiary is included in other assets. Goodwill on an acquisition of an associate is included in the investments in associates. Following initial recognition, goodwill is measured at cost less any accumulated impairment losses.

Goodwill is reviewed for impairment, annually or more frequently if events or changes in circumstances indicate that the carrying amount may be impaired.

For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating units, or groups of cash-generating units, that are expected to benefit from the synergies of the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units or groups of units. Each unit or group of units to which the goodwill is so allocated:

- represents the lowest level within the Group at which the goodwill is monitored for internal management purposes;
- is not larger than the operating segment as defined in IFRS 8 *Operating Segments* before aggregation.

Impairment of goodwill is determined by assessing the recoverable amount of the cash-generating unit (group of cash-generating units), to which the goodwill relates. Where the recoverable amount of the cash-generating unit (group of cash-generating units) is less than the carrying amount, an impairment loss is recognized. Impairment losses relating to goodwill cannot be reversed in future periods.

(in millions of Russian rubles)

4. Summary of significant accounting policies (continued)

Intangible assets other than goodwill

Intangible assets other than goodwill include computer software and licenses.

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is fair value as at the date of acquisition. Following initial recognition, intangible assets are carried at cost less any accumulated amortization and any accumulated impairment losses. The useful lives of intangible assets are assessed to be either finite or indefinite. The useful lives of intangible assets are assessed to be either finite or indefinite. Intangible assets with finite lives are amortized on a straight-line basis over the useful economic lives of 1 to 10 years and assessed for impairment whenever there is an indication that the intangible asset may be impaired. Amortization periods and methods for intangible assets with indefinite useful lives are reviewed at least at each financial year-end.

Assets classified as held for sale

The Group classifies a non-current asset (or a disposal group) as held for sale if its carrying amount will be recovered principally through a sale transaction rather than through continuing use. For this to be the case the non-current asset (or disposal group) must be available for immediate sale in its present condition subject only to the terms that are usual and customary for sale of such assets (or disposal groups) and its sale must be highly probable.

The sale qualifies as highly probable if the Group's management is committed to a plan to sell the non-current asset (or disposal group) and an active program to locate a buyer and complete the plan must have been initiated. Further, the non-current asset (or disposal group) must have been actively marketed for a sale at price that is reasonable in relation to its current fair value and in addition the sale should be expected to qualify for recognition as a completed sale within one year from the date of classification of the non-current asset (or disposal group) as held for sale.

The Group measures an asset (or disposal group) classified as held for sale at the lower of its carrying amount and fair value less costs to sell. The Group recognizes an impairment loss for any initial or subsequent write-off of the asset (or disposal group) to fair value less costs to sell if events or changes in circumstance indicate that their carrying amount may be impaired.

Investment property

Investment property is initially measured at cost, including transaction costs. Subsequent to initial recognition, investment property is stated at fair value, which reflects market conditions at the reporting date. Gains or losses arising from changes in the fair value of investment property are included in the consolidated statement of income in the period in which they arise. The fair value is determined annually by an independent appraiser.

Investment property is derecognized in the consolidated statement of financial position when it has been disposed or permanently withdrawn from use and no future economic benefits are expected from its disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognized in the consolidated statement of income in the reporting year when derecognition takes place.

Transfers are made to or from investment property only when there is a change in use. For a transfer from investment property to owner-occupied property, the deemed cost for subsequent accounting is its fair value at the date of change in use. If owner-occupied property becomes an investment property, the Group accounts for such property in accordance with the accounting policy stated for property and equipment up to the date of change in use.

(in millions of Russian rubles)

4. Summary of significant accounting policies (continued)

Investment property (continued)

Investment property under construction

Investment property under construction represents rights on assets which are being constructed under construction investment agreements. Such assets are not registered as 'real estate assets' with the registration chamber and are under construction. Investment property under construction is stated at cost which represents the amount of cash or other consideration paid, as the fair value of investment property under construction cannot be reliably measured. The Group expects that reliable estimate will become possible upon completion of construction.

Provisions

Provisions are recognized when the Group has a present legal or constructive obligation as a result of past events, and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the amount of obligation can be made.

Retirement and other benefit obligations

Current pension contributions of the Group are calculated as a percentage of current gross salary payments to employees; such expense is charged to the statement of income in the period the related salaries are earned and included into payroll and other staff costs.

In addition, the Vnesheconombank operates two separately administered defined contribution pension schemes, where the Bank's obligation for each period is determined by the amounts to be contributed for that period. Contributions made by the Bank are recognized as expense in the respective period.

The Group has no other post-retirement benefits or significant other employee benefits requiring accrual.

Charter capital

Charter capital

Asset contributions of the Russian Federation made for formation of the Bank's charter capital are recorded in the equity. Vnesheconombank's charter capital is not divided into shares (interest).

Dividend income

Vnesheconombank neither accrues nor pays dividends.

Dividends of subsidiaries are recognized as a liability and deducted from equity at the reporting date only if they are declared before or on the reporting date. Dividends are disclosed when they are proposed before the reporting date or proposed or declared after the reporting date but before the financial statements are authorized for issue.

Fiduciary assets

Assets held in a fiduciary capacity are not reported in the consolidated financial statements, as they are not the assets of the Group.

(in millions of Russian rubles)

4. Summary of significant accounting policies (continued)

Segment reporting

The Group's segment reporting is based on five operating segments disclosed in Note 7.

Contingencies

Contingent liabilities are not recognized in the consolidated statement of financial position but are disclosed unless the possibility of any outflow in settlement is probable. A contingent asset is not recognized in the consolidated statement of financial position but disclosed when an inflow of economic benefits is probable.

Income and expense recognition

Income and expense are recognized to the extent that it is probable that the economic benefits will flow to the Group and they can be reliably measured. The following specific recognition criteria must also be met before income and expense are recognized:

Interest and similar income and expense

For all financial instruments measured at amortized cost and interest bearing securities classified as trading or available-for-sale, interest income or expense is recorded at the effective interest rate, which is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument or a shorter period, where appropriate, to the net carrying amount of the financial asset or financial liability. The calculation takes into account all contractual terms of the financial instrument (for example, prepayment options) and includes any fees or incremental costs that are directly attributable to the instrument and are an integral part of the effective interest rate, but not future credit losses. The carrying amount of the financial asset or financial liability is adjusted if the Group revises its estimates of payments or receipts. The adjusted carrying amount is calculated based on the original effective interest rate and the change in carrying amount is recorded as interest income or expense.

Once the recorded value of a financial asset or a group of similar financial assets has been reduced due to an impairment loss, interest income continues to be recognized using the original effective interest rate applied to the new carrying amount.

Interest expense on loans and deposits from the Russian Ministry of Finance is included into interest expense on amounts due to customers recorded in the consolidated statement of income.

Fees and commission income

The Group earns fee and commission income from a diverse range of services it provides to its customers. Fee income can be divided into the following two categories:

- *Fee income earned from services that are provided over a certain period of time*

Fees earned for the provision of services over a period of time are accrued over that period. These fees include commission income and fees for asset management, custody and other management and advisory services. Loan commitment fees for loans that are likely to be drawn down and other credit related fees are deferred (together with any incremental costs) and recognized as an adjustment to the effective interest rate on the loan.

(in millions of Russian rubles)

4. Summary of significant accounting policies (continued)

Income and expense recognition (continued)

- *Fee income from providing transaction services*

Fees arising from negotiating or participating in the negotiation of a transaction for a third party – such as the arrangement of the acquisition of shares or other securities or the purchase or sale of businesses – are recognized on completion of the underlying transaction. Fees or components of fees that are linked to a certain performance are recognized after fulfilling the corresponding criteria.

Dividend income

Revenue is recognized when the Group's right to receive the payment is established.

Foreign currency translation

The consolidated financial statements are presented in Russian Rubles, which is the Bank's functional currency and Group's presentation currency. Each organization in the Group determines its own functional currency and items included in the financial statements of each organization are measured using that functional currency. Transactions in foreign currencies are initially recorded in the functional currency, converted at the rate of exchange ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are retranslated at the functional currency rate of exchange ruling at the reporting date. Gains and losses resulting from the translation of foreign currency transactions are recognized in the consolidated statement of income as 'Gains less losses from foreign currencies - translation differences'. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined.

Differences between the contractual exchange rate of a transaction in a foreign currency and the Bank of Russia exchange rate on the date of the transaction are included in 'Gains less losses from foreign currencies'. The official exchange rates of the Bank of Russia at 31 December 2012 and 31 December 2011 were RUB 30.3727 and RUB 32.1961 to 1 USD, respectively.

As at the reporting date, the assets and liabilities of the Group's organizations whose functional currency is different from the presentation currency of the Group and is not a currency of a hyperinflationary economy are translated into Russian Rubles at the rate of exchange ruling at the balance sheet date and, their statements of income are translated at the weighted average exchange rates for the year.

Due to significantly deteriorating macroeconomic environment in the Republic of Belarus, a considerable devaluation of the Belarusian ruble and accelerated inflation of 2011, the Republic of Belarus was recognized a hyperinflationary economy in November 2011 starting from 1 January 2011. Financial statements of a subsidiary in the Republic of Belarus were translated using general price index of the Republic of Belarus before inclusion into the Group's consolidated financial statements in accordance with IAS 29 *Financial Reporting in Hyperinflationary Economies*. The results and financial position of the subsidiary bank are subject to translation into the presentation currency of the Group at the rate of exchange ruling at the reporting date.

Exchange differences arising from recognition of financial results and position of every consolidated organization are recognized in other comprehensive income and are presented as a separate component of equity.

On disposal of a subsidiary or an associate whose functional currency is different from the presentation currency of the Group, the deferred cumulative amount recognized in other comprehensive income relating to that particular organization is recognized in the consolidated statement of income. Any goodwill arising on the acquisition of a foreign operation and any fair value adjustments to the carrying amounts of assets and liabilities arising on the acquisition are treated as assets and liabilities of the foreign operations and translated at closing rate.

(in millions of Russian rubles)

4. Summary of significant accounting policies (continued)

Future changes in accounting policies

Standards and interpretations issued but not yet effective

IFRS 9 Financial Instruments

IFRS 9, as issued, reflects the first phase of the IASB's work on the replacement of IAS 39 and applies to classification and measurement of financial assets and financial liabilities as defined in IAS 39. The standard was initially effective for annual periods beginning on or after 1 January 2013, but Amendments to IFRS 9 *Mandatory Effective Date of IFRS 9 and Transition Disclosures* issued in December 2011 moved the mandatory effective date to 1 January 2015. In subsequent phases, the IASB will address hedge accounting and impairment of financial assets. The Group will quantify the effect of the adoption of the first phase of IFRS 9 in conjunction with the other phases, when issued, to present a comprehensive picture.

IFRS 10 Consolidated Financial Statements

IFRS 10 establishes a single control model that applies to all entities including special purpose entities. The changes introduced by IFRS 10 will require management to exercise significant judgment to determine which entities are controlled, and therefore, are required to be consolidated by a parent, compared with the requirements that were in IAS 27. In addition, IFRS 10 introduces specific application guidance for agency relationships. The standard also contains accounting requirements and consolidation procedures, which are carried over unchanged from IAS 27. IFRS 10 replaces the consolidation requirements in SIC-12 *Consolidation – Special Purpose Entities* and IAS 27 *Consolidated and Separate Financial Statements* and is effective for annual periods beginning on or after 1 January 2013. Earlier application is permitted. Currently, the Group evaluates possible effect of the adoption of IFRS 10 on its financial position and performance.

IFRS 11 Joint Arrangements

IFRS 11 removes the option to account for jointly controlled entities (JCEs) using proportionate consolidation. Instead, JCEs that meet the definition of a joint venture must be accounted for using the equity method. IFRS 11 supersedes IAS 31 *Interests in Joint Ventures* and SIC-13 *Jointly Controlled Entities – Non-monetary Contributions by Venturers* and is effective for annual periods beginning on or after 1 January 2013. Earlier application is permitted. Currently, the Group evaluates possible effect of the adoption of IFRS 11 on its financial position and performance.

IFRS 12 Disclosure of Interests in Other Entities

IFRS 12 is effective for annual periods beginning on or after 1 January 2013. IFRS 12 includes all of the disclosures that were previously in IAS 27 related to consolidated financial statements, as well as all of the disclosures that were previously included in IAS 31 and IAS 28. These disclosures relate to an entity's interests in subsidiaries, joint arrangements, associates and structured entities. A number of new disclosures are also required for such entities. In particular, the Group will need to disclose more information about the consolidated and unconsolidated structured entities with which it is involved or which it has sponsored. However, the standard will have no impact on the Group's financial position or performance.

IFRS 13 Fair Value Measurement

IFRS 13 establishes a single source of guidance under IFRS for all fair value measurements. IFRS 13 does not change when an entity is required to use fair value, but rather provides guidance on how to measure fair value under IFRS when fair value is required or permitted. IFRS 13 is effective for annual periods beginning on or after 1 January 2013. Earlier application is permitted. The adoption of IFRS 13 may have effect on the measurement of the Group's assets and liabilities accounted for at fair value. Currently, the Group evaluates possible effect of the adoption of IFRS 13 on its financial position and performance.

(in millions of Russian rubles)

4. Summary of significant accounting policies (continued)

Future changes in accounting policies (continued)

IAS 27 Separate Financial Statements (as revised in 2011)

As a consequence of the new IFRS 10 and IFRS 12, what remains of IAS 27 is limited to accounting for subsidiaries, JCEs, and associates in separate financial statements. The amendment becomes effective for annual periods beginning on or after 1 January 2013.

IAS 28 Investments in Associates and Joint Ventures (as revised in 2011)

As a consequence of the new IFRS 11 and IFRS 12, IAS 28 has been renamed IAS 28 *Investments in Associates and Joint Ventures* and describes the application of the equity method to investments in joint ventures in addition to associates. The amendment becomes effective for annual periods beginning on 1 January 2013.

Amendments to IAS 19 Employee Benefits

The amendments to IAS 19 become effective for annual reporting periods beginning on or after 1 January 2013. The amendments introduce major changes to the accounting for employee benefits, including the removal of the option for deferred recognition of changes in pension plan assets and liabilities (known as the 'corridor approach'). In addition, these amendments will limit the changes in the net pension asset (liabilities) recognized in profit or loss to net interest income (expense) and service costs. The amendments will have no impact on the Group's financial position or performance.

Amendment to IAS 1 Presentation of Financial Statements – Presentation of Other Comprehensive Income

The amendment changes the grouping of items presented in other comprehensive income. Items that could be reclassified (or recycled) to profit or loss at a future point in time (for example, net losses or gains on available-for-sale financial assets) would be presented separately from items that will never be reclassified (for example, revaluation of buildings). The amendment affects presentation only and has no impact on the Group's financial position or performance. The amendment becomes effective for annual periods beginning on or after 1 July 2012.

Amendments to IFRS 7 Disclosures – Offsetting Financial Assets and Financial Liabilities

These amendments require an entity to disclose information about rights to set-off and related arrangements (e.g., collateral agreements). The disclosures would provide users with information that is useful in evaluating the effect of netting arrangements on an entity's financial position. The new disclosures are required for all recognized financial instruments that are set off in accordance with IAS 32 *Financial Instruments: Presentation*. The disclosures also apply to recognized financial instruments that are subject to an enforceable master netting arrangement or similar agreements, irrespective of whether they are set off in accordance with IAS 32. These amendments will not impact the Group's financial position or performance and will become effective for annual periods beginning on or after 1 January 2013.

Amendments to IAS 32 Offsetting Financial Assets and Financial Liabilities

These amendments clarify the meaning of "currently has a legally enforceable right to set-off". It will be necessary to assess the impact on the Group by reviewing settlement procedures and legal documentation to ensure that offsetting is still possible in cases where it has been achieved in the past. In certain cases, offsetting may no longer be achieved. In other cases, contracts may have to be renegotiated. The requirement that the right of set-off be available for all counterparties to the netting agreement may prove to be a challenge for contracts where only one party has the right to offset in the event of default.

(in millions of Russian rubles)

4. Summary of significant accounting policies (continued)

Future changes in accounting policies (continued)

The amendments also clarify the application of the IAS 32 offsetting criteria to settlement systems (such as central clearing house systems) which apply gross settlement mechanisms that are not simultaneous. While many settlement systems are expected to meet the new criteria, some may not. As the impact of the adoption depends on the Group's examination of the operational procedures applied by the central clearing houses and settlement systems it deals with to determine if they meet the new criteria, it is not practical to quantify the effects.

The amendments become effective for annual periods beginning on or after 1 January 2014.

Amendments to IFRS 1 Government Loans

These amendments require first-time adopters to apply the requirements of IAS 20 *Accounting for Government Grants and Disclosure of Government Assistance* prospectively to government loans existing at the date of transition to IFRS. The amendments will have no impact on the Group's financial statements.

Amendments to IFRS 10 Consolidated Financial Statements, IFRS 12 Disclosure of Interests in Other Entities and IAS 27 Separate Financial Statements – Investment Entities

The amendments to the standards relate mainly to entities classified as 'investment entities'. The amendments to IFRS 10 define an investment entity, introduce an exemption for such entities according to which they are not required to include investments in subsidiaries in their consolidated financial statements, and require that they should be measured at fair value through profit or loss. The amendments to IFRS 12 also introduce disclosure requirements for investment entities. Currently, the Group evaluates possible effect of the adoption of the amendments on its financial position and performance.

Improvements to IFRS

The amendments are effective for annual periods beginning on or after 1 January 2013. These amendments will have no impact on the Group.

IFRS 1 First-time Adoption of International Financial Reporting Standards:

This improvement clarifies that an entity that stopped applying IFRS in the past and chooses, or is required, to apply IFRS, has the option to re-apply IFRS 1. If IFRS 1 is not re-applied, an entity must retrospectively restate its financial statements as if it had never stopped applying IFRS.

IAS 1 Presentation of Financial Statements:

This improvement clarifies the difference between voluntary additional comparative information and the minimum required comparative information. Generally, the minimum required comparative information is the previous period.

IAS 16 Property, Plant and Equipment

This improvement clarifies that major spare parts and servicing equipment that meet the definition of property, plant and equipment are not inventory.

IAS 32 Financial Instruments: Presentation

This improvement clarifies that income taxes arising from distributions to equity holders are accounted for in accordance with IAS 12 *Income Taxes*.

IAS 34 Interim Financial Reporting

The amendment aligns the disclosure requirements for total segment assets with total segment liabilities in interim financial statements. This clarification also ensures that interim disclosures are aligned with annual disclosures.

(in millions of Russian rubles)

5. Significant accounting judgments and estimates

The preparation of financial statements requires management to make judgments and estimates related to the reported amounts. These judgments and estimates are based on information available as of the date of the financial statements. The actual results may differ from these estimates and it is possible that these differences may have a material effect on the consolidated financial statements.

The most significant use of judgments and estimates is as follows.

Fair value of financial instruments

Where the fair values of financial assets and financial liabilities recorded in the consolidated statement of financial position cannot be derived from active markets, they are determined using a variety of valuation techniques that include the use of mathematical models. The input to these models is taken from observable markets where possible, but where this is not feasible, a degree of judgment is required in establishing fair values.

Fair value of investment property

The Group recognizes land and buildings within investment property at fair value and performs revaluation on a regular basis. For this purpose, the Group engages an independent qualified appraiser. Fair values of investment property are measured by comparing them to the market value of similar properties, as well as by using other methods.

Allowance for impairment of loans and receivables

The Group regularly reviews its loans and receivables to assess impairment. The Group uses its experienced judgment to estimate the amount of any impairment loss in cases where a borrower is in financial difficulties and there are few available sources of historical data relating to similar borrowers. Similarly, the Group estimates changes in future cash flows based on the observable data indicating that there has been an adverse change in the payment status of borrowers in a group, or national or local economic conditions that correlate with defaults on assets in the group. Management uses estimates based on historical loss experience for assets with credit risk characteristics and objective evidence of impairment similar to those in the group of loans and receivables. The Group uses its experienced judgment to adjust observable data for a group of loans or receivables to reflect current circumstances.

Impairment of goodwill

The Group determines whether goodwill is impaired at least on an annual basis. This requires an estimation of the value in use of the cash-generating units to which the goodwill is allocated. Estimating the value in use requires the Group to make an estimate of the expected future cash flows from the cash-generating unit and also to choose a suitable discount rate in order to calculate the present value of those cash flows. At 31 December 2012, the carrying value of goodwill amounted to RUB 1,381 million (at 31 December 2011: RUB 1,843 million). More details are provided in Note 21.

(in millions of Russian rubles)

6. Business combinations

Acquisitions in 2012

Closed-end Mutual Equity Fund "Bazis – Dolgosrochnye Investitsii"

On 19 December 2012, the Group's subsidiary bank CJSC "GLOBEXBANK" acquired control over 100% of units of Closed-end Mutual Equity Fund "Bazis – Dolgosrochnye Investitsii" (hereinafter, Mutual Fund "Bazis – Dolgosrochnye Investitsii"). Mutual Fund "Bazis – Dolgosrochnye Investitsii" was formed on 24 December 2009. The principal activity of the fund acquired involves making long-term investments in securities, interests in the charter capital of Russian limited liability companies and other assets.

The Group acquired the fund to take part in real estate construction and sale projects of Russian companies, the controlling interests in which are recorded on the balance sheet of Mutual Fund "Bazis – Dolgosrochnye Investitsii".

The Group had owned 100% of units of Mutual Fund "Bazis – Dolgosrochnye Investitsii" even before the date it acquired control, but it did not include it in the consolidated financial statements as this ownership did not previously provide control over the fund due to entering into an irrevocable option agreement with a third party on sale of 100% of units. At 31 December 2011, receivables under this option were recognized in the consolidated statement of financial position in other assets as claims on transactions with mutual fund's units in the amount of RUB 2,000 million. On 19 December 2012, the option was terminated and the parties made no cash payments.

The fair value of the identifiable assets and liabilities acquired, as determined by an independent appraiser, and goodwill arising as at the date of acquisition were:

	Fair value recognized on acquisition
Cash and cash equivalents	0
Loans to customers	526
Deferred income tax assets	8
Other assets	1,315
	1,849
Amounts due to customers	7
Other liabilities	125
	132
Total identifiable net assets	1,717
Goodwill arising on acquisition	102
Consideration transferred on acquisition of control	1,819

As a result of impairment testing, goodwill of RUB 102 million was expensed and recorded in other operating expenses in the consolidated statement of income.

The fair value of loans to customers amounts to RUB 526 million. The contracted amount of loans to customers before allowance for impairment as at the date of acquisition was RUB 525 million. As at the date of acquisition, there were no such contractual cash flows from loans to customers that were not expected to be received.

Had the acquisition been made at the beginning of the year, the Group's profit before income tax, interest income and non-interest expense would not have changed significantly.

(in millions of Russian rubles)

6. Business combinations (continued)

Acquisitions in 2012 (continued)

As at the date of acquisition, the Group recognized in its financial statements the current accounts of Mutual Fund "Bazis – Dolgosrochnye Investitsii" and companies, the controlling interests in which are held by the fund, which were opened with the Group, amounting to RUB 181 million. Therefore, as at the date of acquisition, the fund and the companies recognized the amounts due from the Group as cash on bank accounts. The fair value of such assets of Mutual Fund "Bazis – Dolgosrochnye Investitsii" is equal to their carrying value. These transactions are represented by the relations between the Group entities, which were established before and eliminated in the process of accounting for the business combination. Amounts on current accounts with the Group were excluded from the identifiable assets of the fund, and consideration transferred upon acquisition was reduced by the fair value of the above assets.

Acquisitions in 2011

OJSC NATIONAL TRADE BANK

On 18 February 2011, the Group's subsidiary bank CJSC "GLOBEXBANK" acquired 83.7% of shares in OJSC NATIONAL TRADE BANK (OJSC NTB). OJSC NTB was formed on 7 September 1994 as an open joint stock company under the laws of the Russian Federation. OJSC NTB extends credit and accepts deposits from individuals and legal entities, deals in securities, transfers payments in the Russian Federation and abroad, exchanges currencies and provides other banking services to its corporate and retail customers. The head office of OJSC NTB is in Togliatti.

Immediately before the acquisition date, the Group owned 16.3% of shares in OJSC NTB, which were recorded as investment securities available for sale. As a result of acquiring control over OJSC NTB, the Group recognized an income of RUB 215 million from revaluation of the previously existing interest at the fair value as gains less losses from investment financial assets available for sale in the consolidated statement of income.

The fair values of the identifiable net assets acquired and goodwill arising as at the date of acquisition were as follows:

Identifiable net assets	4,237
Less fair value of the previously existing interest	(521)
Goodwill arising on acquisition	462
Consideration transferred on acquisition of control	4,178

At the acquisition date, a loan issued to OJSC NTB and owned promissory notes of OJSC NTB were recognized in the financial statements of the Group. At 18 February 2011, OJSC NTB recognized the specified instruments in the amount of RUB 731 million in due to credit institutions as well as debt securities issued in the amount of RUB 308 million, respectively. The fair value of these liabilities of OJSC NTB approximates their carrying amount. These transactions are represented by the relations between the Group entities, which were established before and eliminated in the process of accounting for the business combination. The loan raised and promissory notes issued were eliminated from the identifiable liabilities of OJSC NTB. The consideration transferred upon acquisition was increased by the fair value of these liabilities.

Cash flows at acquisition in 2011 were as follows:

Cash acquired with the subsidiary (included in cash flows from investing activities)	961
Cash paid at acquisition in 2011 (included in cash flows from investing activities)	(3,139)
Net cash outflow in 2011	(2,178)

(in millions of Russian rubles)

6. Business combinations (continued)

Acquisitions in 2011 (continued)

In September 2011, the General Shareholders' Meeting of CJSC "GLOBEXBANK" decided to reorganize CJSC "GLOBEXBANK" in a form of affiliation of OJSC NTB (with the transfer of all titles and liabilities of OJSC NTB to CJSC "GLOBEXBANK").

In January 2012, the reorganization of CJSC "GLOBEXBANK" in a form of affiliation of OJSC "NTB" was completed. As the successor of OJSC NTB, CJSC "GLOBEXBANK" shall undertake all its liabilities in full and within the terms previously stipulated.

Changes in ownership interest in subsidiaries in 2012

Changes in ownership interest

In the first quarter 2012, PSC Prominvestbank disposed 1,352,316 of its treasury shares. The reallocation of interests between the Bank and other shareholders resulted in a RUB 29 million increase in the value of non-controlling interests, a RUB 2 million increase in the foreign currency translation reserve, a RUB 1 million decrease in unrealized revaluation of investment securities available for sale and a simultaneous RUB 21 million increase in the Group's retained earnings.

In May 2012, the state registration of an additional issue of shares of Bank BelVEB OJSC was completed. As a result, the Bank's share increased to 97.52%. The amount of additionally issued shares acquired by the Bank totaled RUB 1,516 million. The contribution of non-controlling shareholders amounted to RUB 38 million. As a result of the additional issue, the carrying value of the net assets of Bank BelVEB OJSC increased by RUB 1,554 million. The reallocation of interests between the Bank and the remaining shareholders resulted in a RUB 37 million increase in the value of non-controlling interests and a simultaneous RUB 1 million increase in the Group's retained earnings.

Disposal of non-controlling interests

In the fourth quarter 2012, "VEB Engineering" LLC bought back its interests from non-controlling members. The reallocation of interests resulted in a RUB 2 million decrease in the value of non-controlling interests and a simultaneous RUB 46 million decrease in retained earnings.

Changes in ownership interest in subsidiaries in 2011

Acquisition of interests

During the first half-year period of 2011, PSC Prominvestbank purchased 260,169 shares from non-controlling shareholders. The reallocation of interests between Vnesheconombank and the remaining non-controlling shareholders resulted in a RUB 13 million decrease in the value of non-controlling interests and a simultaneous RUB 3 million increase in the Group's retained earnings.

In March 2011, the Bank purchased 2,000,000 additionally issued ordinary registered shares of OJSC "VEB-leasing" for a total consideration of RUB 5,000 million. As a result of increase of the ownership share in the subsidiary's equity, retained earnings of the Group changed insignificantly. In September 2011 (in accordance with the additional issue purchase agreement), the Bank purchased 2,000,000 of the remaining additionally issued ordinary registered shares of OJSC "VEB-leasing" to the amount of RUB 5,000 million. At 31 December 2011, the Group's share in the subsidiary's equity amounted to 98.96%.

In July 2011, the Bank paid for an additional issue of 1,500,000,000 shares of Bank BelVEB OJSC at nominal value (equivalent to RUB 844 million at the date of payment).

(in millions of Russian rubles)

6. Business combinations (continued)

Changes in ownership interest in subsidiaries in 2011 (continued)

In August 2011, the Bank purchased 4.01% (21,247,294) of voting shares of PSC Prominvestbank from non-controlling shareholders and increased its interest to 97.85%. The carrying value of the net assets attributable to the shareholders of PSC Prominvestbank amounted to RUB 14,132 million. The compensation for the purchased interest amounted to RUB 4,251 million. As a result of this acquisition, the cost of non-controlling interests decreased by RUB 569 million, the Group's retained earnings decreased by RUB 3,680 million, the amount of the foreign currency translation reserve decreased by RUB 13 million, and the amount of unrealized revaluation of investment securities available for sale increased by RUB 11 million.

In September 2011, the state registration of an additional issue of shares of Bank BelVEB OJSC was completed. As a result, the Bank's share increased to 97.49%. The amount of additionally issued shares acquired by the Bank totaled RUB 848 million. The contribution of minority shareholders amounted to RUB 19 million. As a result of the additional issue, the carrying value of the net assets of Bank BelVEB OJSC increased by RUB 867 million. The reallocation of interests between the Bank and the remaining non-controlling shareholders resulted in a RUB 20 million increase in the value of non-controlling interests, a RUB 3 million decrease in the foreign currency translation reserve and a simultaneous RUB 3 million increase in the Group's retained earnings.

In November 2011, the charter capital of "VEB Engineering" LLC was reduced from RUB 196 million to RUB 148 million. The Group's share in the subsidiary's equity increased to 67.55%.

In December 2011, the Bank purchased 2,090,724 ordinary shares of CJSC "GLOBEXBANK" previously recorded by the subsidiary bank as treasury shares. As the result of the purchase, the Group's share in the equity of CJSC "GLOBEXBANK" increased to 99.99%. The cost of the acquired stake amounted to RUB 209 million.

Disposal of interests

In the first quarter 2011, 2,370,077 treasury shares of Bank BelVEB OJSC were sold. The reallocation of interests resulted in an increase of the Group's retained earnings by RUB 2 million.

In the fourth quarter 2011, 9,276 treasury shares of CJSC "GLOBEXBANK" were sold. As a result of disposal, the cost of non-controlling interests increased by RUB 1 million.

7. Segment information

For the management purposes the Group has five operating business segments:

Segment 1	Vnesheconombank, "SME Bank", EXIMBANK OF RUSSIA.
Segment 2	Sviaz-Bank, CJSC "GLOBEXBANK".
Segment 3	PSC Prominvestbank (Ukraine).
Segment 4	Bank BelVEB OJSC (Republic of Belarus).
Segment 5	OJSC "VEB-Leasing", LLC "VEB Capital", "VEB Engineering" LLC, FCPF, Closed-end Mutual Hedge Fund "MRIF", Closed-end Mutual Equity Fund "MRIF-II", OJSC "Development Corporation of North Caucasus", RDIF Management Company LLC, EXIAR, Mutual Fund RDIF, OJSC "The Far East and Baikal Region Development Fund" and other subsidiaries.

Segment 1 comprises Vnesheconombank and major banks within the Group. Segment 2 comprises banks that were purchased in 2008 and 2009 to recover their financial stability, in line with anti-crisis measures developed by the Russian Government. Segments 3 and 4 are responsible for the Group's banking operations in Ukraine and the Republic of Belarus, respectively. Segment 5 comprises other subsidiaries and funds in which the Group holds a controlling ownership interest.

(in millions of Russian rubles)

7. Segment information (continued)

The Group's management monitors the operating results of each segment separately to make decisions on allocation of resources and to assess operating performance. Segments results are defined in a different way from that used for the purposes of the consolidated financial statements, as shown in the table below. Income taxes are managed on a group basis and are not allocated to operating segments.

Transfer prices between segments are set on a commercial basis in a manner similar to transactions with third parties.

In 2012 and 2011, the Group received no income from transactions with one external client or counterparty, which amounted to 10% or more percent of the Group's total income, except for income from transactions with entities under control of the Russian Federation. Such income was mainly received from transactions within Segments 1 and 2.

Information on income and profit by the Group's operating segments is presented below:

In 2011, the Group recognized a RUB 8,610 million loss from impairment of available-for-sale financial assets of Segment 1 and a RUB 300 million loss from financial assets of Segment 3 by transferring the negative revaluation previously recorded in comprehensive income to gains less losses from investment financial assets available for sale.

(in millions of Russian rubles)

7. Segment information (continued)

Reconciliation of the total segment assets to total assets of the Group according to IFRS is presented below:

	31 December 2012	31 December 2011
Segment assets		
Segment 1	2,196,982	1,931,864
Segment 2	489,436	413,190
Segment 3	143,838	146,528
Segment 4	57,015	42,158
Segment 5	371,013	299,501
Total before deducting intersegment assets	3,258,284	2,833,241
Intersegment assets	(340,070)	(301,599)
Adjustments	886	305
Total assets	2,919,100	2,531,947

The adjustments of intersegment income and expenses, and Group's assets, are related to the accounting differences due to the following reasons:

- as a result of transactions made with foreign subsidiaries of the Group in currencies other than the reporting currency of the Group;
- due to repurchase of debt securities issued by the Group entities, or other deals with the financial instruments between the Group entities;
- due to reversal of allowances for impairment of intersegment assets, created by the Group entities.

Geographical information

Allocation of the Group's interest income from transactions with external clients in Russia, Ukraine and other countries, and non-current assets based on the location of these clients as at 31 December 2012 and 31 December 2011 and for the years then ended is presented in the table below:

	2012				2011			
	Russia	Ukraine	Other countries	Total	Russia	Ukraine	Other countries	Total
Interest income from external clients	181,866	16,285	6,003	204,154	140,274	15,106	4,407	159,787
Non-current assets	32,731	10,448	2,329	45,508	25,027	10,628	2,761	38,416

Non-current assets include property and equipment and intangible assets.

(in millions of Russian rubles)

8. Operations with the Russian Government, its authorized institutions and the Bank of Russia

Amounts due to the Russian Government, its authorized intuitions and the Bank of Russia consisted of the following:

	<u>2012</u>	<u>2011</u>
Interest-bearing loans and deposits from the Russian Ministry of Finance	641,196	647,319
Interest-bearing deposits from the Bank of Russia	303,075	225,664
Repurchase agreements with the Bank of Russia	24,691	–
Settlements related to redemption of Russian Government loans	12,717	10,092
Current accounts in precious metals	174	167
Current accounts of the Russian Government	13	16
Special purpose funds	–	1,259
External debt payment funds	–	73
Other funds	2	2
Due to the Russian Government, its institutions and the Bank of Russia	<u>981,868</u>	<u>884,592</u>

At 31 December 2012 and 31 December 2011, interest-bearing deposits from the Russian Ministry of Finance mainly include funds of the National Welfare Fund of the Russian Federation ("NWF") denominated in Rubles and deposited with Vnesheconombank pursuant to Federal Law No. 173-FZ in the amount of RUB 330,674 million (31 December 2011: RUB 375,243 million). These deposits were raised at annual rates of 6.25% and 7.25% (31 December 2011: 6.25% and 7.25%) and have maturity dates from December 2014 through December 2020.

In June 2012, as a result of early repayment of a portion of a subordinated loan by a Russian credit institution (Note 12), Vnesheconombank partially repaid its liabilities in accordance with Federal Law No. 173-FZ. Simultaneously, the Russian Ministry of Finance placed with Vnesheconombank a new deposit intended to finance acquisition of a financial asset (Note 15); the deposit matures in June 2016. Terms and conditions of debt obligations vary insignificantly and for reporting purposes the exchange of liabilities is considered as a change in terms and conditions of the existing liability. As at 31 December 2012, the deposit amounted to RUB 48,453 million.

In addition, at 31 December 2012 and 31 December 2011, interest-bearing deposits from the Russian Ministry of Finance included funds of NWF intended to finance credit institutions and legal entities supporting small and medium enterprises. "SME Bank", a subsidiary bank, is responsible for implementing such financial support. At 31 December 2012, the amount of financing was RUB 28,301 million (31 December 2011: RUB 27,956 million). The funds are denominated in Russian rubles, bear interest at 6.25% p.a. (31 December 2011: 6.25%) and mature in December 2017.

At 31 December 2012, interest-bearing deposits from the Russian Ministry of Finance include also RUB-denominated deposits of NWF in the amount of RUB 34,703 million (31 December 2011: RUB 33,833 million) placed with Vnesheconombank pursuant to Federal Law No. 173-FZ at the interest rate 6.25% p.a. maturing in May 2020 for further lending to OJSC "AHML" (Note 14). These deposits were raised at the rate below the market level. Gains on initial recognition of financial instruments in the amount of RUB 6,134 million were recognized in the consolidated statement of income for the period ended 31 December 2011.

In addition to the above the interest-bearing deposits from the Russian Ministry of Finance include USD-denominated funds of NWF intended to finance investment projects. At 31 December 2012, the amount of financing was RUB 191,327 million maturing in December 2014 (31 December 2011: RUB 205,576 million maturing from July 2011 to December 2012).

At 31 December 2012, the Russian Ministry of Finance placed temporarily available funds on RUB-denominated short-term deposits with the Group's subsidiary banks, amounting to RUB 7,247 million and maturing in January 2013 (31 December 2011: RUB 4,120 million maturing from January to March 2012).

(in millions of Russian rubles)

8. Operations with the Russian Government, its authorized institutions and the Bank of Russia (continued)

At 31 December 2012 and at 31 December 2011, the interest-bearing deposits from the Bank of Russia include special RUB-denominated deposits for the purposes of implementing the program of financial support to Sviaz-Bank (31 December 2012: RUB 123,548 million, 31 December 2011: RUB 123,925 million) and CJSC "GLOBEXBANK" (31 December 2012: RUB 85,433 million and 31 December 2011: RUB 85,561 million) to ensure activities on development of business of the above entities. Deposits raised for the outlined purposes were extended by 1 year in 2012 at interest rates below the market level. According to IFRS requirements, the Group derecognized initial liabilities and recognized new liabilities. Gains on initial recognition of financial instruments in the amount of RUB 6,662 million were recognized in the consolidated statement of income for the reporting year ended 31 December 2012 (for the year ended 31 December 2011: RUB 5,767 million).

In addition, at 31 December 2012, interest-bearing deposits of the Bank of Russia include short-term RUB-denominated deposits raised by the Group in the amount of RUB 94,094 million maturing from January to December 2013 (31 December 2011: RUB 16,178 million maturing from March to November 2012).

At 31 December 2012, under the repurchase agreements with the Bank of Russia, the Group sold debt securities with a fair value of RUB 27,659 million, subject to repurchase. Pledged securities are treated as trading financial assets with a fair value of RUB 16,165 million, loans to customers with a fair value of 153 million (Note 14), and investment financial assets available for sale with a fair value of RUB 11,341 million.

At 31 December 2012, repurchase agreements with the Bank of Russia also include funds received from the Bank of Russia and collateralized by securities with a fair value of RUB 2,747 million received under reverse repurchase agreements.

Settlements related to redemption of Russian Government loans represent funds received from borrowers as repayment of loans granted by the Russian Government. These funds and the processing of payments are managed and conducted by the Bank in accordance with the Agency Agreements. At 31 December 2012 and at 31 December 2011, these amounts are classified as due to the Russian Government.

At 31 December 2012 and at 31 December 2011, special purpose funds included proceeds from export sales and other funds subject to settlement between the Russian Ministry of Finance and Vnesheconombank.

Current accounts in precious metals include funds of the Russian Government transferred to the statement of financial position of Vnesheconombank in the process of reorganization.

London Club

As a legal successor of the Vnesheconombank of the USSR, the Bank is a party to certain rescheduling agreements with various foreign credit institutions (the "London Club"). The London Club debt represents liabilities of the former USSR due to foreign banks and financial institutions. These liabilities were reconciled and restructured under a series of agreements and other legal instruments between the Bank and foreign creditors signed on 6 October 1997. These agreements required the original debts and the accrued interest thereon, denominated in various currencies, to be converted into Restructured Loans ("PRINs") denominated in base currencies (Swiss Francs, Japanese Yens, Deutsche Marks, European Currency Units and US Dollars) and Interest Arrears Notes ("IANs") denominated in US dollars.

(in millions of Russian rubles)

8. Operations with the Russian Government, its authorized institutions and the Bank of Russia (continued)

London Club (continued)

The London Club debt was issued as a legal obligation of the Vnesheconombank of the USSR. Based on Russian Government resolution No. 1167 "On the Settlement of the Indebtedness of the Former USSR to Foreign Commercial Banks and Financial Institutions (the London Club)" dated 15 September 1997 and the Declaration of Support dated 28 November 1997, the Russian Government expressed its willingness, without right of legal recourse from creditors or specific commitment, to provide financial resources to enable the Vnesheconombank of the USSR to honor its London Club obligations as they became due. The Declaration of Support remains in force as long as any debt under the London Club restructuring agreements remains outstanding.

On 11 February 2000, an agreement was reached between representatives of the London Club creditors and the Russian Government, under which the outstanding London Club debt of approximately USD 31,700 million (at 31 March 2000) was exchanged for a new issue of Eurobonds issued by the Russian Government and maturing in 2010 and 2030. As the exchange process substitutes obligations of the Bank with obligations of the Russian Government, receivables from the Russian Government under London Club and amounts due to London Club have been excluded from the Bank's consolidated statement of financial position to the extent that the bondholders have presented their PRINs and IANs for exchange.

As at 31 December 2011, the Group's consolidated statement of financial position includes liabilities only to those IAN holders, who have not exchanged these instruments for the Russian Federation Eurobonds maturing in 2010 and 2030 under the agreement between the Russian Government and representatives of the London Club of creditors reached on 11 February 2000, and have not presented their claims for settlement pursuant to Resolution of the Russian Government No. 1047-r dated 30 July 2009

At 31 December 2012, based on a letter of the Russian Ministry of Finance concerning write-off of liabilities under the debt instruments of London Club by Vnesheconombank, claims not presented for settlement by creditors were derecognised from the Group's consolidated statement of financial position.

9. Agency operations

At 31 December 2012 and 31 December 2011, other assets and liabilities maintained by the Bank under the applicable Agency Agreements represent predominantly claims against foreign governmental and corporate debtors, former USSR companies, Russian state companies, and non-club debt to foreign creditors.

Vnesheconombank is not a legal obligor or creditor under the above categories of external debt or government external assets and, therefore, the corresponding amounts were not included in the Group's consolidated statement of financial position.

(in millions of Russian rubles)

10. Cash and cash equivalents

Cash and cash equivalents comprise:

	2012	2011
Cash on hand	13,596	13,293
Current accounts with the Bank of Russia	102,168	19,427
Correspondent nostro accounts with credit institutions and current accounts with other non-banking organizations:		
- Russian Federation	12,186	15,621
- other countries	46,234	36,923
Interest-bearing loans and deposits maturing within 90 days:		
- due from the Bank of Russia	300	120
- due from credit institutions	59,959	90,015
Non-interest deposits with OECD credit institutions up to 90 days	1	94
Non-interest deposits with Russian credit institutions up to 90 days	39	–
Reverse repurchase agreements with credit institutions for up to 90 days	5,514	2,535
Cash and cash equivalents	239,997	178,028

At 31 December 2012, reverse repurchase agreements included loans of RUB 5,514 million (31 December 2011: RUB 2,385 million) issued to credit institutions and secured by corporate bonds with the fair value of RUB 6,315 million (31 December 2011: RUB 2,786 million). At 31 December 2011, reverse repurchase agreements also included loans in the amount of RUB 150 million issued to credit institutions and secured by corporate shares with the fair value of RUB 217 million.

As at 31 December 2012, current accounts with the Bank of Russia included property contributions made by the Russian Ministry of Finance in the amount of RUB 80 000 million (Note 21). The funds can be used strictly in compliance with the allocation purposes.

In February 2012, under the financing agreement with the Russian Bank Capitalization Fund (the RBCF) Vnesheconombank transferred USD 250 million (RUB 7,445 million at the date of transfer) to the International Finance Corporation (IFC). At 31 December 2012, part of the amount RUB 6 486 million was temporarily invested in money market instruments maturing in less than 90 days. The RBCF will invest in the capital of Russian universal second-echelon banks actively operating in the regions and funding small and medium-sized Russian businesses in the real sector (Note 15).

11. Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss comprise:

	2012	2011
Trading financial assets	28,414	41,814
Derivative financial assets (Note 13)	16,517	29,468
Financial assets designated as at fair value through profit or loss	27,188	23,080
Financial assets at fair value through profit or loss	72,119	94,362

(in millions of Russian rubles)

11. Financial assets at fair value through profit or loss (continued)

Trading financial assets held by the Group comprise:

	2012	2011
Debt securities:		
Corporate bonds	13,354	17,006
Federal Loan Bonds (OFZ)	86	3,650
Municipal and sub-federal bonds	–	725
	13,440	21,381
Eurobonds issued by the Russian Federation	1,442	7,115
Eurobonds of Russian and foreign issuers	1,027	1,115
	15,909	29,611
Equity securities	12,134	11,541
Other financial assets	371	662
Trading financial assets	28,414	41,814

At 31 December 2012, financial assets lent and pledged under repurchase agreements, include corporate bonds with the fair value of RUB 16,165 million and shares with the fair value of RUB 503 million. At 31 December 2011, there were no financial assets at fair value through profit or loss lent or pledged under repurchase agreements.

Financial assets designated as at fair value through profit or loss

At 31 December 2012 and at 31 December 2011, financial assets designated as at fair value through profit or loss included primarily shares of Russian and foreign companies, as well as units in the closed-end mutual real estate fund held by a subsidiary bank.

The Bank entered into an option agreement which is economically related to its purchase of a Russian company's shares in the second quarter 2010; changes in the fair value of that agreement are recorded in the consolidated statement of income as gains less losses arising from financial instruments at fair value through profit or loss. To avoid 'accounting mismatch', these securities were classified as designated at fair value through profit or loss, thus excluding inconsistency in recognition of the respective gains and losses. At 31 December 2012, the fair value of these shares and loss from its change during the period respectively (as recorded in the consolidated statement of income) amount to RUB 13,143 million (31 December 2011: RUB 18,314 million) and RUB 5,171 million (for the year ended 31 December 2011: RUB 6,511 million).

Other securities included in this category meet the criteria to be classified as at fair value through profit or loss since the Group management measures the performance of these investments in terms of changes in their fair value based on quoted prices in an open market, valuation models, using both observable and non-observable market data.

(in millions of Russian rubles)

12. Amounts due from credit institutions

Amounts due from credit institutions comprise:

	<u>2012</u>	<u>2011</u>
Obligatory reserve with the central banks	4,088	4,774
Non-interest-bearing deposits	9,684	9,823
Subordinated loans	305,569	349,940
Interbank loans and term interest-bearing deposits with credit institutions	125,652	92,479
Mortgage bonds	2,212	1,079
	<u>447,205</u>	<u>458,095</u>
Less allowance for impairment	(729)	(397)
Amounts due from credit institutions	<u>446,476</u>	<u>457,698</u>

Obligatory reserve with the central banks includes cash non-interest-bearing deposits (obligatory reserve) maintained by the Group's subsidiary banks with the Bank of Russia, the National Bank of the Republic of Belarus and the National Bank of Ukraine. The amount of this reserve depends on the level of funds attracted by the credit institutions. The banks' ability to withdraw such deposits is significantly restricted by the statutory legislation. Pursuant to law, Vnesheconombank creates no obligatory reserve to be maintained with the Bank of Russia.

At 31 December 2012, non-interest-bearing deposits include non-interest-bearing deposits in clearing currencies in the gross amount of RUB 9,409 million (31 December 2011: RUB 9,498 million). The use of these deposits is subject to certain restrictions as stipulated by agreements between governments of the respective countries. The funds can be used for purchase of goods and services by Russian importers who purchase clearing currencies of tenders organized by the Group under the supervision of the Russian Ministry of Finance.

At 31 December 2012 and at 31 December 2011, subordinated loans issued to Russian credit institutions comprised loans in the amount of RUB 305,569 million and RUB 349,940 million, respectively, issued to sixteen Russian credit institutions in accordance with Federal Law No. 173-FZ in Russian rubles, carrying interest of 6.5% and 7.5% p.a. (31 December 2011: 6.5% and 7.5%) and maturing from December 2014 to December 2020.

In June 2012, one of the borrowers (a Russian credit institution) repaid a part of subordinated loans by transferring to Vnesheconombank a financial asset classified as an investment asset available for sale (Note 15). The loss from early partial repayment of the debt amounted to RUB 112 million and was recognized in the consolidated statement of income.

At 31 December 2012, interbank loans and term interest-bearing deposits with credit institutions include funds intended to finance (via the subsidiary bank "SME Bank") credit institutions supporting small and medium enterprises. At 31 December 2012, such loans issued amounted to RUB 75,187 million (31 December 2011: RUB 58,651 million). For the reporting year ended 31 December 2012, loss on initial recognition of the part of these financial instruments in the amount of RUB 119 million was recognized in the statement of income (for the year ended 31 December 2011: RUB 733 million).

At 31 December 2012, mortgage bonds represent debt securities of a Russian bank in the amount of RUB 2,212 million (31 December 2011: RUB 1,079 million) at the rate below the market level and maturing in 2043-2044, which were purchased by Vnesheconombank under 2010-2013 Investment Program to support affordable housing construction and mortgage projects. For the reporting period ended 31 December 2012, loss on initial recognition of financial instruments in the amount of RUB 592 million (31 December 2011: RUB 559 million) was recognized in the consolidated statement of income.

(in millions of Russian rubles)

12. Amounts due from credit institutions (continued)

The movements in the allowance for impairment of amounts due from credit institutions were as follows:

	2012	2011
At 1 January	397	1,719
Charge/(reversal)	334	(57)
Write-offs	(2)	(1,265)
At 31 December	729	397

13. Derivative financial instruments

The Group enters into derivative financial instruments for trading purposes. The table below shows the fair values of derivative financial instruments, recorded as assets or liabilities, together with their notional amounts. The notional amount, recorded gross, is the amount of a derivative's underlying asset, reference rate or index and is the basis upon which changes in the value of derivatives are measured. The notional amounts indicate the volume of transactions outstanding at the year end and are not indicative of the credit risk.

	2012			2011		
	Notional principal	Fair value		Notional principal	Fair value	
		Asset	Liability		Asset	Liability
Foreign exchange contracts						
Forwards and swaps – foreign	71,372	303	1,102	141,999	12,363	4,185
Forwards and swaps – domestic	19,884	741	448	37,939	1,465	530
Securities forward contracts						
Debt securities	1,868	215	–	8,134	62	21
Equity securities and units	1,297	354	–	408	449	–
Interest rate swaps						
Foreign contracts	5,431	–	698	20,221	13	1,953
Domestic contracts	7,973	–	177	–	–	–
Option contracts	30,640	14,137	–	44,315	14,829	–
Cross-currency interest rate swap	18,397	764	68	27,953	287	256
Precious metals contracts	528	3	1	–	–	–
Total derivative assets/liabilities		16,517	2,494		29,468	6,945

In the table above foreign contracts are understood as contracts concluded with non-residents of the Russian Federation, while domestic contracts are contracts concluded with residents of the Russian Federation.

Derivative financial assets are included in financial assets at fair value through profit or loss (Note 11).

At 31 December 2012, the Group has positions in the following types of derivatives:

Forwards

Forwards are contractual agreements to buy or sell a specified financial instrument at a specific price and date in the future. Forwards are customized contracts transacted in the over-the-counter market.

(in millions of Russian rubles)

13. Derivative financial instruments (continued)

Swaps

Swaps are contractual agreements between two parties to exchange movements in interest and foreign currency rates and equity indices, and (in the case of credit default swaps) to make payments with respect to defined credit events based on specified notional amounts.

Options

Options are contractual agreements that convey the right, but not the obligation, for the purchaser either to buy or sell a specific amount of a financial instrument at a fixed price, either at a fixed future date or at any time within a specified period.

At 31 December 2012 and 31 December 2011, the Group's options included asset related to a put option with a fair value of RUB 13,544 million and RUB 6,081 million, respectively, for shares of a Russian company recognized in the Group's securities designated as at fair value through profit or loss to avoid accounting inconsistencies.

At 31 December 2011, the Group's options included an asset related to a put option with a fair value of RUB 8,731 million for shares of a Russian company recognized within the Group's investment financial assets available for sale. In 2012, the option agreement was terminated and the Group derecognized the asset.

Derivative financial instruments held or issued for trading purposes

Most of the Group's derivative trading activities relate to deals with credit institutions. The Group may take positions in derivative financial instruments with the expectation of profiting from favorable movements in prices, rates or indices. Positions in derivative financial instruments may be closed by taking an offsetting position. This item also includes derivatives that do not qualify for hedging in accordance with IAS 39.

14. Loans to customers

Loans to customers comprise:

	2012	2011
Commercial loans, including loans to individuals	746,333	634,076
Project finance	622,953	464,659
Net investments in leases	165,152	123,635
Financing of operations with securities	52,083	41,810
Back-to-back finance	34,811	34,328
Pre-export finance	20,363	12,892
Reverse repurchase agreements	13,909	19,339
Claims under letters of credit	13,616	11,003
Promissory notes	10,115	21,325
Mortgage bonds	1,712	753
Other	9,625	28,412
	1,690,672	1,392,232
Less allowance for impairment	(193,433)	(163,309)
Loans to customers	1,497,239	1,228,923
Loans to customers pledged under repurchase agreements		
Other	151	-
Less allowance for impairment	(3)	-
Total loans to customers pledged under repurchase agreements	148	-
Loans to customers (including those pledged under repurchase agreements)	1,497,387	1,228,923

(in millions of Russian rubles)

14. Loans to customers (continued)

At 31 December 2012 and at 31 December 2011, back-to-back finance represented an unsecured loan issued to OJSC "AHML", using funds deposited by the Russian Ministry of Finance with Vnesheconombank, in accordance with Federal Law No. 173-FZ (Note 8). This loan was placed at the rate below the market level. For the year ended 31 December 2011, the loss on initial recognition of financial instruments in the amount of RUB 5,380 million was recognized in the consolidated statement of income.

At 31 December 2012, mortgage bonds represent debt securities of OJSC "AHML" in the amount of RUB 1,712 million maturing in 2044-2045 (31 December 2011: RUB 753 million maturing in 2044), with an interest rate below the market level, purchased by Vnesheconombank under Vnesheconombank's 2010-2013 Investment Program to support affordable housing construction and mortgage projects. For the reporting year ended 31 December 2012, loss on initial recognition of financial instruments in the amount of RUB 499 million (year ended 31 December 2011: RUB 378 million) was recognized in the statement of income.

14. Loans to customers (continued)

Individually impaired loans

Collateral and other credit enhancements

The amount and type of collateral required depends on an assessment of the credit risk of the counterparty. Guidelines are implemented regarding the acceptability of types of collateral and valuation parameters.

The main types of collateral obtained are as follows:

- for pre-export finance – pledges of claims for revenues under export contracts;
- for financing operations with securities and reverse repurchase transactions – cash or securities;
- for project finance and commercial lending – charges over real estate properties, inventory, and trade receivables, securities and other claims to third parties;
- for retail lending – mortgages over residential properties and other subject matter of lending.

The Group also obtains guarantees from the Russian Government, parent companies for loans to their subsidiaries and other guarantees from third parties as collateral for loans issued.

At 31 December 2012, reverse repurchase agreements were in respect of marketable and non-marketable shares with a fair value of RUB 8,073 million, marketable bonds with a fair value of RUB 6,600 million and promissory notes of Russian credit organizations with a fair value of RUB 1,408 million. At 31 December 2011, reverse repurchase agreements were signed in respect of marketable shares with a fair value of RUB 19,871 million, and marketable corporate bonds with a fair value of RUB 4,758 million.

Concentration of loans to customers

At 31 December 2012, the total outstanding amount of loans to three major borrowers/groups of related borrowers was RUB 264,880 million, equivalent to 15.7% of the Group's gross loan portfolio (31 December 2011: RUB 243,102 million, or 17.5%). At 31 December 2012, an impairment allowance of RUB 41,032 million was made against these loans (31 December 2011: RUB 39,145 million). At 31 December 2012, these loans included loans issued to an associate of the Group involved in the real estate business, which accounted for 8.4% of the gross loan portfolio of the Group (31 December 2011: 10.2 %).

At 31 December 2012 and at 31 December 2011, in addition to the three major borrowers mentioned above, loans were issued to ten other major borrowers/ groups of related borrowers in the amount of RUB 286,002 million and RUB 241,210 million or 16.9% and 17.3% of the gross loan portfolio, respectively. At 31 December 2012 and at 31 December 2011, an allowance was created for these loans in the total amount of RUB 15,404 million and RUB 14,937 million, respectively.

(in millions of Russian rubles)

14. Loans to customers (continued)

Concentration of loans to customers (continued)

Loans have been extended to the following types of customers:

	2012	2011
Private enterprises	1,382,400	1,131,991
State-controlled entities (Russia)	223,577	173,120
Companies under foreign state control	44,741	37,098
Individuals	34,096	19,997
Individual entrepreneurs	3,725	2,565
Regional authorities	2,284	2,794
Foreign states	–	24,667
	1,690,823	1,392,232

Loans are made principally in the following industry sectors:

	2012	%	2011	%
Real estate and construction	352,257	21	308,815	22
Manufacturing, heavy machinery and military-related goods production	333,680	20	255,600	18
Finance companies	283,922	17	259,426	19
Transport	200,937	12	138,405	10

Available-for-sale investment financial assets	493,813	454,285

(in millions of Russian rubles)

15. Investment financial assets (continued)

Investment financial assets available for sale (continued)

Investment financial assets available for sale pledged under repurchase agreements comprise:

	<u>2012</u>	<u>2011</u>
Securities pledged under repurchase agreements		
Corporate bonds	10,932	–
Debt instruments issued by foreign government bodies	410	3,217
Municipal and sub-federal bonds	409	–
Shares	–	836
Eurobonds of Russian and foreign issuers	–	662
Investment financial assets available for sale pledged under repurchase agreements	<u>11,751</u>	<u>4,715</u>

At 31 December 2012, equity securities included Vnesheconombank's investment in the RBCF with fair value of RUB 1,078 million (Note 10).

The Group recognized a continuing impairment loss of RUB 1,969 million on available-for-sale financial assets for the year ended 31 December 2012 (for the year ended 31 December 2011: RUB 8,910 million) in gains less losses from investment financial assets available for sale in the consolidated statement of income (Note 28).

In June 2012, as a result of early repayment of a subordinated loan by a Russian credit institution (Note 12) Vnesheconombank received a financial asset with a fair value of RUB 47,715 million and classified it as available for sale. This financial asset represents rights to the credit institution's shares and the Bank's obligation to sell the shares of this credit institution pursuant to a written American call option exercisable in a period of eight years. Pursuant to the option agreement, Vnesheconombank receives semiannually a fixed premium, which is recognized in interest income from other investment financial assets available for sale in the consolidated statement of income.

Investment financial assets held to maturity

Investment financial assets held to maturity comprise:

	<u>2012</u>	<u>2011</u>
Eurobonds of Russian and foreign issuers	15,170	15,127
Corporate bonds	724	1,396
Municipal and sub-federal bonds	761	1,297
Federal loan bonds (OFZ)	–	25
Promissory notes	–	9
	<u>16,655</u>	<u>17,854</u>
Less allowance for impairment (Note 20)	(73)	(75)
Investment financial assets held to maturity	<u>16,582</u>	<u>17,779</u>

16. Due from the Russian Government

At 31 December 2012, amounts due from the Russian Government included claims to the Russian Ministry of Finance in the amount of RUB 118 million (31 December 2011: RUB 124 million) to unfreeze correspondent accounts.

(in millions of Russian rubles)

17. Investments in associates

The Group's major associates accounted for under the equity method in the financial statements are presented in the table below:

Associates	Ownership		Country of incorporation	Industry
	31 December 2012	31 December 2011		
LLC "Managing Company "Bioprocess Capital Partners"	25.10%	25.10%	Russia	Finance intermediary
OJSC "Corporation of Development of Krasnoyarsk Territory"	25.00%	25.00%	Russia	Finance intermediary
LLC "PROMINVEST"	25.00%	25.00%	Russia	Finance intermediary
OJSC "Ilyushin Finance Co."	21.39%	21.39%	Russia	Leasing
LLC "VEB-Invest"	19.00%	19.00%	Russia	Investment
CJSC "Leader"	27.62%	–	Russia	Management company
	Share of assets:			
CMIF "Bioprocess Capital Ventures"	50.00%	50.00%	Russia	Investment

In March 2012, the Bank purchased 27.62% shares of CJSC "Leader" in the amount of RUB 2,071 million. Principal activities of the company include management of investment funds, mutual investment funds and non-government pension funds.

Movement in investments in associates was as follows:

	2012	2011
Balance, beginning of the reporting period	5,894	5,638
Cost of acquisition	2,548	19
Share in net profit	607	285
Dividends received	(86)	(31)
Translation differences	(115)	3
Fair value of previously acquired interest	672	–
Other	(10)	(20)
Investments in associates, end of the reporting period	9,510	5,894

At 31 December 2012, the Group's unrecognized share in loss of its associates amounted to RUB 670 million (31 December 2011: RUB 1,853 million). At 31 December 2012, the Group's unrecognized share in loss of the associates amounted to RUB 5,524 million (31 December 2011: RUB 4,854 million).

The following table illustrates summarized aggregated financial information of the associates:

Aggregated assets and liabilities of associates	2012	2011
Assets	207,187	185,337
Liabilities	202,873	183,085
Net assets	4,314	2,252

19. Taxation

Income tax comprises:

	<u>2012</u>	<u>2011</u>
Current tax charge	2,673	1,093
Deferred tax benefit – origination and reversal of temporary differences in the statement of income	(135)	(1)
Hyperinflation effect	–	(58)
Income tax expense	<u>2,538</u>	<u>1,034</u>

Deferred tax recorded in other comprehensive income relates to unrealized gains / (losses) from transactions with investment securities available for sale.

Russian legal entities must file individual tax declarations. The tax rate for profits other than on state securities was 20% for 2012 and 2011. The tax rate for interest income on state securities was 15% for federal taxes.

The aggregate income tax rate effective in the Republic of Belarus was 18% for 2012 and 24% for 2011. The aggregate income tax rate effective in Ukraine was 21% for 2012 and 23% for 2011.

In accordance with federal legislation, effective from reorganization date income and expenses received and paid by Vnesheconombank are not accounted when determining taxable base for income tax purposes. Therefore, income and expenses of the Bank for 2012 and 2011 are not included into taxable base for income tax purposes, which had significant impact on the Group's effective income tax rate for 2012 and 2011.

At 31 December, the Group's income tax assets and liabilities comprise:

	<u>2012</u>	<u>2011</u>
Current income tax asset	1,006	595
Deferred income tax asset	2,560	2,737
Income tax assets	<u>3,566</u>	<u>3,332</u>
Current income tax liability	263	167
Deferred income tax liability	1,439	1,718
Income tax liabilities	<u>1,702</u>	<u>1,885</u>

(in millions of Russian rubles)

19. Taxation (continued)

The effective income tax rate differs from the statutory income tax rates. A reconciliation of the income tax expense based on the statutory rate with the actual income tax expense is as follows:

	<u>2012</u>	<u>2011</u>
Income before tax	20,026	8,514
Statutory tax rate	20%	20%
Theoretical income tax expense at the statutory tax rate	4,005	1,703
<i>Tax effect from the following income and expenses:</i>		
Non-taxable income on state securities or taxed at different rates	(217)	(264)
Income taxed at different rate	(111)	(237)
Non-taxable income and non-deductible expenses	648	1,565
Currency translation differences	(5)	1,230
Vnesheconombank's income and expenses not included in tax base for income tax purposes	(2,703)	(2,614)
Change in income tax resulting from change in tax rate and other changes in the legislation	460	1,143
Change in unrecognized deferred tax assets	632	(1,097)
Other	(171)	(395)
Income tax expense	<u>2,538</u>	<u>1,034</u>

*(in millions of Russian rubles)***19. Taxation (continued)**

Deferred tax assets and liabilities as at 31 December and their movements for the respective years comprise:

	2010	Origination and reversal of temporary differences			Currency translation effect	2011	Origination and reversal of temporary differences			Currency translation effect	2012

Other assets	68,556	51,114

(in millions of Russian rubles)

21. Other assets and liabilities (continued)

Investment property

Investment property of the Group comprises real estate properties and land plots held by the Group for capital appreciation, as well as rented office space. Information on investment property is presented below:

	<u>2012</u>	<u>2011</u>
Balance, beginning of the year	4,464	676
Transfer from property and equipment	383	1,056
Acquisition through business combination (Note 6)	901	1,487
Additions	1,135	1,336
Effect of revaluation	9	36
Disposals	(330)	(213)
Other	64	86
Balance, end of the year	<u>6,626</u>	<u>4,464</u>

Amounts recorded in consolidated statement of profit or loss:

- rental income	76	40
- gain/(loss) from the sale of investment property	116	(42)

There are no restrictions regarding sale of investment property or receipt of profit and proceeds from its disposal.

Intangible assets

Included in other assets are intangible assets in the gross amount of RUB 5,339 million (31 December 2011: RUB 5,299 million), less accumulated amortization of RUB 1,644 million (31 December 2011: RUB 1,169 million). In 2012, the Group disposed of intangible assets in the gross amount of RUB 310 million (2011: RUB 166 million), less accumulated amortization of RUB 181 million (2011: RUB 160 million). The respective amortization charges for the year ended 31 December 2012 are RUB 656 million (for the year ended 31 December 2011: RUB 539 million), which is included in other operating expenses.

At 31 December 2012, intangible assets included goodwill in the amount of RUB 1,381 million related to acquisition of Bank BelVEB OJSC and OJSC "VEB-Leasing". At 31 December 2011, intangible assets included goodwill in the amount of RUB 1,843 million related to acquisition of Bank BelVEB OJSC, OJSC "VEB-Leasing" and OJSC "NTB".

Other liabilities comprise:

	<u>2012</u>	<u>2011</u>
Received and unused subsidies	77,000	–
Future period income	9,322	10,798
Finance lease liabilities	4,067	128
Deferred income related to government assistance	3,000	–
Settlements with clients on export revenues	2,198	1,444
Settlements with employees	2,068	1,743
Advances received from lessees	1,866	1,380
Other settlements with credit institutions	1,111	789
Obligations to issue loans at a below-market interest rate	515	680
Settlements on operations with securities	401	5
Spot transactions	39	4
Other	3,861	2,058
Other liabilities	<u>105,448</u>	<u>19,029</u>

(in millions of Russian rubles)

21. Other assets and liabilities (continued)

At 31 December 2012, received and unused subsidies included grants provided by the Russian Ministry of Finance pursuant to Federal Law No. 247-FZ dated 3 December 2012, "On Amending the Federal Law "On the Federal Budget for 2012 and the 2013 and 2014 Planned Period":

- in the form of an asset contribution in the amount of RUB 62,000 million for the purpose of formation of Mutual Fund RDIF;
- in the form of an asset contribution in the amount of RUB 15,000 million for implementing top-priority industrial, transport and energy infrastructure development projects in the Far East and the Baikal region.

Deferred income related to government assistance represents an asset contribution in the amount of RUB 3,000 million provided by the Russian Ministry of Finance as compensation for below-market interest rates on loans for manufacturers of high-tech products. At 31 December 2012 no such loans for manufacturers of high-tech products were granted.

In the reporting year ended 31 December 2012, no new agreements on below-market loans were concluded. For the reporting year ended 31 December 2011, loss on initial recognition of obligations to issue loans at below-market interest rate in the amount of RUB 680 million was recognized in the consolidated statement of income.

22. Amounts due to credit institutions

Amounts due to credit institutions comprise:

	2012	2011
Correspondent loro accounts of Russian credit institutions	48,010	15,614
Correspondent loro accounts of other credit institutions	12,641	11,746
Loans and other placements from OECD-based credit institutions	266,446	258,417
Loans and other placements from Russian credit institutions	191,178	125,441
Loans and other placements from other credit institutions	51,224	51,318
Repurchase agreements	376	7,397
Cash collateral on securities lent	67	–
Deposits from Russian credit institutions – fiduciaries	–	2,081
Amounts due to credit institutions	569,942	472,014
Held as security against letters of credit	128	–

At 31 December 2012, loans and other placements from OECD-based credit institutions include loans primarily denominated in RUB, USD, EUR and GBP with interest rates ranging from three-month MOSPRIME plus 1.1% to 10.0% for RUB loans (31 December 2011: from 5.5% to 9.8%), from three-month LIBOR plus 0.2% to 8.7% for USD loans (31 December 2011: from three-month LIBOR plus 0.2% to 7.6%), from 0.6% to 6.5% for EUR loans (31 December 2011: from 1.97% to 6.5%) and from six-month LIBOR plus 1.5% to 7.9% for GBP loans (31 December 2011: from 5.7% to 7.9%). At 31 December 2012, loans and other placements from OECD-based credit institutions also include loans denominated in CHF with an interest rate of 6.0% (31 December 2011: 5.1%).

At 31 December 2012, loans and other placements from Russian credit institutions include loans denominated in RUB, USD and EUR with interest rates ranging from 4% to 10.7% for RUB loans (31 December 2011: from 3.75% to 9.7%), from 0.2% to 8.9% for USD loans (31 December 2011: from 0.2% to 7%), from 0.1% to 9% for EUR loans (31 December 2011: from 0.7% to 1%). At 31 December 2012 and 31 December 2011, this item also includes deposits held as security against letters of credit and minimum balances on correspondent loro accounts.

(in millions of Russian rubles)

22. Amounts due to credit institutions (continued)

At 31 December 2012, loans and other placements from non-OECD-based credit institutions include loans denominated in RUB, USD, EUR with interest rates ranging from 6% to 9.2% for RUB loans (31 December 2011: from 4% to 9.2%), from 0.2% to 6.5% for USD loans (31 December 2011: from 0.2% to 11%), from 1.9% to 7.2% for EUR loans (31 December 2011: from 0.7% to 6.1%). At 31 December 2012, loans and other placements from non-OECD-based credit institutions also include loans denominated in UAH with interest rates ranging from 7.5% to 16% (31 December 2011: no placements denominated in this currency). At 31 December 2011, this item includes loans denominated in GBP with an interest rate of 0.6% and minimum balances on correspondent loro accounts of non-OECD-based credit institutions.

At 31 December 2012, repurchase agreements with credit institutions include loans of RUB 376 million (31 December 2011: RUB 3,203 million) received from foreign credit institutions and collateralized by debt securities available for sale with the fair value of RUB 410 million (31 December 2011: RUB 3,217 million) (Note 15). At 31 December 2011, repurchase agreements with credit institutions also include loans of RUB 4,194 million received from foreign credit institutions and collateralized by securities acquired under reverse repurchase agreements with the fair value of RUB 4,035 million.

At 31 December 2012, amounts due to credit institutions include cash collateral on securities lent in the amount of RUB 67 million received from a Russian credit institution. The funds lent are represented by equity securities as at fair value through profit or loss with the fair value of RUB 68 million (Note 11).

In 2012, the Bank raised long-term financing on market terms from OECD-based credit institutions totaling RUB 52,259 million (2011: RUB 132,592 million) and repaid long-term financing of RUB 27,178 million (2011: RUB 36,904 million) in accordance with contractual terms. Besides, in 2012 the Bank raised long-term financing on market terms from other credit institutions totaling RUB 18,078 million (2011: RUB 7,010 million) and repaid long-term financing of RUB 392 million (2011: RUB 3,293 million) in accordance with contractual terms.

In addition, in 2012 a leasing company of the Group raised long-term financing from Russian and foreign credit institutions totaling RUB 20,771 million (2011: RUB 76,909 million) and repaid long-term financing of RUB 12,669 million (2011: RUB 36,508 million) in accordance with contractual terms.

23. Amounts due to customers

Amounts due to customers comprise:

	2012	2011
Current accounts	121,227	122,294
Term deposits	213,117	228,771
Repurchase agreements	623	1,316
Cash collateral on securities lent	438	–
Other amounts due to customers	422	43
	335,827	352,424
Amounts due to customers		
Held as security against guarantees	117	504
Held as security against letters of credit	8,352	3,337

At 31 December 2012 and at 31 December 2011, amounts due to the Bank's four largest customers amounted to RUB 76,942 million and RUB 92,625 million, respectively, representing 22.9% and 26.3% of the aggregate amounts due to customers.

(in millions of Russian rubles)

23. Amounts due to customers (continued)

Amounts due to the ten largest customers include accounts with the customers operating in the following industry sectors:

	2012	2011
Telecommunications	37,383	36,369
Manufacturing, heavy machinery and military-related goods production	30,885	14,673
Finance	21,769	18,932
Mining	9,226	3,513
Infrastructure development	5,070	32,002
Energy	–	8,293
Transport	–	4,294
	<u>104,333</u>	<u>118,076</u>

Included in term deposits are deposits of individuals in the amount of RUB 81,744 million (31 December 2011: RUB 79,534 million). In accordance with the Russian Civil Code, the Bank and its Russian subsidiaries are obliged to repay term deposits of individuals upon demand of a depositor. In accordance with the Banking Code of the Republic of Belarus, the Belarusian subsidiary is obliged to repay term deposits of individuals in five days upon demand of a depositor. In accordance with the banking legislation of Ukraine, the Ukrainian subsidiary is obliged to repay term deposits of individuals in five days upon demand of a depositor. In case a term deposit is repaid upon demand of the depositor prior to maturity, interest on it is paid based on the interest rate for demand deposits, unless a different interest rate is specified in the agreement.

Amounts due to customers include accounts of the following types of customers:

	2012	2011
State and state-controlled entities	103,155	125,750

Employees and other individuals	96,631	97,434
Companies under foreign state control	4,404	9,055
Amounts due to customers	<u>335,827</u>	<u>352,424</u>

At 31 December 2012, repurchase agreements with customers include loans of RUB 623 million received from Russian companies and collateralized by debt securities acquired under a reverse repurchase agreement with the fair value of RUB 1,131 million. At 31 December 2011, repurchase agreements with customers include loans of RUB 1,316 million received from a foreign company and collateralized by available-for-sale debt and equity securities with the fair value of RUB 1,498 million (Note 15).

At 31 December 2012, amounts due to customers also include cash collateral on securities lent in the amount of RUB 438 million received from a Russian company. The funds lent are represented by equity securities as at fair value through profit or loss with the fair value of RUB 435 million (Note 11).

(in millions of Russian rubles)

24. Debt securities issued

Debt securities issued comprise the following:

	<u>2012</u>	<u>2011</u>
Eurobonds issued	182,902	134,715
Domestic bonds issued	181,639	107,430
Promissory notes	18,781	18,394
European commercial paper	5,394	–
Deposit and saving certificates	223	491
Debt securities issued	<u>388,939</u>	<u>261,030</u>
Promissory notes held as security against guarantees	834	1,289

In the year 2012 ended 31 December 2012, the Group issued the following debt securities:

- interest-bearing bonds with a nominal value of BYR 14,070 million (the equivalent of RUB 55 million as at the date of placement), placed by a subsidiary bank in January 2012 and maturing in December 2016;
- loan participation notes (Eurobonds) with a nominal value of USD 750 million (the equivalent of RUB 22,419 million as at the date of placement), placed by the Bank in February 2012 through a special purpose vehicle company and maturing in 2017;
- foreign-currency bonds with a nominal value of USD 500 million (the equivalent of RUB 14,890 million as at the date of placement), placed by the Bank in February 2012 and maturing in 2015;
- ruble bonds with a nominal value of RUB 10,000 million, placed by a leasing company of the Group in February 2012 and maturing in January 2017;
- ruble bonds with a nominal value of RUB 15,000 million placed by the Bank in March 2012 and maturing in 2032;
- ruble bonds with a nominal value of RUB 5,000 million, placed by a subsidiary bank in March 2012 and maturing in March 2022;
- two issues of ruble bonds with a nominal value of RUB 5,000 million each, placed by a subsidiary bank in April 2012 and maturing in April 2022 (bonds with a nominal value of RUB 5,939 million were purchased by a member of the Group);
- two issues of European commercial paper with a nominal value of USD 50 million and USD 40 million, placed by a subsidiary bank in May 2012 and maturing in May 2013. The placement price was 95.69% and 95.67% of the nominal value (the equivalent of RUB 1,502 million and RUB 1,201 million as at the respective dates of placement, given the discount);
- interest-bearing bonds with a nominal value of BYR 100,000 million (the equivalent of RUB 394 million as at the date of placement), placed by a subsidiary bank in June 2012 and maturing in August 2017;
- loan participation notes (Eurobonds) with a nominal value of USD 1,000 million (the equivalent of RUB 32,207 million as at the date of placement), placed by the Bank in July 2012 through a special purpose vehicle company and maturing in 2022;
- bonds of four issues with a nominal value of USD 100 million each, placed by a leasing company of the Group in July 2012 and maturing in June 2017 (the equivalent of RUB 12,989 million as at the date of placement; the bonds were fully purchased by a member of the Group upon initial public offering);

(in millions of Russian rubles)

24. Debt securities issued (continued)

- ruble bonds with a nominal value of RUB 5,000 million, placed by a subsidiary bank in August 2012 and maturing in August 2022;
- BYR-denominated interest-bearing bonds with a nominal value of BYR 100,000 million (the equivalent of RUB 369 million as at the date of placement), placed by a subsidiary bank in September 2012 and maturing in September 2017;
- two issues of European commercial paper with a nominal value of USD 50 million each, placed by a subsidiary bank in September 2012 and maturing from June till September 2013. The placement price was 96.61% and 95.67% of the nominal value (the equivalent of RUB 1,521 million and RUB 1,511 million as at the respective dates of placement, given the discount; European commercial paper with a nominal value of USD 8.5 million were purchased by a member of the Group);
- two issues of ruble bonds with a nominal value of RUB 10,000 million each placed by the Bank in October 2012 and maturing in 2032;
- bonds of two issues with a nominal value of USD 100 million each, placed by a leasing company of the Group in October 2012 and maturing in October 2017 (the equivalent of RUB 6,180 million as at the date of placement; the bonds were fully purchased by a member of the Group upon initial public offering);
- ruble bonds with a nominal value of RUB 5,000 million, placed by a subsidiary bank in November 2012 and maturing in November 2015 (bonds with a nominal value of RUB 3,650 million were purchased by a member of the Group);
- bonds with a nominal value of RUB 5,000 million, placed by a subsidiary bank in December 2012 and maturing in December 2015 (bonds with a nominal value of RUB 1,237 million were purchased by a member of the Group).

Also during the reporting period, Group members repurchased own bonds under offers for a total of RUB 11,053 million.

At 31 December 2012, debt securities issued include Eurobonds placed at the market rate denominated in USD maturing from May 2016 to November 2025 (31 December 2011: from May 2016 to November 2025) and in CHF maturing in February 2016 (31 December 2011: in February 2016).

As at 31 December 2012, included in debt securities issued are bonds placed at the market rate denominated in RUB maturing from February 2013 to September 2032 (31 December 2011: from February 2013 to September 2021), denominated in USD maturing from February 2015 to October 2017 (31 December 2011: nil), denominated in UAH maturing from March 2013 to March 2014 (31 December 2011: from March 2013 to March 2014), as well as bonds denominated in BYR maturing from September 2016 to September 2017 (31 December 2011: from September to December 2016).

At 31 December 2012, the Group's debt securities issued include interest-bearing promissory notes denominated in RUB, USD and EUR maturing before December 2049 (31 December 2011: maturing in 2049). At 31 December 2012, interest rates are from 0.1% to 9.5% for RUB-denominated promissory notes (31 December 2011: from 0.1% to 9.5%), from 0.2% to 8.5% for USD-denominated promissory notes (31 December 2011: from 0.2% to 4.9%) and from 0.4% to 1.6% for EUR-denominated promissory notes (31 December 2011: from 0.5% to 5%).

At 31 December 2012, debt securities issued include RUB-denominated saving certificates issued by a subsidiary bank at interest rates from 0.1% to 9% maturing from January 2013 to March 2022, as well as RUB-denominated deposit certificates placed by a subsidiary bank at an interest rate of 9.8% maturing in May 2013 (31 December 2011: interest rates for deposit and saving certificates are from 3% to 7.5% and from 0.1% to 9%, respectively, with deposit certificates maturing in May 2012 and saving certificates maturing in March 2022).

(in millions of Russian rubles)

25. Equity

Charter capital

In accordance with Federal Law, the Bank's charter capital is formed from asset contributions of the Russian Federation made upon decision of the Russian Government.

In accordance with Resolution of the Russian Government No. 1687-r dated 27 November 2007, pursuant to Federal Law No. 246-FZ dated 2 November 2007, "On Introducing Amendments to Federal Law "On the Federal Budget for 2007", the Russian Federation contributed RUB 180,000 million to the charter capital of Vnesheconombank in November 2007.

In accordance with Resolution of the Russian Government No. 1766-r dated 7 December 2007, the Russian government contributed 100% of state-owned shares of "SME Bank" and 5.2% of state-owned shares of EXIMBANK OF RUSSIA to the charter capital of Vnesheconombank. The transfer of shares was completed in 2008.

In accordance with Resolution of the Russian Government No. 1665-r dated 19 November 2008, pursuant to Federal Law No. 198-FZ dated 24 July 2007, "On the Federal Budget for 2008 and for the 2009 and 2010 Planned Period", the Russian Federation contributed RUB 75,000 million to the charter capital of Vnesheconombank in November 2008.

In accordance with Resolution of the Russian Government No. 854-r dated 23 June 2009, pursuant to Federal Law No. 204-FZ dated 31 October 2008, "On the Federal Budget for 2009 and for the 2010 and 2011 Planned Period", the Russian Federation contributed RUB 100,000 million to the charter capital of Vnesheconombank in June 2009.

In accordance with Resolution of the Russian Government No. 1891-r dated 10 December 2009, in December 2009 the Russian Federation contributed RUB 21,000 million to the charter capital of Vnesheconombank for further acquisition by the Bank of shares additionally issued by JSC "United Aircraft Corporation".

At the end of 2010, in accordance with Resolution of the Russian Government No. 603-r dated 21 April 2010, the Russian Federation contributed 100% of state-owned shares of Federal Center for Project Finance to the charter capital of Vnesheconombank.

In 2011, Bank BelVEB OJSC, the Group's subsidiary, paid dividends on ordinary shares in the amount of RUB 286 million for the reporting year ended 31 December 2010.

Additional paid-in capital

In December 2011, pursuant to Federal Law No. 357-FZ "On the Federal Budget for 2011 and for the 2012 and 2013 Planned Period" dated 13 December 2010, the Bank received a grant from the Russian Ministry of Finance as an asset contribution in the amount of RUB 62,600 million for the purposes of creating a Russian equity fund, which was recognized in additional paid-in capital. Vnesheconombank used all the funds to acquire units in Mutual Fund RDIF.

(in millions of Russian rubles)

25. Equity (continued)

Nature and purpose of other reserves

Unrealized gains/(losses) on investment financial assets available for sale

This reserve records fair value changes of available-for-sale investments.

The movements in unrealized gains/(losses) on investment financial assets available for sale were as follows:

	<u>2012</u>	<u>2011</u>
Unrealized gains/(losses) on investment financial assets available for sale	(12,695)	(21,236)
Realized gains on investment financial assets available for sale, reclassified to the statement of income (Note 28)	(4,020)	(15,607)
Impairment loss on investment securities available for sale, reclassified to the statement of income	–	8,910
Change in unrealized gains/(losses) on operations with investment financial assets available for sale	<u>(16,715)</u>	<u>(27,933)</u>

Foreign currency translation reserve

The foreign currency translation reserve is used to record exchange differences arising from the translation of the financial statements of foreign subsidiaries.

26. Commitments and contingencies

Operating environment

Russia continues economic reforms and development of its legal, tax and regulatory frameworks as required by a market economy. The future stability of the Russian economy is largely dependent upon these reforms and developments and the effectiveness of economic, financial and monetary measures undertaken by the government.

As emerging markets, the Republic of Belarus and Ukraine do not possess a well-developed business and regulatory infrastructure that would generally exist in more mature market economies. Ukrainian economy continues to display certain characteristics consistent with those of an economy in transition. These characteristics include, but are not limited to, low levels of liquidity in capital markets, relatively high inflation and the existence of currency controls which cause the national currency to be illiquid outside of the country. In November 2011, the Republic of Belarus was recognized as a hyperinflationary economy starting from 1 January 2011. The future stability of the Belarusian and Ukrainian economies depends to a large extent on the efficiency and further development of the economic, financial and monetary measures taken by the Belarusian and Ukrainian governments.

The Russian, Belarusian and Ukrainian economies are vulnerable to market downturns and economic slowdowns elsewhere in the world. In 2012, the Russian, Belarusian and Ukrainian governments continued to take measures to support the economy to overcome the consequences of the global financial crisis. The global financial crisis has resulted in uncertainty regarding further economic growth, availability of financing and cost of capital, which could adversely affect the Group's financial position, results of operations and business prospects.

Management believes it is taking appropriate measures to support the sustainability of the Group's business in the current circumstances.

(in millions of Russian rubles)

26. Commitments and contingencies (continued)

Legal issues

In the ordinary course of business, the Group is subject to legal actions and complaints. Management believes that the ultimate liability, if any, arising from such actions or complaints will not have a material adverse effect on the financial condition or the results of future operations of the Group. Movement in provisions for legal claims is disclosed in Note 20.

Taxation

A major part of the Group's business activity is carried out in the Russian Federation. Some provisions of the Russian tax, currency and customs legislation as currently in effect are vaguely drafted and are often subject to varying interpretations (which, in particular, may apply to legal relations retrospectively), selective and inconsistent application and changes which can occur frequently and, in some cases, at short notice. Therefore, management's interpretation of such legislation as applied to the transactions and activity of the Group may be challenged by the relevant regional and federal authorities at any time in the future. Recent events within the Russian Federation suggest that the tax authorities may be taking a more assertive position in their interpretation and application of various provisions of this legislation, performing tax reviews and imposing additional tax requirements. It is therefore possible that the tax authorities may challenge transactions and operations of the Group that have not been challenged in the past. As a result, significant additional taxes, penalties and interest may be assessed by the relevant authorities.

Tax field audits of the accuracy of tax calculation and payments conducted by tax authorities may cover three calendar years preceding the year during which the tax audit decision was made. Under certain circumstances reviews may cover longer periods.

As at 31 December 2012, the Group's management believes that its interpretation of the relevant legislation is appropriate and that the Group's tax, currency and customs positions will be sustained.

Commitments and contingencies

At 31 December, the Group's commitments and contingencies comprised:

	<u>2012</u>	<u>2011</u>
Credit related commitments		
Undrawn loan commitments	648,431	568,066
Guarantees	146,402	103,049
Letters of credit	71,919	80,790
	<u>866,752</u>	<u>751,905</u>
Operating lease commitments		
Not later than 1 year	1,225	1,322
Later than 1 year but not later than 5 years	2,787	2,256
Later than 5 years	2,090	963
	<u>6,102</u>	<u>4,541</u>
Capital expenditure commitments	12,591	19,559
	<u>885,445</u>	<u>776,005</u>
Less provisions (Note 20)	(800)	(147)
Commitments and contingencies (before deducting collateral)	<u>884,645</u>	<u>775,858</u>
Less deposits and securities issued, held as security against guarantees and letters of credit	(9,431)	(5,130)
Commitments and contingencies	<u>875,214</u>	<u>770,728</u>

(in millions of Russian rubles)

26. Commitments and contingencies (continued)

Commitments and contingencies (continued)

At 31 December 2012, the Group advised export letters of credit for a total amount of RUB 83,474 million (31 December 2011: RUB 73,890 million) and received reimbursement authorization from the issuing credit institutions for a total of RUB 1,884 million (31 December 2011: RUB 2,364 million). The Group bears no credit risks under export letters of credit and reimbursement authorization.

At 31 December 2012, credit related commitments include liabilities in favor of one counterparty, a state company, in the amount of RUB 40,344 million, which accounts for 5% (31 December 2011: RUB 33,924 million, 5%) of all credit related commitments.

Insurance

At 31 December 2012, the Group's premises are insured for RUB 15,576 million (31 December 2011: RUB 9,847 million). The Group has not currently obtained insurance coverage related to liabilities arising from errors or omissions. Liability insurance is generally not available in Russia, the Republic of Belarus and Ukraine at present.

27. Net fee and commission income

Net fee and commission income comprises:

	<u>2012</u>	<u>2011</u>
Cash and settlement operations	3,513	3,582
Guarantees and letters of credit	2,334	3,295

Deposits' insurance	398	383
Amortization of intangibles	656	539
Loss on write-off of goodwill	564	–
Loss on disposal of financial assets (loans and accounts receivable)	97	389
Other	3,817	2,246
Other operating expenses	19,278	11,555

30. Risk management

Introduction

The Group's operations expose it to financial risks, which it divides into credit risk, liquidity risk and market risk, the latter being subdivided into interest rate risk, currency risk and equity risk. Group members manage financial risks through a process of ongoing identification, measurement and monitoring, as well as by taking steps towards reducing the level of risk.

The Group is also subject to operational risk and strategic risk. Strategic risk is defined by the Group as a risk of a negative effect on the Group's operations arising from mistakes (deficiencies) made in decisions that determine strategy of the Group; this risk is managed by the Group in the course of its strategic planning process.

The process of risk management is critical to ensure that risks accepted by the Group would not affect its financial stability. Each business division within the Group involved in operations exposed to risk is accountable for controlling the level of risks inherent in its activities to the extent provided in the internal regulations.

(in millions of Russian rubles)

30. Risk management (continued)

Introduction (continued)

Risk management structure in place at Group members

Typical organizational structure of risk management in place at Group members consists of the following elements:

- The supreme collegial management body (Supervisory Board, Board of Directors) takes strategic decisions aimed at organizing and supporting the operation of the risk management system.
- Collegial management bodies (Management Board, Banking Risk Management Committee, Financial Committee, Asset and Liability Management Committee, Credit Committee, Technology Committee) and single management bodies (Chairman of the Bank, Chairman of the Management Board) adopt/prepare management decisions within their established authority, over a particular type of activity or type of risk.
- Independent risk management business division (Risk Management Department, Risk Analysis and Control Department) coordinates activities carried out by independent business divisions to implement risk management decisions taken by management bodies, including development of a regulatory framework that underlies risk assessment and control, independent assessment and subsequent control of risk level, and prepares risk reports for Group member management on a regular basis.
- Business divisions engaging in/supporting operations exposed to risks perform initial risk identification and assessment, control compliance with established limits and generate risk reports subject to the requirements of the adopted/approved regulatory framework.
- The Internal Control Function controls compliance with requirements of internal regulations and evaluates the effectiveness of the risk management system. Following the completion of respective audits, the Internal Control Function reports its findings and recommendations to Group member management.

In 2012, the risk management coordination within the Group of Vnesheconombank was further developed. The Management Board of Vnesheconombank approved the Risk Management Policy of Vnesheconombank's Group that established primary objectives, goals, principles and procedures for consolidated risk management within Vnesheconombank and its subsidiaries.

Vnesheconombank's risk management structure

The Supervisory Board is the supreme management body of the Bank. Within the scope of powers delegated to that body by the Memorandum on Financial Policies and Federal Law No. 82-FZ the Supervisory Board is responsible for establishing specific parameters of the Bank's investing and financing activities including those related to risk management. Along with the Supervisory Board, the Bank's management structure comprises other management and collegial bodies and business divisions that are responsible for controlling and managing risks.

Supervisory Board

Pursuant to the Regulation on the Supervisory Board, powers of the Bank's Supervisory Board in the area of risk management include: the approval of procedures governing the activities of internal control function, credit policy regulations, procedures for providing guarantees, sureties and loans to credit institutions and other legal entities, methods and procedures for measuring credit risk parameters and limits, methodology for calculating the Bank's equity (capital) amount and capital adequacy ratio, impairment and other losses provisioning procedures, regulations on the Bank's management bodies.

(in millions of Russian rubles)

30. Risk management (continued)

Introduction (continued)

The Supervisory Board decides on approving transactions involving acquisition, disposal or potential disposal of assets whose carrying value accounts for at least 10% of the Bank's equity and establishes the maximum amount of funds allocated to manage the Bank's temporarily idle cash (liquidity).

Within the scope of powers delegated to it by the Memorandum on Financial Policies and Federal Law, the Supervisory Board establishes parameters of the Bank's investing and financing activities, sets limits and establishes limitations on the structure of the Bank's loan portfolio.

Management Board

The risk management-related authorities of the Management Board include making decisions to approve transactions or a number of interrelated transactions associated with acquisition, disposal or potential disposal of assets whose carrying value accounts for 2% to 10% of the Bank's equity.

The Management Board drafts proposals regarding Vnesheconombank's major lines of business and parameters of its investing and financing activities (including those related to risk management) and submits such proposals for approval by the Supervisory Board.

Chairman of Vnesheconombank

With regard to risk management-related aspects of the Bank's operations, the Chairman of Vnesheconombank issues orders and resolutions, approves policies and technical procedures governing banking transactions.

The Chairman of Vnesheconombank decides on other matters related to risk management except for those falling within the competence of the Supervisory Board and the Management Board.

Credit Committee

The Credit Committee is the Bank's standing collegial body whose primary objective is to develop conclusions as a result of considering suggestions for granting loans, guarantees, sureties and financing on a repayable basis, participation in share capital and/or purchase of bonds, setting limits by counterparty and issuer, as well as debt recovery and write-off.

Assets and Liabilities Committee

The Assets and Liabilities Committee is the Bank's standing collegial body whose primary objective is to develop conclusions and recommendations for assets and liabilities management, including issues related to managing the Bank's market and structural risks and ensuring that the Bank's operations are break-even.

Working Group on Coordination of Subsidiary Banks' and Financial Companies' Liquidity and Risk Management

Key competences of the Working group include coordination of activity within the group of subsidiary banks and financial companies of Vnesheconombank in order to ensure consistent liquidity and risk management, provide conditions for efficient implementation of policies on managing assets and liabilities and risks within the group of subsidiary banks and financial companies of Vnesheconombank.

(in millions of Russian rubles)

30. Risk management (continued)

Introduction (continued)

Working Group on Coordination of Public Borrowings of Subsidiary Banks and Companies of Vnesheconombank

Key competences of the Working group include assisting subsidiary banks and financial companies of Vnesheconombank by preparing reports and recommendations on the following activities of Vnesheconombank's group of companies: improvement of coordination of public borrowings of Vnesheconombank's subsidiary banks and companies, raising funds for Vnesheconombank's subsidiary banks and companies, and estimation of key parameters for this process.

Internal Control Function

The Internal Control Function is responsible for monitoring, on a continuous basis, the functioning of the banking risk management system as provided in the internal regulations. Following the completion of the respective audits, the Internal Control Function reports its findings and recommendations to the Bank's management.

Risk Management Department

The Risk Management Department is an independent business division designed to maintain the efficient functioning of the risk management system in compliance with the requirements of supervisory and regulatory bodies, international standards governing banking risk management practices in order to ensure the requisite reliability and financial stability of the Bank.

The Risk Management Department is responsible for developing methods and procedures for the assessment of various types of risks, draft proposals to limit the risk level, perform follow-up monitoring of compliance with the established risk limits and relevant risk decisions, and prepare reporting documents for each type of risks and each line of the Bank's business.

The Risk Management Department is responsible for monitoring compliance with risk policies and principles, and for assessing risks of new products and structured transactions. The Risk Management Department is composed of units that are responsible for control over the level of exposures by each type of risk and each line of the Bank's business, as well as a division responsible for monitoring risks of subsidiaries.

Directorate for Currency and Financial Transactions

To control the Bank's day-to-day liquidity, the Directorate for Currency and Financial Transactions monitors compliance with the established minimum levels of liquidity and maturity gaps in assets and liabilities. The Directorate prepares regular forecasts of the Bank's estimated leverage by source of funding, performs daily monitoring of open position limits by class of financial instruments and operations performed by the Directorate on money, equity and currency markets as well as counterparty limits.

The Directorate monitors the market value and liquidity of collateral provided by the Bank's counterparties.

Independently from other operating divisions, the Analytical Unit within the Directorate analyzes the current situation on money, equity and currency markets.

(in millions of Russian rubles)

30. Risk management (continued)

Introduction (continued)

Economic Planning Department

The Economic Planning Department is involved in the development of methodological documents for managing the Bank's financial risks. The Department monitors the Bank's financial stability parameters, including capital adequacy ratio. The Department coordinates the activities across the Bank relating to the establishment of allowances for losses.

Risk management

Risk measurement and reporting systems

The Bank's risks are measured using the methodologies approved by the Bank's authorized bodies which allow assessing both the expected loss likely to arise in normal circumstances and unexpected losses, which are an estimate of the ultimate possible loss at a given level of probability. Losses are measured on the basis of the analysis and processing of historical data relating to risk factors underlying such losses and the established patterns (models) used to determine the relationship between changes in risk factors and loss events. Statistical patterns derived from the analysis of historical data are adjusted, as appropriate, to account for the current operating environment of the Bank and situation on the markets.

The Bank also applies stress testing practices to run worst case scenarios that would arise in case extreme events which are unlikely to occur do, in fact, occur.

Monitoring and limiting risks is primarily performed based on limits established by the Bank. These limits reflect the level of risk which is acceptable for the Bank and set strategic priorities for each line of the Bank's business.

To assess and monitor the aggregate credit, market and operational risk exposure, the Bank computes capital adequacy ratio in accordance with the methodology approved by the Bank's Supervisory Board and based on approaches set out in regulations issued by the Bank of Russia. The minimum capital adequacy ratio of 10% has been set.

Information compiled from all the businesses is examined and processed in order to analyze, control and early identify risks. The above information and analytical comments thereon are communicated regularly to the Bank's management bodies, heads of business divisions and the Internal Control Function. The reporting frequency is established by the Bank's management body. The reports include the level of risk and risk profile changes by each type of risks and main business line, respective estimated values, updates on compliance with the existing risk limits, assessment of the amount of unexpected losses based on the value at risk methodology (VaR), results of sensitivity analysis for market risks, and the Bank's liquidity ratios.

To ensure timely response to changes in internal and external operating environment, heads of business divisions are obliged to notify the Bank's management of any factors contributing to banking risks. Information is to be communicated in accordance with the procedure set forth in the corresponding internal documents governing the activities of the business divisions.

The Risk Management Department, jointly with other responsible business divisions, regularly monitors compliance with the existing limits, analyzes risk factors associated with financial and non-financial counterparties, jurisdictions, countries, market instruments, and the Bank's position in a given market segment and analyzes changes in the level of risk.

30. Risk management (continued)

Introduction (continued)

Risk mitigation

As part of its risk management, the Bank may use derivatives and other instruments to manage exposures arising from changes in interest rates, currency rates, equity prices, credit risk factors, and exposures arising from changes in positions under forecast transactions.

The Bank actively uses collateral to reduce its credit risks (see above for more detail).

Excessive risk concentration

Concentrations arise when a number of counterparties are engaged in similar business activities, or activities in the same geographic region, or have similar economic features, or when their ability to meet contractual obligations will be similarly affected by possible changes in economic, political or other conditions. Concentrations indicate the relative sensitivity of the Bank's performance to developments affecting a particular industry or geographical location.

In order to control the level of risk concentrations, the Bank's policies and procedures include guidelines and restrictions designed to maintain a diversified portfolio.

Credit risk

Credit risk is the risk that the Bank will incur a loss because its customers, clients or counterparties failed to discharge their contractual obligations in full when they fall due. The Bank manages and controls credit risk by placing limits on the amount of risk it is willing to accept in relation to one counterparty, groups of counterparties and to industry segments and regions, and by monitoring exposures in relation to the existing limits.

Within the framework of risk management, the Bank ensures compliance with the following limits established in the Memorandum on Financial Policies:

- the maximum limit of exposure per individual borrower or a group of related borrowers shall not exceed 25% of the Bank's equity (capital);
- the aggregate volume of major exposures shall not exceed 800% of the Bank's equity (capital).

Vnesheconombank's Supervisory Board is entitled to set additional limits, including those related to the structure of the Vnesheconombank's loan portfolio.

When extending guarantees under export operations and arranging for export loan insurance against political and commercial risks, the Bank complies with the limitations set forth in the Memorandum on Financial Policies, whereby the maximum value of the Bank's commitments in respect of one borrower or a group of related borrowers should not exceed 25% of the Bank's equity (capital).

The Bank adopts a systemic approach to managing risks associated with the Bank's entire asset portfolio and those attributable to individual transactions entered into with borrowers/counterparties (a group of related borrowers/counterparties). Such approach consists of the following steps:

- risk identification;
- risk analysis and assessment;
- risk acceptance and/or risk reduction;
- risk level control.

(in millions of Russian rubles)

30. Risk management (continued)

Credit risk (continued)

Credit risk is managed throughout all the stages of the lending process: loan application review, execution of a lending/documentary transaction (establishment of a corresponding credit limit), loan administration (maintaining loan files, etc.), monitoring the loan (credit limit) drawdown status, monitoring the borrower's financial position and repayment performance until full settlement has been made (credit/documentary limit has been closed), monitoring the status of the current investment project. Since transactions that are bearing credit risk may not only involve credit risk as such, but give rise to other risks (e.g. market risk, project risk, collateral risk), the Bank performs a comprehensive assessment of risks attributable to such transactions.

The principle of methodological integrity provides for the use of a consistent methodology for identifying and measuring credit risk which is in line with the nature and scale of operations conducted by the Bank. The assessment methodology for the credit risk of the Group members is being amended to harmonize approaches to credit risk assessment used within the Group and in order to comply with the Bank's standards.

The Bank has established a credit quality review process to provide early identification of possible changes in the creditworthiness of counterparties, including regular collateral revisions. Counterparty limits are established by the use of a credit risk classification system, which assigns each counterparty a credit rating. Credit ratings are subject to regular revision. The credit quality review process allows the Bank to assess the potential loss as a result of the risks to which it is exposed and take corrective action.

Credit-related commitments risks

The Bank makes available to its customers documentary operations which may require that the Bank make payments on their behalf. Such payments are collected from customers based on the terms of the guarantee/letter of credit given. They also expose the Bank to credit risks which are mitigated by the same control processes and policies.

The maximum exposure to credit risk for the components of the consolidated statement of financial position is best represented by their carrying amounts.

For more details on the maximum exposure to credit risk for each class of financial instrument, references shall be made to the specific notes. The effect of collateral and other risk mitigation techniques is shown in Note 14.

Where financial instruments are recorded at fair value, the carrying value represents the current credit risk exposure but not the maximum risk exposure that could arise in the future as a result of changes in values.

Credit quality per class of financial assets

The credit quality of financial assets is managed by the Bank using internal credit ratings. The rating system is supported by a variety of financial analytics, combined with processed market information to provide the inputs for measuring the counterparty risk. Not past due and not impaired assets are subdivided into assets with high, standard and sub-standard grade. Grades are assigned based on the requirements of the national standards for assets quality assessment and international ratings of securities issuers. High grade assets comprise demands to counterparties with good financial position, absence of overdue payments, or secured by the guarantees of the Russian Government, and securities with high international credit ratings. Probability of the breach of contractual terms with regard to such assets can be evaluated as low. Standard grade assets comprise demands to counterparties with average financial position or assets with no overdue payments, which were not included in high grade assets. Probability of the breach of contractual terms with regard to such assets can be evaluated as average. Other financial assets, not past due and not impaired, are assigned a substandard grade. Since not all individually impaired assets are considered past due, not past due individually impaired assets and past due assets are separated. Credit risk measurement methodology has been approved by the Bank's Supervisory Board. Group-wide guidelines for assessing the credit quality of assets have been developed for the purpose of preparing Group's consolidated financial statements.

See Note 14 for more detailed information with respect to the allowance for impairment of loans to customers.

Impairment assessment

The main considerations for the loan impairment assessment include whether any payments of principal or interest are overdue by more than 30 days or there are any known difficulties in the cash flows of counterparties, credit rating downgrades, or infringement of the original terms of the contract. Impairment assessment is performed in two areas: individually assessed allowances and collectively assessed allowances.

Individually assessed allowances

The allowances appropriate for each individually significant loan are determined on an individual basis. Items considered when determining allowance amounts include the sustainability of the counterparty's business plan, its ability to improve performance once a financial difficulty has arisen, projected receipts and the expected dividend payout should bankruptcy ensue, the availability of financial support, the realizable value of collateral, and the timing of the expected cash flows. The impairment losses are evaluated at each reporting date, unless unforeseen circumstances require more careful attention.

Collectively assessed allowances

Allowances are assessed collectively for impairment of loans to customers that are not individually significant (including credit cards, residential mortgages and unsecured consumer lending) and for individually significant loans where there is not yet objective evidence of individual impairment. Allowances are assessed on each reporting date with each portfolio receiving a separate review.

The collective assessment takes account of impairment that is likely to be present in the portfolio even though there is no yet objective evidence of the impairment in individual assessment. Impairment losses are estimated by taking into consideration the following information: historical losses on the portfolio, current economic conditions, the appropriate delay between the time a loss is likely to have been incurred and the time it will be identified as requiring an individually assessed impairment allowance, and expected receipts and recoveries once impaired.

Financial guarantees and letters of credit are also assessed and provision is made in a similar manner as for loans.

(in millions of Russian rubles)

30. Risk management (continued)

Liquidity risk and funding management

Liquidity risk is the risk that the Group will be unable to meet its financial obligations when they fall due.

The Group manages its liquidity risk at the following levels:

- Each bank within the Group manages its liquidity on a standalone basis so that it can meet its obligations in full and comply with requirements of the national regulator; for this purpose relevant policies and procedures have been developed that detail the liquidity risk assessment and control process;
- Liquidity-related issues are considered on the Group's level at the meetings of the Working group on coordination of subsidiary banks' and financial companies' liquidity and risk management and the Working group on coordination of public borrowings of subsidiary banks and companies of Vnesheconombank.

Group members assess liquidity risk using analysis of the maturity structure of assets and liabilities, and a liquid asset cushion under various scenarios. To limit liquidity risk, Group members control liquidity gaps and the level of the liquid asset cushion. Subsidiary banks within the Group also forecast and control compliance with mandatory liquidity ratios established by national regulators.

As a part of the liquidity risk management process the Group members perform the following actions limiting the liquidity risk:

- Regularly monitor the bank's liquidity situation, supervise the compliance with the established limits and review them;
- Maintain a well-balanced maturity and currency structure of assets and liabilities and an optimal liquid asset cushion;
- Maintain a diversified structure of funding sources and directions of investments by counterparty;
- Develop plans to raise debt funding;
- Assess sustained balances on customers' accounts, monitor the level of concentration of balances on customers' accounts in order to prevent an abrupt outflow of funds from customers' accounts;
- Perform cash flow modeling and supervise liquidity ratios under various scenarios that reflect changes in the macroeconomic and market operating environment;
- Perform stress testing of the Bank's exposure to liquidity risk and financial market conditions on a regular basis and as and when significant changes in external and internal factors arise or are expected.

Operational control over liquidity ratios, including liquidity gaps, is performed at the Bank by the Directorate for Currency and Financial Transactions. The subsequent control is performed by the Risk Management Department. Liquidity control results are reported to the Bank's management and used for making management decisions.

(in millions of Russian rubles)

30. Risk management (continued)

Liquidity risk and funding management (continued)

In addition, for the purposes of identifying available sources to cover an unexpected deficit of liquid assets, the Bank daily monitors and forecasts the liquidity reserve. The liquidity reserve comprises the following:

- Cash on the Bank's correspondent accounts, cash on hand, cash on accounts in stock exchange and clearing centers, and the net balance of the Bank's overnight placements;
- Short-term deposits placed with banks considered by the Bank as highly reliable;
- Liquid securities measured at fair value less any discount for unexpected losses due to market risk realization that can be promptly converted into cash or used as a collateralized funding.

In order to take into account any possible changes in projected cash flows, the Bank uses a procedure of stress testing liquidity ratios in accordance with scenarios covering both internal factors, specific to the Bank, and external factors:

- non-fulfillment by the Bank's counterparties of transaction, loan and debt obligations (credit risk realization);
- decrease in the market value of the securities portfolio (market risk realization);
- unexpected outflow of funds from customers' accounts;
- reduction in the expected inflow of funds to customers' accounts;
- reduced or closed access to financial market resources;
- reduction in the Bank's credit rating;
- early repayment of the attracted interbank loans due to the breaches of set financial covenants.

The Risk Management Department uses the procedure of liquidity ratios stress testing on a scheduled and unscheduled basis. Scheduled stress testing is carried out on a monthly basis. Unscheduled stress testing is carried out upon decision of an authorized body of the Bank, as well as in case of an indication of potential stress changes in internal and external risk factors, upon initiative of the Bank's functions involved in liquidity control activities. Findings of the analysis of the Bank's liquidity indicators calculated for various scenarios are communicated by the Risk Management Department to the Directorate for Currency and Financial Transactions and the Bank's management and are used in making decisions on measures required for regulating liquidity and planning the Bank's operations.

In case of an emergency the Bank uses the following liquidity support mechanisms:

- selling the portfolio of highly liquid assets (concluding repurchase agreements);
- limiting the volume of transactions with counterparties having a high credit risk level;
- suspending issuance of loans, guarantees and credit lines;
- taking measures to close positions in low liquid securities and to assign loan portfolio-related receivables;
- strengthening cooperation with Bank's customers for the purpose of short-term planning the Bank's liquidity situation and setting the funds withdrawal schedule;
- maintaining transparency of the Bank's operations.

Debt securities issued	3,621	13,225	14,928	229,256	–	261,030
Income tax liabilities	–	167	–	1,718	–	1,885
Other financial liabilities	1,820	3,690	663	256	911	7,340
	317,601	217,592	488,980	961,146	911	1,986,230
Net position	167,000	18,824	(287,080)	348,017	245,789	492,550
<i>Accumulated gap</i>	<i>167,000</i>	<i>185,824</i>	<i>(101,256)</i>	<i>246,761</i>	<i>492,550</i>	

Maturities represent remaining terms until repayment in accordance with underlying contractual arrangements at the reporting date.

While the majority of available-for-sale securities is shown as 'up to 1 month', disposal of such assets upon demand is dependent upon financial market conditions. Significant security positions may not always be liquidated in a short period of time without adverse price effects.

Alternatively, the Group's management believes that the substantial part of the investments in equity investment securities available for sale recognized in 'no stated maturity' can guarantee significant volumes of liquidity within a short period of time (up to 1 month) upon disposal of these securities on the market or conducting transactions on repurchase agreements.

(in millions of Russian rubles)

30. Risk management (continued)

Liquidity risk and funding management (continued)

The negative liquidity gap in '6 to 12 months, 2011' was formed mainly at the expense of interest-bearing deposits of the Bank of Russia, which include special purpose deposits attracted for the program for financial support to Sviaz-Bank and CJSC "GLOBEXBANK", and USD-denominated deposits of the Russian Ministry of Finance attracted to finance investment projects (Note 8). In 2012, the maturity of the deposits of the Bank of Russia (with nominal maturity of 1 year) was extended by 1 year (as in 2009-2011); the maturity of the USD-denominated deposits of the Russian Ministry of Finance was extended by 2 years (2011: 1.5 years). As a result of extending the maturity of the deposits of the Russian Ministry of Finance by 2 years, there is no accumulated negative liquidity gap for any of the maturities at 31 December 2012. Given the special purpose-related character of the deposits of the Bank of Russia, the Group's management expects that the maturity of these deposits will be extended in 2013 as well.

Amounts due to the Russian Government, other than deposits from the Bank of Russia, generally do not carry a specified maturity and are shown as having a maturity of up to one month. In practice, these amounts are maintained in the statement of financial position for longer periods.

Analysis of financial liabilities by remaining contractual maturities

The table below summarizes the maturity profile of the Group's financial liabilities at 31 December 2012 and 31 December 2011 based on contractual undiscounted repayment obligations. Exception is made for derivatives (assets and liabilities), which are shown by amounts payable and receivable as well as the cost of the realizable non-monetary assets and by contractual maturity. Repayments which are subject to notice are treated as if notice were to be given immediately. However, the Group expects that many customers will not request repayment on the earliest date the Group could be required to pay and the table does not reflect the expected cash flows indicated by the Group's deposit retention history.

Financial liabilities at 31 December 2012	Less than 3 months	3 to 12 months	1 to 5 years	Over 5 years	Total
Amounts due to credit institutions	198,169	93,770	279,342	51,848	623,129
Derivative financial instruments settled through delivery of underlying asset					
- Contractual amounts payable	71,313	11,186	20,558	60	103,117
- Fair value of sold underlying assets	1,869	–	14,006	–	15,875
- Contractual amounts receivable	(72,545)	(10,944)	(47,821)	(36)	(131,346)
Due to the Russian Government and the Bank of Russia	117,989	273,745	404,199	455,374	1,251,307
Amounts due to customers	205,022	106,124	33,428	989	345,563
Debt securities issued	24,929	39,437	214,239	312,563	591,168
Other liabilities	4,478	3,799	3,570	2,580	14,427
Total undiscounted financial liabilities	551,224	517,117	921,521	823,378	2,813,240
Financial liabilities at 31 December 2011	Less than 3 months	3 to 12 months	1 to 5 years	Over 5 years	Total
Amounts due to credit institutions	148,657	61,293	267,916	47,773	525,639
Derivative financial instruments settled through delivery of underlying asset					
- Contractual amounts payable	68,124	101,834	26,430	367	196,755
- Fair value of sold underlying assets	6,112	2,022	29,181	–	37,315
- Contractual amounts receivable	(75,687)	(103,900)	(77,390)	(217)	(257,194)
Due to the Russian Government and the Bank of Russia	27,008	444,623	149,389	577,589	1,198,609
Amounts due to customers	214,547	116,531	31,409	1,891	364,378
Debt securities issued	8,846	25,716	141,215	211,139	386,916
Other liabilities	4,651	2,451	344	10	7,456

(in millions of Russian rubles)

30. Risk management (continued)

Liquidity risk and funding management (continued)

The maturity analysis of liabilities does not reflect the historical stability of customers' current accounts. Their liquidation has historically taken place over a longer period than indicated in the tables above. These balances are included in amounts due in 'less than 3 months' in the tables above.

Included in amounts due to customers are term deposits of individuals. In accordance with the Russian legislation, the Group is obliged to repay such deposits upon demand of a depositor. According to the legislation of the Republic of Belarus and Ukraine, the Group is obliged to repay the amount of these deposits at the first call of the depositor within five days (Note 23).

The table below shows the contractual expiry by maturity of the Group's financial commitments and contingencies (letters of credit, guarantees, undrawn loan facilities, reimbursement obligations). Each undrawn loan commitment is included in the time band containing the earliest date it can be drawn down. For issued financial guarantee contracts, the maximum amount of the guarantee is allocated to the earliest period in which the guarantee could be called.

	Less than 3 months	3 to 12 months	1 to 5 years	Over 5 years	Total
2012	853,560	9,184	4,008	–	866,752
2011	737,122	–	14,783	–	751,905

The Group expects that not all of the contingent liabilities or contractual commitments will be drawn before expiry of the commitments.

At 31 December 2012, credit-related commitments presented in the 'less than 3 months' category include liabilities in the amount of RUB 48,303 million (31 December 2011: RUB 45,231 million) whose maturities are linked to settlements under export contracts.

Market risk

Market risk is the risk of adverse changes in the fair value or future cash flows of financial instruments due to changes in market variables such as interest rates, foreign exchange rates, prices for equities (equity risk) and commodities. The purpose of the Group's market risk management activities is providing a balance between the level of accepted risks and profitability of banking operations.

Group members monitor the market risk level on a daily basis. To control the market risk level and to set its limits the Group uses the sensitivity analysis, calculation based on VaR methodology and stress testing. Consolidated risks of the Group are primarily assessed using the sensitivity analysis.

At the parent entity level interest rate, currency and equity risks are primarily assessed using the VaR methodology which enables assessing maximum unexpected losses from the portfolio of financial instruments that can be incurred during a certain period of time (projection horizon) with a given confidence level. The VaR methodology is a probabilistically statistical approach that takes into account market fluctuations and risks diversification under normal market conditions. The Bank applies the advanced VaR methodology according to which the weighing procedure for statistical data of risk factors depends on their historical distance from the date of calculation. For management and external reporting purposes, the Bank uses VaR calculations with a 99% confidence level and a 10-day projection horizon to assess the price risk of the portfolio of market securities and a 1-day projection horizon to assess the risk of the open currency position of the Bank. The depth of retrospective data used for VaR calculation is 670 working days.

(in millions of Russian rubles)

30. Risk management (continued)

Market risk (continued)

VaR calculation results are assessed by the Bank subject to limitations inherent in the VaR methodology, i.e. possible failure to comply with initial assumptions, namely:

- historical observations used to calculate unexpected losses in the future period might not contain all possible future changes in risk factors, especially in case of any extreme market events;
- usage of a given projection horizon assumes that the Bank's positions in financial instruments can be liquidated or hedged over this period. Should the Bank have large or concentrated positions and/or should the market lose its liquidity, the used period of time might be insufficient for closing or hedging positions but unexpected losses estimated with VaR would remain within set limits;
- applying a 99% confidence level does not permit assessing losses that can be incurred beyond the selected confidence level;
- the VaR methodology assesses the amount of unexpected losses from the portfolio of financial instruments under the assumptions that the volume of positions will remain constant over the projection horizon and the Bank will not perform transactions that change the volume of positions. Should the Bank be engaged in purchase and sale of financial instruments over the projection horizon, VaR estimates can differ from estimates of actual losses.

To control the adequacy of the VaR calculation model, the Bank regularly uses back-testing procedures that enable it to assess differences between estimated and actual losses.

In order to obtain more precise estimates, the Bank is making efforts to enhance inputs used in the current model which provides adequate estimates under normal market conditions. Also, the Bank is making efforts to improve approaches that take into account extraordinary (stress) changes in the market behavior in the process of risk management.

The Bank performs stress testing procedures on regular and unplanned basis that enables the Bank to assess stress losses from realization of unlikely extraordinary events on financial instruments' portfolios and open currency positions, i.e. losses that are out of predictive limits of probabilistically statistical methods. The above approach supplements the risk estimate obtained from the VaR methodology and sensitivity analysis. The Bank uses a wide range of historical and hypothetical (user) scenarios within stress testing procedures. Stress testing results are reported to the Bank's management and used for making management decisions.

Interest rate risk

Interest rate risk arises from the possibility that changes in interest rates will adversely affect the fair values or future cash flows of financial instruments.

The interest rate policy of Group members refers to maintenance of a balanced structure of claims and obligations sensitive to change in interest rates (interest rate position) that provides limitation of possible unfavorable change in net interest income and/or equity of a Group member at an acceptable level.

The procedures of identification, assessment and control of the level of interest rate risk in Group members are formalized through developed internal regulations and rules as well as requirements of national regulators. Group members perform sensitivity analysis of net interest income and equity using different scenarios of market interest rate changes for the purpose of controlling financial losses arising from unfavorable changes in interest rates.

(in millions of Russian rubles)

30. Risk management (continued)

Market risk (continued)

In addition, banks within the Group forecast and control the capital adequacy ratios subject to the effect of the interest rate risk.

Group members use a number of market instruments, including IRSs, to manage its interest rate sensitivity and repricing gaps related to changes in interest rates of assets and liabilities.

In performing the sensitivity analysis of the net interest income and equity the interest rate gap method is used. The interest rate gap method is used to assess changes in the amount of net interest income and equity by using data on mismatch of claims and obligations sensitive to interest rate changes aggregated at given maturity intervals. A combination of negative scenarios that take into account the effect of internal and external risk factors related to the market situation is used as a part of the analysis. Scenarios are prepared either based on hypothetical events that can occur in the future or based on past events - historical stress scenarios.

Sensitivity analysis is performed on regular and unplanned basis. The basis for an unplanned sensitivity calculation is as follows:

- expected appearance of large or concentrated positions in financial instruments' portfolios or significant changes in their value, which can significantly affect the balance of the interest rate position;
- expectations of significant changes in the market situation as well as socio-political and/or economic events that can have a significant adverse impact on the amount of net interest income/equity.

The Bank uses two approaches in modeling risk factors. The statistical approach is based on the following assumptions:

- the actual structure of volume and maturities of claims and obligations is kept constant in the whole projection horizon;
- changes in the term structure of interest rates occur instantly as of the reporting date and once during the projection horizon.

In addition to the statistical approach to modeling risk factors, the Bank performs the sensitivity analysis by modeling dynamic changes in interest rates and the volume and maturity structure of claims and obligations using a more complex set of assumptions made by the Bank on a case-by-case basis.

The sensitivity of the statement of income is the estimate of the effect of the assumed changes in interest rates on the net interest income before tax for one year calculated for floating rate financial assets and financial liabilities held at 31 December 2012 and at 31 December 2011, as well as the amount of revaluation of fixed rate trading financial assets and derivative financial instruments. The sensitivity of equity to changes in interest rates is calculated as the amount of revaluation of fixed rate available-for-sale financial assets in case of assumed change in interest rates. The effect of revaluation of financial assets was calculated based on the assumption that there are parallel shifts in the yield curve.

The following table demonstrates the sensitivity to a reasonably possible change in interest rates by key reference rates, with all other variables held constant, of the Group's statement of income.

The sensitivity was calculated for instruments within the Group's portfolio, excluding bonds held within the Bank's portfolio. The interest rate risk for this bond portfolio was calculated using the VaR methodology.

Below are VaR measures for the bond portfolio of the Bank at 31 December 2012 and at 31 December 2011:

	2012	2011
VaR	1,592	4,532

Currency risk

Currency risk is the risk that the fair value of a financial instrument or future cash flows will change due to changes in foreign exchange rates.

Group members calculate on a daily basis open currency positions by assets and liabilities recorded in the statement of financial position, and claims and obligations not recorded in the statement of financial position, which are subject to changes in currency and precious metals rates. Banks of the Group set limits on the cumulative open position as well as limits on open positions in each currency and for precious metals based on the requirements of the national regulator.

The VaR estimate obtained using the historical modeling method with a 99% confidence level and a 1-day projection horizon is used by the Bank as a currency risk estimate. The aggregate currency risk in respect of the Bank's open currency positions is estimated subject to historical correlation of exchange rates of foreign currencies against the Ruble.

The table below shows open currency positions of the Bank at 31 December 2012 and 31 December 2011, which include items of the statement of financial position and currency positions in derivative financial instruments by currencies against the Russian Ruble (open positions).

Currency	2012	2011
UAH	26,678	28,428
USD	12,865	(50,422)
BYR	4,529	3,378
HKD	202	214
CZK	188	78
Other currencies	152	203
CAD	85	95
EUR	(96)	1,829
CHF	(651)	(647)
JPY	(1,570)	(1,367)

(in millions of Russian rubles)

30. Risk management (continued)

Market risk (continued)

Below is the Bank's VaR measure for open currency positions at 31 December 2012 and 31 December 2011:

	<u>2012</u>	<u>2011</u>
VaR	1,111	1,097

Currency revaluation of the Bank's nominal investments in non-negotiable shares of subsidiaries may not reflect changes in the real economic value of these companies.

In order to assess this factor, the risk related to the adjusted aggregate open currency position was calculated with elimination of positions in UAH and BYR which were based mainly on investments in subsidiary banks.

The Bank's VaR measure for open currency positions at 31 December 2012, except for investments in subsidiaries, was RUB 210 million. The Bank's VaR measure for open currency positions at 31 December 2011, except for investments in subsidiaries, was RUB 1,010 million.

The table below shows the sensitivity of open currency positions of the Group (excluding the Bank) at 31 December 2012 and at 31 December 2011. The analysis calculates the effect of a reasonably possible movement of the currency rate against the Ruble on the statement of income (due to the fair value of currency sensitive financial assets and liabilities). All other variables are held constant. A negative amount in the table reflects a potential net reduction in the statement of income or equity, while a positive amount reflects a net potential increase.

<u>Currency</u>	<u>Change in currency rate in % 2012</u>	<u>Effect on profit before tax 2012</u>	<u>Change in currency rate in % 2011</u>	<u>Effect on profit before tax 2011</u>

	-12.31%	1	-12.78%	1

Operational control over open currency positions is performed by the Directorate for Currency and Financial Transactions. The subsequent control is performed by the Risk Management Department. Results of control over open currency positions are reported to the Bank's management and used for making management decisions.

(in millions of Russian rubles)

30. Risk management (continued)

Market risk (continued)

Equity price risk

Equity price risk is the risk of adverse changes in the fair values or future cash flows of a financial instrument as a result of changes in the levels of equity indices and the value of individual equities.

Group members use the VaR methodology and/or portfolio sensitivity analysis to assess the equity price risk.

Below are VaR measures for the equity portfolio of the Bank at 31 December 2012 and at 31 December 2011:

	<u>2012</u>	<u>2011</u>
VaR	26,942	40,952

Together with options that hedge in full certain positions in shares and are included within the Bank's portfolio at the reporting dates, VaR measures for the equity portfolio of the Bank at 31 December 2012 and at 31 December 2011 are as follows:

	<u>2012</u>	<u>2011</u>
VaR	25,723	34,580

The Bank sets aggregate exposure limits for each portfolio by class of securities in order to limit equity price risk. Within a portfolio "risk borrowing" is permitted, i.e. changing the volume of open positions under individual financial instruments subject to compliance with the set limit of the aggregate market risk for the portfolio and with credit risk limits by issuer.

The limits are approved by the Management Board of Vnesheconombank at the suggestion of the Risk Management Department as agreed with Bank's business units. The set limits are reviewed on a regular basis.

The effect on profit before tax and equity of other Group members of reasonably possible change in equity indices, with all other variables held constant, is as follows:

Market index	Change in index in %, 2012	Changes in equity price in %, 2012	Effect on profit before tax 2012	Effect on equity 2012
MICEX index	31%	28%	1,915	2,529
	-31%	-28%	(1,915)	(2,529)
Russian Depositary Index USD	41%	21%	326	
	-41%	-21%	(326)	-

Market index	Change in index in %, 2011	Changes in equity price in %, 2011	Effect on profit before tax 2011	Effect on equity 2011
MICEX index	47%	53%	742	2,252
	-47%	-53%	(742)	(2,252)
Russian Depositary Index USD	61%	61%	(31)	
	-61%	-61%	31	-

(in millions of Russian rubles)

30. Risk management (continued)

Market risk (continued)

Prepayment risk

Prepayment risk is the risk that the Group will incur a financial loss because its customers and counterparties repay or request repayment earlier or later than expected. Management believes that the Group's exposure to prepayment risk is insignificant.

Operational risk

Operational risk is defined as the risk of losses resulting from using inadequate internal procedures of banking transactions, unintentional or deliberate misconduct (omission to act) of an entity's personnel and unrelated parties, inadequacy and/or failures of technological, IT or other systems applied, or ensuing from the effect of external events.

The Group's operational risk management is aimed at enhanced performance of the Group, loss minimization and the Group's compliance with the laws and regulations as currently in effect.

The Group's operational risks are properly managed through applying unified processes and procedures, including identification of risks faced by the Group, assessment and monitoring the risk levels, and taking measures to control and mitigate the identified risks. All the banks within the Group measure operational risk exposures to estimate the amount of capital required to cover operational risks.

In order to continue as a going concern, discharge all existing obligations and limit the amount of possible losses in case of emergencies that impact business operations, Group members develop business continuity and/or disaster recovery plans ('BC/DR plans') that are aligned with the nature, scope and complexity of each entity's operations. The procedure for developing BC/DR plans is based on identifying processes, systems, items and obligations that are vital to an organization, analyzing various scenarios that Group members may have to deal with, and measuring potential implications of business continuity damage when implementing such scenarios.

BC/DR plans determine the action strategy that Group members are to follow in case of business continuity damage, and include at least three blocks: tactical response, activities intended to mitigate negative consequences, activities aimed at business activity recovery at the pre-crisis level, and procedures to identify reasons that entailed the crisis situation and develop preventive measures.

31. Fair value of financial instruments

The Group uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

- Level 1: quoted (unadjusted) prices in active markets for identical assets or liabilities;
- Level 2: techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly;
- Level 3: techniques which use inputs which have a significant effect on the recorded fair value that are not based on observable market data.

(in millions of Russian rubles)

31. Fair value of financial instruments (continued)

The following table shows an analysis of financial instruments recorded at fair value by level of the fair value hierarchy:

At 31 December 2012	Level 1	Level 2	Level 3	Total
Financial assets				
Trading financial assets (including those lent and pledged under repurchase agreements)	44,963	119	–	45,082
Derivative financial instruments	–	15,636	881	16,517
Financial assets designated as at fair value through profit or loss	18,417	–	8,771	27,188
Investment financial assets available for sale (including those pledged under repurchase agreements)	356,318	83,374	65,872	505,564
	419,698	99,129	75,524	594,351

Financial instruments recorded at fair value

The following is a description of the determination of fair value for financial instruments which are recorded at fair value using valuation techniques. These incorporate the Group's estimate of assumptions that a market participant would make when valuing the instruments.

Derivatives

Derivative products valued using a valuation technique with market observable inputs are mainly interest rate swaps, currency swaps and forward foreign exchange contracts. The most frequently applied valuation techniques include forward pricing and swap pricing models using present value calculations. The models incorporate various inputs including the credit quality of counterparties, foreign exchange spot and forward rates and interest rate curves.

Derivative products valued using a valuation technique with significant non-market observable inputs are primarily long-term option contracts. Such derivative products are valued using models, which imply the exercise of options in the shortest possible period of time.

(in millions of Russian rubles)

31. Fair value of financial instruments (continued)

Trading securities and available-for-sale investment securities

Trading securities and available-for-sale investment securities valued using a valuation technique are represented mainly by non-traded equity and debt securities. Such assets are valued using valuation models which incorporate either only observable data or both observable and non-observable data. The non-observable inputs include assumptions regarding the future financial performance of the investee, its risk profile, and economic assumptions regarding the industry and geographical jurisdiction in which the investee operates.

Movements in Level 3 financial instruments measured at fair value

The following table shows a reconciliation of the opening and closing amount of Level 3 financial assets and liabilities which are recorded at fair value:

	At 1 January 2012	Gains/(losses) recorded in the statement of income	Gains/(losses) recorded in other comprehensive income	Disposals	Purchases	At 31 December 2012
Financial assets						
Derivative financial instruments	8,581	783	–	(9,076)	593	881
Financial assets designated as at fair value through profit or loss	4,766	1,503	–	(2,707)	5,209	8,771
Investment financial assets available for sale	12,835	305	1,620	(794)	51,906	65,872
Total Level 3 financial assets	26,182	2,591	1,620	(12,577)	57,708	75,524
Financial liabilities						
Derivative financial instruments	137	16	–	(153)	–	–

(in millions of Russian rubles)

31. Fair value of financial instruments (continued)

Movements in Level 3 financial instruments measured at fair value (continued)

In 2011, financial assets were transferred to Level 3 as in the reporting period in order to determine the fair value of financial assets the Group started applying techniques, which use inputs that are not based on observable market data.

Gains or losses on Level 3 financial instruments included in the statement of income for the reporting period were as follows:

	2012			2011		
	Realized gains/(losses)	Unrealized gains/(losses)	Total gains/(losses)	Realized gains/(losses)	Unrealized gains/(losses)	Total gains/(losses)
Gains/(losses) recorded in the statement of income	2,876	(301)	2,575	–	(30)	(30)

Transfers between Level 1 and Level 2

The following table shows transfers between Level 1 and Level 2 of the fair value hierarchy for financial assets and liabilities which are recorded at fair value, during the reporting year:

	Transfers from Level 2 to Level 1	
	2012	2011
Financial assets		
Investment financial assets available for sale	3,718	–
	Transfers from Level 1 to Level 2	
	2012	2011
Financial assets		
Trading financial assets	6	–
Investment financial assets available for sale	39,418	1,626

In 2012, the above financial assets were transferred from Level 2 to Level 1 as they became actively traded during the reporting year. There were no transfers from Level 2 to Level 1 in 2011.

In 2012 and 2011, the above financial assets were transferred from Level 1 to Level 2 as they ceased to be actively traded during the year and their fair values were consequently obtained through valuation techniques using observable market inputs.

Impact on fair value of Level 3 financial instruments measured at fair value of changes to key assumptions

The following table shows the impact on the fair value of Level 3 instruments of using reasonably possible alternative assumptions:

	At 31 December 2012	
	Carrying amount	Effect of reasonably possible alternative assumptions
Financial assets		
Derivative financial instruments	881	44
Financial assets designated as at fair value through profit or loss	8,771	(46)
Investment financial assets available for sale	65,872	(2,474)

(in millions of Russian rubles)

31. Fair value of financial instruments (continued)

Impact on fair value of Level 3 financial instruments measured at fair value of changes to key assumptions (continued)

	At 31 December 2011	
	Carrying amount	Effect of reasonably possible alternative assumptions
Financial assets		
Derivative financial instruments	8,581	(232)
Financial assets designated as at fair value through profit or loss	4,766	(6)
Investment financial assets available for sale	12,835	(312)
Financial liabilities		
Derivative financial instruments	(137)	0

In order to determine reasonably possible alternative assumptions, the Group adjusted key unobservable model inputs as follows:

- for other financial assets as at fair value through profit or loss, the Group adjusted the amount of the assets held by the closed-end mutual fund by decreasing the main pricing adjustments by 3%, as such a change is seen by the Group as a possible alternative change, based on indicators for other items with similar parameters;
- for shares recognized in other financial assets as at fair value through profit or loss, the Group adjusted the value of equity which is an element of calculation of the weighted average cost of capital used for discounting expected cash flows of the issuer by 2%;
- for one of the derivative financial assets, the Group adjusted the amount of the underlying asset comprising units of the closed-end mutual fund by decreasing its main pricing adjustments by 3%, as such a change is seen by the Group as a possible alternative change, based on indicators for other items with similar parameters;
- for another derivative financial asset, the Group adjusted the amount of the underlying asset by changing the value of equity by 2%;
- for shares of the first issuer classified as investment financial assets available for sale, the Group adjusted the risk premium used for discounting expected cash flows of the issuer by 2%;
- for investments in equity instruments of the second issuer classified as investment financial assets available for sale, the Group adjusted the value of the multiplier *Fair value/Net assets* used for determining the fair value of investments by 5%;
- for the financial instrument of the third issuer classified as an investment financial asset available for sale, the Group adjusted the value of the multiplier *Fair value/Net assets* used for determining the fair value of investments by 2%.

To determine the impacts of possible alternative assumptions relating to investment financial assets available for sale, the Group took a prudent approach and adjusted key unobservable inputs at the lower interval boundary of possible assumptions. If the upper interval boundary of possible assumptions were applied, their positive impacts as at 31 December 2012 would have amounted to RUB 2,292 million.

(in millions of Russian rubles)

31. Fair value of financial instruments (continued)

Financial instruments not recorded at fair value in the statement of financial position

Set out below is a comparison, by class, of the carrying values and fair values of the Group's financial instruments that are not recorded at fair value in the consolidated statement of financial position. The table does not include the fair values of non-financial assets and non-financial liabilities.

	Carrying value 2012	Fair value 2012	Unrecognized gain/(loss) 2012	Carrying value 2011	Fair value 2011	Unrecognized gain/(loss) 2011
Financial assets						
Cash and cash equivalents	239,997	239,997	–	178,028	178,028	–
Amounts due from credit institutions	446,476	446,707	231	457,698	459,280	1,582
Loans to customers	1,497,387	1,486,717	(10,670)	1,228,923	1,221,641	(7,282)
Investment securities held to maturity	16,582	16,553	(29)	17,779	17,466	(313)
Financial liabilities						
Amounts due to credit institutions	569,942	566,804	3,138	472,014	467,672	4,342
Due to the Russian Government and the Bank of Russia	981,868	981,950	(82)	884,592	884,606	(14)
Amounts due to customers	335,827	333,985	1,842	352,424	352,021	403
Debt securities issued	388,939	414,842	(25,903)	261,030	262,468	(1,438)
Total unrecognized change in unrealized fair value			<u><u>(31,473)</u></u>			<u><u>(2,720)</u></u>

The following describes the methodologies and assumptions used to determine fair values for those financial instruments which are not already recorded at fair value in the financial statements.

Assets for which fair value approximates carrying value

For financial assets and financial liabilities that are liquid or having a short term maturity (less than three months) it is assumed that their carrying value approximates their fair value. This assumption also applies to demand deposits and assets without a specific maturity.

Fixed and floating rate financial instruments

For quoted debt instruments fair values are calculated based on quoted market prices. The fair values of unquoted debt instruments are estimated by discounting future cash flows using rates currently available for debt on similar terms, credit risk and remaining maturities.

(in millions of Russian rubles)

32. Transferred financial assets and assets held or pledged as collateral

Transferred financial assets that are not derecognised in their entirety

The following table provides a summary of financial assets which have been transferred in such a way that part or all of the transferred financial assets do not qualify for derecognition:

Transferred financial asset	Trading securities		Financial assets available for sale	Loans to customers	Total 2012	
	Other debt securities	Equity securities	Other debt securities	Other loans		
	2012	2012	2012	2012		
Carrying amount of assets	Repurchase agreements	16,165	–	11,751	148	28,064
	Other	–	503	–	–	503
Total		16,165	503	11,751	148	28,567
Carrying amount of associated liabilities	Repurchase agreements with the Bank of Russia	13,529	–	8,825	77	22,431
	Repurchase agreements with credit institutions	–	–	376	–	376
	Other	–	505	–	–	505
Total		13,529	505	9,201	77	23,312

Transferred financial asset	Financial assets available for sale		Total 2011	
	Other debt securities	Equity securities		
	2011	2011		
Carrying amount of assets	Repurchase agreements	3,879	836	4,715
Total		3,879	836	4,715
Carrying amount of associated liabilities	Repurchase agreements with credit institutions	3,203	–	3,203
	Repurchase agreements with customers	662	654	1,316
Total		3,865	654	4,519

Repurchase agreements

The securities sold under repurchase agreements are transferred to a third party while the Group receives cash in exchange, or other financial assets. If the securities increase or decrease in value, the Group may, in certain circumstances, require, or be required, to pay additional cash collateral. The Group has determined that it retains substantially all the risks and rewards of these securities, which includes credit risk, market risk, country risk and operational risk, and therefore has not derecognised them. In addition, it recognises a financial liability for cash received.

(in millions of Russian rubles)

32. Transferred financial assets and assets held or pledged as collateral (continued)

Transferred financial assets that are not derecognised in their entirety (continued)

Repurchase agreements (continued)

Similarly the Group may sell or re-pledge securities borrowed or purchased under reverse repurchase agreements, but has an obligation to return the securities and the counterparty retains substantially all the risks and rewards of ownership. Consequently the securities are not recognised by the Group, which instead records a separate asset for any possible cash given.

Under the contracts, the counterparty is allowed to sell or repledge the securities sold under repurchase agreements in the absence of default by the Group, but has an obligation to return the securities at the maturity of the contract.

Assets pledged as collateral

The Group pledges assets that are on its statement of financial position in various day-to-day transactions that are conducted under the usual terms and conditions applying to such agreements. The Group pledged securities as collateral in repurchase agreements for RUB 28,064 million (31 December 2011: RUB 4,715 million) – *"Transferred financial assets that are not derecognised in their entirety"*.

Assets held as collateral

The Group holds certain assets as collateral which it is permitted to sell or repledge in the absence of default by the owner of the collateral, under the usual terms and conditions applying to such agreements. The Group received securities as collateral in reverse repurchase agreements with credit institutions up to 90 days with a fair value of RUB 6,315 million (31 December 2011: RUB 3,003 million). Besides, the Group received securities as collateral in reverse repurchase agreements with customers with a fair value of RUB 16,081 million (31 December 2011: RUB 24,629 million).

Of these, securities with a fair value of RUB 2,747 million have been sold under agreements with the Bank of Russia to repurchase and securities with a fair value of RUB 1,131 million have been sold under agreements with customers to repurchase under the usual terms and conditions applying to such agreements (31 December 2011: RUB 4,035 million under agreements with credit institutions to repurchase).

In addition, the Group holds RUB 128 million under Amounts due from credit institutions (Note 22), RUB 8,469 million under Amounts due to customers (31 December 2011: RUB 3,841 million) (Note 23) and RUB 834 million of promissory notes issued by the Group (31 December 2011: RUB 1,289 million) (Note 24) as collateral for letters of credit and issued guarantees. The Group is obliged to return the collateral at maturity of the letters of credit and issued guarantees.

33. Related party transactions

In accordance with IAS 24 *Related Party Disclosures*, parties are considered to be related if one party has the ability to control the other party or exercise significant influence over the other party in making financial or operational decisions. In considering each possible related party relationship, attention is directed to the substance of the relationship, and not merely the legal form.

Related parties may enter into transactions which unrelated parties might not, and transactions between related parties may not be effected on the same terms, conditions and amounts as transactions between unrelated parties.

Related parties include the state, key management of the Group and associated companies. Since Vnesheconombank is a state corporation, all state-controlled entities or entities on which the state has a significant influence (collectively – state-related entities) are considered to be related parties of the Group.

(in millions of Russian rubles)

33. Related party transactions (continued)

Transactions with associates and key management personnel ((continued))

Compensation to key management personnel comprises the following:

	<u>2012</u>	<u>2011</u>
Salaries and other short-term benefits	2,213	1,889
Social security contributions	195	85
Total compensation to key management personnel	<u>2,408</u>	<u>1,974</u>

Transactions with the state, state institutions and state-related entities

The information about transactions with the Russian Government, its authorized institutions and the Bank of Russia is provided in Note 8.

The Bank is servicing, in an agency capacity, the foreign debt of the former USSR and the Russian Federation until the date determined by the Russian Government (Note 9).

In addition, at 31 December 2012 transactions with state-related entities include the Group's deposits with the Bank of Russia that mature within 90 days totaling RUB 300 million (31 December 2011: RUB 120 million) (Note 10) and cash non-interest-bearing deposits (obligatory reserves) maintained by the Group's subsidiary banks with the Bank of Russia in the amount of RUB 3,589 million (31 December 2011: RUB 4,001 million) (Note 12).

In the normal course of its business the Bank and Group's subsidiaries grant loans to state-related credit institutions, as well as raise financing and issue guarantees in regard to these institutions (the list of transactions with the credit institutions is not complete). These transactions are carried out primarily under market conditions. Transactions with state-related credit institutions account for the major portion of all Group's operations on granting loans to credit institutions and the minor portion of financing raised from credit institutions and guarantees issued. Balances of significant transactions with state-related credit institutions At 31 December 2012 and 31 December 2011 are stated in the table below:

Credit institution	Types of transactions	Amounts due from credit institutions	
		At 31 December 2012	At 31 December 2011
Credit institution 1	Subordinated loans	183,839	182,140
Credit institution 2	Subordinated loans	38,872	86,318
Credit institution 3	Subordinated loans	22,980	22,767
Credit institution 4	Interbank loans and term interest-bearing deposits with credit institutions	21,327	22,565
Credit institution 1	Interest-bearing loans and deposits with credit institutions maturing within 90 days	15,004	14,006
Credit institution 5	Subordinated loans	10,228	10,135
Credit institution 6	Interbank loans and term interest-bearing deposits with credit institutions	8,482	5,745
Credit institution 7	Interest-bearing loans and deposits with credit institutions maturing within 90 days	7,944	3,300
Credit institution 2	Interbank loans and term interest-bearing deposits with credit institutions	5,369	2,893
Credit institution 8	Interest-bearing loans and deposits with credit institutions maturing within 90 days	4,202	–
Credit institution 3	Interbank loans and term interest-bearing deposits with credit institutions	3,929	3,861
Credit institution 9	Interest-bearing loans and deposits with credit institutions maturing within 90 days	–	3,866
		<u>322,176</u>	<u>357,596</u>

(in millions of Russian rubles)

33. Related party transactions (continued)

Transactions with the state, state institutions and state-related entities (continued)

Credit institution	Types of transactions	Amounts due to credit institutions	
		At 31 December 2012	At 31 December 2011
Credit institution 7	Loans and other placements from Russian credit institutions	67,774	28,971
Credit institution 10	Loans and other placements from Russian credit institutions	30,042	5,954
Credit institution 2	Loans and other placements from Russian credit institutions	20,012	19,093
Credit institution 8	Loans and other placements from Russian credit institutions	4,537	4,522
Credit institution 11	Loans and other placements from OECD-based credit institutions	3,070	4,423
Credit institution 1	Loans and other placements from Russian credit institutions	0	22,106
Credit institution 12	Loans and other placements from non-resident banks	0	3,220
		125,435	88,289

At 31 December 2012, the Group's significant commitments to extend loans to credit institutions 2 and 7 amounted to RUB 4,584 million and RUB 8,629 million, respectively. At 31 December 2011, significant commitments to extend loans to the same credit institutions amounted to RUB 7,000 million and RUB 10,000 million, respectively. These credit lines were opened under Vnesheconombank's Investment Program to support affordable housing construction and mortgage projects.

In the normal course of business the Bank and Group's subsidiaries grant loans to state-related customers, as well as issue guarantees to these customers, maintain their current accounts and raise deposits from them (the list of transactions with the customers is not complete). These transactions are carried out primarily under market conditions. Transactions with state-related customers account for the major portion of all Group's operations with customers. Balances of significant transactions with state-related institutions and entities at 31 December 2012 and at 31 December 2011 are stated in the tables below:

As at 31 December 2012 and at 31 December 2011, the Group's investments in debt securities issued by the Russian Government comprised:

	At 31 December 2012	At 31 December 2011
Financial assets at fair value through profit or loss	1,528	11,490
Investment financial assets:		
- available for sale	6,201	25,230
- held to maturity	761	1,322
Investment financial assets available for sale and pledged under repurchase agreements	409	–

As at 31 December 2012 and 31 December 2011, there were no transactions involving derivative financial instruments with the Russian Government.

(in millions of Russian rubles)

33. Related party transactions (continued)

Transactions with the state, state institutions and state-related entities (continued)

In the normal course of business the Group invests in securities issued by state-related issuers and enters into derivative contracts with such counterparties. As at 31 December 2012 and 31 December 2011, the Group's investments into securities issued by state-related issuers, as well as derivative transactions with such counterparties comprised:

	At 31 December 2012			At 31 December 2011		
	Equity securities	Debt securities	Derivative financial instruments	Equity securities	Debt securities	Derivative financial instruments
Financial assets at fair value through profit or loss	25,742	9,574	13,621	30,636	8,487	15,238

Investment financial assets available for sale pledged under repurchase agreements	–	966	–	649	–	–
Financial liabilities at fair value through profit or loss	–	–	9	–	–	152

At 31 December 2012, investment financial assets available for sale also include a financial asset issued by a state-related credit institution with fair value of RUB 47,134 million.

Significant financial results related to transactions with the state are presented below:

	2012	2011
Interest expense:		
Amounts due to the Bank of Russia	(19,396)	(12,248)
Amounts due to the Russian Government	(44,459)	(39,277)

34. Capital adequacy

The capital adequacy ratio is one of the most important indicators characterizing the level of risks accepted by the Bank and, therefore, determining its financial stability. To comply with a minimum level of 10% set out in the Memorandum on Financial Policies and to maintain a high credit rating, the Bank monitors its capital adequacy ratio on an ongoing basis.

The methods of computing the capital adequacy ratio are elaborated on the basis of regulations issued by the Bank of Russia and with regard to the generally acceptable international practices of computing capital adequacy ratios, and approved by the Supervisory Board of the Bank.

In 2012 and 2011, the Bank complied with capital adequacy ratio requirements.

(in millions of Russian rubles)

34. Capital adequacy (continued)

At 31 December, the Bank's capital adequacy ratio calculated in accordance with the above methods was as follows:

	<u>2012</u>	<u>2011</u>
Main capital	504,290	484,505
Additional capital	62,618	62,618
Less: deductions from capital	<u>(252,940)</u>	<u>(210,363)</u>
Total capital	<u>313,968</u>	<u>336,760</u>
Risk-weighted assets	<u>2,889,129</u>	<u>2,315,833</u>
Capital adequacy ratio	10.9%	14.5%

In order to maintain or adjust the capital structure and in accordance with Federal law, the charter capital of the Bank may be increased pursuant to a resolution of the Russian Government on the account of additional monetary contribution of the Russian Federation or income of Vnesheconombank. Proposals regarding income distribution are drafted by the Management Board of the Bank and further approved by the Supervisory Board.

35. Subsequent events

On the basis of Resolution of the Russian Government No. 08-r dated 15 January 2013, the Russian Government decided to transfer 1.1278% of the state-owned shares in the international and domestic long-distance electrical communication operator Open Joint-Stock Company "Rostelecom" as an additional asset contribution to the charter capital of Vnesheconombank.

In January 2013, the Bank raised a 2-year syndicated loan in the amount of USD 800 million (equivalent to RUB 24,022 million as at the date of the loan extension) with the floating interest rate. The funds are earmarked for financing the current investment projects of the Bank.

In January 2013, Vnesheconombank used the subsidy (grant) of RUB 62,000 million (Note 21) to purchase 60,218 additionally issued units of Mutual Fund RDIF. The Bank's share in assets of its subsidiary remained unchanged at 100%.

In January 2013, the Bank raised from a foreign bank a 6-year loan in the amount of RUB 2,005 million with the fixed interest rate. The funds are earmarked for financing the real sector of the economy.

On 4 January 2013 the Group's subsidiary fund – Closed-end Mutual Equity Fund "Bazis" (Note 6) – acquired 37,000,000 of common shares or 22.6% of the developer company for the sum of USD 78 million (equivalent to RUB 2,360 million, at the exchange rate effective on the date of the acquisition). In March 2013 the Fund made an additional acquisition of common shares for the sum of USD 99 million (equivalent to RUB 3,041 million, at the exchange rate effective on the date of the acquisition) or increased its interest in the above company up to 51.4%. Currently, the Group assesses the fair value of the assets, liabilities and contingent liabilities of the acquired company.

In February 2013, the Bank placed Eurobonds with a nominal value of EUR 1,000 million (the equivalent of RUB 40,339 million at the date of placement) maturing in 5 years, and Eurobonds with a nominal value of EUR 500 million (the equivalent of RUB 20,170 million at the date of placement) maturing in 10 years.

(in millions of Russian rubles)

35. Subsequent events (continued)

In February 2013, the Bank purchased 2,000,000 ordinary registered shares additionally issued by OJSC "Federal Center for Project Finance" in the amount of RUB 2,000 million. The Bank's share in the equity of its subsidiary remained unchanged at 100%.

In February 2013, the Bank received a loan from a foreign bank in the amount of USD 150 million (RUB 4,502 million at the date of issue). The loan bears a floating interest rate and matures in 7 years. The funds will be used to finance the real sector.

On 6 February 2013 the Bank's subsidiary acquired 100% of the LLC Trade-Industrial Company Orskie Zavodi. Currently, the Group assesses the fair value of the assets, liabilities and contingent liabilities of the acquired company. The core activity of the acquired company is wholesale trade in household wares. LLC TIC Orskie Zavodi was acquired with a view to increasing its market value.

In March 2013, Vnesheconombank used the subsidy (grant) of RUB 15,000 million (Note 21) as payment for the additionally issued 15,000,000 shares of OJSC "The Far East and the Baikal region Development Fund". The Bank's share in the equity of its subsidiary remained unchanged at 100%.

In March 2013, the Republic of Cyprus faced deterioration in the financial and economic areas. The Bank and its subsidiaries have funds placed for the most part with the Cyprus subsidiary bank of a large Russian banking group. The Group's management believes that the financial and economic crisis in Cyprus will not have a material adverse effect on the Group's financial position or performance.

In March 2013 the leasing company of the Group made two issues of non-convertible interest-bearing documentary bonds (Series 10 and 11), nominal value of each issue RUB 5,000 million maturing in 5 years.

In April 2013, VEB Asia Limited was registered in Hong Kong, with Vnesheconombank holding a 100% interest in its share capital which is equivalent to USD 30 million. The company will liaise with Hong Kong financial institutions and will operate to encourage Asian investors to finance large-scale projects implemented in the Russian Federation.

Independent auditors' report

To the Supervisory Board
of state corporation "Bank for Development and Foreign Economic Affairs
(Vnesheconombank)"

We have audited the accompanying consolidated financial statements of state corporation "Bank for Development and Foreign Economic Affairs (Vnesheconombank)" (hereinafter, the "Bank") and its subsidiaries (collectively, the "Group"), which comprise the consolidated statement of financial position as at 31 December 2011, and the consolidated statement of income, consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's responsibility for the consolidated financial statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with International Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error

Auditors' responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of the Group of state corporation "Bank for Development and Foreign Economic Affairs (Vnesheconombank)" as at 31 December 2011, and its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards.

(In millions of Russian rubles)

1. Principal activities

The Group of state corporation "Bank for Development and Foreign Economic Affairs (Vnesheconombank)" comprises state corporation "Bank for Development and Foreign Economic Affairs (Vnesheconombank)" ("Vnesheconombank" or the "Bank"), Russian banks, CIS-based banks, and Russian and foreign companies controlled by the Group. List of major subsidiaries is presented in Note 3, associates - in Note 17.

Vnesheconombank was formed on 8 June 2007 pursuant to and in accordance with Federal Law No. 82-FZ dated 17 May 2007, "On Bank for Development" (Federal Law No. 82-FZ), by means of reorganization of Bank for Foreign Economic Affairs of the USSR ("Vnesheconombank of the USSR") and is its legal successor. Vnesheconombank of the USSR was a specialized state bank of the Russian Federation servicing, in an agency capacity, the foreign debt and assets of the former USSR and the Government of the Russian Federation and its authorized institutions (the Russian Government).

In accordance with Federal Law No. 395-1, "On Banks and Banking Activity", dated 2 December 1990, Vnesheconombank performs banking operations as stipulated by Federal Law No. 82-FZ. The Bank has no right to attract deposits from individuals. The legislation on banks and banking activity shall apply to the Bank only to the extent that it does not contradict the mentioned Federal Law and subject to certain specifics.

The main principles and areas of the Bank's activity are set out in the Federal Law and the Memorandum on the Bank's Financial Policies, approved by Resolution of the Russian Government No. 1007-r dated 27 July 2007. The Memorandum on the Bank's Financial Policies provides for the main areas of the Bank's investing and financing activities, stipulates quantitative limitations, conditions and criteria of specific operations.

The management bodies of the Bank are the Supervisory Board chaired by the Prime Minister of the Russian Federation, the Management Board and the Chairman of the Bank. In accordance with the Federal Law, the Chairman of the Bank is appointed by the President of the Russian Federation for a term which cannot exceed 5 years.

Vnesheconombank activities are aimed at overcoming infrastructure growth constraints, upgrading and promoting non-raw materials economic sector, encouraging innovations and exports of high-technology products, carrying out projects in special economic zones, environment protection projects, and supporting small and medium-sized businesses. The Bank actively participates in large investment projects contributing to the development of infrastructure and high-technology industries of the real sector of the economy.

As detailed in Note 25, the Bank's charter capital has been formed by means of asset contributions from the Russian Federation made under decisions of the Russian Government, including contribution of state-owned shares of OJSC "Russian Bank for Development" (in 2011 renamed to – OJSC "Russian Bank for Small and Medium Enterprises Support" (OJSC "SME Bank")), CJSC State Specialized Russian Export-Import Bank (CJSC "ROSEXIMBANK") and OJSC "Federal Center for Project Finance" to the charter capital.

Vnesheconombank performs the functions of an agent of the Russian Government for the purpose of accounting, servicing and repaying the foreign national debt of the former USSR and the Russian Federation (including internal currency debt of the former USSR), accounting, servicing and repaying (using) government loans issued by the former USSR and the Russian Federation to foreign borrowers; collecting (recovery) of debts from legal entities, constituent entities of the Russian Federation and municipal governments under cash liabilities to the Russian Federation; providing and executing state guarantees of the Russian Federation and monitoring projects implemented by the Russian Federation with involvement of international financial institutions.

(In millions of Russian rubles)

1. Principal activities (continued)

Vnesheconombank performs the functions of an agent of the Russian Government under the Agreement entered into with the Ministry of Finance of the Russian Federation (the Russian Ministry of Finance) on 25 December 2009 and Additional Agreement No.1 dated 23 December 2010 and Additional Agreement No.2 dated 8 December 2011. In 2012, the Russian Ministry of Finance expects to enter into a new additional agreement.

In 2011, Vnesheconombank received a lump-sum consideration in the amount of RUB 534 million (2010: RUB 534 million) for the agency services provided pursuant to Federal Law No. 357-FZ "On the Federal Budget for 2011 and the 2012 and 2013 Planned Period" dated 13 December 2010.

As described in greater detail in Note 8, at 31 December 2011 and 31 December 2010, the Russian Government owed Vnesheconombank RUB 1,147 million and RUB 1,123 million, respectively, relating to the London Club debt obligation of Vnesheconombank. These amounts have been presented in the Bank's statement of financial position and are not subject to offsetting. No allowance has been provided with respect to the Russian Government receivable under the London Club debt.

The Bank performs functions of the agent servicing the foreign debt of the former USSR and of the Russian Federation, including maintenance of accounting records, settlements and reconciliation of above debt until the date determined by the Russian Government.

In January 2003, the Bank was nominated as the state trust management company for the trust management of pension savings funds accumulated by the State Pension Fund of the Russian Federation. Vnesheconombank performs trust management of accumulated pension savings of insured citizens who have not selected a private management company and who have selected the Bank as the management company.

On 2 August 2009, Federal Law No. 182-FZ dated 18 July 2009, "On Amendments to Federal Law "On Non-state Pension Funds" and Federal Law "On Investment of Funds to Finance the Funded Part of Labor Pensions in the Russian Federation", came into effect which provides that from 1 November 2009 the Bank as the state trust management company shall form two portfolios: an extended investment portfolio and an investment portfolio of government securities. The Bank shall form the portfolios in accordance with the investment declarations approved by Resolution of the Russian Government No. 842 dated 24 October 2009.

During 2011, the Bank, as a state management company, mainly invested in state securities denominated in Russian rubles, and corporate bonds of highly credible Russian issuers and mortgage securities. At 31 December 2011 and 31 December 2010, total funds of the State Pension Fund of the Russian Federation placed in management to the state management company amounted to RUB 1,328,885 million and RUB 737,821 million in the extended investment portfolio and RUB 5,157 million and RUB 2,398 million in the portfolio of government securities, respectively.

In accordance with Resolution of the Russian Government No. 970 dated 22 December 2008, the Bank shall perform functions of the state trust management company until 1 January 2014.

Since October 2008, Vnesheconombank has been taking measures aimed at supporting the financial system of the Russian Federation so as to implement Federal Law No.173-FZ dated 13 October 2008, "On Additional Measures to Support the Financial System of the Russian Federation" (Federal Law No. 173-FZ). As detailed in Notes 12 and 14, the Bank extended unsecured subordinated loans to Russian banks, and starting from the end of December 2010, the Bank acts as a lender for operations to enhance affordability of mortgage loans through extending loans to OJSC "The Agency for Housing Mortgage Lending" ("AHML").

(In millions of Russian rubles)

1. Principal activities (continued)

The Bank's head office is located in Moscow, Russia. The Bank has representative offices in St. Petersburg (Russia), Khabarovsk (Russia), Yekaterinburg (Russia), Pyatigorsk (Russia), Rostov-on-Don (Russia), Krasnoyarsk (Russia), the United States of America, the UK, Italy, Germany, the Republic of South Africa, India, the People's Republic of China, the French Republic and the Swiss Confederation. The Bank's principal office is located at 9 Prospect Akademika Sakharova, Moscow.

At 31 December 2011 and 31 December 2010, the Group had 17,935 and 17,832 employees, respectively.

2. Basis of preparation

General

These consolidated financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS").

The Bank, its subsidiaries and associates maintain their accounting records and prepare financial statements in accordance with regulations applicable in their country of registration. These consolidated financial statements are based on those accounting books and records, as adjusted and reclassified in order to comply with IFRS. The reconciliation between equity and net income/(loss) before adjustments and reclassifications and per IFRS is presented later in this note.

The consolidated financial statements have been prepared under the historical cost convention except as disclosed in the accounting policies below. For example, trading securities, financial assets designated as at fair value through profit or loss, available-for-sale securities and derivative financial instruments have been measured at fair value.

These consolidated financial statements are presented in millions of Russian rubles ("RUB million"), unless otherwise is indicated.

Functional currency

The Russian Ruble is the functional currency of Vnesheconombank and the presentation currency of the Group. Transactions in other currencies are treated as transactions in foreign currencies. The Group's foreign subsidiary OJSC "Belvnesheconombank" uses the Belarusian Ruble ("BYR") as its functional currency. Public Stock Company "Joint-Stock Commercial Industrial and Investment Bank" ("PSC Prominvestbank"), another foreign subsidiary of the Group, uses the Ukrainian Hryvnia ("UAH") as its functional currency.

London Club debt amounts denominated in foreign currencies are recorded at the official rates of the Bank of Russia at 31 December 2011 and 31 December 2010.

Clearing currencies are the settlement currencies for bilateral trade between the Russian Federation and designated countries. Clearing currencies are regularly traded on special auctions held by the Bank under the supervision of the Russian Ministry of Finance. Clearing currencies-denominated assets and liabilities have been translated into RUB at the official rates of the Bank of Russia at 31 December 2011 and 31 December 2010.

(In millions of Russian rubles)

2. Basis of preparation (continued)

General (continued)

Segregation of operations

In its agency capacity the Bank manages and services certain assets and liabilities on behalf of the Russian Government. Balances of respective assets and liabilities have not been included in the accompanying statements of financial position given the agency nature of the relationship and in accordance with the underlying Agency Agreements and specific guidelines (hereinafter, the "Guidelines") approved by the Board of Directors of Vnesheconombank of the USSR and the Russian Ministry of Finance in 1997.

The Guidelines stipulated the following assets and liabilities are the responsibility of the Russian Ministry of Finance and have, therefore, been excluded from the accompanying statements of financial position:

1. Liabilities to foreign creditors including all accrued interest which are serviced and redeemed at the expense of the Russian Government, except some remaining London Club obligations (Note 8);
2. Internal foreign currency debt to residents of the former USSR;
3. Claims to legal entities for foreign currency government and commercial loans granted to Russian Federation regions, former republics of the USSR, and other foreign countries representing both government external and internal foreign currency assets;
4. Clearing, barter, and mutual settlements, including corresponding settlements with clients, executed on the basis of intergovernmental agreements;
5. Participation claims and liabilities related to the reorganization of former USSR-owned foreign banks, which are subject to trilateral settlement by the Bank of Russia, the Russian Ministry of Finance, and Vnesheconombank, and equity participations financed by borrowings, the responsibility for which was assumed by the Russian Ministry of Finance;
6. Claims against Russian commercial banks and other commercial entities for guarantees in favor of the Russian Ministry of Finance under centralized operations, as well as other claims and liabilities that resulted from, or arise as a result of, operations conducted at the expense of the Russian Government.

Reconciliation of equity and income for the reporting year before adjustments and reclassifications and per IFRS

Equity and net income for the reporting year before adjustments and reclassifications are reconciled to IFRS as follows:

	2011		2010

3. Major subsidiaries

The Group's major subsidiaries included in the financial statements are presented in the table below:

Subsidiaries	Ownership		Country of incorporation	Type of activity
	31 December 2011	31 December 2010		
CJSC "ROSEXIMBANK"	100%	100%	Russia	Banking
OJSC "Belvnesheconombank"	97.49%	97.42%	Republic of Belarus	Banking
OJSC "VEB-Leasing"	98.96%	97.97%	Russia	Leasing
OJSC "SME Bank"	100%	100%	Russia	Banking
OJSC "Sviaz-Bank"	99.47%	99.47%	Russia	Banking
PSC "Prominvestbank"	97.85%	93.84%	Ukraine	Banking
CJSC "Kraslesinvest"	100%	100%	Russia	Production and processing of materials
CJSC "GLOBEXBANK"	99.99%	99.16%	Russia	Banking
LLC "VEB-Capital"	100%	100%	Russia	Finance intermediary
LLC "VEB Engineering"	67.55%	51.00%	Russia	Investment project implementation services
OJSC "Federal Center for Project Finance"	100%	100%	Russia	Finance intermediary
OJSC "North Caucasus Development Corporation"	100%	–	Russia	Advisory services, investment project support
LLC "Management Company RDIF"	100%	–	Russia	Management company
OJSC "EXIAR"	100%	–	Russia	Insurance
OJSC "The Far East and the Baikal region Development Fund"	100%	–	Russia	Support to investment projects
Share of assets:				
Closed-end Mutual Hedge Fund "MRIF"	99.92%	99.92%	Russia	Mutual fund
Closed-end Mutual Equity Fund "MRIF - II"	99.9975%	99.9975%	Russia	Mutual fund
Mutual Fund RDIF	100%	–	Russia	Mutual fund

In March 2011, the report on issue of shares of OJSC "North Caucasus Development Corporation" was officially registered. The founder of the Corporation was Vnesheconombank. The Bank contributed RUB 500 million to the charter capital of the subsidiary (100% shares). The principal activities of the subsidiary include supporting investment projects implemented in the North Caucasus and providing advice to regional authorities.

In April 2011, Vnesheconombank made an additional contribution to the charter capital of LLC "VEB Capital" for the total amount of RUB 300 million. The Group's share in charter capital of LLC "VEB Capital" has not changed and is 100%.

In June 2011, Vnesheconombank established its subsidiary, Management Company of the Russian Direct Investment Fund (LLC "Management Company RDIF"). The Bank contributed RUB 300 million to the charter capital of the LLC "Management Company RDIF" (100% interest). The principal objective of the company's activities of the company includes creation of an environment that would encourage foreign investments in high-tech sectors of the Russian economy.

In October 2011, OJSC "EXIAR", the Russia's Export Credit and Investment Insurance Agency, was registered. Vnesheconombank is the sole founder of the Fund. The charter capital of OJSC "EXIAR" is paid to RUB 30,000 million. The Agency specializes in insuring export credits and investments against business and political risks.

(In millions of Russian rubles)

3. Major subsidiaries (continued)

In November 2011, OJSC "The Far East and the Baikal region Development Fund" possessing the equity equaling to RUB 500 million was registered. Vnesheconombank is the sole founder of the Fund. The Fund will specialize in promoting investment projects in the Far East and the Baikal region.

In December 2011, the Bank purchased 100% of units of the mutual fund of the long-term investments "The Russian Fund of Direct Investments" ("Mutual Fund RDIF") managed by LLC "Management Company RDIF". At 31 December 2011, the Bank invested RUB 62,600 million.

In December 2011, the Bank purchased 2,900,000 additionally issued shares of OJSC "Federal Center for Project Finance" at a total sum amounted to RUB 2,900 million (the shares were purchased at their nominal value equaling to RUB 1,000 per unit). The Group's share in the equity of OJSC "Federal Center for Project Finance" has not changed and is 100%.

4. Summary of significant accounting policies

Changes in accounting policies

The Group has adopted the following revised and amended IFRS and new IFRIC Interpretations during the reporting year. The principal effects of these changes are as follows:

IAS 24 "Related Party Disclosures" (Revised)

The revised IAS 24, issued in November 2009, simplifies the disclosure requirements for government-related entities and clarifies the definition of a related party. Previously, an entity controlled or significantly influenced by a government was required to disclose information about all transactions with other entities controlled or significantly influenced by the same government. The revised standard requires disclosure about these transactions only if they are individually or collectively significant. The revised IAS 24 is effective for annual periods beginning on or after 1 January 2011. The disclosure of transactions with related parties in accordance with the revised IAS 24 is presented in Note 33.

Amendments to IAS 32 Financial Instruments: Presentation - Classification of Rights Issues

In October 2009, the IASB issued amendment to IAS 32. Entities shall apply that amendment for annual periods beginning on or after 1 February 2010. The amendments alter the definition of a financial liability in IAS 32 to classify rights issues and certain options or warrants as equity instruments. This is applicable if the rights are given pro rata to all of the existing owners of the same class of an entity's non-derivative equity instruments, in order to acquire a fixed number of the entity's own equity instruments for a fixed amount in any currency. These amendments did not have any impact on the Group's consolidated financial statements.

IFRIC 19 "Extinguishing Financial Liabilities with Equity Instruments"

IFRIC Interpretation 19 was issued in November 2009 and is effective for annual periods beginning on or after 1 July 2010. The Interpretation clarifies the accounting when the terms of a financial liability are renegotiated and result in the entity issuing equity instruments to a creditor to extinguish all or part of the financial liability. This interpretation had no impact on the Group's consolidated financial statements.

Improvements to IFRSs

In May 2010, the IASB issued the third omnibus of amendments to its standards, primarily with a view to removing inconsistencies and clarifying wording. Most of the amendments are effective for annual periods beginning on or after 1 January 2011. There are separate transitional provisions for each standard. Amendments included in May 2010 "Improvements to IFRS" had impact on the accounting policies, financial position or performance of the Group, as described below.

(In millions of Russian rubles)

4. Summary of significant accounting policies (continued)

Changes in accounting policies (continued)

- IFRS 3 *Business Combinations*: restricts the application of the measurement choices that only the components of NCI that are present ownership interests that entitle their holders to a proportionate share of the entity's net assets, in the event of liquidation, shall be measured either at fair value or at the present ownership instruments' proportionate share of the acquiree's identifiable net assets.
- IFRS 7 *Financial Instruments: Disclosures*: introduces the amendments to quantitative and credit risk disclosures. The additional requirements were taken into account in the preparation of the annual financial statements.
- Other amendments to IFRS 1, IFRS 3, IAS 1, IAS 27, IAS 34 and IFRIC 13 will have no impact on the accounting policies, financial position or performance of the Group.

The following amended standards and interpretations had no impact on accounting policies, financial position or performance of the Group:

- IFRS 1 *First-time Adoption of International Financial Reporting Standards – Limited Exemption from Comparative IFRS 7 Disclosures for First-time Adopters*;
- IFRIC 14 *Prepayments of a Minimum Funding Requirement*.

Basis of consolidation

Subsidiaries, which are those entities in which the Group has an interest of more than one half of the voting rights, (stakes in equity), or otherwise has power to exercise control over their operations, are consolidated. Subsidiaries are consolidated from the date on which control is transferred to the Group and are no longer consolidated from the date that control ceases. All intercompany transactions, balances and unrealized gains on transactions between group companies are eliminated in full; unrealized losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Where necessary, accounting policies for subsidiaries have been changed to ensure consistency with the policies adopted by the Group.

A change in the ownership interest of a subsidiary, without a change of control, is accounted for as an equity transaction. Losses are attributed to non-controlling interests even if that results in a deficit balance.

If the Group loses control over a subsidiary, it derecognizes the assets (including goodwill) and liabilities of the subsidiary, the carrying amount of any non-controlling interests, the cumulative translation differences, recorded in equity; recognizes the fair value of the consideration received, the fair value of any investment retained and any surplus or deficit in profit or loss and reclassifies the parent's share of components previously recognized in other comprehensive income to profit or loss or retained earnings, as appropriate.

Business combination

Business combinations are accounted for using the acquisition method. The cost of an acquisition is measured as the aggregate of the consideration transferred, measured at acquisition date fair value and the amount of any non-controlling interests in the acquiree. For each business combination, the acquirer measures the non-controlling interests in the acquiree, that are present ownership interests that entitle their holders to a proportionate share of the entity's net assets in the event of liquidation, either at fair value or at the proportionate share of the acquiree's identifiable net assets. Other components of non-controlling interest are measured at acquisition date fair value. Acquisition costs incurred are expensed.

(In millions of Russian rubles)

4. Summary of significant accounting policies (continued)

Business combinations (continued)

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts by the acquiree.

If the business combination is achieved in stages, the acquisition date fair value of the acquirer's previously held equity interest in the acquiree is remeasured to fair value as at the acquisition date through profit or loss.

Any contingent consideration to be transferred by the acquirer is recognized at fair value at the acquisition date. Subsequent changes to the fair value of the contingent consideration which is deemed to be an asset or liability will be recognized in accordance with IAS 39 either in profit or loss or as change to other comprehensive income. If the contingent consideration is classified as equity, it shall not be remeasured until it is finally settled within equity.

Goodwill is initially measured at cost being the excess of the consideration transferred over the Group's net identifiable assets acquired and liabilities assumed. If this consideration is lower than the fair value of the net assets of the subsidiary acquired, the difference is recognized in profit or loss.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash generating units that are expected to benefit from the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units.

Where goodwill forms part of a cash-generating unit and part of the operation within that unit is disposed of, the goodwill associated with the operation disposed of is included in the carrying amount of the operation when determining the gain or loss on disposal of the operation. Goodwill disposed of in this circumstance is measured based on the relative values of the operation disposed of and the portion of the cash-generating unit retained.

Acquisition of subsidiaries from parties under common control

Acquisitions of subsidiaries from parties under common control are accounted for using the pooling of interests method.

The assets and liabilities of the subsidiary transferred under common control are recorded in consolidated financial statements at the carrying amounts of the transferring entity (the Predecessor) at the date of the transfer. Related goodwill inherent in the Predecessor's original acquisition is also recorded in consolidated financial statements. Any difference between the total book value of net assets, including the Predecessor's goodwill, and the consideration paid is accounted for in consolidated financial statements as an adjustment to the shareholders' equity.

Consolidated financial statements, including corresponding figures, are presented as if the subsidiary had been acquired by the Group on the date it was originally acquired by the Predecessor.

(In millions of Russian rubles)

4. Summary of significant accounting policies (continued)

Investments in associates

Associates are entities in which the Group generally has between 20% and 50% of the voting rights or participation shares, (stakes in equity), or is otherwise able to exercise significant influence, but which it does not control or jointly control. Investments in associates are accounted for under the equity method and are initially recognized at cost, including goodwill. Subsequent changes in the carrying value reflect the post-acquisition changes in the Group's share of net assets of the associate. The Group's share of its associates' profits or losses is recognized in the consolidated statement of income, and its share of movements in reserves is recognized in other comprehensive income. However, when the Group's share of losses in an associate equals or exceeds the value of its interest in the associate, the Group does not recognize further losses, unless the Group is obliged to make further payments to, or on behalf of, the associate.

Unrealized gains on transactions between the Group and its associates are eliminated to the extent of the Group's interest in the associates; unrealized losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred.

Financial assets

Initial recognition

Financial assets in the scope of IAS 39 are classified as either financial assets at fair value through profit or loss, loans and receivables, held-to-maturity investments, or available-for-sale financial assets, as appropriate. When financial assets are recognized initially, they are measured at fair value, plus, in the case of investments not at fair value through profit or loss, directly attributable transaction costs. The Group determines the classification of its financial assets upon initial recognition, and subsequently can reclassify financial assets in certain cases as described below.

Date of recognition

All regular way purchases and sales of financial assets are recognized on the trade date, i.e. the date that the Group commits to purchase the asset. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the period generally established by regulation or convention in the marketplace.

'Day 1' profit

Where the transaction price in a non-active market is different to the fair value from other observable current market transactions in the same instrument or based on a valuation technique whose variables include only data from observable markets, the Group immediately recognizes the difference between the transaction price and fair value (a 'Day 1' profit) in the consolidated statement of income. In cases where use is made of data which is not observable, the difference between the transaction price and model value is only recognized in the consolidated income statement when the inputs become observable, or when the instrument is derecognized.

Financial assets at fair value through profit or loss

Financial assets classified as held for trading are included in the category 'financial assets at fair value through profit or loss'. Financial assets are classified as held for trading if they are acquired principally for the purpose of generating a profit from short-term fluctuations in price or dealers' margin. Derivatives are also classified as held for trading. Gains and losses resulting from operations with financial assets at fair value through profit or loss are recognized in the consolidated statement of income within gains less losses from financial instruments at fair value through profit or loss.

(In millions of Russian rubles)

4. Summary of significant accounting policies (continued)

Financial assets (continued)

Held-to-maturity investments

Non-derivative financial assets with fixed or determinable payments and fixed maturity are classified as held-to-maturity when the Group has the positive intention and ability to hold them to maturity. Investments intended to be held for an undefined period are not included in this classification. Held-to-maturity investments are subsequently measured at amortized cost. Gains and losses are recognized in the consolidated statement of income when the investments are impaired, as well as through the amortization process.

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are not entered into with the intention of immediate or short-term resale and are not classified as trading securities or designated as investment securities available for sale. Such assets are carried at amortized cost using the effective interest method. Gains and losses are recognized in the consolidated income statement when the loans and receivables are derecognized or impaired, as well as through the amortization process.

Available-for-sale financial assets

Available-for-sale financial assets are those non-derivative financial assets that are designated as available-for-sale or are not classified in any of the three other categories. After initial recognition available-for-sale financial assets are measured at fair value with gains and losses from changes in fair value being recognized in other comprehensive income until the investment is derecognized or until the investment is determined to be impaired at which time the cumulative gain or loss previously reported in other comprehensive income is reclassified to the consolidated statement of income as gains less losses from investment securities available for sale. However, interest calculated using the effective interest method is recognized in the consolidated income statement.

Non-marketable securities that do not have fixed maturities are stated at cost, less allowance for diminution in value unless there are other appropriate and workable methods of reasonably estimating their fair value.

Determination of fair value

The fair value for financial instruments traded in an active market at the reporting date is based on their quoted market price or dealer price quotations (bid price for long positions and ask price for short positions), without any deduction for transaction costs.

For all other financial instruments not listed in an active market, fair value is determined by using appropriate valuation techniques. Valuation techniques include net present value techniques, comparison to similar instruments for which market observable prices exist.

Offsetting

Financial assets and liabilities are offset and the net amount is reported in the consolidated statement of financial position when there is a legally enforceable right to set off the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously. This is not generally the case with master netting agreements, and the related assets and liabilities are presented gross in the consolidated statement of financial position.

(In millions of Russian rubles)

4. Summary of significant accounting policies (continued)

Financial assets (continued)

Reclassification of financial assets

If a non-derivative financial asset classified as held for trading is no longer held for the purpose of selling in the near term, it may be reclassified out of the fair value through profit or loss category in one of the following cases:

- ▶ a financial asset that would have met the definition of loans and receivables above may be reclassified to loans and receivables category if the Group has the intention and ability to hold it for the foreseeable future or until maturity;
- ▶ other financial assets may be reclassified to available for sale or held to maturity categories only in rare circumstances.

A financial asset classified as available for sale that would have met the definition of loans and receivables may be reclassified to loans and receivables category if the Group has the intention and ability to hold it for the foreseeable future or until maturity.

Financial assets are reclassified at their fair value on the date of reclassification. Any gain or loss already recognized in profit or loss is not reversed. The fair value of the financial asset on the date of reclassification becomes its new cost or amortized cost, as applicable.

Cash and cash equivalents

Cash and cash equivalents consist of cash on hand, amounts due from the Bank of Russia, excluding obligatory reserves of subsidiary banks, and amounts due from credit institutions that mature within ninety days of the date of origination and are free from contractual encumbrances.

Precious metals

Gold and other precious metals are recorded at Bank of Russia bid prices, bid prices of National Bank of Belarus, National Bank of Ukraine, which approximate fair values and are quoted at a discount to London Bullion Market rates. Changes in the above mentioned bid prices are recorded as translation differences from precious metals in other income.

Repurchase and reverse repurchase agreements and securities lending

Sale and repurchase agreements ("repos") are treated as secured financing transactions. Securities sold under sale and repurchase agreements are retained in the consolidated statement of financial position and, in case the transferee has the right by contract or custom to sell or repledge them, reclassified as securities pledged under sale and repurchase agreements. The corresponding liability is presented within amounts due to credit institutions or customers. Securities purchased under agreements to resell ("reverse repo") are recorded as cash and cash equivalents, amounts due from credit institutions or loans to customers as appropriate. The difference between sale and repurchase price is treated as interest and accrued over the life of repo agreements using the effective yield method.

Securities lent to counterparties are retained in the consolidated statement of financial position. Securities borrowed are not recorded in the consolidated statement of financial position, unless these are sold to third parties, in which case the purchase and sale are recorded within gains less losses from financial instruments at fair value through profit or loss in the consolidated statement of income. The obligation to return them is recorded at fair value as a financial trade liability.

(In millions of Russian rubles)

4. Summary of significant accounting policies (continued)

Derivative financial instruments

In the normal course of business, the Group enters into various derivative financial instruments including futures, forwards, swaps and options in the foreign exchange and securities markets. Such financial instruments are held for trading and are recorded at fair value. The fair values are estimated based on quoted market prices or pricing models that take into account the current market and contractual prices of the underlying instruments and other factors. Derivatives are carried as assets when their fair value is positive and as liabilities when it is negative. Gains and losses resulting from these instruments are included in the consolidated statement of income as gains less losses from financial instruments at fair value through profit or loss or gains less losses from foreign currencies dealing, depending on the nature of the instrument.

Derivatives embedded in other financial instruments are treated as separate derivatives and recorded at fair value if their economic characteristics and risks are not closely related to those of the host contract, and the host contract is not itself held for trading or designated at fair value through profit or loss. The embedded derivatives separated from the host are carried at fair value in the trading portfolio with changes in fair value recognized in the consolidated statement of income.

Promissory notes

Promissory notes purchased are included in trading or investment securities, or in cash and cash equivalents, in amounts due from credit institutions or in loans to customers, depending on the aim and terms of their purchase, and are recorded in accordance with the accounting policies for these categories of assets.

Borrowings

Issued financial instruments or their components are classified as liabilities, where the substance of the contractual arrangement results in the Group having an obligation either to deliver cash or another financial asset to the holder, or to satisfy the obligation other than by the exchange of a fixed amount of cash or another financial asset for a fixed number of own equity instruments. Such instruments include amounts due to credit institutions, amounts to the Bank of Russia and the Russian Government, amounts due to customers and debt securities issued. After initial recognition, borrowings are subsequently measured at amortized cost using the effective interest method. Gains and losses are recognized in the consolidated statement of income when the borrowings are derecognized as well as through the amortization process.

If the Group purchases its own debt, it is removed from the statement of financial position and the difference between the carrying amount of the liability and the consideration paid is recognized in the consolidated statement of income.

For the purposes of the consolidated statement of cash flows, the Group recognizes amounts attracted from banks for a period of up to one year in "Cash flows from operating activities" category, for a period exceeding one year - in "Cash flows from financing activities" category.

Government grants and government assistance

Government grants are recognized where there is reasonable assurance that the grant will be received and all related conditions will be complied with. Where the grant relates to an expense item, it is recognized as income in the same periods as the respective expenses it is intended to compensate on a systematic basis. Where the grant relates to an asset, it is recognized as deferred income and released to income in equal amounts over the expected useful life of the related asset.

(In millions of Russian rubles)

4. Summary of significant accounting policies (continued)

Government grants and government assistance (continued)

Government grants provided at below market interest rates are recognized in accordance with IAS 39. The benefit of the government loan is measured at the inception of the loan as the difference between the cash received and the amount at which the loan is initially recognized in the statement of financial position. This benefit is accounted for in accordance with IAS 20.

Leases

1. Finance - Group as lessee

The Group recognizes finance leases as assets and liabilities in the consolidated statement of financial position at the date of commencement of the lease term at amounts equal to the fair value of the leased property or, if lower, at the present value of the minimum lease payments. In calculating the present value of the minimum lease payments the discount factor used is the interest rate implicit in the lease, when it is practicable to determine; otherwise, the Group's incremental borrowing rate is used. Initial direct costs incurred are included as part of the asset. Lease payments are apportioned between the finance charge and the reduction of the outstanding liability. The finance charge is allocated to periods during the lease term so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period. The costs identified as directly attributable to activities performed by the lessee for a finance lease, are included as part of the amount recognized as an asset under the lease.

2. Finance - Group as lessor

The Group recognizes lease receivables at value equal to the net investments in the lease, starting from the date of commencement of the lease term. Finance income is based on a pattern reflecting a constant periodic rate of return on the net investment outstanding. Initial direct costs are included in the initial measurement of the lease receivables.

3. Operating - Group as lessee

Leases of assets under which the risks and rewards of ownership are effectively retained with the lessor are classified as operating leases. Lease payments under operating leases are recognized as expenses on a straight-line basis over the lease-term and included into expenses for premises and equipment.

4. Operating - Group as lessor

The Group presents assets subject to operating leases in the consolidated statement of financial position according to the nature of the asset. Lease income from operating leases is recognized in statement of income on a straight-line basis over the lease term as other operating income. The aggregate cost of incentives provided to lessees is recognized as a reduction of rental income over the lease term on a straight-line basis. Initial direct costs incurred specifically to earn revenues from an operating lease are added to the carrying amount of the leased asset.

Impairment of financial assets

The Group assesses at each reporting date whether there is any objective evidence that a financial asset or a group of financial assets is impaired. A financial asset or a group of financial assets is deemed to be impaired if, and only if, there is objective evidence of impairment as a result of one or more events that has occurred after the initial recognition of the asset (an incurred "loss event") and that loss event (or events) has an impact on the estimated future cash flows of the financial asset or the group of financial assets that can be reliably estimated.

(In millions of Russian rubles)

4. Summary of significant accounting policies (continued)

Impairment of financial assets (continued)

Evidence of impairment may include indications that the borrower or a group of borrowers is experiencing significant financial difficulty, default or delinquency in interest or principal payments, the probability that they will enter bankruptcy or other financial reorganization and where observable data indicate that there is a measurable decrease in the estimated future cash flows, such as changes in arrears or economic conditions that correlate with defaults.

Provisions for impairment of financial assets in these consolidated financial statements have been determined on the basis of existing economic and political conditions. The Group is not in a position to predict what changes in conditions will take place in the Russian Federation, Ukraine and in the Republic of Belarus and what effect such changes might have on the adequacy of the provisions for impairment of financial assets.

Amounts due from credit institutions and loans to customers

For amounts due from credit institutions and loans to customers carried at amortized cost, the Group first assesses individually whether objective evidence of impairment exists individually for financial assets that are individually significant, or collectively for financial assets that are not individually significant. If the Group determines that no objective evidence of impairment exists for an individually assessed financial asset, whether significant or not, it includes the asset in a group of financial assets with similar credit risks characteristics and collectively assesses them for impairment. Assets that are individually assessed for impairment and for which an impairment loss is, or continues to be, recognized are not included in a collective assessment of impairment.

If there is an objective evidence that an impairment loss has been incurred, the amount of the loss is measured as the difference between the assets' carrying amount and the present value of estimated future cash flows (excluding future expected credit losses that have not yet been incurred). The carrying amount of the asset is reduced through the use of an allowance account and the amount of the loss is recognized in the consolidated statement of income. Interest income continues to be accrued on the reduced carrying amount based on the original effective interest rate of the asset. Loans together with the associated allowance for impairment are written off when there is no realistic prospect of future recovery and all collateral has been realized or has been transferred to the Group. If, in subsequent years, the amount of the estimated impairment loss increases or decreases because of an event occurring after the impairment was recognized, the previously recognized impairment loss is increased or reduced by adjusting the allowance account. If a future write-off is later recovered, the recovery is credited to the consolidated statement of income.

The present value of the estimated future cash flows is discounted at the financial asset's original effective interest rate. If a loan has a variable interest rate, the discount rate for measuring any impairment loss is the current effective interest rate. The calculation of the present value of the estimated future cash flows of a collateralized financial asset reflects the cash flows that may result from foreclosure less costs for obtaining and selling the collateral, whether or not foreclosure is probable.

For the purpose of a collective evaluation of impairment, financial assets are grouped on the basis of the Group's internal credit grading system that considers credit risk characteristics such as asset type, industry, geographical location, collateral type, past-due status and other relevant factors.

(In millions of Russian rubles)

4. Summary of significant accounting policies (continued)

Impairment of financial assets (continued)

Future cash flows on a group of financial assets that are collectively evaluated for impairment are estimated on the basis of historical loss experience for assets with credit risk characteristics similar to those in the group. Historical loss experience is adjusted on the basis of current observable data to reflect the effects of current conditions that did not affect the years on which the historical loss experience is based and to remove the effects of conditions in the historical period that do not exist currently. Estimates of changes in future cash flows reflect, and are directionally consistent with, changes in related observable data from year to year (such as changes in unemployment rates, property prices, commodity prices, payment status, or other factors that are indicative of incurred losses in the group or their magnitude). The methodology and assumptions used for estimating future cash flows are reviewed regularly to reduce any differences between loss estimates and actual loss experience.

Held-to-maturity financial investments

For held-to-maturity investments the Group assesses individually whether there is objective evidence of impairment. If there is objective evidence that an impairment loss has been incurred, the amount of the loss is measured as the difference between the assets' carrying amount and the present value of estimated future cash flows. The carrying amount of the asset is reduced and the amount of the loss is recognized in the consolidated statement of income.

If, in a subsequent year, the amount of the estimated impairment loss decreases because of an event occurring after the impairment was recognized, any amounts formerly charged are credited to the consolidated statement of income.

Available-for-sale financial investments

For available-for-sale financial investments, the Group assesses at each reporting date whether there is objective evidence that an investment or a group of investments is impaired.

In the case of equity investments classified as available-for-sale, objective evidence would include a significant or prolonged decline in the fair value of the investment below its cost. Where there is evidence of impairment, the cumulative loss – measured as the difference between the acquisition cost and the current fair value, less any impairment loss on that investment previously recognized in the consolidated statement of income – is reclassified from other comprehensive income and recognized in the consolidated statement of income. Impairment losses on equity investments are not reversed through the consolidated statement of income; increases in their fair value after impairment are recognized directly in other comprehensive income.

In the case of debt instruments classified as available-for-sale, impairment is assessed based on the same criteria as financial assets carried at amortized cost. Future interest income is based on the reduced carrying amount and is accrued using the rate of interest used to discount the future cash flows for the purpose of measuring the impairment loss. The interest income is recorded in the consolidated income statement. If, in a subsequent year, the fair value of a debt instrument increases and the increase can be objectively related to an event occurring after the impairment loss was recognized in the consolidated statement of income, the impairment loss is reversed through the consolidated statement of income.

Renegotiated loans

Where possible, the Group seeks to restructure loans rather than to take possession of collateral. This may involve extending the payment arrangements and the agreement of new loan conditions.

(In millions of Russian rubles)

4. Summary of significant accounting policies (continued)

Impairment of financial assets (continued)

The accounting treatment of such restructuring is as follows:

- ▶ If the currency of the loan has been changed, the old loan is derecognized and the new loan is recognized in the statement of financial position;
- ▶ If the loan restructuring is not caused by the financial difficulties of the borrower, the Group uses the same approach as for financial liabilities described below;
- ▶ If the loan restructuring is due to the financial difficulties of the borrower and the loan is impaired after restructuring, the Group recognizes the difference between the present value of the new cash flows discounted using the original effective interest rate and the carrying amount before restructuring in the provision charges for the period. In case the loan is not impaired after restructuring, the Group derecognizes the initial asset and a new asset is recorded with recognition of the difference in the carrying value of the assets in the consolidated statement of income.

Once the terms have been renegotiated, the loan is no longer considered past due. Management continuously reviews renegotiated loans to ensure that all criteria are met and that future payments are likely to occur. The loans continue to be subject to an individual or collective impairment assessment, calculated using the loan's original effective interest rate.

Derecognition of financial assets and liabilities

Financial assets

A financial asset (or, where applicable a part of a financial asset or part of a group of similar financial assets) is derecognized in the statement of financial position where:

- ▶ the rights to receive cash flows from the asset have expired;
- ▶ the Group has transferred its rights to receive cash flows from the asset, or has assumed an obligation to pay them in full without material delay to a third party under a 'pass-through' arrangement; and
- ▶ the Group either (a) has transferred substantially all the risks and rewards of the asset, or (b) has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

Where the Group has transferred its rights to receive cash flows from an asset and has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the asset is recognized to the extent of the Group's continuing involvement in the asset. Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

Where continuing involvement takes the form of a written and/or purchased option (including a cash-settled option or similar provision) on the transferred asset, the extent of the Group's continuing involvement is the amount of the transferred asset that the Group may repurchase, except that in the case of a written put option (including a cash-settled option or similar provision) on an asset measured at fair value, the extent of the Group's continuing involvement is limited to the lower of the fair value of the transferred asset and the option exercise price.

Financial liabilities

A financial liability is derecognized when the obligation under the liability is discharged, cancelled or expires.

(In millions of Russian rubles)

4. Summary of significant accounting policies (continued)

Derecognition of financial assets and liabilities (continued)

Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognized in the consolidated statement of income.

Financial guarantees

In the ordinary course of business, the Group gives financial guarantees, consisting of letters of credit, guarantees and acceptances. Financial guarantees are initially recognized in the consolidated financial statements at fair value, in 'Other liabilities', being the premium received. Subsequent to initial recognition, the Group's liability under each guarantee is measured at the higher of the amortized premium and the best estimate of expenditure required settling any financial obligation arising as a result of the guarantee.

Any increase in the liability relating to financial guarantees is taken to the consolidated statement of income. The premium received is recognized in the consolidated statement of operations on a straight-line basis over the life of the guarantee.

Taxation

Current income tax expense is calculated in accordance with the regulations currently in force in the respective territories that the Group operates. Income tax expense of the Group comprises current and deferred income tax. Current income tax is calculated by applying income tax rate effective at the reporting date to the taxable base.

Deferred tax assets and liabilities are calculated in respect of temporary differences using the liability method. Deferred income taxes are provided for all temporary differences arising between the tax bases of assets and liabilities and their carrying values for financial reporting purposes, except where the deferred income tax arises from the initial recognition of goodwill or of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.

Deferred tax assets are recorded only to the extent that it is probable that taxable profit will be available against which the deductible temporary differences can be utilized. Deferred tax assets and liabilities are measured at tax rates that are expected to apply to the period when the asset is realized or the liability is settled, based on tax legislation that have been enacted or substantively enacted at the reporting date.

Deferred income tax is provided on temporary differences arising on investments in subsidiaries, associates and joint ventures, except where the timing of the reversal of the temporary difference can be controlled and it is probable that the temporary difference will not reverse in the foreseeable future.

Income and expenses of Vnesheconombank are not taxable for income tax purposes.

Various operating taxes, which are assessed on the Group's activities are included in taxes other than income tax in the consolidated statement of income.

Property and equipment

Property and equipment are carried at cost, excluding the costs of day-to-day servicing, less accumulated depreciation and any accumulated impairment. Such cost includes the cost of replacing part of equipment when that cost is incurred if the recognition criteria are met.

(In millions of Russian rubles)

4. Summary of significant accounting policies (continued)

Property and equipment (continued)

The carrying values of property and equipment are reviewed for impairment when events or changes in circumstances indicate that the carrying value may not be recoverable.

Depreciation of an asset begins when it is available for use. Depreciation of assets under construction and those not placed in service commences from the date the assets are placed into service. Depreciation is calculated on a straight-line basis over the following estimated useful lives:

	<u>Years</u>
Buildings	15-60
Equipment	2-10
Motor vehicles	2-30

The land has an indefinite useful life and is not depreciated.

The asset's residual values, useful lives and depreciation methods are reviewed, and adjusted as appropriate, at each financial year-end.

Leasehold improvements are amortized over the lease term of property and equipment. Costs related to repairs and renewals are charged when incurred and included in other operating expenses, unless they qualify for capitalization.

Goodwill

Goodwill acquired in a business combination is initially measured at cost being the excess of the consideration transferred over the Group's net identifiable assets acquired and liabilities assumed. Goodwill on an acquisition of a subsidiary is included in goodwill and other intangible assets. Goodwill on an acquisition of an associate is included in the investments in associates. Following initial recognition, goodwill is measured at cost less any accumulated impairment losses.

Goodwill is reviewed for impairment, annually or more frequently if events or changes in circumstances indicate that the carrying amount may be impaired.

For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating units, or groups of cash-generating units, that are expected to benefit from the synergies of the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units or groups of units. Each unit or group of units to which the goodwill is so allocated:

- ▶ represents the lowest level within the Group at which the goodwill is monitored for internal management purposes;
- ▶ is not larger than the operating segment as defined in IFRS 8 *Operating Segments* before aggregation.

Impairment is determined by assessing the recoverable amount of the cash-generating unit (group of cash-generating units), to which the goodwill relates. Where the recoverable amount of the cash-generating unit (group of cash-generating units) is less than the carrying amount, an impairment loss is recognized. Impairment losses relating to goodwill cannot be reversed in future periods.

(In millions of Russian rubles)

4. Summary of significant accounting policies (continued)

Intangible assets other than goodwill

Intangible assets other than goodwill include computer software and licenses.

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is fair value as at the date of acquisition. Following initial recognition, intangible assets are carried at cost less any accumulated amortization and any accumulated impairment losses. The useful lives of intangible assets are assessed to be either finite or indefinite. The useful lives of intangible assets are assessed to be either finite or indefinite. Intangible assets with finite lives are amortized on a straight-line basis over the useful economic lives of 1 to 10 years and assessed for impairment whenever there is an indication that the intangible asset may be impaired. Amortization periods and methods for intangible assets with indefinite useful lives are reviewed at least at each financial year-end.

Assets classified as held for sale

The Group classifies a non-current asset (or a disposal group) as held for sale if its carrying amount will be recovered principally through a sale transaction rather than through continuing use. For this to be the case the non-current asset (or disposal group) must be available for immediate sale in its present condition subject only to the terms that are usual and customary for sale of such assets (or disposal groups) and its sale must be highly probable.

The sale qualifies as highly probable if the Group's management is committed to a plan to sell the non-current asset (or disposal group) and an active program to locate a buyer and complete the plan must have been initiated. Further, the non-current asset (or disposal group) must have been actively marketed for a sale at price that is reasonable in relation to its current fair value and in addition the sale should be expected to qualify for recognition as a completed sale within one year from the date of classification of the non-current asset (or disposal group) as held for sale.

The Group measures an asset (or disposal group) classified as held for sale at the lower of its carrying amount and fair value less costs to sell. The Group recognizes an impairment loss for any initial or subsequent write-down of the asset (or disposal group) to fair value less costs to sell if events or changes in circumstance indicate that their carrying amount may be impaired.

Provisions

Provisions are recognized when the Group has a present legal or constructive obligation as a result of past events, and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the amount of obligation can be made.

Retirement and other benefit obligations

Current pension contributions of the Group are calculated as a percentage of current gross salary payments to employees; such expense is charged to the statement of income in the period the related salaries are earned and included into payroll and other staff costs.

In addition, the Vnesheconombank operates two separately administered defined contribution pension schemes, where the Bank's obligation for each period is determined by the amounts to be contributed for that period. Contributions made by the Bank are recognized as expense in the respective period.

The Group has no other post-retirement benefits or significant other employee benefits requiring accrual.

(In millions of Russian rubles)

4. Summary of significant accounting policies (continued)

Charter capital

Charter capital

Asset contributions of the Russian Federation made for formation of the Bank's charter capital are recorded in the equity. Vnesheconombank's charter capital is not divided into shares (interest).

Dividend income

Vnesheconombank neither accrues nor pays dividends.

Dividends of subsidiaries are recognized as a liability and deducted from equity at the reporting date only if they are declared before or on the reporting date. Dividends are disclosed when they are proposed before the reporting date or proposed or declared after the reporting date but before the financial statements are authorized for issue.

Fiduciary assets

Assets held in a fiduciary capacity are not reported in the consolidated financial statements, as they are not the assets of the Group.

Segment reporting

The Group's segment reporting is based on five operating segments disclosed in Note 7.

Contingencies

Contingent liabilities are not recognized in the consolidated statement of financial position but are disclosed unless the possibility of any outflow in settlement is probable. A contingent asset is not recognized in the consolidated statement of financial position but disclosed when an inflow of economic benefits is probable.

Income and expense recognition

Income and expense are recognized to the extent that it is probable that the economic benefits will flow to the Group and they can be reliably measured. The following specific recognition criteria must also be met before income and expense are recognized:

Interest and similar income and expense

For all financial instruments measured at amortized cost and interest bearing securities classified as trading or available-for-sale, interest income or expense is recorded at the effective interest rate, which is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument or a shorter period, where appropriate, to the net carrying amount of the financial asset or financial liability. The calculation takes into account all contractual terms of the financial instrument (for example, prepayment options) and includes any fees or incremental costs that are directly attributable to the instrument and are an integral part of the effective interest rate, but not future credit losses. The carrying amount of the financial asset or financial liability is adjusted if the Group revises its estimates of payments or receipts. The adjusted carrying amount is calculated based on the original effective interest rate and the change in carrying amount is recorded as interest income or expense.

(In millions of Russian rubles)

4. Summary of significant accounting policies (continued)

Income and expense recognition (continued)

Once the recorded value of a financial asset or a group of similar financial assets has been reduced due to an impairment loss, interest income continues to be recognized using the original effective interest rate applied to the new carrying amount.

Interest expense on loans and deposits from the Russian Ministry of Finance is included into interest expense on amounts due to customers recorded in the consolidated statement of income.

Fees and commission income

The Group earns fee and commission income from a diverse range of services it provides to its customers. Fee income can be divided into the following two categories:

- ▶ *Fee income earned from services that are provided over a certain period of time*

Fees earned for the provision of services over a period of time are accrued over that period. These fees include commission income and asset management, custody and other management and advisory fees. Loan commitment fees for loans that are likely to be drawn down and other credit related fees are deferred (together with any incremental costs) and recognized as an adjustment to the effective interest rate on the loan.

- ▶ *Fee income from providing transaction services*

Fees arising from negotiating or participating in the negotiation of a transaction for a third party – such as the arrangement of the acquisition of shares or other securities or the purchase or sale of businesses – are recognized on completion of the underlying transaction. Fees or components of fees that are linked to a certain performance are recognized after fulfilling the corresponding criteria.

Dividend income

Revenue is recognized when the Group's right to receive the payment is established.

Foreign currency translation

The consolidated financial statements are presented in Russian Rubles, which is the Bank's functional currency and Group's presentation currency. Each organization in the Group determines its own functional currency and items included in the financial statements of each organization are measured using that functional currency. Transactions in foreign currencies are initially recorded in the functional currency, converted at the rate of exchange ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are retranslated at the functional currency rate of exchange ruling at the reporting date. Gains and losses resulting from the translation of foreign currency transactions are recognized in the consolidated statement of income as gains less losses from foreign currencies - translation differences. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined.

Differences between the contractual exchange rate of a transaction in a foreign currency and the Bank of Russia exchange rate on the date of the transaction are included in gains less losses from dealing in foreign currencies. The official exchange rates of the Bank of Russia at 31 December 2011 and 2010 were RUB 32.1961 and RUB 30.4769 to 1 USD, respectively.

(In millions of Russian rubles)

4. Summary of significant accounting policies (continued)

Foreign currency translation (continued)

As at the reporting date, the assets and liabilities of the Group's organizations whose functional currency is different from the presentation currency of the Group and is not a currency of a hyperinflationary economy are translated into Russian Rubles at the rate of exchange ruling at the balance sheet date and, their statements of income are translated at the weighted average exchange rates for the year.

Due to significantly deteriorating macroeconomic environment in the Republic of Belarus, a considerable devaluation of the Belarusian ruble and accelerated inflation of 2011, the Republic of Belarus was recognized a hyperinflationary economy in November 2011 starting from 1 January 2011. Financial statements of a subsidiary in the Republic of Belarus were translated using general price index of the Republic of Belarus before inclusion into the Group's consolidated financial statements in accordance with IAS 29 "Financial Reporting in Hyperinflationary Economies". The results and financial position of the subsidiary bank are subject to translation into the presentation currency of the Group at the rate of exchange ruling at the reporting date.

Exchange differences arising from recognition of financial results and position of every consolidated organization are recognized in other comprehensive income and are presented as a separate component of equity.

On disposal of a subsidiary or an associate whose functional currency is different from the presentation currency of the Group, the deferred cumulative amount recognized in other comprehensive income relating to that particular organization is recognized in the consolidated statement of income. Any goodwill arising on the acquisition of a foreign operation and any fair value adjustments to the carrying amounts of assets and liabilities arising on the acquisition are treated as assets and liabilities of the foreign operations and translated at closing rate.

Future changes in accounting policies

Standards and interpretations issued but not yet effective

IFRS 9 Financial Instruments (first phase)

In November 2009 and 2010 the IASB issued the first phase of IFRS 9 *Financial Instruments*. This Standard will eventually replace IAS 39 *Financial Instruments: Recognition and Measurement*. IFRS 9 becomes effective for annual periods beginning on or after 1 January 2015. The first phase of IFRS 9 introduces new requirements for classification and measurement of financial instruments. In particular, for subsequent measurement all financial assets are to be classified at amortized cost or at fair value through profit or loss with the irrevocable option for equity instruments not held for trading to be measured at fair value through other comprehensive income. There is a new requirement for financial liabilities recognized through profit or loss using a fair value option that the amount of change in the fair value of the financial liability that is attributable to changes in the credit risk of that liability shall be presented in other comprehensive income. The Group now evaluates the impact of the adoption of the new standard and considers the initial application date.

IFRS 10 Consolidated Financial Statements

IFRS 10 Consolidated Financial Statements establishes a single control model that applies to all entities including special purpose entities. The changes introduced by IFRS 10 will require management to exercise significant judgment to determine which entities are controlled, and therefore, are required to be consolidated by a parent, compared with the requirements that were in IAS 27. In addition IFRS 10 introduces specific application guidance for agency relationships. The standard also contains accounting requirements and consolidation procedures, which are carried over unchanged from IAS 27. IFRS 10 replaces the consolidation requirements in SIC-12 *Consolidation – Special Purpose Entities* and IAS 27 *Consolidated and Separate Financial Statements* and is effective for annual periods beginning on or after 1 January 2013. Early application is permitted. The Group now evaluates possible effect of IFRS 10 on its financial position and financial results.

(In millions of Russian rubles)

4. Summary of significant accounting policies (continued)

Future changes in accounting policies (continued)

IFRS 11 Joint Arrangements

IFRS 11 removes the option to account for jointly controlled entities using proportionate consolidation. Instead, jointly controlled entities that meet the definition of a joint venture must be accounted for using the equity method. IFRS 11 supersedes IAS 31 *Interests in Joint Ventures* and SIC-13 *Jointly Controlled Entities – Non-monetary Contributions by Venturers* and becomes effective for annual reporting periods starting on or after 1 January 2013. Early application is permitted. The Group now evaluates possible effect of IFRS 11 on its financial position and financial results.

IFRS 12 Disclosure of Interests in Other Entities

IFRS 12 contains all disclosure requirements that were previously included in IAS 27 related to consolidated financial statements, as well as all disclosure requirements that were previously included in IAS 31 and IAS 28. These disclosures relate to an entity's interests in subsidiaries, joint arrangements, associates and structured entities. A number of new disclosures are also required for such entities. This standard becomes effective for annual reporting periods beginning on or after 1 January 2013. Early application is permitted. Adoption of the standard will require new disclosures to be made in the financial statements of the Group but will have no impact on its financial position or performance.

IFRS 13 Fair Value Measurement

IFRS 13 establishes a single source of guidance under IFRS for all fair value measurements. IFRS 13 does not change when an entity is required to use fair value, but rather provides guidance on how to measure fair value under IFRS when fair value is required or permitted. This standard becomes effective for annual reporting periods beginning on or after 1 January 2013. Early application is permitted. The adoption of the IFRS 13 may have effect on the measurement of the Group's assets and liabilities accounted for at fair value. The Group now evaluates possible effect of IFRS 13 on its financial position and financial results.

IAS 27 Separate Financial Statements (as revised in 2011)

As a consequence of the new IFRS 10 and IFRS 12, what remains of IAS 27 is limited to accounting for subsidiaries, jointly controlled entities, and associates in separate financial statements. The amendment becomes effective for annual periods beginning on or after 1 January 2013.

IAS 28 Investments in Associates and Joint Ventures (as revised in 2011)

As a consequence of the new IFRS 11 and IFRS 12, IAS 28 has been renamed IAS 28 *Investments in Associates and Joint Ventures* and describes the application of the equity method to investments in joint ventures in addition to associates. The amendment becomes effective for annual periods beginning on 1 January 2013.

Amendments to IFRS 7 Financial Instruments: Disclosures

The Amendments were issued in October 2010 by the IASB and are effective for annual reporting periods beginning on or after 1 July 2011. The amendment introduces additional disclosure requirements for transferred financial assets that are not derecognized to enable the user of the Group's financial statements to understand the relationship with those assets that have not been derecognized and their associated liabilities. In addition, the amendment requires disclosures about continuing involvement in derecognized assets to enable the users to evaluate the nature of, and risks associated with, the entity's continuing involvement in those derecognized assets. The amendment affects disclosure only and has no impact on the Group's financial position or performance.

4. Summary of significant accounting policies (continued)

Future changes in accounting policies (continued)

Amendments to IAS 12 Income Taxes – Deferred Taxes: Recovery of Underlying Assets

In December 2010 the IASB issued amendments to IAS 12 effective for annual periods beginning on or after 1 January 2012. The amendment clarifies the determination of deferred tax on investment property measured at fair value. The amendment introduces a rebuttable presumption that deferred tax on investment property measured using the fair value model in IAS 40 should be determined on the basis that its carrying amount will be recovered through sale. Furthermore, it introduces the requirement that deferred tax on non-depreciable assets that are measured using the revaluation model in IAS 16 should always be measured on a sale basis. The Group is now evaluating the possible impact of these amendments.

Amendment to IAS 19 Employee Benefits

The amendment to IAS 19 becomes effective for annual periods beginning on or after 1 January 2013. The amendment introduces significant changes to the method of accounting for employee benefits, including the removal of the option for deferred recognition of changes in pension plan assets and liabilities (known as the "corridor approach"). In addition, the amendment limits changes in net pension assets (liabilities) recognized in profit and loss to net interest income (expense) and cost of services. The amendment will have no impact on the Group's financial position or performance.

Amendment to IAS 1 Presentation of Financial Statements - Presentation of Other Comprehensive Income

The amendment to IAS 1 becomes effective for annual periods beginning on or after 1 July 2012. The amendment changes the grouping of items presented in other comprehensive income. Items that could be reclassified to profit or loss at a future point in time (for example, upon derecognition or settlement) would be presented separately from items that will never be reclassified. The amendment affects presentation only and will have no impact on the Group's financial position or performance.

Amendment to IFRS 1 First-time Adoption of International Financial Reporting Standards – Severe Hyperinflation and Removal of Fixed Dates for First-time Adopters

The amendment becomes effective for annual periods beginning on or after 1 July 2011. The amendment introduces a new deemed cost exemption for entities that have been subject to severe hyperinflation. The amendment will have no impact on the Group's financial position or performance.

Amendments to IAS 32 Financial Instruments: Presentation (guidance on offsetting financial assets and liabilities), and amendments to IFRS 7 Financial Instruments: Disclosures (disclosures on offsetting financial assets and liabilities).

In December 2011, the IASB issued amendments to its current guidance in IAS 32 on offsetting financial assets and liabilities and has introduced new disclosure requirements in IFRS 7. The amendments to IFRS 7 are to be retrospectively applied for annual periods beginning on or after 1 January 2013 and the amendments to IAS 32 are to be retrospectively applied for annual periods beginning on or after 1 January 2014. Earlier application is permitted. The amendments to IAS 32 now clarify that rights to set-off must not only be legally enforceable in the normal course of business, but must also be enforceable in the event of default, bankruptcy or insolvency of all the counterparties to the contract. The amendments to IAS 32 also clarify that rights of set-off must not be contingent on a future event. The amendments to IAS 32 also clarify the offsetting criteria that the reporting entity is required to intend either to settle on a net basis, or to realize the asset and settle the liability simultaneously. The amendments to IFRS 7 require the reporting entity to disclose information about rights of set-off and related arrangements for all recognized financial instruments that are set off in accordance with IAS 32. The Group now evaluates the impact of the adoption of new amendments and considers the initial application date.

5. Significant accounting judgments and estimates

The preparation of financial statements requires management to make judgments and estimates related to the reported amounts. These judgments and estimates are based on information available as of the date of the financial statements. The actual results may differ from these estimates and it is possible that these differences may have a material effect on the financial statements.

The most significant use of judgments and estimates are as follows:

Fair value of financial instruments

Where the fair values of financial assets and financial liabilities recorded in the consolidated statement of financial position cannot be derived from active markets, they are determined using a variety of valuation techniques that include the use of mathematical models. The input to these models is taken from observable markets where possible, but where this is not feasible, a degree of judgment is required in establishing fair values.

Allowance for impairment of loans and receivables

The Group regularly reviews its loans and receivables to assess impairment. The Group uses its experienced judgment to estimate the amount of any impairment loss in cases where a borrower is in financial difficulties and there are few available sources of historical data relating to similar borrowers. Similarly, the Group estimates changes in future cash flows based on the observable data indicating that there has been an adverse change in the payment status of borrowers in a group, or national or local economic conditions that correlate with defaults on assets in the group. Management uses estimates based on historical loss experience for assets with credit risk characteristics and objective evidence of impairment similar to those in the group of loans and receivables. The Group uses its experienced judgment to adjust observable data for a group of loans or receivables to reflect current circumstances.

Impairment of goodwill

The Group determines whether goodwill is impaired at least on an annual basis. This requires an estimation of the value in use of the cash-generating units to which the goodwill is allocated. Estimating the value in use requires the Group to make an estimate of the expected future cash flows from the cash-generating unit and also to choose a suitable discount rate in order to calculate the present value of those cash flows. At 31 December 2011, the carrying value of goodwill amounted to RUB 1,843 million (at 31 December 2010: RUB 1,381 million). More details are provided in Note 21.

6. Business combinations

Acquisitions in 2011

OJSC NATIONAL TRADE BANK

On 18 February 2011, the Group's subsidiary bank CJSC "GLOBEXBANK" acquired 83.7% of shares in OJSC NATIONAL TRADE BANK (OJSC NTB). OJSC NTB was formed on 7 September 1994 as an open joint stock company under the laws of the Russian Federation. OJSC NTB extends credit and accepts deposits from individuals and legal entities, deals in securities, transfers payments in the Russian Federation and abroad, exchanges currencies and provides other banking services to its corporate and retail customers. The head office of OJSC NTB is in Togliatti. In September 2011, the General Shareholders' Meeting of CJSC "GLOBEXBANK" decided to reorganize CJSC "GLOBEXBANK" through merger with OJSC NTB (with the transfer of all titles and liabilities of OJSC NTB to CJSC "GLOBEXBANK").

(In millions of Russian rubles)

6. Business combinations (continued)

Acquisitions in 2011 (continued)

The Group intends to use OJSC NTB's well developed regional network to develop banking operations in the Povolzhsky region, including the SME sector. The Group also plans to use retail banking framework, including the range of products, scoring and risk management technologies and IT systems, to develop and offer a new line of retail products, thus expanding its own retail banking business. New retail products will include deposits, mortgage loans and, possibly, car loans.

Immediately before the acquisition date, the Group owned 16.3% of shares in OJSC NTB, which were recorded as investment securities available for sale. As a result of acquiring control over OJSC NTB, the Group recognized an income of RUB 215 million from revaluation of the previously existing interest at the fair value as gains less losses from investment securities available for sale in the consolidated income statement.

The fair values of the identifiable assets and liabilities acquired and goodwill arising as at the date of acquisition were as follows:

	Fair value recognized on acquisition
Cash and cash equivalents	961
Financial assets at fair value through profit or loss	1,939
Amounts due from credit institutions	311
Loans to customers	23,129
Investment securities available for sale	51
Deferred income tax assets	227
Property and equipment	390
Other assets	4,701
	31,709
Amounts due to credit institutions	4,307
Amounts due to customers	21,508
Debt securities issued	1,385
Other liabilities	272
	27,472
Total identifiable net assets	4,237
Less fair value of the previously existing interest	(521)
Goodwill arising on acquisition	462
Consideration transferred on acquisition of control in 2011	4,178

The above goodwill of RUB 462 million includes the expected improvement of performance as a result of business combination. It is expected that the goodwill recognized will be non-deductible for taxation purposes.

The fair value of loans to customers is RUB 23,129 million. The contracted amount of loans to customers before allowance for impairment as at the date of acquisition of OJSC NTB was RUB 24,334 million. The best estimate of contracted cash flows not expected to be received as at the date of acquisition was RUB 1,469 million.

Since the date of acquisition, contribution of OJSC NTB to the Group's interest income, non-interest income amounted to RUB 2,597 million, RUB 318 million, respectively, to the Group's net income – loss in the amount of RUB 179 million. If the combination had occurred at the beginning of the year, the Group's net income for the period, interest income and non-interest income, including fee and commission income, would have been RUB 7,622 million, RUB 160,084 million and RUB 21,036 million, respectively.

(In millions of Russian rubles)

6. Business combinations (continued)

Acquisitions in 2011 (continued)

At the acquisition date, a loan issued to OJSC NTB and discounted promissory notes of OJSC NTB were recognized in the financial statements of CJSC "GLOBEXBANK". At 18 February 2011, OJSC NTB recognized the specified instruments in the amount of RUB 731 million in due to credit institutions as well as debt securities issued in the amount of RUB 308 million, respectively. The fair value of these liabilities of OJSC NTB approximates their carrying amount. These transactions are represented by the relations between the Group entities, which were established before and eliminated in the process of accounting for the business combination. The loan raised and promissory notes issued were eliminated from the identifiable liabilities of OJSC NTB. The compensation transferred upon acquisition was increased by the fair value of these liabilities.

Cash flows at acquisition were as follows:

Cash acquired with the subsidiary (included in cash flows from investing activities)	961
Cash paid at acquisition (included in cash flows from investing activities)	(3,139)
Net cash outflow	(2,178)

Changes in ownership interest in subsidiaries in 2011

Acquisition of interests

During the first six months of 2011, PSC Prominvestbank purchased 260,169 shares from non-controlling shareholders. The reallocation of interests between Vnesheconombank and the remaining non-controlling shareholders resulted in a RUB 13 million decrease in the value of non-controlling interests and a simultaneous RUB 3 million increase in the Group's retained earnings.

In March 2011, the Bank purchased 2,000,000 additionally issued ordinary registered shares of OJSC "VEB-leasing" for a total consideration of RUB 5,000 million. As a result of increase of the ownership share in the subsidiary's equity, retained earnings of the Group changed insignificantly.

In September 2011 (in accordance with the additional issue purchase agreement), the Bank purchased 2,000,000 of the remaining additionally issued ordinary registered shares of OJSC "VEB-leasing" to the amount of RUB 5,000 million. At 31 December 2011, the Group's share in the subsidiary's equity amounted to 98.96%.

In July 2011, the Bank paid for an additional issue of 1,500,000,000 shares of OJSC "Belvnesheconombank" at nominal value (equivalent to RUB 844 million at the date of payment).

In September 2011, the state registration of an additional issue of shares of OJSC "Belvnesheconombank" was completed. As a result, the Bank's share increased to 97.49%. The amount of additionally issued shares acquired by the Bank totaled RUB 848 million. The contribution of minority shareholders amounted to RUB 19 million. As a result of the additional issue, the carrying value of the net assets of OJSC "Belvnesheconombank" increased by RUB 867 million. The reallocation of interests between the Bank and the remaining non-controlling shareholders resulted in a RUB 20 million increase in the value of non-controlling interests, a RUB 3 million decrease in the foreign currency translation reserve and a simultaneous RUB 3 million increase in the Group's retained earnings.

(In millions of Russian rubles)

6. Business combinations (continued)

Changes in ownership interest in subsidiaries in 2011 (continued)

In August 2011, the Bank purchased 4.01% (21,247,294) of voting shares of PSC Prominvestbank from non-controlling shareholders and increased its interest to 97.85%. The carrying value of the net assets attributable to the shareholders of PSC Prominvestbank amounted to RUB 14,132 million. The compensation for the purchased interest amounted to RUB 4,251 million. As a result of this acquisition, the cost of non-controlling interests decreased by RUB 569 million, the Group's retained earnings decreased by RUB 3,680 million, the amount of the foreign currency translation reserve decreased by RUB 13 million, and the amount of unrealized revaluation of investment securities available for sale increased by RUB 11 million.

In November 2011, the charter capital of LLC "VEB Engineering" was reduced from RUB 196 million to RUB 148 million. The Group's share in the subsidiary's equity increased to 67.6%.

In December 2011, the Bank purchased 2,090,724 ordinary shares of CJSC "GLOBEXBANK" previously recorded by the subsidiary bank as treasury shares. As the result of the purchase, the Group's share in the equity of CJSC "GLOBEXBANK" increased to 99.99%. The cost of the acquired stake amounted to RUB 209 million.

Disposal of interests

In 1Q 2011, 2,370,077 treasury shares of OJSC "Belvnesheconombank" were sold. The reallocation of interests resulted in an increase of the Group's retained earnings by RUB 2 million.

In 4Q 2011, 9,276 treasury shares of CJSC "GLOBEXBANK" were sold. As a result of disposal, the cost of non-controlling interests increased by RUB 1 million.

Changes in ownership interest in subsidiaries in 2010

Acquisition of an additional interest in OJSC "VEB-Leasing"

In February and March 2010, the Group additionally purchased 830,229 ordinary registered shares of OJSC "VEB-Leasing" to total RUB 1,240 million. These shares were purchased from the subsidiary and previously were recorded as treasury shares. The increase in the Group's interest in OJSC "VEB-Leasing" from 78.07% to 97.97% resulted in decrease in a non-controlling interest by RUB 531 million, the amounts of RUB 529 million and RUB 2 million were recognized in the retained earnings with the Group's equity and in the foreign currency translation reserve, respectively.

Acquisition of additional interest in CJSC "GLOBEXBANK"

In June 2010, the Group acquired 0.01% voting shares of CJSC "GLOBEXBANK" from non-controlling shareholders, having increased its interest up to 98.95%. The carrying value of the net assets attributable to the shareholders of CJSC "GLOBEXBANK" amounted to RUB 19,734 million. Cash consideration for the interest acquired amounted to RUB 3 million, which is slightly different from its carrying value. The value of non-controlling interests therefore decreased by RUB 3 million.

In July 2010, the Group additionally purchased 0.21% voting shares of CJSC "GLOBEXBANK" of the additional issue increasing its interest up to 99.16%. The cost of acquisition was RUB 5,000 million. As a result of additional issue the carrying value of the net assets of CJSC "GLOBEXBANK" increased by RUB 5,000 million. Since the above growth exceeds the value of non-controlling interests transferred to the Group as a result of acquisition of the additional issue, the non-controlling interest increased by RUB 1 million. Therefore, the retained earnings recognized within the Group's equity decreased by RUB 1 million.

(In millions of Russian rubles)

6. Business combinations (continued)

Changes in ownership interest in subsidiaries in 2010 (continued)

Purchase of treasury shares of PSC Prominvestbank from non-controlling shareholders

In Q4 2010, PSC Prominvestbank purchased 1,092,147 shares from non-controlling shareholders for total consideration of RUB 44 million. The reallocation of interests between Vnesheconombank and the remaining non-controlling shareholders resulted in decrease in the value of non-controlling interests and retained earnings of the Group by RUB 28 million and RUB 17 million concurrently with increase in the foreign currency translation reserve by RUB 1 million, respectively.

Purchase of treasury shares of CJSC "GLOBEXBANK" from non-controlling shareholders

In December 2010, CJSC "GLOBEXBANK" purchased 2,100,000 shares from non-controlling shareholders for total consideration of RUB 210 million. The reallocation of interests between Vnesheconombank and the remaining non-controlling shareholders resulted in decrease in the value of non-controlling interests and retained earnings of the Group by RUB 209 million and RUB 1 million, respectively.

7. Segment information

For the management purposes the Group has five operating business segments:

- Segment 1 Vnesheconombank, OJSC "SME Bank", CJSC ROSEXIMBANK.
- Segment 2 OJSC "Sviaz-Bank", CJSC "GLOBEXBANK".
- Segment 3 PSC Prominvestbank (Ukraine).
- Segment 4 OJSC "Belvnesheconombank" (Republic of Belarus).
- Segment 5 OJSC "VEB-Leasing", LLC "VEB Capital", LLC "VEB Engineering", OJSC "Federal Center for Project Finance", Mutual Hedge Fund MRIF, Mutual Equity Fund MRIF-II, OJSC "North Caucasus Development Corporation", LLC "Management Company RDIF", OJSC "EXIAR", Mutual Fund RDIF, OJSC "The Far East and the Baikal region Development Fund" and other subsidiaries.

Segment 1 comprises Vnesheconombank and major banks within the Group. Segment 2 comprises banks that were purchased in 2008 and 2009 to recover their financial stability, in line with anti-crisis measures developed by the Russian Government. Segments 3 and 4 are responsible for the Group's banking operations in Ukraine and the Republic of Belarus, respectively. Segment 5 comprises other subsidiaries and funds in which the Group holds a controlling ownership interest.

The Group's management monitors the operating results of each segment separately to make decisions on allocation of resources and to assess operating performance. Segments results are defined in a different way from that used for the purposes of the consolidated financial statements, as shown in the table below. Income taxes are managed on a group basis and are not allocated to operating segments.

Transfer prices between segments are set on a commercial basis in a manner similar to transactions with third parties.

In 2011 and 2010, the Group received no income from transactions with one external client or counterparty, which amounted to 10% or more percent of the Group's total income, except for income from transactions with entities under control of the Russian Federation. Such income was mainly received from transactions within Segments 1 and 2.

7. Segment information (continued)

In 2010, the Group recognized a RUB 21,971 million loss from impairment of available-for-sale securities of Segment 1 and a RUB 305 million loss from impairment of securities of Segment 2 by transferring the negative revaluation previously recorded in comprehensive income to gains less losses from investment securities available for sale.

Reconciliation of the total segment assets to total assets of the Group according to IFRS is presented below:

	31 December 2011	31 December 2010
Segment assets		
Segment 1	1,931,864	1,631,391
Segment 2	413,190	274,192
Segment 3	146,528	126,863
Segment 4	42,158	36,994
Segment 5	299,501	87,082
Total before deducting intersegment assets	2,833,241	2,156,522
Intersegment assets	(301,599)	(113,638)
Adjustments	305	588
Total assets	2,531,947	2,043,472

The adjustments of intersegment income and expenses, and Group's assets, are related to the accounting differences due to the following reasons:

- ▶ as a result of transactions made with foreign subsidiaries of the Group in currencies other than the reporting currency of the Group;
- ▶ due to repurchase of debt securities issued by the Group entities, acquisitions or other deals with the financial instruments between the Group entities;
- ▶ due to reversal of allowances for impairment of intersegment assets, created by the Group entities.

Geographical information

Allocation of the Group's interest income from transactions with external clients in Russia, Ukraine and other countries, and non-current assets based on the location of these clients as at 31 December 2011 and 2010 and for the years then ended is presented in the table below:

	2011				2010			
	Russia	Ukraine	Other countries	Total	Russia	Ukraine	Other countries	Total
Interest income from external clients	140,274	15,106	4,407	159,787	125,733	19,509	2,521	147,763
Non-current assets	25,027	10,628	2,761	38,416	13,678	10,700	1,791	26,169

Non-current assets include property and equipment and intangible assets.

(In millions of Russian rubles)

8. Operations with the Russian Government, its authorized institutions and the Bank of Russia

Amounts due to the Russian Government, its authorized institutions' and the Bank of Russia consisted of the following:

	<u>2011</u>	<u>2010</u>
Interest-bearing loans and deposits from the Russian Ministry of Finance	647,319	594,028
Interest-bearing deposits from the Bank of Russia	225,664	211,647
Settlements related to redemption of Russian Government loans	10,092	7,438
Special purpose funds	1,259	996
Current accounts in precious metals	167	201
External debt payment funds	73	575
Current accounts of the Russian Government	16	16
Other funds	2	–
Due to the Russian Government, its institutions and the Bank of Russia	<u>884,592</u>	<u>814,901</u>

At 31 December 2011 and 2010, interest-bearing deposits from the Russian Ministry of Finance mainly include funds of the National Welfare Fund of the Russian Federation ("NWF") denominated in Rubles and deposited with Vnesheconombank pursuant to Federal Law No. 173-FZ in the amount of RUB 375,243 million (31 December 2010: RUB 372,270 million). These deposits were raised at annual rates of 6.25% and 7.25% (31 December 2010: 6.25% and 7.25%) and have maturity dates from December 2014 through December 2020.

In addition, at 31 December 2011 and 31 December 2010, interest-bearing deposits from the Russian Ministry of Finance included RUB-denominated funds intended to finance credit institutions and legal entities supporting small and medium enterprises. OJSC "SME Bank", a subsidiary bank, is responsible for implementing the government financial support. At 31 December 2011, the amount of financing was RUB 27,956 million (at 31 December 2010: RUB 27,642 million). The funds are denominated in Russian rubles, bear interest at 6.25% p.a. (31 December 2010: 6.25%) and mature in December 2017.

Pursuant to amendments to Federal Law No. 173-FZ and Regulation of the Russian Government No. 18 dated 19 January 2008, the interest rate on the above deposits was significantly lowered in August 2010. As at 31 December 2010, according to IFRS requirements, the Group derecognized initial liabilities and recognized new liabilities. As the new terms of financing were considered to be non-market, gains on initial recognition of financial instruments in the amount of RUB 42,192 million were recognized in the consolidated statement of income for the year ended 31 December 2010.

At 31 December 2011, interest-bearing deposits from the Russian Ministry of Finance include also RUB-denominated deposits in the amount of RUB 33,833 million (31 December 2010: RUB 2,585 million) placed in Vnesheconombank pursuant to Federal Law No. 173-FZ at the interest rate 6.25% p.a. maturing in May 2020 for further lending to the OJSC "AHML" (Note 14). These deposits were raised at the rate below the market level. Gains on initial recognition of financial instruments in the amount of RUB 6,134 million were recognized in the consolidated statement of income for the reporting period ended 31 December 2011 (for the year ended 31 December 2010: RUB 416 million).

In addition to the above, at 31 December 2011 and 31 December 2010, the interest-bearing deposits from the Russian Ministry of Finance include funds intended to finance investment projects. The funds are denominated in US dollars and mature from December 2012 to April 2013. At 31 December 2011, the amount of financing was RUB 205,576 million (31 December 2010: RUB 190,916 million maturing from July 2011 through December 2012).

At 31 December 2011, the Russian Ministry of Finance placed temporarily available funds on RUB-denominated short-term deposits with the Group's subsidiary banks, amounting to RUB 4,120 million and maturing from January to March 2012.

(In millions of Russian rubles)

8. Operations with the Russian Government, its authorized institutions and the Bank of Russia (continued)

At 31 December 2011 and 31 December 2010, the interest-bearing deposits from the Bank of Russia include special RUB-denominated deposits for the purposes of implementing the program of financial support to OJSC "Sviaz-Bank" (31 December 2011 and 31 December 2010: RUB 123,925 million and RUB 124,462 million, respectively) and CJSC "GLOBEXBANK" (31 December 2011 and 31 December 2010: RUB 85,561 million and RUB 86,682 million, respectively) to ensure activities on development of business of the above entities. Deposits raised for the outlined purposes were extended by 1 year in 2011 at interest rates below the market level. According to IFRS requirements, the Group derecognized initial liabilities and recognized new liabilities. Gains on initial recognition of financial instruments in the amount of RUB 5,767 million were recognized in the consolidated statement of income for the reporting period ended 31 December 2011 (for the year ended 31 December 2010: RUB 3,080 million).

At 31 December 2011, interest-bearing deposits of the Bank of Russia include short-term RUB-denominated deposits in the amount of RUB 16,178 million maturing from March to November 2012, raised by the Groups' subsidiaries.

Settlements related to redemption of Russian Government loans represent funds received from borrowers as repayment of loans granted by the Russian Government. These funds and the processing of payments are managed and conducted by the Bank in accordance with Agency Agreements. At 31 December 2011 and 31 December 2010, these amounts are regarded as due to the Russian Government.

At 31 December 2011 and 31 December 2010, special purpose funds included proceeds from export sales and other funds subject to settlement between the Russian Ministry of Finance and Vnesheconombank.

Current accounts in precious metals include funds of the Russian Government transferred to the statement of financial position of Vnesheconombank in the process of reorganization.

London Club

As a legal successor of the Vnesheconombank of the USSR, the Bank is a party to certain rescheduling agreements with various foreign credit institutions (the "London Club"). The London Club debt represents liabilities of the former USSR due to foreign banks and financial institutions. These liabilities were reconciled and restructured under a series of agreements and other legal documentation between the Bank and foreign creditors signed on 6 October 1997. These agreements required the original debts and the accrued interest thereon, denominated in various currencies, to be converted into Restructured Loans ("PRINs") denominated in base currencies (Swiss Francs, Japanese Yens, Deutsche Marks, European Currency Units and US Dollars) and Interest Arrears Notes ("IANs") denominated in US dollars.

The London Club debt was issued as a legal obligation of the Vnesheconombank of the USSR. Based on Russian Government resolution No. 1167 "On the Settlement of the Indebtedness of the Former USSR to Foreign Commercial Banks and Financial Institutions (the London Club)" dated 15 September 1997 and the Declaration of Support dated 28 November 1997, the Russian Government expressed its willingness, without right of legal recourse from creditors or specific commitment, to provide financial resources to enable the Vnesheconombank of the USSR to honor its London Club obligations as they became due. The Declaration of Support remains in force as long as any debt under the London Club restructuring agreements remains outstanding.

(In millions of Russian rubles)

8. Operations with the Russian Government, its authorized institutions and the Bank of Russia (continued)

London Club (continued)

On 11 February 2000, an agreement was reached between representatives of the London Club creditors and the Russian Government, under which the outstanding London Club debt of approximately USD 31.7 billion (at 31 March 2000) was exchanged for a new issue of Eurobonds issued by the the Russian Government and maturing in 2010 and 2030. As the exchange process substitutes obligations of the Bank with obligations of the Russian Government, receivables from the Russian Government under London Club and amounts due to London Club have been excluded from the Bank's consolidated statement of financial position to the extent that the bondholders have presented their PRINs and IANs for exchange.

As at 31 December 2011, the Group's consolidated statement of financial position includes liabilities only to those PRIN and IAN holders, who have not exchanged these instruments for the Russian Federation Eurobonds maturing in 2010 and 2030 under the agreement between the Russian Government and representatives of the London Club of creditors reached on 11 February 2000. At 31 December 2010, liabilities to PRIN and IAN holders were included in the statement of financial position.

Pursuant to Resolution of the Russian Government No. 1047-r dated 30 July 2009 concerning final settlement of the external debt obligations of the Russian Government and former USSR to London Club of Creditors, in December 2009, claims in the amount of RUB 31 million were settled. At 31 December 2011, the obligations settled and claims not presented for settlement by creditors, except for those mentioned above, were removed from the consolidated statement of financial position based on the letter of the Russian Ministry of Finance.

The London Club debt comprises:

	<u>2011</u>	<u>2010</u>
IAN	1,058	1,020
PRIN	–	16
Interest accrued on the PRINs and IANs, including overdue interest and penalties	89	87
Due to the London Club	<u>1,147</u>	<u>1,123</u>

9. Agency operations

Agency operations of Vnesheconombank

At 31 December 2011 and 2010, other assets and liabilities maintained by the Bank under the applicable Agency Agreements represent predominantly claims against foreign governmental and corporate debtors, former USSR companies, Russian state companies, and non-club debt to foreign creditors.

Vnesheconombank is not a legal obligor or creditor under the above categories of external debt or government external assets and, therefore, the corresponding amounts were not included in the Group's consolidated statement of financial position.

(In millions of Russian rubles)

10. Cash and cash equivalents

Cash and cash equivalents comprise:

	<u>2011</u>	<u>2010</u>
Cash on hand	13,293	12,450
Current accounts with the Bank of Russia	19,427	19,127
Correspondent nostro accounts with credit institutions and current stock broker accounts:		
- Russian Federation	15,621	11,981
- other countries	36,923	45,361
Interest-bearing loans and deposits maturing within 90 days:		
- due from the Bank of Russia	120	195
- due from credit institutions	90,015	83,748
Non-interest deposits with OECD credit institutions up to 90 days	94	–
Reverse repurchase agreements with credit institutions for up to 90 days	2,535	23,810
Cash and cash equivalents	<u>178,028</u>	<u>196,672</u>

At 31 December 2011, reverse repurchase agreements included loans of RUB 2,385 million (31 December 2010: RUB 23,350 million) issued to credit institutions and secured by corporate bonds with the fair value of RUB 2,786 million (31 December 2010: RUB 25,490 million), as well as loans in the amount of RUB 150 million (31 December 2010: RUB 460 million) issued to credit institutions and secured by corporate shares with the fair value of RUB 217 million (31 December 2010: RUB 648 million).

11. Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss comprise:

	<u>2011</u>	<u>2010</u>
Trading financial assets	41,814	37,277
Derivative financial assets (Note 13)	29,468	11,285
Financial assets designated as at fair value through profit or loss	23,080	27,582
Financial assets at fair value through profit or loss	<u>94,362</u>	<u>76,144</u>

Trading financial assets held by the Group comprise:

	<u>2011</u>	<u>2010</u>
<i>Debt securities:</i>		
Corporate bonds	17,006	10,839
Federal Loan Bonds (OFZ)	3,650	513
Municipal and sub-federal bonds, bonds of the Bank of Russia	725	2,501
	<u>21,381</u>	<u>13,853</u>
Eurobonds issued by the Russian Federation	7,115	10,481
Eurobonds of Russian and foreign issuers	1,115	1,875
	<u>8,230</u>	<u>12,356</u>
<i>Equity securities:</i>		
Shares	11,541	11,068
<i>Other financial assets</i>	<u>662</u>	<u>–</u>
Trading financial assets	<u>41,814</u>	<u>37,277</u>

(In millions of Russian rubles)

11. Financial assets at fair value through profit and loss (continued)

Financial assets designated as at fair value through profit or loss

At 31 December 2011 and 31 December 2010, financial assets designated as at fair value through profit or loss included primarily shares of Russian and foreign companies, as well as units in the closed-end mutual real estate fund held by a subsidiary bank.

The Bank entered into an option agreement which is economically related to its purchase of a Russian company's shares in the second quarter 2010; changes in the fair value of that agreement are recorded in the consolidated income statement as gains less losses arising from financial instruments at fair value through profit or loss. To avoid 'accounting mismatch', these securities were classified as designated at fair value through profit or loss, thus excluding inconsistency in recognition of the respective gains and losses. At 31 December 2011, the fair value of these shares and loss from its change during the period (as recorded in the consolidated income statement) amount to RUB 18,314 million (31 December 2010: RUB 24,825 million) and RUB 6,511 million, respectively.

Other securities included in this category meet the criteria to be classified as at fair value through profit or loss since the Group management measures the performance of these investments in terms of changes in their fair value based on quoted prices in an open market, valuation models, using both observable and non-observable market data.

12. Amounts due from credit institutions

Amounts due from credit institutions comprise:

	2011	2010
Obligatory reserve with the central banks	4,774	1,499
Non-interest-bearing deposits	9,823	9,602
Subordinated loans	349,940	347,090
Interbank loans and term interest-bearing deposits with credit institutions	92,479	59,169
Mortgage bonds	1,079	-
	458,095	417,360
Less allowance for impairment	(397)	(1,719)
Amounts due from credit institutions	457,698	415,641

Obligatory reserve with the central banks includes cash non-interest-bearing deposits (obligatory reserve) maintained by the Group's subsidiary banks with the Bank of Russia, the National Bank of the Republic of Belarus and the National Bank of Ukraine. The amount of this reserve depends on the level of funds attracted by the credit institutions. The banks' ability to withdraw such deposits is significantly restricted by the statutory legislation. Pursuant to law, Vnesheconombank creates no obligatory reserve to be maintained with the Bank of Russia.

At 31 December 2011, non-interest-bearing deposits include non-interest-bearing deposits in clearing currencies in the amount of RUB 9,498 million (31 December 2010: RUB 8,113 million), gross. The use of these deposits is subject to certain restrictions as stipulated by agreements between governments of the respective countries. The funds can be used for purchase of goods and services by Russian importers who purchase clearing currencies of tenders organized by the Group under the supervision of the Russian Ministry of Finance.

At 31 December 2011 and 31 December 2010, subordinated loans issued to Russian credit institutions comprised loans in the amount of RUB 349,940 million and RUB 346,880 million, respectively, issued to 16 Russian credit institutions in accordance with Federal Law No. 173-FZ carrying interest from 6.5% to 7.5% p.a. (31 December 2010: from 6.5% and 7.5%) and maturing from December 2014 to December 2020.

(In millions of Russian rubles)

12. Amounts due from credit institutions (continued)

Pursuant to amendments to Federal Law No. 173-FZ introduced in July 2010, the interest rate on the above deposits was lowered in August 2010. According to the adopted accounting policies, the Group derecognized initial receivables and recognized new subordinated loans. The new terms of placement were considered to be non-market. The Bank discounted these loans using a relevant market rate of placement, and the loss on initial recognition of financial instruments in the amount of RUB 42,073 million was recognized in the consolidated statement of income for the year ended 31 December 2010.

At 31 December 2011, interbank loans and term interest-bearing deposits with credit institutions include funds intended to finance (via the subsidiary bank OJSC "SME Bank") credit institutions supporting small and medium enterprises. At 31 December 2011, loans issued amounted to RUB 58,651 million (31 December 2010: RUB 50,051 million). For the reporting year ended 31 December 2011, loss on initial recognition of the part of these financial instruments in the amount of RUB 733 million was recognized in the consolidated statement of income (for the year ended 31 December 2010: RUB 4,341 million).

At 31 December 2011, mortgage bonds represent debt securities of a Russian bank in the amount of RUB 1,079 million at the rate below the market level and maturing in 2043, which were purchased in September 2011 by Vnesheconombank under 2010-2013 Investment Program to support affordable housing construction and mortgage projects. For the reporting period ended 31 December 2011, loss on initial recognition of financial instruments in the amount of RUB 559 million was recognized in the statement of income.

The movements in the allowance for impairment of amounts due from credit institutions were as follows:

	<u>2011</u>	<u>2010</u>
1 January	1,719	1,533
Charge/(reversal)	(57)	186
Write-offs	(1,265)	–
31 December	<u>397</u>	<u>1,719</u>

13. Derivative financial instruments

The Group enters into derivative financial instruments for trading purposes. The table below shows the fair values of derivative financial instruments, recorded as assets or liabilities, together with their notional amounts. The notional amount, recorded gross, is the amount of a derivative's underlying asset, reference rate or index and is the basis upon which changes in the value of derivatives are measured. The notional amounts indicate the volume of transactions outstanding at the year end and are not indicative of the credit risk.

	<u>2011</u>			<u>2010</u>		
	<u>Notional principal</u>	<u>Fair value</u>		<u>Notional principal</u>	<u>Fair value</u>	
		<u>Asset</u>	<u>Liability</u>		<u>Asset</u>	<u>Liability</u>

Total derivative assets/ liabilities		<u>29,468</u>	<u>6,945</u>		<u>11,285</u>	<u>5,416</u>

(In millions of Russian rubles)

13. Derivative financial instruments (continued)

In the table above foreign exchange contracts are understood as contracts concluded with non-residents of the Russian Federation, while domestic contracts are contracts concluded with residents of the Russian Federation.

Derivative financial assets are included in financial assets at fair value through profit or loss (Note 11).

At 31 December 2011, the Group has positions in the following types of derivatives:

Forwards

Forwards are contractual agreements to buy or sell a specified financial instrument at a specific price and date in the future. Forwards are customized contracts transacted in the over-the-counter market.

Swaps

Swaps are contractual agreements between two parties to exchange movements in interest and foreign currency rates and equity indices, and (in the case of credit default swaps) to make payments with respect to defined credit events based on specified notional amounts.

Options

Options are contractual agreements that convey the right, but not the obligation, for the purchaser either to buy or sell a specific amount of a financial instrument at a fixed price, either at a fixed future date or at any time within a specified period.

At 31 December 2011 and 2010, the Group's options included asset related to a put option with a fair value of RUB 8,731 million and RUB 7,232 million, respectively, for shares of a Russian company recognized within the Group's investment securities available for sale.

At 31 December 2011, the Group's options included asset related to a put option issued with a fair value of RUB 6,081 million for shares of a Russian company recognized in the Group's securities designated as at fair value through profit or loss to avoid accounting inconsistencies. At 31 December 2010, the Group's options included liability related to a call option issued with a fair value of RUB 2,090 million for shares of a Russian company recognized in the Group's securities designated as at fair value through profit or loss to avoid accounting inconsistencies.

Derivative financial instruments held or issued for trading purposes

Most of the Group's derivative trading activities relate to deals with credit institutions. The Group may take positions in derivative financial instruments with the expectation of profiting from favorable movements in prices, rates or indices. Positions in derivative financial instruments may be closed by taking an offsetting position. This item also includes derivatives that do not qualify for hedging in accordance with IAS 39.

(In millions of Russian rubles)

14. Loans to customers

Loans to customers comprise:

	<u>2011</u>	<u>2010</u>
Commercial loans, including loans to individuals	634,076	437,846
Project finance	464,659	372,547
Net investments in leases	123,635	47,552
Financing of operations with securities	41,810	20,918
Back-to-back finance	34,328	2,604
Promissory notes	21,325	19,606
Reverse repurchase agreements	19,339	3,899
Pre-export finance	12,892	18,595
Claims under letters of credit	11,003	4,933
Mortgage bonds	753	–
Other	28,412	3,637
Gross loans to customers	<u>1,392,232</u>	<u>932,137</u>
Less allowance for impairment	(163,309)	(144,211)
Loans to customers	<u><u>1,228,923</u></u>	<u><u>787,926</u></u>

At 31 December 2011 and 31 December 2010 back-to-back finance represented an unsecured loan issued to OJSC AHML, using funds deposited by the Russian Ministry of Finance with Vnesheconombank, in accordance with Federal Law No. 173-FZ (Note 8). This loan was placed at the rate below the market level. For the reporting year ended 31 December 2011, the loss on initial recognition of financial instruments in the amount of RUB 5,380 million was recognized in the consolidated statement of income (for the year ended 31 December 2010: RUB 399 million).

At 31 December 2011, mortgage bonds included bonds represent debt securities of OJSC "AHML" in the amount of RUB 753 million with an interest rate below the market value and maturing in 2044, purchased by Vnesheconombank under the Vnesheconombank's 2010-2013 Investment Program to support affordable housing construction and mortgage projects in December 2011. For the reporting year ended 31 December 2011, loss on initial recognition of financial instruments in the amount of RUB 378 million was recognized in the statement of income.

(In millions of Russian rubles)

14. Loans to customers (continued)

Allowance for impairment of loans to customers

A reconciliation of the allowance for impairment of loans to customers by class is as follows:

	Project finance 2011	Commercial loans 2011	Pre-export finance 2011	Net investment in leases 2011	Financing of operations with securities 2011	Promissory notes 2011	Reverse repurchase agreements 2011	Back-to- back finance 2011	Claims under letters of credit 2011	Mortgage bonds 2011	Other 2011	Total 2011
1 January 2011	69,970	65,691	1,767	164	2,583	744	220	96	2,695	–	281	144,211

14. Loans to customers (continued)

Individually impaired loans

Collateral and other credit enhancements

The amount and type of collateral required depends on an assessment of the credit risk of the counterparty. Guidelines are implemented regarding the acceptability of types of collateral and valuation parameters.

The main types of collateral obtained are as follows:

- ▶ for pre-export finance – pledges of claims for revenues under export contracts;
- ▶ for financing operations with securities and reverse repurchase transactions – cash or securities;
- ▶ for project finance and commercial lending – charges over real estate properties, inventory, and trade receivables, securities and other claims to third parties;
- ▶ for retail lending – mortgages over residential properties and other subject matter of lending.

The Group also obtains guarantees from the Russian Government, parent companies for loans to their subsidiaries and other guarantees from third parties as collateral for loans issued.

The market value of collateral is monitored on a regular basis, additional collateral is requested in accordance with the underlying agreement, and the market value of collateral obtained is monitored during review of the adequacy of the allowance for loan impairment.

Reverse repurchase agreements

At 31 December 2011, reverse repurchase agreements were in respect of marketable shares with the fair value of RUB 19,871 million, and marketable corporate bonds with the fair value of RUB 4,758 million. At 31 December 2010, reverse repurchase agreements were signed in respect of marketable shares with the fair value of RUB 931 million, and marketable corporate bonds with the fair value of RUB 3,700 million.

Concentration of loans to customers

At 31 December 2011, the total outstanding amount of loans to three major borrowers/groups of related borrowers was RUB 243,102 million, equivalent to 17.5% of the Bank's gross loan portfolio (31 December 2010: RUB 210,585 million or 22.6%). At 31 December 2011, an impairment allowance of RUB 39,145 million was made against these loans (31 December 2010: RUB 41,359 million). At 31 December 2011, these loans included loans issued to an associate of the Group involved in the real estate business, which accounted for 10.2 % of the gross loan portfolio (31 December 2010: 14.4 %).

At 31 December 2011 and 2010, in addition to the three major borrowers mentioned above, loans were issued to ten major borrowers/ groups of related borrowers in the amount of RUB 241,210 million and RUB 147,587 million or 17.3% and 15.8% of the gross loan portfolio, respectively. At 31 December 2011 and 2010, an allowance was made for those loans in a total amount of RUB 14,937 million and RUB 12,878 million, respectively.

(In millions of Russian rubles)

14. Loans to customers (continued)

Concentration of loans to customers (continued)

Loans have been extended to the following types of customers:

	<u>2011</u>	<u>2010</u>
Private enterprises	1,131,991	731,254
State-controlled entities	173,120	153,395
Companies under foreign state control	37,098	27,566

Other	22,833	2	21,144	3
	<u>1,392,232</u>	<u>100</u>	<u>932,137</u>	<u>100</u>

At 31 December 2011, loans and similar debt included a total of RUB 1,140,887 million granted to companies operating in Russia, which is a significant concentration. At 31 December 2010, loans and similar debt included a total of RUB 768,330 million granted to companies operating in Russia, which is a significant concentration.

(In millions of Russian rubles)

14. Loans to customers (continued)

Finance lease receivables

The analysis of finance lease receivables as of 31 December 2011 is as follows:

	Not later than 1 year	Later than 1 year but not later than 5 years	Later than 5 years	Total
Finance lease receivables	30,958	94,905	70,326	196,189
Unearned future finance income on finance leases	(2,506)	(29,278)	(40,770)	(72,554)
Net investment in finance leases	28,452	65,627	29,556	123,635

The analysis of finance lease receivables as of 31 December 2010 is as follows:

	Not later than 1 year	Later than 1 year but not later than 5 years	Later than 5 years	Total
Finance lease receivables	11,649	37,985	20,517	70,151
Unearned future finance income on finance leases	(874)	(11,762)	(9,963)	(22,599)
Net investment in finance leases	10,775	26,223	10,554	47,552

15. Investment securities

Investment securities available for sale

Available-for-sale investment securities comprise:

	2011	2010
Debt securities		
Corporate bonds	139,549	147,824
Eurobonds of Russian and foreign issuers	25,261	18,781
Federal loan bonds (OFZ)	22,557	135
Promissory notes	15,386	10,600
Debt instruments issued by foreign government bodies	3,848	7,958
Eurobonds issued by the Russian Federation	2,124	1
Municipal and sub-federal bonds	549	1,678
	209,274	186,977
Equity securities		
Shares	245,011	284,898
Less allowance for impairment (Note 20)	–	(120)
	245,011	284,778
	454,285	471,755
Investment securities available for sale		
<i>Securities pledged under repurchase agreements</i>		
Debt instruments issued by foreign government bodies	3,217	–
Shares	836	144
Eurobonds of Russian and foreign issuers	662	162
Corporate bonds	–	2,245
Russian MinFin bonds (OVGVZ)	–	2,222
Municipal and sub-federal bonds	–	55
Investment securities available for sale and pledged under repurchase agreements	4,715	4,828

(In millions of Russian rubles)

15. Investment securities (continued)

Investment securities available for sale (continued)

For the reporting year ended 31 December 2011, the Group recognized a RUB 8,910 million loss from impairment of available-for-sale securities (for the year ended 31 December 2010: RUB 22,276 million) by transferring the negative revaluation earlier recorded in comprehensive income to gains less losses from investment securities available for sale of the consolidated statement of income (Note 28).

Investment securities held to maturity

Investment securities held to maturity comprise:

	<u>2011</u>	<u>2010</u>
Eurobonds of Russian and foreign issuers	15,127	17,860
Corporate bonds	1,396	2,368
Municipal and sub-federal bonds	1,297	1,338
Federal loan bonds (OFZ)	25	51
Promissory notes	9	–
	<u>17,854</u>	<u>21,617</u>
Less allowance for impairment (Note 20)	(75)	(81)
Investment securities held to maturity	<u>17,779</u>	<u>21,536</u>

16. Due from the Russian Government

At 31 December 2011, amounts due from the Russian Government include primarily claims to the Russian Ministry of Finance of RUB 124 million (31 December 2010: RUB 119 million) to unfreeze correspondent accounts.

17. Investments in associates

19. Taxation

Income tax expense comprises:

	<u>2011</u>	<u>2010</u>
Current tax charge/(benefit)	1,093	1,227
Deferred tax (benefit)/expense – origination and reversal of temporary differences in the statement of income	(1)	(2,533)
Hyperinflation effect	(58)	–
Income tax expense/(benefit)	<u>1,034</u>	<u>(1,306)</u>

Deferred tax recorded in other comprehensive income relates to unrealized gains/(losses) from transactions with investment securities available for sale.

Russian legal entities must file individual tax declarations. The tax rate for banks for profits other than on state securities was 20% for 2011 and 2010. The tax rate for companies other than banks was also 20% for 2011 and 2010. The tax rate for interest income on state securities was 15% for Federal taxes.

The aggregate income tax rate effective in the Republic of Belarus for 2011 was 24% and for 2010 - 26.28%. The aggregate income tax rate effective in Ukraine for 2011 was 23% and for 2010 - 25%.

In accordance with federal legislation, effective from reorganization date income and expenses received and paid by Vnesheconombank are not accounted when determining taxable base for income tax purposes. Therefore, income and expenses of the Bank for 2011 and 2010 are not included into taxable base for income tax purposes, which had significant impact on the Group's effective income tax rate for 2011 and 2010.

At 31 December, the Group's income tax assets and liabilities comprise:

	<u>2011</u>	<u>2010</u>
Current income tax assets	595	712
Deferred income tax asset	2,737	1,638
Income tax assets	<u>3,332</u>	<u>2,350</u>
Current income tax liability	167	27
Deferred income tax liability	1,718	1,015
Income tax liabilities	<u>1,885</u>	<u>1,042</u>

(In millions of Russian rubles)

19. Taxation (continued)

The effective income tax rate differs from the statutory income tax rates. A reconciliation of the income tax expense based on statutory rates with actual is as follows:

	<u>2011</u>	<u>2010</u>
Income before tax from continuing operations	8,514	26,769
Loss before tax from discontinued operations	–	(184)
Income before tax	<u>8,514</u>	<u>26,585</u>
Statutory tax rate	<u>20%</u>	<u>20%</u>
Theoretical income tax expense at the statutory rate	1,703	5,317
<i>Tax effect from the following income and expenses:</i>		
Non-taxable income on state securities/income taxed at different rates	(264)	(181)
Income taxed at different rate	(237)	(200)
Non-taxable income and non-deductible expenses	1,565	475
Currency translation differences	1,230	(20)
Vnesheconombank's income and expenses not included in tax base for income tax purposes	(2,614)	(5,477)
Change in income tax resulting from change in tax rate and other changes in the legislation	1,143	(1,835)
Change in unrecognized deferred tax assets	(1,097)	179
Other	(395)	80
Income tax (benefit)/charge	<u>1,034</u>	<u>(1,662)</u>
Income tax (benefit)/expense recognized in the consolidated statement of income	1,034	(1,306)
(Benefit)/expense related to the income tax from discontinued operations	–	(356)
	<u>1,034</u>	<u>(1,662)</u>

(In millions of Russian rubles)

19. Taxation (continued)

Deferred tax assets and liabilities as of December 31 and their movements for the respective years comprise:

	Origination and reversal of temporary differences				2010	Origination and reversal of temporary differences				2011

	<u>2011</u>	<u>2010</u>
Eurobonds	134,715	99,546
Bonds	107,430	71,423
Promissory notes	18,394	15,976
Certificates of deposit and saving certificates	491	2
Debt securities issued	<u>261,030</u>	<u>186,947</u>
Promissory notes held as security against guarantees	1,289	1,856

(In millions of Russian rubles)

24. Debt securities issued (continued)

At 31 December 2011, the Group's debt securities issued include Eurobonds placed at market interest rates denominated in USD maturing from May 2016 to November 2025 (at 31 December 2010: from November 2017 to November 2025), denominated in CHF maturing in February 2016.

At 31 December 2011, included in the Group's debt securities are bonds placed at market interest rates denominated in RUB maturing from February 2013 to September 2021 (at 31 December 2010: from April 2011 to October 2020), denominated in UAH maturing from March 2013 to March 2014, as well as bonds, denominated in BYR maturing from October to December 2011.

At 31 December 2010, included in the Group's debt securities are bonds placed at market interest rates denominated in USD maturing in April 2011.

The Group's debt securities issued at 31 December 2011 include interest-bearing promissory notes denominated in RUB, USD and EUR maturing in 2049 (31 December 2010: maturing before 2049). Interest rates are from 0.1% to 9.5% for RUB-denominated promissory notes (31 December 2010: from 0.1% to 7.8%), from 0.2% to 4.9% for USD-denominated promissory notes (31 December 2010: from 0.2% to 4.9%) and from 0.5% to 5% for EUR-denominated promissory notes (31 December 2010: from 2.4% to 4.9%).

At 31 December 2011, deposit and saving certificates issued by a subsidiary bank are denominated in RUB, bear interest rates from 0.1% to 9% and mature from February 2012 to March 2022. At 31 December 2010, deposit and saving certificates issued by a subsidiary bank are denominated in BYR, bear interest rates of 1% and mature in February 2011.

25. Equity

Charter capital

In accordance with Federal Law No. 82-FZ, the Bank's charter capital is formed from asset contributions of the Russian Federation made upon decision of the Russian Government.

In accordance with Resolution of the Russian Government No. 1687-r dated 27 November 2007, pursuant to Federal law No. 246-FZ dated 2 November 2007, "On Introducing Amendments to Federal Law "On the Federal Budget for 2007", the Russian Federation contributed RUB 180,000 million to the charter capital of Vnesheconombank in November 2007.

In accordance with Resolution of the Russian Government No. 1766-r dated 7 December 2007, the Russian Government decided to contribute 100% of state-owned shares of OJSC "SME Bank" and 5.2% of state-owned shares of CJSC ROSEXIMBANK to the charter capital of Vnesheconombank. The transfer of shares was completed in 2008.

In accordance with Resolution of the Russian Government No. 1665-r dated 19 November 2008, pursuant to Federal law No. 198-FZ dated 24 July 2007, "On Federal Budget for 2008 and for the 2009 and 2010 Budget Period", the Russian Federation contributed RUB 75,000 million to the charter capital of Vnesheconombank in November 2008.

In accordance with Resolution of the Russian Government No. 854-r dated 23 June 2009, pursuant to Federal law No. 204-FZ dated 31 October 2008, "On Federal Budget for 2009 and for the 2010 and 2011 Budget Period", the Russian Federation contributed RUB 100,000 million to the charter capital of Vnesheconombank in June 2009.

(In millions of Russian rubles)

25. Equity (continued)

Charter capital (continued)

In accordance with Resolution of the Russian Government No. 1891-r dated 10 December 2009, the Russian Federation contributed RUB 21,000 million to the charter capital of Vnesheconombank for further acquisition by the Bank of shares additionally issued by JSC "United Aircraft Corporation" in December 2009.

At the end of 2010, in accordance with Resolution of the Russian Government No. 603-r dated 21 April 2010, the Russian Federation contributed 100% of state-owned shares of OJSC Federal Center for Project Finance to the charter capital of Vnesheconombank.

In 2011 and 2010, OJSC "Belvnesheconombank", the Group's subsidiary, paid dividends on ordinary shares in the amount of RUB 286 million and RUB 95 million for the reporting years ended 31 December 2010 and 2009, respectively.

Additional paid-in capital

In December 2011, pursuant to Federal Law No. 357-FZ "On Federal Budget for 2011 and for the 2012 and 2013 Budget Period" dated 13 December 2010, the Bank received a grant from the Russian Ministry of Finance as an asset contribution in the amount of RUB 62,600 million for the purposes of creating the Russian direct investment fund, which was recognized in additional paid-in capital. Vnesheconombank used all funds to acquire units in Mutual Fund "RDIF".

Nature and purpose of other reserves

Unrealized gains/(losses) on investment securities available for sale

Tax effect of net income on securities available for sale	7	–
Impairment loss on investment securities available for sale, reclassified to the statement of income (Note 28)	8,910	22,276
Change in unrealized gains/(losses) on operations with investment securities available for sale	(27,933)	11,817

Foreign currency translation reserve

The foreign currency translation reserve is used to record exchange differences arising from the translation of the financial statements of foreign subsidiaries.

(In millions of Russian rubles)

26. Commitments and contingencies

Operating environment

Russia continues economic reforms and development of its legal, tax and regulatory frameworks as required by a market economy. The future stability of the Russian economy is largely dependent upon these reforms and developments and the effectiveness of economic, financial and monetary measures undertaken by the government.

As emerging markets, the Republic of Belarus and Ukraine do not possess a well-developed business and regulatory infrastructure that would generally exist in more mature market economies. Ukrainian economy continues to display certain characteristics consistent with those of an economy in transition. These characteristics include, but are not limited to, low levels of liquidity in the capital markets, relatively high inflation and the existence of currency controls which cause the national currency to be illiquid outside of the country. In November 2011, the Republic of Belarus was recognized as a hyperinflationary economy starting from 1 January 2011. The future stability of the Belarusian and Ukrainian economies depends to a large extent on the efficiency and further development of the economic, financial and monetary measures taken by the Belarusian and Ukrainian governments.

The Russian, Belarusian and Ukrainian economies are vulnerable to market downturns and economic slowdowns elsewhere in the world. In 2011, the Russian, Belarusian and Ukrainian governments continued to take measures to support the economy to overcome the consequences of the global financial crisis. Despite certain signs of economic recovery, there continues to be uncertainty regarding future economic growth, access to capital and cost of capital, which could adversely affect the Group's financial position, results of operations and business prospects.

Also, factors including increased unemployment, reduced corporate liquidity and profitability, and increased corporate and personal insolvencies, have affected the Group's borrowers' ability to repay the amounts due to the Group. In addition, changes in economic conditions have resulted in deterioration in the value of collateral held against loans and other obligations. To the extent that information is available, the Group has reflected revised estimates of expected future cash flows in its impairment assessment.

While management believes it is taking appropriate measures to support the sustainability of the Group's business in the current circumstances, further deterioration in the areas described above could negatively affect the Group's results and financial position in a manner not currently determinable.

Legal

In November 2009, based on a suit filed by one of the minority shareholders of PSC Prominvestbank, the Commercial Court of Kiev annulled decisions of the general meetings of shareholders of PSC Prominvestbank, held in September and November 2009. Based on the said decisions, PSC Prominvestbank issued additional shares which resulted in an increase of Vnesheconombank's interest in the Ukrainian bank from 75% plus three shares to 93.8%. The cost of additional shares acquired by Vnesheconombank totaled RUB 14,127 million (equivalent of USD 500 million).

In April 2010, based on the specified decision of the Commercial Court of Kiev, the Securities and Stock Market State Commission of Ukraine (SSMSC) annulled the additional issue of shares by PSC Prominvestbank.

Prominvestbank filed a claim with Kiev County Administrative Court requesting to annul the specified decision of the Securities and Stock Market State Commission (SSMSC). The court of the first instance dismissed the claim.

(In millions of Russian rubles)

26. Commitments and contingencies (continued)

Legal (continued)

Prominvestbank appealed the decision of Kiev County Administrative Court with the appeal instance. After review of the complaint Kiev Administrative Court of Appeal cancelled the decision of the court of the first instance as illegal by its Resolution dated 1 February 2011. The Resolution came into effect on 1 February 2011.

At 27 February 2011 SSMSC filed a cassation appeal against the Resolution of Kiev Administrative Court of Appeal dated 1 February 2011 with the Supreme Administrative Court of Ukraine.

In July 2011, the Supreme Administrative Court of Ukraine legitimated the Resolution of Kiev Administrative Court of Appeal that came into effect on 1 February 2011, and the cassation appeal of the Securities and Stock Market State Commission was dismissed.

The Group's management assumes that there is no need for an allowance in the consolidated financial statements as at 31 December 2011 in respect of the above litigation.

In the ordinary course of business, the Group is also subject to other legal actions and complaints. Management believes that the ultimate liability, if any, arising from such actions or complaints will not have a material adverse effect on the financial condition or the results of future operations of the Group. Movement in provisions for legal claims is shown in Note 20.

Taxation

Russian tax legislation is subject to varying interpretations, and changes, which can occur frequently. In addition, certain provisions of Belarusian and Ukrainian tax legislation may give rise to varying interpretations and inconsistent applications. The Bank's management's and its subsidiaries' management's interpretation of such legislation as applied to the transactions and activity of the Group companies may be challenged by the relevant tax authorities. Trends within the Russian Federation suggest that the tax authorities are taking a more assertive position in their interpretation of the legislation and assessments and, as a result, it is possible that transactions and activities that have not been challenged in the past may be challenged. As such, significant additional taxes, penalties and interest may be accrued.

Pursuant to the interpretation of the Russian Ministry of Finance stated in the letter dated 31 December 2011, special purpose entities incorporated in Ireland for the purposes of issuing Eurobonds are not subject to benefits under the Double Taxation Treaty between Ireland and Russia. If Russian tax authorities follow this approach (and possibly, apply it to other bond-issuing structures in countries other than Ireland), a fee of 20% of the tax not withheld from interest paid to such Eurobond-issuing companies in 2009-2011, a penalty and, possibly, a requirement to pay a 20% tax may be imposed on the Group. The Russian Ministry of Finance declared its plans to introduce a bill clarifying applicable legal requirements. If the bill is passed, the tax risk for 2011 and preceding years will be eliminated. The Group's management believes that its interpretation of tax legislation on Eurobonds will be sustained and this contingency will have no significant impact on the Group's consolidated financial statements.

At 31 December 2011, management believes that its interpretation of the relevant legislation is appropriate and that the Group's tax position will be sustained.

(In millions of Russian rubles)

26. Commitments and contingencies (continued)

Commitments and contingencies

At 31 December, the Group's commitments and contingencies comprised:

	2011	2010
Credit related commitments		
Undrawn loan commitments	568,066	436,271
Guarantees	103,049	156,237
Letters of credit	80,790	49,806
	751,905	642,314
Operating lease commitments		
Not later than 1 year	1,322	1,240
Later than 1 year but not later than 5 years	2,256	1,691
Later than 5 years	963	1,013
	4,541	3,944
Capital expenditure commitments	19,559	10,901
	776,005	657,159
Less provisions (Note 20)	(147)	(152)
Commitments and contingencies (before deducting collateral)	775,858	657,007
Less Group's cash and promissory notes held as security against guarantees and letters of credit	(5,130)	(7,752)
Commitments and contingencies	770,728	649,255

At 31 December 2011, the Group advised export letters of credit for a total amount of RUB 73,890 million (31 December 2010: RUB 72,416 million) and received reimbursement authorization from the issuing credit institutions for a total of RUB 2,364 million (31 December 2010: RUB 2,956 million). The Group bears no credit risks under export letters of credit and reimbursement authorization.

At 31 December 2011, credit related commitments include liabilities in favor of one counterparty, a state company, in the amount of RUB 33,924 million, which accounts for 5% (31 December 2010: RUB 44,846 million, 7%) of all credit related commitments.

In October 2011, the Bank signed a credit line agreement in the amount of RUB 36,000 million with a manufacturing company to provide a credit line under a project financing program.

At 31 December 2011, the Bank signed credit line agreements with ten resident banks in the amount of RUB 35,500 million under the Vnesheconombank's Investment Program to support affordable housing construction and mortgage projects.

For the period from October to December 2011 the Bank entered into material loan agreements in the amount of RUB 77,407 million with companies operating in the electric power, oil and gas, finance, manufacturing and agricultural sectors.

Insurance

At 31 December 2011 the Group's premises are insured for RUB 9,847 million (31 December 2010: RUB 12,241 million). The Group has not currently obtained insurance coverage related to liabilities arising from errors or omissions. Liability insurance is generally not available in Russia, Republic of Belarus and Ukraine at present.

(In millions of Russian rubles)

27. Net fee and commission income

Net fee and commission income comprises:

	<u>2011</u>	<u>2010</u>
Cash and settlement operations	3,582	3,230

30. Profit from discontinued operations

In April 2010, the Group acquired 100% shares of AMURMETAL HOLDING LIMITED, a company holding shares of the entity, which is the owner of a group of metallurgical enterprises. The group was classified as a disposal group held for sale under provisions of IFRS 5 and included in the 5th operating segment.

In December 2010, the Group entered into an option agreement for the sale of the above interest, which resulted in the loss of control over the disposal group. Loss from discontinued operations related to the disposal group, during the period from the date of acquisition till loss of control amounted to RUB 2,194 million, profit recognized on disposal of the group – RUB 2,366 million.

31. Risk management

Introduction

The Group's operations expose it to financial risks, which it divides into credit risk, liquidity risk and market risk, the latter being subdivided into interest rate risk, currency risk and equity risk. Group members manage financial risks through a process of ongoing identification, measurement and monitoring, as well as by taking steps towards reducing the level of risk.

The Group is also subject to operational risk and strategic risk. Strategic risk is defined by the Group as a risk of a negative effect on the Group's operations arising from mistakes (deficiencies) made in decisions that determine strategy of the Group; this risk is managed by the Group in the course of its strategic planning process.

The process of risk management is critical to ensure that risks accepted by the Group would not affect its financial stability. Each business division within the Group involved in operations exposed to risk is accountable for controlling the level of risks inherent in its activities to the extent provided in the internal regulations.

Risk management structure in place at Group members

Typical organizational structure of risk management in place at Group members consists of the following elements:

- ▶ The supreme collegial management body (Supervisory Board, Board of Directors) takes strategic decisions aimed at organizing and supporting the operation of the risk management system.
- ▶ Collegial management bodies (Management Board, Banking Risk Management Committee, Financial Committee, Asset and Liability Management Committee, Credit Committee, Technology Committee) and single management bodies (Chairman of the Bank, Chairman of the Management Board) prepare/adopt management decisions within their established authority, over a particular type of activity or type of risk.
- ▶ Independent risk management business division (Risk Management Department, Risk Analysis and Control Department) coordinates activities carried out by independent business divisions to implement risk management decisions taken by management bodies, including development of a regulatory framework that underlies risk assessment and control, independent assessment and subsequent control of risk level, and prepares risk reports for Group member management on a regular basis.
- ▶ Business divisions engaging in/supporting operations exposed to risks perform initial risk identification and assessment, control compliance with established limits and generate risk reports subject to the requirements of the adopted/approved regulatory framework.

(In millions of Russian rubles)

31. Risk management (continued)

Introduction (continued)

- ▶ The Internal Control Function controls compliance with requirements of internal regulations and evaluates the effectiveness of the risk management system. Following the completion of respective audits, the Internal Control Function reports its findings and recommendations to Group member management.

In 2011, the risk management coordination within the Group of Vnesheconombank was further developed. A package of measures aimed at harmonizing the approaches to risk management was consistently implemented within the group of subsidiary banks in general, to include approaches to risk assessment and development of the limits policy.

Vnesheconombank's risk management structure

The Supervisory Board is the supreme management body of the Bank. Within the scope of powers delegated to that body by the Memorandum on Financial Policies and Federal Law No.82-FZ, the Supervisory Board is responsible for establishing specific parameters of the Bank's investing and financing activities including those related to risk management. Along with the Supervisory Board, the Bank's management structure comprises other management and collegial bodies and business divisions that are responsible for controlling and managing risks.

Supervisory Board

Pursuant to the Regulation on the Supervisory Board, powers of the Bank's Supervisory Board in the area of risk management include: the approval of procedures governing the activities of internal control function, credit policy regulations, procedures for providing guarantees, sureties and loans to credit institutions and other legal entities, methods and procedures for measuring credit risk parameters and limits, methodology for calculating the Bank's equity (capital) amount and capital adequacy ratio, impairment and other losses provisioning procedures, regulations on the Bank's management bodies.

The Supervisory Board decides on approving transactions involving acquisition, disposal or potential disposal of assets whose carrying value accounts for at least 10% of the Bank's equity and establishes the maximum amount of funds allocated to manage the Bank's temporarily idle cash (liquidity).

Within the scope of powers delegated to it by the Memorandum on Financial Policies and Federal Law No. 82-FZ, the Supervisory Board establishes parameters of the Bank's investing and financing activities, sets limits and establishes limitations on the structure of the Bank's loan portfolio.

Management Board

The risk management-related authorities of the Management Board include making decisions to approve transactions or a number of interrelated transactions associated with acquisition, disposal or potential disposal of assets whose carrying value accounts for 2% to 10% of the Bank's equity.

The Management Board drafts proposals regarding Vnesheconombank's major lines of business and parameters of its investing and financing activities (including those related to risk management) and submits such proposals for approval by the Supervisory Board.

Chairman of Vnesheconombank

With regard to risk management-related aspects of the Bank's operations, the Chairman of Vnesheconombank issues orders and resolutions, approves policies and technical procedures governing banking transactions.

(In millions of Russian rubles)

31. Risk management (continued)

Introduction (continued)

The Chairman of Vnesheconombank decides on other matters related to risk management except for those falling within the competence of the Supervisory Board and the Management Board.

Credit Committee

The Credit Committee is the Bank's standing collegial body whose primary objective is to develop conclusions as a result of considering suggestions for granting loans, guarantees, sureties and financing on a repayable basis, participation in share capital and/or purchase of bonds, setting limits by counterparty and issuer, as well as debt recovery and write-off.

Assets and Liabilities Committee

The Assets and Liabilities Committee is the Bank's standing collegial body whose primary objective is to develop conclusions and recommendations for assets and liabilities management, including issues related to managing the Bank's market and structural risks and ensuring that the Bank's operations are break-even.

Working Group on Coordination of Subsidiary Banks' and Financial Companies' Liquidity and Risk Management

Key competences of the Working group include coordination of activity within the group of subsidiary banks and financial companies of Vnesheconombank in order to ensure consistent liquidity and risk management, provide conditions for efficient implementation of policies on managing assets and liabilities and risks within the group of subsidiary banks and financial companies of Vnesheconombank.

Working Group on Coordination of Public Borrowings of Subsidiary Banks and Companies of Vnesheconombank

Key competences of the Working group include assisting subsidiary banks and financial companies of Vnesheconombank by preparing reports and recommendations on the following activities of Vnesheconombank group of companies: improvement of coordination of public borrowings of Vnesheconombank subsidiary banks and companies, raising funds for Vnesheconombank subsidiary banks and companies, and reconciling key parameters for this process.

Internal Control Function

The Internal Control Function is responsible for monitoring, on a continuous basis, the functioning of the banking risk management system as provided in the internal regulations. Following the completion of the respective audits, the Internal Control Function reports its findings and recommendations to the Bank's management.

Risk Management Department

The Risk Management Department is an independent business division designed to maintain the efficient functioning of the risk management system in compliance with the requirements of supervisory and regulatory bodies, international standards governing banking risk management practices in order to ensure the requisite reliability and financial stability of the Bank.

(In millions of Russian rubles)

31. Risk management (continued)

Introduction (continued)

The Risk Management Department is responsible for developing methods and procedures for the assessment of various types of risks, draft proposals to limit the risk level, perform follow-up monitoring of compliance with the established risk limits and relevant risk decisions, and prepare reporting documents for each type of risks and each line of the Bank's business.

The Risk Management Department is responsible for monitoring compliance with risk policies and principles, and for assessing risks of new products and structured transactions. The Risk Management Department is composed of units that are responsible for control over the level of exposures by each type of risk and each line of the Bank's business, as well as a division responsible for monitoring risks of subsidiary banks.

Directorate for Currency and Financial Transactions

To control the Bank's day-to-day liquidity, the Directorate for Currency and Financial Transactions monitors compliance with the established minimum levels of liquidity and maturity gaps in assets and liabilities. The Directorate prepares regular forecasts of the Bank's estimated leverage by source of funding, performs daily monitoring of open position limits by class of financial instruments and operations performed by the Directorate on money, equity and currency markets as well as counterparty limits.

The Directorate monitors the market value and liquidity of collateral provided by the Bank's counterparties.

Independently from other operating divisions, the Analytical Unit within the Directorate analyzes the current situation on money, equity and currency markets.

Economic Planning Department

The Economic Planning Department is involved in the development of methodological documents for managing the Bank's financial risks. The Department monitors the Bank's financial stability parameters, including capital adequacy ratio. The Department coordinates the activities across the Bank relating to the establishment of allowances for losses.

Risk management

Risk measurement and reporting systems

The Bank's risks are measured using the methodologies approved by the Bank's authorized bodies which allow assessing both the expected loss likely to arise in normal circumstances and unexpected losses, which are an estimate of the ultimate possible loss at a given level of probability. Losses are measured on the basis of the analysis and processing of historical data relating to risk factors underlying such losses and the established patterns (models) used to determine the relationship between changes in risk factors and loss events. Statistical patterns derived from the analysis of historical data are adjusted, as appropriate, to account for the current operating environment of the Bank and situation on the markets.

The Bank also applies stress testing practices to run worse case scenarios that would arise in case extreme events which are unlikely to occur do, in fact, occur.

Monitoring and limiting risks is primarily performed based on limits established by the Bank. These limits reflect the level of risk which is acceptable for the Bank and set strategic priorities for each line of the Bank's business.

(In millions of Russian rubles)

31. Risk management (continued)

Introduction (continued)

To assess and monitor the aggregate credit and market risk exposure, the Bank computes capital adequacy ratio in accordance with the methodology approved by the Bank's Supervisory Board and based on approaches set out in regulations issued by the Bank of Russia. The minimum capital adequacy ratio of 10% has been set.

Information compiled from all the businesses is examined and processed in order to analyze, control and early identify risks. The above information and analytical comments thereon are communicated regularly to the Bank's management bodies, heads of business divisions and the Internal Control Function. The reporting frequency is established by the Bank's management body. The reports include the level of risk and risk profile changes by each type of risks and main business line, respective estimated values, updates on compliance with the existing risk limits, assessment of the amount of unexpected losses based on the value at risk methodology (VaR), results of sensitivity analysis for market risks, and the Bank's liquidity ratios.

To ensure timely response to changes in internal and external operating environment, heads of business divisions are obliged to notify the Bank's management of any factors contributing to banking risks. Information is to be communicated in accordance with the procedure set forth in the corresponding internal documents governing the activities of the business divisions.

The Risk Management Department, jointly with other responsible business divisions, regularly monitors compliance with the existing limits, analyzes risk factors associated with financial and non-financial counterparties, jurisdictions, countries, market instruments, and the Bank's position in a given market segment and analyzes changes in the level of risk.

Risk mitigation

As part of its risk management, the Bank may use derivatives and other instruments to manage exposures arising from changes in interest rates, currency rates, equity prices, credit risk factors, and exposures arising from changes in positions under forecast transactions.

The Bank actively uses collateral to reduce its credit risks (see above for more detail).

Excessive risk concentration

Concentrations arise when a number of counterparties are engaged in similar business activities, or activities in the same geographic region, or have similar economic features, or when their ability to meet contractual obligations will be similarly affected by possible changes in economic, political or other conditions. Concentrations indicate the relative sensitivity of the Bank's performance to developments affecting a particular industry or geographical location.

In order to control the level of risk concentrations, the Bank's policies and procedures include guidelines and restrictions designed to maintain a diversified portfolio.

(In millions of Russian rubles)

31. Risk management (continued)

Credit risk

Credit risk is the risk that the Bank will incur a loss because its customers, clients or counterparties failed to discharge their contractual obligations in full when they fall due. The Bank manages and controls credit risk by placing limits on the amount of risk it is willing to accept in relation to one counterparty, groups of counterparties and to industry segments and regions, and by monitoring exposures in relation to the existing limits.

Within the framework of risk management, the Bank ensures compliance with the following limits established in the Memorandum on Financial Policies:

- ▶ the maximum limit of exposure per individual borrower or a group of related borrowers shall not exceed 25% of the Bank's equity (capital);
- ▶ the aggregate volume of major exposures shall not exceed 800% of the Bank's equity (capital).

Vnesheconombank's Supervisory Board is entitled to set additional limits, including those related to the structure of the Vnesheconombank's loan portfolio.

When extending guarantees under export operations and arranging for export loan insurance against political and commercial risks, the Bank complies with the limitations set forth in the Memorandum on Financial Policies, whereby the maximum value of the Bank's commitments in respect of one borrower or a group of related borrowers should not exceed 25% of the Bank's equity (capital).

The Bank adopts a systemic approach to managing risks associated with the Bank's entire asset portfolio and those attributable to individual transactions entered into with borrowers/counterparties (a group of related borrowers/counterparties). Such approach consists of the following steps:

- ▶ risk identification;
- ▶ risk analysis and assessment;
- ▶ risk acceptance and/or risk reduction;
- ▶ risk level control.

Credit risk is managed throughout all the stages of the lending process: loan application review, execution of a lending/documentary transaction (establishment of a corresponding credit limit), loan administration (maintaining loan files, etc.), monitoring the loan (credit limit) drawdown status, monitoring the borrower's financial position and repayment performance until full settlement has been made (credit/documentary limit has been closed), monitoring the status of the current investment project. Since transactions that are bearing credit risk may not only involve credit risk as such, but give rise to other risks (e.g. market risk, project risk, collateral risk), the Bank performs a comprehensive assessment of risks attributable to such transactions.

The principle of methodological integrity provides for the use of a consistent methodology for identifying and measuring credit risk which is in line with the nature and scale of operations conducted by the Bank. The assessment methodology for the credit risk of the Group members is being amended to harmonize approaches to credit risk assessment used within the Group and in order to comply with the Bank's standards.

The Bank has established a credit quality review process to provide early identification of possible changes in the creditworthiness of counterparties, including regular collateral revisions. Counterparty limits are established by the use of a credit risk classification system, which assigns each counterparty a credit rating. Credit ratings are subject to regular revision. The credit quality review process allows the Bank to assess the potential loss as a result of the risks to which it is exposed and take corrective action.

(In millions of Russian rubles)

31. Risk management (continued)

Credit risk (continued)

Credit-related commitments risks

The Bank makes available to its customers documentary operations which may require that the Bank make payments on their behalf. Such payments are collected from customers based on the terms of the guarantee/letter of credit given. They also expose the Bank to credit risks which are mitigated by the same control processes and policies.

The maximum exposure to credit risk for the components of the consolidated statement of financial position does not exceed amounts presented in the balance sheet.

For more details on the maximum exposure to credit risk for each class of financial instrument, references shall be made to the specific notes. The effect of collateral and other risk mitigation techniques is shown in Note 14.

Where financial instruments are recorded at fair value, the amounts shown above represent the current credit risk exposure but not the maximum risk exposure that could arise in the future as a result of changes in values.

Credit quality per class of financial assets

The credit quality of financial assets is managed by the Bank using internal credit ratings. The rating system is supported by a variety of financial analytics, combined with processed market information to provide the inputs for measuring the counterparty risk. Not past due and not impaired assets are subdivided into assets with high, standard and sub-standard grade. Grades are assigned based on the requirements of the national standards for assets quality assessment and international ratings of securities issuers. High grade assets comprise demands to counterparties with good financial position, absence of overdue payments, or secured by the guarantees of the Russian Government, and securities with high international credit ratings. Probability of the breach of contractual terms with regard to such assets can be evaluated as low. Standard grade assets comprise demands to counterparties with average financial position or assets with no overdue payments, which were not included in high grade assets. Probability of the breach of contractual terms with regard to such assets can be evaluated as average. Other financial assets, not past due and not impaired, are assigned a substandard grade. Since not all individually impaired assets are considered past due, not past due individually impaired assets and past due assets are separated. Credit risk measurement methodology has been approved by the Bank's Supervisory Board. Group-wide guidelines for assessing the credit quality of assets have been developed for the purpose of preparing Group's consolidated financial statements.

Other	2	0	0	2
	702	584	4,755	6,041
	Less than 7 days 2010	7 to 30 days 2010	More than 30 days 2010	Total 2010
Loans to customers				
Commercial loans	189	347	3,126	3,662

See Note 14 for more detailed information with respect to the allowance for impairment of loans to customers.

Impairment assessment

The main considerations for the loan impairment assessment include whether any payments of principal or interest are overdue by more than 30 days or there are any known difficulties in the cash flows of counterparties, credit rating downgrades, or infringement of the original terms of the contract. Impairment assessment is performed in two areas: individually assessed allowances and collectively assessed allowances.

Individually assessed allowances

The allowances appropriate for each individually significant loan are determined on an individual basis. Items considered when determining allowance amounts include the sustainability of the counterparty's business plan, its ability to improve performance once a financial difficulty has arisen, projected receipts and the expected dividend payout should bankruptcy ensue, the availability of financial support, the realizable value of collateral, and the timing of the expected cash flows. The impairment losses are evaluated at each reporting date, unless unforeseen circumstances require more careful attention.

Collectively assessed allowances

Allowances are assessed collectively for impairment of loans to customers that are not individually significant (including credit cards, residential mortgages and unsecured consumer lending) and for individually significant loans where there is not yet objective evidence of individual impairment. Allowances are assessed on each reporting date with each portfolio receiving a separate review.

(In millions of Russian rubles)

31. Risk management (continued)

Credit risk (continued)

The collective assessment takes account of impairment that is likely to be present in the portfolio even though there is no yet objective evidence of the impairment in individual assessment. Impairment losses are estimated by taking into consideration the following information: historical losses on the portfolio, current economic conditions, the appropriate delay between the time a loss is likely to have been incurred and the time it will be identified as requiring an individually assessed impairment allowance, and expected receipts and recoveries once impaired.

Financial guarantees and letters of credit are also assessed and provision is made in a similar manner as for loans.

Liquidity risk and funding management

Liquidity risk is the risk that the Group will be unable to meet its financial obligations when they fall due.

The Group manages its liquidity risk at the following levels:

- ▶ Each bank within the Group manages its liquidity on a standalone basis so that it can meet its obligations in full and comply with requirements of the national regulator; for this purpose relevant policies and procedures have been developed that detail the liquidity risk assessment and control process;
- ▶ Liquidity-related issues are considered on the Group's level at the meetings of the Working group on coordination of subsidiary banks' and financial companies' liquidity and risk management and the Working group on coordination of public borrowings of Vnesheconombank's subsidiaries.

Group members assess liquidity risk using analysis of the maturity structure of assets and liabilities, and a liquid asset cushion under various scenarios. To limit liquidity risk, Group members control liquidity gaps and the level of the liquid asset cushion. Subsidiary banks within the Group also forecast and control compliance with mandatory liquidity ratios established by national regulators.

As a part of the liquidity risk management process the Group members perform the following actions limiting the liquidity risk:

- ▶ Regularly monitor the bank's liquidity situation, supervise the compliance with the established limits and review them;
- ▶ Maintain a well-balanced maturity and currency structure of assets and liabilities and an optimal liquid asset cushion;
- ▶ Maintain a diversified structure of funding sources and directions of investments by counterparty;
- ▶ Develop plans to raise debt funding;
- ▶ Assess sustained balances on customers' accounts, monitor the level of concentration of balances on customers' accounts in order to prevent an abrupt outflow of funds from customers' accounts;
- ▶ Perform cash flow modeling and supervise liquidity ratios under various scenarios that reflect changes in the macroeconomic and market operating environment;
- ▶ Perform stress testing of the Bank's exposure to liquidity risk and financial market conditions on a regular basis and as and when significant changes in external and internal factors arise or are expected.

(In millions of Russian rubles)

31. Risk management (continued)

Liquidity risk and funding management (continued)

Operational control over liquidity ratios, including liquidity gaps, is performed at the Bank by the Directorate for Currency and Financial Transactions. The subsequent control is performed by the Risk Management Department. Liquidity control results are reported to the Bank's management and used for making management decisions.

In addition, for the purposes of identifying available sources to cover an unexpected deficit of liquid assets, the Bank daily monitors and forecasts the liquidity reserve. The liquidity reserve comprises the following:

- ▶ Cash on the Bank's correspondent accounts, cash on hand, cash on accounts in stock exchange and clearing centers, and the net balance of the Bank's overnight placements;
- ▶ Short-term deposits placed with banks considered by the Bank as highly reliable;
- ▶ Liquid securities measured at fair value less any discount for unexpected losses due to market risk realization that can be promptly converted into cash or used as a collateralized funding.

In order to take into account any possible changes in projected cash flows, the Bank uses a procedure of stress testing liquidity ratios in accordance with scenarios covering both internal factors, specific to the Bank, and external factors:

- ▶ non-fulfillment by the Bank's counterparties of transaction, loan and debt obligations (credit risk realization);
- ▶ decrease in the market value of the securities portfolio (market risk realization);
- ▶ unexpected outflow of funds from customers' accounts;
- ▶ reduction in the expected inflow of funds to customers' accounts;
- ▶ reduced or closed access to financial market resources;
- ▶ reduction in the Bank's credit rating;
- ▶ early repayment of the attracted interbank loans due to the breaches of set financial covenants.

The Risk Management Department uses the procedure of liquidity ratios stress testing on a scheduled and unscheduled basis. Scheduled stress testing is carried out on a monthly basis. Unscheduled stress testing is carried out upon decision of an authorized body of the Bank, as well as in case of an indication of potential stress changes in internal and external risk factors, upon initiative of the Bank's functions involved in liquidity control activities. Findings of the analysis of the Bank's liquidity indicators calculated for various scenarios are communicated by the Risk Management Department to the Directorate for Currency and Financial Transactions and the Bank's management and are used in making decisions on measures required for regulating liquidity and planning the Bank's operations.

In case of an emergency the Bank uses the following liquidity support mechanisms:

- ▶ selling the portfolio of highly liquid assets (concluding repurchase agreements);
- ▶ limiting the volume of transactions with counterparties having a high credit risk level;
- ▶ suspending issuance of loans, guarantees and credit lines;
- ▶ taking measures to close positions in low liquid securities and to assign loan portfolio-related receivables;
- ▶ strengthening cooperation with Bank's customers for the purpose of short-term planning the Bank's liquidity situation and setting the funds withdrawal schedule;
- ▶ maintaining transparency of the Bank's operations.

Maturities represent remaining terms until repayment in accordance with underlying contractual arrangements at the reporting date.

While the majority of available-for-sale securities is shown as "up to 1 month", realizing such assets upon demand is dependent upon financial market conditions. Significant security positions may not always be liquidated in a short period of time without adverse price effects.

Alternatively, the Group's management believes that the substantial part of the investments in equity investment securities available for sale recognized in "no stated maturity" can guarantee significant volumes of liquidity within a short period of time (up to 1 month) upon sale of these securities on the market or conducting transactions on repurchase agreements.

(In millions of Russian rubles)

31. Risk management (continued)

Liquidity risk and funding management (continued)

These investments, in particular, can ensure the closing of the liquidity gap of RUB 101,256 million in "6 to 12 months, 2011". It should also be noted that this liquidity gap was formed mainly at the expense of interest-bearing deposits of the Bank of Russia, which include special purpose deposits attracted for the program for financial support to OJSC "Sviaz-Bank" and CJSC "GLOBEXBANK" in the amount of RUB 209,486 million (Note 8). The maturity of these deposits (with nominal maturity of 1 year) was extended three times in 2009, 2010 and 2011. In addition to deposits of the Bank of Russia, this liquidity gap is influenced by the interest-bearing deposit of the Russian Ministry of Finance denominated in USD attracted for the financing of investment projects. The maturity of this deposit (with nominal maturity of 1.5 years) was extended in 2011. Taking into consideration this fact and the special purpose-related character of these deposits, the Group's management expects that that the maturity of the deposits of the Bank of Russia and the Russian Ministry of Finance will be also extended in 2012.

Amounts due to the Russian Government, other than deposits from the Bank of Russia, generally do not carry a specified maturity and are shown as having a maturity of up to one month. In practice, these amounts are maintained in the statement of financial position for longer periods.

Analysis of financial liabilities by remaining contractual maturities

The table below summarizes the maturity profile of the Group's financial liabilities at 31 December 2011 and 2010 based on contractual undiscounted repayment obligations. Exception is made for derivatives (assets and liabilities), which are shown by amounts payable and receivable as well as the cost of the realizable non-monetary assets and by contractual maturity. Repayments which are subject to notice are treated as if notice were to be given immediately. However, the Group expects that many customers will not request repayment on the earliest date the Group could be required to pay and the table does not reflect the expected cash flows indicated by the Group's deposit retention history.

Financial liabilities At 31 December 2011	Less than 3 months	3 to 12 months	1 to 5 years	Over 5 years	Total
Amounts due to credit institutions	148,657	61,293	267,916	47,773	525,639
Derivative financial instruments settled through delivery of underlying asset					
- Contractual amounts payable	68,124	101,834	26,430	367	196,755
- Fair value of sold underlying asset	6,112	2,022	29,181	-	37,315
- Contractual amounts receivable	(75,687)	(103,900)	(77,390)	(217)	(257,194)
Due to the Russian Government and the Bank of Russia	27,008	444,623	149,389	577,589	1,198,609

(In millions of Russian rubles)

31. Risk management (continued)

Liquidity risk and funding management (continued)

The maturity analysis of liabilities does not reflect the historical stability of customers' current accounts. Their liquidation has historically taken place over a longer period than indicated in the tables above. These balances are included in amounts due in "less than 3 months" in the tables above.

Included in amounts due to customers are term deposits of individuals. In accordance with the Russian legislation, the Group is obliged to repay such deposits upon demand of a depositor. According to the legislation of the Republic of Belarus and Ukraine, the Group is obliged to repay the amount of these deposits at the first call of the depositor within five days. See Note 23.

The table below shows the contractual expiry by maturity of the Group's financial commitments and contingencies (letters of credit, guarantees, undrawn loan facilities, reimbursement obligations). Each undrawn loan commitment is included in the time band containing the earliest date it can be drawn down. For issued financial guarantee contracts, the maximum amount of the guarantee is allocated to the earliest period in which the guarantee could be called.

	Less than 3 months	3 to 12 months	1 to 5 years	Over 5 years	Total
2011	737,122	–	14,783	–	751,905
2010	639,519	–	2,795	–	642,314

The Group expects that not all of the contingent liabilities or contractual commitments will be drawn before expiry of the commitments.

As at 31 December 2011, credit-related commitments presented in the "less than 3 months" category include liabilities in the amount of RUB 45,231 million (31 December 2010 – RUB 60,744 million) whose maturities are linked to settlements under export contracts.

Market risk

Market risk is the risk of adverse changes in the fair value or future cash flows of financial instruments due to changes in market variables such as interest rates, foreign exchange rates, prices for equities (equity risk) and commodities. The purpose of the Group's market risk management activities is providing a balance between the level of accepted risks and profitability of banking operations.

Group members monitor the market risk level on a daily basis. To control the market risk level and to set its limits the Group uses the sensitivity analysis, calculation based on VaR methodology and stress testing. Consolidated risks of the Group are primarily assessed using the sensitivity analysis.

At the parent entity level interest rate, currency and equity risks are primarily assessed using the VaR methodology which enables assessing maximum unexpected losses from the portfolio of financial instruments that can be incurred during a certain period of time (projection horizon) with a given confidence level. The VaR methodology is a probabilistically statistical approach that takes into account market fluctuations and risks diversification under normal market conditions. The Bank applies the advanced VaR methodology according to which the weighing procedure for statistical data of risk factors depends on their historical distance from the date of calculation. For management and external reporting purposes, the Bank uses VaR calculations with a 99% confidence level and a 10-day projection horizon to assess the price risk of the portfolio of market securities and a 1-day projection horizon to assess the risk of the open currency position of the Bank. The depth of retrospective data used for VaR calculation is 670 working days.

(In millions of Russian rubles)

31. Risk management (continued)

Market risk (continued)

VaR calculation results are assessed by the Bank subject to limitations inherent in the VaR methodology, i.e. possible failure to comply with initial assumptions, namely:

- 1) historical observations used to calculate unexpected losses in the future period might not contain all possible future changes in risk factors, especially in case of any extreme market events;
- 2) usage of a given projection horizon assumes that the Bank's positions in financial instruments can be liquidated or hedged over this period. Should the Bank have large or concentrated positions and/or should the market lose its liquidity, the used period of time might be insufficient for closing or hedging positions but unexpected losses estimated with VaR would remain within set limits;
- 3) applying a 99% confidence level does not permit assessing losses that can be incurred beyond the selected confidence level;
- 4) the VaR methodology assesses the amount of unexpected losses from the portfolio of financial instruments under the assumptions that the volume of positions will remain constant over the projection horizon and the Bank will not perform transactions that change the volume of positions. Should the Bank be engaged in purchase and sale of financial instruments over the projection horizon, VaR estimates can differ from estimates of actual losses.

To control the adequacy of the VaR calculation model, the Bank regularly uses back-testing procedures that enable it to assess differences between estimated and actual losses.

In order to obtain more precise estimates, the Bank is making efforts to enhance inputs used in the current model which provides adequate estimates under normal market conditions. Also, the Bank is making efforts to improve approaches that take into account extraordinary (stress) changes in the market behavior in the process of risk management.

The Bank performs stress testing procedures on regular and unplanned basis that enables the Bank to assess stress losses from realization of unlikely extraordinary events on financial instruments' portfolios and open currency positions, i.e. losses that are out of predictive limits of probabilistically statistical methods. The above approach supplements the risk estimate obtained from the VaR methodology and sensitivity analysis. The Bank uses a wide range of historical and hypothetical (user) scenarios within stress testing procedures. Stress testing results are reported to the Bank's management and used for making management decisions.

Interest rate risk

Interest rate risk arises from the possibility that changes in interest rates will adversely affect the fair values or future cash flows of financial instruments.

The interest rate policy of Group members refers to maintenance of a balanced structure of claims and obligations sensitive to change in interest rates (interest rate position) that provides limitation of possible unfavorable change in net interest income and/or equity of a Group member at an acceptable level.

The procedures of identification, assessment and control of the level of interest rate risk in Group members are formalized through developed internal regulations and rules and well as requirements of national regulators. Group members perform sensitivity analysis of net interest income and equity using different scenarios of market interest rate changes for the purpose of controlling financial losses arising from unfavorable changes in interest rates.

In addition, banks within the Group forecast and control the capital adequacy ratio subject to the effect of the interest rate risk.

(In millions of Russian rubles)

31. Risk management (continued)

Market risk (continued)

Group members use a number of market instruments, including IRS, to manage its interest rate sensitivity and repricing gaps related to changes in interest rates of assets and liabilities.

In performing the sensitivity analysis of the net interest income and equity the interest rate gap method is used. The interest rate gap method is used to assess changes in the amount of net interest income and equity by using data on mismatch of claims and obligations sensitive to interest rate changes aggregated at given maturity intervals. A combination of negative scenarios that take into account the effect of internal and external risk factors related to the market situation is used as a part of the analysis. Scenarios are prepared either based on hypothetical events that can occur in the future or based on past events - historical stress scenarios.

Sensitivity analysis is performed on regular and unplanned basis. The basis for an unplanned sensitivity calculation is as follows:

- ▶ expected appearance of large or concentrated positions in financial instruments' portfolios or significant changes in their value, which can significantly affect the balance of the interest rate position;
- ▶ expectations of significant changes in the market situation as well as socio-political and/or economic events that can have a significant adverse impact on the amount of net interest income/equity.

The Bank uses two approaches in modeling risk factors. The statistical approach is based on the following assumptions:

- 1) the actual structure of volume and maturities of claims and obligations is kept constant in the whole projection horizon;
- 2) changes in the term structure of interest rates occur instantly as of the reporting date and once during the projection horizon.

In addition to the statistical approach to modeling risk factors, the Bank performs the sensitivity analysis by modeling dynamic changes in interest rates and the volume and maturity structure of claims and obligations using a more complex set of assumptions made by the Bank on a case-by-case basis.

The sensitivity of the statement of income is the estimate of the effect of the assumed changes in interest rates on the net interest income before tax for one year calculated for floating rate financial assets and financial liabilities held at 31 December 2011 and 2010, as well as the amount of revaluation of fixed rate trading financial assets and derivative financial instruments. The sensitivity of equity to changes in interest rates is calculated as the amount of revaluation of fixed rate available-for-sale financial assets in case of assumed change in interest rates. The effect of revaluation of financial assets was calculated based on the assumption that there are parallel shifts in the yield curve.

The following table demonstrates the sensitivity to a reasonably possible change in interest rates by key reference rates, with all other variables held constant, of the Group's statement of income.

The sensitivity was calculated for instruments within the Group's portfolio, excluding bonds held within the Bank's portfolio. The interest rate risk for this bond portfolio was calculated using the VaR methodology.

	2011	2010
VaR	4,532	4,644

Currency risk

Currency risk is the risk that the fair value of a financial instrument or future cash flows will change due to changes in foreign exchange rates.

Group members calculate on a daily basis open currency positions by assets and liabilities recorded in the statement of financial position, and claims and obligations not recorded in the statement of financial position, which are subject to changes in currency and precious metals rates. Banks of the Group set limits on the cumulative open position as well as limits on open positions in each currency and for precious metals based on the requirements of the national regulator.

The VaR estimate obtained using the historical modeling method with a 99% confidence level and a 1-day projection horizon is used by the Bank as a currency risk estimate. The aggregate currency risk in respect of the Bank's open currency positions is estimated subject to historical correlation of exchange rates of foreign currencies against the Ruble.

The table below shows open currency positions of the Bank at 31 December 2011 and 2010, which include items of the statement of financial position and currency positions in derivative financial instruments by currencies against the Russian Ruble (open positions).

Currency	2011	2010
UAH	28,428	22,579
BYR	3,378	7,373
EUR	1,829	2,175

USD	(50,422)	5,221

(In millions of Russian rubles)

31. Risk management (continued)

Market risk (continued)

Below is the Bank's VaR measure for open currency positions at 31 December 2011 and 2010:

	<u>2011</u>	<u>2010</u>
VaR	1,097	1,447

Currency revaluation of the Bank's nominal investments in non-negotiable shares of subsidiaries may not reflect changes in the real economic value of these companies.

In order to assess this factor, the risk related to the adjusted aggregate open currency position was calculated with elimination of positions in UAH and BYR which were based mainly on investments in subsidiary banks.

The Bank's VaR measure for open currency positions at 31 December 2011, except for investments in subsidiaries, was RUB 1,010 million. The Bank's VaR for open currency positions at 31 December 2010, except for investments in subsidiaries, was RUB 107 million.

The table below shows the sensitivity of open currency positions of the Group (excluding the Bank) at 31 December 2011 and 2010. The analysis calculates the effect of a reasonably possible movement of the currency rate against the Ruble on the statement of income (due to the fair value of currency sensitive financial assets and liabilities). All other variables are held constant. A negative amount in the table reflects a potential net reduction in the statement of income or equity, while a positive amount reflects a net potential increase.

<u>Currency</u>	<u>Change in currency rate in % 2011</u>	<u>Effect on profit before tax 2011</u>	<u>Change in currency rate in % 2010</u>	<u>Effect on profit before tax 2010</u>

	16.51%	-	16.63%	1
AUD	-16.51%	-	-16.63%	(1)

Operational control over open currency positions is performed by the Directorate for Currency and Financial Transactions. The subsequent control is performed by the Risk Management Department. Results of control over open currency positions are reported to the Bank's management and used for making management decisions.

(In millions of Russian rubles)

31. Risk management (continued)

Market risk (continued)

Equity price risk

Equity price risk is the risk of adverse changes in the fair values or future cash flows of a financial instrument as a result of changes in the levels of equity indices and the value of individual equities.

Group members use the VaR methodology and/or portfolio sensitivity analysis to assess the equity price risk.

Below are VaR measures for the equity portfolio of the Bank at 31 December 2011 and 2010:

	2011	2010
VaR	40,952	31,627

Together with options that hedge in full certain positions in shares and are included within the Bank's portfolio as at the reporting dates, VaR measures for the equity portfolio of the Bank at 31 December 2011 and 2010 are as follows:

	2011	2010
VaR	34,580	26,139

The Bank sets aggregate exposure limits for each portfolio by class of securities in order to limit equity price risk. Within a portfolio "risk borrowing" is permitted, i.e. changing the volume of open positions under individual financial instruments subject to compliance with the set limit of the aggregate market risk for the portfolio and with credit risk limits by issuer.

The limits are approved by the Management Board of Vnesheconombank at the suggestion of the Risk Management Department as agreed with Bank's business units. The set limits are reviewed on a regular basis.

The effect on profit before tax and equity of other Group members of reasonably possible change in equity indices, with all other variables held constant, is as follows:

	Change in index in %, 2011	Change in equity price in %, 2011	Effect on profit before tax, 2011	Effect on equity, 2011
Market index				
MICEX	47%	49%	3	4,981
Russian Depository Index USD	-47%	-49%	(3)	(4,981)
Ukrainian Stock Exchange index	61%	61%	(31)	
	-61%	-61%	31	
	36%			
	-36%	-	-	-
	Change in index in %, 2010	Change in equity price in %, 2010	Effect on profit before tax, 2010	Effect on equity, 2010
Market index				
MICEX	47%	49%	223	2,743
Russian Depository Index USD	-47%	-49%	(223)	(2,743)
Ukrainian Stock Exchange index	59%			
	-59%	-	-	-
	45%	44%		11
	-45%	-44%	-	(11)

(In millions of Russian rubles)

31. Risk management (continued)

Market risk (continued)

Prepayment risk

Prepayment risk is the risk that the Group will incur a financial loss because its customers and counterparties repay or request repayment earlier or later than expected. Management believes that the Group's exposure to prepayment risk is insignificant.

Operational risk

Operational risk is defined as a risk of losses arising from inadequate internal procedures, failures of equipment and information systems (technology risk), human errors or misconduct, and external factors. Legal risk is one of the types of operational risk.

Operational risks are managed in banks of the Group by addressing clearly all of the bank's business processes in the corresponding internal documents and applying internal controls to monitor the compliance with the established procedures as well as by obtaining external insurance.

The Bank has developed procedures of collecting information on risk events resulting in operational losses. The Bank's departments send information on risk events recorded in special forms to the Risk Management Department. The said information is classified, losses are evaluated and reasons for risk events are analyzed. If needed, the risk audit of departments, where risk events have occurred, is performed, and changes are made to the Bank's regulations.

The Bank's Technology Committee is responsible for managing and controlling technology risks. The Banking Infrastructure Protection Department is responsible for providing information and engineering support to all the business divisions in implementing action plans designated to ensure business continuity in the event of IT failures.

The Legal Department is responsible for legal risks and legal support of the Bank's operations. The Bank relies on templates drafted by the Legal Department when preparing transaction documents for transactions executed with counterparties. Any non-standard agreements are to be approved by the Legal Department. The Legal Department is also responsible for the review of the corresponding documents supplied by counterparties that deal with the main lines of the Bank's business. The Bank engages international law firms to assist in executing transactions with foreign partners.

When performing banking transactions and conducting other activities in the event of disaster, the Bank applies emergency procedures and action plans which are governed by internal documents providing guidance to ensure business continuity and/or disaster recovery. The above documents describe principles used to design infrastructure risk protection framework, define a set of measures designated to support the operability of the Bank's protection system, principles, rules and action plans to be implemented by personnel in the event of disaster. Within the framework of activities aimed at providing for business continuity a reserve facility is being developed which would ensure the recovery of Bank's operations in emergency situations that prevent from using the Bank's main building.

32. Fair value of financial instruments

The Group uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

- ▶ Level 1: quoted (unadjusted) prices in active markets for identical assets or liabilities;
- ▶ Level 2: techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly;
- ▶ Level 3: techniques which use inputs which have a significant effect on the recorded fair value that are not based on observable market data.

The following table shows an analysis of financial instruments recorded at fair value by level of the fair value hierarchy:

At 31 December 2011	Level 1	Level 2	Level 3	Total
Financial assets				
Trading financial assets	41,814	–	–	41,814
Derivative financial instruments	–	20,887	8,581	29,468
Financial assets designated as at fair value through profit or loss	18,314	–	4,766	23,080
Investment securities available for sale (including those pledged under repurchase agreements)	422,248	23,917	12,835	459,000
	482,376	44,804	26,182	553,362
Financial liabilities				
Derivative financial instruments	–	6,808	137	6,945
	–	6,808	137	6,945
At 31 December 2010	Level 1	Level 2	Level 3	Total
Financial assets				
Trading financial assets	37,277	–	–	37,277
Derivative financial instruments	–	10,566	719	11,285
Financial assets designated as at fair value through profit or loss	24,824	–	2,758	27,582
Investment securities available for sale (including those pledged under repurchase agreements)	452,984	22,479	1,120	476,583
	515,085	33,045	4,597	552,727
Financial liabilities				
Derivative financial instruments	–	5,416	–	5,416
	–	5,416	–	5,416

Financial instruments recorded at fair value

The following is a description of the determination of fair value for financial instruments which are recorded at fair value using valuation techniques. These incorporate the Bank's estimate of assumptions that a market participant would make when valuing the instruments.

(In millions of Russian rubles)

32. Fair values of financial instruments (continued)

Derivatives

Derivative products valued using a valuation technique with market observable inputs are mainly interest rate swaps, currency swaps and forward foreign exchange contracts. The most frequently applied valuation techniques include forward pricing and swap models using present value calculations. The models incorporate various inputs including the credit quality of counterparties, foreign exchange spot and forward rates and interest rate curves.

Derivative products valued using a valuation technique with significant non-market observable inputs are primarily long-term option contracts. Such derivative products are valued using models, which imply the exercise of options in the shortest possible period of time.

Trading securities and available-for-sale investment securities

Trading securities and available-for-sale investment securities valued using a valuation technique are represented mainly by non-traded equity and debt securities. Such assets are valued using valuation models which incorporate either only observable data or both observable and non-observable data. The non-observable inputs include assumptions regarding the future financial performance of the investee, its risk profile, and economic assumptions regarding the industry and geographical jurisdiction in which the investee operates.

Movements in Level 3 financial instruments measured at fair value

The following table shows a reconciliation of the opening and closing amount of Level 3 financial assets and liabilities which are recorded at fair value:

	At 1 January 2011	Transfers between levels	Gains/ (losses) recorded in profit or loss	Gains/(losses) recorded in other comprehen- sive income	Business combinations	Purchases	At 31 December 2011
Financial assets							
Derivative financial instruments	719	8,132	(270)	–	–	–	8,581
Financial assets designated as at fair value through profit or loss	2,758	–	276	–	–	1,732	4,766
Investment securities available for sale	1,120	112	101	9,244	(521)	2,779	12,835
Total Level 3 financial assets	4,597	8,244	107	9,244	(521)	4,511	26,182
Financial liabilities							
Derivative financial liabilities	–	–	(137)	–	–	–	(137)
Total Level 3 financial liabilities	–	–	(137)	–	–	–	(137)

(In millions of Russian rubles)

32. Fair values of financial instruments (continued)

Movements in level 3 financial instruments measured at fair value (continued)

In 2011, financial assets were transferred to Level 3 as in the reporting period in order to determine the fair value of financial assets the Group started applying techniques, which use inputs that are not based on observable market data.

	At 1 January 2010	Gains/(losses) recorded in profit or loss	Gains/(losses) recorded in other comprehensive income	Purchases	At 31 December 2010
Financial assets					
Derivative financial instruments	276	443	–	–	719
Financial assets designated as at fair value through profit or loss	1,747	(316)	–	1,327	2,758
Investment securities available for sale	406	(305)	897	122	1,120
Total Level 3	2,429	(178)	897	1,449	4,597

Gains or losses on Level 3 financial instruments included in profit or loss for the reporting period, were RUB 30 million of unrealized losses (in 2010 – losses of RUB 178 million).

Transfers between Level 1 and Level 2

The following table shows transfers between Level 1 and Level 2 of the fair value hierarchy for financial assets and liabilities which are recorded at fair value, during the reporting year:

	Transfers from Level 2 to Level 1,	
	2011	2010
Financial assets		
Investment securities available for sale	–	20
	Transfers from Level 1 to Level 2,	
	2011	2010
Financial assets		
Investment securities available for sale	1,626	41

In 2010, the above financial assets were transferred from Level 2 to Level 1 as they became actively traded during the reporting year. There were no transfers from Level 2 to Level 1 in 2011.

In 2011 and 2010, the above financial assets were transferred from Level 1 to Level 2 as they ceased to be actively traded during the year and their fair values were consequently obtained through valuation techniques using observable market inputs.

(In millions of Russian rubles)

32. Fair values of financial instruments (continued)

Impact on fair value of Level 3 financial instruments measured at fair value of changes to key assumptions

The following table shows the impact on the fair value of Level 3 instruments of using reasonably possible alternative assumptions:

	<u>At 31 December 2011</u>	
	Carrying amount	Effect of reasonably possible alternative assumptions
Financial assets		
Derivative financial instruments	8,581	(232)
Financial assets designated as at fair value through profit or loss	4,766	(6)
Investment securities available for sale	12,835	(312)
Financial liabilities		
Derivative financial liabilities	(137)	0
	<u>At 31 December 2010</u>	
	Carrying amount	Effect of reasonably possible alternative assumptions
Financial assets		
Derivative financial instruments	719	7
Financial assets designated as at fair value through profit or loss	2,757	(7)
Investment securities available for sale	1,120	(34)

In order to determine reasonably possible alternative assumptions, the Group adjusted key unobservable model inputs as follows:

- ▶ For other financial assets as at fair value through profit or loss and derivative financial instruments, the Group adjusted the amount of the assets held by the closed-end mutual fund by decreasing that by 3% assuming a change in the main pricing adjustments.
- ▶ For derivative financial instruments, the Group adjusted the interest rate used for calculation of discounted cash-flows nominated in BYR, USD, EUR and RUB. The adjustment decreased the interest rate by 1,000 basis points for cash-flows nominated in BYR and by 50 basis points for other currencies.
- ▶ The Group adjusted the rate of return on equity by 2%, which is used to discount expected cash flows of the first issuer. The adjustment was made by applying the increased risk ratio related to the projected income.
- ▶ For shares of the second issuer, the Group adjusted the rate of return on borrowed capital by 1.2% which is an element of calculation of the weighted average cost of capital used for discounting expected cash flows of the issuer.
- ▶ For shares of the third issuer, the Group adjusted the risk premium on investments in shares by 2% which is an element of calculation of the weighted average cost of capital used for discounting expected cash flows of the issuer.
- ▶ In 2010, for shares of the fourth issuer, the Group adjusted the multiplier "Cost / Gross profit" by 0.4% which was used for calculation of market value of owner's equity based on comparative approach (these shares were sold during 2011 in connection with business combination).

(In millions of Russian rubles)

32. Fair values of financial instruments (continued)

Financial instruments not recorded at fair value in the statement of financial position

Set out below is a comparison, by class, of the carrying values and fair values of the Group's financial instruments that are not recorded at fair value in the consolidated statement of financial position. The table does not include the fair values of non-financial assets and non-financial liabilities.

	Carrying value 2011	Fair value 2011	Unrecognized gain/ (loss) 2011	Carrying value 2010	Fair value 2010	Unrecognized gain/ (loss) 2010
Financial assets						
Cash and cash equivalents	178,028	178,028	–	196,672	196,672	–
Amounts due from credit institutions	457,698	459,280	1,582	415,641	415,705	64
Loans to customers	1,228,923	1,221,641	(7,282)	787,926	789,467	1,541
Investment securities held to maturity	17,779	17,466	(313)	21,536	21,243	(293)
Financial liabilities						
Amounts due to credit institutions	472,014	467,672	4,342	235,027	235,051	(24)
Due to the Russian Government and the Bank of Russia	884,592	884,606	(14)	814,901	814,901	–
Amounts due to customers	352,424	352,021	403	290,098	291,408	(1,310)
Debt securities issued	261,030	262,468	(1,438)	186,947	187,524	(577)
Total unrecognized change in unrealized fair value			(2,720)			(599)

The following describes the methodologies and assumptions used to determine fair values for those financial instruments which are not already recorded at fair value in the financial statements.

Assets for which fair value approximates carrying value

For financial assets and financial liabilities that are liquid or having a short term maturity (less than three months) it is assumed that their carrying value approximates their fair value. This assumption also applies to demand deposits and assets without a specific maturity.

Fixed and floating rate financial instruments

For quoted debt instruments fair values are calculated based on quoted market prices. The fair values of unquoted debt instruments are estimated by discounting future cash flows using rates currently available for debt on similar terms, credit risk and remaining maturities.

(In millions of Russian rubles)

33. Related party transactions

In accordance with IAS 24 *Related Party Disclosures*, parties are considered to be related if one party has the ability to control the other party or exercise significant influence over the other party in making financial or operational decisions. In considering each possible related party relationship, attention is directed to the substance of the relationship, and not merely the legal form.

Related parties may enter into transactions which unrelated parties might not, and transactions between related parties may not be effected on the same terms, conditions and amounts as transactions between unrelated parties.

Related parties include the state, key management of the Group and associated companies. Since Vnesheconombank is a state corporation, all state-controlled entities or entities on which the state has a significant influence (collectively – state-related entities) are considered to be related parties of the Group.

Transactions with associates and key management personnel

The volumes of transactions associates and key management personnel, outstanding balances at the year end, and related expense and income for the year are as follows:

	2011		2010

Transactions with the state, state institutions and state-related entities

The information about transactions with the Russian Government, its authorized institutions and the Bank of Russia is provided in Note 8.

The Bank is servicing, in an agency capacity, the foreign debt of the former USSR and the Russian Federation until the date determined by the Russian Government (Note 9).

(In millions of Russian rubles)

33. Related party transactions (continued)

In addition, at 31 December 2011 transactions with state-related entities include the Group's deposits with the CBR Bank of Russia that mature within 90 days totaling RUB 120 million (31 December 2010: RUB 195 million) (Note 10) and cash non-interest-bearing deposits (obligatory reserves) maintained by the Group's subsidiary banks with the Bank of Russia in the amount of RUB 4,001 million (31 December 2010: RUB 1,137 million) (Note 12).

In the normal course of its business the Bank and Group's subsidiaries grant loans to state-related credit institutions, as well as raise financing and issue guarantees in regard to these institutions (the list of transactions with the credit institutions is not complete). These transactions are carried out primarily under market conditions. Transactions with state-related credit institutions account for the major portion of all Group's operations on granting loans to credit institutions and the minor portion of financing raised from credit institutions and guarantees issued. Balances of significant transactions with state-related credit institutions at 31 December 2011 and 2010 are stated in the table below:

Credit institution	Types of transactions	Amounts due from credit institutions	
		At 31 December 2011	At 31 December 2010
Credit institution 1	Subordinated loans	182,140	180,609

Amounts due to the Russian Government	(39,277)	(34,770)

34. Capital adequacy

The capital adequacy ratio is one of the most important indicators characterizing the level of risks accepted by the Bank and, therefore, determining its financial stability. To comply with a minimum level of 10% set out in the Memorandum on Financial Policies and to maintain a high credit rating, the Bank monitors its capital adequacy ratio on an ongoing basis.

The methods of computing the capital adequacy ratio are elaborated on the basis of regulations issued by the Bank of Russia and with regard to the generally acceptable international practices of computing capital adequacy ratios, and approved by the Supervisory Board of the Bank.

In 2011 and 2010, the Bank complied with capital adequacy ratio requirements.

At 31 December, the Bank's capital adequacy ratio calculated in accordance with the above methods was as follows:

	2011	2010
Main capital	484,505	455,653
Additional capital	62,618	62,184
Less: deductions from capital	(210,363)	(154,247)
Total capital	336,760	363,590
Risk-weighted assets	2,315,833	1,805,426
Capital adequacy ratio	14.5%	20.1%

(In millions of Russian rubles)

34. Capital adequacy (continued)

In order to maintain or adjust the capital structure and in accordance with Federal law No. 82-FZ, the charter capital of the Bank may be increased pursuant to a resolution of the Russian Government on the account of additional monetary contribution of the Russian Federation or income of Vnesheconombank. Proposals regarding income distribution are drafted by the Management Board of the Bank and further approved by the Supervisory Board.

35. Subsequent events

In January 2012, the reorganization of CJSC "GLOBEXBANK" in a form of affiliation of OJSC NTB was completed. As the successor of OJSC NTB, CJSC "GLOBEXBANK" shall undertake its liabilities in full and within the terms previously stipulated.

In January 2012, the Bank issued a counter-guarantee for a state company in the amount of RUB 4,073 million (equivalent to USD 130 million at the date of issuance).

In February 2012, the Bank placed Eurobonds with a 5-year maturity period in the amount of USD 750 million (RUB 22,419 million at the date of placement) through a special purpose entity.

In February 2012, under OJSC "Belvnesheconombank"'s private subscription for additional shares, Vnesheconombank paid for 4,055,000,000 shares (equivalent to RUB 1,456 million as at the date of payment). As at the date of signing the report, a report on placing the additional issue of shares of OJSC Belvnesheconombank was not completed.

In February 2012, the Bank placed 3-year currency bonds in the amount of USD 500 million (RUB 14,890 million at the date of placement) at MICEX through an open subscription. This bond issue provides for a 1-year offer.

In February 2012, under the financing agreement with the Fund for the Capitalization of Russian Banks (the FCRB) Vnesheconombank transferred USD 250 million (RUB 7,445 million at the date of transfer) to the International Finance Corporation (IFC). The FCRB to be established is to invest in the capital of Russian universal second echelon banks actively operating in the regions and funding small and medium-sized real-sector businesses.

In February 2012, OJSC "VEB-Leasing" issued non-convertible interest-bearing documentary bonds, Series 06, in the total amount of RUB 10,000 million, maturing in 10 years.

In March 2012, the Bank placed RUB-denominated domestic bonds in the total amount of RUB 15,000 million at MICEX. The bonds mature in 20 years. This bond issue provides for a 3-year offer.

In March 2012, amendments were registered in the charter of the subsidiary bank OJSC "Belvnesheconombank" related to the change of the abbreviated name to OJSC "Bank BelVEB".

In March 2012, the Bank transferred funds in the amount of RUB 1,269 million as an additional monetary contribution to the charter capital of LLC "VEB Capital". The Bank's interest in the charter capital of its subsidiary remained unchanged at 100%.

In March 2012, the Bank transferred funds in the amount of USD 52 million (equal to RUB 1,507 million at the date of transfer) to repay 112,284 additional investment units of Mutual Equity Fund MRIF-II, thus increasing its interest in the Fund to 99.9990%.

(In millions of Russian rubles)

35. Subsequent events (continued)

In March 2012, the Bank redeemed at face value short-term Euro-denominated debt securities issued by a foreign government in the amount of EUR 200 million (equal to RUB 7,808 million at the date of redemption), previously classified as loans to customers.

In March 2012, OJSC "SME Bank" placed RUB-denominated domestic bonds in the total amount of RUB 5,000 million at MICEX. The bonds mature in 10 years. This bond issue provides for a 2-year offer.

In March 2012, the Bank received a loan from a foreign bank in the amount of USD 70 million (equal to RUB 2,742 million at the date of issue) with a floating interest rate and maturity date in 4 years. The amount will be used to finance the real sector.

After the reporting date, the Bank signed material loan agreements in the total amount of RUB 17,362 million with companies operating in energy, construction, real estate and production industries.
